## **II. Finance**

### **A. Review end of year financials**

Wendy asked a question about what scrutiny would come from the DCPCSB, given that we were at a loss at the end of FY24. Mike said that the DCPCSB has been proactive in reaching out to schools regarding their financial status. We are waiting for the FAR report. In general the financial news for our school is good. Last year was a down year and we have rebounded since we are currently enrolled above our budget. We will be asked questions, however we have good answers.

Wendy asked if there were any items that were outstanding financially that we needed to discuss. Mike confirmed that we are looking at a loss for the end of the prior fiscal year. He indicated that nothing jumps our for the audit that would be a concern.

The ongoing risks with enrollment will remain. How do we compete for the students to enroll in our school? Slide 4 in the presentation shows the trickle down impact of low enrollment and its impact on as-risk funding.

We need to be prepared to have a conversation with Howard University about the importance of maintaining our cash cushion. FY25 financials look solid.

The financial report for July and August will show how we are trending.
