II. Updates

A. General Updates

- Reviewed the Data Review/Meeting calendar and confirmed ready to go to January board meeting
- H. Herklotz got DIBELS data this week (1/6/25)
 - Quick take:
 - K 1st takes - disaggregated by classroom, seems pretty consistent across classrooms
 - 2/3 required intensive support
 - Beginning 1st - 4th grade, doing winter later this month
 - 1-3rd grade: a lot needing intensive support but it decreases by every advancing in grade
 - 4th grade: much smaller percentage of needing intensive support
 - Reading program implemented this year, (Montessori Reading Acceleration Program) did an assessment at the same time and have mid-year data. Seeing significant growth. Question: Will that be reflected in the DIBELS data?
 - Look at MRAP and DIBELS progress data in March
- STAR data in Open Architects
 - Quick take:
 - FY 23-24: It looks like there was a dip in performance last year
 - Last year there was a difference in the frequency of testing between lower and upper EL AND it was first year of implementation
 - FY 24-25: seeing slight growth
 - Deep dive in February
 - What might we compare STAR data to?
 - Is there alignment/correlation with MCAS data (only 3rd -8th)?
 - Ask Math interventionists (Shannon and Stephanie) to join February and present on STAR Math progress data.

B. New/Other Business
