#### **H. COVID Bonuses for classroom teachers**

Due to high transmission rates of COVID in our communities, we maintained a high number of students in quarantine during the first few months of school. Classroom teachers of academic subjects have been teaching face-to-face 5 days a week, plus providing distance learning for quarantined students. This is stressful and time-consuming for teachers. Unfortunately, there was nothing we could do to alleviate that extra work on teachers during this time of high transmission rates. So, we would like to show our appreciation by giving a monthly COVID stipend to classroom and special education teachers (required to meet the guidelines for instructing quarantined students) for the time period of high transmission rates. The stipend will be \$500 monthly and would include the months of September and October at this time. If new quarantine guidance is approved, the stipend should not be necessary after October, unless circumstances drastically change again. However, Superintendent Holley would like to reserve the right to reinstate the stipend for up to an additional 3 months (within this school year) if transmission rates and/or outbreaks increase again, forcing us to change quarantine protocols and virtual learning for quarantines again.

G. Flowers made a motion to Approve the COVID Bonuses for classroom Teachers.

R. Collins seconded the motion.

The board **VOTED** unanimously to approve the motion.

#### **V. Academic Excellence Committee Report**

##### **A. PCA Academic Committee Update**

1. The committee reviewed 2020-2021 Milestones scores as compared to local districts, state average, other charters in SWGA, as well compared to previous years' performance. PCA outperformed the local districts overall, but needs improvements in some of the other areas. PCA needs to focus on increasing the number of students scoring Level 3 and 4.
2. Beginning of Year MAP Benchmark data was reviewed. This data shows that more students are starting the year off below grade level. However, projected proficiency on Milestones show more students passing Milestones in both subjects and more Proficient in ELA than last year.
3. 2020-2021 SAT data was reviewed. In the past 3 years, median scores have continuously risen. Last year's scores outperformed local districts, local charters, and were very close to the state average.

##### **B. SCCA Academic Committee Update**

2. Beginning of Year MAP Benchmark data was reviewed. This data shows that more students are starting the year off below grade level. However, projected proficiency on Milestones show more students passing Milestones in both subjects and more Proficient in ELA than last year.

### **C. General Academic Committee Updates**

1. Due to concerns with scores, loss of learning due to COVID, and some teacher concerns with curriculum rigor due to students being behind, leadership has implemented an improvement plan.
2. First step was to meet with all K-8 teachers to discuss concerns/issues to help determine root causes.
3. Main root cause is COVID learning loss, but we also determined some weaknesses in our K-2 Phonics and Fluency Instruction.
4. Created a short-term and long-term plan of improvement.
5. Short-term includes – Hired additional teachers and rearranged schedules for more Intervention time for more struggling students; purchase research-based Intervention programs; provide support and resources to supplement existing curriculums. (Continue exposing students to rigorous instruction, while filling gaps as well.)
6. Long-term plan includes – continue providing more intervention time as long as we can; Literacy Committee will research Phonics/Fluency programs, other Reading programs, and other initiatives to increase literacy; Use Wit and Wisdom to customize our own Reading Curriculum; research Eureka 2.0 to see if it has the necessary changes to make math instruction more accessible for students. If it meets our needs we will adopt it; if not we will customize Eureka to ensure it offers the rigor students need, but is more accessible to all students regardless of reading level.
