B. Innovare Visualization & Data Tracking with YPICS Board Dashboards

Board Members and the Executive Team shared their vision, hopes, and dreams for this year. They expect that YPICS will continue to prioritize the whole child. For example, increasing academic outcomes is a must and supporting scholars through Social Emotional Learning/Counseling. They desire that the technology strategies learned during distance learning be utilized for in-person instruction and school community parent communications. The Board wants the schools to ensure that there are multiple opportunities and pathways for students to receive counseling and a feedback loop for students to use their voices to problem-solve. Support teachers and staff so that every scholar every day is provided grade-level work and assignments. As YPICS recommits to the Hallmarks outlined in each charter petition, the Board expects that the organization is a place where employees come to work and thrive, and as a result, scholars will also thrive.

III. School Data Review

A. Bert Corona Charter School

The Full Board reviewed data from the 20-21 school- year and wanted to review responses to the CSD questions during the spring oversight visit. The Board is clear that the data review from the CSD in the spring is still referring to two-year-old data but also asked Executive Administrator Myers, "How are the scholars doing now? How do we know that they are growing? Are they producing enough? What is the school doing to support the teachers? Based on this data, what are your priority goals that we will be able to see tracked on the Innovare Board Dashboard, which The Executive Director will provide at regular board meetings?" Ultimately, the Board was pleased with the student growth and pushed the team to better support teachers, students, and families to obtain better outcomes. The board would also like to see data presented in alignment for the middle schools.

B. Bert Corona Charter High School

The Board asked the same questions of Executive Administrator Simonsen as they did the middle school administrators. In addition, asked the following questions of the high school, "We want to know your A-G passage rate? Tell us about your compliance with AB 104. Are there any families or students that we should review and consider any additional support to complete high school? Based on your compliance with AB 104, are we serving any 5th-year seniors? If so, how many? What are we doing to support

parents through their fears of sending their children to college during the Pandemic? What additional supports are we providing students who left to attend college last year and this Spring?" The Board also wants to see the High School's EL progress reported in the Innovare Data Dashboard.

C. Scheduled Break
