# AMPS: Who We Are

## OUR BEGINNING

The Amethod Public Schools (AMPS) network held the oldest charter school in the East Bay Area, and one of the oldest in the state. The original "Jingletown" Charter School, later to be named Oakland Charter Academy, opened in 1994 as the 8th charter school established in California. Since then, Oakland Charter Academy has grown from a single middle school site to the present four school, multi-city and multi-county charter school network. The AMPS network has continued to deliver a tuition-free public-school education that has produced a National Blue Ribbon Award school, a California Distinguished School, and some of the highest performing middle and high school programs in the state and country.

Every Amethod Public School campus is characterized by a culture that is structured, supportive, and focused on academic work. The ethos of the AMPS community is rooted in offering a vibrant and rigorous school program that intends to prepare students for life beyond the TK-12 system. The staff and faculty strive to ensure that the policies, core values, objectives and goals are consistently reinforced throughout the year.

It is our organizational intent to make student achievement our highest priority; and through our different campuses and programs, we will offer the needed support for success. It is with the same consideration that we expect that families make the same commitment to their child and school to reach the goal of academic success.

### AMPS Mission Statement

Amethod Public Schools (AMPS) seeks to provide a rigorous college preparatory education and character development program that will prepare students from underserved communities to succeed in college and beyond.

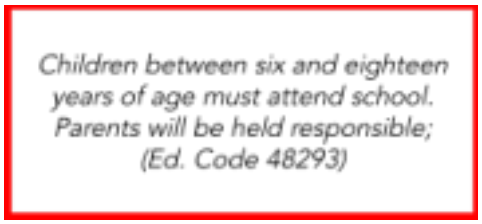
### AMPS Vision

Amethod Public Schools foster students' motivation and belief in academic achievement and goals. We are a free and public charter school network that believes in the promise of hard-working students from all perspectives, backgrounds, and talents. We challenge every student to strive towards a purpose larger than themselves and challenge all families to expect more from their schools, themselves, and their children for a prospective future for the next generation.

### AMPS Core Values

The Core Values of the organization are those values we hold which form the foundation on which we perform work and conduct ourselves. Core values are <u>not</u> descriptions of the work we do or the strategies we employ to accomplish our mission. The values underlie our work, how we interact with

**Students First**
**Perseverance**
**Responsibility**
**Adaptability**
**Commitment to Distinction**



each other, and which strategies we employ to fulfill our mission. The core values are the basic elements of how we go about our work. They are the practices we use (or should be using) every day in everything we do.

# Attendance Policy

Absences Procedure

If a student will be absent, parents/guardians are responsible for calling the school before or on the day of the absence *before* the school day begins. Our sites use an automated system that will record your message before and after regular office hours, thus parents/guardians need to leave a message with the following information:

- Child Name
- Grade level
- Parent/Guardian name
- Date of Absence
- Reason for Absence
- Date of return
- Phone number where you can be reached

When the student returns, the student must bring proof of their absence, such as a doctor's note, explaining the absence/s. Parents/guardians are encouraged to pick-up student's homework when they are absent from school any time before 4pm. Any parents/guardians, who have not contacted the school before school starts, will be called in the morning to ask about their child's absence. Students who are absent will be invited to an after school session to make up missing work. Students with more than three (3) unexcused absences in a school year are considered truant.

Sample of Non-Excused Absences

- Rain (weather)
- Being tired
- Vacations
- Lack of Transportation
- Child or Parents/guardians overslept
- No alarm clocks

Schedule Appointments for After School Hours

Families are encouraged to schedule appointments or other commitments outlined within the Attendance Policy outside of school time. The best times are on Friday afternoons after dismissal or days when school is not in session. In the rare case when a student has an appointment or commitment during school hours, it is expected that the student will come to school before the appointment and return to school after the appointment to complete the remainder of the school day.

## Skipping Class

Any student caught skipping class will receive an unexcused absence, which may lead to being truant. Consequences for skipping also include detention and may result in a recommendation to be involuntarily removed from the Charter School. Any student who leaves school without permission may forfeit a field trip and/ or activity participation.

## Suspensions Are Considered Absences

If students are absent from school due to a suspension, these days will be treated as excused absences and students are required to obtain and complete any missing work.

## Dismissal

Students are expected to stay in school until the very end of the school day. All students will be dismissed by their teachers at a time specific to their school site. Early pickups disrupt the learning environment. Our learning environment is extremely important to each student's success, and we strongly discourage leaving class early. Leaving early also disrupts the teacher's instruction as they will need to prepare a student's homework. Please make sure your child alerts their teachers in the morning if they need to leave early that school day.

## Absences and Missed Work

When a student has an excused absence, they must contact the teacher to get the homework assignments for that day. Homework assigned the day of a student's absence is expected to be turned in on the day the student returns, unless the student has contacted their teacher prior to returning and the teacher has agreed that the student has an extra day to complete the assignment When a student has an unexcused absence a student must contact the teacher to get the missing class or home work assignment with an enforced late penalty and will have a capping grade of 50% or dropping the gard by a full letter

Since missing class affects academic achievement, repeated absences may be reflected in the student's grades. If a student is repeatedly late or absent, the Principal, teacher(s), student, and parent or guardian will meet to address the issue per the truancy process below.

## Tardiness

Tardiness is disruptive to the learning process. It has a negative impact on the entire class, not just the child who is tardy. It is the policy of AMPS campuses to have students arrive to class on time.

Each student is expected to be in class each day, on time. A student who arrives after the morning bell is considered late and must adhere to the consequences listed below. If a student is tardy, they will receive a Tardy Pass documenting the time of arrival.

Powered by BoardOnTrack

Definitions

- "*Tardy*": Students shall be classified as tardy if the student arrives after the morning bell

- "*Unexcused Absence*": A student shall have an unexcused absence if the student is absent without a valid excuse.

- "*Truant":* A student shall be classified as a truant if the student is absent from school without a valid excuse three (3) full days in one school year, or if the student is tardy or absent for more than any 30-minute period during the school day without a valid excuse on three (3) occasions in one school year, or any combination thereof. Any student who has once been reported as a truant and who is again absent from school without valid excuse one or more days, or tardy on one or more days, shall again be deemed a truant. Such students shall be reported to the Principal or designee.

- "*Habitual Truant*": A student shall be classified as a habitual truant if the student is reported for truancy three (3) or more times within the same school year. This generally occurs when the student is absent from school without a valid excuse for five (5) full days in one school year or if the student is tardy or absent for more than any 30-minute period during the school day without a valid excuse on five (5) occasions in one school year, or any combination thereof.

- "*Chronic Truant*": A student shall be classified as a chronic truant if the student is absent from school without a valid excuse for ten (10) percent or more of the school days in one school year, from the date of enrollment to the current date.

Excused Absences/Tardies for Classroom Based Attendance

The following are excused tardies/absences:

Absence from school shall be excused only for health reasons, family emergencies and justifiable personal reasons, as required by law or permitted under this Attendance Policy.

A student's absence shall be excused for the following reasons:

1. Personal illness, including an absence for the benefit of the pupil's mental or behavioral health

2. Quarantine under the direction of a county or city health officer.

3. Medical, dental, optometric, or chiropractic appointments:

    a. Students in grades 7-12, inclusive, may be excused from school for the purpose of obtaining confidential medical services without the consent of the student's parent or guardian.

Powered by BoardOnTrack

4. For the purpose of attending the funeral services or grieving the death of either a member of the pupil's immediate family, or of a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, so long as the absence is not more than five (5) days per incident. "Immediate family" means the parent or guardian, brother or sister, grandparent, or any other relative living in the household of the pupil.

5. For any of the following reasons, if an immediate family member of the pupil, or a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, has died:

    a. To access services from a victim services organization or agency.

    b. To access grief support services.

    c. To participate in safety planning or to take other actions to increase the safety of the pupil or an immediate family member of the pupil, or a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, including, but not limited to, temporary or permanent relocation.

Absences under this section shall not be excused for more than three (3) days per incident, unless extended on a case-by-case basis at the discretion of the school administrator. "Immediate family" means the parent or guardian, brother or sister, grandparent, or any other relative living in the household of the pupil.

1. Participation in religious instruction or exercises as follows:

    d. The student shall be excused for this purpose on no more than four (4) school days per month.

2. For the purposes of jury duty in the manner provided for by law.

11. In order to participate with a not-for-profit performing arts organization in a performance for a public-school student audience for a maximum of up to five (5) days per school year provided the student's parent or guardian provides a written note to the school authorities explaining the reason for the student's absence.

12. For the purpose of participating in a cultural ceremony or event. "Cultural" for these purposes means relating to the habits, practices, beliefs, and traditions of a certain group of people.

13. For the purpose of a middle or high school pupil engaging in a civic or political event as indicated below, provided that the pupil notifies the school ahead of the absence. A "civic or political event" includes, but is not limited to, voting, poll working, strikes, public commenting, candidate speeches, political or civic forums, and town halls.

The teacher of the class from which a student is absent shall determine which tests and assignments are reasonably equivalent to, but not necessarily identical to, the tests and assignments that the student missed during the excused absence.

Note: All AMPS schools have an "everything earned" culture. Students who are truant may not be allowed to participate in school events, such as field trips and assemblies.

Method of Verification

When a student who has been absent returns to school, the student must present a satisfactory explanation verifying the reason for the absence. The following methods may be used to verify student absences:

1. Signed, written note from the student's parent/guardian or parent representative.

2. Conversation, in person or by telephone, between the verifying employee and the student's parent/guardian or parent representative. The employee shall subsequently record the following:

    a. Name of student;

    b. Name of parent/guardian or parent representative;

    c. Name of verifying employee;

    d. Date or dates of absence; and

    e. Reason for absence.

3. Visit to the student's home by the verifying employee, or any other reasonable method, which establishes the fact that the student was absent for the reasons stated. A written recording shall be made, including the information outlined above.

5. A healthcare provider's note of illness will be accepted for any reported absence. When a

Powered by BoardOnTrack

student has had fourteen (14) absences in the school year for illness verified by methods listed in #1-#3 above without a healthcare provider's note, any further absences for illness must be verified by a healthcare provider.

6. Insofar as class participation is an integral part of students' learning experiences, parents/guardians and students shall be encouraged to schedule medical appointments during non-school hours.

7. Students should not be absent from school without their parents/guardians' knowledge or consent except in cases of medical emergency.

Unexcused Absences/Truancy for Classroom Based Attendance

The Principal, or designee, shall implement positive steps to reduce truancy, including working with the family in an attempt to resolve the attendance problem. A student's progress and learning may be affected by excessive unexcused absences. In addition, the Charter School is fiscally dependent on student attendance and is negatively impacted by excessive unexcused absences. If all attempts to resolve the student's attendance problem are unsuccessful, the Charter School will implement the processes described below.

Process for Addressing Truancy

Student Attendance Review Team ("SART")

AMPS has implemented a Student Attendance Review Team ("SART") process to address attendance and tardy issues. The SART panel is designed to meet with parents/guardians of children who have exceeded the allowable amount of unexcused absences. The purpose of the meeting is to discuss the child's attendance record and to work on solutions, develop strategies, discuss appropriate mental health support and other supportive services for the student and student's family, and develop a plan[1] for the child's regular participation in school drawing from community resources when necessary. The team shall include representatives of the school, including teachers and directors. The Chief Academic Officer or designee shall chair all SART panels.

Procedures for Excessive Absences/ Tardies

1. Each of the first two (2) unexcused absences or unexcused tardies over 30 minutes will result in a call home to the parent/guardian by the Principal or designee. The student's classroom teacher may also call home.

2. Each of the third (3rd) and fourth (4th) unexcused absences or unexcused tardies over thirty (30) minutes will result in a call home to the parent/guardian by the Executive Director or designee. In addition, the student's classroom teacher may also call home and/or the Charter School may send the parent an e-mail notification. In addition, upon reaching three (3) unexcused absences or unexcused tardies over 30 minutes in a school year, the parent/guardian will receive "Truancy Letter #1 – Truancy Classification Notice"

[1] If the student's parent/guardian fails to attend the SART meeting, sign the SART plan, or respond to the SART's requests to schedule a meeting, then the SART panel shall implement the SART plan without the parent/guardian's signature.

Powered by BoardOnTrack

from the Charter School notifying the parent/guardian of the student's "Truant" status. This letter must be signed by the parent/guardian and returned to the Charter School. This letter shall also be accompanied by a copy of this Attendance Policy. This letter, and all subsequent letter(s) sent home, shall be sent by Certified Mail, return receipt requested, or some other form of mail that can be tracked. This letter shall be re-sent after a fourth (4th) unexcused absence.

3. Upon reaching five (5) unexcused absences or unexcused tardies over 30 minutes, the parent/guardian will receive "Truancy Letter #2 – Habitual Truant Classification Notice and Conference Request," notifying the parent/guardian of the student's "Habitual Truant" status and a parent/guardian conference will be scheduled to review the student's records and develop an intervention plan/contract. In addition, the Charter School will consult with a school counselor regarding the appropriateness of a home visitation and/or case management.

4. Upon reaching six (6) unexcused absences or unexcused tardies over 30 minutes, the parent/guardian will receive a "Truancy Letter #3 – Referral to SART Meeting" and the student will be referred to a Coordination of Services Team (COST) and the SART.

5. If the conditions of the SART plan are not met, the student may incur additional administrative action up to and including disenrollment from the Charter School, consistent with the Involuntary Removal Process described below.

6. If a student is absent ten (10) or more consecutive school days without valid excuse and the student's parent/guardian cannot be reached at the number or address provided in the registration packet and does not otherwise respond to the Charter School's communication attempts, as set forth above, the student will be in violation of this Policy and the SART plan (if any) and may be subject to disenrollment in compliance with the Involuntary Removal Process described below. If the student is disenrolled after the Involuntary Removal Process has been followed, notification will be sent within thirty (30) days to the student's last known school district of residence.

7. Any documentation received by the Charter School regarding a student's enrollment and attendance at another public or private school (i.e., CALPADS report) shall be deemed evidence of a voluntary disenrollment and shall not trigger the Involuntary Removal Process below.

8. For all communications set forth in this process, the Charter School will use the contact information provided by the parent/guardian in the registration packet. It is the parent's or guardian's responsibility to update the Charter School with any new contact information.

Process for Students Who Are Not in Attendance at the Beginning of the School Year

When a student is not in attendance on the first five (5) days of the school year, the Charter School will attempt to reach the student's parent/guardian on a daily basis for each of the first five (5) days to

determine whether the student has an excused absence, consistent with the process outlined in this policy. If the student has a basis for an excused absence, the student's parent/guardian must notify the Charter School of the absence and provide documentation consistent with this policy. However, consistent with process below, students who are not in attendance by the sixth (6th) day of the school year due to an unexcused absence will be disenrolled from the Charter School roster after following the Involuntary Removal Process described below, as it will be assumed that the student has chosen another school option.

1. Students who are not in attendance on the first (1st) day of the school year will be contacted by phone to ensure their intent to enroll in the Charter School.

2. Students who have indicated their intent to enroll but have not attended by the third (3rd) day of the school year and do not have an excused absence will receive a letter indicating the student's risk of disenrollment.

3. Students who have indicated their intent to enroll but have not attended by the fifth (5th) day of the school year and do not have an excused absence will receive a phone call reiterating the content of the letter.

4. Students who are not in attendance by the sixth (6th) day of the school year and do not have an excused absence will receive an Involuntary Removal Notice and the CDE Enrollment Complaint Notice and Form. The Charter School will follow the Involuntary Removal Process described below, which includes an additional five (5) schooldays for the parent/guardian to respond to the Charter School and request a hearing before disenrollment.

5. The Charter School will use the contact information provided by the parent/guardian in the registration packet.

6. Within thirty (30) calendar days of disenrollment, the Charter School will send the student's last known school district of residence a letter notifying it of the student's failure to attend the Charter School.

7. Any documentation received by the Charter School regarding a student's enrollment and attendance at another public or private school (i.e., CALPADS report) shall be deemed evidence of a voluntary disenrollment and shall not trigger the Involuntary Removal Process below.

Involuntary Removal Process

No student shall be involuntarily removed by AMPS for any reason unless the parent or guardian of the student has been provided written notice of the Charter School's intent to remove the student ("Involuntary Removal Notice") must be provided to the parent/guardian no less than five (5) school days before the effective date of the proposed disenrollment date. The written notice shall be in the native language of the student or the student's parent or guardian or if the student is a foster child or

youth or a homeless child or youth, the student's educational rights holder. The Involuntary Removal Notice shall include:

1. The charges against the student
2. An explanation of the student's basic rights including the right to request a hearing before the effective date of the action,
3. The CDE Enrollment Complaint Notice and Form.

The hearing shall be led by the Chief Academic Officer or designee consistent with the Charter School's expulsion procedures. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until Amethod Public Schools issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the AMPS suspension and expulsion policy.

Upon parent/guardian request for a hearing, AMPS will provide notice of hearing consistent with the its expulsion hearing process, through which the student has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the student has the right to bring legal counsel or an advocate. The notice of hearing shall be in the native language of the student or the student's parent or guardian or if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall include a copy of the AMPS expulsion hearing process.

If the parent/guardian is nonresponsive to the Involuntary Removal Notice, the Student will be disenrolled as of the effective date set forth in the Involuntary Removal Notice. If the parent/guardian requests a hearing and does not attend on the date scheduled for the hearing the Student will be disenrolled effective the date of the hearing.

If as a result of the hearing the student is disenrolled, notice will be sent to the student's last known district of residence within thirty (30) calendar days.

A hearing decision not to disenroll the student does not prevent AMPS from making a similar recommendation in the future should a student's truancy continue or reoccur.

Referral to Appropriate Agencies

It is the Charter School's intent to identify and remove all barriers to the student's success, and the Charter School will explore every possible option to address student attendance issues with the family. For any unexcused absence, the Charter School may refer the family to appropriate school-based and/or social service agencies. Please see the Attendance Policy for more information, it can be found on our website under the AMPS Family Handbook tab.

Non-Discrimination

These policies will be enforced fairly, uniformly, and consistently without regard to the characteristics listed in Education Code section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Penal Code section 422.55, including

immigration status, pregnancy, or association with an individual who has any of the aforementioned characteristics).

Reports

The CEO, or designee, shall gather and report to the Board the number of absences both excused and unexcused as well as students who are truant, and the steps taken to remedy the problem. The Attendance Policy is also posted on the AMPS' website under Public Reporting and Resources

Arrival and Drop-offs; Dismissal and Pick-ups

School Hours
Class begins promptly at the designated start time. If your student is not in an after-school program such as tutorial or detention, then they are not allowed on campus due to a lack of supervision and must be picked by dismissal time.. See specific bell schedules for designated start and end times.

Students must decide with their parents in advance to be dropped off and picked up at school at the appropriate time. Students who remain after school must always remain on campus and follow all school rules.

Carpooling
To reduce traffic flow and parking issues, we highly recommend carpooling.

Morning Drop-Off Procedures:
Please be at school at the designated start time, no more than 30 minutes early. If, arriving after the start time, students must go to the main office, sign-in as tardy, and get a slip before going to their first period class.

- When dropping off your child at school, please make sure you have pulled up to the curb and that your student can safely exit the vehicle and go immediately into the school.
- Do not drop your student off in any area other than the designated drop-off area.
- Do not park in any neighboring parking lots or in spaces that are not intended for student drop-off/pick-up.
- AMPS provides free breakfast before school starts. Please drop your child off early if they wish to participate in this program.

Afternoon Pick-Up Procedures

Students are only allowed to stay after school for the following reasons:
- They are participating in After School Education and Safety ("ASES") or a staff-sponsored student activity (sports, clubs, student government, etc.).
- They have been assigned detention or the homework center.
- They are receiving tutoring from a staff member.

Powered by BoardOnTrack

Students who choose to participate in after-school activities, must regularly attend the programs. Students may not leave campus until the program ends, or they are released to their parents. Students who cannot abide by this and other school rules will be removed from their program.

If a student has after-school tutoring or detention, they are required to stay for the full duration. A Parent/Guardian may not pick them up early unless there is an emergency, and the student must be signed out at the office in person.

Early Sign-outs

Please do not take your child out of school earlier than the dismissal time. Only early dismissals for absences per the Attendance Policy (that cannot be scheduled for Fridays after the school's dismissal time), will be excused. All other early pick-ups are considered unexcused.

We will evaluate the early dismissal log on a quarterly basis. If a child has excessive early dismissals, we will start the SART (Student Attendance Review TEAM) process per the Attendance Policy. Since missing class can negatively impact academic achievement, repeated absences and excessive early pick-ups may be reflected in your student's grades and acquisition of new skills.

- In the rare event that a student needs an early dismissal, the following procedures must be followed:
    - the student or parent/guardian must notify the school that an early dismissal is necessary, or the student must call their parent/guardian using the office phone;
    - The student will remain in class or the main office until a parent/guardian or emergency contact arrives to pick up the student;
    - The authorized adult must come in to sign the student out – we will only release students to an adult over the age of 18 who is a parent/guardian or is listed on the emergency contact form; and
    - The student must make up all missed work.

School Visitor Policy

A notice setting forth visitor registration requirements will be posted at entry points stating hours during which registration is required, the registration location, and the penalties for violating the registration requirements.

In order to register, visitors shall, upon request, furnish the Principal or designee with the following information:

1. Their name, address and occupation

2. Their age, if less than 21

Powered by BoardOnTrack

3. The purpose for entering school grounds

4. Proof of identity

5. Other information consistent with the provisions of law

Please see the Visitation and Volunteer Policy for more information on the AMPS website under the AMPS Family Handbook tab.

Visitor Code of Conduct

The site administration may refuse to register any outsider if the administration reasonably concludes that the outsider's presence or acts would disrupt the school, students, or employees; would result in damage to property; or would result in the distribution or use of a controlled substance. The Principal or designee may revoke a visitor's registration if they have a reasonable basis for concluding that the visitor's presence on school grounds would interfere or is interfering with the peaceful conduct of school activities or would disrupt or is disrupting the school, students, or staff.

The Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. When an outsider is directed to leave, the Principal or designee shall inform the visitor that if they reenter the school within seven days the visitor will be guilty of a misdemeanor subject to a fine and/or imprisonment. (Penal Code 627.7)

Appeal Procedure

The Principal or designee may withdraw consent to be on campus for up to fourteen (14) days even if the visitor has a right to be on campus whenever there is reason to believe that the person has willfully disrupted or is likely to disrupt AMPS's orderly operation. Consent may be reinstated at the discretion of the Principal prior to the expiration of the fourteen (14) calendar day timeline whenever the Principal has reason to believe that the presence of the person will not constitute a substantial and material threat to the orderly operation of the School campus. The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the two-week period. The written request shall state the address to which notice of hearing is to be sent. The CEO or designee shall grant such a hearing not later than seven (7) days from the date of receipt of the request and shall immediately mail a written notice of the time, place, and date of such hearing to such person.

For more information, please see the Visitation and Volunteer Policy, which can be found as a file attached to our website under the AMPS Family Handbook tab.

# Academic Program

The AMPS mission and values drive all aspects of the academic program including content standards, curriculum, teacher domains, instruction, and assessment. Every aspect of the AMPS culture supports high academic performance, instilling in students the academic and character qualities needed to succeed in school, college, and in life.

Our schools are data-driven and as such, every AMPS site will have an assessment calendar and dates that will detail the assessment of all students to capture progress and regression in content areas throughout the year and is provided to parents/guardians and students via progress reports, parent portals, or emails. The intent is to restructure needed lessons, tutoring programs, re-teach models, and other programs to ensure student progress towards goals.

## Classroom Expectations

1. Students are to come to class prepared with completed homework. The school will provide all necessary instructional supplies. Should a student bring personal supplies, they do so at their own risk. Students are to come to class fully prepared for academic success. Amethod Public Schools (AMPS) will provide all necessary instructional supplies, including pencils, folders, erasers, scissors, markers, glue sticks, paper, composition notebooks, and agendas. While we are committed to equipping every scholar with the tools they need for their daily lessons, please be advised that AMPS is not responsible for any personal items that are lost, stolen, or damaged on campus. Should a student choose to bring their own personal supplies or belongings, they do so at their own risk.

2. Students are to demonstrate respect towards all individuals in the classroom by listening and tracking the speaker and refraining from talking when others are speaking.

3. Students are to stay on task throughout each class period and actively participate in all classroom activities.

4. Students are encouraged to ask questions when needing clarification.

5. During challenging moments of learning, students empower one another through encouragement and collaborative support, ensuring every teammate feels valued and motivated to succeed

## Grading

Report cards are issued every nine (9) weeks. Parents/guardians may be required to come in for at least one (1) parent-teacher conference during the school year. Report card grades will reflect the effort and work students put forth in these areas. Please note that parents and guardians can access a student's record of attendance and grades at any time through the PowerSchool Portal. If you need assistance with login, please do not hesitate to contact the office.

## Homework

Homework is an essential part of the AMPS educational program. The purpose of homework is to reinforce skills taught in the classroom, to help students develop a deeper understanding of concepts, and to promote good study habits. Students must begin to develop a positive work ethic and habits as they prepare their path towards college and beyond, and homework is a large part of that preparation. Part of homework is study time for tests and quizzes that make up part of your child's grades. If your child is not submitting assigned homework, then expect this to be reflected in lower grades. Over school breaks, holiday, and summer packets may be assigned.

Homework may be assigned daily and on weekends. This means that families must help students with their homework in ways that include:

- ❏ Checking assigned homework
- ❏ Manage time with extracurricular activities
- ❏ Monitoring reading time and reading logs
- ❏ Monitor screen time (TV, cell phone, iPad, video games, etc.)
- ❏ Creating routines at home for students to complete their homework
- ❏ Provide a quiet, organized place to work, when possible

Family assistance is encouraged; however, the student must complete their homework independently in order to benefit from the additional practice. Please do not do your child's homework for them.

Homework Methods:

- ❏ Follow teacher instructions for assignments
- ❏ Homework must be completed in full and in accordance with high standards for neatness, hard work, and professional presentation, unless a student has accommodations under a Section 504 Plan or an Individualized Education Program ("IEP")
- ❏ All elementary students are provided with homework folders. Homework folders are designed to teach students essential organizational skills. All assigned homework must be completed and, in the folder
- ❏ All homework must be neat, clean, and thorough
- ❏ If the homework is late, missing, incomplete, of poor quality, or not completed properly, students risk receiving no credit. If the problem continues to exist, then the parent/guardian must attend a meeting with the classroom teacher and the school administration
- ❏ Students with an Individualized Education Program (" IEP") will work with AMPS special education staff accordingly for their modified plans for success.

## Assessments

At AMPS, students will have multiple and varied opportunities to demonstrate what they know and can do in all their classes. Since the school's mission is to prepare students for college and beyond, rigorous and comprehensive course examinations, the California Assessment of Student Performance and Progress ("CAASPP"), and the English Language Proficiency Assessments for

Powered by BoardOnTrack

California ("ELPAC") are an important part of student assessment. Major quarterly and final exams for high school students will be used to evaluate students' mastery of course material at the end of each quarter and semester. Additionally, individual grade levels have specific exam requirements. Information regarding assessments will be sent throughout the year via ParentSquare.

Academic Support

All students need extra help at times in order to be successful. We offer several types of academic support to our students. Teachers respond to our students' needs through their curriculum and instructional strategies.

Targeted academic support is also provided for students throughout the day and after school in a variety of ways including during the intervention block, small group instruction, and English Language Arts ("ELA") and Math Intervention, office hours and after-school tutoring support.

If you are not enrolled in an afterschool program, homework assistance can be obtained by reaching out to your subject teachers. At AMPS we understand each student has independent needs, and we are here to help meet those needs.

Teachers and instructional aid staff are also available during school hours and after school to help those who require additional support. Students are explicitly taught and always encouraged to ask questions in class and arrange for tutorials to maximize their understanding.

Summer School

One of the core concepts of our program is the belief that increased educational time is needed in school and offered through an extended school day and school calendar. If necessary, some students may be recommended to attend our summer program as a commitment to being an Amethod Public School student.

Supplies & Daily Checklist

It is recommended that students bring the following supplies to school. If any student cannot provide them, then the school will provide them for the student.

Daily Checklist:

Students should come to school every day with the following items:

- ❏ Backpack
- ❏ Completed homework
- ❏ Class binders, textbooks, and any other required materials
- ❏ Proper uniform

Students are prohibited from bringing Sharpie or permanent markers on campus Students who are caught with permanent markers on campus will have the markers confiscated and not returned along with the possibility of additional consequences.

## Promotion & Retention Overview

The AMPS school standards for progress are high and considerably more demanding than many of the local school districts and schools. The nature of the high stakes certainty of charter schools and the existing achievement gaps among racial and economic subgroups in public education, merit and justify the need for exceeding academic standards and programs. AMPS expects students to progress through each grade within one school year. To accomplish this, instruction will be made to accommodate the varying interests and needs of individual students and include strategies for addressing academic deficiencies when needed. Students shall progress through grade levels by demonstrating growth and mastery in learning and meeting grade-level standards of expected student achievement.

The following criteria will be reviewed in calculating the retention of a student:

- ❏ Grade Point Average (Grades below the mark of C-/2 are considered as failing and will receive 0 credits). More than 2 semester grades below a C-/2 may constitute retention
- ❏ PE and language are included in grade calculations
- ❏ IEP, Section 504 Plan, and other modifications and plans will be reviewed during the retention decision phase
- ❏ Multiple measures assessments (including Standardized Testing and Reporting Program and Interim assessments) * these are not used to retain. May be reviewed in conjunction with other areas
- ❏ Attendance record (More than 20 unexcused absences may constitute a retention)
- ❏ Social Emotional learning & growth (Is their maturity level ready for the next grade)

## Parent Notification

When a student is identified as being at risk of retention, the Principal or designee shall notify the student's parent/guardian at the earliest time possible and convene a Student Support Team ("SST") meeting to review the student's lack of academic progress and offer interventions or accommodations to support the student. In preparation for this meeting, the Principal or designee shall provide a copy of the student's grades and provide a copy of the Promotion and Retention Policy to the parents.

# School Rules, Expectations, & Policies

Our school is structured to provide a safe and orderly educational experience for our students. A safe and organized setting provides a foundation for effective teaching and learning. Our approach to discipline is two-fold. We believe in practices that are both preventive and restorative.

School rules and policies will apply to ALL students. Rules may be added throughout the year at the discretion of the site administration as needed. Our school's expectations are set high in order for all of our students to be successful.

# Behavior Policies

The following are sample situations that AMPS does not permit:

- ❏ Drug/alcohol possession
- ❏ Bullying (this includes Cyberbullying)
- ❏ Possessing Weapons
- ❏ Leaving campus without permission
- ❏ Gang paraphernalia or graffiti
- ❏ Hate speech
- ❏ Fighting
- ❏ Not following schools' rules & procedures

Students may lose the following as appropriate for behavior and work ethic: (this list may not be all-inclusive)

1. Field trips
2. School Events
3. Extracurricular trips
4. Promotion and graduation ceremonies

Bullying

AMPS prohibits- bullying. If a student alleges that they have been bullied, AMPS will investigate it. If the allegation meets the definition of bullying , the student will be warned with a referral, and the parents/guardians will receive a phone call and a written notice of the incident. If the student engages in another bullying incident, then the student may be suspended. Depending upon the

severity of the bullying a student may be suspended upon the first offense. In order for the student to return to school, the parent/guardian must meet with the Principal and/or designee(s) to develop a plan for the bullying to stop. Please see the Suspension and Expulsion Policy and Procedures, the Uniform Complaint Policy and Procedures, and the Harassment, Discrimination, Intimidation and Bullying Policy which are available www.amethodschools.org to file a complaint of bullying.

Cheating and Plagiarism Academic Integrity

Cheating/Plagiarism is a serious offense. If a student copies another student's work/homework or if a student gives another student their work/homework, it is considered cheating. Unless a staff member has given the student permission to complete assignments with a teammate(s), or permission to use artificial intelligence ("AI"), such as ChatGPT, all assignments must be completed independently. Please communicate with your teacher for help when in doubt. Plagiarism involves the stealing of someone else's ideas or words as one's own or the imitation of the language, ideas, and thoughts of another author (or person) and representation of them as one's original work, or the use of artificial intelligence[2] or chatbots without giving credit. Depending on grade level and the degree of the violation, acts of cheating/plagiarism will result in one of the following consequences: reduction in the assignment's grade, failing the course, detention, community service, or Saturday schools.

Classroom Disturbance

The value of "Respect" is of the utmost importance at AMPS, and therefore classroom disturbances will not be tolerated. Any behavior that disrupts the instructional process, distracts students and/or teachers from classroom activities and studies, and/or creates a dangerous or fearful situation for students and/or staff will result in consequences, such as detention. Consistent disruptions will be addressed every time in order to keep the class environment safe and conducive to all learning.

Conduct Outside of School Hours

It is imperative that students recognize that they are representatives of their school at all times as they wear their school uniforms or logoed shirt. Therefore, any conduct outside of school hours or away from school which may cause a substantial disruption to the educational process or endanger the health, safety, or well-being of other students or staff members may result in consequence from the

Field Trips

AMPS recognizes and supports the concept of connecting our students with the broader community, both locally and globally, by providing field trips, cultural and art experiences, community service opportunities, and environmental education to fulfill AMPS's mission and philosophy. These activities help to promote tolerance, understanding, and acceptance of others, and enrich the educational experiences of the students, as well as meet the Charter School's goal of creating passionate life-long learners.

The safety and security of our students is a primary priority when planning or participating in field trips or excursions. These activities will be carried out in an appropriate manner to maximize and ensure student safety and to minimize the Charter School's legal liability and financial cost.

Disciplinary Rules during a Field Trip or Excursion

Vision and Hearing Screenings

The California Department of Education mandates vision and hearing screening in schools. You will be notified when your child is scheduled to be screened for vision and hearing. This screening is a general assessment of your child's vision and hearing. It may indicate possible difficulties your child may have with vision or hearing; it will not provide a confirmed diagnosis. This screening is not a substitute for regular medical visits to your child's doctor and optometrist.

You will be notified of your child's screening results only if they do not pass the test. At that time, your child will receive a referral for further evaluation by a qualified medical professional. If you choose for your child to not have a screening , please submit a signed written request to your Principal. Please see the opt-out instructions in the Annual Notification Guide.

Mandated Reporting

All AMPS staff must follow state policies on reporting child abuse. In California, all school employees and qualifying volunteers must report abuse or neglect if they "have knowledge of or observe" instances of abuse or neglect, or if they "know or reasonably suspect" abuse or neglect has occurred.

All AMPS school personnel and qualifying volunteers are mandated reporters of suspected abuse and/or neglect. Mandated reporters are required to report suspected child maltreatment immediately when they have "reasonable cause to believe that a child who is 17 years of age or younger and known to them in a professional or official capacity has been harmed or is in danger of being harmed – physically, sexually, or through neglect – and that a caregiver either committed the harm or should have taken steps to prevent the child from harm.

# AMPS: Who We Are

## OUR BEGINNING

The Amethod Public Schools (AMPS) network~~organization~~ held~~operates~~ the oldest charter school in the East Bay Area, and one of the oldest in the state. The original "Jingletown" Charter School, later to be named Oakland Charter Academy, opened in 1994 as the 8th charter school established in California. Since then, Oakland Charter Academy has grown from a single middle school site to the present four~~five~~ school, multi-city and multi-county charter school network. The AMPS network has continued to deliver a ~~top-notch~~ tuition-free public-school education that has produced a National Blue Ribbon Award school, a California Distinguished School, and some of the highest performing middle and high school programs in the state and country.

Every Amethod Public School campus is characterized by a culture that is structured, supportive, and focused on academic work. The ethos of the AMPS community is rooted in offering a vibrant and rigorous school program that intends to prepare students for life beyond the TK-12 system. The staff and faculty strive to ensure that the policies, core values, objectives and goals are consistently reinforced throughout the year.

It is our organizational intent to make student achievement our highest priority; and through our different campuses and programs, we will offer the needed support for success. It is with the same consideration that we expect that families make the same commitment to their child and school to reach the goal of academic success.

### AMPS Mission Statement

Amethod Public Schools (AMPS) seeks to provide a rigorous college preparatory education and character development program that will prepare students from underserved communities to succeed in college and beyond.

### AMPS Vision

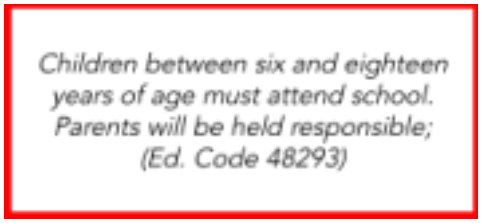
Amethod Public Schools foster students' motivation and belief in academic achievement and goals. We are a free and public charter school network that believes in the promise of hard-working students from all perspectives, backgrounds, and talents. We challenge every student to strive towards a purpose larger than themselves and challenge all families to expect more from their schools, themselves, and their children for a prospective future for the next generation.

### AMPS Core Values

The Core Values of the organization are those values we hold

**Students First**
**Perseverance**
**Responsibility**
**Adaptability**
**Commitment to Distinction**

Powered by BoardOnTrack



which form the foundation on which we perform work and conduct ourselves. Core values are not descriptions of
the work we do or the strategies we employ to accomplish our mission. The values underlie our work, how we interact with each other, and which strategies we employ to fulfill our mission. The core values are the basic elements of how we go about our work. They are the practices we use (or should be using) every day in everything we do.

# Attendance Policy

Absences Procedure

If a student will be absent, parents/guardians are responsible for calling the school before or on the day of the absence *before* the school day begins. Our sites use an automated system that will record your message before and after regular office hours, thus parents/guardians need to leave a message with the following information:

- Child Name
- Grade level
- Parent/Guardian name
- Date of Absence
- Reason for Absence
- Date of return
- Phone number where you can be reached

When the student returns, the student must bring ~~a~~ proof of their absence, such as a doctor's note, explaining the absence/s. Parents/guardians are encouraged to pick-up student's homework when they are absent from school any time before 4pm. Any p~~P~~arents/guardians, who have not contacted the school before school starts, ~~-~~will be called in the morning to ask about their child's absence. Students who are absent will be invited to ~~may be required to attend~~ an after school session to make up missing work. Students with more than three (3) unexcused absences in a school year are considered truant.

Sample of Non-Excused Absences

- Rain (weather)
- Being tired
- Vacations
- Lack of Transportation
- Child or Parents/guardians overslept
- No alarm clocks

Schedule Appointments for After School Hours

Families are encouraged to schedule appointments or other commitments outlined within the Attendance Policy outside of school time. The best times are on Friday afternoons after dismissal~~1:45 p.m.~~, or days when school is not in session. In the rare case when a student has an appointment or commitment during school hours, it is expected that the student will come to school before the appointment and return to school after the appointment to ~~finish~~ complete the remainder of the school day.

Skipping Class

Any student caught skipping class will receive an unexcused absence, which may lead to being truant. Consequences for skipping also include detention and may result in a recommendation to be involuntarily removed from the Charter School. Any student ~~that~~ who leaves school without permission may forfeit a field trip and/ or activity participation.

Suspensions Are Considered Absences

If students are absent from school due to a suspension, these days will be treated as excused absences and students are required to obtain and complete any missing work.

Dismissal

Students are expected to stay in school until the very end of the school day. All students will be dismissed by their teachers at a time specific to their school site. Early pickups ~~are disruptive to~~disrupt the learning environment. Our learning environment is extremely important to ~~the success of each student, and we strongly discourage any disruption of a class by leaving~~ each student's success, and we strongly discourage leaving class early. Leaving early also disrupts the ~~teacher from~~ teacher's instruction as they will need to prepare a student's homework. Please make sure your child alerts their teachers in the morning if they need to leave early that school day.

Absences and Missed Work

When a student has an ~~un~~excused absence, ~~the student~~they must contact the teacher to get the homework assignments for that day. Homework assigned the day of a student's absence is expected to be turned in on the day the student returns, unless the student has contacted their teacher prior to returning and the teacher has agreed that the student has an extra day to complete the assignment When a student has an unexcused absence a student must contact the teacher to get the missing class or home work assignment with an enforced late penalty and will have a capping grade of 50% or dropping the gard by a full letter.

Since missing class affects academic achievement, repeated absences may be reflected in the student's grades. If a student is repeatedly late or absent, the P~~p~~rincipal~~director~~, teacher(s), student, and parent or guardian will meet to address the issue per the truancy process below.

Tardiness

Tardiness is disruptive to the learning process. It has a negative impact on the entire class, not just

the child who is tardy. It is the policy of AMPS campuses to have students arrive to class on time.

Each student is expected to be in class each day, on time. A student who arrives after the morning bell is considered late and must adhere to the consequences listed below. If a student is tardy, they will receive a Tardy Pass documenting the time of arrival.

Definitions

- "*Tardy*": Students shall be classified as tardy if the student arrives after the morning bell
- "*Unexcused Absence*": A student shall have an unexcused absence if the student is absent ~~or is tardy for more than thirty (30) minutes~~ without a valid excuse.
- "*Truant":* A student shall be classified as a truant if the student is absent from school without a valid excuse three (3) full days in one school year, or if the student is tardy or absent for more than any 30-minute period during the school day without a valid excuse on three (3) occasions in one school year, or any combination thereof. Any student who has once been reported as a truant and who is again absent from school without valid excuse one or more days, or tardy on one or more days, shall again be deemed a truant. Such students shall be reported to the Principal~~Site Director~~ or designee.
- "*Habitual Truant*": A student shall be classified as a habitual truant if the student is reported for truancy three (3) or more times within the same school year. - "*Chronic Truant*": A student shall be classified as a chronic truant if the student is absent from school without a valid excuse for ten (10) percent or more of the school days in one school year, from the date of enrollment to the current date.

## Method of Verification

When a student who has been absent returns to school, the student must present a satisfactory explanation verifying the reason for the absence. The following methods may be used to verify student absences:

1. Signed, written note from the student's parent/guardian or parent representative.

2. Conversation, in person or by telephone, between the verifying employee and the student's parent/guardian or parent representative. The employee shall subsequently record the following:

    c. Name of verifying employee;

    d. Date or dates of absence; and

6. Insofar as class participation is an integral part of students' learning experiences, parents/guardians and students shall be encouraged to schedule medical appointments during non-school hours.

7. Students should not be absent from school without their parents/guardians' knowledge or consent except in cases of medical emergency.

8. Unexcused Absences/Truancy for Classroom Based Attendance

9. The Principal, or designee, shall implement positive steps to reduce truancy, including working with the family in an attempt to resolve the attendance problem. A student's progress and learning may be affected by excessive unexcused absences. In addition, the Charter School is fiscally dependent on student attendance and is negatively impacted by excessive unexcused absences. If all attempts to resolve the student's attendance problem are unsuccessful, the Charter School will implement the processes described below.

10. Process for Addressing Truancy

~~Truancy ¶~~
~~Under state law, a pupil who, without a valid excuse, is absent from school for three (3) full days in one school year or is tardy or absent for more than thirty (30) minutes during the school day on three (3) occasions in one school year, is considered truant. Once a student is designated a truant, state law requires schools, and courts to intervene to ensure that parents and pupils receive certain services to assist them in complying with attendance laws. ¶~~

Student Attendance Review Team ("SART")

AMPS has implemented a Student Attendance Review Team ("SART") process to address attendance and tardy issues. The SART panel is designed to meet with parents/guardians of children who have exceeded the allowable amount of unexcused absences. The purpose of the meeting is to discuss the child's attendance record and to work on solutions, develop strategies, discuss appropriate mental health support and other supportive services for the student and student's family, and develop a plan[1] for the child's regular participation in school drawing from community resources when necessary. The team shall include representatives of the school, including teachers and directors. The Chief Academic Officer or designee shall chair all SART panels.

