Newly-redesigned postcards have been mailed and should be received by prospective families this week. Ms. Lucas will provide applicant numbers through the administrative team.

B. 2020-21 Accreditation Process

Mr. Touchette gave an update on the school's accreditation process. There are three members of the faculty on the committee with him. Kestrel is working through the process and is on track.

C. Return to School Planning

Dr. Tracy presented the return to school plan to the Board. The plan is for students to return to school in January. Eighty percent of the families returned the survey, and 20% did not respond. Twenty percent (87 scholars) in K-8 asked to return in person.

Staff were also surveyed about returning to school and had meetings with the administration to address their concerns. 38 staff members responded to the survey and all indicated that they were planning to return to school although more than 50% noted concerns. Staff were allowed to consult Human Resources for accommodations if needed.

Dr. Tracy also discussed the safety and cleaning supplies that the school will provide for classrooms as well as new protocols. The Board asked questions about the process and what measures that the Board would use to determine if a return to school needs to be delayed. Some measures that could be considered include the NC county measure of community spread (red, orange, yellow), CDC measures and then other NC DHHS measures such as positivity rate, number of cases, and other daily and weekly COVID-19 measures. The Board determined that the school would use the county alert system to make decisions about whether Kestrel will return to school with additional data. Ms. Davis and Ms. McGarrah will meet to write down the criteria that was discussed.

The Board also discussed concerns about staffing resources and what happens in case of positive COVID case.
