Brooke King called a meeting of the board of trustees of Palisades Charter High School to order on Tuesday Jan 12, 2021 at 5:03 PM.

B. Record Attendance and Guests

C. Public Comment

Anonymous- As the new school year begins. I think it's important to emphasize the teachers are people too and that they're trying their best. As people they deserve

boundaries and breaks, as well as compensation and clear and cohesive instructions. It seems that the teachers in a relatively difficult place. When one is to examine the pressures coming from both students and admin as teachers become more stressed students are on the receiving end of these emotions, creating an environment that rotates with negativity. As a student, I hear my peers complain about things teachers do and insult their teaching skills. When those actions are caused by miscommunications and an effective decision making by people. People higher up in the Palisades high school authority. So as we have a new beginning, I urge the board to be mindful of how you treat the faculty because confusion and chaos caused an inherently negative environment that is fun for nobody.

Michael Brent IV - Good evening, I'm reading today to discuss the issue of graduation credits and the lack of seniors in the class of 2021 that will be able or are having difficulty with fulfilling the 230 credits needed to graduate from Pali. Out of 720 seniors in the class of 2021 130 seniors are vulnerable and have not graduating, that is 18% of the class of 2021. Well, many factors account for these high numbers, including job loss of parents the online learning environment and more discussions made within a board Task Force concerning this crisis. Yes crisis. We're looking over some solutions would be the core classes would be hit and tackled SO THESE SENIORS can get credit from those courses math English. There was a discussion about cutting the graduation credit requirement for all pali grades nine through 12. The requirements are at 230 and the number we would cut to would be to 10. At the time of this task force meeting a different grading scale. I'm sorry, close to 1000 Pali students were failing one or more courses. These numbers are outrageous last summer semester. Many other members of ASP had discussions with admin and also made public comments here. Asking for a different grading scale and also advocating for less work. I'd like to thank Mr Suarez was amazing work with credit recovery helping seniors and other grades get courses done I'd also like to thank Dr. Lee for his work along with our counseling team for their work. This crisis is tearing our school down in the class of 2021 we need to find better solutions to the issue of mass fails and no credits. It's as simple as that. The issue cannot be one third of the campus wasn't equipped last summer or last semester. The issue is simply to adhere to the issues that faces students and all students passing or failing. We cannot go forward with the system, it doesn't work for all students. This semester we cannot have this happen again.

UTLA no general comments

Anonymous - Currently 130+ students are at risk of graduation because kids were not passing classes in distance learning. These are not reflective of the academic achievement of the PCHS students and community.

Public Comment: Pali High tech department is instrumental in the function of Pali High and supports most stakeholder groups: classified staff and administration as well as helping parents families board members and all board committees as needed. The info tech component of the technology initiative was designed and initially, approved by the board in 2014 included five to six positions in the info tech department, the director supervisor and three to four technicians. During these very technical technology pendant and challenging times of the pandemic, the technology department has been more crucial to police functioning than ever before. We currently do not have a person in the supervisor role and it's been very challenging this entire school year, and particularly difficult in the tech department store has had to shoulder the burden of both the directors

role. PCH is looking to fill that position at this time and we hope to have the board support to fill this position to help support the students and faculty staff to the full extent possible.

They are also looking for Friday office hours for teachers and counsellors. There are questions about sports returning if there is no in person instruction.