[1] If the student's parent/guardian fails to attend the SART meeting, sign the SART plan, or respond to the SART's requests to schedule a meeting, then the SART panel shall implement the SART plan without the parent/guardian's signature.

Procedures for Excessive Absences/ Tardies

1. Each of the first two (2) unexcused absences or unexcused tardies over 30 minutes will result in a call home to the parent/guardian by the Principal ~~Site Director~~ or designee. The student's classroom teacher may also call home.

2. Each of the third (3rd) and fourth (4th) unexcused absences or unexcused tardies over thirty (30) minutes will result in a call home to the parent/guardian by the Executive Director or designee. In addition, the student's classroom teacher may also call home and/or the Charter School may send the parent an e-mail notification. In addition, upon reaching three (3) unexcused absences or unexcused tardies over 30 minutes in a school year, the parent/guardian will receive "Truancy Letter #1 – Truancy Classification Notice" from the Charter School notifying the parent/guardian of the student's "Truant" status. This letter must be signed by the parent/guardian and returned to the Charter School. This letter shall also be accompanied by a copy of this Attendance Policy. This letter, and all subsequent letter(s) sent home, shall be sent by Certified Mail, return receipt requested, or some other form of mail that can be tracked. This letter shall be re-sent after a fourth (4th) unexcused absence.

3. Upon reaching five (5) unexcused absences or unexcused tardies over 30 minutes, the parent/guardian will receive "Truancy Letter #2 – Habitual Truant Classification Notice and Conference Request," notifying the parent/guardian of the student's "Habitual Truant" status and a parent/guardian conference will be scheduled to review the student's records and develop an intervention plan/contract. In addition, the Charter School will consult with a school counselor regarding the appropriateness of a home visitation and/or case management.

4. Upon reaching six (6) unexcused absences or unexcused tardies over 30 minutes, the parent/guardian will receive a "Truancy Letter #3 – Referral to SART Meeting" and the student will be referred to a Coordination of Services Team (COST) (and the SART.

5. If the conditions of the SART ~~contract~~ plan are not met, the student may incur additional administrative action up to and including disenrollment from the Charter School, consistent with the Involuntary Removal Process described below.

6. If a student is absent ten (10) or more consecutive school days without valid excuse and the student's parent/guardian cannot be reached at the number or address provided in the registration packet and does not otherwise respond to the Charter School's communication attempts, as set forth above, the student will be in violation of this Policy and the SART ~~contract~~ plan (if any) and may be subject to disenrollment in compliance with the Involuntary Removal Process described below. If the student is disenrolled after the Involuntary Removal Process has been followed, notification will be sent within thirty (30) days to the student's last known school district of residence.

7. Any documentation received by the Charter School regarding a student's enrollment and attendance at another public or private school (i.e., CALPADS report) shall be deemed evidence of a voluntary disenrollment and shall not trigger the Involuntary Removal

Process below.

8. For all communications set forth in this process, the Charter School will use the contact information provided by the parent/guardian in the registration packet. It is the parent's or guardian's responsibility to update the Charter School with any new contact information.

Process for Students Who Are Not in Attendance at the Beginning of the School Year

When a student is not in attendance on the first five (5) days of the school year, the Charter School will attempt to reach the student's parent/guardian on a daily basis for each of the first five (5) days to determine whether the student has an excused absence, consistent with the process outlined in this policy. If the student has a basis for an excused absence, the student's parent/guardian must notify the Charter School of the absence and provide documentation consistent with this policy. However, consistent with process below, students who are not in attendance by the sixth (6th) day of the school year due to an unexcused absence will be disenrolled from the Charter School roster after following the Involuntary Removal Process described below, as it will be assumed that the student has chosen another school option.

1. Students who are not in attendance on the first (1st) day of the school year will be contacted by phone to ensure their intent to enroll in the Charter School.

2. Students who have indicated their intent to enroll but have not attended by the third (3rd) day of the school year and do not have an excused absence will receive a letter indicating the student's risk of disenrollment.

3. Students who have indicated their intent to enroll but have not attended by the fifth (5th) day of the school year and do not have an excused absence will receive a phone call reiterating the content of the letter.

4. Students who are not in attendance by the sixth (6th) day of the school year and do not have an excused absence will receive an Involuntary Removal Notice and the CDE Enrollment Complaint Notice and Form. The Charter School will follow the Involuntary Removal Process described below, which includes an additional five (5) schooldays for the parent/guardian to respond to the Charter School and request a hearing before disenrollment.

5. The Charter School will use the contact information provided by the parent/guardian in the registration packet.

6. Within thirty (30) calendar days of disenrollment, the Charter School will send the student's last known school district of residence a letter notifying it of the student's failure to attend the Charter School.

7. Any documentation received by the Charter School regarding a student's enrollment and attendance at another public or private school (i.e., CALPADS report) shall be deemed evidence of a voluntary disenrollment and shall not trigger the Involuntary Removal Process below.

Involuntary Removal Process

No student shall be involuntarily removed by AMPS for any reason unless the parent or guardian of the student has been provided written notice of the Charter School's intent to remove the student ("Involuntary Removal Notice") must be provided to the parent/guardian no less than five (5) school days before the effective date of the ~~action ("Involuntary Removal Notice").~~proposed disenrollment date. The written notice shall be in the native language of the student or the student's parent or guardian or if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder. The Involuntary Removal Notice shall include:

1. ~~t~~The charges against the ~~pupil~~ student
2. ~~and a~~An explanation of the ~~pupil's~~ student's basic rights including the right to request a hearing before the effective date of the action,
3. The ~~and the~~ CDE Enrollment Complaint Notice and Form.

The hearing shall be led by the Chief Academic Officer or designee consistent with the Charter School's expulsion procedures. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until Amethod Public Schools issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the AMPS suspension and expulsion policy.

Upon parent/guardian request for a hearing, AMPS will provide notice of hearing consistent with the its expulsion hearing proces, through which the ~~pupil~~ student has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the student~~pupil~~ has the right to bring legal counsel or an advocate. The notice of hearing shall be in the native language of the student or the student's parent or guardian or if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall include a copy of the AMPS expulsion hearing process.

If the parent/guardian is nonresponsive to the Involuntary Removal Notice, the Student will be disenrolled as of the effective date set forth in the Involuntary Removal Notice. If the parent/guardian requests a hearing and does not attend on the date scheduled for the hearing the Student will be disenrolled effective the date of the hearing.

If as a result of the hearing the student is disenrolled, notice will be sent to the student's last known district of residence within thirty (30) calendar days.

A hearing decision not to disenroll the student does not prevent AMPS from making a similar recommendation in the future should a student's truancy continue or reoccur.

Referral to ~~County District Attorney~~Appropriate Agencies

It is the Charter School's intent to identify and remove all barriers to the student's success, and the Charter School will explore every possible option to address student attendance issues with the family. For any unexcused absence, the Charter School may refer the family to appropriate school-based and/or social service agencies. ~~If a child's attendance does not improve after a SART plan has been developed, or if the parents fail to attend a required SART meeting, the parents and the child may be referred by AMPS to the District Attorney's office for prosecution through the court system. Students 12 years of age and older may be referred to the juvenile court for adjudication. Families need to understand that excessive absences and tardies are counter to a child's well-being.~~ ¶

Please see the Attendance Policy for more information, it can be found on our website under the AMPS Family Handbook tab.

Non-Discrimination

These policies will be enforced fairly, uniformly, and consistently without regard to the characteristics listed in Education Code section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Penal Code section 422.55, including immigration status, pregnancy, or association with an individual who has any of the aforementioned characteristics).

Reports

The CEO, or designee, shall gather and report to the Board the number of absences both excused and unexcused as well as students who are truant, and the steps taken to remedy the problem. The Attendance Policy is also posted on the AMPS' website under Public Reporting and Resources

Arrival and Drop-offs; Dismissal and Pick-ups

School Hours
Class begins promptly at the designated start time. If your student is not in an after-school program such as tutorial or detention, then they are not allowed on campus due to a lack of supervision and must be picked by dismissal time.~~up by 4:00 pm~~. See specific bell schedules for designated start and end times.

Students must decide with their parents in advance to be dropped off and picked up at school at the appropriate time. Students who remain after school must always remain on campus and follow all school rules.

Carpooling
To reduce traffic flow and parking issues, we highly recommend carpooling.

Morning Drop-Off Procedures:
Please be at school at the designated start time~~ and not more than 30 mins before~~, no more than

30 minutes early. If, arriving after the start time, students must go to the main office, sign-in as tardy, and get a slip before going to their first period class.

- When dropping off your child at school, please make sure you have pulled up to the curb and that your student can safely exit the vehicle and go immediately into the school.
- Do not drop your student off in any area other than the designated drop-off area.
- Do not park in any neighboring parking lots or in spaces that are not intended for student drop-off/pick-up.
- AMPS provides free breakfast before school starts. Please drop your child off early if they wish to participate in this ~~new~~ program.

Afternoon Pick-Up Procedures

Students are only allowed to stay after school for the following reasons:

- They are participating in After School Education and Safety ("ASES") or a staff-sponsored student activity (sports, clubs, student government, etc.).
- They have been assigned detention or the homework center.
- They are receiving tutoring from a staff member.

Students who choose to participate in after-school activities, must regularly attend the programs. Students may not leave campus until the program ends, or they are released to their parents. Students who cannot abide by this and other school rules will be removed from their program.

If a student has after-school tutoring or detention, they are required to stay for the full duration. A Parent/Guardian may not pick them up early unless there is an emergency, and the student must be signed out at the office in person.

Early Sign-outs

Please do not take your child out of school earlier than the dismissal time. Only early dismissals for absences per the Attendance Policy (that cannot be scheduled for Fridays after the school's dismissal time), will be excused. All other early pick-ups are considered unexcused.

We will evaluate the early dismissal log on a quarterly basis. If a child has excessive early dismissals, we will start the SART (Student Attendance Review TEAM) process per the Attendance Policy. Since missing class can negatively impact academic achievement, repeated absences and excessive early pick-ups may be reflected in your student's grades and acquisition of new skills.

- In the rare event that a student needs an early dismissal, the following procedures must be followed:
    - the student or parent/guardian must notify the school that an early dismissal is

necessary, or the student must call their parent/guardian using the office phone;
- The student will remain in class or the main office until a parent/guardian or emergency contact arrives to pick up the student;
- The authorized adult must come in to sign the student out – we will only release students to an adult over the age of 18 who is a parent/guardian or is listed on the emergency contact form; and
- The student must make up all missed work.

The Principal~~Director~~ or designee may revoke a visitor's registration if they have a reasonable basis for concluding that the visitor's presence on school grounds would interfere or is interfering with the peaceful conduct of school activities or would disrupt or is disrupting the school, students, or staff.

The Principal~~Director~~ or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. When an outsider is directed to leave, the Principal~~Director~~ or designee shall inform the visitor that if they reenter the school within seven days the visitor will be guilty of a misdemeanor subject to a fine and/or imprisonment. (Penal Code 627.7)

Powered by BoardOnTrack

Appeal Procedure

The PrincipalSite Director or designee may withdraw consent to be on campus for up to fourteen (14) days even if the visitor has a right to be on campus whenever there is reason to believe that the person has willfully disrupted or is likely to disrupt AMPS's orderly operation. Consent may be reinstated at the discretion of the PrincipalSite Director prior to the expiration of the fourteen (14) calendar day timeline whenever the PrincipalSite Director has reason to believe that the presence of the person will not constitute a substantial and material threat to the orderly operation of the School campus. The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the two-week period. The written request shall state the address to which notice of hearing is to be sent. # Academic Program

The AMPS mission and values drive all aspects of the academic program including content standards, curriculum, teacher domains, instruction, and assessment. Every aspect of the AMPS culture supports high academic performance, instilling in students the academic and character qualities needed to succeed in school, college, and in life.

Our schools are data-driven and as such, every AMPS site will have an assessment calendar and dates that will detail the assessment of all students to capture progress and regression in content areas throughout the year and is provided to parents/guardians and students via progress reports, parent portals, or emails. The intent is to restructure needed lessons, tutoring programs, re-teach models, and other programs to assure ensure student progress towards goals.

Classroom Expectations

1. Students are to come to class prepared with completed homework. TWhile the school will provide all necessary instructional supplies. Should a student bring personal supplies, they do so at their own risk., a recommended additional list of supplies may be provided by your child's school. Students are to come to class fully prepared for academic success.: Amethod Public Schools (AMPS) will provide all necessary instructional supplies, including pencils, folders, erasers, scissors, markers, glues sticks, paper, composition notebooks, and agendas. While we are committed to equipping every scholar with the tools they need for their daily lessons, please be advised that AMPS is not responsible for any personal items that are lost, stolen, or damaged on campus. Should a student choose to bring their own personal supplies or belongings, they do so at their own risk.

2. Students are to demonstrate respect towards all individuals in the classroom by listening and tracking the speaker and refraining from talking when others are speaking.

3. Students are to stay on task throughout each class period and actively participate in all classroom activities.

4. Students are encourage to ask questions when needing clarification.

5. ~~Students will seek to help each teammate rather than criticize during intense moments of learning~~. During challenging moments of learning, students empower one another through encouragement and collaborative support, ensuring every teammate feels valued and motivated to succeed

Grading

Report cards are issued every nine (9) weeks. Parents/guardians may be required to come in for at least one (1) parent-teacher conference during the school year. Report card grades will reflect the effort and work students put forth in these areas. Please note that parents and guardians can access a student's record of attendance and grades at any time through the PowerSchool Portal. If you need assistance with login, please do not hesitate to contact the office.

Homework

Homework is an essential part of the AMPS educational program. The purpose of homework is to reinforce skills taught in the classroom, to help students develop a deeper understanding of concepts, and to promote good study habits. Students must begin to develop a positive work ethic and habits as they prepare their path towards college and beyond, and homework is a large part of that preparation. Part of homework is study time for tests and quizzes that make up part of your child's grades. If your child is not submitting assigned homework, then expect this to be reflected in lower grades. Over school breaks, holiday, and summer packets may~~will~~ be assigned~~, and a parent/guardian signature is required~~.

Homework may~~will~~ be assigned daily and on weekends. This means that families must help students with their homework in ways that include:

- ❏ Checking assigned homework
- ❏ Manage time with extracurricular activities
- ❏ Monitoring reading time and reading logs
- ❏ Monitor screen time (TV, cell phone, iPad, video games, etc.)
- ❏ Creating routines at home for students to complete their homework
- ❏ Provide a quiet, organized place to work, when possible

Family assistance is encouraged; however, the student must complete their homework independently in order to benefit from the additional practice. Please do not do your child's homework for them~~. Adult writing identified in a child's homework will be considered as incomplete.~~

Homework Methods:

- ❏ Follow teacher instructions for assignments
- ❏ Homework must be completed in full and in accordance with high standards for neatness, hard work, and professional presentation, unless a student has accommodations under a Section 504 Plan or an Individualized Education Program ("IEP")
- ❏ All elementary students are provided with homework folders. Homework folders are designed to teach students essential organizational skills. All assigned homework must be completed and, in the folder,
- ❏ All homework must be neat, clean, and thorough
- ❏ If the homework is late, missing, incomplete, ~~or of poor quality, or is~~ of poor quality, or not completed properly, students ~~run the~~ risk ~~of~~ receiving no credit. If the problem continues to exist, then the parent/guardian must attend a meeting with the classroom teacher and the school administration
- ❏ Students with an Individualized Education Program (" IEP") will work with AMPS special education staff accordingly for their modified plans for success.

Assessments

At AMPS, students will have multiple and varied opportunities to demonstrate what they know and ~~what they~~ can do in all their classes. Since the school's mission is to prepare students for college and beyond, rigorous and comprehensive course examinations, the California Assessment of Student Performance and Progress ("CAASPP"), and the English Language Proficiency Assessments for California ("ELPAC") are an important part of student assessment. Major quarterly and final exams for high school students will be used to evaluate students' mastery of course material at the end of each quarter and semester. Additionally, individual grade levels have specific exam requirements. Information regarding assessments will be sent throughout the year via ParentSquare.

Academic Support

All students need extra help at times in order to be successful. We offer several types of academic support to our students. Teachers respond to our students' needs through their curriculum and instructional strategies.

Targeted academic support is also provided for students throughout the day and after school in a variety of ways including during the Individualized Learning Block intervention block, small group instruction, and English Language Arts ("ELA") and Math Intervention, office hours and after-school tutoring support.

If you are not enrolled in an afterschool program~~ASES~~, homework assistance can be obtained by reaching out to your subject teachers. At AMPS we understand each student has independent needs, and we are here to help meet those needs.

Teachers and instructional aid staff are also available during school hours and after school to help those who require additional support. Students are explicitly taught and always encouraged to ask questions in class and arrange for tutorials to maximize their understanding.

## Summer School

One of the core concepts of our program is the belief that ~~in~~ increased educational time is needed in school and offered through an extended school day and school calendar. If necessary, some students ~~will~~ may be recommended to attend our summer program as a commitment to being an Amethod Public School student.

## Supplies & Daily Checklist

~~Teachers will provide a recommended supply list at the beginning of the year.~~ It is recommended that students bring the following ~~se~~ supplies to school. If any student cannot provide them, then the school will provide them for the student.

### Daily Checklist:

Students should come to school every day with the following items:

- ❏ Backpack ~~with black and blue pens, pencils, paper, eraser, pencil sharpener~~ ¶
- ❏ ~~School binder~~
- ❏ Completed homework
- ❏ Class binders, textbooks, and any other required materials
- ❏ Proper uniform

Students are prohibited from bringing Sharpie or permanent markers on campus ~~due to previous defacing of school property.~~ Students who are caught with permanent markers on campus will have the markers confiscated and not returned along with the possibility of additional consequences.

## Promotion & Retention Overview

The AMPS school standards for progress are high and considerably more demanding than many of the local school districts and schools. The nature of the high stake~~'~~s certainty of charter schools and the existing achievement gaps among racial and economic subgroups in public education, merit and justify the need for exceeding academic standards and programs. AMPS expects students to progress through each grade within one school year. To accomplish this, instruction will be made to accommodate the varying interests and needs of individual students and include strategies for addressing academic deficiencies when needed. Students shall progress through grade levels by demonstrating growth and mastery in learning and meeting grade-level standards of expected student achievement.

The following criteria will be reviewed in calculating the retention of a student:

- ❏ Grade Point Average (Grades below the mark of C-/2 are considered as failing and will receive 0 credits). More than 2 semester grades below a C-/2 may constitute retention

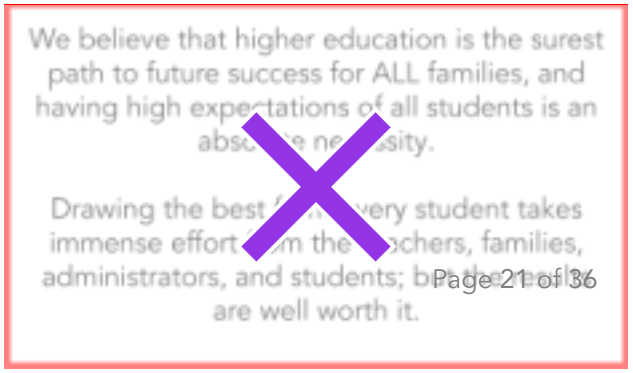
- ❏ PE and language are included in grade calculations

- ❏ IEP, Section 504 Plan, and other modifications and plans will be reviewed during the retention decision phase
- ❏ Multiple measures assessments (including Standardized Testing and Reporting Program and Interim assessments) * these are not used to retain. May be reviewed in conjunction with other areas
- ❏ Attendance record (More than 20 unexcused absences may constitute a retention)
- ❏ Social Emotional learning & growth (Is their maturity level ready for the next grade)

Parent Notification

When a student is identified as being at risk of retention, the Principal~~Director~~ or designee shall notify the student's parent/guardian at the earliest time possible and convene a Student Support Team ("SST") meeting to review the student's lack of academic progress and offer interventions or accommodations to support the student. In preparation for this meeting, the Principal~~Director~~ or designee shall provide a copy of the student's grades and provide a copy of the Promotion and Retention Policy to the parents.

# School Rules, Expectations, & Policies



Our school is structured to provide a safe and orderly educational experience for our students. A safe and organized setting provides a foundation for effective teaching and learning. Our approach to discipline is two-fold. We believe in practices that are both preventative and restorative.

School rules and policies will apply to ALL students. Rules may be added throughout the year at the discretion of the site administration as needed. Our school's expectations are set high in order for all of our students to be successful.

# Behavior Policies

- ❏ Drug/alcohol possession
- ❏ Bullying (this includes Cyberbullying)
- ❏ Possessing Weapons

❏ Leaving campus without permission

❏ Gang paraphernalia or graffiti

Hate speech

❏ Fighting

❏ Not following schools' rules & procedures

~~The AMPS Method: All is Earned Culture ¶~~
~~Families and students need to be aware of the disguised and hidden messages of low expectations widespread in many institutions, including public schools that have a negative impact on inner city families and students of color.~~

Students may~~will earn and~~ lose the following as appropriate for behavior and work ethic: (this list may not be all-inclusive~~A sample list~~)

~~1. Time in classrooms~~
2. Field trips
3. School Events
4. Extracurricular trips
5. Promotion and graduation ceremonies

Bullying

AMPS ~~does not accept~~Tprohibits ~~here is zero tolerance for~~ bullying. If a student alleges that they have been bullied, AMPS will investigate it. If the allegation meets the definition of bullying ~~bullies another student~~, the student will be warned with a referral, and the parents/guardians will receive a phone call and a written notice of the incident. If the student ~~is caught~~engages in another bullying incident, then the student may be suspended. Depending upon the severity of the bullying a student may be suspended upon the first offense. In order for the student to return to school, the parent/guardian must meet with the Principal~~Site Director/Principal~~ and/or designee(s) ~~will~~to develop a plan for the bullying to stop. ~~Students can also self-report bullying using the school's self-reporting form for bullying (found in the Dean's office and each classroom).~~ Please see the Suspension and Expulsion Policy and Procedures, the Uniform Complaint Policy and Procedures, and the Harassment, Discrimination, Intimidation and Bullying Policy which are available www.amethodschools.org to file a complaint of bullying.

Cheating and Plagiarism Academic integrity

Cheating/Plagiarism is a serious offense. If a student copies another student's work/homework or if a student gives another student their work/homework, it is considered cheating. Unless a staff member has given the student permission to complete assignments with a teammate(s), or permission to use artificial intelligence ("AI"), such as ChatGPT, all assignments must be completed independently. Please communicate with your teacher for help when in doubt. Plagiarism involves

the stealing of someone else's ideas or words as one's own or the imitation of the language, ideas, and thoughts of another author (or person) and representation of them as one's original work, or the use of artificial intelligence[2] or chatbots without giving credit. Depending on grade level and the degree of the violation, acts of cheating/plagiarism will result in one of the following consequences: reduction in the assignment's grade, failing the course, detention, community service, ~~in-school suspension, out-of-school suspension~~, or Saturday schools.~~.~~

Any behavior that disrupts the instructional process, distracts students and/or teachers from classroom activities and studies, and/or creates a dangerous or fearful situation for students and/or staff will result in consequences, such as detention. Consistent disruptions will be addressed every time in order to keep the class environment safe and conducive to all learning.

Conduct Outside of School Hours

It is imperative that students recognize that they are representatives of their school at all times as they wear their school uniforms or logoed shirt. Therefore, any conduct outside of school hours or away from school which may cause a substantial disruption to the educational process or endanger the health, safety, or well-being of other students or staff members may result in ~~a~~ consequence ~~by~~from the school, including suspension or expulsion.

These activities help to promote tolerance, understanding, and acceptance of others, and enrich the educational experiences of the students, as well as meet the Charter School's goal of creating passionate life-long learners.

The safety and security of our students is a primary priority when planning or participating in field trips or excursions. These activities will be carried out in an appropriate manner to maximize and ensure student safety and to minimize the Charter School's legal liability and financial cost.

Disciplinary Rules during a Field Trip or Excursion

Students are under the jurisdiction of the Amethod Public Schools~~Charter School~~ Board at all times during the field trip or excursion, and all AMPS policies continue to be enforced during field trips and excursions. Charter School disciplinary policies are to be adhered to at all times. ## INTRODUCTION TO HANDBOOK

This Handbook is designed to help employees get acquainted with Amethod Public Schools ("AMPS"). It explains some of our philosophies and beliefs, and describes, in general terms, some of our employment guidelines. Although this Handbook is not intended to be an exclusive or comprehensive policies and procedures manual, we hope that it will serve as a useful reference document for employees throughout their employment at AMPS. With the exception of the statement of at-will status, this Handbook is not intended to create any expectations of continued employment, or an employment contract, express or implied. In no way does the Handbook replace or modify any official plan documents (e.g., health insurance, retirement plan, etc.) or insurance contracts. If terms contained in a specific employment agreement conflict with the policies and procedures contained in this Handbook, the employee shall adhere to their employment agreement.

This Handbook supersedes any previously issued handbooks and any policies or other written or verbal statements that are inconsistent with the policies described herein. Employees must sign the acknowledgment form at the end of this Handbook and return it to Human Resources. It is important that all employees read, understand, and follow the provisions of the Handbook. If you need further information, or if you wish to discuss any policy in this Handbook, please feel free to contact your supervisor, or Human Resources ~~or the CEO~~.

AMPS reserves full discretion to add, change, amend, supplement, or delete provisions of this Handbook, or the policies and procedures on which they may be based, at any time without advance notice. No one other than the CEO or the Board of Directors has the authority to enter into any employment agreement or other agreement that modifies AMPS policy, the arbitration agreement, or the employee's at-will employment with AMPS, and any such modification *must* be in writing, signed by the affected employee and approved by the Board of Directors in writing.

Failure to comply with this handbook may result in disciplinary action, up to and including termination.

## GENERAL POLICIES

### *A. Equal Employment Opportunity (Discrimination)*

*Covered Individuals*

This policy protects all employees of AMPS as well as interns, volunteers, and potential employees (applicants). All employees of AMPS are required to abide by this policy, regardless of position or status, including supervisors, management, and co-workers.

*Discrimination*

As used in this policy, “discrimination” means taking any adverse employment action against an employee or applicant in any aspect of employment, solely or in part based on the individual’s protected characteristic(s). Discrimination may include, but is not necessarily limited to, factoring an individual’s protected characteristic(s) in hiring, promotion, compensation, or other terms and conditions of employment unless otherwise permitted by law.

*Adverse Employment Action*

As used in this policy, “adverse employment action” may include, but is not necessarily limited to, the following: demotion; suspension; reduction in pay; denial of a merit salary increase; failure to hire or consider for hire; refusal to promote or consider for promotion; denial of employment opportunities; change of an employee’s work assignments; failure to provide a workplace accommodation when required (i.e., disability, pregnancy, religion, transgender); failure to provide a leave of absence when required (i.e., medical, pregnancy, workers’ compensation, military, domestic violence); or any other unequal treatment based on the individual’s protected characteristic(s) resulting in an adverse employment action.

*Protected Characteristic(s)*

AMPS’ policy prohibits discrimination based on race (inclusive of traits associated with race, including but not limited to hair texture and protective hairstyles; protective hairstyles include, but are not limited to, such hairstyles as braids, locs, and twists), religious creed (which includes religious dress and grooming practices), color, national origin (which includes, but is not limited to, national origin groups and aspects of national origin, such as height, weight, accent, or language proficiency), ancestry, physical disability (including HIV and AIDS), mental disability, medical condition (including cancer and genetic characteristics), genetic information, marital status (including registered domestic partnership status), sex and gender (which includes pregnancy, childbirth, breastfeeding, and related medical conditions), reproductive health decision making, gender identity and gender expression (including transgender individuals who are transitioning, have transitioned, or are perceived to be transitioning to the gender with which they identify), sex stereotype (including an assumption about a person’s appearance or behavior, gender roles, gender expression, or gender identity, or about an individual’s ability or inability to perform certain kinds of work based on a myth, social expectation, or generalization about the individual’s sex), age (forty (40) and over), sexual orientation, military or veteran status (including state and federal active and reserve members as well as those ordered to duty or training), immigration/citizenship status or related protected activities (which includes undocumented individuals and victims of human trafficking), protected medical leaves, domestic violence victim status, political affiliation, or any other consideration made unlawful by federal, state, or local laws, ordinances, or regulations. These characteristic(s) include a perception that the individual has any of these characteristics or is associated with a person who has (or is perceived to have) any of these characteristics. Discrimination is further prohibited not just on the basis of individual protected traits, but also on the basis of the intersectionality (or combination) of two or

more protected characteristics.

For purposes of this policy, discrimination on the basis of "national origin" also includes discrimination based upon any of the following: an individual's or individual's ancestors' actual or perceived physical, cultural or linguistic characteristics associated with a national origin group; marriage to or association with individuals of a national origin group; tribal affiliation; membership in or association with an organization identified with or seeking to promote the interests of a national origin group; attendance or participation in schools, churches, temples, mosques or other religious institutions generally used by persons of a national origin group; or a name that is associated with a national origin group. An employee's or applicant for employment's immigration status will not be considered for any employment purpose except as necessary to comply with federal, state or local law.

AMPS allows employees to self-identify their gender, name and/or pronoun, including gender- neutral pronouns. AMPS will use an employee's gender or legal name as indicated on a government-issued identification document, only as necessary to meet an obligation mandated by law. Otherwise, AMPS will identify the employee in accordance with the employee's current gender identity and preferred name to the extent permitted by law.

AMPS will not tolerate discrimination or harassment based upon these characteristic(s) or any other characteristic protected by applicable federal, state or local law.

To comply with applicable laws ensuring equal employment opportunities to qualified individuals with a disability, the School will make a good faith effort to provide reasonable accommodations for the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or an employee unless undue hardship would result.

Any applicant or employee who believes they require an accommodation in order to perform the essential functions of the job should contact a School representative with day-to-day personnel responsibilities and request such an accommodation. The individual with the disability should specify what accommodation they need to perform the job, or if unknown, which job duties the disability impairs. AMPS will then analyze the situation, engage in an interactive process with the individual, and respond to the individual's request.

Pregnancy and lactation accommodations may also be requested. Please refer to the Lactation and Pregnancy Disability Leave policies set forth herein for further information.

*Scope of Policy*

AMPS is an equal employment opportunity employer and is committed to complying with all applicable laws providing equal employment opportunities. As such, AMPS makes employment decisions, including, but not limited to, hiring, recruiting, firing, promotion, demotion, training, compensation, qualifications/job requirements, on the basis of merit and/or business necessity. Employment decisions are based on an individual's qualifications as they relate to the job under consideration pursuant to legitimate business purposes.

If you believe you have been subjected to, witnessed, or have knowledge about discrimination, please follow the complaint procedure outlined below.

***B. Religious Accommodation***

AMPS is committed to fostering a respectful, inclusive environment that values diversity, including the sincerely held religious beliefs and practices of all employees, and complies with all applicable federal and state laws concerning religious freedom and accommodation in the workplace.

*Employee Rights*

Employees are entitled to reasonable accommodations for their sincerely held religious beliefs or practices, unless the accommodation would impose an undue hardship on school operations. Depending on the circumstances, religious accommodations may include, but are not limited to:

- Modifications to dress code or grooming standards (e.g., head coverings, religious garments, facial hair)
- Schedule adjustments for religious observances or holidays
- Prayer breaks or access to a quiet space for religious practices
- Exemptions from certain school activities or duties that conflict with religious beliefs, where feasible

*Request Process*

Employees seeking a religious accommodation must submit a written request to the Human Resources (HR) Department and the designated School Administrator. The request should include:

- A description of the religious belief or practice
- The specific accommodation requested
- The anticipated duration of the accommodation, if applicable

Upon receiving the request, AMPS will engage in a good faith interactive process with the employee to determine a reasonable accommodation that does not pose an undue hardship on AMPS.

*Confidentiality*

Requests for religious accommodations will be handled as confidentially as possible, and information will be shared only with those involved in processing and implementing the accommodation.

*Scope of Policy*

AMPS is an equal employment opportunity employer and is committed to complying with all applicable laws providing equal employment opportunities. As such, AMPS makes employment decisions, including, but not limited to, hiring, recruiting, firing, promotion, demotion, training, compensation, qualifications/job requirements, on the basis of merit and/or business necessity. Employment decisions are based on an individual's qualifications as they relate to the job under consideration pursuant to legitimate business purposes.

If you believe you have been subjected to, witnessed, or have knowledge about discrimination, please follow the complaint procedure outlined below.

### *C. Unlawful Harassment*

*Covered Individuals*

This policy protects all employees of AMPS as well as interns, volunteers, independent contractors, and potential employees (applicants). All employees of AMPS are required to abide by this policy, regardless of position or status, including supervisors, management, and co-workers. In addition, this policy prohibits unlawful harassment by any third parties. AMPS will take all reasonable steps to prevent or eliminate unlawful harassment by non-employees, including students, parents, contractors, vendors, and anyone else who has workplace contact with our employees.

*Protected Characteristic(s)*

AMPS' policy prohibits harassment based on race (inclusive of traits associated with race, including but not limited to hair texture and protective hairstyles; protective hairstyles include, but are not limited to, such hairstyles as braids, locs, and twists), religious creed (which includes religious dress and grooming practices), color, national origin (which includes, but is not limited to, national origin groups and aspects of national origin, such as height, weight, accent, or language proficiency), ancestry, physical disability (including HIV and AIDS), mental disability, medical condition (including cancer and genetic characteristics), genetic information, marital status (including registered domestic partnership status), sex and gender (which includes pregnancy, childbirth, breastfeeding, and related medical conditions), reproductive health decision making, gender identity and gender expression (including transgender individuals who are transitioning, have transitioned, or are perceived to be transitioning to the gender with which they identify), sex stereotype (including an assumption about a person's appearance or behavior, gender roles, gender expression, or gender identity, or about an individual's ability or inability to perform certain kinds of work based on a myth, social expectation, or generalization about the individual's sex), age (forty (40) and over), sexual orientation, military or veteran status (including state and federal active and reserve members as well as those ordered to duty or training), immigration/citizenship status or related protected activities (which includes undocumented individuals and victims of human trafficking), protected medical leaves, domestic violence victim status, political affiliation, or any other consideration made unlawful by federal, state, or local laws, ordinances, or regulations. Harassment is further prohibited not just on the basis of individual protected traits, but also on the basis of the intersectionality (or combination) of two or more protected characteristics.

For purposes of this policy, discrimination on the basis of "national origin" also includes harassment against an individual because that person holds or presents the California driver's license issued to those who cannot document their lawful presence in the United States and based on any of the following: an individual's or individual's ancestors' actual or perceived physical, cultural or linguistic characteristics associated with a national origin group; marriage to or association with individuals of a national origin group; tribal affiliation; membership in or association with an organization identified with or seeking to promote the interests of a national origin group; attendance or participation in schools, churches, temples, mosques or other religious institutions generally used by persons of a national origin group; or a name that is associated with a national origin group. All such harassment is prohibited.

*Unlawful Harassment*

Prohibited unlawful harassment may include, but is not necessarily limited to, the following behavior pertaining to **any of the above protected characteristic(s)**:

a. ***Verbal conduct*** such as unwanted sexual advances including flirting, sexually suggestive innuendos, conversations regarding sexual activities, and sexual invitations or comments, racial slurs or epithets, sexist or misogynistic comments, ethnic insults or jokes, religious aspersions or mockery, disability insults or ridicule, homophobic epithets or slurs, transphobic comments or derision, derogatory comments regarding gender, gender identity or gender expression, disparaging remarks regarding military or veteran status, threats of deportation against applicants and employees and family members of applicants and employees, derogatory comments about immigration status or mockery of an accent of language or its speakers, negative remarks regarding marital status, pejorative or incendiary ethnophaulisms (i.e. racial or ethnic slurs), or any other belittling, negative or derogatory comments regarding any protected characteristic ("hostile work environment" harassment).
b. Disrespectful or unprofessional conduct based on any of the protected characteristic(s) listed above ("hostile work environment" harassment).
c. Comments or conduct that consistently target one gender, even if the content is not sexual ("hostile work environment" harassment).

e. ***Physical conduct*** such as assault, unwanted touching, blocking normal movement, or interfering with work because of any protected basis (“hostile work environment” harassment).
f. Threats and demands to submit to sexual requests as a condition of continued employment or to avoid some other loss and offers of employment benefits in return for sexual favors (“quid pro quo” harassment).
g. ***Sexual harassment*** consists of sexual advances, request for sexual favors and other verbal or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire, when: (1) submission to the conduct is either made explicitly or implicitly a term or condition of an individual’s employment; (2) an employment decision is based upon an individual’s acceptance or rejection of that conduct; and/or (3) that conduct interferes with an individual’s work performance or creates an intimidating, hostile or offensive working environment. Sexually harassing conduct may include situations that began as reciprocal relationships but later ceased to be reciprocal.

*Abusive Conduct Prevention*

AMPS does not condone and will not tolerate unlawful harassment or abusive conduct on the part of any employee (including supervisors and managers) or third party (including independent contractors or other persons with which the School does business). Examples of abusive conduct include repeated infliction of verbal abuse, such as the use of malicious, derogatory remarks, insults, and epithets, verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, or the intentional sabotage or undermining of a person's work performance.

*Scope of Policy*

This policy applies to all phases of employment, including, but not limited to, recruiting, testing, hiring, upgrading, promotion, demotion, transfer, layoff, termination, rates of pay, benefits, and selection for training. In addition, this policy extends to conduct with a connection to an employee’s work, even when the conduct takes place away from AMPS’ premises, such as a business trip, School- related social function, or social media activity (depending on the circumstances).

If you believe you have been subjected to, witnessed, or have knowledge about unlawful harassment, please follow the complaint procedure outlined below.

***Retaliation***

*Covered Individuals*

This policy protects all employees of AMPS as well as interns, volunteers, independent contractors, and potential employees (applicants). All employees of AMPS are required to abide by this policy, regardless of position or status, including supervisors, management, and co-workers.

As used in this policy, “retaliation” means taking any adverse employment action against an employee because they engaged in protected activity pursuant to this policy. Protected activity may include, but is not limited to, opposing a practice or conduct the employee reasonably believes to be unlawful; reporting or assisting in reporting suspected violations of AMPS’ anti-discrimination, harassment, or retaliation policies; cooperating or participating in investigations or proceedings arising out of a violation of these policies; refusing to report to, or leaving, the workplace place during an emergency condition (as defined by law) because the employee reasonably believes that the workplace or worksite is unsafe; or engaging in any other activity protected by applicable law.

*Adverse Employment Action*

As used in this policy, “adverse employment action” means conduct or an action that materially affects the terms and conditions of the employee’s employment status or is reasonably likely to deter the employee from engaging in further protected activity. Adverse employment actions may include, but are not limited to, the following: demotion; suspension; reduction in pay; denial of a merit salary increase; failure to hire or consider for hire; refusing to promote or consider for promotion because of reporting a violation of this policy; harassing another employee for filing a complaint; denying employment opportunities because of making a complaint or for cooperating in an investigation; changing an employee’s work assignments for identifying harassment or other forms of discrimination in the workplace; treating an employee differently such as denying an accommodation; not talking to an employee (the “cold shoulder”) when otherwise required by job duties; or otherwise excluding the employee from job-related activities because of engagement in activities protected under this policy.

Any retaliatory adverse action because of protected activity may be unlawful and will not be tolerated. If you believe you have been subjected to, witnessed, or have knowledge about retaliation, please follow the complaint procedure outlined below.

***Complaint Procedure—Discrimination, Unlawful Harassment, Retaliation***

Duty to Report

All employees who believe they have been subjected to, or witnessed, discrimination, unlawful harassment, and/or retaliation are strongly encouraged to promptly report the alleged violation(s) in accordance with the procedures set forth below. Supervisors and managers who believe they have witnessed or have knowledge of discrimination, unlawful harassment, and/or retaliation are required to immediately report the alleged violation(s) in accordance with the procedures set forth below. Immediate reporting allows AMPS to quickly and fairly resolve any complaints in the workplace.

In addition to reporting, any employee who experiences or witnesses conduct that the individual believes is unlawful is encouraged to tell the offending individual that the behavior is inappropriate and must be stopped, if the employee is comfortable doing so.

Where to Report Complaint to AMPS

Submit a complaint to your supervisor, Human Resources (hrsupport@amethodschools.org), any other supervisor within AMPS, or the Board of Directors. There is no requirement to report your complaint to any designated supervisor within AMPS. Select the individual with whom you feel the most comfortable discussing your complaint. Do not report your complaint to any individual who has allegedly engaged in the inappropriate behavior that is the subject of your complaint.

Supervisors must report all conduct of which they are made aware, which violates, or may violate, policies regarding discrimination, unlawful harassment, or retaliation to the CEO, Human Resources Department, Board of Directors, or other upper-level administrators, as appropriate. Supervisors who fail to report alleged violations may be subject to disciplinary action, up to and including termination.

Title IX Reporting

AMPS does not discriminate on the basis of sex in any of its education programs or activities. Title IX of the Education Amendments of 1972 prohibits the School from discriminating in such a manner. This prohibition extends to admission, employment, and all education programs and activities of the School. Some types of sexual harassment are also prohibited under Title IX. AMPS has designated the following individual as its Title IX Coordinator to receive complaints of sex discrimination, including sexual

harassment:

Maria Arechiga
Title IX Coordinator
1450 Marina Way South
Richmond, CA 94804
Email address: marechiga@amethodschools.org
Phone number: 510-436-0172

Inquiries about the application of Title IX may be referred to the School's Title IX Coordinator or to the Assistant Secretary for Civil Rights at the U.S. Department of Education, or both.

Contents of Complaint

All complaints submitted pursuant to this policy can be made in writing or verbally. Your complaint should be specific and should include the names of the individuals involved, the names of any witnesses, and any supporting documentation. Employees may choose to submit their complaints anonymously.See **Appendix A** for the "Harassment/Discrimination/Retaliation Complaint Form."

Response to Complaint (Investigation)

Upon notice of conduct requiring an investigation, AMPS will investigate the facts and circumstances of the alleged violation, as appropriate. AMPS will attempt to resolve the situation by promptly undertaking an effective, thorough, and objective investigation. AMPS' investigation methods may vary depending on the nature of the complaint, the allegations, the witnesses, and other factors. All complaints will be handled as confidentially as possible, and information will be disclosed only as it is necessary to complete the investigation and resolve the matter.

AMPS may investigate conduct in the absence of a formal complaint if AMPS has reason to believe that an individual has engaged in conduct that violates School policies or applicable law. Further, AMPS may continue its investigation even if the original complainant withdraws their complaint during the course of the investigation.

All employees are required to fully cooperate with AMPS' investigation, which includes, but is not limited to, providing all pertinent information in a truthful manner, submitting pertinent documents in their possession, not interfering with the investigation in any manner, and maintaining an appropriate level of confidentiality regarding the investigation. Failure to do so may result in disciplinary action, up to and including termination.

Corrective Action

If AMPS determines that violations have occurred, AMPS will take appropriate corrective action in accordance with the circumstances involved, including appropriate action to deter future conduct. Examples of potential corrective action include, but are not limited to, written or verbal disciplinary action, suspension, reassignment, demotion, or termination, among others. In addition, the offending individual may be legally liable for their conduct, depending on the circumstances. Due to privacy protections, APMS is not able to fully disclose its entire decision regarding corrective action to the complainant.

No Retaliation

There will be no retaliation against any employee who brings a complaint in good faith or who assists in good faith in investigating such a complaint, even if the investigation produces insufficient evidence that there has been a violation. Please refer to AMPS' Retaliation Policy above for further information.

