A. EdTec Financial Report by Peter Laub

	Previous Forecast	Current Forecast.
Variance		
State Source	2,437,066	2,371,332
(65,735)		
The variance for the state source is due to the initial QBE forecast at the beginning of the school year. With the state's midyear 5mill offset review and summary we over forecasted by 65,735. This amount will deducted from our monthly QBE payment over three months: April, May, and June.		

There was an influx of cash due to the Federal Title 1 and IDEA updated allocation.

Previous Forecast: 1,055,718. Current Forecast: 1,084,422. Variance: 28,704.

Net total revenue:(37,031).

There are two new grants:

- Stronger Connection: \$30k
- Computer Science Teacher and Equipment and Communication: \$2k

There is a recurring credit card bill that is on the Truist account that we have no details on.

It has had a wide range of charges since September 23 timeframe, ranging from \$800+ to \$4300. Kolt sent a request to Samantha at EdTec to investigate and report details for our review.
