II. Finance

A. FY 21 Budget Amendment Update

Cheryl informed the committee that the state has released preliminary figures and that instead of the originally anticipated 14% cut to the state budget, there is only going to be an 11% cut to the state budget for fiscal year 2021. This will result in approximately a million dollar cut to revenues between both schools for the next year.

B. Daycare Building Purchase - City of Edison

Cheryl informed the committee that the purchase of the daycare building is being delayed. After submitting closing costs for the purchase but before being finalized, the City of Edison determined that the bid procedure had not been followed and so the sale

was put on hold. PCA, Inc. now has to submit another sealed bid by the June 30, 2020 deadline in order to pursue the purchase of this building.

C. Afton Partners - multi year budget projections

Cheryl informed the committee that she has been working with Afton Partners, a financial consultant firm provided by the Charter School Growth Fund, on the budget costs and figure projections for the next five years in response to those cuts. They have created five year budgets using the funds from the Cares Act Paycheck Protection Program loan but these figures will need to be discussed in detail in a separate work session.

D. FY 21 Service Contracts

Cheryl informed the committee that the technology service contracts are up for renewal. Tommy Boyd, the District Technology Director, found other companies that would provide the same service that will be \$2.00 fee per device. The current firm, Professional Networking Services, provides the services for \$6.00 per device, but Cheryl has been able to get this firm to reduce the cost to \$4.00 per device. Cheryl is recommending that even though using Professional Networking Services will cost more, the price will decrease overall as we attrition out older Microsoft devices and replace with Chromebooks.

E. COVID Grants Budget

Cheryl informed the committee that PCA, Inc. has received four different grants from various foundations in relation to COVID-19 related expenses. The total of these four grants is \$151,000 and she is recommending these funds be used to pay for 5 months of service for the Verizon hot spots activated for students without access to internet at home for a total of \$35,000 and for the purchase of Chromebooks for Pataula Charter Academy so that there can be a one to one ratio. Spring Creek currently has enough Chromebooks for each student to have their own device to use and in light of potential reentry scenarios for Pataula Charter, Inc., it is necessary to purchase these Chromebooks to have that one to one ratio for PCA.

T. Bruner made a motion to approve the presentation of this grant budget to the board.

K. Holley seconded the motion.

The committee **VOTED** to approve the motion.

Roll Call

Cheryl presented quotes to the committee from Edgenuity, a leading provider of K-12 online curriculum and blended learning solutions, for a combined price of \$52,180 for both schools. In light of potential reentry scenarios due to COVID-19, this online learning platform will help to supplement learning and fill gap deficiencies. This online program will be utilized for grades 6-12 and will also take the place for virtual learning through Georgia Virtual School for Spanish I and Spanish II.

T. Bruner made a motion to approve the presentation of the price quotes from Edgenuity to the board.

G. PCA - CPF Financial Assessment Report

Cheryl presented the CPF Financial Assessment Report for April and May for PCA to the committee. As of the end of May, PCA has 96% spent of the budget for FY2020, but the figures are looking better than previously thought and SCCA currently owes money to PCA for liability insurance and other benefits that PCA has paid on behalf of SCCA.

H. SCCA - Land Purchase

Cheryl informed the committee that she has been talking with lawyers in regards to the bid sent to SCCA from Dollar General to purchase 2 acres of land from the school. Cheryl stated that there is cause for concern about the impacts this could have in the future when SCCA will begin the phase of having a permanent building installed. The lawyer stated that the only feasible way this sale would work would be for Dollar General to pay for sewer lines to be run to the school and for them to place a deed on the title so that in the event they sold the land, SCCA would have a say in who could purchase it.

I. SCCA - CPF Assessment Report

Cheryl presented the CPF Financial Assessment Report for April and May for SCCA to the committee. As of the end of May, SCCA has 87% spent of the budget for FY2020, but that SCCA still owes PCA for liability insurance and other benefits that PCA has paid on behalf of SCCA. Even with this money owed to PCA, SCCA still stands to finish the year in the positive.

J. SCCA - Office Clerk Position

Cheryl informed the committee that with the creation of the HR Director position, and this position taking over all human resource and payroll matters from the Office Clerk at SCCA, this position will no longer be a full time position. She is asking the committee to approve presenting to the board this position being cut down to part time.

After talking with Vanguard, the manufacturer of the modular building, Cheryl is recommending using International Fire Protection for the installation even though it is the higher bid.