*How to Report Complaint to Government Agencies*

Employees who believe that they have experienced unlawful conduct under these policies may also file a complaint with the local office of the California Civil Rights Department ("CRD") or the Equal Employment Opportunity Commission ("EEOC"). The CRD and the California Civil Rights Council ("CRC") as well as the EEOC can also order an employer to hire, reinstate, or promote a victim of discrimination, unlawful harassment, and/or retaliation or make other changes in School policies. The address and phone number of the local CRD and EEOC offices can be found online or dialing 800-FREE-411.

*Sexual Harassment Training Requirements*

All supervisors of staff will receive two (2) hours of sexual harassment prevention training within six (6) months of hire or their assumption of a supervisory position and every two (2) years thereafter. All other employees will receive one (1) hour of sexual harassment prevention training within (6) months of hire and every two (2) years thereafter. Such training will be in compliance with California law.

Employees who fail to complete this required training will be subject to disciplinary action, up to and including termination.

### *D. Support Academic Futures and Education for Today's Youth ("SAFETY") Act*

AMPS complies with the Support Academic Futures and Educators for Today's Youth ("SAFETY") Act. Neither employees nor contractors will be required to disclose a student's sexual orientation, gender identity or gender expression to any other person without the student's consent.

Retaliation or adverse action against an employee on the following grounds is prohibited:

- refusing to disclose a student's sexual orientation, gender identity or gender expression to any other person without the student's consent;
- supporting students' rights and opportunities in the educational system as required by law, free from unlawful discrimination and harassment,
- providing instruction to students consistent with current legal requirements.

Any employee engaging in retaliation prohibited by this section will be subject to discipline up to and including termination

### *E. Whistleblower Policy*

AMPS requires its directors, officers, employees, and volunteers to observe high standards of ethics in the conduct of their duties and responsibilities within the School. As representatives of the School, such individuals must practice honesty and integrity in fulfilling all responsibilities and must comply with all applicable laws and regulations. The purpose of this policy is to create an ethical and open work environment, to ensure that the School has a governance and accountability structure that supports its mission, and to encourage and enable directors, officers, employees, and volunteers of the School to raise serious concerns about the occurrence of illegal or unethical actions within the School before turning to outside parties for resolution.

All directors, officers, employees, and volunteers of the School have a responsibility to report any action or suspected action taken within the School that is illegal, unethical or violates any adopted policy of the School, or local rule or regulation. Anyone reporting a violation must act in good faith, without malice to the School or any individual at the School and have reasonable grounds for believing that the information shared in the report indicates that a violation has occurred. A person who makes a report does not have

to prove that a violation has occurred. However, any report which the reporter has made maliciously or any report which the reporter has good reason to believe is false will be viewed as a serious disciplinary offense. No one who in good faith reports a violation, or who, in good faith, cooperates in the investigation of a violation shall suffer harassment, retaliation, or adverse employment action. Further, no one who in good faith discloses, who may disclose, or who the School believes disclosed or may disclose, information regarding alleged violations to a person with authority over the employee or another employee who had responsibility for investigating, discovering or correcting the purported violation shall suffer harassment, retaliation, or adverse employment action.

AMPS prohibits retaliation against any employee because of the employee's refusal to participate in an activity that would result in a violation of a local, state or federal statute, or a violation or noncompliance with a local, state or federal rule or regulation, or for disclosing information to a government or law enforcement agency, where the employee has reasonable cause to believe that the information discloses a violation of a local, state or federal statute, or a violation or noncompliance with a local, state or federal rule or regulation. The School also prohibits any retaliation against an applicant or employee, and does not discriminate against any applicant or employee, based on that applicant or employee's "whistleblowing" activity against a former employer.

Employees with concerns about practices that are believed to be illegal or violate the School's policies are encouraged to report them to their supervisor or Human Resources. Employees who come forward with credible information on practices believed to be illegal or violations of School policy will be protected from retaliation.

Any employee who reasonably believes that they are a victim of retaliation may also call the State of California Attorney General "whistle-blower hotline" to report the retaliation: (800) 952-5225

### *F. Employment "At- Will"*

It is the policy of AMPS that all employees are considered "*at-will*" employees of AMPS. Accordingly, either AMPS or the employee can terminate this employment relationship at any time, for any reason or no reason at all, with or without cause, and with or without advance notice. Similarly, your status (for example, position, duties, salary, promotions, demotions, etc.) may be changed at-will, with or without cause, and with or without notice at any time.

Nothing contained in this Handbook, employment applications, AMPS memoranda or other materials provided to employees in connection with their employment shall require AMPS to have "cause" to terminate an employee or otherwise restrict AMPS' right to terminate an employee from their at-will employment with AMPS or limit AMPS' right to transfer, demote, suspend, administer discipline, and change the terms and conditions of employment at its sole discretion. Statements of specific grounds for termination set forth in this Handbook or elsewhere are not all-inclusive and are not intended to restrict AMPS' right to terminate at-will.

No representative of AMPS, other than the Board of Directors, is authorized to modify this at-will employment policy for any employee or to make any representations to employees or applicants concerning the terms or conditions of employment with AMPS that are not consistent with AMPS' policy regarding "at-will" employment. Any agreement that alters the "at-will" nature of employment must be approved by the Board of Directors and must be in writing and signed by the Board of Directors, and the affected employee. This policy shall not be modified by any statements contained in this Handbook or employee applications, School memoranda or other materials provided to employees in connection with their employment. Further, none of those documents whether singly or combined, or any employment practices shall create neither an express or implied contract of employment for a definite period, nor an express or implied contract concerning any terms or conditions of employment.

### *G. Eligibility for Employment*

*Immigration Compliance*

AMPS will comply with all applicable federal and state immigration laws, including the Immigration Reform and Control Act of 1986 and the Immigration Act of 1990. As a condition of employment, every individual must provide satisfactory evidence of their identity and legal authority to work in the United States. However, AMPS will not check the employment authorization status of current employees or applicants who were not offered positions with the School unless required to do so by law.

IIn compliance with the Immigrant Worker Protection Act, the School shall not allow a federal immigration enforcement agent to enter any nonpublic areas of the School without a valid and signed judicial warrant, or voluntarily give consent to an agent to access, review or obtain employee records without a subpoena or judicial warrant. If a search of employee records is authorized by a valid subpoena or signed judicial warrant, the School will give employees notice of the inspection both before and after it has occurred as required by law.

*Certification*

AMPS' teachers are required to hold a current California Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in public schools would be required to hold by applicable law. If you are a credentialed staff member, you must provide copies of your credential, certificate of clearance, transcripts, and test scores prior to your first day of actual work and if already employed, prior to the start of the academic year if applicable. Failure to provide these documents may delay your ability to begin or continue working at AMPS.

*Tuberculosis Testing*

No person shall be employed by AMPS unless they provide proof of having submitted to a tuberculosis (TB) risk assessment within the past 60 days and that no risk factors have been identified. If TB risk factors are identified, or as an alternative to the assessment, the applicant must submit proof that a qualified professional has determined they are free of infectious TB following testing and examination. The examination, if required, shall consist of an approved intra-dermal tuberculin test that, if positive, shall be followed by an X-ray of the lungs. Each employee shall provide the School with a certificate from a qualified professional showing the employee was assessed or examined and found free of risk factors or of infectious TB (as applicable). A person who transfers employment from another school can meet these requirements by providing a certificate from a qualified professional, or a verification form from the prior school employer within the previous four years, which shows they were found to be free of infectious TB within 60 days of initial hire.

An employee who has no identified risk factors or who tests negative for TB shall undergo the TB risk assessment and, if risk factors are identified, the examination, at least once every four years or more often if recommended by the local health officer.

The risk assessment, and examination if necessary, is a condition of initial employment, and the expense incident thereto shall be borne by the applicant. AMPS shall reimburse current employees for the cost, if any, of the tuberculosis risk assessment and the examination.

Food handlers may be required to have annual TB exams. Documentation of employee and volunteer compliance with TB risk assessments and examinations will be kept on file in the office. This requirement also includes contract food handlers, substitute teachers, and student teachers serving under the supervision of an educator. Any entity providing student services to the School will be contractually required to ensure that all contract workers have had TB testing that shows them to be free of active TB

prior to conducting work with School students.

*Criminal Background Checks*

As required by law, all individuals working or volunteering at the School will be required to submit to a criminal background investigation. No condition or activity will be permitted that may compromise the School's commitment to the safety and the well-being of students taking precedence over all other considerations. Conditions that preclude working at the School include conviction of a controlled substance or sex offense, or a serious or violent felony. Additionally, should an employee be arrested for, charged with, or convicted of any offense during their employment with the School, the employee must immediately report as much to the CEO.

### *H. Employment Classifications*

For purposes of salary administration and eligibility for overtime payments and employee benefits, AMPS classifies its employees as defined below. Please direct any questions you may have regarding your employment classification or status to Human Resources or your direct supervisor.

An employee will not change from one status to any other status or classification simply because of the number of hours that the employee is scheduled to work or the length of time spent as an employee. Because all employees are hired for an unspecified duration, these classifications do not guarantee employment for any specific length of time. Employment is at the mutual consent of the employee and the School. Accordingly, either the employee or the School can terminate the employment relationship at-will, at any time, with or without cause or advance notice.

*Non-exempt Employees*

Non-exempt employees are entitled to overtime pay in accordance with federal and state law. Non-exempt employees are required to take meal periods and are authorized and permitted to take rest periods in the manner described in this Handbook. Non-exempt employees may be scheduled for full-time or part-time shifts, as assigned by their supervisor or the CEO.

Employees who are classified as non-exempt must accurately record the time(s) they start and stop work each day, including arrivals, departures, and meal breaks.

When employees receive their paychecks, they should verify immediately that their working time was recorded accurately and that they were paid correctly for all hours worked.

Non-exempt employees are prohibited from working any time that is not authorized by their supervisors. This means non-exempt employees must not start work early, finish work late, work during a meal or rest break, or perform any other extra or overtime work unless directed to do so. Employees who have questions about when or how many hours they are expected to work should contact their supervisor or Human Resources.

It is a violation of AMPS' policy for anyone to instruct or encourage another employee to work "off the clock," to incorrectly report hours worked, or to alter another employee's time records. If any employee is directed or encouraged to incorrectly report hours worked, or to alter another employee's time records, they should report the incident immediately to a supervisor.

*Exempt Employees*

AMPS may designate as exempt an employee whose job duties and salary qualify for exemption under

applicable law. Exempt employees are not eligible to receive overtime pay.

Employees who are classified as exempt must record absences from work for reasons such as leaves of absence, sick leave, or vacation.

Exempt employees are paid on a salary basis. This means the employee regularly receives a predetermined amount of compensation each pay period, which cannot be reduced because of variations in the quality or quantity of the employee's work. In general, an exempt employee will receive their salary for any week in which the employee performs any work, regardless of the number of days or hours worked. However, the School may make a deduction from an exempt employee's pay as permitted by law, including in the following circumstances:

a. When an exempt employee takes one or more full days off for personal reasons other than sickness or disability, the employee will not be paid for such day(s) of absence, but the employee may use available vacation to make up for the reduction in salary;
b. When an exempt employee takes one or more full days off from work due to sickness or disability, the employee will not be paid for such day(s) of absence, but the employee may use available sick time to make up for the reduction in salary;
c. When an exempt employee works only part of the week during their first and last week with AMPS, the employee will be paid only for the days actually worked; and
d. When an exempt employee takes unpaid leave under the Family and Medical Leave Act or corresponding laws, AMPS will not pay for such days/hours of absence.

AMPS may require an exempt employee to use available vacation or sick time, as a replacement for salary, when the employee takes less than a full-day off from work.

An exempt employee's salary will not be reduced when the employee works part of a week and misses part of a week due to service as a juror, witness or in the military or for lack of work, though deductions may be made to offset amounts an employee receives as jury or witness fees, or for military pay, or any other reason protected by law.

It is School policy to comply with the salary basis requirements of the Fair Labor Standards Act (FLSA) and applicable state law. AMPS prohibits any deductions from pay that violate the FLSA or applicable state law.

If an exempt employee believes that an improper deduction has been made to their salary, the employee should immediately report this information to Human Resources or a supervisor. Reports of improper deductions will be promptly investigated. If it is determined that an improper deduction has occurred, the employee will be promptly reimbursed for any improper deduction made.

### *I. Employment Status*

*Regular Full-time Employees*

Employees who work 30 hours or more per workweek on a regular basis. Such employees may be "exempt" or "nonexempt" and are eligible for employee benefits as described in this Handbook as well as those benefits required by law. Eligibility for each benefit is ultimately governed by the applicable policy, plan document, and/or applicable law.

*Regular Part-time Employees*

Employees who work fewer than 30 hours per workweek on a regular basis. Part-time employees may

be assigned a work schedule in advance or may work on an as-needed basis. Such employees may be "exempt" or "nonexempt". Part-time employees are generally not eligible for benefits except as required by law. Eligibility for each benefit is ultimately governed by the applicable policy, plan document, and/or applicable law.

*Temporary/Seasonal/Intern Employees*

Temporary employees are those employed on a temporary basis for short-term assignments. Short-term assignments will generally be periods of three months or less; however, such assignments may be extended. Temporary employees are generally not eligible for any benefits except where mandated by law. A temporary employee may be offered and may accept a new temporary assignment with AMPS and still retain temporary status. The status of a temporary employee may change only if the employee is notified of the change in status, in writing, by Human Resources.

Individuals assigned by temporary employment agencies are employees of the agency and not of AMPS.

### *J. Job Duties*

Your supervisor(s) will explain your job responsibilities. Be aware that your job responsibilities may change at any time during your employment. From time to time, you may be asked to work on special projects or to assist with other work necessary or important to the operation of your department or AMPS. Your cooperation and assistance in performing such additional work is expected. AMPS reserves the right, at any time, with or without notice, to alter or change job responsibilities, reassign or transfer job positions or assign additional job responsibilities.

### *K. Work Location*

At the time an employee is hired, the employee is usually assigned to a work location. Some employees may be assigned to permanent remote work. However, even employees who are permanently remote do have an assigned work location that is their home base. Employees, including those assigned to a permanent location as well as those working remotely, are not permitted to complete their job duties outside of the state, or country, where they are assigned to work, without prior management authorization. AMPS reserves the right in its sole discretion to prohibit out-of-state work due to business necessity or for any other business reason. Work outside the state where an employee is hired to work has payroll tax, business license, benefit and legal compliance implications. Failure to receive advanced permission to work from another state, or country, may lead to disciplinary action, up to and including termination.

### *L. Open Door Policy*

At some time or another, you may have a suggestion, complaint, or question about AMPS, your job, your working conditions, or the treatment you are receiving. We welcome your suggestions, complaints, or questions. For issues other than prohibited harassment, discrimination, or retaliation, we ask that you take your concerns first to your supervisor, who will investigate and provide a solution or explanation. If the problem is still not resolved, you may present it to Human Resources, preferably in writing, who will address your concerns. (See Appendix B for the general "Internal Complaint Form" which can be used for this purpose).

### *M. Workplace Anti-Violence Policy*

AMPS recognizes that violence in the workplace is a growing nationwide problem necessitating a firm, considered response. The costs of such violence are great, both in human and financial terms. We believe that the safety and security of employees and students is paramount. Therefore, AMPS has adopted this

Zero Tolerance Policy regarding workplace violence to help maintain a secure workplace.

Acts or threats of physical violence, including intimidation, harassment, and/or coercion, which involve or affect AMPS, occur on School property, or occur in the conduct of School business off property will not be tolerated. This prohibition against threats and acts of violence applies to all persons involved in School operations, including, but not limited to, School students, parents, employees, independent contractors, temporary employees, vendors and anyone else on School property or conducting School business off property. Violations of this policy, by any individual, may result in disciplinary action, up to and including termination and/or legal action as appropriate.

Employees must always ensure that all visitors have signed in the visitor log and are wearing appropriate visitor tags/badges. Suspicious persons or activities must be reported to Human Resources. Employees must secure their desk or office at the end of the day.

*Workplace Violence Defined*

Workplace violence includes, but is not limited to, threats of any kind; threatening, physically aggressive, or violent behavior, such as intimidation or attempts to instill fear in others; other behavior that suggests a propensity toward violence, including belligerent speech, excessive arguing or swearing, sabotage, threats of sabotage of School property; defacing School property or causing physical damage to the School's facilities; and bringing weapons or firearms of any kind on School premises or while conducting School business.

*Weapons Prohibited in the Workplace*

AMPS strictly prohibits employees, or any person providing services to AMPS, visiting AMPS, or located on AMPS' premises from possessing weapons of any kind at the workplace. The workplace includes any property owned or leased by AMPS or occupied by groups of School employees or persons providing services to AMPS. Unless such prohibition is contrary to local law, this specifically includes School parking areas and School vehicles. Employees are not permitted to transport or store weapons in vehicles owned or leased by AMPS and used by the employee for work purposes, unless the employee is required to transport or store a weapon as part of the employee's duties, and they have written permission from AMPS' CEO. This policy prohibits the possession of concealed weapons as well as weapons carried openly, regardless of whether the person has a legal permit to carry a weapon.

The prohibition explicitly includes guns, rifles and firearms of any type, including those for which the holder has a legal permit. Other examples of prohibited weapons include, but are not limited to, knives, ammunition, bombs, bows and arrows, clubs, slingshot, black jack, metal knuckles and similar devices that by their design or intended use are capable of inflicting serious bodily injury or lethal force.

*Former Employees Prohibited on Premises*

Due to safety concerns, an employee who is no longer employed by AMPS may not enter the workplace or be on School premises at any time, absent a legal reason or permission from the School to do so. Therefore, no employee should hold doors open for former employees, or otherwise admit former employees into the workplace. Further, if an employee sees a former employee on School premises or is contacted by a former employee seeking access to AMPS' premises without a legal reason for doing so, the employee must immediately alert Human Resources, the CEO, or any other member of AMPS' management team.

If an employee who no longer is employed by AMPS would like to visit, that person must first contact the Human Resources Department and request written permission to visit. A visit can be scheduled only if advance written permission is obtained. If written permission is granted, the former employee must, upon

arrival to AMPS' premises on the scheduled date/time, report to the reception area, be greeted by the current employee s/he is visiting and be escorted at all times while on School premises.

*Searches and Inspections*

An investigation into a report or threat of workplace violence may require, with or without notice, an inspection of an employee's work area and/or personal property located in the workplace, including without limitation a vehicle. As a condition of continued employment, all employees are expected to fully cooperate in any lawful inspection required as a result of a report or threat of workplace violence. Failure to cooperate with AMPS' investigation of a report or threat of workplace violence may result in disciplinary action, up to and including termination of employment.

*Enforcement/Complaint Procedure*

Any person who violates this policy on School property may be removed from the premises as quickly and safely as possible, at AMPS' discretion, and may be required to remain off School premises pending the outcome of an investigation of the incident.

If any employee observes or becomes aware of any of the above-listed actions or behavior by an employee, student, parent, visitor, or anyone else, they must immediately notify their supervisor, Human Resources, or the Site Director. Furthermore, employees should notify Human Resources or the Site Director if any restraining order is in effect or if a potentially violent non-work-related situation exists that could result in violence in the workplace.

If an employee becomes aware of an imminent act of violence, a threat of imminent violence, or actual violence, emergency assistance must be sought immediately. In such situations, the employee should contact the law enforcement authorities by dialing 911. Immediately after contacting the law enforcement authorities, the employee must report the incident to the Site Director.

Employees should immediately inform their supervisor or Site Director about any workplace security hazards. If these individuals are not available, the employee should immediately inform any other supervisor so that appropriate action can be taken.

All reports of workplace violence will be taken seriously and will be investigated promptly and thoroughly. In appropriate circumstances, AMPS will inform the reporting individual of the results of the investigation. To the extent feasible, AMPS will maintain the confidentiality of the reporting employee. However, AMPS may need to disclose information in appropriate circumstances (for example, in order to protect individual safety). AMPS will not tolerate retaliation against any employee who in good faith reports workplace violence.

If AMPS determines that workplace violence has occurred, AMPS will take appropriate corrective action and may impose disciplinary action, up to and including termination.

In certain circumstances, AMPS may seek a workplace violence restraining order on behalf of one or more employees in furtherance of its commitment to providing a workplace that is free from acts of violence, threats of violence, and harassment.

## WAGES, ATTENDANCE, TIMEKEEPING AND RELATED PRACTICES

### *A. Payment of Wages*

Employees are paid on an established payroll schedule that will be provided by AMPS. If a regular payday falls on a Saturday, Sunday, or holiday, employees will generally be paid on the previous business day and if not, then the following business day. Paychecks are normally available by 12:00 p.m. and must be picked up from your supervisor or designee, unless you have authorized direct payroll deposit. If employees observe an error on their check, employees must report it immediately to Payroll support at prsupport@amethodschools.org.

Employees may also have deductions made to their paychecks when a wage overpayment occurs, to the extent permitted by law, through a mutually agreeable method, including through cash repayment or a deduction of the employee's payroll check, among other options. The School also reserves the right to exercise any and all other legal means to recover any additional amounts owed.

Every deduction from an employee's paycheck is explained on the check voucher. If an employee does not understand the deductions, they should ask the Payroll Team at prsupport@amethodschools.org to explain them.

Employees may change the number of withholding allowances claimed for Federal Income Tax purposes at any time by updating their W-4 form in Paylocity.

All Federal, State, and Social Security taxes will be automatically deducted from paychecks. Federal Withholding Tax deduction is determined by the employee's W-4 form. The W-4 form should be completed upon hire and it is the employee's responsibility to report any changes in filing status to the Payroll Team at prsupport@amethodschools.org and to update their W-4 form in Paylocity.

At the end of the calendar year, a "withholding statement" (W-2) will be prepared and forwarded to each employee for use in connection with preparation of income tax returns. The W-2 shows Social Security information, taxes withheld and total wages.

### *B. Overtime Pay*

AMPS provides compensation for all overtime hours worked by non-exempt employees in accordance with state and federal law as follows:

For employees eligible for overtime pay, all hours worked in excess of eight (8) hours in one workday or forty (40) hours in one workweek shall be treated as overtime. Compensation for hours in excess of forty (40) for the workweek or in excess of eight (8) and not more than twelve (12) for the workday, and for the first eight (8) hours on the seventh consecutive day in one workweek, shall be paid at a rate of one and one-half times the employee's regular rate of pay. Compensation for hours in excess of twelve (12) in one workday and an excess of eight (8) on the seventh consecutive workday of the workweek shall be paid at double the regular rate of pay.

When operating requirements or other needs cannot be met during regular working hours, nonexempt employees may be required to work overtime. Overtime pay is based on actual hours worked. All overtime work must be authorized in advance by the Site Director or immediate supervisor. Failure to obtain such approval may subject an employee to discipline, up to and including termination. No overtime compensation will be paid to exempt employees. Failure to work scheduled overtime, or working overtime without prior authorization from management may result in disciplinary action, up to and including termination of employment. The School will never ask an employee to work off the clock. All non-exempt

employees are to be paid for all hours worked. If you are asked to work off the clock, or if you are asked by anyone not to record your time working accurately, you must notify Human Resources immediately.

***C. Expense Reimbursement***

Employees will be reimbursed for reasonable and necessary business expenses incurred while performing their duties or attending pre-approved workshops or other employment-related functions in accordance with AMPS' policy on expense reimbursements. Please follow the procedure set forth in the Fiscal Policies and Procedures~~Finance and Operations Manual~~ to submit expense requests for approval.

Formatted: Font color: Auto

Mileage

All employees who drive their personal vehicles in the course and scope of their employment must submit a request for mileage reimbursement. Employees will be reimbursed at the per mile rate established by the Internal Revenue Service. Employees may obtain the reimbursement form from the Finance or Human Resources departments, and must include the miles driven, the addresses of the origination and destination, and the date the mileage was incurred. Employees must attach all receipts and documentation, if any.

Cell Phones

Employees who are required to use their personal cell phone for work are eligible for reimbursement for business-related charges. The reimbursement is intended to reimburse employees for the portion of their cell phone charges attributable to work. To be eligible, the employee must be required to use their cell phone for work and have received the approval of their supervisor. If you believe you should be reimbursed for cell phone use or are entitled to an additional amount of reimbursement, please contact Human Resources.

Other Expenses

AMPS provides all necessary supplies and equipment for employees to perform their duties. Therefore, employees are not required to purchase any additional equipment or supplies in order to work for the School and should not incur any expense without prior approval from their supervisor. If, however, in the event any employee is required to incur any unexpected necessary and reasonable expenses in order to perform duties on behalf of AMPS, the employee must immediately report this expense issue to their supervisor and Human Resources. Employees will be required to submit documentation to support any request for expense reimbursement.

All reports of expense reimbursement issues will be reviewed, including a review of all relevant~~all of relevant~~ expense related records and receipts. If, as a result of the review, it is determined that an employee has incurred reasonable and necessary expenses on behalf of AMPS, the School will reimburse the employee, in full, for all actual, reasonable, and necessary business-related expenses incurred. It is the responsibility of the employee to keep accurate records and receipts of any business-related expense and to provide such documentation to the School.

Formatted: Font color: Auto

If any employee believes that the reimbursement amount provided by the School is insufficient to reimburse for all reasonable expenses necessarily incurred in the discharge of their duties on behalf of the School, the employee must immediately report this expense issue to the employee's supervisor and Human Resources. Employees will be required to submit documentation (e.g. a copy of an invoice/bill and an explanation of the business use) to support any request for additional reimbursement.

***D. Attendance and Tardiness***

All employees, whether exempt or non-exempt, are expected to arrive at work consistently, on time and prepared to start work. Excessive unexcused absenteeism and tardiness negatively affects AMPS' ability to implement its educational program and disrupts consistency in students' learning.

You are expected to notify your direct supervisor at least two (2) hours prior to the start of your scheduled time if you are going to be late. In the event of an unforeseen emergency where you are unable to do so, please notify them as soon as possible. If you are required to leave work early, you must also personally contact your supervisor or the Site Director and obtain their permission. Employees are not allowed to relay messages to the direct supervisor or the Site Director through co-workers that they will be absent or tardy. If you are absent from work longer than one day, you are expected to keep your supervisor sufficiently informed of your situation and when you will return to work. Absent extenuating circumstances, you must call in on any day you are scheduled to work and will not report to work. You must get approval from your direct supervisor for any planned absences. Under certain circumstances, to the extent permitted by law, AMPS may require documentation from a healthcare provider verifying your need to be absent from work due to illness or other medical reasons if such absence lasts three (3) or more consecutive work days.

Employees also are expected to remain at work for their entire work schedule, except for meal and rest periods, when required to leave on authorized School business, or when otherwise permitted by AMPS. Late arrival, early departure, or other absences from scheduled hours are disruptive and must be avoided. Employees also must inform their supervisor of the expected duration of any absence. Excessive unexcused absences or tardiness may result in disciplinary action up to and including termination from employment with AMPS to the extent authorized by law.

Absences protected by local, state and federal law, including paid sick time, do not count as a violation of the punctuality and attendance policy.

Except as otherwise provided by law, if you fail to report for work without any notification to your supervisor and your absence continues for a period of three (3) consecutively scheduled workdays, AMPS will generally consider that you have abandoned your employment and your employment and have voluntarily resigned.

### *E. School Social Activities*

Employees may attend school-sponsored events not required by their job duties on a voluntary basis unless otherwise directed by AMPS. An employee's attendance at such social and recreational activities is completely voluntary and at the employee's own risk and AMPS disclaims any and all liability arising out of the employee's participation in these activities. Because an employee who chooses to attend school events is doing so on a voluntary basis, and is not performing work-related tasks, such participation will not be compensated by AMPS.

### *F. Timekeeping Requirements*

It is AMPS' policy to pay its employees for all time worked. Accordingly, it is every nonexempt employee's responsibility to accurately record time worked, and to examine their paycheck and wage statement to ensure that they are being properly paid for all work time and that the paycheck and wage statement are accurate. If an employee believes they are not being properly paid for all of his or her work, the employee must immediately inform Human Resources.

Federal and state laws require the School to keep an accurate record of time worked in order to calculate employee pay and benefits. Time worked is all the time actually spent on the job performing assigned duties. To ensure compliance with all applicable laws, non-exempt employees must accurately record all hours worked using AMPS' timekeeping system. This means they must clock in and out whenever they

begin, cease, or resume working during the course of a workday. Employees must clock out and in for their meal periods, but are not required to clock out and in for rest periods. Under no circumstances may one employee clock in or out for another employee. Exempt employees may also be expected to record their total time worked and report absences from work due to personal needs or illness.

Employees are absolutely prohibited from doing the following:

a. Recording inaccurate hours worked.
b. Recording hours worked on behalf of another employee.
c. Working “off the clock.” This includes, but is not limited to, working before or after a shift without recording that time, choosing to arrive early for work and completing preliminary work activities before clocking in, clocking out and continuing to work to avoid triggering a meal period requirement, clocking out and continuing to work in general (e.g., finishing work after you have clocked out or working while waiting for a rideshare), or conducting School business on personal cell phones after hours. Employees are prohibited from using their personal cell phones to conduct School business.
d. Failing to record all hours worked.
e. Falsifying any time record.

Violations of this policy may result in disciplinary action, up to and including termination.

***G. Work Schedules***

Your work schedule depends, first, on the AMPS site where you are located. AMPS Schools are generally open for business between the hours of 7:00 a.m. and 6:00 p.m., Monday through Friday. Your supervisor will assign your individual work schedule. All employees are expected to be at their classrooms or workstations at the start of their scheduled shifts, ready to work. For purposes of calculating overtime, the workweek begins at 12:01 a.m. on Monday and ends at midnight on Sunday. AMPS’ standard workday is 12:01 a.m. to 12:00 a.m. (midnight) each day. AMPS reserves the right to change work schedules and assign employees to special schedules as deemed necessary for effective operations. When a change in work schedule is necessary, every effort will be made to provide reasonable advance notice to the employees. Any request to change work hours must be approved in advance by the employee’s supervisor.

***H. Meal and Rest Periods***

Any employee who misses a meal or rest period or who experiences a late, short, or interrupted meal The School prioritizes compliance with California’s meal and rest period laws. All non-exempt employees are required to abide by these requirements. Further, all supervisors are responsible for facilitating compliance with these requirements. See Manager/Supervisor Guidelines for Wage and Hour Policies.

**Meal Periods**Meal periods are intended to ensure that employees are given adequate time for rest and nourishment, contributing to their well-being and productivity.

All non-exempt employees must take an uninterrupted unpaid meal period of at least 30 minutes for each work period in excess of 5 hours in accordance with this policy. Further, all non-exempt employees must take a second uninterrupted unpaid meal period of at least 30 minutes for each work period in excess of 10 hours in accordance with this policy.

Employees must begin their first unpaid meal period within five hours of starting work. For example, if the employee begins working at 7:00 a.m., then the employee must clock out to begin their meal period before 12:00 p.m. (noon). Further, employees must begin their second unpaid meal period (if applicable) within ten hours of starting work. For example, if the employee begins working at 7:00 a.m., then the

employee must clock out to begin their second meal period before 5:00 p.m.

An employee whose work period is 5 to 6 hours may waive, in writing, their right to a first meal period. Further, an employee may waive their right to a second meal period for a work period as long as the employee does not work more than 12 hours and did not waive their first meal period for that work period. The School offers written Meal Period Waiver Agreements that govern an employee's entire employment, which are voluntary and may be revoked at any time, to document the employee's waiver of first and second meal periods as well as waivers that may be used for a more limited time period.

Employees are eligible for the following number of meal periods:

| **Length of Work Period in Hours** | **# of Meal Periods** | **Explanation** |
|---|---|---|
| 0 to ≤ 5 | 0 | An employee whose work period is less than 5 hours is not entitled to a meal period. |
| > 5 to ≤10 | 1 | An employee whose work period is 5 hours or more up to and including 10 hours is eligible to take a 30-minute uninterrupted unpaid meal period, *unless the employee's work period is 6 or fewer hours and voluntarily waives their first meal period.* |
| > 10 | 2 | An employee whose work period is 10 hours or more is eligible to take a second uninterrupted unpaid 30-minute meal period, unless the employee's work period is 12 or fewer hours, did not waive their first meal period, and voluntarily waives their second meal period. |

Employees must take their meal periods according to the following schedule:

| **Which Meal Period** | **When** |
|---|---|
| First Meal Period | An employee's first unpaid meal period must begin within 5 hours of starting work for that work period (in other words, by the end of the fifth hour of work or 5 hours and 0 minutes on the clock). By way of example, if an employee clocks in at **8:00 a.m.**, then the employee must clock out and start their meal period before **1:00 p.m.** |
| Second Meal Period | An employee's second unpaid meal period must begin within 10 hours of starting work for that work period (in other words, by the end of the tenth hour of work or 10 hours and 0 minutes on the clock). By way of example, if an employee clocks in at **8:00 a.m.**, then the employee must clock out and start their second meal period before **6:00 p.m.** |

During meal periods, employees are absolutely prohibited from performing work of any kind or any amount. Employees are excused from all duties and are free to leave the premises. Employees must record the exact start and stop times of each meal period through the School's timekeeping system so that the School may monitor time records for compliance. Employees may not join together required meal periods to take a longer break.

**Rest Periods** Rest periods are intended to allow employees to rest and refresh, contributing to a healthy and productive work environment. All non-exempt employees are authorized, permitted, and strongly encouraged to take a 10-minute paid rest period for every 4 hours worked or major fraction thereof. Ordinarily, this amounts to two 10-minute rest periods per 8-hour work period. Employees are excused from all duties and are free to leave the premises during their rest periods.

Employees are eligible for the following number of rest periods:

| Length of Work Period in Hours | # of Rest periods | Explanation |
|---|---|---|
| 0 to < 3.5 | 0 | An employee whose work period is less than 3.5 hours is not entitled to a rest period. |
| ≥ 3.5 to ≤ 6 | 1 | An employee whose work period is 3.5 hours up to and including 6 hours is eligible to take one paid rest period. |
| > 6 to ≤ 10 | 2 | A non-exempt employee whose work period is more than 6 hours up to and including 10 hours is eligible to take two paid rest periods. |
| > 10 to ≤ 14 | 3 | A non-exempt employee whose work period is more than 10 hours up to and including 14 hours is eligible to take three paid rest periods. |

Employees whose work period is more than 14 hours may be eligible for additional rest periods. Please contact Human Resources for more information.

Whenever practicable, non-exempt employees should take their rest periods near the middle of each 4-hour work period. Non-exempt employees may not accumulate rest periods or use rest periods as a basis for starting work late, leaving work early, or extending a meal period. Because rest periods are paid, non-exempt employees should not clock out for them.

**Daily Timekeeping Meal Period and Rest Period Reporting Form** Employees who miss a meal or rest period or who experience a late, short, or interrupted meal period—for any reason—must immediately report this issue to their supervisor and complete a Daily Timekeeping Meal Period and Rest Period Reporting Form. Employees must fill out all fields on the form, including providing a thorough explanation for the non-compliant meal or rest period and turn in this form to their supervisor on the same workday that they experienced the non-compliant meal or rest period. Supervisors are responsible for ensuring that Human Resources receives these forms no later than the end of the workday following the workday on which the reportable issue occurred by notifying Payroll at prsupport@amethodschools.org.

If an employee voluntarily chooses to miss a meal or rest period or take a late, short, or interrupted meal period (e.g., I chose to take my lunch later in the day or I chose to refuse an “authorized” meal period at the time provided by the School), the employee is not entitled to premium pay (one additional hour of pay at the regular rate of pay). If an employee involuntarily experiences a missed meal or rest period or a late, short, or interrupted meal period (e.g., my supervisor asked me to attend a meeting that caused me to miss or take a late meal period), the employee is entitled to premium pay of one additional hour of pay at the regular rate of pay. Employees must report the reason for the non-compliant meal or rest period on the **Daily Timekeeping Meal Period and Rest Period Form**.

**Responsibilities** Non-exempt employees are required to take their meal and rest periods in accordance with this policy. If you encounter any challenges with taking meal or rest periods in accordance with this policy, please immediately contact your supervisor or Human Resources.

Supervisors are responsible for facilitating meal and rest periods in a fair and uniform manner. Supervisors may not pressure or coerce employees to take late, short, or interrupted meal and rest periods or to skip their meal and rest periods. Employees who feel pressured or coerced, must immediately report that to Human Resources.

Discipline

Failure to comply with AMPS' policy regarding meal and/or rest periods can lead to discipline, up to and including termination.

***I. Lactation Breaks***

AMPS supports the needs of nursing mothers in the workplace and will comply with applicable law. AMPS encourages employees and management to have a positive, accepting attitude toward the expression of breast milk by employees who are breastfeeding when they return to work.

AMPS will provide a reasonable amount of break time to accommodate an employee desiring to express breast milk for the employee's infant child each time the employee has need to express milk. If possible, the lactation break time should run concurrently with scheduled meal and rest breaks already provided to the employee. If the lactation break time cannot run concurrently with meal and rest breaks already provided or additional time is needed, the lactation break time will be unpaid for non-exempt employees.

A private location to express breast milk will be provided in close proximity to the employee's work area. The employee's normal work area may be used if it allows the employee to express milk in private. In certain circumstances, a temporary location, multipurpose room, or shared space may be provided in accordance with applicable law. The location will also meet the following requirements: not be a bathroom; be free from intrusion; be shielded from view; be safe, clean, and free of hazardous materials; contain a surface to place a breast pump and personal items; contain a place to sit; and have access to electricity or alternative devices, including, but not limited to, extension cords or charging stations, needed to operate an electric or battery-powered breast pump. In addition, AMPS shall provide access to a sink with running water and a refrigerator suitable for storing milk in close proximity to the employee's work area. If a refrigerator cannot be provided, AMPS may provide another cooling device suitable for storing milk, such as a School-provided cooler. To request the above, please contact Human Resources. AMPS will respond accordingly, generally within two business days.

If any employee believes that they have experienced retaliation or discrimination as a result of conduct protected by this policy, the employee may file a complaint with their supervisor and/or the Labor Commissioner's Office. For more information, contact the Labor Commissioner's Office or visit a local office by finding the nearest one on our website: www.dir.ca.gov/dlse/DistrictOffices.htm. The Labor Commissioner's Office provides an interpreter at no cost to the employee, if needed.

## STANDARDS OF CONDUCT

### *A. Professional Boundaries: Staff/Student Interaction Policy*

Amethod Public Schools ("AMPS" or "Charter School") recognizes its responsibility to make and enforce all rules and regulations governing student and employee behavior to bring about the safest and most learning conducive environment possible.

The School expects its employees to maintain appropriate professional relationships with students and be sensitive to the appearance of impropriety in their conduct with students. Employees are encouraged to discuss issues with Human Resources or the Chief Academic Officer when unsure whether particular conduct may constitute a violation of the policy.

Employees must understand that even an appearance of inappropriate relationships or impropriety may adversely impact their effectiveness in the school environment. Therefore, employees must be diligent in maintaining the highest ethical standards when interacting with students both inside and outside the school environment and should practice the utmost professionalism with forming any social relationships with students and families outside the classroom.

While the use of appropriate touching is part of daily life and is important for student development, employees must ensure that they do not exceed appropriate behavior. If a child or employee specifically requests that they not be touched, then that request must be honored

*Definitions*

For the purposes of this policy the term "boundaries" is defined as acceptable professional behavior by staff members while interacting with a student. Trespassing beyond the boundaries of a student-staff relationship is deemed an abuse of power and a betrayal of public trust.

Grooming is defined as an act or series of acts by a sexual predator to gain physical and/or emotional control by gaining trust (of staff and/or family and a minor) and desensitizing the minor to various forms of touching and other intimate interaction.

*Corporal Punishment*

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of School personnel:

A. Examples of PERMITTED actions (NOT corporal punishment)

1. Stopping a student from fighting with another student;
2. Preventing a pupil from committing an act of vandalism;
3. Defending yourself from physical injury or assault by a student;
4. Forcing a pupil to give up a weapon or dangerous object;

5. Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
6. Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

B. Examples of PROHIBITED actions (corporal punishment)

1. Hitting, shoving, pushing, or physically restraining a student as a means of control;
2. Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;
3. Paddling, swatting, slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

*Acceptable and Unacceptable Staff/Student Behavior*

This policy is intended to guide all School faculty and staff in conducting themselves in a way that reflects the high standards of behavior and professionalism required of school employees and to specify the boundaries between students and staff.

Although this policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders. One viable standard that can be quickly applied, when you are unsure if certain conduct is acceptable, is to ask yourself, "Would I be engaged in this conduct if my family or colleagues were standing next to me?"

Some activities may seem innocent from a staff member's perspective, but can be perceived as flirtation or sexual insinuation from a student or parent point of view. The objective of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between staff and students, but to prevent relationships that could lead to, or may be perceived as inappropriate, sexual misconduct, or grooming.

Staff must understand their own responsibility for ensuring that they do not cross the boundaries as written in this policy. Violations could subject the employee to discipline up to and including termination, Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for disciplinary purposes. Thus, it is crucial that all employees learn this policy thoroughly and apply the lists of acceptable and unacceptable behaviors to their daily activities.

*Boundaries Monitoring and Reporting*

Employees should follow the following guidelines:

- Immediately asking for advice from senior staff or administration if you find yourself in a difficult situation related to boundaries
- Involving your supervisor in discussion about boundaries situations that have the potential to become more severe (including but not limited to: grooming or other red flag behaviors observed in colleagues, written material that is disturbing, or a student's fixation on an adult)
- Making detailed notes about an incident that in your best judgement could evolve into a more serious situation later
- Asking another staff member to be present, or within close supervisory distance, when you must be alone with a student after regular school hours
- Asking yourself if any of your actions, which are contrary to these provisions, are worth sacrificing your job and career

When an employee becomes aware of another employee (or volunteer, guest, vendor) having crossed the Boundaries specified in this policy, or has a reasonable suspicion of misconduct, the employee must promptly report the suspicion to Human Resources or the Chief Academic Officer. Prompt reporting is essential to protect students, the suspected employee, any witnesses, and the School as a whole. Employees must also report to the administration any awareness of, or concern about, student behavior that crosses Boundaries or any situation in which a student appears to be at risk for sexual abuse.

When observant employees call attention to boundaries violation(s), the likelihood of harm to students is greatly reduced.

*Investigating*

AMPS will promptly investigate any allegation of a violation of the Staff/Student Interaction Policy by a staff member, using such support staff or outside assistance as AMPS deems necessary and appropriate under the circumstances, unless the allegation also constitutes a reportable allegation under California Penal Code section 11166. In the event the allegation also constitutes such a reportable allegation, AMPS

shall comply with the legal requirements of immediately reporting the allegation to a child protective agency and shall follow up such report with a written report within thirty-six (36) hours.

If the allegation is only a violation of the Staff/Student Interaction Policy, but not a violation of California Penal Code section 11166, AMPS shall conduct an investigation as set forth above. Throughout this fact-finding process, the investigating administrator, and all others privy to the investigation, will protect the privacy interests of any affected student(s) and/or employee(s), including any potential witnesses, to the fullest extent possible.

*Violations*

Violations of this policy may result in disciplinary action, up to and including termination. When appropriate, violations of this policy may also be reported to authorities for potential legal action.

