III. Executive Director Items

A. July Executive Director Report

- Bill shared information about the Summer School program at the school and the students that participated in the Camp Beyond Program. Sarah shared her daughter's experience participating in Camp Beyond. Bill also shared information about the Math Resilient Students (MaRS) program that took place at school, in partnership with Smith College. Fifteen students in 1st through 7th grade participated. Sally asked about how students are selected for this and Bill described how Jess worked with teachers to identify students they thought would benefit from the program.
- In addition, the school had 25 students attend Camp Weber with the help of a scholarship and an additional student attended Camp Becket, also with the support of a scholarship.
- Bill shared information about two new hires, including a new Managing Director of Business and Operations and a Development and Communications Coordinator.
- Bill shared appreciation for Sarah, Sally, Bob and Sherriff for their additional contributions to the school over the past month.
- Bill reported about some recent news articles about Springfield Prep, including one article that highlighted Springfield Prep as one of only 6 schools in MA that are considered high-poverty schools and are exceeding state performance averages in both ELA and Math.

IV. Finance Items

A. End of Year Financials

- Meghan shared that she was just able to finish the End of Year Financials and that the headline is that there is nothing that different from what we've been looking at over the past year, which is good news. On the DESE Finance Dashboard, we expect the two areas of moderate risk to move into the low risk category in FY25 due to the end of ESSER.
- In terms of expenses, we trended under budget in all areas except personnel. This was because benefits were more expensive than projected, so we budgeted higher for FY25. It was also because we gave a staff bonus at the end of the year given our strong financial position. The net position is a strong place to be and does not put us in a problematic position in terms of excess surplus carryover.
- Amy asked if there were any preliminary audit indications. Meghan shared that so far, it has been smooth and there's no indication of any issue.

V. Governance & Compliance Items

A. Annual Report

- Bill provided an overview of the annual report, a summary of key areas of the charter school performance criteria. Bill highlighted that the student discipline data in this report is higher than the state average, but noted that this data is from 2022.

He explained that discipline data this year was much lower and that last year was an anomaly. The board discussed reasons for the suspension increase in the previous year and why the numbers decreased during the past year.

- Bill also reviewed the Accountability Plan and the Recruitment and Retention Plans. The board discussed some of the discrepancies between our percentages of special populations and the comparison index.

S. Fuller made a motion to approve the 2023 DESE Annual Report.

R. Leonard seconded the motion.

The board **VOTED** unanimously to approve the motion.

- The board discussed potential areas of concern and Bill noted that we still have some teachers who have not been able to pass the MTEs within their first year. The board asked questions about this and Bill described the ways the school is supporting with these efforts, including financial incentives and MTEL preparation support.

Meghan explained that she had just attended a training on this topic during the past week and that we have other training opportunities coming up. Bill noted that if there was a Title IX issue, we would consult with the school's counsel to provide additional in-the-moment support.
