CULTURE CODE

The following is an overview of the culture we aspire to cultivate at OCA.

We, the Golden Educators of GCA have written this code. We aim to demonstrate
these tenants and encourage others to follow them also. Together, we will
continue to make the environment of our workplace golden.

WE VALUE	WHO WE ARE	WHO WE ARE NOT
BEING GOLDEN	We are individuals who model excellence and set standards through the golden rule. We are environmental stewards who bring awareness and social justice to the community through the minds and voices of our powerful scholars.	We are not stagnant or close minded to any innovation that will elevate our excellence. We are not defined by our past. We never quit!
SMETY	We are attentive and conscious about the well- being, welfare, and security of our students and staff. We take proactive measures to ensure consistent quality practices.	We are not careless, unintentional, or dismissive of students and staff's physical and emotional well-being. We will not ignore qualitative and quantitative measurements collected in order to protect student outcomes
ACHIEVEMENT	We are professionals that will continue to learn and unlearn attitudes that best serve our students. We are professionals that will celebrate our wins but will not dwell in them, as that will create a culture of complacency.	We are not putting a limit on any student's capabilities or their achievement. We are not willing to accept the bare minimum from students, parents, or staff.
INNOVATION	We are preactive ambassadors of change. We are scholars who stay current on teaching techniques, culture, and environmental research.	We are not ok with staying comfortable or complacent in our techniques. We are not impulsive to react to challenges that face our school community.
DIVERSITY	We are open and inclusive to all people, we are an intersection of our identities. We are encouraging and applaced individuality and ideas.	We are not exclusive to any one people - all are welcome. We are not confined to the surface level identity of any person.
PARTNERSHIP	We are committed to fostering strong partnerships between educators, families, and community members to enhance student outcomes. We are actively seeking and valuing input from all stakeholders to ensure that every voice contributes to our shared objectives.	We are not exclusive in our partnerships, recognizing that diverse viewpoints strengthen our collective efforts. We are not relying solely on traditional or established methods, but rather embracing innovative and diverse approaches to collaboration.
EMPOWERMENT	We are supportive of creating an environment where everyone feels confident to voice their ideas and contribute to the collective success of our community. We are dedicated to providing resources and opportunities that enable individuals to develop their skills and achieve their goals.	We are not dismissive of individual contributions or ideas, regardless of their scale or impact. We are not discouraging or undermining the efforts of those who are taking the initiative or stepping out of their comfort zones.
