A. Board Retreat Goal Review

Mr. Martin reported a successful Board retreat with the result of clearly defining the goals of the Finance Committee and the Academic Excellence Committee. It was agreed that a consultant would be hired to develop a vision for so-called "dream projects" and that the retreat will be scheduled annually.

B. Solar Project Update

Mr. Martin reported that the FinCom had met with regard to the solar project and asked the consultant to update the Board on the options of outright purchase and lease as follows:

- Purchase option requires upfront cost and \$1.5 million return over twenty years.
 - Risk involves the present uncertainty of the federal government's rebate of 30% of the cost and expending capital reserves.
- Lease option requires no upfront cost or maintenance with some obligation incurred in terms of buying power from solar and incentives coming from National Grid; option to purchase over time.

Mr. Dweik raised concerns about the accuracy of the actual numbers presented for both options. Following discussion, it was agreed that the FinCom will meet again to further review the options and come to the Board with its recommendation for its vote by at least the end of the month.
