There are 451 students enrolled right now. 48 applications are outstanding, and Mrs. Vargas is continuing to contact those families.

B. Facilities Sub Committee

Mrs. Davis presented that the new building is complete and has been used by students for end of the year activities. Mrs. Jackson discussed the students' positive reaction to the new building as they practiced safety drills and had testing there. Mr. Touchette shared that teaching staff are thrilled to be in the new building after moving three times over the past year. The Board will have additional updates in the closed session.

III. Curriculum & Assessment

A. Summer Learning Opportunities at Kestrel

Mrs. Bowie provided an update on Read to Achieve for the Summer Program. 10 scholars, 3 educators and 1 coordinator are signed up, and the school has received the curriculum supplies. Students will be doing the Readability Program. There are two field trips planned for the summer program along with a book exchange.

Mrs. Marrow provided an update on Camp Kestrel. As of today, there are 143 scholars enrolled for Camp Kestrel with 8 teachers on staff. The camp already has the curriculum materials for the summer and has field day and activities planned.

B. School Culture Report

Mr. Price provided the School Culture Report, including EOG support for science, and an in-house quarterly celebration to celebrate positive behaviors. Mr. Touchette presented on the last quarter activities and end of the year activities.

C. End of Grade Testing (EOGs)

Mr. Touchette provided an overview of the preliminary EOG/EOC results with input from Ms. Villegas. All students in grades 3-8 took EOG/EOC tests in reading and math; students in grades 5 and 8 took EOG/EOC tests in science. Kestrel tested 99.7% of all students (includes 100% students tested in every grade level other than 7th grade). Kestrel's scores varied in math and English across grade levels, and there is no comparison data to other schools or the state as a whole available yet. There is growth for Kestrel from year to year in overall proficiency, and iReady provided reliable prognostications of reading proficiency. COVID kindergartners (those kids who were in K during COVID) scored well in reading and math. Math interventionist hired for 23-24 school year to support students and offer coaching. Exemplary teachers whose students posted significant gains can model best practices for colleagues.
