1. What do you find appealing about PCM's Mission and Vision?

PCM's Mission and Vision is appealing to me because the school uses their unique approach to better prepare kids for their future. Kids and their families need choices in school formats, and PCM offers that for the Pullman community. This alternate approach tracks with my own background; as I found late in life that I learn differently and the traditional school systems were not designed for my learning styles.

2. What skills, connections, acumen, and/or characteristics would you bring to the PCM board to further us on our pursuit to achieve our mission and vision?

I have spent the last 10 years in the for profit sector, managing large teams and P&Ls across large geographies. I can bring a financial approach to the board, along with the practice of conveying my thoughts and ideas to finance-inclined people and non-finance inclined people. I am also happy to provide what insight I can from the larger charter sector from my role as Director of Finance and Operations for WSCSA.

3. Can you consistently commit an average of 12 hours per month towards growing your skills and fully participating in board responsibilities (promotional events, board meeting preparation and participation, board training, and/or committee meetings)?

Please provide 2 references that can speak to the skills, connections, acumen and/or characteristics you spoke to above.
