MP CPAs presented the results of the financial audit. This was their 2nd year performing the audit.. They thanked Marc for his help and contributions.

Charter school office introduced 2 new tests for auditors this year. 1) Inspection of all ed grants. All grants were properly closed (as required). 2) Review of reporting dates/deadlines. 2 years needed to examine any late filings. 2 potential findings of late reports (2024 annual report- 1 day late, Oct sims report- 4 days late). They are verifying with DESE whether these were actually late or not.

Significant accounting policies were reviewed. Financial statements and disclosures were all consistent and clear. Unmodified clean opinion on financial statements

1 non-compliance item, it was not considered a deficiency (this was the late reports previously mentioned)

The are still awaiting a report from the accounting firm for review. Hoping to have this before Monday. Jeff L will follow up with Elizabeth about this.

Question regarding how building lease appears on financials. Auditors will follow up via email.

Questions to board as required regarding fraud, litigation, etc. Answered "no" to all.

Firm will forward results to state auditor as well.

V. Guzman made a motion to Approve draft of audit.

G. Kumar seconded the motion.

The board **VOTED** to approve the motion.

## **B. Accountability Report Amendment**

Ginger presented amendments to the Accountability Plan.

Most of the amendments were to make it factually accurate based on terminology and how tests are measured. Also changed wording regarding inviting community to Montessori talks and workshops rather than Montessori training which would be prohibitively expensive.

Also some updates to the staff survey goals to be more reflective of previous results.

#### **J. School Performance Data**

Hannah provided dissemination of performance data.

ELA:

3rd grade was weakest against state average

8th grade was strongest against state avg (Surpassing in every category)

Hannah's assessment is that students are coming in extremely low, but growing them significantly over their time here, eventually passing city avg.

Math:

Scores continue to lag behind state averages

Hannah's opinion: Students understand concepts, stumble on the equations themselves.

We need to refocus how we think about math. Not desired result based on time and money spent to date. Taking a 2-pronged approach to address (short and long term).

Jaileen is doing remedial work for kids who need intervention.

3rd grade weakest, 6th grade strongest.

Civics:

HVM performing very well against city and state averages.

Science:

Comparable to state averages across all categories

We are in the green cash-wise, and looking good for 60-day outlook
