## ***Performance Standards Overview***

The performance standards for the local performance indicators are:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

The LEA annually measures its progress in meeting the *Williams* settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

**Implementation of State Academic Standards (LCFF Priority 2)** The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California *Education Code (EC)* for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

***LCFF Priority 1: Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities***

LEAs will provide the information below:

**Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions**

0 misassignments of teachers of ELs

0 total teacher misassignments

0 vacant teaching positions

**Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home**

0% of students without access

**Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)**

0 instances of facilities not meeting “good repair”

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

## LCFF Priority 2: Implementation of State Academic Standards

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the *optional* reflection tool (Option 2).

### OPTION 2: Reflection Tool

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				x	
ELD (Aligned to ELA Standards)				x	
Mathematics – Common Core State Standards for Mathematics			x		
Next Generation Science Standards			x		
History-Social Science				x	

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				x	

ELD (Aligned to ELA Standards)				x	
Mathematics – Common Core State Standards for Mathematics			x		
Next Generation Science Standards			x		
History-Social Science				x	

**3. Rate the LEA’s progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				x	
ELD (Aligned to ELA Standards)				x	
Mathematics – Common Core State Standards for Mathematics			x		
Next Generation Science Standards			x		
History-Social Science				x	

**Other Adopted Academic Standards**

**4. Rate the LEA’s progress implementing each of the following academic standards adopted by the state board for all students.**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

Academic Standards	1	2	3	4	5
--------------------	---	---	---	---	---

Career Technical Education			x		
Health Education Content Standards			x		
Physical Education Model Content Standards		x			
Visual and Performing Arts			x		
World Language				x	

**Support for Teachers and Administrators**

5. **Rate the LEA’s success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

<b>Activities</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
Identifying the professional learning needs of groups of teachers or staff as a whole					x
Identifying the professional learning needs of individual teachers					x
Providing support for teachers on the standards they have not yet mastered				x	

**Optional Narrative (Limited to 1,500 characters)**

6. **Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

### ***LCFF Priority 3. Parent and Family Engagement***

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below:

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):
  - 1 – Exploration and Research Phase
  - 2 – Beginning Development
  - 3 – Initial Implementation
  - 4 – Full Implementation
  - 5 – Full Implementation and Sustainability

4. Write a brief response to the prompts following each of the three sections.
5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

***Building Relationships***

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

<b>Building Relationships</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
Rate the LEA's progress in developing the capacity of staff (i.e. administrators, teachers, and classified staff) to build trusting and respectful relationships with families.					x
Rate the LEA's progress in creating welcoming environments for all families in the community.				x	
Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.				x	
Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.			x		

**Dashboard Narrative Box (Limited to 3,000 characters)**

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

ARISE staff communicate with families through emails, phone calls, texts, social media and student-led conferences. Advisors are provided with multiple professional development sessions in preparation for communicating with families. Moving forward, we will work to make our school more welcoming to non-Latinx families as they are currently underrepresented within our student population when compared with local demographics.

**Building Partnerships for Student Outcomes**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

<b>Building Partnerships</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.					x
Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.				x	
Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.					x
Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.			x		

**Dashboard Narrative Box (Limited to 3,000 characters)**

Briefly describe the LEA’s current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Families are invited to attend 1-2 student-led conferences each year to discuss their child’s academic progress and develop strategies for improving outcomes. During these meetings, families are also provided with information and resources regarding material needs such as food and housing, as well as mental and physical health. In future years, we will focus on providing additional support around legal rights to ensure that parents are empowered to advocate for their students.

**Seeking Input for Decision Making**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

Seeking Input	1	2	3	4	5
Rate the LEA’s progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.			x		
Rate the LEA’s progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.			x		
Rate the LEA’s progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.		x			

Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.		x			
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	---	--	--	--

**Dashboard Narrative Box (Limited to 3,000 characters)**

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Our family liaison hosts weekly meetings to engage parents in discussions about various school programs and advocate for their families' needs. Attendance at these meetings is currently low, partially due to Covid, but moving forward, we hope to engage a greater proportion of families more meaningfully.

## **LCFF Priority 6: School Climate**

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6– 8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

We utilized YouthTruth surveys to measure student perceptions of school climate. Out of 400 students, 350 reported answers for a response rate of 88%. Across all metrics, students reported higher scores than in spring of 2020, when the most recent previous survey was administered. The most notable improvements were in “culture” and “college and career readiness,” and we continue to report below state average ratings on “engagement” and “academic challenge.”

2. **MEANING:** What do the disaggregated results (*if applicable*) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

When disaggregating the data, we found that male students and students classified as English Learners (ELs) reported the lowest scores in “academic challenge.” Additionally, male students and Black students reported the lowest scores in “engagement.” These results reveal that we need to increase the academic rigor for our developing English Learners, and we need to include and engage our minority Black student population to the same extent we do our majority Latinx students.

Because male students show declining engagement as grade level increases, there is a clear need for differentiated engagement strategies as our male students grow older and encounter new distractions. The 10th grade cohort reported the low scores across all metrics, most notably in school safety, which may be due to a series of violent incidents involving several 10th grade students.

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

School leadership met and developed a plan to meet with multiple groups - student council, instructional leadership team, and school culture team - to review the data and make recommendations for next steps.

## ***LCFF Priority 7: Access to a Broad Course of Study***

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

We measure access to a broad course of study through students' graduation tracks. All students are automatically assigned the ARISE track in 9th grade, which includes both A-G courses as well as courses within our CTE pathway. Students with IEPs or 504 plans may be moved to alternate tracks such as basic A-G or CA minimum, as determined through meetings with their families, special education providers and teachers.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

An audit of students' graduation tracks show that three students will graduate in 2022 under A-G requirements, and none have been assigned the CA minimum track. The remaining 80 students in the graduating class of 2022 will complete all ARISE requirements.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

In prior years, the 6 class schedule did not allow students on the ARISE graduation track to retake many courses. Students who struggled to earn credit the first time around lost access to the full course of study and became ineligible for electives. We made the big decision to adopt a 4x4 schedule, opening up space for students to take an additional 1-2 classes within the school year. Students now have more opportunities to retake classes and they have access to a wider selection of electives.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

As we continue to build out our CTE pathway, we will continue to have to negotiate the tensions between students completing both CTE and A-G requirements. This has been addressed by ensuring that all new CTE course offerings are also granted A-G approval.
