Every one associated with Kestrel is responsible for marketing the school. The school's daily attendance is 400 students, and the administration team has been working on strategies to get students to attend school.

Ms. Jackson also addressed the EpiCenter report to the state to make sure that the school's charter information is up-to-date and reflects changes represented as a result of the various building-related changes.

B. Monthly Budget Report

Ms. Jackson shared the monthly budget report, and she noted that a couple of months into the school year, there are a few categories that are over-budget for books and staff development. In both cases, there are budget revisions that need to be made.

For the 2022-23 school year, Ms. Jackson has met with the finance committee to develop the new budget based on the revised ADM. She will share that budget with the Board next month after some additional changes are made.

C. Audit Report

Ms. Jackson presented the audit report to the Board. The report notes that Kestrel has purchased our building and that the school's assets exceed the school's liabilities. The independent auditor renders the following findings: no material weaknesses in financial controls, no non-compliance or findings with financial statements, no material weaknesses in controls for state awards, and no questioned costs for state awards.

Kestrel has received a clean financial audit for another year.