*Child Abuse & Neglect Reporting*

California Penal Code section 11166 requires any mandated reporter (including teachers, instructional aides and "classified" employees of a public school) who has knowledge of, or observes, a child in his or her professional capacity or within the scope of his or her employment whom he or she knows or reasonably suspects has been the victim of child abuse or neglect to report the known or suspected instance of child abuse or neglect to a child protective agency or the police immediately, or as soon as practically possible, by telephone and to prepare and send a written report thereof within thirty-six (36) hours of receiving the information concerning the incident. Employees may, but are not required to, report such incidents to Human Resources and the CEO. Reporting such incidents to Human Resources and the CEO does not relieve the employee of responsibility to also immediately report such incidents to the appropriate child protective agency by telephone and to send a written report thereof within thirty-six (36) hours. However, employees may work cooperatively to report the incidents and to file one written report. Employees who have any questions about these reporting requirements should contact Human Resources.

"Child" is defined as a person under the age of 18 years. The term "child abuse or neglect" includes sexual abuse; neglect defined as the negligent treatment or the maltreatment of a child by a person responsible for the child's welfare under circumstances indicating harm or threatened harm to the child's health or welfare including both acts and omissions on the part of the responsible person; willful cruelty or unjustifiable pain or suffering; unlawful corporal punishment or injury; and abuse or neglect in out-of-home care. Child abuse or neglect does not include a mutual affray between minors or an injury caused by reasonable and necessary force used by a peace officer acting within the course and scope of his or her employment as a peace officer.

Reasonable suspicion means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing, when appropriate, on the person's training and experience, to suspect child abuse or neglect. It does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect.

Employees shall not contact the child's family or any other persons to determine or investigate the cause of the suspected abuse or neglect.

AMPS will provide annual training on the mandated reporting requirements, using the online training module provided by the State Department of Social Services, to employees who are mandated reporters. Mandated reporter training will also be provided to employees hired during the course of the school year. This training will include information that failure to report an incident of known or reasonably suspected child abuse or neglect, as required by Penal Code section 11166, is a misdemeanor punishable by up to

six (6) months confinement in a county jail, or by a fine of one-thousand dollars ($1,000), or by both that imprisonment and fine.

All employees required to receive mandated reporter training must provide proof of completing the training within the first six (6) weeks of each school year or within the first six (6) weeks of that employee's employment.

By acknowledging receipt of this Handbook, employees acknowledge they are child care custodians and are certifying that they have knowledge of California Penal Code section 11166 and will comply with its provisions. Failure to meet these obligations can result in a monetary fine and/or jail.

***B. Confidential Information***

All information relating to students, including personal information, schools attended, addresses, contact numbers and progress information is confidential in nature, and may not be shared with or distributed to unauthorized parties. All records concerning special education pupils shall be kept strictly confidential and maintained in separate files. Confidential information shall not be disclosed except through normal channels and with prior authorization. Any and all trade secrets or confidential information shall be returned to AMPS during extended leaves of absence or upon termination of employment.

During your employment with AMPS, you will not be permitted nor required to breach any obligation to keep in confidence proprietary information, knowledge, or data acquired during your former employment. You must not disclose to the School any confidential or proprietary information or material belonging to former employers or others.

AMPS prohibits audio or video recordings in the workplace, during working hours, without authorization of AMPS due to privacy and confidentiality concerns and protections.

## OPERATIONAL CONSIDERATIONS

### *A. Computer Usage and Privacy*

Every employee who is provided access to AMPS' Communications Systems is responsible for using the Communications Systems in accordance with this policy, and agrees to be bound by this policy by using AMPS' Communications Systems. Any questions about this policy should be addressed to Human Resources.

*Definitions*

AMPS' electronic communications systems ("Communications Systems") includes, but is not limited to, computers, laptops, e-mail, telephones, cellular phones, tablets, text messaging, instant messaging, video conferencing, voice mail, facsimiles, and connections to the Internet and other internal or external networks.

*Ownership and Conditions of Use*

The Communications Systems is the property of AMPS. It has been provided by AMPS for the sole purpose of conducting School-related business as well as other business that is approved by the CEO of AMPS. All communications and information transmitted by, received from, or stored in these systems are School records and the property of AMPS.

Electronic communications are a means of business communication. AMPS requires all employees to conduct themselves in a professional manner. Employees should conduct all electronic communications with the same care, judgment, and responsibility that they would use when sending letters or memoranda written on School letterhead. Special care must be taken when posting any information on the Internet because of the potentially broad distribution of and access to such information.

To protect the integrity of AMPS' Communications Systems and the users thereof against unauthorized or improper use of these systems, AMPS reserves the right, without notice, to limit or restrict any individual's use, and to inspect, copy, remove, or delete any unauthorized use of its Communications Systems upon authorization of the CEO or their designee. AMPS also reserves the right periodically to monitor the use of its Communications Systems and to access employees' voice mail, Internet access, and e-mail for that purpose or any other business-related purpose upon authorization of the CEO or their designee.

Erasing an e-mail message from a mailbox does not necessarily erase all copies of the message on the network. Archived copies may be stored for substantial periods of time and are subject to the provisions of this policy regarding content, review, access, and disclosure.

*Confidentiality and Privileges*

Information stored on the Communications Systems is intended to be kept confidential within AMPS. AMPS has taken all reasonable steps to assure confidentiality and security of information related to AMPS's operations. Like other means of communication, however, it is not possible to guarantee complete security of electronic communications either within or outside AMPS, and care should be exercised when sending or receiving sensitive, privileged, or confidential information electronically. For example, information sent through the Internet can be monitored by external systems en route to its final destination. All employees must keep this in mind when forwarding sensitive, confidential, and/or privileged information. Where appropriate, this fact should be disclosed to outside contacts.

*Prohibited Use*

Employees are prohibited from using the Communications Systems for any unauthorized or unlawful purpose, including, but not limited to, the following:

1. Employees are strictly prohibited from using the Communications Systems to deliver a message that is harassing or offensive on the basis of any characteristic(s) protected by law as set forth in AMPS' policies against discrimination, harassment, and retaliation. Those policies apply to all aspects of employment, including the use of the Communications Systems.
2. Employees are prohibited from using the Communications Systems for transmitting or making accessible annoying, offensive, defamatory, or harassing material or intentionally damaging or violating the privacy of information of others.
3. Employees are prohibited from using the Communications Systems to transmit, display, store, publish, or purposely receive any pornographic, obscene, or sexually explicit material.
4. Employees must respect all copyrights and licenses to software and other online information, and may not upload, download, or copy software or other material through the Communications Systems without the prior written authorization of the CEO of AMPS.
5. Employees must not alter, copy, transmit, or remove School information, proprietary software, or other files without proper authorization from AMPS.
6. Employees are prohibited from reading, copying, recording, or listening to messages and information delivered to another person's e-mail and voice mail mailboxes without proper authorization, based on legitimate business reasons, from the Board or CEO or their designee. Anyone who receives an electronic communication for which they are not the intended recipient must immediately inform the sender that the message was sent improperly and must delete the message from their e-mail and voice mail mailboxes.

*Access and Disclosure*

The Communications Systems is provided solely for the purpose of conducting AMPS business. Incidental and occasional personal use of the Communications Systems is permitted, but such communications must not disrupt School business, and employees **do not have any expectation of personal privacy in any matters stored in, created, received, or sent over the Communications Systems**.

AMPS, as owner of the Communications Systems, reserves the right for legitimate business reasons, upon authorization of the Board or CEO or his/her/its designee, to monitor, access, retrieve, download, copy, listen to, or delete anything stored in, created, received, or sent over its Communications Systems without the permission of or prior notice to any employee.

Although AMPS entrusts employees with the use of voice mail, e-mail, computer files, software, or similar School property, employees should keep in mind that these items are only intended for business purposes. At all times, they remain School property. Likewise, all records, files, software, and electronic communications contained in these systems also are School property. Electronic files, records, and communications on School computer systems, electronic communication systems, or through the use of School telecommunications equipment are not private. Although they are a confidential part of School property, employees should not use this equipment or these systems for confidential messages. The use of passwords to limit access to these systems is only intended to prevent unauthorized access to voice mail, e-mail, and computer systems, files, and records. Additionally, these systems are subject to inspection, search, and/or monitoring by School personnel for any number of reasons. **As a result, employees do not have an expectation of privacy in this regard**. Accordingly, these systems and equipment should not be used to transmit personal messages, except in necessary situations or when exceptions are specifically sanctioned by management. Voice mail messages and e-mail messages

should be routinely deleted when no longer needed. AMPS is not responsible for costs incurred when employees use School telephones or e-mail systems for personal matters.

Employees should not use personal devices or email accounts for School-related communications. Such communications should only take place using School-issued devices and via the employee's email account.

Employees should use voice mail and e-mail as cautiously as they would use any more permanent communication medium such as a memorandum or letter. E- mail messages:

1. May be saved and read by third parties.
2. May be retrieved even after "deletion."
3. May be accessed by authorized service personnel.
4. May be examined by management without notice.

There will be times when AMPS, in order to conduct business, will utilize its ability to access an employee's e-mail, voice mail, computer files, software, or other School property. AMPS also may inspect the contents of an employee's voice mail, e-mail, computers, computer files, or software to monitor job performance, for training or quality control purposes, or when AMPS suspects that School property is being used in an unauthorized manner.

AMPS reserves the right to use and disclose any electronic communication on its Communications Systems without the permission of or any prior notice to any employee, including disclosure to law enforcement officials.

Nothing in this section is intended to prohibit or restrict employees from exercising their rights under the NLRA, which includes discussing their wages and working conditions.

*Retention in the Event of Litigation, Subpoena, or Regulatory Inquiry*

In the event of any subpoena, regulatory inquiry, or litigation, employees are prohibited from deleting, discarding, or destroying any emails or other Communications Systems relating in any way to the subpoena, regulatory inquiry, or litigation. Employees will be notified if this occurs.

*Discipline for Violations of Policy*

Any employee who discovers misuse of the Internet access or any of AMPS' Communications Systems should immediately contact Human Resources or the CEO of AMPS. Any employee who violates any part of this policy will be subject to discipline, up to and including immediate termination.

*Policy May Be Amended at Any Time*

The pace of technological change and growth in electronic communications is rapid. This policy applies to all present and future electronic communications systems and devices and to improvements and innovations to existing systems and devices and to completely new technologies, devices, and systems. AMPS reserves the right to amend this policy at any time through an authorized writing from an authorized School representative.

***B. Social Media Policy***

In light of the explosive growth and popularity of social media technology in today's society, AMPS has developed the following policy to establish rules and guidelines regarding the appropriate use of social

media by employees. This policy applies to situations when you: (1) make a post to a social media platform that is related to AMPS; (2) engage in social media activities during working hours; (3) use School equipment or resources while engaging in social media activities; (4) use your School e-mail address to make a post to a social media platform; (5) post in a manner that reveals your affiliation with AMPS; (6) interact with School students or parents/guardians of School students (regarding School-related business) on the Internet and on social media sites; or (7) create or use a School-affiliated social media account.

For the purposes of this policy, the phrase “social media” refers to the use of a website or other electronic application to connect with other people, including, but not limited to, Facebook, Instagram, X (formerly known as Twitter), Pinterest, LinkedIn, TikTok, and YouTube, as well as related web-based media, such as blogs, wikis, and any other form of user-generated media or web-based discussion forums.

This policy is intended to supplement, not replace, AMPS’ other policies, rules, and standards of conduct. For example, School policies on confidentiality, use of School equipment, professionalism, employee references and background checks, workplace violence, unlawful harassment, and other rules of conduct are not affected by this policy.

Employees are required to comply with all School policies whenever your social media activities may involve or implicate AMPS in any way, including, but not limited to, the policies contained in this Handbook.

*Standards of Conduct*

Employees are required to comply with the following rules and guidelines when participating in social media activities that are governed by this policy:

1. Comply with the law at all times. Do not post any information or engage in any social media activity that may violate applicable local, state, or federal laws or regulations.
2. Do not engage in any discriminatory, harassing, or retaliatory behavior in violation of School policy.
3. Respect copyright, fair use, and financial disclosure rules and regulations. Identify all copyrighted or borrowed material with proper citations and/or links.
4. Maintain the confidentiality of AMPS’ trade secrets and private or confidential information. Trade secrets may include information regarding the development of systems, processes, products, know-how, and technology. Do not post internal reports, policies, procedures, or other internal business-related confidential communications. This prohibition applies both during and after your employment with AMPS.
5. Do not post confidential information (as defined in this Handbook) about AMPS, its employees, or its students. Remember that most student information is protected by the Family Educational Rights and Privacy Act, including any and all information that might identify the student. Publicizing student work and accomplishments is permitted only if appropriate consents are obtained.
6. Do not “friend” students on employee’s social media accounts unless there is a familial relationship. An employee who friends students on employee’s social media account without a familial relationship must notify the CEO.
7. While it is acceptable to engage in limited and incidental social media activities at work, such social media activities may not interfere with your job duties or responsibilities. Do not use your School-authorized e-mail address to register on social media websites, blogs, or other online tools utilized for personal use.
8. Be knowledgeable about and comply with AMPS’ background check procedures. Do not “research” job candidates on the Internet or social media websites without prior approval from Human Resources.

9. We encourage employees to be fair and courteous to fellow employees, students, parents, vendors, suppliers, or other people who work on behalf of AMPS. We also encourage employees to avoid posting statements, photographs, video, or audio that could be reasonably viewed as malicious, obscene, threatening, or intimidating, that disparage employees, students, parents, vendors, suppliers, or other people who work on behalf of AMPS, or that might constitute harassment or bullying.
10. We encourage employees to set their social media accounts to “private” settings to avoid students viewing private or personal social media activity.
11. Do not post any information or rumors that you know to be false about AMPS, fellow employees, students, parents, vendors, suppliers, people working on behalf of AMPS, or competitors.
12. Express only your personal opinions. Never represent yourself as a spokesperson for AMPS unless authorized to do so. If you publish social media content that may be related to your work or subjects associated with AMPS, make it clear that you are not speaking on behalf of AMPS and that your views do not represent those of AMPS, fellow employees, students, parents, vendors, suppliers, or other people working on behalf of AMPS. It is best to use a disclaimer such as “The postings on this site are my own and do not necessarily reflect the views of AMPS.”
13. Never be false or misleading with respect to your professional credentials.

*Creating and Using School Social Media*

Employees are only permitted to communicate and connect with students and students’ parents or guardians regarding School-related matters on social media that is owned and operated by AMPS. All communications with parents or guardians regarding School-related matters on non-School or personal social media may result in disciplinary action, up to and including termination. Any communication whatsoever with students on non-School or personal social media may result in disciplinary action, up to and including termination.

The CEO/designee and IT Department, in addition to Human Resources and members of AMPS’ administration, are responsible for approving requests for School social media accounts, monitoring School social media accounts for inappropriate and unprofessional content, and maintaining the social media account information (including, but not limited to, username and password). AMPS has final approval over all content posted to School accounts and reserves the right to close School social media accounts at any time, with or without notice.

To set up social media that is owned and operated by AMPS in compliance with this policy, employees must adhere to the following procedures:

1. Request and obtain permission to create School social media from the CEO/designee.
2. Contact the CEO/designee to set up the social media. Provide the CEO/designee with the username and password that you would like assigned to the account. If you change the username and/or password, you must immediately update this information with the CEO/designee and the IT Department. Failure to do so may result in disciplinary action, up to and including termination.

Any social media created and/or used in violation of this policy may result in disciplinary action, up to and including termination.

Nothing in this policy is intended to prohibit you from discussing the terms and conditions of employment with your co-workers or engaging in concerted activities pursuant to the NLRA and other applicable laws.

*Access*

Employees are reminded that AMPS' various electronic communications systems, including, but not limited to, its electronic devices, computers, telephones, e-mail accounts, video conferencing, voice mail, facsimiles, internal and external networks, computers, cell phones, smart phones, PDAs, tablets, and other similar devices, are the property of AMPS. All communications and information transmitted by, received from, or stored in these systems are School records.

As a result, AMPS may, and does, monitor its employees' use of these electronic communication systems, including for social media activities, from time to time. AMPS may monitor such activities randomly, periodically, and/or in situations when there is reason to believe that someone associated with AMPS has engaged in a violation of this, or any other, School policy. **As a result, employees do not have a reasonable expectation of privacy in their use of or access to AMPS' various electronic communications systems**.

*Discipline*

Any violation of this Social Media Policy may result in disciplinary action, up to and including immediate termination.

*Retaliation Is Prohibited*

AMPS prohibits retaliation against any employee for reporting a possible violation of this policy or for cooperating in an investigation of a potential violation of this policy. Any employee who retaliates against another employee for reporting a possible violation of this policy or for cooperating in an investigation will be subject to disciplinary action, up to and including termination.

*Questions*

In the event you have any questions about whether a particular social media activity may involve or implicate AMPS, or may violate this policy, please contact Human Resources.

Social media is in a state of constant evolution, and AMPS recognizes that there will likely be events or issues that are not addressed in these guidelines. Thus, each School employee is responsible for using good judgment and seeking guidance, clarification, or authorization *before* engaging in social media activities that may implicate this policy.

### *C. Personal Business*

AMPS facilities for handling mail and telephone calls are designed to accommodate School business. Please have your personal mail directed to your home address and limit personal telephone calls to an absolute minimum. Personal calls that would result in additional fees to AMPS are not permitted. **Do not use School material, time or equipment for personal projects.**

### *D. News Media Contacts*

Employees occasionally may be approached for interviews or comments by the news media. Only employees designated by the CEO, who is the identified principal point of contact, may comment to news reporters on behalf of AMPS.

### *E. Notice Posting*

AMPS notices and notices required by law will be regularly posted on our bulletin board(s) or designated area(s). Employees should make it a practice to review them frequently so that they can keep current

regarding news about AMPS. Employees may not post or remove items on the bulletin board(s) or designated area(s) without approval by their supervisor. The same restrictions apply to bulletin boards located in employee break areas. Employees who wish to post on the bulletin board should obtain approval from their supervisor.

***F. Conflict of Interest***

While employed by AMPS, all employees owe a duty of loyalty to AMPS and must avoid situations involving an actual or potential conflict of interest. An actual or potential conflict of interest occurs when an employee is in a position to influence a decision that may result in a personal gain for that employee or for a relative as a result of AMPS' business dealings. For purposes of this policy, "relatives" are defined to include spouses, registered domestic partners, children, siblings, parents, in-laws, and step-relatives. Instances where an actual or potential conflict of interest may arise include, but are not limited to, the acceptance of gifts, engaging in outside activities, and personal and familial relationships.

An employee involved in any relationships or situations which may constitute a conflict of interest must immediately and fully disclose the relevant circumstances to his or her immediate supervisor, Human Resources or the CEO or designee, who will determine whether a potential or actual conflict exists. If an actual or potential conflict is determined to exist, AMPS may take whatever corrective action appears appropriate according to the circumstances. Failure to disclose facts of an actual or potential conflict of interest will constitute grounds for disciplinary action.

Notwithstanding this policy, if an employee is a "designated employee" under the AMPS' Conflicts of Interest Code (adopted pursuant to the Political Reform Act), then the employee must comply with those provisions in addition to this policy.

*Personal and Familial Relationships With Co-Workers*

Relatives of employees may be eligible for employment with AMPS only if the individuals involved do not work in a direct supervisory relationship or in job positions in which an actual or potential conflict of interest could arise. Current employees who marry will be permitted to continue working in the same job positions held only if they do not work in a supervisory relationship with one another or in job positions involving conflicts of interest.

*Gifts*

Improper personal gain may result not only where an employee or relative has a significant ownership interest in a vendor with which AMPS does business but also when an employee or relative receives any kickback, bribe, substantial gift, or special consideration as a result of any transaction or business dealings involving AMPS. The receipt of occasional flowers, candy, or gifts worth less than $100.00 from parents, students, or vendors fall outside the intent of this policy and acceptance of such items is permissible. However, employees must obtain written approval from the CEO before accepting any item worth more than $100.00 from students, parents, or vendors. Under no circumstances shall a School employee accept monetary gifts consisting of, but not limited to, gift certificates, coupons, entertainment tickets, etc.

Gifts and Fundraising funds or items that an employee may receive or raise from events, donors or donor websites i.e. (Donors Choose, etc.) for use by AMPS, its students or at a specific AMPS school site will be considered property of the School. Such donations will remain with the School to continue to benefit the intended student population.

*Outside Activities*

AMPS recognizes the right of employees to engage in activities outside of their employment that are of a private nature and unrelated to AMPS' business. However, employees may not engage in any outside activity, including outside employment, which presents an actual or potential conflict of interest. For this reason, employees are expected to conduct their personal affairs in a manner that does not adversely affect the School or its own integrity, reputation, or credibility. Illegal or immoral off-duty conduct by an employee that adversely affects the School's legitimate business interests or the employee's ability to perform their work will not be tolerated.

While employed by the School, employees are expected to devote their energies to their jobs with the School. The following types of additional employment elsewhere are strictly prohibited:

1. Additional employment that conflicts with an employee's work schedule, duties, and responsibilities at our School.
2. Additional employment that creates a conflict of interest or is incompatible with the employee's position with our School.
3. Additional employment that impairs or has a detrimental effect on the employee's work performance with our School.
4. Additional employment that requires the employee to conduct work or related activities on the School's property during the employer's working hours or using our School's facilities and/or equipment; and
5. Additional employment that directly or indirectly competes with the business or the interests of our School.

Employees who wish to engage in additional employment that may create a real or apparent conflict of interest must submit a written request to Human Resources explaining the details of the additional employment. If the additional employment is authorized, AMPS assumes no responsibility for it. AMPS shall not provide workers' compensation coverage or any other benefit for injuries occurring from or arising out of additional employment. Authorization to engage in additional employment can be revoked at any time.

Employees also may not use AMPS' name, logo, supplies, equipment, or other property in connection with any outside activities.

***G. Cameras and Video Surveillance***

For purposes of workplace safety and security and to prevent theft and other misconduct AMPS has installed video surveillance cameras in and around common work areas and public spaces. The surveillance does not include audio recording.

If there is any reported incident of theft, trespass, workplace violence, employee misconduct or any type of safety violation (hereafter collectively referred to as "security incidents"), AMPS will utilize its surveillance equipment as an investigatory tool. AMPS will also make use of its surveillance equipment to deter any future security incidents.

AMPS also reserves the right to actively monitor, through its surveillance cameras, any areas for safety reasons (to protect against equipment failure, breakage, or accident) or confidentiality reasons (to protect documents or other proprietary information).

Although the video surveillance described in this policy is intended to monitor for security incidents and other safety reasons at AMPS, it is possible that such surveillance may monitor activities not related to AMPS' business.

AMPS respects the privacy of its employees. Accordingly, surveillance is not conducted in any area where

an employee has a reasonable expectation of privacy and video cameras will be installed in AMPS' restrooms or in any lactation or changing areas.

The surveillance video cameras and any video footage from the surveillance are to be used solely for the purposes of this video surveillance policy. Any unauthorized use of these video cameras and/or videotapes is strictly forbidden and may result in discipline, up to and including termination of employment.

***H. Employer Property***

Lockers, computers, desks, bookshelves, and other employer-owned property are AMPS property and must be maintained according to AMPS rules and regulations. They must be kept clean and are to be used only for work-related purposes. AMPS reserves the right to inspect all AMPS property to ensure compliance with its rules and regulations, without notice to the employee and at any time, not necessarily in the employee's presence. Prior authorization must be obtained before any School property may be removed from the premises. Materials developed by an employee for purposes of his or her employment with AMPS are considered School property. All School property must be immediately returned upon termination of the employment relationship.

Employees are prohibited from deliberately performing acts that waste any of the resources of AMPS or unfairly monopolize any of the resources to the exclusion of others. These acts include, but are not limited to, using the e-mail system for other than business-related communications, sending multiple pictures using the e-mail system (unless specifically authorized to do so and business-related), sending mass mailings or chain letters, spending excessive amounts of time on the Internet, playing games, engaging in on-line chat groups, printing multiple copies of large documents, wasting paper frivolously, undertaking excessively large OCR scanning projects, or otherwise creating unnecessary network traffic.

***I. Employee Property***

For security reasons, employees should not leave personal belongings of value in the workplace (i.e. desks, bookshelves, counter, etc.). Terminated employees must remove as many personal items as time permits at the time they leave AMPS. Personal items left in the workplace are subject to storage, and eventually disposal if not claimed at the time of an employee's termination.

***J. Dress Code and Other Personal Standards***

AMPS employees serve as role models for the students and as representatives of AMPS. Consistent with these roles, all employees shall dress professionally and appropriately relative to their specific job duties and responsibilities and shall adhere to standards of dress and appearance that are compatible with an effective learning environment. Wearing clothing which is unduly revealing, which contains profane, vulgar, offensive or obscene statements or images, or which may disrupt the orderly operation of AMPS is prohibited.

Administrators and administrative support employees are expected to project a professional image and should dress appropriately for an office/business environment. Teachers and staff serve as role models, and they should maintain professional standards of dress and grooming. Physical education teachers, coaches and athletic volunteers should wear the appropriate athletic attire necessary to meet the requirements of their job responsibilities and maintain professional standards of dress and grooming when not actively teaching physical education classes or coaching. Site Directors and the CEO may also amend these dress standards from time to time.

*Specific examples of attire, or lack of attire, considered inappropriate and prohibited under this policy include but are not limited to:*

1. Excessively tight clothing, including leggings and tights without proper coverage;
2. Clothing which promotes alcoholic beverages, tobacco, or the use of controlled substances by words or symbols;
3. Clothing with slurs, political statements, slogans, etc., other than AMPS' logo and or School motto (employees are not permitted to wear hats or clothing with writing or logos (other than clothing manufacturer and designer logos) unless issued by the School);
4. Shorts, skirts, or dresses that end more than 2 inches above the knee;
5. Exposed body areas usually concealed by clothing such as torso, chest, back, stomach, etc.;
6. Bright colored hair dye (unless as excused for school spirit functions or discussed with Site leaders);
7. Clothing which contains profanity, nudity, depicts violence, or is sexual in nature by words or symbols;
8. Open toed shoes, sandals, or flip flops;
9. Tube tops, tank tops, crop tops or spaghetti strap tops;
10. Undergarments worn as an outer garment or any see-through clothing that reveals an undergarment;
11. Hats, visors, sunglasses, sweatbands, and bandanas (may be worn outside but must be removed when inside the workplace);
12. Jeans (except as described in Friday Business Casual Dress Policy below).

AMPS does not discriminate against employees on the basis of race, which includes traits associated with race, including but not limited to hair texture and protective hairstyles; protective hairstyles include, but are not limited to, such hairstyles as braids, locs, and twists. Reasonable accommodations may be made where appropriate and as approved in writing by the supervisor for those employees who, because of a sincerely held religious belief, cultural heritage, or medical reason, request a waiver of a particular part of this policy. Reasonable accommodations due to a disability or for religious grooming or dress will be made unless such accommodation poses an undue hardship.

*Piercings and Tattoos*

Body piercings (e.g., jewelry affixed to the nose, tongue, cheek, lip, or eyebrow) and tattoos are prohibited if they disrupt the orderly operation of AMPS. Tattoos which contain profane, vulgar, offensive, sexual or obscene statements or images are prohibited and must be covered at all times.

*Friday Casual Dress Policy*

The normal dress code will be relaxed on Fridays to provide a more comfortable clothing standard and foster school/collegiate spirit. Fridays throughout the year will be designated as Casual Dress Day. It is the intent that each employee may choose to wear less formal attire as long as clothing is in good taste and will not negatively affect the Site's image. Casual dress is outlined as follows:

1. Casual shirts: AMPS or site branded polo shirts. All shirts with collars, business casual crewneck or V-neck shirts, blouses, golf and polo shirts in school colors. College-branded shirts are acceptable. Examples of inappropriate shirts include; shirts with inappropriate slogans, tank tops, muscle shirts, camouflage and crop tops. In specified circumstances, T-shirts may be approved and provided for specific events only.
2. Pants: Casual slacks and trousers and jeans without holes, frays, etc. are permitted. Pants worn below the waist or hip line are prohibited at all times.

***N. Parking***

Employees may park their vehicles in any AMPS marked space, if space permits. If space is unavailable, employees must park in permissible public areas on the streets in the vicinity of AMPS property. AMPS

is not responsible for any loss or damage to employee vehicles or contents while parked on or off of AMPS property.

***O. Solicitation and Distribution of Literature***

In order to maintain and promote efficient operations, discipline, and security, AMPS maintains rules applicable to all employees that govern solicitation, distribution of written material, and entry onto the premises and work areas. All employees are expected to comply with these rules, which will be strictly enforced. Any employee who is in doubt concerning the application of these rules should immediately consult with their supervisor. These rules are:

1. No employee shall sell merchandise or solicit or promote support for any cause or organization during their working time or during the working time of the employee(s) at whom such activity is directed. As used in these rules, working time excludes meal and rest breaks.
2. No employee shall distribute or circulate any written or printed material, other than those approved by management for business purposes, in work areas at any time or during their working time or during the working time of the employee(s) at whom such activity is directed. As used in this section, working areas excludes designated meal and break rooms.
3. No employee shall enter or remain in School work areas for any purpose except to report for, be present during, and conclude a work period. Non-exempt employees must not begin work and clock in at their working area more than 10 minutes before they are scheduled to begin and must stop work and clock out from their work area no later than 10 minutes after their work scheduled for the day is completed, unless they are approved by their supervisor to do so. Work area does not include School parking lots, break rooms, gates, or other similar outside areas unless an employee is assigned to work in such areas.
4. Under no circumstances will non-employees be permitted to solicit or distribute written material for any purpose on School property.
5. Non-employees must sign in at the front office before entering School property.

Violations of this policy may result in disciplinary action, up to and including termination. Nothing in this section is intended to prohibit or restrict employees from exercising their rights under the NLRA, which includes discussing their wages and working conditions.

***P. Health and Safety Policy***

AMPS is committed to providing and maintaining a healthy and safe work environment for all employees.

Employees are required to know and comply with AMPS' Safety Manual and to follow safe and healthy work practices at all times.

Employees are required to report immediately to AMPS' Site Director any potential health or safety hazards, and all injuries or accidents.

Employees shall not be prohibited from accessing their mobile device or other communication device for seeking emergency assistance, assessing the safety of the situation, or communicating with a person to confirm their safety during an emergency condition. An emergency condition means: (i) conditions of disaster or extreme peril to the safety of persons or property at the workplace or worksite caused by natural forces or a criminal act; or (ii) an order to evacuate a workplace, a worksite, a worker's home, or the school of a worker's child due to natural disaster or a criminal act.

In compliance with Proposition 65, the School will inform employees of any known exposure to a chemical known to cause cancer or reproductive toxicity.

In compliance with California law and to promote the concept of a safe workplace, AMPS maintains an Injury and Illness Prevention Program (IIPP). The IIPP is available for review by employees and/or employee representatives. Contact Human Resources if you wish to review the IIPP or if you have any questions concerning this policy.

***Q. Communicable Diseases***

Introduction

Employees must stay away from the office if they have symptoms of or have been diagnosed with a communicable illness in order to reduce the possibility that it will spread to others.

AMPS does not discriminate against any job applicant or employee based on the individual having a communicable illness or being associated with someone who does. AMPS will not retaliate against an applicant or employee for providing this information to AMPS.

General Guidelines

Decisions involving persons who have or may have a communicable illness shall be based on current and well-informed medical judgments concerning the disease, as well as the following factors:

1. Whether the individual has been diagnosed with the illness;
2. Whether the individual has been exposed to an individual with the illness;
3. Whether the individual has symptoms that are similar to those associated with the illness;
4. Whether the individual has been exposed to an individual who has symptoms that are similar to those associated with the illness;
5. Whether the individual has traveled to locations or been exposed to others who have traveled to locations where there is a high population of individuals with the illness;
6. The risks of transmitting the illness to others;
7. The symptoms and any other special circumstances of each individual who has or may have the illness;
8. Any factor used by a government agency, including but not limited to, the United States Center for Disease Control (CDC), for the purpose of maintaining the safety and security of our citizens.

Other factors could be considered as well. Managers and supervisors are responsible for:

1. Consulting with Human Resources for guidance regarding employees who report symptoms and/or diagnosis of a communicable disease.
2. Preventing discrimination against any job applicant or employee based on the individual having a communicable disease.
3. Maintaining the privacy of all information about an employee's medical condition with anyone other than Human Resources or any government agency that requires reporting.

Communicable Illness Defined

A communicable illness is a serious illness or disease that can be directly or indirectly transferred from an infected individual to another person, including, but not limited to measles, mumps, chickenpox, coronavirus, influenza (certain types including H1N1), viral Hepatitis-A (infectious Hepatitis), viral Hepatitis-B (serum Hepatitis), leprosy, SARS (Severe Acute Respiratory Syndrome), TB (Tuberculosis - infectious), plague, yellow fever, viral hemorrhagic fevers, meningitis, and encephalitis. The definition of communicable illness may be revised in accordance with information received from the CDC or other public health officials.

Reporting Procedure

To help keep all employees safe, employees must follow these procedures. Employees must inform Human Resources if you are: (a) diagnosed with a communicable illness; or (b) if you believe you may have been exposed to a person so diagnosed; (c) if you have recently visited a location in which there has been a high population of individuals diagnosed with an illness; (d) you do not feel well or are exhibiting any symptoms associated with the illness in question. This information will be kept confidential to the extent reasonably possible. AMPS will not reveal any information other than as required to meet business necessities.

Work Restrictions

For safety and security purposes, as well as to comply with all applicable law, AMPS reserves the right to request that any individual who has or may have a communicable illness, or who has had contact with anyone who has or may have a communicable illness, not enter the workplace or attend any work-related function outside the premises.

Certain employees who can complete job duties remotely may have the option to work from home, subject to the discretion and prior approval of AMPS. Additionally, leaves of absence, use of vacation or other arrangements may be an option. Depending on the circumstances, AMPS may offer other options.

Duty to Maintain Privacy

AMPS will administer this policy in accordance with applicable laws and regulations, including but not limited to the Americans with Disabilities Act and its amendments, the Genetic Information Non-Discrimination Act, the Health Insurance Portability and Accountability Act of 1996, the Occupational Safety and Health Act, other related federal law, and state law related to the same or similar issues, including but not limited to mandatory paid sick and safe time laws. AMPS will treat any medical information obtained under this policy as confidential to the extent possible in accordance with applicable law. In the event any provision of this policy conflicts with applicable federal, state or local law, AMPS will follow the law. AMPS will strive to maintain any information about an employee's medical condition, or that of a family member, in the strictest of confidence and to see that this information is shared only on a "need to know" basis.

***R. Drug and Alcohol Abuse Policy***

It is the intent of AMPS to promote a safe, healthy, and productive work environment for all employees. Employees who abuse alcohol or drugs are a danger to themselves and to other employees. We are therefore committed to maintaining a safe and healthy workplace free from the influence of alcohol and drugs. We hope all employees will join us in achieving our goal of a safe and productive drug-free workplace.

For purposes of this policy, "drugs" includes, but is not limited to, substances that are prohibited by law (such as cocaine, heroin, etc.), controlled substances, marijuana (including medicinal marijuana and marijuana vaping or other recreational marijuana use), prescription drugs that impair the employee's ability to perform their job duties safely and effectively, as well as prescription drugs if they are not prescribed for the person using them and/or not being used as prescribed. While the use of marijuana has been legalized under California law for medicinal and recreational uses, it remains an illegal drug under federal law and its use as it impacts the workplace is prohibited by AMPS. "Drug paraphernalia" means any accessory for the use, possession, manufacture, distribution, dispensation, purchase, or sale of illegal drugs. "Under the influence" means that the employee is affected by alcohol, prescription medication that impairs cognitive or physical functions, and/or illegal drugs in any detectable manner.

Nothing in this policy is intended to prohibit the lawful use of marijuana while off-duty and away from the workplace. AMPS will not discriminate against any employee in the terms or conditions of employment for the lawful use of marijuana while off-duty and away from the workplace.

AMPS complies with all Federal and State regulations regarding drug use while on the job. This policy prohibits the following:

1. Use, possession, purchase, or offer for sale of drugs, drug paraphernalia or alcohol during working hours, including meal and break periods, or in the presence of pupils;
2. Use, possession, purchase, or offer for sale of drugs, drug paraphernalia, or alcohol on School property at any time;
3. Use, possession, purchase, or offer for sale of drugs, drug paraphernalia, or alcohol while attending a School function or event;
4. Storing alcohol (if unauthorized), drugs, or drug paraphernalia in a locker, desk, automobile, or other repository on AMPS' premises;
5. Refusing to submit to an inspection or testing when requested by AMPS;
6. Being under the influence of drugs, prescription medication that impairs cognitive or physical functions and/or alcohol during working hours, while on AMPS' premises and/or attending a School function or event;
7. Conviction under any criminal drug statute for a violation occurring in the workplace; or
8. Failure to keep all prescribed medicine in its original container.

In addition, if you are required to take any kind of prescription or nonprescription medication that will affect your ability to perform your job, you are required to report this to Human Resources. Human Resources will determine if it is necessary to temporarily place you on another assignment or take other action as appropriate to protect your safety and the safety of other employees and students.

This policy will not be construed to prohibit the use of alcohol at social or business functions sponsored by AMPS where alcohol is served or while entertaining actual or prospective donors to AMPS. However, employees must remember their obligation to conduct themselves appropriately at all times while at School-sponsored functions or while representing AMPS.

*Searches*

AMPS may at times conduct unannounced searches of School property for alcohol, illegal drugs, drug paraphernalia, and/or unauthorized controlled substances or to ensure compliance with any other School-related policy. This may include desks, storage areas and rooms normally used to store employees' personal property. As a result, employees do not have an expectation of privacy in this regard.

*Testing*

To the extent permitted by law, AMPS may require a test by intoxilator, blood test, urinalysis, medical examination, or other drug/alcohol screening of those persons whom AMPS reasonably suspects of using, possessing, or being under the influence of a drug or alcohol. Such testing may be conducted if two or more employees or other adults observe an employee acting in such a manner to raise suspicion that the employee is under the influence of an illegal drug or alcohol or is acting in such manner that they may harm themselves or another employee or student while on duty. Such testing will not include screening for nonpsychoactive cannabis metabolites.

Any refusal to submit to such testing will be considered a violation of this policy. An employee's consent to submit to such a test is required as a condition of employment, and an employee's refusal to consent may result in disciplinary action, including termination for a first refusal or any subsequent refusal. AMPS shall determine the manner in which such testing is conducted with the goal being to ensure that the test

results are accurate.

Such a test may be required of employees involved in any work-related accident or unsafe practice where the safety of the employee or of other employees was jeopardized. Periodic retesting may also be required following positive test results or after any violation of this policy or rehabilitation.

*Violations*

Any violations of this policy may result in disciplinary action, up to and including termination, at AMPS' sole discretion.

Employees should be aware that participation in a rehabilitation program will not necessarily prevent the imposition of disciplinary action, including termination, for violation of this policy. Employees who undergo voluntary counseling or treatment and who continue to work, if any, must meet all established standards of conduct and job performance.

Because the use, sale, purchase, possession, or furnishing of an illegally obtained substance is a violation of the law, School may report such illegal drug activities to an appropriate law enforcement agency. In addition, employees have an obligation to notify the School of any criminal drug statute conviction for a violation occurring in the workplace no later than 5 days after the conviction. Failure to do so may result in discipline, up to and including termination.

***S. Smoking***

AMPS sites are all non-smoking facilities. Smoking is prohibited on AMPS property and campuses. This includes, but is not limited to, nicotine and non-nicotine cigarettes including herbal cigarettes and marijuana, cigars, pipes as well as e-cigarettes and vaping. Employees who wish to smoke must limit their smoking to products that will not impair or impact their work performance during meal and rest periods off premises.

***T. Security Protocols***

The security of facilities as well as the welfare of our employees depends upon the alertness and sensitivity of every individual to potential security risks. To help maintain a secure workplace, be aware of unknown persons loitering in parking areas, walkways, entrances and exits and service areas. Report any suspicious persons or activities to the Site Director or your supervisor immediately.

Secure your desk or office at the end of the day. When called away from your work area for an extended length of time, do not leave valuable or personal articles around your work station that may be accessible. You should immediately notify Human Resources when keys are missing or if security access codes or passes have been breached.

***U. Safety and Incident Reporting***

AMPS is committed to providing a safe working environment and preventing accidents. The prevention of accidents is the responsibility of every School supervisor. It is also the duty of all employees to accept and promote the established safety regulations and procedures. Every effort will be made to provide adequate safety training. If an employee is ever in doubt about how to perform a job or task safely, he or she should request assistance. All employees must report unsafe conditions to management immediately and remedy them to the extent possible. Employees must also report fires or other emergencies by calling 911. Employee must immediately, or as soon as is practical, report any accident or injury occurring during work or on School premises to management, to allow AMPS to appropriately respond.

It is the policy of the School that accident prevention shall be considered of primary importance in all phases of operation and administration. AMPS's management is required to provide safe and healthy working conditions for all employees and to establish and require the use of safe practices at all times.

Failure to comply with or enforce School's Safety Manual, Workplace and Violence Prevention Plan or safety and health rules, practices and procedures could result in disciplinary action up to and including termination.

***V. Driving on AMPS Business***

Employees who are required to drive their own vehicle on approved School business will be required to show proof of a current, valid driver's license and proof of effective auto liability insurance coverage. To the extent permitted by law, AMPS retains the right to transfer to an alternative position, suspend, or terminate such employees whose license is revoked or who fails to maintain personal automobile insurance coverage. Employees whose job duties include driving must follow all traffic laws at all times and practice safe driving.

Pursuant to applicable law and safety standards, employees whose job responsibilities include regular or occasional driving and who are issued a cell phone for business use must refrain from using their phone while driving unless they are using a hands-free device. Safety must come before all other concerns. Thus, unless an employee is using a hands-free device in a safe- manner, they must safely pull off to the side of the road and safely stop the vehicle before placing, accepting, or continuing a call. Sending or reviewing text messages while driving is also prohibited.

Employees whose job responsibilities do not specifically include driving as an essential function, but who use a cell phone for business purposes, whether issued by AMPS or not, are also expected to abide by the provisions above. Under no circumstances are employees allowed to place themselves or others at risk to fulfill business needs.

Any employee who fails to comply with this policy will be deemed to have engaged in grossly negligent conduct beyond the course and scope of their employment. As a result, any employee who is charged with a traffic violation or incurs any other form of liability resulting from a violation of this policy will, to the extent allowed by applicable law, be solely responsible for any such liability. Any employee who has an accident while driving on AMPS business must report that accident immediately to their supervisor and HR.

AMPS will reimburse employees using a personal vehicle for mileage when on AMPS business at the IRS mileage rate. Employees are required to keep a record of the number of miles driven to perform their job duties.

## EMPLOYEE LEAVES AND BENEFITS

### *A. Holidays*

AMPS calendar reflects any and all holidays observed by AMPS. School classes are not in session on holidays observed by AMPS. When a holiday falls on a workday, that workday is the holiday. When a holiday falls on a Saturday, the preceding Friday is treated as the holiday. When a holiday falls on a Sunday, the subsequent Monday is treated as the holiday.

The following days are observed as paid holidays by AMPS:

1. New Year's Day
2. Martin Luther King Jr. Day
3. President's Day
4. Friday of Spring Break Week
5. Memorial Day
6. Juneteenth
7. Independence Day
8. Labor Day
9. Indigenous Peoples' Day
10. Veteran's Day
11. Thanksgiving Day
12. Friday after Thanksgiving
13. Christmas Eve
14. Christmas Day
15. New Year's Eve

To be eligible for holiday pay, an employee must be a non-exempt employee who works on average at least thirty (30) hours per workweek, and who would normally be scheduled to work on the day on which the holiday falls. Holiday pay will be based on each employee's work schedule; in other words, an employee who normally works 4 hours per day will receive 4 hours of holiday pay, and an employee who works 8 hours per day will receive 8 hours of holiday pay. Holiday hours do not count as hours worked for purposes of calculating overtime.

