IV. Superintendent's Update

A. End of the Year Report

Dr. Mary Streshly introduced the newest cadet commander and cadet board member, Ryan Ton. She mentioned that Ryan will be a part of the voting process except for the confidential and legal matters starting in the fall semester.

Dr. Streshly explained that there are plans in place to have a student update at every meeting so that the Board of Directors are informed of what is happening from the student perspective.

Cadet First Lieutenant (C/1LT) Ryan Ton introduced himself as the brigade commander for the 2023-2024 school year. He explained that OMI was having the first of two entrance camps for the incoming middle school candidates and the attendance was "pretty good." He explained that the new candidates had a chance to learn about different aspects like basic CACC knowledge, drills and ceremonies, and the history of OMI. The candidates were taken on a trip to Camp Parks so that they can experience something new and develop group morale/trust.

The candidates who did not have the opportunity to pass the camp in June will have a second chance to complete camp in July.

The Wednesday that passed before the board meeting marked the final major review from the California Collaborative for Excellence in Education direct technical assistance report of OMI. Dr. Streshly came in the tail end of the process but CCEE had been working with OMI for years to this point. The CCEE gave OMI indications at areas that needed improvement and gave praise in other areas that saw growth. Dr. Ting Sun and Dr. Streshly worked together to give updates to the CCEE that improvement was shown in the areas that needed enhanced focus.

With the retirement of the CFO, Joe Wire, Dr. Streshly and others got together to explain how the transition would be working. A fiscal services organizational chart was discussed to be made and shown at the June 22, 2023 Board meeting. A management organizational chart will be made and shown at a later date. A management retreat was

scheduled so that the team could get together and discuss how to take on the upcoming school year.

The Director of Teaching and Learning position was recently filled by Shann Chu. This position was opened in order for Dr. Streshly to be able to go support teachers and students in the classroom. Being able to observe how the material is being taught and how the students are retaining the information would be a good way for the Superintendent to plan ahead for interventions that will help in aiding student learning. Shann Chu introduced himself and explained that right now he is trying to observe as much as possible and will act upon that information gathered.

Dr. Streshly expressed her content with where OMI was in the pursuit of attaining staff members in the summer.

In regards to dual enrollment and Advanced Placement classes, there is an appeal to prospective students for both so OMI should explore seeing if both types of classes are offered.

V. Information/Discussion Items

A. Summer School Update

Tim Murray gave an update on how summer school was going.

Summer school attendance projections came out to 52 students and all but 4 students attended. Since summer school had a strict attendance policy, those four students were disenrolled from the program.

The high school program would roughly take 50-60 hours to complete a semester's worth of work. Some students reported back that the program's guided notes and the instructional videos helped tremendously. The middle school enacted a blended learning math opportunity to help with credit recovery.

Some of the classes offered were English, Math, Spanish, History, Science, physical education, and military science.

Exit tickets and placement tests will be given at the end of the summer school session in order to test proficiency of the topics learned.

B. 2023 Graduates "At A Glance"

60 seniors out of 60 seniors were able to walk during the graduation.

35 of the 60 seniors are going to be attending 4 year colleges and some received financial aid that would cover 100% of their tuition.

75% of the graduating class completed the A-G requirements and were eligible to be accepted into 4 year colleges. This percentage is up from the previous year by 16% with the goal to raise the percentage to 100%.

One goal for the next school year is to submit 100% of student applications to the Oakland Promise Scholarship and others so that as much help is given to the students financially.

The students took exit surveys when they graduated and gave valuable feedback that will help with the furthering of the education of the upper classpersons ready for graduation.

VI. Public Hearing

A. 2023-2024 Proposed Budget

Jacque Eischens gave a synopsis of the 2023-2024 proposed budget.

She highlighted the May revision for the Board. She mentioned that the proposed Cost of Living Adjustment (COLA) increase would be coming out of the reduction to the Arts, Music, and Instructional materials discretionary block grants (one time fundings).

She mentioned that the high inflation, increased interest rates amongst other things are being forecasted so there is waiting to see what the state of California is going to adopt for their budget.

Marc Mares asked about the potential of bank failures and if Bridge Bank could be looked at by Jacque to bring information back to the board.

The original budget summary was projected with an enrollment count of 525 students and an average daily attendance percentage of 94%.

The small revenue deficit was due to the estimated actuals that were projected by the enrollment numbers and the attendance percentage.

She showed a breakdown of the LCFF funding based on grades 6th, 7-8th, and 9th-12th based on the prior recommendation from the Board. She explained the breakdown in the original budget revenue was based on LCFF, state special revenue, federal special revenue funds, and local funds.

There was one time funding that was not used in the 2022-2023 fiscal year that will be moved over to the 2023-2024 school/fiscal year.

Jacque expressed that OMI would be able to meet the financial obligations and maintain reserves for the next couple of years, based on the multiyear projections.

Public Comment #1: Bill Tran asked how the increased recruitment efforts and the increased funding will be seen by the students? He asked if more activities will be had. He also expressed that he wanted more communication in order for students to come to the board meetings.

B. OMI 2023-2024 Local Control Accountability Plan (LCAP)

The board adopted a 5 year LCAP plan in the previous year.

The WASC was also mirrored to the LCAP goals and as a collaborative effort between administrators and teachers, faculty, and community members.

The LCAP is the deep implementation of the recently completed year's launch of initiatives. OMI has seen changes and improvements but are at the beginning of the journey for overall improvement.

OMI used consultants that helped with the training of teachers and help of students. Since they came into the school year, OMI has a limited sample of the results but the results are trending in the positive direction.

The goal to go 1 to 1 with Chromebooks for students is trying to be materialized because students need Chromebooks to do their work in and out of school.

With the goal of beautifying the school and making the campus/school feel like a safe place, OMI is in the process of building a middle school wellness center. Also, an athletic budget has been made for building more activities and intermurals for the students.

VII. Action Items

A. 2023-2024 Board Dates

J. Wire made a motion to approve the 2023-2024 board meeting dates with the amendment that the meetings will now start at 3:45 pm.

J. Breckenridge seconded the motion.

Per the discussion of the Board and the OMI staff, four board meeting dates were removed. Dr. Streshly also changed around how the latter meetings were scheduled because of the recommendation of the Board. There will be two meetings in May and only one meeting in June.

An amendment was added to the 2023-2024 board meeting dates.

Instead of board meetings starting at 4:15 pm, they will now be starting at 3:45pm. The board **VOTED** to approve the motion.

VIII. Board Member Comments

A. Financial Statements

Joe Wire reiterated that there was an understanding in the past that the cashflow and the OMI bank activity would be displayed at every meeting.

Dr. Streshly explained that the timing of the board meeting would not allow for a comprehensive bank activity report and cashflow update.

Jerry Brown mentioned that he helped OMI with getting tax exemptions on property tax by telling the staff to file the annual tax exemption.

Admiral Jody Breckenridge gave the OMI staff praise for the detail in the documents that were presented to the board.

Marc Mares also gave praise to the OMI staff especially for the LCAP document and acknowledged that OMI needs to keep the strong relationship with the military aspect of the school so that OMI sets itself apart from other schools.
