A. Scenario and Board Financial Literacy Support	Discuss	Aubree Guyton	15 m
---	---------	---------------	------

How will we onboard new board members to understand and have good questions in reference to school financials?

What will the annual board trainings around Fiduciary responsibilities and best practices look like?

How will we onboard board members who join mid-year? Is there a way to do this to not overload one of us (maybe recordings)?

Who will do this and how do we keep track?

How do we keep the board on the info/questions included in the two aforementioned documents (contract & 50+ questions)?

Suggestion from Matt:

1. **Short term sustainability:** do we have enough resources (cash) to meet short term obligations (AP and payroll for the next 3-6 months)?
 - How does the Board track this? The cash piece on the dashboard would be the discussion starter: "Is cash red, green or yellow? If it's not green, why and what are we doing to fix it?"
2. **Long term sustainability:** do we have a multi year plan that shows us being sustainable in the long term?
 - This is more of a yearly discussion, around budget time: "Does the 5 year budget show sustainability? (positive net incomes and 30-60 days ending cash, by month; meeting fiscal covenants); if not, what is the plan to make the organization sustainable?"
3. **Budget status:** is management sticking to the budget?
 - How does the Board track this? The revenues and expenses trackers on the dashboard: "Are revenues and expenses tracking to budget? If not, what is the plan to get back on track?"
 - They should also be certain that the FC has reviewed a line by line budget to actual report, with updated forecasts, and that if a budget account is projected to go materially over budget, that there's a reason / plan behind it.
