#### **A. School Update**

Amanda presents on current activities at the school

1. FORCE: Families of Respectful, Compassionate Engineers (family volunteer group) has been very active, holding monthly meeting since August. Feeling appreciative of their efforts.
2. Snow School with Coach Peter: A success for kids. Very much enjoyed by grades 3-6.
3. Natasha's Capstone Project: Leading Charge for Middle School Transitions
4. Winter MAP Testing: Taking place next week to see Engineer growth. Heather & Amanda will spend day digging into data once compete.
5. Events: Literacy Night Feb 16 & Two's Day/Tuesday/2/22/22: Taco Tuesday, dance party, academics around 'two'
6. Student Recruitment beginning for SY23
7. Staff Updates & Hiring
  - According to Indeed research, Idaho is at the epicenter of a labor shortage.
  - All teachers leaving will not be leaving to other schools. Leaving education all together. Not loosing too much institutional knowledge.
  - This is a national uptick in teacher turn around since the pandemic.
8. Covid Command Center
  - Health & Welfare Federal Subgrant of \$68,000 funding for BSU weekly testing offered to family, Engineers, & staff. 100 families have consented to weekly testing. Testing helps us predict staffing needs and reducing asymptomatic spread.
  - Funding to cover contract hours of about 10-15 hours/week

- One of few schools in the valley offering on site testing, most need to go to Boise State campus. We are one of few charters offering a sick bank to assist with employee absences.

9. Covid Committee Need

- 2-3 Board Members to partner and consult with revisiting mask policy post-Omicron, contract rate for admin duties related to subgrant, school closure logistics and board support and alignment if needed. **Anyone looking to serve? Low lift, 1-2 hours/month. Please let Amanda know if interested.**

**B. 2020-2021 Academic Goals & Growth**

Amanda presents on school's academic pulse (refer to slides)

1. Key Take Aways

- Engineers that stay with Future the longest are showing the most improvement.
- Although we have phenomenal growth, we are still not hitting absolute achievement.
- Future has many Engineers with diverse needs.

2. Launched Tier 2 Intervention Group: Engineers not identified as Tier 3 but still presenting needs meeting with Chris and Sarah

3. Future exceeds in student growth compared to all other 14 Idaho schools within Bluum's Portfolio. Although absolute achievement is still not tracking, Future Engineers are making bounds of progress!

**III. Governance**

Colleen gives update on her status as Board Chair. Team looks forward to continuing to work with her and providing support as needed.
