V. 2018-2019 Kestrel Heights Objectives

A. Overview of the School's 2018-2019 Objectives

In looking at Academics section the following was discussed.

Travis Fisher asked what the sub groups referred to.

Dr Tracy answered that this covered things like EC students, AIG students etc. We need to make sure we support these groups.

Question was raised by Travis Fisher as to whether we are looking to have more focus on technology and using the technology over and above the instructional component.

Dr Tracy did comment that this needs to be factored into the 5 year plan as more technology needs to be supported by staff education to back that.

We have increased the number of laptops in the school.

Ms Ross backed up the comment that this needs time as the children need to be trained how to use it effectively to the point it is not a distraction.

Ms Goff commented that for 6th, 7th and 8th grade technology has been brought back as an elective.

Dr Tracy commented that we are making the most of the curriculum as a multi-media based curriculum to include instructional based technology.

In looking at the overall document given for the organizational goals, Brandon Paris spoke about using SMART goals when looking at them. (Specific Measurable Attainable, Relatable and Time bound). Looking for answers of what are we going to do and by when.

In discussing these moving forward it was discussed how these initial goals can be expressed with more detail to incorporate SMART goals.

Dr Tracy is going to revise the document with help from Ms Foy-Watson and Brandon Paris and will bring back another draft of the document for the next board meeting.

The goals aren't going to be changed, we are looking for more detail behind the goals.

Travis Fisher made a motion to approve the 2018-19 organizational goals as presented by Dr Tracy.