The School reserves the right to change this policy at any time, with or without notice.

### *B. Vacation Policy*

**10-month/10.5 month Employees:**

- Do not accrue vacation hours.

**11-month Employees (Expanded Learning Coordinator only):**

- Who have scheduled work days during the Thanksgiving/Winter/Spring/Summer breaks, such as ELOP days during such breaks, **accrue vacation hours at 3.33 hours per pay period up to 73.26 hours of vacation time per year .** Vacation accrues on an as-worked basis. Therefore, employees who only work 11 months will only accrue during those 11 months. Vacation will not accrue during any unpaid leave of absence, inactive time, unpaid time, or non-working time or during any period when the employee's vacation time was at the maximum cap. Vacation time can accrue up to a maximum cap of 1.5 times the annual accrual maximum, which is 109.89 hours of vacation time. Once the 109.89 hour cap is reached, employees will cease to accrue further vacation time until the employee's accrued vacation time falls below that cap. When vacation time

falls below the cap of 109.89 hours, then vacation will begin to accrue again. No vacation time will be earned for the period in which the employee's vacation time was at the maximum. ~~Vacation accrues on an as-worked basis. Vacation will not accrue during any unpaid leave of absence, inactive time, unpaid time, or non-working time or during any period when the employee's vacation time was at the maximum cap.~~

- Who are not scheduled to work according to the work calendar during Thanksgiving/Winter/Spring/Summer breaks, **do not accrue vacation hours**.

**12-month Employees:**

Some twelve (12) month employees accrue vacation according to position as follows:

- **Site Leaders (Principals and Deans):** Do not accrue vacation. They will have two (2) weeks of paid AMPS non-workdays in July.
- **School Site and Home Office regular full-time staff** (as defined in this Handbook): Begin to earn and accrue vacation starting on the first day of employment at a rate of **3.33 hours per pay period up to 80 hours of vacation time per year**. Vacation time can accrue up to a maximum cap of 1.5 times the annual accrual maximum, which is 120 hours of vacation time. Once the 120 hour cap is reached, employees will cease to accrue further vacation time until the employee's accrued vacation time falls below that cap. When vacation time falls below the cap of 120 hours, then vacation will begin to accrue again. No vacation time will be earned for the period in which the employee's vacation time was at the maximum. Vacation accrues on an as-worked basis. Vacation will not accrue during any unpaid leave of absence, inactive time, unpaid time, or non-working time or during any period when the employee's vacation time was at the maximum cap.

All employees must have supervisory approval before taking vacation, by submitting a request through Paylocity at least two weeks prior to the date(s) requested. Failure to submit this request at least two weeks in advance may result in denial of the request. Vacations shall be scheduled in such a way as to provide adequate coverage of job responsibilities and staffing requirements. Although AMPS will attempt to accommodate vacation requests to the greatest extent possible, there is no guarantee that any given vacation request will be granted, and AMPS reserves the right to deny a vacation request based on operational needs of AMPS. AMPS reserves the right to schedule vacation time for employees or to compensate employees for accrued, unused vacation time at any time in its sole discretion. If a holiday occurs during your vacation period, you will receive holiday compensation for that day.

For both exempt and non-exempt employees, vacation time may be taken in minimum increments of one hour. If an exempt employee absents themself from work for part or all of a workday, they will be required to use accrued vacation to make up for the absence.

Employees who terminate their employment for any reason will be paid for any accrued but unused vacation time in accordance with this policy. Vacation time is paid at the employee's final rate of pay at the time of the employee's separation.

**Mandatory Cash-Out Policy**

To ensure continued accrual eligibility and to prevent loss of vacation accrual opportunities, AMPS will automatically and mandatorily cash out the equivalent of one week (40 hours) of accrued and unused vacation time when an eligible employee reaches the maximum cap. The cash-out will be paid at the employee's current straight rate of pay and will be included in the employee's regular paycheck or the next administratively feasible payroll cycle. The employee's vacation balance will be reduced by the number of hours paid out, allowing the employee to resume accruing vacation time, subject to the same accrual cap.

By way of example, a 12-month Home Office regular full-time staff member would be paid out one week's vacation upon accruing the maximum cap of 120 hours of vacation, at which point the balance would be reduced to 80 hours, and they would resume accruing~~accursing~~ vacation.

Formatted: Font color: Auto

This cash-out is mandatory and automatic. Employees may not defer or decline the payout.

As with all of its policies and procedures, AMPS reserves the right to modify, alter, or otherwise amend this policy at its sole and absolute discretion to the extent allowed by law.

***C. Paid Sick Leave***

Paid sick leave is available to all School employees who work for the School for more than thirty (30) days within a year in California and/or who work at least two (2) hours within a week within the City of Oakland. AMPS employees will accrue hours per pay period worked as described below.

Sick time may be used in one (1) hour increments. Accrued sick leave carries over from year to year, subject to the maximum accrual outlined below. Sick leave is subject to an accrual cap of 160 hours. Once this cap is reached, no further sick leave will accrue until some is used. When sick leave is used, sick leave will begin to accrue again. There is no retroactive grant of sick leave for the period of time the accrued sick leave was at the cap.

- Full-Time Employees will accrue 4 hours of sick leave per pay period worked beginning on the first day of employment. For example, 10-Month Employees will accrue 80 hours of sick leave, 11-Month employees will accrue 88 hours of sick leave and 12-Month Employees will accrue 96 hours of sick leave per year with a cap of 160 hours.

- Part-Time Employees will accrue 2 hours of sick leave per pay period worked, beginning on the first day of employment. For Example, 10-Month Part-Time Employees will accrue 40 hours of sick leave, 11-Month Part-Time Employees will accrue 44 hours of sick leave and 12-Month Part-Time Employees will accrue 48 hours of sick leave per year with a cap of 160 hours.

Accrual for non-exempt employees will be calculated based on actual hours worked. Accrual of paid sick leave for eligible exempt employees will be calculated based on a 40-hour workweek or the employee's normal workweek if the employee normally works less than 40 hours. Paid sick leave accrues on an as-worked basis and does not accrue during any non-working time or unpaid leave of absence.

AMPS will not compensate an employee for unused paid sick days upon termination, resignation, retirement, or other separation from employment. However, if an employee separates from AMPS and is rehired by AMPS within one year from the date of separation, any previously accrued and unused paid sick leave shall be reinstated. The employee shall be entitled to use that previously accrued and unused paid sick leave and to accrue additional paid sick leave upon rehiring, subject to this policy. Employees returning to AMPS more than 12 months after separation of employment will be treated as a new employee for purposes of paid sick leave.

Eligible employees may use their accrued paid sick leave to take paid time off for the diagnosis, care, or treatment of an existing health condition of (or preventative care for) the employee or the employee's family member.

For purposes of this policy, "family member" means a child, parent, spouse, registered domestic partner,

grandparent, grandchild, sibling of the employee, or a designated person. "Child" means a biological child, a foster child, an adopted child, a step-child, a child of a registered domestic partner, a legal ward, or a child of a person standing in loco parentis. "Parent" means a biological, foster, or adoptive parent, a step-parent, or a legal guardian of the employee or the employee's spouse or registered domestic partner. "Spouse" means a legal spouse, as defined by California law. "Designated person" means a person identified by the employee at the time the employee requests paid sick days. Only one individual may be a "designated person" per 12-month period.

Employees may also use their paid sick leave to take time off from work for reasons related to being a victim of certain crimes, including a Qualifying Act of Violence (as defined by applicable law), and for any other reason permitted by law. Sick leave will be paid at the regular rate of pay for nonexempt employees.

Employees who wish to use paid sick leave can do so upon a verbal or written request. When possible, employees must give reasonable advance notification of an absence from work for which paid sick leave will be used. If the need for paid sick leave is unforeseeable, the employee shall provide notice of the need for the leave as soon as practicable. When an employee is out due to illness for three (3) or more workdays, a doctor's note certifying the need for the absence and the employee's fitness to return to duty may be required. employees out on sick leave for more than five (5) consecutive work days may be requested to discuss leave of absence options with Human Resources.

Once an employee has exhausted sick leave, the employee may continue on an unpaid medical leave depending upon the facts and circumstances of the employee's basis for leave beyond accrued sick leave. Employee requests for unpaid medical leave must be approved by AMPS.

AMPS will not retaliate or discriminate against an employee for using accrued sick leave, attempting to exercise the right to use accrued sick leave, or cooperating in an investigation of an alleged violation of this policy.

Certain counties in California have other paid sick leave ordinances or requirements that may apply to you. Contact Human Resources for more information regarding a local paid sick leave ordinance that may apply to you.

***D. Unpaid Leave of Absence (Medical)***

On occasion, an employee may need a medical leave of absence that extends beyond limits under applicable state or federal mandatory leave laws. In addition, there may be circumstances when an employee needs a medical leave allowed under disability laws, but is not eligible to receive them. In these situations, a medical leave of absence without pay may be granted to accommodate employees with qualifying disabilities based upon a health care provider's written certification of a qualifying disability, unless such leave would cause an undue hardship to AMPS. Such disability leaves will be considered on a case-by-case basis, consistent with AMPS's obligations under federal and state disability laws. Employees should request any leave in writing as far in advance as possible. Approved absences of less than two weeks are not treated as medical leaves of absences but rather as excused absences without pay.

Employees will be required to use any accrued vacation and paid sick leave during any unpaid portion of this leave. Benefit accrual, such as vacation, sick leave, and holiday benefits, will be suspended during an unpaid medical leave period and will resume upon return to active employment. Unless otherwise required by law, AMPS does not continue to pay premiums for health insurance coverage for employees on unpaid medical leave. However, if eligible, you may self-pay the premiums under the provisions of COBRA.

A medical leave begins on the first day your doctor certifies that you are unable to work. AMPS will require

medical documentation from your healthcare provider showing the date you became disabled and the anticipated date you will be able to return to work. An employee returning from a medical disability leave must generally present a doctor's certificate declaring fitness to return to work.

Upon return from medical leave, you will be offered the same position you held at the time your leave began, if available and/or as required by law. If your former position is not available, a comparable position will be offered. If neither the same nor a comparable position is available, your return to work will depend on job openings existing at the time of your scheduled return. AMPS will comply with any applicable reinstatement obligations under state or federal law.

Disability leaves under this section are unpaid. Employees on leave due to a medical condition or disability may be eligible to receive state disability compensation through State Disability Insurance (SDI) or Paid Family Leave (PFL). In both instances, employees must directly contact the California Employment Development Department (EDD).

***E. Discretionary Unpaid Leave of Absence (Non-Medical)***

AMPS may grant a discretionary leave of absence to employees in certain unusual circumstances when requested by the employee. There is no guaranteed right to take a discretionary unpaid leave of absence and if such a leave is granted, there is not guaranteed right to reinstatement.

It is important to request any leave in writing as far in advance as possible, to keep in touch with your supervisor and Human Resources during your leave, and to give prompt notice if there is any change in your return date. If your leave expires and you have not contacted your supervisor and Human Resources, AMPS will assume that you do not plan to return and that you have voluntarily terminated your employment. Employees do not continue to accrue vacation, PSL, or holiday benefits while they are on unpaid discretionary leaves of absence.

Employees will be required to use any accrued vacation before taking an unpaid discretionary leave of absence. Unless otherwise required by law, AMPS does not continue to pay premiums for health insurance coverage for employees on discretionary unpaid leaves of absence. However, if eligible, you may self-pay the premiums under the provisions of COBRA.

***F. Reproductive Rights, Leave, and Accommodations Policy – California (For School Employees)***

Amethod is committed to supporting the health, safety, and well-being of all employees, including their reproductive health choices. In accordance with California law—including the Fair Employment and Housing Act (FEHA), the California Family Rights Act (CFRA), Pregnancy Disability Leave (PDL) law, and Education Code requirements—Amethod provides protections and accommodations related to reproductive health, pregnancy, childbirth, and related conditions.

This policy applies to all employees, including credentialed teachers, classified staff, administrators, substitutes, and part-time employees.

---

*Reproductive Health Privacy and Non-Discrimination*

All employees have the right to make personal decisions regarding reproductive health care, including but not limited to:

- Contraception

- Fertility treatments
- Abortion and post-abortion care
- Miscarriage and related conditions
- Family planning

Discrimination, retaliation, or harassment based on an employee's reproductive health decisions or status is strictly prohibited.

Eligible employees who suffer a reproductive loss may take up to five days of unpaid leave. To be eligible, an employee must have worked for the School for at least 30 days before the start of the leave. The employee need not take the five days consecutively, but the leave must be completed within three months after the reproductive loss event unless the employee is already on or chooses to go on any other leave provided under federal or state law either before or immediately after the reproductive loss event.

For purposes of this policy, a reproductive loss event is defined as:

• Failed adoption, which applies to an employee who would have been a parent of the adoptee;

• Failed surrogacy, including failed embryo transfer to the surrogate, which applies to an employee who would have been a parent of a child born;

• Miscarriage by an employee, by the employee's current spouse or domestic partner, or by another individual if the employee would have been a parent of a child born;

• Stillbirth resulting from an employee's pregnancy, the pregnancy of an employee's current spouse or domestic partner, or another individual, if the employee would have been a parent of a child born; and

• Unsuccessful assisted reproduction through artificial insemination or an embryo transfer, including gamete and embryo donation, which applies to an employee, the employee's current spouse or domestic partner, or another individual, if the employee would have been a parent of a child born.

If a reproductive loss event spans multiple days, it is considered to have occurred on the final day on which some part of the event took place. Employees may request leave for multiple reproductive loss events in a single year up to a maximum of 20 days of leave within a 12-month period. Employees may choose to use vacation or sick leave in conjunction with this leave.

The School will not retaliate against an employee for exercising the employee's right to leave under this Policy.

***G. Family and Medical Leave Act (FMLA) & California Family Rights Act (CFRA)***

This policy explains how the School complies with the federal Family and Medical Leave Act ("FMLA") and the California Family Rights Act ("CFRA"), both of which require the School to permit each eligible employee to take up to twelve (12) workweeks (or twenty-six (26) workweeks where indicated) of FMLA/CFRA leave in any twelve (12) month period for the purposes enumerated below.

*Employee Eligibility Criteria*

To be eligible for FMLA/CFRA leave, the employee must have been employed by the School for a total of at least twelve (12) months (not necessarily consecutive) over the preceding seven years,[1] worked at least 1,250 hours during the twelve (12) month period immediately preceding commencement of the leave, and work at a location where the School has at least fifty (50) employees within seventy-five (75)

[1] Unless the break in service was occasioned by the employee taking leave pursuant to USERRA.

miles, (the last requirement does not apply for purposes of CFRA where the School must only have at least five (5) employees but the employee must be employed within the State of California).

*Events That May Entitle an Employee To FMLA/CFRA Leave*

The twelve (12) week (or twenty-six (26) workweeks where indicated) FMLA/CFRA allowance includes any time taken (with or without pay) for any of the following reasons:

1. To care for the employee's newborn child (and the birth of a child under FMLA only) or a child placed with the employee for adoption or foster care (i.e., baby bonding). Leaves for this purpose must conclude twelve (12) months after the birth, adoption, or placement. If both parents are employed by the School, they each will be entitled to a separate twelve (12) weeks of leave for this purpose, which cannot be loaned or otherwise assigned from one employee to the other.
2. Because of the employee's own serious health condition (including a serious health condition resulting from an on-the-job illness or injury) that makes the employee unable to perform any one or more of the essential functions of their job (For FMLA leave only, a serious health condition also includes a disability caused by pregnancy, childbirth, or related medical conditions, which runs concurrently with the School's separate pregnancy disability leave policy).
    a. A "serious health condition" is an illness, injury (including, but not limited to, on-the-job injuries), impairment, or physical or mental condition of the employee or a child, parent, or spouse of the employee that involves either inpatient care or continuing treatment, including, but not limited to, treatment for substance abuse.
    b. "Inpatient care" means a stay in a hospital, hospice, or residential health care facility, any subsequent treatment in connection with such inpatient care, or any period of incapacity. A person is considered an "inpatient" when a health care facility formally admits him/her to the facility with the expectation that he/she will remain at least overnight and occupy a bed, even if it later develops that such person can be discharged or transferred to another facility and does not actually remain overnight.
    c. "Incapacity" means the inability to work, attend school, or perform other regular daily activities due to a serious health condition, its treatment, or the recovery that it requires.
    d. "Continuing treatment" means ongoing medical treatment or supervision by a health care provider.
3. To care for a spouse, child, or parent[2] with a serious health condition. A qualifying family member also includes a registered domestic partner, parent-in-law, grandparent, grandchild, sibling, or designated person for CFRA purposes. "Designated person" refers to any individual related by blood or whose association with the employee is the equivalent to a family relationship (only one individual may be a "designated person" per 12-month period).
4. (FMLA Only) When an employee is providing care to a spouse, child, parent, or next of kin who is a covered Armed Forces service member with a serious injury or illness, the employee may take a maximum of twenty-six (26) weeks of additional FMLA leave in a single twelve (12) month period to provide said care. CFRA does not provide leave specific to caring for a service member.
5. For any "qualifying exigency" because the employee is the spouse, child, or parent of an individual on active military duty, or an individual notified of an impending call or order to active duty, in the Armed Forces. For CFRA purposes, this may also include a registered domestic partner.

[2] For purposes of FMLA only, the term "parent" does not extend to parents-in-law. Further, for purposes of FMLA only, a child does not refer to a child who is over 18 years of age (unless they are incapable of self-care because of a medical or physical disability) nor does it include the child of a registered domestic partner unless the employee stands in loco parentis to the child.

*Amount of FMLA/CFRA Leave Which May Be Taken*

FMLA/CFRA leave can be taken in one (1) or more periods, but may not exceed twelve (12) workweeks total for any purpose in any twelve (12) month period, as described below, for any one, or combination of the above-described situations. “Twelve workweeks” means the equivalent of twelve (12) of the employee’s normally scheduled workweeks. For a full-time employee who works five (5) eight-hour days per week, “twelve workweeks” means sixty (60) working and/or paid eight (8) hour days.

In addition to the twelve (12) workweeks of FMLA/CFRA leave that may be taken, an employee who is the spouse, child, parent, or next of kin of a covered Armed Forces service member may also be entitled to a total of twenty-six (26) workweeks of FMLA leave during a twelve (12) month period to care for the servicemember.

The “twelve month period” in which twelve (12) weeks of FMLA and CFRA leave may be taken is the twelve (12) month period immediately preceding the commencement of any FMLA/CFRA leave.

If a holiday falls within a week taken as FMLA/CFRA leave, the week is nevertheless counted as a week of FMLA/CFRA leave. If, however, the School’s business activity has temporarily ceased for some reason and employees are generally not expected to report for work for one or more weeks, such as the Winter Break, Spring Break, or Summer Vacation, the days the School’s activities have ceased do not count against the employee’s FMLA or CFRA leave entitlement. Similarly, if an employee uses FMLA/CFRA leave in increments of less than one (1) week, the fact that a holiday may occur within a week in which an employee partially takes leave does not count against the employee’s leave entitlement unless the employee was otherwise scheduled and expected to work during the holiday.

*Pay during FMLA/CFRA Leave*

An employee on FMLA/CFRA leave because of their own serious health condition must use all accrued paid sick leave at the beginning of any otherwise unpaid FMLA/CFRA leave period. If an employee is receiving a partial wage replacement benefit during the FMLA/CFRA leave (such as California’s State Disability Insurance plan or Paid Family Leave program) or workers’ compensation insurance plan), the School and the employee may agree to have School-provided paid leave, such as vacation or sick time, supplement the partial wage replacement benefit unless otherwise prohibited by law.

An employee on FMLA/CFRA leave in connection with the birth (including baby bonding), adoption or foster care of a child, or to care for a qualifying family member with a serious health condition may use any or all accrued sick leave at the beginning of any otherwise unpaid FMLA/CFRA leave.

If an employee has exhausted their sick leave, leave taken under FMLA/CFRA shall be unpaid leave.

The receipt of sick leave pay or State Disability Insurance benefits will not extend the length of the FMLA or CFRA leave.

You will be required to use any accrued vacation during unpaid family and medical leave unless you are eligible for and applying for Paid Family Leave benefits provided by the State of California.

*Benefits*

Benefit accrual, such as vacation, paid sick leave, and holiday benefits, will be suspended during the approved leave period and will resume upon return to active employment (except that paid sick leave accrues during any period of unpaid FMLA or CFRA leave only until the end of the month in which unpaid leave began).

The provisions of the School's various employee benefit plans govern continuing eligibility during FMLA/CFRA leave, and these provisions may change from time to time. The health benefits of employees on FMLA/CFRA leave will be paid by the School during the leave at the same level and under the same conditions as coverage would have been provided if the employee had been continuously employed during the leave period. When a request for FMLA/CFRA leave is granted, the School will give the employee written confirmation of the arrangements made for the payment of insurance premiums during the leave period.

If an employee is required to pay premiums for any part of their group health coverage, the School will provide the employee with advance written notice of the terms and conditions under which premium payments must be made.

AMPS may recover the health benefit costs paid on behalf of an employee during their FMLA/CFRA leave if:

1. The employee fails to return from leave after the period of leave to which the employee is entitled has expired. An employee is deemed to have "failed to return from leave" if they works less than thirty (30) days after returning from FMLA/CFRA leave; and
2. The employee's failure to return from leave is for a reason other than the continuation, recurrence, or onset of a serious health condition that entitles the employee to FMLA/CFRA leave, or other circumstances beyond the control of the employee.

In circumstances where an employee is eligible for FMLA/CFRA leave but declines to have the leave designated as such, AMPS will not continue to pay the employer's portion of health insurance premiums during the period of leave, subject to the terms and conditions of the applicable health plan(s). In such cases, the employee may elect to continue health coverage at their own expense through COBRA, if eligible, in accordance with federal and state COBRA laws.

*Seniority*

An employee on FMLA/CFRA leave remains an employee and the leave will not constitute a break in service. An employee who returns from FMLA/CFRA leave will return with the same seniority they had when the leave commenced.

*Medical Certifications*

An employee requesting FMLA/CFRA leave because of their own or a qualifying family member's serious health condition must provide medical certification from the appropriate health care provider on a form supplied by AMPS. Absent extenuating circumstances, failure to provide the required certification in a timely manner (within fifteen [15] days of the School's request for certification) may result in delay or denial of the leave request until such certification is provided.

AMPS will notify the employee in writing if the certification is incomplete or insufficient, and will advise the employee what additional information is necessary in order to make the certification complete and sufficient. AMPS may contact the employee's health care provider to authenticate a certification as needed.

If the School has reason to doubt the medical certification supporting a leave because of the employee's own serious health condition, the School may request a second opinion by a health care provider of its choice (paid for by the School). If the second opinion differs from the first one, the School will pay for a third, mutually agreeable, health care provider to provide a final and binding opinion.

Recertifications are required if leave is sought after expiration of the time estimated by the health care

provider. Failure to submit required recertifications can result in termination of the leave.

*Procedures for Requesting and Scheduling FMLA/CFRA Leave*

An employee should request FMLA/CFRA leave by completing a Request for Leave form and submitting it to Human Resources at hrsupport@amethodschools.org. An employee asking for a Request for Leave form will be given a copy of the School's then-current FMLA/CFRA leave policy.

Employees should provide not less than thirty (30) days' notice for foreseeable childbirth, placement, or any planned medical treatment for the employee or their qualifying family member. Failure to provide such notice may be grounds for denial of a leave request, except if the need for FMLA/CFRA leave was an emergency or was otherwise unforeseeable.

Where possible, employees must make a reasonable effort to schedule foreseeable planned medical treatments so as not to unduly disrupt the School's operations.

If FMLA/CFRA leave is taken because of the employee's own serious health condition or the serious health condition of the employee's qualifying family member, the leave may be taken intermittently or on a reduced leave schedule when medically necessary, as determined by the health care provider of the person with the serious health condition.

If FMLA/CFRA leave is taken because of the birth of the employee's child or the placement of a child with the employee for adoption or foster care, the minimum duration of leave is two (2) weeks, except that the School will grant a request for FMLA/CFRA leave for this purpose of at least one day but less than two (2) weeks' duration on any two (2) occasions.

If an employee needs intermittent leave or leave on a reduced leave schedule that is foreseeable based on planned medical treatment for the employee or a family member, the employee may be transferred temporarily to an available alternative position for which they are qualified that has equivalent pay and benefits and that better accommodates recurring periods of leave than the employee's regular position.

The School will respond to an FMLA/CFRA leave request no later than five (5) business days of receiving the request. If an FMLA/CFRA leave request is granted, the School will notify the employee in writing that the leave will be counted against the employee's FMLA/CFRA leave entitlement. This notice will explain the employee's obligations and the consequences of failing to satisfy them.

*Return to Work*

Upon timely return at the expiration of the FMLA/CFRA leave period, an employee is entitled to the same or a comparable position with the same or similar duties and virtually identical pay, benefits, and other terms and conditions of employment unless the same position and any comparable position(s) have ceased to exist because of legitimate business reasons unrelated to the employee's FMLA/CFRA leave. In certain circumstances under FMLA leave only, "key" employees may not be eligible for reinstatement following a family and medical leave. AMPS will provide written notice to any "key" employee who is not eligible for reinstatement.

When a request for FMLA/CFRA leave is granted to an employee, the School will give the employee a written guarantee of reinstatement at the termination of the leave (with the limitations explained above).

Before an employee will be permitted to return from FMLA/CFRA leave taken because of their own serious health condition, the employee must obtain a certification from their health care provider that they are able to resume work.

If an employee can return to work with limitations, the School will evaluate those limitations and, if possible, will accommodate the employee as required by law. If accommodation cannot be made, the employee bay be separated from the School, to the extent permitted by law.

If an employee does not return to work on the first workday following the expiration of an approved FMLA/CFRA leave, they will generally be deemed to have resigned from employment.

*Employment during Leave*

No employee, including employees on FMLA/CFRA leave, may accept employment with any other employer without the School's written permission. An employee who accepts such employment without the School's written permission will be deemed to have resigned from employment at the School.

***H. Pregnancy Disability Leave***

Any employee who is disabled by pregnancy, childbirth, or a related medical condition is eligible for a Pregnancy Disability Leave of Absence. There is no length of service requirement.

For purposes of this policy, you are disabled when, in the opinion of your healthcare provider, you cannot work at all or are unable to perform any one or more of the essential functions of your job or to perform them without undue risk to yourself, the successful completion of your pregnancy, or to other persons as determined by a healthcare provider. This term also applies to certain pregnancy-related conditions, such as severe morning sickness or if you need to take time off for prenatal or postnatal care, bed rest, postpartum depression, and the loss or end of pregnancy (among other pregnancy-related conditions that are considered to be disabling).

*Reasonable Accommodation for Pregnancy-Related Disabilities*

Any employee who is affected by pregnancy may also be eligible for a temporary transfer or another accommodation. There is no length of service requirement. If you are pregnant or have a related medical condition, and because of pregnancy, and your health care provider has certified that it is medically advisable for you to temporarily transfer or to receive some other accommodation, AMPS will provide a temporary transfer to a less strenuous or hazardous position or duties or other accommodation to an employee affected by pregnancy if:

1. She requests a transfer or other accommodation; and
2. The request is based upon the certification of her health care provider as "medically advisable"; and
3. The transfer or other requested accommodation can be reasonably accommodated pursuant to applicable law.

This alternative position will have equivalent rate of pay and benefits and must better accommodate recurring periods of leave than the employee's regular job.

As part of this accommodation process, no additional position will be created and AMPS will not discharge another employee, transfer another employee with more seniority, or promote or transfer any employee who is not qualified to perform the new job.

*Advance Notice and Medical Certification*

To be approved for a pregnancy disability leave of absence, a temporary transfer or other reasonable accommodation, you must:

1. Provide 30 days' advance notice before the leave of absence, transfer or reasonable accommodation is to begin, if the need is foreseeable;
2. Provide as much notice as is practicable before the leave, transfer or reasonable accommodation when 30 days' notice is not foreseeable; and
3. Provide a signed medical certification from your healthcare provider that states that you are disabled due to pregnancy or that it is medically advisable for you to be temporarily transferred or to receive some other requested accommodation.
4. AMPS may require you to provide a new certification if you request an extension of time for your leave, transfer or other requested accommodation.

*Duration*

AMPS will provide you with a Pregnancy Disability Leave of Absence for the duration of your pregnancy-related disability for up to four (4) months (or 17 1/3 weeks or 693 hours) per pregnancy. This leave may be taken intermittently or on a continuous basis, as certified by your healthcare provider. The four months of leave available to an employee due to her pregnancy related disability is defined as the number of days (and hours) the employee would normally work within four calendar months or 17.33 workweeks.

Any temporary transfer or other reasonable accommodation provided to an employee affected by pregnancy will not reduce the amount of Pregnancy Disability Leave time the employee has available to her unless the temporary transfer or other reasonable accommodation involves a reduced work schedule or intermittent absences from work.

At the end or depletion of an employee's pregnancy disability leave, an employee who has a physical or mental disability (which may or may not be due to pregnancy, childbirth, or related medical conditions) may be entitled to reasonable accommodation. Entitlement to additional leave must be determined on a case-by case basis, taking into account a number of considerations such as whether an extended leave is likely to be effective in allowing the employee to return to work at the end of the leave, with or without further reasonable accommodation, and whether or not additional leave would create an undue hardship for the School. The School is not required to provide an indefinite leave of absence as a reasonable accommodation.

*Reinstatement*

If you and AMPS have agreed upon a definite date of return from your leave of absence or transfer, you will be reinstated on that date if you notify AMPS that you are able to return on that date. If the length of the leave of absence or transfer has not been established, or if it differs from the original agreement, you will be returned to work within two (2) business days, where feasible, after you notify AMPS of your readiness to return.

Before you will be allowed to return to work in your regular job following a leave of absence or transfer, you must provide Human Resources with a certification from your healthcare provider that you can perform safely all of the essential duties of your position, with or without reasonable accommodation. If you do not provide such a release prior to or upon reporting for work, you will be sent home until a release is provided. Any time you are not allowed to work due to not having provided the required release will be unpaid.

You will be returned to the same or a comparable position upon the conclusion of your leave of absence or transfer. If the same position is not available on your scheduled return date, AMPS will provide you with a comparable position on your scheduled return date or within 60 calendar days of that return date. However, you will not be entitled to any greater right to reinstatement than if you had not taken the leave. For example, you would have been laid off regardless of the leave, or you would not have been offered a comparable position, then the employee will not be entitled to reinstatement.

When a request for pregnancy disability leave is granted to an employee, the School will give the employee a written guarantee of reinstatement at the end of the leave (with the limitations explained above). If the employee can return with limitations, the School will evaluate those limitations, and if possible, will accommodate the employee as required by law. If the accommodation cannot be made, the employee will be medically separated from the School.

Failure to return to work at the conclusion of the leave of absence may result in termination of employment, unless you are taking additional leave provided by law or AMPS policy or AMPS has otherwise approved you to take additional time off.

*Pay During Leave and Integration with Other Benefits*

Pregnancy Disability Leaves of Absence and accommodations that require you to work a reduced work schedule or to take time off from work intermittently are unpaid. You may elect to use accrued sick leave and/or accrued vacation benefits during the unpaid leave of absence, to the extent permitted by law. However, use of paid time off will not extend the available leave of absence time. Vacation and sick leave hours will not accrue during any unpaid portion of the leave of absence, and you will not receive pay for official holidays that are observed during your leave of absence except during those periods when you are substituting vacation or sick leave for unpaid leave.

Employees may apply for California State Disability insurance ("SDI") benefits. SDI forms are available from AMPS or your healthcare provider. Any SDI for which you are eligible will be integrated with accrued vacation, sick leave, or other paid time off benefits so that you do not receive more than 100% of your regular pay.

*Health Benefits*

AMPS will maintain an employee's health insurance benefits during an employee's Pregnancy Disability Leave for a period of up to four months, as defined above, on the same terms as they were provided prior to the leave time. You must continue to pay your share of applicable premiums (for yourself and any dependents) during the leave If you take additional time off following a Pregnancy Disability Leave that qualifies as California Family Rights Act ("CFRA") leave, AMPS will continue your health insurance benefits for up to a maximum of 12 work weeks in a 12-month period.

**EXAMPLE:** You take 17.33 workweeks off due to a pregnancy disability. Assuming you are eligible for FMLA and CFRA leave, your Pregnancy Disability Leave will also be concurrently covered by FMLA and your group health insurance coverage would continue for the entire 17.33 workweek period. If, after your pregnancy disability leave and FMLA Leave, has been completed, you wish to take 12 additional weeks off from work to bond with a new baby under CFRA, the School will continue your health insurance benefits for the 12 workweek period.

AMPS may recover premiums that it already paid on behalf of an employee if both of the following conditions are met:

1. The employee fails to return from leave after the designated leave period expires.
2. The employee's failure to return from leave is for a reason other than the following:
    a. The employee is taking a leave of absence under the CFRA.
    b. There is a continuation, reoccurrence, or onset of a health condition that entitles the employee to pregnancy disability leave.
    c. There is a non-pregnancy related medical condition requiring further leave.
    d. Any other circumstances beyond the control of the employee.

*Seniority*

An employee on pregnancy disability leave remains an employee of the School and a leave will not constitute a break in service. When an employee returns from pregnancy disability leave, she will return with the same seniority she had when the leave commenced.

### *I. Military and Military Spousal Leave of Absence*

Both state and federal law provide employees with the right to take leave in order to serve in the military. At the federal level, military leave rights are governed by the Uniformed Services Employment and Reemployment Rights Act, commonly referred to as USERRA. This policy discusses military leave under USERRA. Further, if you are a spouse or registered domestic partner of a member of the military, you may be entitled to an unpaid leave during a period of military conflict. For information on military leave, contact Human Resources.

*Eligibility for Military Leave*

AMPS provides unpaid military leaves of absence to employees who serve in the uniformed services as required by USERRA and applicable state laws. The uniformed services include the Army, Navy, Marine Corps, Air Force, Coast Guard, Army National Guard, Air National Guard, Commissioned Corps of the Public Health Service and any other category of persons designated by the President of the United States in time of war or emergency.

Service consists of the performance of any of the following on a voluntary or involuntary basis: active duty, active duty for training, initial active duty, inactive duty training, full-time National Guard duty and absence from work for an examination to determine fitness for such duty. Total military leave time may not exceed five years during employment, except in special circumstances.

*Notice of Military Leave*

When an employee receives orders for any active military duty (including any call to active duty), the employee must advise their manager or Human Resources immediately of the pending absence, unless military necessity requires otherwise or if providing notification would be impossible or unreasonable. In such an event, the employee must advise their manager or Human Resources of the need for military leave as soon as possible after becoming aware of the need for the leave.

Accrued vacation time will be paid during military leave at your request. Employees on military leave may elect to continue their health plan coverage at their own expense for up to 24 months or during the period of service, whichever is shorter.

*Reinstatement from Military Leave*

AMPS will reinstate employees returning from military leave to their same position or one of comparable seniority, status, and pay if they have a certificate of satisfactory completion of service and apply within the timelines noted below, as required by law. For those employees serving less than 180 days in the National Guard, if they left a full-time position, the employee must apply for reemployment within forty (40) days of being released from active duty, and if they left part-time employment, the employee must apply for reemployment within five (5) days of being released from active duty

An employee who was absent from work while fulfilling their covered service obligation under the USERRA or California law shall be credited, upon their return to the School, with the hours of service that would have been performed but for the period of absence from work due to or necessitated by USERRA-

covered service. Exceptions to this policy will occur wherever necessary to comply with applicable laws.

Employees who are absent from work 30 days or less or who are absent to take a fitness exam must report to work at the beginning of the first regularly scheduled work day falling 8 hours or more after the employee returns home. If the employee serves 31 to 180 days, they must apply for reemployment within 14 days after completing service. If the employee has served 181 days or more, they must apply for reemployment within 90 days after completing service.

As with other leaves of absence, failure to return to work or to reapply within applicable time limits may result in loss of reemployment rights. Temporary employees who were hired into a temporary position that had no reasonable expectation of continuing indefinitely may not be eligible for reinstatement following military leave and reinstatement may not be required for other employees in some circumstances. Full details regarding reinstatement are available from Human Resources.

In general, an employee returning from military leave will be reemployed in the position and seniority level that the employee would have attained had there been no military leave of absence. If necessary, AMPS will provide training to assist the employee in the transition back to the workforce.

An employee returning from military leave is entitled to any unused, accrued vacation benefits the employee had at the time the military leave began. Upon reinstatement, the employee will accrue vacation benefits at the rate they would have attained if no military leave had been taken. Time spent on military leave counts for purposes of determining “length of service.” However, employees will not accrue vacation or sick leave or receive holiday pay during military leave. USERRA supersedes state laws that limit or condition its rights or benefits; however, it does not displace state laws that provide greater rights. Please contact Human Resources for further details.

Employees in California who serve in the military are entitled to the rights and protections set forth in the California Military and Veteran's Code. Among other things, the Code prohibits discrimination against members of the military or naval services of the state or the United States, and grants members of the National Guard or U.S. Reserve a temporary leave of absence while engaged in military duty ordered for purposes of military training, drills, encampment, naval cruises, and special exercises or like activities. This leave is not to exceed 17 calendar days annually.

*Family Military Leave California*

Employees who work more than twenty (20) hours per week and who are the spouses/registered domestic partners of certain military personnel may receive up to ten (10) days of unpaid leave during a qualified leave period. For purposes of this policy, a "qualified leave period" means the period during which the individual is on leave from deployment during a period of military conflict. An employee is eligible for leave under this policy if he or she:

1. Is the spouse/ registered domestic partner of a person who: (a) is a member of the Armed Forces of the United States who has been deployed during a period of military conflict to an area designated as a combat theater or combat zone by the President of the United States, or (b) is a member of the National Guard or of the Reserves who has been deployed during a period of military conflict;
2. Provides notice of their intention to take leave within two business days of receiving notice that their spouse will be on leave from deployment; and
3. Submits written documentation certifying that their spouse will be on leave from deployment during the time the leave is requested.
4. Military conflict means either a period of war declared by the United States Congress, or a period of deployment for which a member of a reserve component is ordered to active duty either by the Governor or the President of the United States.

5. Leave taken under this policy will not affect an employee's right to any other benefits. AMPS will not discriminate against, or tolerate discrimination against, any employee who requests and/or takes leave under this policy. For more information, please contact your supervisor or the Human Resources Department.

Non-exempt employees must use accrued vacation time in order to receive compensation for this time off. If no vacation time is available, the employee may take this time off without pay. An exempt employee is required to charge any absence of four or more hours under this policy to their vacation bank, if any. Exempt employees will receive their regular pay only if required by applicable law. Employees who need time off to participate in a qualifying event resulting from a family member's deployment to a foreign country may be eligible for Paid Family Leave benefits.

***J. Jury Duty/Witness Duty***

All employees who receive a notice of jury/witness duty must notify their supervisor as soon as possible so that arrangements may be made to cover the absence. In addition, employees must provide a copy of the official jury/witness duty notice to their supervisor. Employees must report for work whenever the court schedule permits. Either AMPS or the employee may request an excuse from jury/witness duty if, in AMPS' judgment, the employee's absence would create serious operational difficulties.

Non-exempt employees who are called for jury/witness duty will be provided time off without pay. Exempt employees will receive their regular salary unless they do not work any hours during the course of a workweek. Employees may elect to use any accrued vacation during jury/witness duty leave.

In the event that the employee must serve as a witness within the course and scope of their employment with AMPS, AMPS will provide time off with pay.

***K. Time-Off for Voting***

AMPS encourages its employees to fulfill their civic responsibilities by participating in elections. Because polls are open from 7:00 a.m. until 8:00 p.m., employees generally are able to find time to vote either before or after their regular work schedule. If employees are unable to vote in an election during their non-working hours and have not requested an absentee ballot, then AMPS will grant up to two hours of paid time off to vote.

Employees must request time off to vote from their supervisor at least two (2) working days prior to the election day. Advance notice is required so that the necessary time off can be scheduled at the beginning or end of the work shift, whichever provides the least disruption to the normal work schedule.

Employees must submit a voter's receipt on the first working day following the election to qualify for paid time off.

Nothing in this policy requires the employee to bring their mail (absentee) ballot to work, including mailing such absentee ballot from work.

***L. Emergency Duty/Training Leave***

In California, no employee shall receive discipline for taking time off to perform emergency duty/training as a volunteer firefighter, reserve peace officer, or emergency rescue personnel. If you are participating in this kind of emergency duty/training, please alert your supervisor so that they may be aware of the fact that you may have to take unpaid time off for emergency duty/training. In the event that you need to take time off for emergency duty/training, please alert your supervisor before doing so whenever possible.

Time off for emergency training may not exceed 14 days per calendar year.

Emergency Duty/Training Leave is unpaid. You may choose to use your accrued vacation if you wish to receive compensation for this time off, but you are not required to do so.

If you feel you have been treated unfairly as a result of taking or requesting Emergency Duty/Training Leave, you should contact your supervisor or any other manager, as appropriate.

***M. Suspended Pupil/Child Leave***

California law requires employers to provide time off for parents required to visit a child's school when the child has served a period of suspension from school. To be eligible for time off to attend a child's school, the employee must be the parent of a child in kindergarten or in grades 1-12 and must present a letter, which requests the employee's appearance at their child's school, to their supervisor at least two days before the requested time off. Employees may use accrued vacation while attending a child's school under these circumstances. If not, suspended pupil/child leave will be unpaid.

***N. Leave for Crime Victims and Their Family Members***

If you are the victim—or an immediate family member (i.e., spouse, registered domestic partner, child, step-child, sibling, step-sibling, parent, step-parent, or the child of a registered domestic partner) of the victim—of a violent felony, serious felony (as defined by the California Penal Code), or felonies related to theft or embezzlement, or , you are permitted to be absent from work to attend judicial proceedings related to the crime.

You must provide your supervisor with written notification for each scheduled proceeding, unless advance notice is not possible. This time off is unpaid. You may choose to use your accrued vacation, but this is not required

***O. Leave for Victims of Qualifying Acts of Violence***

*Right to Time Off*

If you are the victim of a Qualifying Act of Violence, you are permitted to be absent from work to seek relief related to the QAV.

A QAV is defined as: domestic violence, sexual assault, stalking, or any act, conduct, or pattern of conduct that includes (i) bodily injury or death to another; (ii) brandishing, exhibiting, or drawing a firearm or other dangerous weapon; or (iii) a perceived or actual threat to use force against another to cause physical injury or death.

You will not be retaliated or discriminated against for participating in the legal process. Specifically, you will not be discriminated against in any manner for any of the following:

- taking time off to serve as required by law on an inquest jury or trial jury, so long as the employee gives reasonable advance notice to the employer;
- taking time off to appear in court to comply with a subpoena or other court order as a witness in any judicial proceeding; or
- taking time off to obtain or attempt to obtain a restraining order or other injunctive relief, to help ensure the health, safety, or welfare of the employee or their child where the employee is a victim of a QAV.

You will also not be discriminated or retaliated against because of your, or your family member's, status

as a victim of a QAV. "Family member" is defined to include: a child, parent, grandparent, grandchild, sibling, spouse, or domestic partner (as those terms are defined under the CFRA); or a designated person, who does not need to be a blood relative, so long as their association with the employee is the equivalent of a family relationship. An employee may identify a "designated person" at the time they request leave, but the employer may limit an employee to one designated person per 12-month period.

