### A. Surveillance Camera Policy

Ginger spoke regarding the new surveillance camera policy. Goal is to increase school safety, deter bad behavior and have more evidence in the case of incidents. Policy was derived from policies at 2 other MA charter schools.

Cameras are visible, signage to declare presence to anyone entering the building, and not placed in any private places such as bathrooms.

They do not record sound to stay compliant with wire tapping laws

Hallways, entryways and exits. Perhaps secondary areas such as great room. Will not be monitored live.

Video would be stored for 30 days by server of company the school is using. Accessible to authorized individuals only.

Currently evaluating vendors. One has been in today, 2 more coming. Expecting quotes this month.

Question: how many incidents/year? 15-20

Budget? Still being determined. There are options at many price points. There would be a monthly monitoring cost

Timeframe? A: Depends on cost, but may be an item for next school year's budget

Q: Would there be grant money available for this? A: Definitely a possibility. Look into recent school safety grant that was discussed.

Questions via email. Will be distributed to board.

## I. Finance

Jeff Hood introduced discussion on capital improvement project. Large sum currently due to architecture and construction firms for planning work done to date (approx \$221k)

Jeff's questions for them: We received 2 numbers for project cost: \$1.4 million (napkin math), total project budget cost was double this amount. This was it includes the full costs including legal, planning, etc. Still just an estimate and actual cost could be even higher

Alternative bid strategy suggestion: We would put out a bid for several things we are interested in. HVAC is most important, electrical panel next. Under MA law, alternative bid strategy has specific details and requirements that can be restricting based on priority of projects. Clear decision needed in coming weeks.

Mad rush by school systems for summer work. May want to consider a start a bit later in the summer as it could reduce costs.

\$13-\$20k costs for getting bids to us. Bid process is required under MA law to due to size/cost of project

How do we afford this and stay within DESE financial metrics?

Question: what was building subcommittee thoughts? a: lower cost option (recoating roof vs replacement). They felt it was best to move forward with process rather than pause.

Question: What would delta now be between recoating and replacement given jump from original estimate to full project estimate?

R. Turner made a motion to Move forward with capital project to bid stage (format to be qualified).

J. Landry seconded the motion.

The board **VOTED** to approve the motion.

Veronica: Tuition went up by \$300 something per pupil, \$99,000 more than budgeted

Personnel cost is biggest increase on budget sheet. 4 additional positions plus changes. This will be a focus on next year's budget

In admin Board on Track is largest non-budgeted expense. Accounting firm cost also increased and there were additional billable hours

ERTC funds release of \$825k to be realized along with capital project estimate costs as noted above.

New budget development project begins next month. First draft released in March.

Question: Is Phil's departure factored into budget and will there be offset from new hire?

A: No, but not planning to start new hire until 7/1 most likely.

Question: Are we in the black without including ERTC? Yes, slightly.

Question: Are there ways to reduce spend via adjustments this year? Jeff L and Veronica not in favor of making mid year changes that affect student experience.
