Kylie shared with the Board information sent by the Calhoun County Schools Superintendent regarding their application for a School Based Health Center. They are requesting PCA's support by allowing students from our school to come over to their center and by sharing information with parents. The Board discussed several concerns with doing so, including that students would still have to be transported to the other school since the clinic would not be on site at our school. Kylie also shared with the Board some preliminary information on a free Telehealth program that PCA has been considering that would allow our school nurses to do testing for flu, strep, COVID, etc. and facilitate telehealth visits where students/staff could be prescribed medications if necessary.