If you are (or have a family member who is) a victim of a QAV, you may take time off from work for any of the following purposes related to that QAV:

- obtaining or attempting to obtain relief, such as a restraining order or other injunctive relief;
- seeking or obtaining medical attention for or to recover from injuries;
- seeking or obtaining services from a domestic violence shelter or similar victim services organization;
- seeking or obtaining psychological counseling or other mental health services;
- participating in safety planning;
- relocating or engaging in the process of securing a new residence, including temporary or permanent housing or enrolling children in a new school;
- providing care to a family member who is recovering from injuries;
- seeking or obtaining civil or criminal legal services;
- preparing for, participating in, or attending any civil, administrative, or criminal legal proceeding; or
- seeking, obtaining, or providing childcare or care to a care-dependent adult if necessary to ensure the safety of the child or dependent adult.

.
You are permitted to take leave for these purposes whether or not any person is arrested for, prosecuted for, or convicted of committing the crime.

There is a limit on total leave time taken under this policy. If the employee is the victim of the QAV, the total leave time is limited to 12 weeks. If the employee's family member is the victim of the QAV, the leave time taken to assist in relocation purposes is limited to 5 days and the total leave is limited to 10 days. However, the total leave time taken will not be fewer than 12 weeks if the victim is deceased as result of the QAV. This leave runs concurrently with any leave under the CFRA and the FMLA and does not provide an employee with a right to leave that exceeds that provided under the FMLA. Employees may use available vacation (if applicable) or accrued PSL. Otherwise, the time off is unpaid.

In general, employees are not required to provide documentation for time off under this policy. However, employees shall provide reasonable advance notice of their intent to take time off, unless advance notice is not feasible. If employees are unable to provide advance notice for time off under this policy, they can provide certification of their absence (such as a police report, court order, or health care provider certification, or other documentation that reasonably verifies that the crime or abuse occurred and your absence was for an authorized purpose) within a reasonable time period thereafter. If employees provide reasonable advance notice or provide documentation within a reasonable time period thereafter for an unscheduled absence, they will not be subject to any disciplinary action for time off under this policy.

*Right to Reasonable Accommodation for Victims of a QAV*

The School will provide reasonable accommodations to any employee who is (or who has a family member who is) a victim of a QAV unless it would pose an undue hardship. Employees have the right to ask the School for help or changes in their workplace to make sure they are safe at work. The School shall engage in a timely, good faith, and interactive process with the employee to determine effective reasonable accommodations. In determining whether the accommodation is reasonable, the employer shall consider an exigent circumstance or danger facing the employee or their family member.

The School will work with its employees to see what changes can be made. Changes in the workplace may include, but are not limited to, putting in locks, changing shifts or phone numbers, transferring or reassigning the employee, or help with keeping a record of what happened to the employee. The School may ask the affected employee for a signed statement certifying that this request is for a proper purpose and may also request proof showing the need for an accommodation. The School will maintain confidentiality regarding any requests for accommodations under this policy.

*Prohibition on Retaliation and Discrimination*

The School is committed to ensuring employees are not treated differently or retaliated against because of any of the following:

- The employee is a victim, or has a family member who is a victim of a QAV.
- The employee asked for time off to get help.
- The employee asked the School for help or changes in the workplace to ensure safety at work.

*Right to File a Complaint*

If any employee believes that they have experienced retaliation or discrimination as a result of conduct protected by this policy, the employee may file a complaint with their supervisor and/or the Labor Commissioner's Office.

For more information, contact the Labor Commissioner's Office by phone at 213-897-6595 or visit a local office by finding the nearest one on its website: www.dir.ca.gov/dlse/DistrictOffices.htm. The Labor Commissioner's Office provides an interpreter at no cost to the employee, if needed.

***P. School Appearance and Activities Leave***

If you are the parent or guardian of a child who is in school up to grade 12, or who attends a licensed day care facility, you may take up to 40 hours of unpaid leave per year to participate in activities of a child's school or child care. You may take no more than eight (8) hours off for this purpose in any one calendar month. Unless it is to address an emergency, you should schedule this time off with your supervisor in advance. You may be asked to provide documentation from the school or day care facility to confirm your attendance at its facility for reasons covered under this policy on the specific date and time that you took the leave. This time off is unpaid. You may choose to use your accrued vacation, but this is not required.

If both parents or guardians of a child work for AMPS, only one parent – the first to provide notice – may take the time off, unless AMPS approves both parents taking time off simultaneously.

***Q. Adult Literacy Leave***

AMPS will make good faith efforts to provide reasonable accommodations for any employee who reveals a literacy problem and requests that AMPS assist them in enrolling in an adult literacy program, unless it would create an undue hardship for AMPS.

AMPS will also assist employees who wish to seek literacy education training by providing employees with the location of local literacy programs.

AMPS will take reasonable steps to safeguard the privacy of any employee who identifies themself as an individual with a literacy problem. The employee can contact Human Resources.

While AMPS encourages employees to improve their literacy skills, AMPS will not reimburse employees

for the costs incurred in attending a literacy program. AMPS also does not provide paid time off for participation in an adult literacy education. However, employees may utilize accrued vacation if they want compensation for this time off. If they do not have accrued vacation available, they will be permitted to take the time off without pay.

***R. Alcohol and Drug Rehabilitation Leave***

AMPS encourages employees with drug or alcohol abuse problems to seek needed counseling and treatment. Employees who are unable to find assistance may contact Human Resources to receive information about finding help. Any communications initiated by an employee and not as a result of a violation of this policy will be treated as confidentially as is possible.

AMPS will make good faith efforts to reasonably accommodate any employee who wishes to voluntarily enter and participate in an alcohol or drug rehabilitation program, provided that this reasonable accommodation will not impose an undue hardship for AMPS. Any such leave shall be unpaid except that, to the extent that employees have accrued vacation they must use it. You also may use accrued paid sick leave for the purpose of entering and participating in an alcohol or drug rehabilitation program. If you do not have accrued paid sick leave or vacation available, you will be permitted to take the time off without pay. Sick or vacation will not accrue while an employee is on Rehabilitation leave, nor will the employee receive holiday pay.

Requesting assistance for substance abuse does not relieve the employee of their responsibility to meet performance, safety and attendance expectations. Rehabilitation expenses will be paid by the employee unless coverage is provided under a health insurance policy.

***S. Civil Air Patrol Leave***

Pursuant to California law, AMPS will provide unpaid leave to employees who are volunteer members of the California Wing of the Civil Air Patrol and who have been duly directed and authorized to respond to an emergency operational mission of the California Wing of the Civil Air Patrol. Employees must be employed for at least 90 days immediately preceding the commencement of leave in order to be eligible.

Employees are required to give AMPS as much notice as possible of the intended dates upon which the leave would begin and end. AMPS will restore the employee to the position they held when the leave began or to a position with equivalent seniority status, employee benefits, pay, and other terms and conditions of employment, unless the employee is not restored because of conditions unrelated to the exercise of the leave rights by the employee. The time off is unpaid. However, an employee may utilize accrued vacation.

***T. Leave for Bone Marrow and Organ Donors***

Pursuant to California law, AMPS will provide up to five (5) business days of paid leave within a one- year period to an employee who donates bone marrow to another person. In addition, AMPS will provide up to 30 business days of paid leave within a one-year period and up to another 30 business days of *unpaid* leave within a one-year period to an employee who donates an organ to another person. The one-year period is measured from the date the employee's leave begins and shall consist of 12 consecutive months.

To qualify for this leave, an employee must have been employed for at least 90 days prior to the commencement of the leave and must provide AMPS with written verification of their status as an organ or bone marrow donor and the medical necessity for the donation. During such leave, AMPS will continue coverage under its group medical insurance plan, if applicable. However, employees must continue to pay their portion of the applicable premiums. Employees should give AMPS as much notice as possible

of the intended dates upon which the leave would begin and end.

Employees returning from Donor Leave will be reinstated to the position held before the leave began, or to a position with equivalent status, benefits, pay and other terms and conditions of employment. AMPS may refuse to reinstate an employee if the reason is unrelated to taking a Donor Leave. A Donor Leave is not permitted to be taken concurrently with an FMLA/CFRA Leave.

AMPS requires that bone marrow donors use up to five days of available accrued paid sick leave or vacation during the course of the leave. Organ donors must use up to ten days of available accrued PSL or vacation time during the course of the leave.

***U. Bereavement Leave***

All employees who have worked for the School for at least thirty (30) days shall be eligible to take up to five (5) days of bereavement leave due to the death of a covered family member (spouse, child, parent, parent-in-law sibling, grandparent, grandchild, domestic partner, or parent-in-law). Child" means a biological, adopted, or foster child, a stepchild, a legal ward, a child of a domestic partner, or a person to whom the employee stands in loco parentis. "Parent" means a biological, foster, or adoptive parent, a parent-in-law, a stepparent, a legal guardian, or other person who stood in loco parentis to the employee when the employee was a child. "Sibling" means a person related to another person by blood, adoption, or affinity through a common legal or biological parent. "Grandchild" means a child of the employee's child. "Grandparent" means a parent of the employee's parent.

Full-time employees are entitled to up to three (3) days of pay during bereavement leave, with the remaining two( 2) days unpaid. For all other employees, bereavement leave shall be unpaid unless an employee elects to use available accrued/unused paid leave such as vacation or paid sick leave. Bereavement leave must be utilized within three (3) months of the covered family member's date of death, but need not be consecutive. Bereavement pay will not be used in computing overtime pay. Any scheduled days off (including weekends, holidays and vacations) falling during the absence will be counted as both bereavement leave and scheduled days off. Upon request, an employee may be required to provide documentation of the death of a covered family member.

## INSURANCE BENEFITS

### *A. Health Benefits*

AMPS offers a comprehensive health insurance plan for eligible employees.

Regular full-time and part-time employees, who work on average at least thirty (30) hours per workweek, are eligible for health insurance on the first day of the month following their hire date in the following manners:

1. Employees that work less than an average of 30 hours per workweek are not eligible for any Health Benefits.
2. Full-time employees that work an average of 30 hours or more per workweek will receive 100% health benefits coverage and AMPS will pay premiums up to a designated amount.

AMPS pays the premium for eligible employees up to a designated amount. Any remaining costs associated with the Employee's plan shall be paid by the employee as a pre-tax payroll deduction. Employees will be notified of their contribution amount, should there be one, at the time they sign up for the specific benefit. Eligible employees are responsible for their portion of the monthly premium costs for their dependents' coverage.

Subject to applicable law, there is no guarantee that AMPS will continue to maintain a medical insurance plan or that the terms and conditions of any such plan will not be changed at any time. Further, in order to continue participation in any such plan, employees may be required to pay a part of the premium.

*When Coverage Starts*

Your coverage will begin on the first day of the calendar month following the employee's first day of employment. Your online enrollment must be submitted to the Human Resources Department as soon as possible. This enrollment serves as a request for coverage, and authorizes any payroll deductions necessary to pay for your coverage. By delaying the submission of the health benefits enrollment package, an employee's enrollment and health coverage may result in lack of coverage until the designated open enrollment period.

*Flexible Spending Plans*

AMPS provides, at no cost to employees, a Flexible Spending Plan which allows employees to pay for monthly health premiums, and commuter benefits with pre-tax dollars. This means your health premiums are subtracted from your gross pay before federal, state and social security (FICA) taxes are applied. The Flexible Spending Plan Document is in all cases controlling and supersedes any inconsistent terms in this manual. From time to time, we may also offer employees' access to a Medical Reimbursement and Dependent Care option within this program that is funded 100% by the employee. These options, if available, will be explained to you during open enrollment once established.

*Stipend*

Employees who are covered under a spouse's health plan, and not AMPS' plan, may qualify to be paid a predetermined monthly stipend. The rate at which the stipend is calculated is subject to annual change based on the annual health insurance rates. Please talk with the Human Resources Department if you believe you qualify.

*COBRA*

If for some reason your coverage under AMPS' health insurance ends, you and your dependents may be eligible to continue coverage for a specified term under COBRA. In this event, AMPS will provide additional information on COBRA coverage.

***B. Industrial Injury Leave (Workers' Compensation Insurance)***

AMPS, in accordance with State law, provides insurance coverage for employees in case of work-related injuries. The workers' compensation benefits provided to injured employees may include:

1. Medical care;
2. Cash benefits, tax-free to replace lost wages; and
3. Vocational rehabilitation to help qualified injured employees return to suitable employment.

To ensure employees receive any worker's compensation benefits to which they may be entitled, employees will need to:

1. Immediately report any work-related injury to the Human Resources Department at hrsupport@amethodschools.org
2. Seek medical treatment and follow-up care if required;
3. Complete a written Employee's Claim Form (DWC Form 1) and return it to the Human Resources Department at hrsupport@amethodschools.org
4. Provide the School with a certification from a health care provider regarding the need for workers' compensation disability leave as well as the employee's eventual ability to return to work from the leave.

It is the School's policy that when there is a job-related injury, the first priority is to ensure that the injured employee receives appropriate medical attention. AMPS, with the help of its insurance carrier, has selected medical centers to meet this need. Each medical center was selected for its ability to meet anticipated needs with high quality medical service and a location that is convenient to its operations.
If an employee is injured on the job, they are to go or be taken to the approved medical center for treatment. If injuries are such that they require the use of emergency medical systems ("EMS") such as an ambulance, the choice by the EMS personnel for the most appropriate medical center or hospital for treatment will be recognized as an approved center.

All accidents and injuries must be reported to the Human Resources Department hrsupport@amethodschools.org and to the individual responsible for reporting to AMPS's insurance carrier. Failure by an employee to report a work-related injury by the end of their shift could result in loss of insurance coverage for the employee. An employee may choose to be treated by their personal physician at their own expense, but they are still required to go to AMPS's approved medical center for evaluation. All job-related injuries must be reported to the appropriate State Workers' Compensation Bureau and the insurance carrier.

When there is a job-related injury that results in lost time, the employee must have a medical release from AMPS's approved medical facility before returning to work.

Any time there is a job-related injury, AMPS's policy requires drug/alcohol testing along with any medical treatment provided to the employee.

Leave as a result of a workers' compensation injury (paid or unpaid) will run concurrently with FMLA/CFRA leave, if applicable, or any other leave permitted by state and federal law.

***Disability Insurance (Wage Supplement)***

AMPS contributes to the State of California to provide you with State Disability Insurance ("SDI") pursuant to the California Unemployment Insurance Code. Contributions are made through a payroll deduction. SDI is payable when you cannot work because of illness or injury not caused by employment with the School or when you are entitled to temporary workers' compensation at a rate less than the daily disability benefit amount.

SDI is a wage supplement provided concurrently while an employee takes an eligible leave of absence under School policy and applicable law. The program will be administered in a manner consistent with California law. For more information regarding this program, you may contact the California Employment Development Department.

***Paid Family Leave (Wage Supplement)***

Under California law, eligible employees may participate in the Paid Family Leave ("PFL") program, which is part of the state's unemployment compensation disability insurance program. The PFL program provides up to eight weeks of partial wage replacement benefits to employees who take time off to care for a seriously ill or injured child, spouse, parent, registered domestic partner, siblings, grandparents, grandchildren, or parents-in-law or to bond with a new child (birth, foster care, adoption), or to participate in a qualifying event because of a family member's (i.e. a spouse, registered domestic partner, parent or child) military deployment to a foreign country. The PFL program does not provide job protection or reinstatement rights. It is a wage supplement provided concurrently while an employee takes an eligible leave of absence under School policy and applicable law.

The program will be administered in a manner consistent with California law. For more information regarding this program, you may contact the California Employment Development Department

***Unemployment Compensation***

AMPS contributes each year to the California Unemployment Insurance Fund on behalf of its employees. Under certain circumstances, you may be eligible for unemployment insurance benefits.

***Social Security***

Social Security is an important part of every employee's retirement benefit. AMPS pays a matching contribution to each employee's Social Security taxes.

## PERSONNEL EVALUATION AND RECORD KEEPING

### *A. Performance Evaluations*

AMPS strives to conduct formal performance reviews for all of its employees. Teacher and Site Directors will generally be formally reviewed once each school year. However, informal observations will be conducted throughout the year. The frequency of performance evaluations may vary depending upon length of service, job position, past performance, changes in job duties, performance problems or operational requirements.

Performance reviews may cover factors such as job criteria, instructional practice, data reviews, critical duties and tasks of a job, attainment of goals, and adherence to the AMPS core values. The performance evaluations are intended to make you aware of your progress, areas for improvement and objectives or goals for future work performance. Favorable performance reviews do not guarantee increases in salary or promotions. Salary increases and promotions are solely within the discretion of AMPS and depend upon many factors in addition to performance, including availability of funds. After the review, you will be required to sign the evaluation report to acknowledge that it has been presented to you, that you have discussed it with your supervisor and that you are aware of its contents. You may add a rebuttal statement to your review within 10 days of your review that will be maintained in your personnel file.

Nothing in this policy shall limit the right to terminate employment at-will or limit AMPS' right to transfer, demote, suspend, administer discipline, and change the terms and conditions of employment at its sole discretion. Failure by AMPS to evaluate the employee will not prevent AMPS from transferring, demoting, disciplining, or terminating an employee. Employment is at the mutual consent of the employee and AMPS. Accordingly, either the employee or AMPS can terminate the employment relationship at-will, at any time, with or without reason and with or without notice

### *B. Personnel Files*

The information recorded in your personnel file is extremely important. It is your responsibility to make sure that the personal data in the file is accurate and up to date. Report any change of name ((whether by marriage or otherwise), email address, home address, and telephone number, whom to inform in case of an emergency, including names and home/cell and work telephone numbers and addresses, withholding tax information (your marital status and correct number of dependents), status of certifications/licenses/credentials, change of beneficiary on group life insurance, etc. to AMPS immediately.

Employees, former employees, or employee representatives may submit a request to inspect their personnel file in the presence of a representative of AMPS. All requests must be in writing. Current and former employees, or employee representatives, may also request inspection through the use of an AMPS-provided request form. Please contact Human Resources to schedule a convenient time. You may request copies from your file of all documents. AMPS may charge the requesting employee or employee representative for the actual cost of reproduction of personnel file documents. If you desire, you may add a written statement to your file explaining any disputed item.

Employees also may inspect their payroll records upon request, and may obtain a copy of these records at their own expense. AMPS will comply with all inspection requests as required by law.

Access to information in personnel files is restricted. Only authorized managers and management personnel will have access to your personnel file. However, AMPS will cooperate with-and provide access to your personnel file to-law enforcement officials or local, state or federal agencies in accordance with applicable law.

Health/medical records are not included in your personnel file. These records are confidential. AMPS will

safeguard them from disclosure and will divulge such information only: 1) as allowed by law; or 2) to the employee's personal physician upon written request or permission of the employee.

Credible complaints of substantiated investigations into or discipline for egregious misconduct will not be expunged from Human Resources files unless the complaint is heard by an arbitrator, administrative law judge, or the Board and the complaint is deemed to be false, not credible, unsubstantiated or a determination was made that discipline was not warranted.

## INTERNAL COMPLAINT REVIEW

The purpose of the “Internal Complaint Review Policy” is to afford all employees of AMPS the opportunity to seek internal resolution of their work-related concerns. All employees have free access to the CEO or Board of Directors to express their work-related concerns. Form Appendix B may be used for Internal Complaints.

Specific complaints of unlawful harassment, discrimination, and retaliation are addressed under the School’s “Policy Prohibiting Unlawful Harassment, Discrimination, and Retaliation.” Depending on the type of complaint, it may also be brought under Title IX or the Uniform Complaint Procedure.

### *A. General Requirements*

*Confidentiality*

All complainants will be notified that information obtained from the complainants and thereafter gathered will be maintained in a manner as confidential as possible, but in some circumstances absolute confidentiality cannot be assured.

*Non-Retaliation*

All complainants will be advised that they will be protected against retaliation as a result of the filing of any complaints or participation in any complaint process.

*Resolution*

The Board (if a complaint is about the CEO) or the CEO or designee will investigate complaints appropriately under the circumstances and pursuant to the applicable procedures, and if necessary, take appropriate remedial measures to ensure effective resolution of any complaint.

**AMENDMENT TO EMPLOYEE HANDBOOK**

This Employee Handbook contains the employment policies and practices of AMPS in effect at the time of publication.

AMPS reserves the right to amend, delete or otherwise modify this Handbook at any time provided that such modifications are in writing and duly approved by the employer.

**AMPS EMPLOYEE HANDBOOK ACKNOWLEDGMENT AND AT-WILL AGREEMENT**

ALL EMPLOYEES MUST READ THIS EMPLOYEE HANDBOOK AND FILL OUT AND RETURN THIS PORTION TO HUMAN RESOURCES WITHIN ONE WEEK OF RECEIPT.

I acknowledge that I have received and read a copy of the AMPS Employee Handbook. I understand that the Handbook set forth the terms and conditions of my employment with AMPS as well as the duties, responsibilities and obligations of employment with AMPS. I understand that AMPS has provided me various alternative channels [including anonymous and confidential channels,] to raise concerns of violations of this handbook and School policies and encourages me to do so promptly so that AMPS may effectively address such situations, and I understand that nothing herein interferes with any right to report concerns, make lawful disclosures, or communicate with any governmental authority regarding potential violations of laws or regulations. I agree to abide by and be bound by the rules, policies and standards set forth in the Employee Handbook.

Unless specified otherwise in an agreement between me and AMPS, I agree that AMPS and I both have the right to terminate my employment at any time, with or without notice, and with or without cause. I further understand that transfers, demotions, suspensions, employee discipline, and changes in the terms and conditions of employment may be administered at the sole and absolute discretion of AMPS. Unless specified otherwise in an agreement between me and AMPS, I understand that I am an at-will employee. I understand that the at-will nature of my employment may not be modified orally and may only be modified in a writing signed by the CEO of AMPS and me, and approved in writing by AMPS‘ Board of Directors.

I understand that nothing in the Handbook is intended, nor should be construed, as a limitation of my right and AMPS’ right to terminate the employment relationship at any time, with or without notice, and with or without cause, or AMPS’ absolute right to transfer, demote, suspend, administer discipline, and change the terms and conditions of employment at its sole discretion. I understand that nothing in the Handbook is intended, nor should be construed, to create an implied or express contract of employment contrary to this express at-will agreement or to AMPS’ absolute right to transfer, demote, suspend, administer discipline, and change the terms and conditions of employment at its sole discretion. I understand that AMPS reserves the right to depart from and modify the policies stated in the Handbook at its sole discretion, with the exception of my at-will status and AMPS’ absolute right to transfer, demote, suspend, administer discipline, and change the terms and conditions of employment. I also understand and acknowledge that nothing about the policies and procedures set forth in this Handbook should be construed to interfere with any employee rights provided under state or federal law, including Section 7 of the National Labor Relations Act. The foregoing constitutes the entire terms of the agreement between me and AMPS regarding the duration and at-will nature of my employment and AMPS’ absolute right to transfer, demote, suspend, administer discipline, and change the terms and conditions of employment at its sole discretion.

# Downtown Charter Academy 2027-2032

## Executive Summary

Amethod Public Schools ("AMPS"), a California nonprofit public benefit corporation with 501(c)(3) tax-exempt status, is proud to submit the Downtown Charter Academy ("DCA" or "Charter School") charter renewal petition to Oakland Unified School District ("OUSD" or "District"). Amethod Public School was founded in Oakland, CA in 1993 with the intent to create charter schools that produce academic results and reduce the achievement disparity that exists among the different student subgroups. For over three decades, Amethod Public Schools have been serving thousands of Bay Area families with effective programs that produce results.

It is the objective of DCA and organization to continue fostering a positive school environment and culture where being diligent and taking personal responsibility are the norm. DCA demonstrates that public schools can produce successful students if they are operated in small and organized settings. It is the organizational belief that any child has the opportunity to be successful if they receive the proper education they need to be triumphant in college, family, and life.

### CHARTER RENEWAL CRITERIA

The passage of Assembly Bill 1505, effective July 1, 2020, established the renewal criteria by which the chartering authority considers whether to grant a charter renewal. Pursuant to Education Code Section 47607(c)(2), a charter school that meets the criteria for the High Performing renewal category is eligible for a renewal term of five, six, or seven years. DCA meets the criteria to be considered a High Performing Charter School and is therefore eligible for renewal under Education Code Section 47607(c)(2).

DCA is requesting a five-year renewal term. Although DCA qualifies as a High Performing Charter School and may be eligible for a longer renewal term, the Charter School is intentionally requesting the default five-year renewal term as AMPS continues implementing its Operational Sustainability work across the organization. This request reflects both confidence and responsibility. DCA's academic results demonstrate that the Charter School is a successful, high-performing public middle school serving Oakland students well. At the same time, AMPS and DCA recognize the importance of aligning academic excellence with strong operations, sustainable systems, effective governance support, fiscal stability, compliance, enrollment planning, talent development, and long-term organizational capacity. A five-year renewal term allows DCA to continue serving students from a position of academic strength while AMPS deepens the organization-wide systems necessary to support durable, sustainable, and high-quality school operations.

Based on the quality of the educational program implemented at DCA, the demonstrated academic achievement of students, the Charter School's strong record of serving historically underserved students, and the comprehensive program

described in this petition, DCA is entitled to renewal and continued operation consistent with Education Code Sections 47605, 47607, and 47607.2.

During the current charter term, DCA has achieved the following successes:

**1. The Charter School has presented a sound educational program.**

DCA has a clearly defined mission to provide a rigorous college preparatory education and character development program that prepares students from underserved communities to succeed in high school, college, and life.

DCA serves students in grades 6 through 8 and provides a focused middle school environment designed to support academic growth, personal responsibility, character development, and readiness for high school.

DCA provides a structured, safe, and achievement-oriented school culture where students understand the importance of preparation, hard work, attendance, responsibility, and perseverance.

DCA's instructional program is aligned with California State Standards, including the Common Core State Standards, Next Generation Science Standards, History-Social Science Framework, English Language Development Standards, and other applicable State Standards.

DCA provides students with access to standards-aligned instructional materials and academic supports designed to help students master grade-level content and build the skills needed for long-term success.

DCA has demonstrated strong academic outcomes, including high levels of student achievement in English Language Arts and Mathematics.

DCA has earned state recognition for academic achievement, including the California Department of Education Gold Ribbon Award in 2017 and 2018, reflecting the Charter School's strong implementation of state standards and its success as a high-performing middle school in Oakland.

DCA was also named a 2021 California Distinguished School, a recognition reflecting the hard work of the Charter School's students, families, teachers, staff, and school community.

DCA provides academic support and enrichment opportunities that extend beyond the regular instructional program, including tutoring, homework support, after-school activities, clubs, athletics, visual arts, Mandarin Club, and other student engagement opportunities.

DCA benefits Oakland families and the broader community by providing a high-quality public middle school option focused on academic excellence, character development, family partnership, and preparation for high school and college.

**2. The Charter School is demonstrably likely to successfully implement the educational program.**

DCA has been in operation since 2014 and has developed a strong record of implementing a rigorous, structured, and student-centered middle school program.

DCA benefits from the support of AMPS, the Charter Management Organization for DCA, which provides organization-wide leadership, operational support, fiscal services, human resources, enrollment support, data systems, compliance support, communications, and other centralized services that strengthen the Charter School's implementation of its educational program.

AMPS supports DCA in areas that include curriculum implementation, instructional coaching, professional development, special education coordination, student services, data and assessment systems, staff recruitment, fiscal operations, human resources, compliance reporting, technology, facilities, meal program administration, and family communication systems.

DCA provides strong professional development opportunities for teachers and staff. Professional development focuses on standards-based instruction, classroom management, data-driven instruction, student and family engagement, MTSS, ELD, special education, classroom observation, coaching cycles, and continuous improvement in teaching and learning.

DCA implements instructional coaching and feedback systems aligned to the California Standards for the Teaching Profession. Teachers receive support through classroom observations, coaching conversations, peer collaboration, feedback, reflection, and goal-setting.

DCA maintains student support systems designed to identify student needs, provide timely intervention, and monitor progress. These systems include MTSS, COST, SST processes, academic interventions, behavior supports, attendance supports, family communication, counseling supports, and coordination among general education staff, special education staff, student support staff, and school leaders.

DCA uses student information, assessment, attendance, behavior, and intervention data to guide instruction, monitor student progress, and support data-informed decision-making.

DCA maintains communication systems that support family engagement, including schoolwide communication tools, family updates, conferences, and accessible communication with families.

DCA's educational program is supported by a clear school mission, defined instructional expectations, a structured middle school model, experienced AMPS support systems, and a demonstrated record of academic success.

**3. The Charter School is serving all students who wish to attend.**

DCA has a history of serving students from historically underserved communities, including socioeconomically disadvantaged students, English Learners, students with disabilities, and students from diverse racial, ethnic, cultural, and linguistic backgrounds.

DCA's 2025-26 enrollment reflects the diversity and needs of the Oakland community. In 2025-26, DCA serves 318 students. Of those students, 73.0% are socioeconomically disadvantaged, 16.0% are English Learners, and 7.9% are students with disabilities.

DCA's 2025-26 racial and ethnic enrollment includes 74.8% Asian students, 11.9% African American students, 9.4% Hispanic students, 1.6% Filipino students, 1.3% Two or More Races students, 0.6% White students, and 0.3% American Indian or Alaska Native students.

DCA maintains open and inclusive enrollment practices and does not screen, discourage, or limit enrollment based on academic performance, disability, English Learner status, socioeconomic status, behavior history, need for services, or any other protected characteristic.

DCA provides outreach and recruitment to families in English, Cantonese, and other languages as the need arises. DCA also provides interpretation, translation, accessible formats, and individualized assistance to families who need support understanding the program, applying, completing enrollment steps, or participating in registration after admission.

DCA's program is designed to serve students with a range of academic, language development, social-emotional, behavioral, and learning needs through rigorous instruction, intervention, ELD, special education supports, Section 504 supports, counseling, family engagement, and schoolwide student support systems.

**4. The Charter School's petition is reasonably comprehensive.**

This renewal petition contains reasonably comprehensive descriptions of the required charter elements and describes how DCA will continue to implement its educational program, meet student needs, comply with applicable law, and pursue improved student outcomes. The petition reflects DCA's current program, governance and operational structures, student support systems, instructional model, staffing plan, professional development systems, fiscal practices, family engagement strategies, and accountability measures.

DCA will continue to benefit Oakland Unified School District and Alameda County by providing families with a high-quality public middle school option that expands educational opportunity, supports historically underserved students, and prepares students for high school, college, and life.

**5. The Charter School satisfies the academic renewal criteria for a High Performing Charter School.**

Pursuant to Education Code Section 47607(c), the chartering authority shall consider the past performance of the Charter School on the state and local indicators included in the California School Dashboard. Pursuant to Education Code Section 47607(c)(2), a charter school that meets the High Performing renewal criteria is eligible for renewal for a period of five, six, or seven years.

DCA meets the criteria to be considered a High Performing Charter School. DCA's academic results, state recognition, and continued strong implementation of a rigorous middle school program demonstrate that the Charter School has provided a substantial academic benefit to students. DCA has produced strong outcomes while serving a student population that includes high percentages of socioeconomically disadvantaged students, English Learners, and students from historically underserved communities.

**As a High Performing Charter School, DCA is eligible for a five-, six-, or seven-year renewal term under Education Code Section 47607(c)(2). DCA respectfully requests renewal for a five-year term. This request is consistent with the renewal term available to High Performing Charter Schools and reflects AMPS' commitment to implementing Operational Sustainability while preserving DCA's high-quality academic program and strong student outcomes.**

DCA's request for a five-year term is not a reflection of academic weakness. Rather, it is a deliberate and responsible request that allows DCA to continue serving students as a high-performing school while AMPS strengthens organization-wide systems that support long-term sustainability. DCA's academic performance, community reputation, history of state recognition, and commitment to serving all students demonstrate that the Charter School merits renewal and continued operation.

In addition to the shift toward assessing Dashboard data, Assembly Bill 1505 also created a three-tiered system of evaluating charter schools' performance, plus a separate category for Dashboard Alternative School Status schools. Each of the four tiers has unique qualifying criteria.

The three performance categories are as follows:

- ***High Performing*** – Presumptive renewal if the charter school meets the established renewal criteria—Education Code Section 47607(c)(2).

- ***Middle Performing*** – Renewal unless the charter school failed to meet or make sufficient progress toward meeting standards and closure is in the best interest of students, evaluated using the Dashboard and Education Code Section 47607.2(b).

- ***Low Performing*** – Presumptive non-renewal if the charter school meets the non-renewal criteria, unless the chartering authority makes a finding to approve for a two-year term –Education Code Section 47607.2(a).

- ***DASS*** – Presumptive renewal with consideration of performance on the Dashboard and applicable alternative metrics, with nonrenewal only in the event that the chartering authority finds that closure is in the best interest of students – Education Code Section 47607(c)(7).

The state indicators include the following:

- Chronic Absenteeism: kindergarten through grade eight
- Suspension Rate: kindergarten through grade twelve
- English Learner Progress: grades one through twelve
- Graduation Rate: high school only
- College/Career: high school only (Note: The College/Career Indicator will not be reported on the 2022 Dashboard)
- Academic: grades three through eight and grade eleven – English Language Arts/Literacy and Mathematics

Accordingly, DCA fits into the high performing category, as determined by law and the California Department of Education, and as clearly demonstrated by the evidence. DCA has achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school and meets the criterion for charter renewal for a term of five years, as demonstrated below.

## Dashboard Performance Renewal Criteria – High Performing

Education Code Section 47607(c)(2) states:

(A) The chartering authority shall not deny renewal for a charter school pursuant to this subdivision if either of the following apply for two consecutive years immediately preceding the renewal decision:

(i) The charter school has received the two highest performance levels schoolwide on all the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 for which it receives performance levels.

(ii) For all measurements of academic performance, the charter school has received performance levels schoolwide that are the same or higher than the state average and, for a majority of subgroups performing statewide below the state average in each respective year, received performance levels that are higher than the state average.

(B) Notwithstanding subparagraph (A), if the two consecutive years immediately preceding the renewal decision include the 2019-20 or 2020-21 school year, the chartering authority shall not deny renewal for a charter school if either of the criteria in subparagraph (A) apply for two of the most recent years for which state data is available preceding the renewal decision.

"Measurements of academic performance" are defined in statute as "statewide assessments in the California Assessment of Student Performance and Progress system, or any successor system, the English Language Proficiency Assessments for California or any successor system, and the college and career readiness indicator." (Education Code Section 47607(c)(3)).

## Dashboard Performance

### CAASPP System: English Language Arts

A review of DCA students' performance on the Smarter Balanced Assessment Consortium ("SBAC") in English Language Arts ("ELA") over the past four years demonstrates consistently strong achievement and continued improvement over time, as measured by both the percentage of students meeting or exceeding standards and Distance from Standard ("DFS"). In 2021–22, 71.05% of students met or exceeded standards with a DFS of 39.8 points. In 2022–23, performance decreased slightly to 68.24%, with the DFS declining to 35.1 points. However, DCA rebounded in 2023–24, with 73.08% of students meeting or exceeding standards and the DFS increasing to 47.1 points. By 2024–25, DCA reached 77.41% of students meeting or exceeding standards, with the DFS increasing further to 56.4 points. Overall, the data reflect a strong upward trajectory and demonstrate that DCA continues to provide an effective instructional program that supports high levels of student mastery in ELA.

In 2021–22, 71.05% of DCA students met or exceeded standards compared to 47.06% statewide. In 2022–23, DCA remained well above the State, with 68.24% meeting or exceeding standards compared to 49.01% statewide. In 2023–24, DCA increased to 73.08%, while the State declined slightly to 47.04%. By 2024–25, DCA reached 77.41%, compared to 48.82% statewide. Across all four years, DCA maintained a significant performance advantage over the State, reflecting strong instructional systems, effective academic supports, and sustained student achievement in ELA.

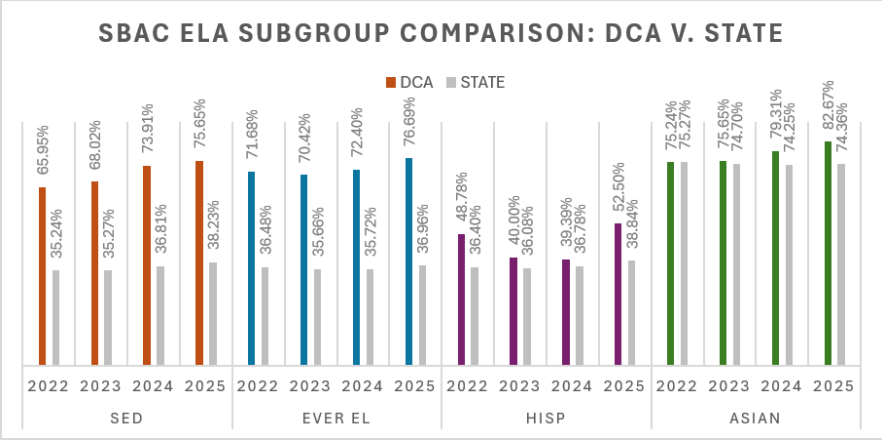

*Chart i.1: SBAC ELA Performance from 2022 to 2025 Showing the Percent of Students Meeting or Exceeding Standards at DCA Compared to the State of California*

A review of SBAC ELA subgroup performance over the past four years shows that DCA has consistently supported strong outcomes for major student groups, including Socioeconomically Disadvantaged ("SED") students, Ever English Learners ("Ever ELs"),

Hispanic/Latino students, and Asian students. Among SED students, 65.95% met or exceeded standards in 2021–22 compared to 35.24% statewide. SED performance increased to 68.02% in 2022–23, 73.91% in 2023–24, and 75.65% in 2024–25, remaining well above the State each year. Ever EL students also demonstrated strong achievement, with 71.68% meeting or exceeding standards in 2021–22, 70.42% in 2022–23, 72.40% in 2023–24, and 76.69% in 2024–25, consistently outperforming State outcomes by a substantial margin. Hispanic/Latino students showed improvement over time, increasing from 48.78% in 2021–22 to 52.50% in 2024–25, and exceeded the State in each reported year. Asian students demonstrated particularly strong outcomes, increasing from 75.24% in 2021–22 to 82.67% in 2024–25, remaining above the State in most years and substantially above the State by 2024–25. Overall, DCA's subgroup data demonstrate that the Charter School is producing strong ELA outcomes for historically underserved student groups and continues to support equitable academic achievement across its student population.

**CAASPP System: Mathematics**

Mathematics performance at DCA demonstrates sustained and significant growth over the past four years, as measured by both the percentage of students meeting or exceeding standards on the SBAC and DFS. In 2021–22, 62.18% of students met or exceeded standards with a DFS of 34.6 points. In 2022–23, performance increased to 65.37%, and the DFS improved to 39.9 points. In 2023–24, DCA continued this upward trajectory, with 71.71% of students meeting or exceeding standards and the DFS increasing substantially to 55.0 points. By 2024–25, 74.42% of students met or

exceeded standards, and the DFS rose again to 62.6 points. Overall, the data reflect steady year over year improvement in Mathematics and demonstrate that DCA students are achieving at high levels while continuing to increase their distance above the standard.

| DCA | 62.18% | 34.6 | 65.37% | 39.9 | 71.71% | 55.0 | 74.42% | 62.6 |

A comparison of SBAC Math performance between DCA and the State shows that DCA has consistently and substantially outperformed statewide results. In 2021–22, 62.18% of DCA students met or exceeded standards compared to 33.38% statewide. In 2022–23, DCA increased to 65.37%, while the State remained relatively stable at 33.76%. In 2023–24, DCA rose to 71.71%, compared to 35.54% statewide. By 2024–25, DCA reached 74.42%, while the State increased modestly to 37.30%. Across the four year period, DCA improved by more than 12% while maintaining a performance level nearly double the State average. These results demonstrate strong instructional effectiveness in Mathematics and continued success in helping students meet or exceed grade level standards.

2027-2032

A review of SBAC Math subgroup performance over the past four years shows strong and improving outcomes across several major student groups. Among SED students, 56.74% met or exceeded standards in 2021–22 compared to 21.23% statewide. This increased to 66.66% in 2022–23, 71.71% in 2023–24, and 72.17% in 2024–25, remaining far above State performance each year. Ever EL students also demonstrated strong growth, increasing from 63.44% in 2021–22 to 68.22% in 2022–23, 73.97% in 2023–24, and 75.84% in 2024–25, consistently exceeding State averages by a wide margin. Hispanic/Latino students performed above the State in each year, though their outcomes remained lower than DCA's overall results, increasing from 26.83% in 2021–22 to 30.00% in 2024–25 after declines in 2022–23 and 2023–24. Asian students demonstrated especially strong Mathematics performance, rising from 70.53% in 2021–22 to 84.44% in 2024–25, exceeding the State each year. Overall, DCA's Math subgroup results demonstrate strong achievement for SED, Ever EL, and Asian students, while also identifying Hispanic/Latino Mathematics performance as an area for continued monitoring and targeted support.

**English Learner Progress**

The English Learner Progress Indicator ("ELPI") measures the percentage of English Learners ("ELs") making progress toward English language proficiency each year. Over the past four years, DCA has consistently exceeded the State average on the ELPI, demonstrating strong support for English Learners. In 2021–22, 86.0% of ELs at DCA made progress toward English proficiency compared to 50.3% statewide. In 2022–23, 78.9% of ELs made progress compared to 48.7% statewide. In 2023–24, DCA achieved particularly strong results, with 90.9% of ELs making progress compared to 45.7% statewide. In 2024–25, the percentage of ELs making progress declined to 61.2%, but remained above the State rate of 46.4%. While the 2024–25 decline indicates an area for continued attention, DCA's ELPI performance remains strong overall and reflects the Charter School's commitment to targeted language development instruction, academic support, and intervention systems designed to help EL students build English proficiency and succeed academically.

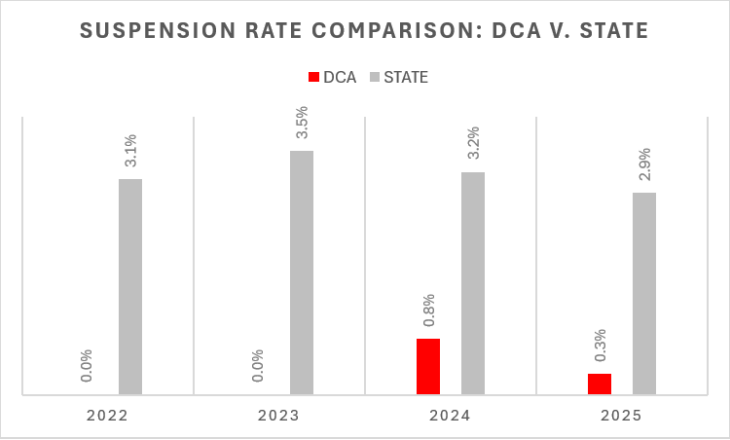
# Downtown Charter Academy 2027-2032

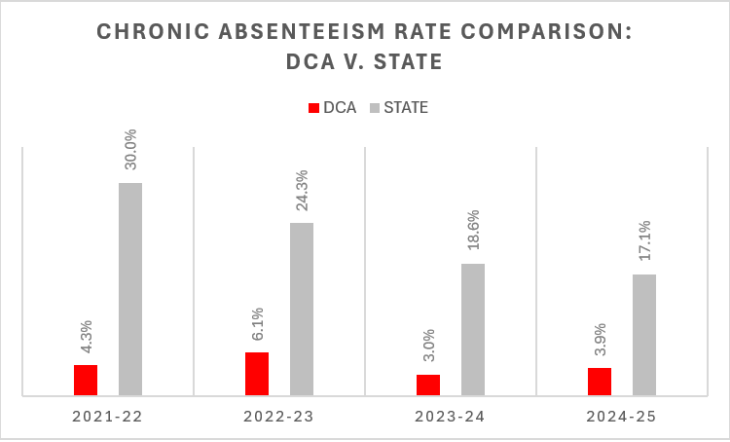


**Suspension Rate**

The Suspension Rate Indicator measures the percentage of students suspended at least once during the school year and provides insight into the effectiveness of a school's behavior supports, discipline practices, and overall school climate. DCA has maintained exceptionally low suspension rates over the past four years. In 2021–22, DCA reported a suspension rate of 0.0% compared to 3.1% statewide. In 2022–23, DCA again reported a suspension rate of 0.0% compared to 3.5% statewide. In 2023–24, the rate increased slightly to 0.8%, while the State rate was 3.2%. By 2024–25, DCA's suspension rate declined to 0.3%, compared to 2.9% statewide. Overall, DCA's suspension rates remain substantially below the State average, demonstrating a strong school climate and effective behavior support systems.

