L. Turner called a meeting of the board of directors of BELIEVE SCHOOLS, INC to order on Thursday May 19, 2022 at 5:16 PM.

B. Welcome and Attendance

C. Approve Minutes

II. School Updates

A. Principal's Report

Team has been on the move with class trips, retreats etc. Testing for WIDA, PSAT, and Bio ECA happened over the past two weeks.

Today was the last day of instruction. Monday & Tuesday are finals day for the entire building. Deadlines end on Friday.

There's been a dip in the GPA in the 4th quarter. There are a few factors causing the concerns/issues.

- **Dual Enrollment Scholars:** Spring break schedules did not align which caused a delay for some kids.
- **CTE Electives:** Kids struggling with blended learning platform.
- **1st Quarter:** Grades were inflated.. we grade for equity. Ensuring that grades reflect what scholars know.

Looking to see an increase in the data.

9th grade data is higher than 10th grade. 50% of 10th graders are dually enrolled and AP courses.

Reading Proficiency

MOY data points are reflected in the chart on screen. More kids grew from proficient to advanced.

EOY: 10th/11th graders tested. Need data to broken out by cohorts.

Pre-SAT/Post-SAT

We don't have the 100% solid comparison yet. This data breaks down where our students were in August vs where they were in the spring. 712-780 jump in growth. 770-860 jump in 10th/11th grade. Noble network experiences 60-70 points growth in SAT (established, highly regarded network). We are in comparison to what we're seeing in large networks.

Dr. T questioned correlation of data. Comparing GPAs to testing data.

PSAT Data: PSAT and SAT are not apples to apples comparisons. If data holds true we can beat Purdue Englewood, KIPP Legacy.

BIO ECA is coming later this month. More information to share.

Culture

Scholar status data is shared in the deck. 14% kids have never leveled up. 23% are in the highest group.

Guest questioned if kids can be demoted. Ms. Jackson-Anderson shared that it can happen on rare occasions. We may demote statuses for academic purposes. System is assessed every 5 weeks.

Attendance data and enrollment data was shared.

Formal Observation Data will be shared next week.

Hiring: We're looking to hire a DOI and Dean of Culture/Student Experience. We feel confident about science vacancies. ELA candidate decided he no longer wanted to teach. Instructional staff is almost completely hired -- we're looking for another EL teacher.

Overall, the team is tired! We've had several trips over the past three weekend. Trips were pivotal to our mission. Growth retreat took place last weekend -- lots of good feedback around culture systems. We're moving from kids earning a livable wage to thriving wage and wealth building. We want career fields and college that will allow them to thrive holistically.

Major push: is to have 4 year scope and sequence around financial literacy.

Exploratory Pieces: Top 15% and Bottom 15% -- looking for areas of growth. Looking to increase AP courses, increase internship opportunities.

Other Major Piece: Our Black students outperform Latinx population. That is not what is happening nationwide.

HH: Questioned data storage. Where is it being shared? Data warehouse?

KNB: Strong opportunity for data dashboard -- looking for partners to help with this.

B. 2022-2023 School Calendar

KNB:

We had to reduce the # of remote learning days.

As EVP, we have a three day weekend every month. We are trying to be intentional by giving teachers breaks. Continuing to build a safe space.

C. Glier made a motion to Approve 22-23 academic calendar.

J. Fulk seconded the motion.

The board **VOTED** to approve the motion.