A review of subgroup suspension data further demonstrates DCA's generally low use of exclusionary discipline. In 2021–22 and 2022–23, all reported subgroups had suspension rates of 0.0%. In 2023–24, the overall suspension rate increased slightly to 0.8%, with Hispanic/Latino students at 2.9%, SED students at 0.9%, and ELs and Asian students at 0.0%. In 2024–25, the overall rate declined to 0.3%, with Hispanic/Latino students, SED students, and Students with Disabilities ("SWD") at 0.0%, Asian students at 0.4%, ELs at 1.6%, and Long-Term English Learners ("LTELs") at 2.9%. While these rates remain low overall, DCA continues to monitor subgroup outcomes to ensure discipline practices remain equitable and supportive. The Charter School's low suspension rates reflect its continued emphasis on proactive behavior supports, positive school climate, restorative approaches, and early intervention.

*Chart i.6: Suspension Rate from 2022 to 2025 Showing Overall at DCA Compared to the State of California*



# Downtown Charter Academy 2027-2032

**Chronic Absenteeism Rate**

Downtown Charter Academy has maintained exceptionally low chronic absenteeism rates compared to the State, demonstrating a strong culture of attendance, student engagement, and family partnership. From 2021-22 through 2024-25, DCA's chronic absenteeism rate remained far below the statewide rate each year. In 2021-22, DCA's chronic absenteeism rate was 4.3%, compared to the State rate of 30.0%. In 2022-23, DCA was 6.1%, while the State remained significantly higher at 24.3%. DCA improved further in 2023-24, reducing chronic absenteeism to 3.0%, compared to the State rate of 18.6%. In 2024-25, DCA maintained a very low rate of 3.9%, while the State rate was 17.1%. These results are particularly impressive given that DCA serves a student population with significant needs, including 73.0% SED students, 16.0% ELs, and 7.9% SWD in 2025-26. DCA's consistently low chronic absenteeism reflects the Charter School's ability to create a safe, structured, and connected school environment where students attend regularly, families remain engaged, and staff proactively support students before attendance concerns become barriers to learning.

*Chart i.7: Chronic Absenteeism Rate from 2022 to 2025 Showing Overall at DCA Compared to the State of California*

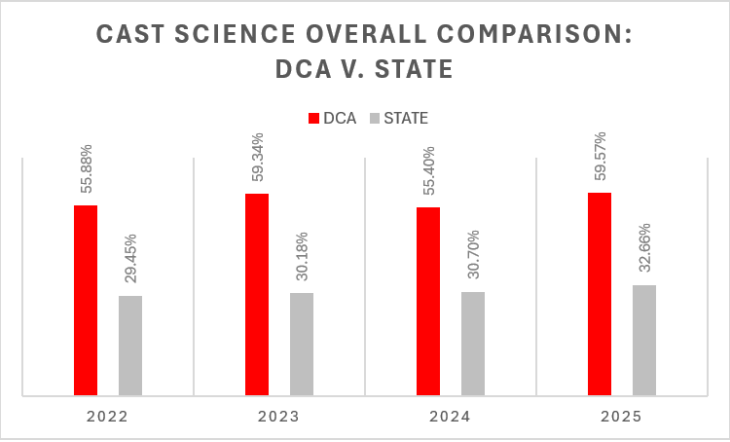
## Local Indicators

DCA has consistently met all Local Indicators reported on the Dashboard, including Implementation of Academic Standards, Access to a Broad Course of Study, Basics: Teachers, Instructional Materials, and Facilities, Parent and Family Engagement, and Local Climate Survey. These results demonstrate that DCA continues to meet State expectations for the locally reported priorities and maintains systems that support academic access, family engagement, school climate, and basic conditions for learning.

## Additional Data for Consideration at Renewal

The additional verified data criteria applicable to low- and middle-performing charter schools do not apply to DCA because DCA meets the criteria for the High Performing renewal category. Pursuant to Education Code Section 47607(c)(2), the chartering authority shall not deny renewal for a charter school if the charter school satisfies the statutory High Performing renewal criteria based on the California School Dashboard state indicators and measurements of academic performance.

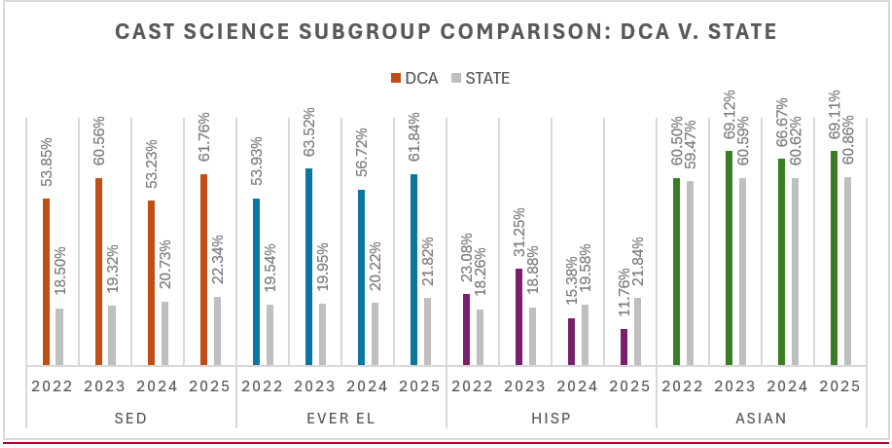
Accordingly, because DCA meets the High Performing renewal criteria, DCA is not required to provide verified data demonstrating measurable increases in academic achievement or strong postsecondary outcomes as an additional renewal condition. DCA may, however, provide supplemental academic, attendance, enrollment, student support, and other local data to further demonstrate the strength of its educational program and continued benefit to students and families.



## Year Over Year Progress

# Downtown Charter Academy 2027-2032

**CAASPP System: Science**



The California Science Test ("CAST") results show that DCA has consistently outperformed the State in Science over the past four years. In 2021–22, 55.88% of DCA students met or exceeded standards compared to 29.45% statewide. In 2022–23, DCA increased to 59.34%, while the State increased slightly to 30.18%. In 2023–24, DCA declined modestly to 55.40%, but remained well above the State rate of 30.70%. By 2024–25, DCA increased again to 59.57%, compared to 32.66% statewide. Overall, DCA's CAST results demonstrate consistently strong Science achievement, with student outcomes remaining nearly twice the State average across the four year period.

*Chart i.8: CAST Science Performance from 2022 to 2025 Showing the Percent of Students Meeting or Exceeding Standards at DCA Compared to the State of California*

A review of CAST Science subgroup performance demonstrates strong results for several major student groups, particularly SED students, Ever EL students, and Asian students. Among SED students, 53.85% met or exceeded standards in 2021–22 compared to 18.50% statewide. SED performance increased to 60.56% in 2022–23, declined slightly to 53.23% in 2023–24, and increased again to 61.76% in 2024–25, remaining well above the State each year. Ever EL students followed a similar pattern, with 53.93% meeting or exceeding standards in 2021–22, 63.52% in 2022–23, 56.72% in 2023–24, and 61.84% in 2024–25, consistently outperforming statewide results. Asian students also demonstrated strong Science achievement, increasing from 60.50% in 2021–22 to 69.11% in 2024–25 and exceeding State averages throughout the four year period. Hispanic/Latino student performance, however, declined from 23.08% in 2021–22 to 11.76% in 2024–25, falling below State outcomes in 2023–24 and 2024–25. These results show that DCA's overall Science program is producing strong outcomes, while Hispanic/Latino student performance in Science remains an important area for targeted support and continued monitoring.

**English Language Arts Distance from Standard**

DCA significantly outperforms the State in ELA, demonstrating consistently strong achievement and continued academic growth. From 2022 through 2025, DCA's SBAC ELA Distance from Standard remained well above the State each year. In 2022, DCA performed 39.8 points above standard, while the State was 12.2 points below standard. In 2023, DCA remained strong at 35.1 points above standard, compared to the State at 13.6 points below standard. DCA's performance increased to 47.1 points above standard in 2024 and reached 56.4 points above standard in 2025, while the State remained below standard at 13.2 points below standard in 2024 and 7.5 points below standard in 2025. These results show that DCA is not only outperforming the State by a substantial margin, but also improving over time. DCA's upward trajectory reflects the strength of the Charter School's instructional program, high expectations, data-driven teaching practices, and commitment to preparing students for success in high school, college, and beyond.

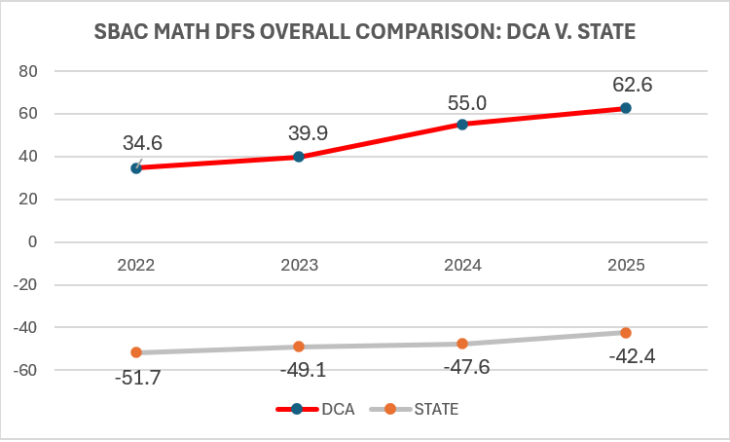

*Chart i.10: SBAC ELA Performance from 2022 to 2025 Showing the Distance from Standard at DCA Compared to the State of California*

**Mathematics Distance from Standard**

DCA's Mathematics results reflect a powerful and sustained pattern of achievement. From 2022 through 2025, DCA remained well above standard every year, while the State continued to perform below standard. In 2022, DCA was 34.6 points above standard, compared to the State at 51.7 points below standard. Rather than leveling off, DCA continued to improve, increasing to 39.9 points above standard in 2023, 55.0 points above standard in 2024, and 62.6 points above standard in 2025. This four-year trend shows both consistency and momentum. DCA not only maintained a significant advantage over the State, but also strengthened its performance each year. By 2025, the gap between DCA and the State was more than 100 points in Distance from Standard, with DCA at 62.6 points above standard and the State at 42.4 points below standard. These results demonstrate the effectiveness of DCA's math instruction, use of data, academic interventions, and high expectations for student learning. DCA's continued growth in Mathematics is especially impressive because the Charter School serves a high percentage of SED students, ELs, and students with diverse learning needs.

*Chart i.10: SBAC MATH Performance from 2022 to 2025 Showing the Distance from Standard at DCA Compared to the State of California*

**Stable Enrollment**

Downtown Charter Academy has maintained stable enrollment while continuing to serve a diverse and high-need student population. In 2025-26, DCA serves 318 students, returning to enrollment levels similar to earlier years in the charter term. The Charter School continues to serve a significant percentage of socioeconomically disadvantaged students, with 73.0% of students identified as SED in 2025-26. This reflects DCA's continued commitment to serving students and families who benefit from a structured, rigorous, and supportive middle school program.

DCA also serves students with varied language development and learning needs. In 2025-26, 16.0% of students are ELs and 7.9% are SWD. These data demonstrate the ongoing need for strong ELD, inclusive instructional practices, special education supports, intervention systems, and differentiated instruction. DCA's program is designed to ensure that students receive access to grade-level instruction while also receiving the academic, language, behavioral, and social-emotional supports necessary for success.

The Charter School's enrollment also reflects the diversity of Oakland. In 2025-26, DCA's student population is 74.8% Asian, 11.9% African American, 9.4% Hispanic, 1.6% Filipino, 1.3% Two or More Races, 0.6% White, and 0.3% American Indian or Alaska Native. These demographics demonstrate that DCA serves students from a wide range of racial, ethnic, cultural, and linguistic backgrounds. The Charter School's instructional program, student support systems, family engagement practices, and outreach efforts are therefore designed to be culturally responsive, inclusive, and accessible to the families it serves.

# Downtown Charter Academy 2027-2032

Overall, DCA's enrollment trends show a stable and mission-aligned middle school program that continues to serve historically underserved students, including SED students, ELs, SWD, and students from diverse racial and ethnic backgrounds. These data reinforce the need for DCA's continued operation as a high-performing public charter middle school option in Oakland.

Beyond the Dashboard and CAASPP measures, DCA demonstrates clear evidence of strong student performance, sustained academic achievement, exceptional student engagement, and meaningful progress in preparing middle school students for success in high school, college, and life. DCA's results show that the Charter School is not only meeting expectations, but significantly exceeding statewide performance in core academic areas while serving a diverse and high-need student population.

DCA has consistently demonstrated strong academic outcomes in both ELA and Mathematics. From 2022 through 2025, DCA performed well above the State in SBAC ELA Distance from Standard, increasing from 39.8 points above standard in 2022 to 56.4 points above standard in 2025. DCA also demonstrated exceptional growth in SBAC Mathematics, increasing from 34.6 points above standard in 2022 to 62.6 points above standard in 2025. These results are particularly significant because DCA serves a student population that includes 73.0% SED students, 16.0% ELs, and 7.9% SWD in 2025-26.

DCA also maintains exceptionally strong student engagement, as reflected in its very low chronic absenteeism rates. From 2021-22 through 2024-25, DCA's chronic absenteeism rate remained far below the State each year. In 2024-25, DCA's chronic absenteeism rate was 3.9%, compared to the State rate of 17.1%. This sustained pattern demonstrates that students are connected to school, families are engaged, and DCA maintains a safe, structured, and supportive school culture where students attend regularly and are positioned to learn.

As a middle school serving students in grades 6 through 8, DCA's postsecondary preparation is appropriately focused on ensuring students are academically, socially, and personally prepared for success in high school and future college pathways. DCA's mission is to provide a rigorous college preparatory education and character

development program that prepares students from underserved communities to succeed in high school, college, and life. The Charter School advances this mission by building strong academic foundations in ELA and Mathematics, developing student responsibility and perseverance, supporting attendance and engagement, and preparing students for the transition to high school.

During the renewal term, DCA will continue to build on these outcomes by sustaining high academic performance, strengthening targeted supports for ELs, SWD, and SED students, maintaining very low chronic absenteeism, and continuing to implement a rigorous middle school program that prepares students for long-term success. DCA will also continue working with AMPS as AMPS implements Operational Sustainability across the organization to further strengthen fiscal systems, compliance practices, staffing structures, enrollment planning, governance support, and long-term operational capacity.

**As demonstrated by the evidence above, DCA meets the renewal criteria for a High Performing Charter School under Education Code Section 47607(c)(2). As a High Performing Charter School, DCA is entitled to presumptive renewal approval and is eligible for a renewal term of five, six, or seven years. DCA respectfully requests presumptive approval of its charter renewal for a five-year term. This request reflects DCA's strong academic performance, continued benefit to Oakland students and families, and AMPS' responsible commitment to strengthening organization-wide operational sustainability while preserving DCA's high-quality educational program.**

The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners." – Ed. Code § 47605(c)(5)(A)(i)***

***"The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals." – Ed. Code § 47605(c)(5)(A)(ii)***

***"If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A to G" admissions criteria may be considered to meet college entrance requirements." – Ed. Code § 47605(c)(5)(A)(iii)***

**Local Control Accountability Plan (LCAP)**

Charter School shall annually submit a Local Control and Accountability Plan (LCAP)/annual update to the Office of Charter Schools on or before July 1, in accordance with Education Code section 47604.33. In accordance with Education Code section 47606.5, Charter School shall annually update its goals and annual actions to achieve those goals identified in the charter pursuant to Education Code section 47605(c)(5)(A)(ii), using the Local Control and Accountability Plan template adopted by the State Board of Education, as it may be changed from time to time, including but not limited to the following:

A review of the progress towards the goals included in the charter, an assessment of the effectiveness of specific actions toward achieving those goals, and a description of the changes to the specific actions the charter school will make as a result of the review and assessment.

Listing and description of the expenditures for the fiscal year in implementing the specific actions included in the charter as a result of the reviews and assessments, classified using the California School Accounting Manual.

To the extent practicable, data shall be reported in a manner consistent with how information is reported on the California School Dashboard.

Charter School shall comply with all other requirements of Education Code section 47606.5, including but not limited to the requirement that Charter School 'shall consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the local control and accountability plan and annual update...' (Ed. Code § 47606.5(d))

**Western Association of Schools and Colleges (WASC) Accreditation**

If Charter School serves students in grades 9-12, Charter School shall obtain Western Association of Schools and Colleges (WASC) accreditation before Charter School graduates its first class of students.

**Mathematics Placement Policy**

If Charter School serves ninth grade, Charter School shall comply with the requirements of Education Code section 51224.7 with respect to implementing a fair, objective and transparent mathematics placement policy for pupils entering the ninth grade.

**Independent Study**

Charter School recognizes that a long-term independent study program (greater than 14 days per school year), is a material term of the educational program described in Charter School's petition. Therefore, if offered, Charter School's petition will contain a reasonably comprehensive description of the long-term independent study program, including how the school will comply with the legal requirements in providing such a program.

**Home and Hospital Instruction**

Charter School is responsible for providing both its general education and special education students with individual home instruction during any period of temporary disability when the student is unable to participate in on-campus instruction. In the case of a parent notifying Charter School of a request for home instruction, Charter School shall determine the appropriateness of home instruction services within five days of the request and shall begin home services within five days of determining eligibility. If a student disenrolls from Charter School in order to enroll with their school district of residence for home instruction, Charter School shall re-admit such students if they request re-enrollment within one calendar year from disenrollment from Charter School.

If a student with an IEP is unable to attend school due to a temporary or ongoing medical or psychological disability, Charter School shall continue to be responsible for the provision of special education and related services during that time. Home

instruction for a student with an IEP or Section 504 plan shall only be provided under the following circumstances (5 CCR § 3051.4): the IEP team has recommended home instruction based on a medical report which is from the student's attending physician, surgeon, or psychologist; states the diagnosed condition; certifies that the student's condition prevents attendance in a less restrictive setting; and contains a projected calendar date for the student's return to school.

Home instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. There is no provision in statute that specifically addresses instructional content; however, the goal of home instruction should be maintenance of the pupil's former level of performance.

A student with a temporary disability, who is in a hospital or other residential health facility within the boundaries of OUSD, excluding a state hospital, shall receive educational services by OUSD. A pupil with a temporary disability, who is in a hospital or other residential health facility outside the boundaries of OUSD, excluding a state hospital, shall receive educational services by the school district in which the hospital is located. Pursuant to Education Code § 48207, Charter School shall continue to enroll such students while they are receiving Hospital Instruction. Average daily attendance shall be calculated consistent with the law.

**Student Enrollment and Grade Levels Served**

[Choose one of the following tables according to the length of your requested charter term. Note: Although six-year and seven-year terms can be requested by a charter school in the high renewal tier, the OUSD Board will determine the length of the renewal term, and the inclusion of year 6 and/or year 7 below does not guarantee approval of the request.]

**Overview**

The Charter School shall be its own local educational agency ("LEA") and is a member of the El Dorado County Charter ("EDCOE") SELPA in conformity with Education Code Section 47641(a). Please see Appendix C for Letter of Acceptance.

As an LEA member of the SELPA, the Charter School shall receive state and federal revenues directly, in accordance with the SELPA's allocation plan.

The Charter School shall comply with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms.

The Charter School may seek resources and services (e.g., Speech, Occupational Therapy, Adapted P.E., Nursing, and Transportation) from the SELPA, subject to SELPA approval and availability. The Charter School may also provide related services by hiring credentialed or licensed providers through private agencies or independent contractors.

The Charter School shall be solely responsible for its compliance with Section 504 and the ADA.

**Supporting Section 504 Students**

Kidinnu Academy identifies and supports students who may have a disability under Section 504 of the Rehabilitation Act. Students who qualify for a Section 504 Plan receive accommodations and supports necessary to access the Charter School's educational program. Staff implement Section 504 Plans and monitor student access and progress. Parents or guardians are included in the Section 504 process, and plans are reviewed periodically or when there is a significant change in student need.

Section 504 accommodations may include extended time, preferential seating, health supports, breaks, modified assignments, assistive technology, behavior supports, access supports, or other accommodations based on student need. Kidinnu Academy ensures that students with Section 504 Plans are provided equal access to academic instruction, assessments, activities, programs, and services.

The Charter School recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of the Charter School. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

A Section 504 team will be assembled by the Principal or designee and shall include the parent/guardian, the student (where appropriate) and other qualified persons

knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The Section 504 team will review the student's existing records; including academic, social, and behavioral records, and is responsible for making a determination as to whether an evaluation for Section 504 services is appropriate.

If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the Section 504 team, which will evaluate the nature of the student's disability and the impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The Section 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.
- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient.
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills.

The final determination of whether the student will or will not be identified as a person with a disability is made by the Section 504 team in writing and notice is given in writing to the parent or guardian of the student in their primary language along with the procedural safeguards available to them. If during the evaluation, the Section 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the Section 504 team.

If the Section 504 team finds the student to have a disability under Section 504, the Section 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives a FAPE. In developing the Section 504 Plan, the Section 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School's professional staff.

The Section 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All Section 504 team participants, parents, guardians, teachers, and any other participants in the student's education, including substitutes and tutors, must have a copy of each student's Section 504 Plan. The Site Director or designee will ensure that teachers include Section 504 Plans with lesson plans for short-term substitutes and that they review the Section 504 Plan with a long-term substitute. A copy of the Section 504 Plan shall be maintained in the student's file. Each student's Section 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

**Services for Students under the IDEA**

The following description regarding how special education and related services shall be provided and funded by the Charter School for the sole purpose of providing a reasonably comprehensive description of the special education program in the Charter Petition. The specific manner in which special education and related services shall be provided and funded shall be set forth in an agreement, delineating the respective responsibilities of the Charter School and the EDCOE SELPA.

The Charter School shall provide special education instruction and related services in accordance with the IDEA, Education Code requirements, and applicable policies and practices of the SELPA.

The Charter School shall provide services for special education students enrolled in the Charter School regardless of their district of residence. The Charter School shall follow SELPA policies and procedures and shall utilize SELPA forms in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and parent/guardian complaints and maintaining the confidentiality of pupil records.

The Charter School agrees to promptly respond to all SELPA or District inquiries, to comply with reasonable directives from the SELPA or the District, and to allow the SELPA or the District access to the Charter School students, staff, facilities, equipment and records as required or imposed by law.

***Special Education Strategies for Instruction and Services***

The Charter School reserves the right to contract with agencies and vendors outside of the authorizer, when appropriate, to secure special education services, including administrative support services as needed.

The general education program at Kidinnu Academy will provide a wide range of strategic and intensive learning opportunities designed to meet the diverse needs of all students, including SWD. These strategies will be integrated into the Charter School's inclusive instructional model to ensure that all students, regardless of ability, have equitable access to rigorous, standards-based learning. The following general education strategies will be implemented to support SWD at Kidinnu Academy:

- **Collaborative Co-Teaching:** General education and special education teachers will work together in shared classrooms to deliver instruction, provide differentiated supports, and monitor progress toward academic goals.
- **Universal Design for Learning:** Instruction will be planned using UDL principles to provide multiple means of engagement, representation, and expression, ensuring that all students can access the curriculum and demonstrate mastery in ways that align with their strengths.
- **Blended and Technology-Integrated Learning:** Teachers will use adaptive learning tools to personalize instruction and monitor student growth in real time, offering targeted feedback and interventions.
- **Extended Learning Opportunities:** Students will have access to extended learning time through after-school tutoring, enrichment, and intersession programs to close learning gaps and reinforce key skills.
- **Built-In Reteaching and Mastery Cycles:** The mastery-based model will include intentional reteaching opportunities embedded in instructional units to ensure that students demonstrate proficiency before advancing.
- **Differentiated Instruction and Scaffolding:** Lessons will include multiple levels of support, flexible grouping, and modified assignments to meet the unique learning profiles of each student.
- **Targeted Interventions in Reading, Writing, and Mathematics:** Evidence-based intervention programs will provide intensive small-group instruction to address foundational skill gaps, with frequent progress monitoring and data-informed adjustments.
- **Specialized Academic Tutoring:** One-on-one and small group tutoring will focus on individual student goals, with coordination between general education, special education, and paraprofessional staff to ensure continuity of support.
- **Small Group and Push-In Supports:** Instructional aides and special education staff will provide in-class assistance and targeted skill development aligned with IEP goals, including reading, writing, math, fine motor, and executive functioning skills.
- **Social-Emotional and Behavioral Supports:** Through the Charter School's PBIS framework SEL curriculum, students will receive additional supports for self-regulation, motivation, and social-emotional growth.

These strategies will ensure that DCA's SWD are fully included in the general education setting while receiving the specialized supports needed to achieve academic success, personal growth, and secondary readiness.

A pupil shall be referred for special education only after the resources of the general education program have been considered, and where appropriate, utilized.

The Charter School shall follow SELPA child-find procedures to identify all students who may require assessment to consider special education eligibility and special education and related services in the case that general education interventions do not provide a free appropriate public education to the student in question.

***Assessments***

The term "assessments" shall have the same meaning as the term "evaluation" in the IDEA, as provided in Section 1414, Title 20 of the United States Code. The Charter School shall determine what assessments, if any, are necessary and arrange for such assessments for referred or eligible students in accordance with applicable law. The Charter School shall obtain parent/guardian consent to assess the Charter School students.

As part of this responsibility, the Charter School shall provide parents/guardians with timely reports on the student's progress as provided in the student's IEP at least as frequently as report cards are provided for the Charter School's non-special education students. The Charter School shall also provide all home-school coordination and information exchange. The Charter School shall also be responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.

***Interim and Initial Placements of New Charter School Students***

The Charter School shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. In accordance with Education Code Section 56325(a)(1), for students who enroll in the Charter School from another school district within the State, but outside of the SELPA with a current IEP within the same academic year, the Charter School shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved IEP, in consultation with the parent/guardian, for a period not to exceed thirty (30) days, by which time the Charter School shall adopt the previously approved IEP or shall develop, adopt, and implement a new IEP that is consistent with federal and state law.

## TARGETED STUDENT POPULATIONS AND COMMUNITY NEED

Downtown Charter Academy ("DCA") is located in Downtown Oakland and serves students and families seeking a rigorous, structured, college preparatory middle school program. Established in 2014, DCA is part of Amethod Public Schools ("AMPS") and has developed as a neighborhood middle school option for Oakland families. DCA's school profile states that the Charter School serves students in grades 6 through 8 and is grounded in the belief that all students can achieve their academic goals, attend college, and succeed in life.

DCA seeks to educate middle school students from historically underserved communities, including SED students, ELs, SWD, and students from diverse racial, ethnic, linguistic, and cultural backgrounds. DCA serves students in grades 6 through 8. In 2025-26, DCA serves 318 students. The Charter School's student population reflects both the diversity and the needs of the Oakland community. In 2025-26, 73.0% of DCA students are socioeconomically disadvantaged, 16.0% are ELs, 7.9% are SWD, and 0.0% are foster youth. The Charter School's racial and ethnic composition includes 74.8% Asian students, 11.9% African American students, 9.4% Hispanic students, 1.6% Filipino students, 1.3% Two or More Races students, 0.6% White students, and 0.3% American Indian or Alaska Native students. This demonstrates a continuing need for a middle school program that provides strong academic preparation, structured student supports, family engagement, and access to rigorous instruction for students who may face economic and educational barriers.

While Oakland is rich in culture, resilience, and opportunity, many families continue to face significant economic and educational challenges. For DCA families, these challenges are reflected in the Charter School's 2025-26 enrollment data, with nearly three-fourths of students identified as socioeconomically disadvantaged. These students may experience barriers related to access to academic enrichment, technology, transportation, stable housing, health care, and other resources that can affect attendance, academic performance, and family engagement. DCA's educational program is designed to respond to these needs through high expectations, strong instruction, structured academic support, family communication, and a school culture focused on student achievement and preparation for the future.

DCA also serves students with language development and learning needs that require intentional support. With 16.0% of students identified as ELs in 2025-26, the Charter School provides a program that must support access to grade-level instruction while building English language proficiency, academic vocabulary, structured student discourse, and writing skills across content areas. With 7.9% of students identified as SWD, DCA must also ensure access to inclusive practices, accommodations, special education and related services, progress monitoring, and collaboration between general education and special education staff.

# Downtown Charter Academy 2027-2032

DCA, established in 2014, has become a strong middle school option for Oakland families seeking a rigorous academic environment, character development, and personalized support. As part of Amethod Public Schools, DCA is grounded in the belief that all students can achieve their academic goals, attend college, and succeed in life. The Charter School serves students during a critical developmental period when they are building academic independence, study habits, self-advocacy, social-emotional skills, and readiness for high school.

**Mission and Vision Aligned with the Target Population**

At Downtown Charter Academy, our mission is to provide a rigorous college preparatory education and character development program that prepares students from underserved communities to succeed in high school, college, and life. The Charter School's vision is to cultivate a structured, inclusive, and achievement-oriented middle school community where students develop the academic skills, personal responsibility, perseverance, confidence, and character needed to thrive in high school, college, career, and civic life.

**Needs and Challenges of the Student Groups to Be Served**

DCA's student population demonstrates the continued need for a high-quality public middle school program that combines academic rigor with targeted support. The Charter School seeks to ensure that students excel inside and outside of the classroom, develop the habits and skills needed for long-term success, and become prepared to contribute positively to their families, communities, and future educational pathways.

Middle school students also face important developmental transitions as they move from elementary school toward high school readiness. DCA students need support in academic organization, study habits, executive functioning, social-emotional development, peer relationships, attendance, behavior expectations, and preparation for high school coursework. DCA's middle school program is designed to address these needs through clear expectations, strong teacher-student relationships, academic support, character development, college preparatory culture, and a safe and focused learning environment.

Through its educational program, DCA seeks to meet the needs of students who require both rigor and support. The Charter School's student population demonstrates the continued need for a high-quality public middle school option that provides academic preparation, language development, special education support, culturally responsive practices, family partnership, and a schoolwide culture focused on achievement, responsibility, and long-term student success.

## Mission Statement

Amethod Public Schools seeks to provide a rigorous college preparatory education and character development program that will prepare students from underserved communities to succeed in college and beyond. ~~DCA seeks to prepare students to become innovative individuals who take risks for the good of their academic progress and their community and persevere as they seek knowledge through college and beyond. DCA will strengthen the character and academic skills needed for underserved students in Oakland to excel in competitive middle schools, high schools and colleges and assume positions of responsibility and distinction. Central to the school's mission is the belief that all students can succeed in rigorous college-prep environments when provided with high expectations, a disciplined commitment to academics, extended time for learning, including summer school and daily supplemental instruction, and access to a wide range of enriching learning experiences. It is now a truism that an excellent college education is necessary for expanded opportunities in an increasingly competitive and global 21st century job market and DCA will seek to meet the challenge through a collaborative effort with all of the school's stakeholders.~~

## Amethod Public Schools (AMPS) - Core Values

# Downtown Charter Academy 2027-2032

Our core values represent the pillars that guide the mission of the AMPS organization:

- **Students First:** Focusing on students as the priority ensures that all decisions and actions are geared toward their best interests, well-being, and academic growth. This value fosters a student-centered culture, where the needs and development of learners come before anything else.
- **Adaptability:** In a rapidly changing world, adaptability is key for both students and educators. This value empowers the school community to embrace change, innovate, and stay flexible when faced with new challenges. It also encourages resilience in students, helping them thrive in diverse situations.
- **Responsibility:** Instilling a sense of responsibility in students and staff promotes accountability and integrity. It encourages everyone to take ownership of their actions, decisions, and contributions to the school community, cultivating a culture of trust and dependability.
- **Perseverance:** Perseverance teaches the value of hard work, persistence, and grit. It helps students and staff develop the mindset to overcome obstacles, stay committed to their goals, and keep pushing forward despite difficulties. This value fosters resilience and growth.
- **Commitment to Distinction:** Striving for excellence and standing out in all areas—academically, socially, and professionally—demonstrates the school's dedication to being a top-tier institution. This value drives continuous improvement, motivating both students and staff to aim for high standards and maintain a culture of excellence.

~~**The Core Values of the organization represent what all people who work for the organization stand by, defend, trust in, and go forward with. One cannot "set" organizational values; these are attributes that we have discovered to be impactful through our nearly twenty years of service in public education. Over those years, we have learned that the task is to *find* people who are predisposed to sharing the Core Values, and work at attracting and then retaining these people.**~~

~~2. **Adaptability**~~
~~3. **Goal Oriented Mindset**~~

***Successful and Innovative Programs***

Downtown Charter Academy pursues lofty academic goals while infusing methods for instilling a sense of intellectual and studious culture and high expectations among our student body. The Amethod Public Schools culture and procedures are rooted in

traditional values such as respect, responsibility, work ethic, academic rigor, and community service. These ideals are explicitly taught to every teacher, and subsequently to every student. AMPS campuses have become known for upholding these values, and this is a large component of what makes our system effective. Our task is to empower underserved students to be different and stand out from their community peers, many of whom are assigned to underperforming schools.

**Educational Philosophy**

DCA's educational philosophy reflects AMPS' belief that all students, including students from historically underserved communities, deserve access to a rigorous, high-quality public education that prepares them for success in high school, college, career, and life. AMPS, the Charter Management Organization for DCA, believes that higher education and strong academic preparation are among the surest pathways to future opportunity and that high expectations for all students are essential to academic progress.

Drawing the best from every student requires a shared commitment from teachers, families, administrators, students, and the broader school community. DCA believes that students succeed when schools uphold high expectations, recruit and retain highly effective teachers, implement systems that ensure academic rigor, provide relevant professional development, use data to guide instruction and support, and maintain a strong partnership with families.

DCA understands the importance of using research-based instructional practices to promote student achievement. Staff are trained to utilize standards-based and research-supported curriculum, incorporate State Standards into instruction, align assessments to State Standards, implement supplemental instructional programs that support student learning, and design instruction that reflects effective teaching practices, differentiation, and the needs of diverse learners.

DCA is committed to fostering an educational environment where equity is central to teaching, learning, school culture, and student support. The Charter School recognizes that students come to school with different strengths, experiences, needs, and opportunities, and DCA continuously works to ensure that all students receive the support, challenge, and resources necessary to thrive. This includes particular attention to SED students, ELs, SWD, and other students who may benefit from targeted academic, social-emotional, language development, or behavioral supports.

The AMPS organizational framework encourages students and families to understand that commitment to a rigorous academic program and the development of a strong work ethic are essential to long-term success. DCA seeks to teach students to move beyond their academic comfort zones, embrace challenging work, build perseverance, and see rigorous coursework as preparation for future opportunity.

# Downtown Charter Academy

2027-2032

DCA strives to create a learning environment where students feel seen, valued, supported, and empowered. Through high expectations, strong relationships, academic supports, character development, and a structured school culture, DCA helps students build the habits of scholarship, responsibility, self-advocacy, and resilience. DCA's goal is not only to prepare students for high school and future college pathways, but also to help them become confident learners, thoughtful problem solvers, and positive contributors to their families and communities.

~~**Our philosophy was developed to reflect our vision of how to best remedy the deficiencies in academic performance of poor and/or minority children in California public schools. This major achievement gap in performance between the different subgroups, divided among racial and economic lines has exposed an issue that should be considered a national crisis. A first-rate free and public education is at the cornerstone of this America's success; however the current disparity among poor and minority children's academic performance should now be considered a crisis and a major concern to the country's future.**~~
~~**Amethod Public Schools, parent organization for Downtown Charter Academy (DCA), believes that higher education is the surest path to future success for poor families, and having high expectations of all students is an absolute necessity. Drawing the best from every student takes immense effort from the teachers, families, administrators, and students; but the results are well worth it. We reason that some of the keys to drawing the best from every student requires schools to have high expectations, highly effective teachers, academic rigor, professional development, stakeholder commitments, and the will to support a demanding academic program.**~~

# Downtown Charter Academy 2027-2032

~~**The AMPS organizational framework encourages students and families to realize that commitment to an intense academic program and establishing a strong work ethic is pivotal to future personal success. It is our intent to teach students to go past their academic level of comfort and pursue challenging coursework eagerly and to see rigorous courses as the key for success.**~~
~~**Moreover, we believe that students and families need to be conscious of the messages that reinforce low expectations and excuses which are pervasive in many institutions, including schools, and the messages they convey to inner city students.**~~

***The Five Successful Strategies for an AMPS Middle School***

Parents/Guardians sending their ~~children~~children to DCA can expect:

1) ***Small Campus-*** Schools with large populations of students are built on the premise that theoretically, due to the economies of scale, a large school is more efficient at delivering a comprehensive educational product. The problem is that these large schools are too big and students become numbers, not individuals. Many students can fall through the gaps and end up with their academic needs failing to be addressed in large schools. Moreover, problems such as discipline and violence can escalate, and campus security becomes a serious issue. ~~Teachers can end up becoming nothing more than traffic cops, and as expected, the quality of instruction deteriorates.~~ Our smaller campuses expose students to more information, time, and individual attention therefore making it much easier to figure out how a student learns and what ~~makes them tick~~"works" for them academically, and socially. It is far easier to close the gaps in a school system in a small campus setting.

2) ***Departmentalized Classrooms-*** A core part of the AMPS middle school curricular model is the implementation of departmentalized classrooms. By offering the departmentalized classrooms, DCA students are offered highly qualified instructors, best practices for specific content disciplines, more in depth focus on each discipline, and increased opportunities for inquiry based learning. This curricular approach has been proven extremely effective at AMPS middle school sites.

3) ***Structure-*** AMPS considers effective teaching practice, structured classrooms, and orderly schools to be the key measures to prevent negative student behaviors. Teachers must give students a clear understanding of how tasks proceed. For example, if students are to enter the class, teachers will begin by describing how students are to enter the facility and classroom properly. This must be explicitly taught and re-taught early to avoid confusion. We expect every teacher to make lists of student roles and group responsibilities, and explain, and

teach these thoroughly to students. In this way, students will know what is expected of them throughout the course of the year. Explicit information detailing what is expected of students is provided, taught, and reinforced through clearly structured daily patterns, rituals, and class activities. We do not ascribe to the spiral of continual suspensions and the constant flow of students to the office as is seen in many schools and view a focus on a structured school as the best remedy to this issue.

4) ***Attendance Matters-*** As basic as the concept may be, many students, particularly those at the middle and high school levels, become careless about regular school attendance. Missing a few classes seems inconsequential to them and at times it may seem insignificant to parents/guardians and families as well. School administrators are sometimes faced with parents/guardians who are unaware of their ~~child~~student's absence from school or, worse, which are aware but quite willing to make excuses for the absence. There are several reasons why regular school attendance is important for every student. Absenteeism hurts the student. Students who are frequently absent fall behind in academics and miss important concepts that enhance their ability to understand and follow directions or, ultimately, plan for the future. Absenteeism hurts other students. Students who are frequently absent require more individual attention from the teacher. Absenteeism hurts the school and organization. State financial support for schools is linked to student attendance. When students are absent the school loses funding. Each lesson presented to students is based upon or related to those that preceded it. Just as we can never regain a moment of time wasted, the ~~child~~student who misses a day of school also misses a day of education which cannot be retrieved. DCA uses an incentive-based program for students and parents/guardians to encourage maximum attendance rates.

~~There are several reasons why regular attendance at school is important for every student.~~

- ~~***Absenteeism hurts the student***. Students who are frequently absent fall behind in academics and miss important concepts that enhance their ability to understand and follow directions or, ultimately, plan for the future.~~

- ~~***Absenteeism hurts other students***. Students who are frequently absent require more individual attention and catch up time from the teacher.~~

- ~~***Absenteeism hurts the school and organization.*** State financial support for schools is directly linked to student attendance. When students are absent the school loses funding.~~

~~5) =~~**Positive Behavior Interventions and Supports and Social Emotional Learning**
~~=~~Part of the AMPS mission statement includes a character development aspect to instill in our scholars the importance of committing to distinction. One of the methods our schools employ is a Positive Behavior Interventions and Support system which reinforces positive behaviors and values rather than punitively punishing bad behaviors. This ensures that students are being focused on the positive qualities that we want them to cultivate at our sites. We also utilize a social emotional learning curriculum to help students learn to manage their stress, time, and relationships with others in a positive and productive way. This is an important aspect of our character development program that supports students' social and emotional growth by offering them the space and language to create a supportive learning community, develop self-awareness and

5) self-management, build positive relationships, and resolve their own conflicts. For middle school students, these skills are especially important as they build independence, navigate peer relationships, manage academic expectations, and prepare for the transition to high school.

6) ***High Expectations for All Students:*** At DCA, there are high expectations for all students. DCA ensures that every student has access to rigorous, standards-aligned coursework so that every student is prepared for high school coursework and has a strong foundation for advanced and/or honors college preparatory high school courses. ~~We assure that every student takes rigorous courses, such as Algebra I in the 8th grade, so that every student is on track to have a better choice for advanced and/or honors college preparatory high school courses.~~ Considering that ~~we are and~~DCA is an academically focused school system, ~~we require~~students are expected to engage in extensive individual and group work outside of the classroom. As such, our schools offer academic support programs to meet the needs of the entire student population, and to empower students to reach their full potential. The staff is committed to, and required to, ensure that all students are either performing on grade level or working their way through, regardless of their skill level upon enrolling in the school. ~~We also have~~DCA also has high standards for student behavior and expect all staff, parents/guardians, student, and administrators to understand and reinforce the adherence to proper student conduct and school policies.

***Character Development***
In addition to focusing on academic skills, teachers at DCA place a strong emphasis on character building. Students learn how to behave in large group settings, listen respectfully to ~~track all~~ speakers and presenters, participate in student competitions ~~(e.g.,~~ such as spelling or geography bees~~)~~, and greet school visitors appropriately. Students also have the opportunity to help their community ~~though~~through volunteer

programs and activities.

Teachers are expected to use an appropriate mix of instructional techniques ~~such as~~, including direct instruction, guided practice, feedback through engagement, and individual ~~student~~ practice in ~~their~~ lessons that reinforce the character education expectations and keep ~~the~~ character goals active and present throughout the ~~lessons~~instructional program. DCA students acquire life skills that help them build ~~provide a~~ meaningful connections to ~~society~~their school, families, and broader community.

The goal for all ~~of our~~ students is to develop an understanding that education is ~~imperative~~ essential ~~for~~ to their future~~,~~ and ~~absolutely~~ necessary for ~~their~~ success in adulthood. ~~It is our intent~~DCA seeks to establish a school culture where diligence, perseverance, responsibility, and respect are valued, and ~~creativity are respected, and~~ where students ~~feel responsible for~~ learn to take ownership of their ~~own~~ education ~~is the ultimate goal~~and future success.

## ATTENDANCE

### Academic Calendar

DCA is committed to ensuring that students have the time and opportunity to learn while also maintaining school breaks that allow students to spend meaningful time with their families and friends. DCA follows the AMPS academic calendar, which is developed organization-wide and implemented across AMPS schools, subject to annual approval and adjustment. In 2027-28, DCA anticipates offering at least 180 instructional days to support student learning, academic achievement, and preparation for high school, college, and life.

In addition to meeting or exceeding required instructional days and minutes, DCA anticipates providing additional learning opportunities that support the implementation of the Charter School's mission. These may include intervention, tutoring, academic support, enrichment, extended learning opportunities, after-school programming, summer school, and other targeted supports for students as needed. These additional opportunities are designed to help students strengthen foundational skills, accelerate academic growth, receive individualized support, and remain connected to a structured and supportive school community.

Charter School will have at least 175 days of instruction and for each fiscal year, offer, at a minimum, the following number of minutes of instruction:

(A) To pupils in grades 6 to 8, inclusive, 54,000 minutes.

### Bell Schedule

DCA has developed a bell schedule that exceeds the required number of instructional minutes for all grade levels. DCA's students attend a full-day schedule Monday through Thursday from 8:30 a.m. to 3:32 p.m., totaling 422 minutes per day, and a shortened

Friday schedule from 8:30 a.m. to 12:45 p.m., totaling 255 minutes. Monday through Thursday, students receive core instruction in ELA, Math, History, and Science, along with ELA and Math intervention, Physical Education, Music and Film, and ELD for ELs based on the elective schedule. On Fridays, students receive core instruction through a shortened schedule that supports instructional continuity while allowing time for school planning, collaboration, professional development, or operational needs. Bell schedules are subject to change to address the needs of students and to ensure DCA continues to meet or exceed applicable instructional minute requirements.

- ~~*Students who live in low-income households and neighborhoods;*~~
- ~~*Students whose primary home language is not English;*~~
- ~~*Students who would be the first in their families to attend college.*~~
- ~~*Students from immigrant head of households;*~~

**WHAT IT MEANS TO BE AN EDUCATED PERSON IN THE 21ST CENTURY**

~~An individual must be able to thrive in a demanding, fast paced and extremely competitive global environment with a very demanding and fluid economic and technological market. The reality is that America is losing many of the manufacturing and industry driven jobs that once were at the core of the American workforce and middle class. Combined with the demands of an extremely competitive global citizenry, Americans will be compelled to be persistent, industrious, innovative, adaptable, trained, and self-motivated individuals who are committed to continuous learning. The ability to think and analyze with an open mind and make informed decisions based on acumen and understanding of a wide range of perspectives and possibilities will also be essential. This is what education should provide; an~~DCA believes that a strong academic foundation in the middle grades is essential to preparing students for success in high school, college, career, and life. In an increasingly competitive, fast-paced, and technology-driven world, students must be

prepared to think critically, communicate effectively, collaborate with others, analyze information, solve problems, adapt to change, and continue learning throughout their lives. DCA's educational program is designed to help students develop these skills while also building the academic habits, discipline, confidence, and character necessary for long-term success.~~that will offer the opportunity to enter the world of academia and higher learning in preparation for the challenges of the future global market. DCA students are taught to think, not what to think.~~

DCA's mission is to provide a rigorous college preparatory education and character development program that prepares students from underserved communities to succeed in college and beyond. This mission reflects AMPS' belief that higher education and strong academic preparation are among the surest pathways to future opportunity. DCA also recognizes that middle school is a critical time for students to develop the foundational academic skills, study habits, perseverance, and self-advocacy needed to succeed in high school and future college pathways.~~Contemporary success and prosperous career paths, more often than not, demand a college education. Especially for poor minority students residing in urban inner cities; a college education presents the surest path out of poverty and generational disparity. Data from the US Census Bureau indicates that college graduates will earn far more money over their lifetime than non-college graduates.~~

DCA students are taught to think, not what to think. The Charter School emphasizes analytical reading, mathematical reasoning, reading comprehension, written and oral communication, problem solving, and the ability to apply knowledge in meaningful ways. Students are expected to engage with challenging content, ask questions, explain their reasoning, work collaboratively, and develop the confidence to approach complex academic tasks. These skills help students build the foundation necessary for success in high school coursework and future college preparatory opportunities.~~Tony Wagner in his book, *The Global Achievement Gap,* discusses the new millennium that was ushered in by a dramatic technological revolution and states that we now live in an increasingly diverse, globalized, and complex media-saturated society. According to his research, there are seven skills a well-educated person in the 21st Century must possess (Wagner, 2008). The seven skills highlighted by Wagner are the following:~~

~~1. Critical thinking and problem solving~~
~~2. Collaboration and leading by influence~~
~~3. Agility and adaptability~~
~~4. Initiative and entrepreneurialism~~
~~5. Effective oral and written communication~~
~~6. Accessing and analyzing information~~

~~7. Curiosity and imagination~~

DCA also believes that academic success requires the development of a strong work ethic. Students are encouraged to persevere through academic and personal challenges, take responsibility for their learning, adapt when faced with difficulty, and strive for distinction in their work and conduct. These expectations align with AMPS' core values of Students First, Be Adaptable, Persevere, Take Responsibility, and Commitment to Distinction. Through these values, DCA helps students understand that success is built through consistent effort, personal responsibility, resilience, and a willingness to grow.

DCA's program is especially important for students from historically underserved communities who may face barriers to academic opportunity, enrichment, and long-term college access. Regardless of background, economic standing, language status, disability, or prior academic preparation, DCA's responsibility is to provide students with rigorous instruction, effective teachers, targeted supports, a safe and structured school culture, and the confidence to pursue ambitious goals. The Charter School seeks to ensure that every student is prepared not only to succeed in school, but also to become a thoughtful, capable, and contributing member of the broader community. ~~Therefore, DCA believes that a strong academic foundation in the middle school content is imperative. Students need to first receive and master the essential fundamentals such as analytical reading, math fundamentals, and reading comprehension that are the building blocks for academic and brain development. Also, equally important is the development of a steadfast work ethic that will compel the individual to persevere and persist through academic and personal challenges they will encounter in their lives.~~

DCA exists to strengthen the pathway to high school, college, and future opportunity by ensuring that students leave middle school with the knowledge, skills, habits, and character necessary to thrive. Through rigorous academics, character development, high expectations, and strong student support systems, DCA prepares students to meet the challenges of the 21st century with persistence, adaptability, curiosity, responsibility, and confidence.~~Our schools exist to ensure the pipeline to college is filled with students who possess the knowledge and aptitude necessary to succeed in college and the increasingly competitive society. Regardless of their backgrounds, economic standing or any other demographic, it is our task to instill and cultivate these habits with our students and see to it that they possess the tools and confidence necessary to succeed in school and beyond, as contributing citizens of the 21st century.~~

DCA adopts a student-centered approach to learning that combines rigorous, standards-aligned instruction with meaningful opportunities for students to think

critically, communicate effectively, collaborate with peers, and apply their learning. The Charter School's instructional program is designed to ensure that students build strong academic foundations in ELA, Mathematics, Science, and History while also developing the habits, confidence, and character necessary for success in high school, college, and life.

DCA teachers use active learning strategies that encourage students to participate in discussions, explain their reasoning, engage with challenging texts and problems, complete individual and collaborative tasks, and demonstrate understanding in multiple ways. When appropriate, teachers incorporate projects, inquiry, real-world examples, and applied learning opportunities that allow students to make connections across content areas and develop problem-solving skills.

DCA also uses digital platforms and instructional technology to support learning, communication, assessment, intervention, and access to academic resources. Technology is used as a tool to enhance instruction, support differentiated learning, monitor student progress, and prepare students to use digital resources responsibly and effectively.

A well-educated person understands that the world is constantly changing and is prepared to continue learning, adapting, and growing. DCA prepares students to analyze information, consider multiple perspectives, make informed decisions, communicate clearly, and approach challenges with persistence and curiosity. Through rigorous academics, character development, structured supports, and high expectations, DCA prepares students not only for academic success, but also for future opportunity and their roles as informed, engaged, and contributing members of their communities.

**HOW LEARNING BEST OCCURS**

DCA believes that optimal learning occurs when students are provided with a rigorous academic curriculum, highly effective instruction, strong student support systems, clear expectations, and a safe, structured, and inclusive learning environment. The Charter School's instructional program is designed to support high student achievement by ensuring that students have access to standards-aligned instruction, targeted academic supports, consistent classroom routines, and meaningful opportunities to engage in critical thinking, collaboration, communication, and problem solving.

DCA uses data and analysis to guide instructional decision-making and continuous improvement. The Charter School collects and reviews achievement data, grade performance, attendance data, behavior data, suspension data, intervention data, and other relevant student information to evaluate the effectiveness of the educational

program and identify areas where students need additional support or challenge. Teachers and school leaders use this information to monitor student progress, adjust instruction, provide intervention, strengthen classroom practice, and support improved outcomes for all students.

A core component of DCA's instructional model is the prioritization of core academic content. Students receive instruction in ELA, Mathematics, Science, and History, with additional academic support and intervention provided as needed. DCA also provides opportunities for students to receive support during the school day and through available extended learning or tutoring opportunities. This structure allows students to strengthen foundational skills, access grade-level content, and receive targeted support in areas of need.

DCA also believes that learning occurs best in classrooms that are safe, orderly, engaging, and focused on academic achievement. Effective teaching requires clear lesson design, strong classroom routines, active student engagement, frequent checks for understanding, timely feedback, and responsive instruction. Teachers are expected to create classrooms where students know what they are learning, understand expectations, participate actively, and receive the support necessary to make progress toward grade-level standards.

To support instructional quality, DCA and AMPS use an instructional rubric for teachers that defines expectations for effective practice. The rubric supports teacher development and coaching in key areas such as purposeful planning, effective instruction, data use and assessment, classroom management, and professionalism. Through classroom observations, coaching conversations, feedback, professional development, and reflection, teachers are supported in strengthening lesson design, student engagement, assessment practices, differentiation, classroom culture, and professional responsibilities.

DCA's approach to instruction reflects the belief that all students can achieve at high levels when they are provided with rigorous academics, effective teachers, structured support, and a school culture that promotes responsibility, perseverance, and commitment to distinction. Through this combination of high expectations, data-informed instruction, strong relationships, and targeted support, DCA prepares students to succeed in middle school and to enter high school ready for future academic success.

ANOTHER PILLAR IS OUR BELIEF THAT A SCHOOL MUST FIRST AND FOREMOST PROVIDE A SAFE, ORDERLY, AND DISCIPLINED CLASSROOM CULTURE OTHERWISE THE RESULTING CHAOS WILL HAVE A DETRIMENTAL EFFECT ON THE LEARNING, AND SUCCESS OF ALL STUDENTS. TOO MANY EXCUSES ARE BEING MADE AND NEGATIVE ATTITUDES TOLERATED IN LOCAL SCHOOLS AND THIS HAS RESULTED IN CHAOTIC CAMPUSES, SCHOOL SAFETY ISSUES, BURNED OUT FACULTY, AND MEAGER STUDENT PERFORMANCE. LEARNING BEST OCCURS WHEN THE TEACHER IS ORGANIZED, ENGAGING, CONSTANTLY ASSESSING AND CAPTURING STUDENT ATTENTION ALL THE WHILE COMMANDING THE CURRICULUM AND MANAGEMENT OF THE CLASS. WE ASSERT THAT PROPER CLASSROOM PROCEDURES, PRACTICE AND A SOUND DISCIPLINE POLICY ARE ESSENTIAL TO EFFECTIVE TEACHING AND LEARNING. INEXPERIENCED OR LAISSEZ-FAIRE TEACHERS TEND TO BE FEARFUL OF ALLOWING STUDENTS TO SHARE RESPONSIBILITY FOR THE CLASS. INDEED, MANY STUDENTS WILL BEHAVE IRRESPONSIBLY WHEN GIVEN TOO MUCH LATITUDE WHILE SOME STUDENTS, WHEN GIVEN A CHOICE IN THE MATTER, WILL CHOOSE TO NOT WORK AT ALL.

## INSTRUCTIONAL ~~PROGRAM TOOLS~~DESIGN

### Instructional Design Framework and Alignment to Student Need

DCA's instructional design is grounded in the belief that all students learn best when they are provided with rigorous State Standards-aligned instruction, clear learning expectations, strong classroom culture, targeted academic supports, and meaningful opportunities to engage in thinking, discussion, practice, and application. DCA implements a site-based, classroom-based middle school program that serves students in grades 6 through 8 and prepares students for success in high school, college, career, and life.

| --- | --- |

DCA's instructional design is aligned to the needs of its target student population, including SED students, ELs, SWD, RFEP students, academically low-achieving students, academically high-achieving students, and students from diverse racial, ethnic, linguistic, and cultural backgrounds. The Charter School provides a structured learning environment that combines high expectations with academic, behavioral, attendance, language development, and social-emotional supports. DCA's model is designed to ensure that students have access to grade-level instruction while also receiving the scaffolds, interventions, enrichment, and acceleration necessary to support individual growth.

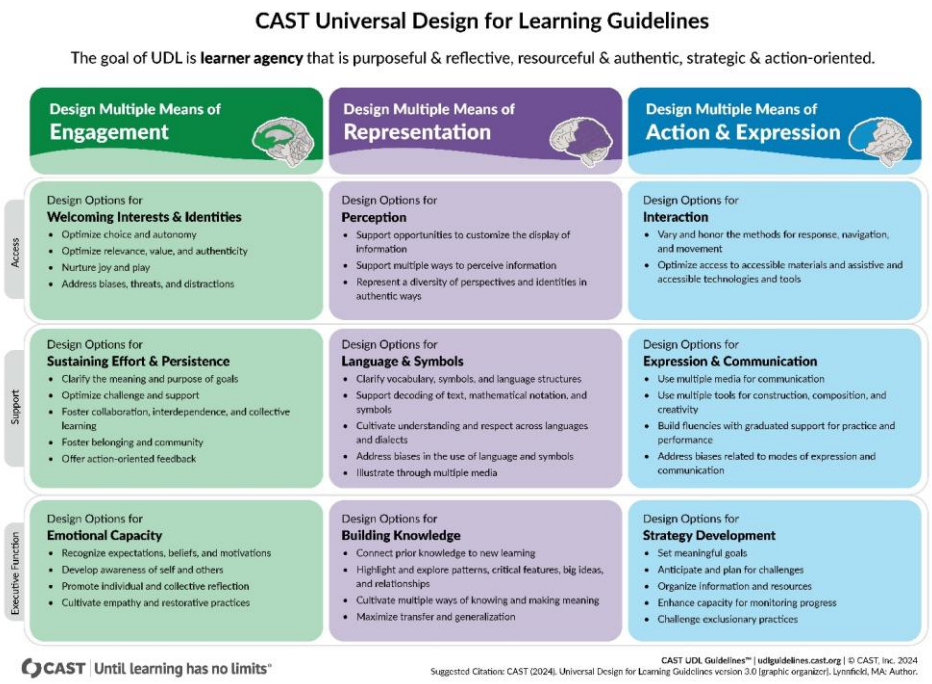
***Learning Setting***

DCA operates as a site-based instructional program. Students attend school in person and participate in a structured middle school schedule that includes core instruction, intervention, enrichment, student support, and schoolwide culture-building. The learning setting is teacher-led and classroom-based, supported by technology, digital platforms, assessment tools, and student information systems that help teachers monitor student progress and provide targeted support.

Technology is used as a tool to enhance instruction, not to replace the teacher. Teachers use approved digital platforms to support instruction, assessment, intervention, communication, student practice, and access to academic resources. Students use technology to engage with content, demonstrate learning, complete assignments, receive feedback, and build responsible digital learning habits.

***Universal Design for Learning***



DCA uses Universal Design for Learning as a foundation for instructional planning. Teachers design lessons with attention to multiple means of engagement, representation, and expression so that students can access rigorous learning, participate meaningfully, and demonstrate understanding in different ways.[1] This approach supports all learners, including ELs, SWD, students requiring intervention, students who need additional challenge, and students with varied learning styles, strengths, and experiences.

Through UDL, teachers proactively identify barriers to learning and plan supports before students experience failure. Instruction may include visual supports, modeling, structured academic discourse, sentence frames, graphic organizers, guided notes, manipulatives, vocabulary supports, opportunities for collaboration, flexible grouping, student choice when appropriate, and multiple ways for students to demonstrate mastery. UDL allows DCA to maintain high expectations while providing access points that help students engage with grade-level content.

***Standards-Aligned Core Instruction***

DCA's instructional program prioritizes mastery of State Standards in the core curriculum areas. Teachers provide instruction in ELA, Mathematics, Science, and History, along with academic intervention, ELD for ELs, and other instructional supports based on student need. Core instruction is designed to build foundational skills, academic vocabulary, content knowledge, reading comprehension, writing ability, mathematical reasoning, analytical thinking, and problem-solving skills.

Teachers use a balanced instructional model that includes explicit instruction, modeling, guided practice, collaborative learning, independent practice, checks for understanding, academic discourse, feedback, and reteaching. Lessons are designed around clear learning objectives and aligned assessments. Teachers activate prior knowledge, introduce new content in manageable steps, provide opportunities for students to practice with support, check for understanding throughout the lesson, and adjust instruction based on student responses and evidence of learning.

***Instructional Strategies to Support Student Mastery***

DCA teachers use instructional strategies that are responsive to student needs and aligned to effective teaching practices. These strategies include direct instruction, close reading, writing across content areas, mathematical reasoning, academic discussion, inquiry, applied learning, small group instruction, collaborative problem-solving, independent practice, formative assessment, and timely feedback. Teachers provide opportunities for students to explain their reasoning, use academic language, engage with complex texts and tasks, and apply knowledge in meaningful ways.

Instruction is designed to be active and purposeful. Students are expected to participate, ask questions, defend their thinking, work collaboratively, and take ownership of their learning. Teachers use frequent checks for understanding, exit tickets, quizzes, student work analysis, discussion protocols, and classroom assessments to determine whether students are mastering content and where reteaching or extension is needed.

***Differentiation and Small Group Support***

Differentiation is an essential part of DCA's instructional design. Teachers use assessment data, student work, classroom observations, language proficiency data, IEPs, Section 504 Plans, and intervention data to identify student strengths and needs. Based on this information, teachers adjust instruction through content, process, product, pacing, grouping, scaffolding, intervention, enrichment, and extension activities.

Students who need additional support may receive reteaching, targeted skill practice, small group instruction, tutoring, intervention, and progress monitoring. Students who demonstrate mastery may receive more complex texts, advanced tasks, enrichment activities, independent inquiry, project-based opportunities, leadership roles, and opportunities to deepen or extend their learning. Differentiation ensures that all students are challenged appropriately and supported in making academic progress.

***Reading and Mathematics Intervention***

DCA uses evidence-based intervention practices to support students who need additional help in reading and Mathematics. For students needing reading support, teachers focus on skill-specific instruction, including decoding when needed, fluency, vocabulary, comprehension, writing, and engagement with grade-level texts. Current research on reading interventions for students in grades 4 through 9 emphasizes the importance of explicit, targeted intervention aligned to student need.[2]

In Mathematics, DCA uses assessment data and classroom performance to identify student misconceptions, unfinished learning, and readiness for extension. Teachers provide targeted instruction, modeling, guided practice, mathematical discourse,

problem-solving opportunities, and progress monitoring. Math intervention focuses on conceptual understanding, procedural fluency, problem solving, academic vocabulary, and application.[3]

***Individual Learning Plan***

DCA uses an Individual Learning Plan ("ILP") as a tool to individualize instruction and support students who need more targeted academic assistance. The ILP helps teachers, school leaders, tutors, students, and families identify a student's strengths, areas of need, current performance data, and specific goals for improvement. An ILP may be considered for students whose achievement in two or more core classes falls below passing levels, or for students who demonstrate significant academic need based on classroom performance, formative assessments, benchmark data, teacher observation, or other available measures.

Before an ILP is implemented, teachers attempt classroom-based supports and modifications through the general education program, such as preferential seating, guided notes, small group instruction, reteaching, targeted practice, teacher check-ins, or other appropriate supports. If the student continues to struggle, the ILP may provide more targeted intervention through small group instruction, tutoring, technology-based practice, intervention materials, after-school support, or focused skill development during available support periods. The plan identifies specific skills, strategies, timelines, staff responsibilities, and progress monitoring measures, and may be continued, revised, intensified, or faded based on student growth and response to intervention.

***Multi-Tiered System of Supports and Response to Instruction and Intervention***

DCA ensures high-quality Conditions for Student Learning for all students through a Multi-Tiered System of Supports ("MTSS") and Response to Instruction and Intervention ("RtI²"). MTSS is an integrated, comprehensive framework that focuses on State Standards, core instruction, differentiated learning, student-centered learning, individualized student needs, and the alignment of systems necessary for students' academic, behavioral, attendance, and social-emotional success. MTSS offers the potential to create needed systemic change through the intentional design and redesign of services and supports that quickly identify and match student needs with appropriate interventions.

California's long-standing history of support systems includes RtI² processes, special education services, Title I and Title III programs, services for ELs, and supports for academically high-achieving students. MTSS builds on these foundations by aligning systems, initiatives, and resources across the Charter School and grade levels. While RtI² focuses primarily on students who are struggling and emphasizes teamwork and data-driven decision-making to improve student outcomes, MTSS is broader and

supports all students, including students performing below grade level, students performing at grade level, ELs, SWD, SED students, students with social-emotional or behavioral needs, and gifted or academically high-achieving students who need enrichment, acceleration, or increased academic challenge.

MTSS does not determine special education placement. Rather, it supports all students in educational contexts through intentional, holistic, and data-informed design. MTSS incorporates many RtI² principles, including high-quality instruction, culturally and linguistically responsive practices, universal screening, diagnostic assessment, progress monitoring, tiered intervention, positive behavioral supports, collaborative problem-solving, and data-driven decision-making. Through this comprehensive approach, DCA supports academic, social-emotional, behavioral, and attendance growth while maintaining high expectations for every student.

MTSS consists of three levels of support. The process through the tiers is dynamic and responsive, ensuring timely and effective support for every student.

Universal Supports: Tier 1
Tier 1 represents high-quality, State Standards-aligned core instruction and universal support for all students in the general education setting. Approximately 80% to 90% of students are expected to meet academic, behavioral, attendance, and social-emotional expectations through Tier 1 instruction and support. Tier 1 includes differentiated instruction, Universal Design for Learning, inclusive language, positive behavioral supports, classroom-based interventions, frequent checks for understanding, and ongoing progress monitoring.

At DCA, teachers and staff identify students who may be struggling with academic, behavioral, attendance, or social-emotional success. Staff review available data, identify the concern, determine what data supports the concern, and consider common thresholds. Staff may review the student's cumulative file and consult with the department team, Professional Learning Community, counselor, coach, or other appropriate staff. Teachers then select a Tier 1 intervention, communicate with the team, implement the intervention with fidelity for six to eight weeks, and document Cycle 1.

Tier 1 supports include, but are not limited to, differentiated instruction, small group instruction, individualized classroom supports, Universal Design for Learning, positive behavior interventions, inclusive classroom practices, strong school culture, positive school climate, clear and consistent expectations, family communication, student check-ins, advisory supports, classroom routines, and positive attendance and behavior supports. Teachers are expected to contact students and families regarding student success and struggles on a regular basis.

As part of the Tier 1 foundation, all students receive support in the classroom. Data

from benchmarks, MAP Growth assessments, previous year ELPAC and SBAC assessments, classroom assessments, grades, student work, attendance, and behavior information may be used to determine students' strengths and needs. During core classes, students receive individualized instruction and activities to strengthen progress toward standards mastery. Differentiated instruction allows students to access the curriculum and core content at varied academic levels while maintaining the rigor of grade-level expectations.

If the student responds successfully to Tier 1 intervention, the student continues with Tier 1 instruction and supports, and a fade plan may be developed when appropriate. If the student does not make adequate progress, staff contact the family with concerns, share strategies implemented, gather additional information, document the concern, and submit a COST referral.

Targeted Supports: Tier 2
Tier 2 provides strategic, targeted intervention for students who require additional support beyond Tier 1. Approximately 10% to 15% of students may receive Tier 2 small group and supplemental supports. Tier 2 introduces an additional layer of intervention within or outside the regular classroom setting, delivered intentionally to address specific instructional, behavioral, attendance, or social-emotional gaps based on data-driven decisions.

At DCA, the Coordination of Services Team ("COST") reviews the referral and monitoring data and assigns a COST member as the point person. The COST member reviews data, strategies, and the student's cumulative file, and may use a root cause worksheet to better understand the concern. The team then matches the intervention to the student's identified need. Tier 2 interventions are skill-specific, identified by data sources, and implemented three to five times per week, considering group size and student need. Staff provide referral follow-up, implement interventions for six weeks, and document the Cycle 2 meeting.

Tier 2 supports may include, but are not limited to, check-in/check-out, counseling groups, attendance support, targeted skill groups, targeted lessons, push-in support, credit or assignment remediation when applicable, teacher office hours, reteaching, conflict mediation, trauma-informed de-escalation, bullying prevention, mentorship, family conferences, and additional academic or behavioral support. Tier 2 interventions may be facilitated by classroom teachers, counselors, administrators, instructional aides, or specialized staff, depending on student need.

Through a small group setting, standards-based and concept-specific lessons are provided. Teachers observe and assess students formally and informally and differentiate as needed. Strategic intervention allows students to practice and develop skills. Ongoing benchmark and progress monitoring data are used to adjust interventions. Tier 2 groupings are flexible and may be changed as necessary. Students

who make progress may move to a fade plan or return to Tier 1 supports, while other students may continue with targeted support if additional needs remain.

If the student responds successfully to Tier 2 intervention, the intervention may be faded and the student continues with appropriate Tier 1 supports. If the student responds but concerns remain, the student may continue with Tier 2 instruction targeted to additional skills while progress is monitored. If the student does not respond adequately, the COST point person reviews all intervention data, progress data, and feedback from educational partners and schedules a Student Study Team meeting.

Intensive Supports: Tier 3

Tier 3 provides the most intensive level of support for students who need individualized or highly specialized intervention due to significant academic, behavioral, attendance, or social-emotional needs. Approximately 1% to 5% of students may require Tier 3 support. Tier 3 increases the frequency, intensity, and individualization of intervention and may include one-on-one or very small group support.

At DCA, Tier 3 begins with a Student Study Team meeting with the school counselor, an administrator or dean, a teacher, parents/guardians, and the student when appropriate. The team documents the Cycle 3 meeting and matches intervention to the student's specific need. Tier 3 intervention is skill-specific, identified by data sources, and includes increased frequency and decreased group size. Staff provide referral follow-up and implement interventions for six weeks, documenting Cycle 3.

Tier 3 supports may include, but are not limited to, crisis intervention, individual counseling, parent/guardian support, school-based counseling, highly individualized academic or behavioral intervention, increased progress monitoring, individualized student support plans, outside agency referrals, consultation with SELPA partners, Behavior Intervention and Coaching Team support, alternative education or opportunity class consideration when appropriate, Section 504 Plan consideration, special education referral when appropriate, SARB consideration, and review of possible exclusionary factors.

Intensive intervention allows students to receive explicit instruction focused on identified skills until they demonstrate progress or proficiency and are prepared to move forward. Highly flexible grouping allows staff to reorganize supports as needed, including very small groups or individualized support. The COST team conducts ongoing monitoring meetings to evaluate whether the student is responding as expected and adjusts the plan as needed.

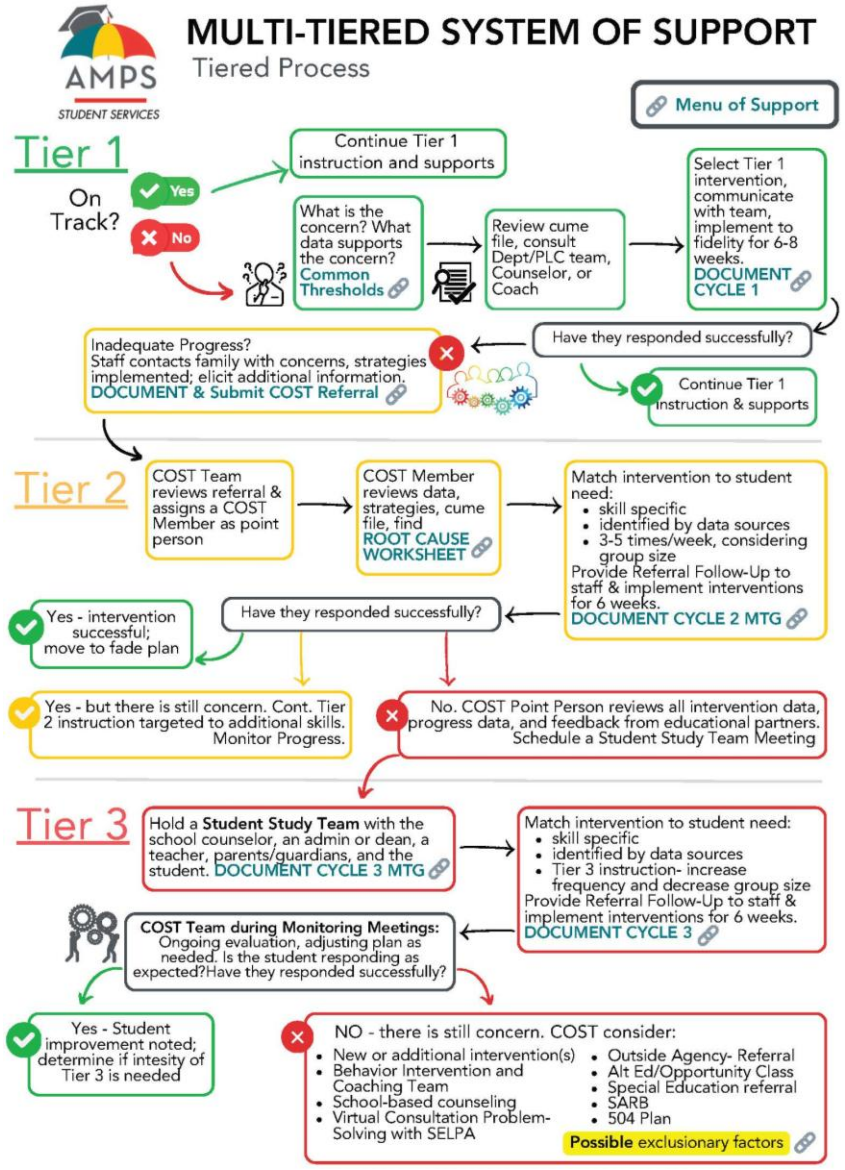
If student improvement is noted, the team determines whether the intensity of Tier 3 support is still needed and may develop a gradual fade plan. If concerns continue, COST considers new or additional interventions, school-based counseling, outside

agency support, SELPA consultation, Section 504 consideration, special education referral, SARB, or other appropriate next steps.

***Coordination of Services Team***

The Coordination of Services Team ("COST") is a multidisciplinary team that collaborates to identify and address students' academic, behavioral, attendance, and social-emotional needs. The COST may include administrators, deans, counselors, advisors, the registrar, general education teachers, special education staff as needed, and other appropriate support staff. COST reviews referrals from teachers, parents/guardians, or staff; examines student data; assesses student challenges; identifies root causes; coordinates appropriate interventions; monitors progress; and ensures that students have access to the supports they need to succeed.

COST serves as a central structure for aligning services and ensuring that interventions are not isolated or disconnected. Through COST, DCA coordinates counseling supports, academic intervention, behavior supports, attendance supports, family resources, teacher follow-up, and referrals to additional services when appropriate.



***Progress Monitoring and Family Communication***

Student progress is monitored on an ongoing basis through teacher observation, checklists, classroom assessments, intervention assessments, benchmark assessments, grades, attendance data, behavior data, and other relevant progress monitoring tools. Across all tiers, progress monitoring ensures that instruction and interventions are data-driven and responsive. If an intervention is unsuccessful after the intervention cycle, the intervention is adjusted for the next cycle. If a student continues not to make adequate progress, the student may be referred to COST, SST, Section 504 review, special education consideration, or other appropriate supports based on the student's needs.

DCA communicates student progress to parents/guardians throughout the intervention process. Families are contacted when concerns arise, informed of strategies being implemented, asked to provide additional information, and included in Student Study Team meetings when additional planning is needed. Student progress is communicated to parents/guardians at regular intervals, including approximately every six weeks during intervention cycles or more frequently when needed.

***Student Study Team Process***

The Student Study Team ("SST") is a positive Charter Schoolwide early intervention process designed to support students who are not making satisfactory academic, behavioral, attendance, language development, and/or social-emotional progress. The SST process provides a structured forum for DCA staff, parents or guardians, and other appropriate team members to review student needs, identify strengths, examine data, develop interventions, and monitor progress.

The SST is an interdisciplinary team that may include parents or guardians, teachers, administrators, intervention staff, counseling staff, EL support staff, special education staff when appropriate, and the student when appropriate. The SST process is collaborative, supportive, and solution-oriented. It is intended to identify what the student needs in order to be successful and what supports adults can provide to help the student make progress.

The SST process does not begin from a deficit view of the student. The team considers the student's strengths, interests, cultural and linguistic assets, prior interventions, academic data, classroom performance, attendance patterns, behavioral information, social-emotional needs, and family input. The team uses this information to develop a practical educational plan that can be implemented, monitored, and revised as needed.

The SST process is based on the requirements and protections reflected in the Individuals with Disabilities Education Act ("IDEA"), Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. SST documentation may support Section 504 documentation requirements when the SST process identifies interventions, accommodations, data reviewed, parent or guardian input, and progress monitoring. The SST process may also assist the Charter School in determining whether a student should be referred for a Section 504 evaluation or special education evaluation, as appropriate.

Generally, students experiencing academic, behavioral, attendance, language development, and/or social-emotional difficulties may be referred to the SST process. The SST process may be bypassed for students for whom the process would be detrimental or for students whose difficulty is so severe or unusual that the SST process would not provide appropriate assistance. This decision is made with parent or guardian input and in accordance with applicable law. The SST process is not used to delay a special education evaluation when the Charter School has reason to suspect that a student may have a disability.

English Learners may be referred to the SST process when appropriate, and the EL teacher or appropriate EL support staff at DCA participates as a team member when language development, English proficiency, or access to instruction is part of the concern. Students who are served through an Individual Learning Plan or other individualized support plan may also be considered through the SST process when the

student's needs warrant additional review. However, participation in an individualized support plan is not, by itself, the basis for an automatic SST referral.

Students referred for evaluation for special education consideration should meet the following criteria, unless immediate referral is otherwise required based on suspected disability and applicable law:

- That reasonable classroom interventions of sufficient duration have been carefully attempted, without success; and
- That the cause of the problem is suspected to be a disability that cannot be resolved without special education services.

DCA's goal and expectation are the same for every student. The Charter School ensures that students of every subgroup and demographic are enrolled in a rigorous program with challenging curriculum and are provided an instructional program that holds high expectations for all. Students who are struggling academically, including students who perform below site-specific expectations on interim assessments, benchmark assessments, classroom assessments, or other measures, are provided with supplemental instructional support to strengthen their academic growth.

DCA establishes a series of interventions that provide support services driven by student need and proportional increases in direct instructional time. In addition to daily instruction, DCA may provide before-school support, after-school support, noncore tutoring, small group tutoring, individual tutoring, academic intervention, language support, attendance support, behavioral support, counseling support, and other appropriate interventions. Students who continue to struggle in specific subject areas may receive additional assistance through intervention programs, which may include summer sessions, intersession tutoring, increased noncore one-to-one sessions, targeted skill support, or other appropriate interventions.

***Student Study Team Process***

1. Referral
   Charter School personnel, including a teacher, support staff member, administrator, or the student's parent or guardian, may request a referral to the Student Study Team ("SST") when a student is not making satisfactory academic, behavioral, attendance, language development, and/or social-emotional progress. The referral includes specific concerns, relevant data, and information about prior interventions, accommodations, and supports. The student's parent or guardian is contacted and informed of the referral.

2. Gathering Information
   The SST reviews and collects information relevant to the student's performance. This information may include the student's cumulative file, parent or guardian input, teacher and administrator observations, grade reports, formative assessments, benchmark assessments, intervention data, classroom work,

homework, attendance, behavior information, health history when relevant, state assessment results, ELPAC data for ELs, IEP or Section 504 information when applicable, and a list of prior interventions.

3. Assessment or Evaluation Data
   The SST may review available assessment or evaluation data, request additional school-based information, or identify whether further assessment may be needed to better understand the student's needs. Translation or interpretation is provided as needed to ensure meaningful parent or guardian participation throughout the process.

4. Developing an Educational Plan
   The SST establishes a meeting time when relevant members can participate and be actively involved in the problem-solving process. During the SST meeting, team members summarize the student's strengths, review concerns, examine data, discuss possible contributing factors, and develop an educational plan with academic, behavioral, attendance, language development, and/or social-emotional interventions. The plan identifies specific strategies, responsible staff, timelines, progress monitoring tools, and follow-up dates. The team may review completed forms, relevant work samples, intervention records, assessment results, and the student's cumulative file.

5. Implementation of the Educational Plan
   The educational plan is implemented by the staff members identified in the SST plan. Supports may include classroom interventions, targeted academic support, behavior supports, attendance interventions, counseling support, language development supports, family communication, accommodations, tutoring, small group instruction, or other appropriate interventions based on the student's identified needs.

6. Evaluation of Progress
   A follow-up meeting is held, typically within four to six weeks, to review the student's progress and determine whether the interventions are effective. The SST reviews progress monitoring data, teacher feedback, parent or guardian input, student work, assessment information, attendance, behavior information, and other relevant data. The SST may determine that interventions should continue, be revised, be intensified, or be expanded.

7. Ongoing Monitoring and Evaluation
   If the plan is successful, the SST may continue the supports, gradually fade supports, or return the student to regular monitoring through the classroom and MTSS process. If the plan is not successful, the SST process may be repeated with revised strategies. If the revised plan remains unsuccessful, the team may consider more structured supports, a Section 504 Plan evaluation, or a referral

for special education evaluation, as appropriate. The SST process is not used to delay a special education evaluation when DCA has reason to suspect that a student may have a disability.

8. Communication and Parent/Guardian Partnership
   Throughout the SST process, DCA maintains communication among administration, teachers, support staff, parents or guardians, EL staff, and special education staff when appropriate. Parents and guardians are included as essential partners in identifying student needs, sharing relevant information, developing interventions, reviewing progress, and implementing supports. Translation or interpretation is provided as needed to support meaningful participation.

***Classroom Culture and Conditions for Learning***

DCA believes learning occurs best in classrooms that are safe, orderly, respectful, inclusive, and academically focused. Teachers establish clear routines, communicate learning and behavioral expectations, use positive reinforcement, build strong relationships with students, and maintain classroom environments where students are expected to participate and persevere. Strong classroom culture supports instructional time, student engagement, and academic achievement.

DCA's character development program reinforces responsibility, perseverance, adaptability, respect, and commitment to distinction. Students are taught to take ownership of their learning, interact respectfully with peers and adults, manage academic and social challenges, and contribute positively to the school community. These habits support academic success and prepare students for the transition to high school.

***Professional Learning Communities***

DCA uses Professional Learning Communities ("PLCs") to support teacher collaboration, data-informed instruction, and continuous improvement. Through PLCs, teachers meet to review student work, analyze assessment data, discuss instructional strategies, identify students who need additional support or challenge, and align instruction to State Standards. PLCs provide a structured time for teachers to collaborate around student learning rather than working in isolation.

PLC meetings may focus on curriculum planning, pacing, formative assessment results, intervention needs, EL supports, accommodations for SWD, differentiated instruction, and strategies for academically high-achieving students. Teachers use PLC discussions to adjust instruction, plan reteaching or enrichment, monitor student progress, and strengthen consistency across grade levels and content areas.

***Instructional Rubric, Coaching, and Professional Growth***

To support instructional quality, AMPS and DCA use an instructional rubric for teachers that defines expectations for effective practice. The rubric supports coaching,

feedback, evaluation, and professional growth in key areas such as purposeful planning, effective instruction, data use and assessment, classroom management, and professionalism. Through classroom observations, coaching conversations, feedback, professional development, collaboration, and reflection, teachers are supported in strengthening lesson design, instructional delivery, student engagement, assessment practices, differentiation, classroom culture, and professional responsibilities.

DCA's professional development and coaching systems are aligned to the instructional strategies described in this section. Teachers receive support in standards-aligned instruction, UDL, MTSS, RtI², ELD, data-driven instruction, differentiated instruction, intervention, enrichment, special education, Section 504, classroom culture, and family engagement.

***Curriculum and Teaching Methods***

DCA and AMPS develop or adopt curriculum and teaching methods through a process that considers alignment to State Standards, student need, evidence of effectiveness, accessibility, rigor, coherence, assessment alignment, and feasibility of implementation. Curriculum and instructional materials are reviewed to determine whether they support grade-level learning, academic vocabulary, reading and writing across content areas, mathematical reasoning, language development, intervention, enrichment, and access for diverse learners.

Teaching methods are refined through professional development, instructional coaching, classroom observations, teacher collaboration, data meetings, student outcome data, and feedback from educational partners. DCA uses a continuous improvement cycle in which student data informs instructional planning, instruction is implemented and monitored, student progress is reviewed, and supports are adjusted based on evidence of learning.

Through this instructional design, DCA provides a rigorous, site-based middle school program that is responsive to student needs and grounded in current best practices. The Charter School combines State Standards-aligned instruction, UDL, MTSS, RtI², data-informed decision-making, differentiated instruction, ELD, special education supports, enrichment for high-achieving students, strong classroom culture, and instructional coaching to prepare students to master core academic content and succeed in high school, college, career, and life.

**Instructional Approaches and Strategies**

All educators at DCA use a variety of instructional strategies to ensure that students learn, grow, and master State Standards. Amethod Public Schools supports DCA by providing instructional frameworks, professional development, coaching, curriculum support, and data systems that promote consistent and effective teaching practices across the organization. At DCA, these practices are implemented through standards-aligned instruction, purposeful lesson planning, explicit instruction, academic

discourse, close reading, vocabulary development, flexible grouping, data analysis, and targeted support for students.

***Lesson Planning and Objective-Driven Instruction***

DCA teachers design lessons that are standards-aligned, objective-driven, and responsive to student needs. Lesson planning emphasizes clear learning objectives, intentional sequencing of skills, checks for understanding, opportunities for student practice, formative assessment, and extension or reteaching based on evidence of student learning. Teachers use assessment data, student work, classroom observations, and progress monitoring to adjust instruction and ensure that students receive appropriate support and challenge.

***Explicit Instruction***

A key instructional strategy at DCA is explicit instruction. Teachers introduce new content by clearly stating the learning objective, modeling the skill or concept, explaining the criteria for success, guiding students through structured practice, checking for understanding, and gradually releasing responsibility to students. During instruction, teachers use questioning, prompting, active monitoring, student responses, feedback, and correction to determine whether students are mastering the lesson objective. When students demonstrate misunderstandings, teachers reteach, clarify, or provide additional guided practice.

***Problem-Based and Inquiry-Based Instruction***

DCA also uses inquiry-based and problem-based instructional strategies when appropriate to help students explore questions, analyze information, test ideas, and apply knowledge to meaningful tasks. These strategies support critical thinking, problem solving, collaboration, and student engagement while maintaining alignment to State Standards and grade-level expectations.

***Close Reading with Text-Dependent Questions***

Close reading is used to support students' access to complex texts. Teachers guide students through multiple readings of a text, ask text-dependent questions, support academic vocabulary development, and help students cite evidence, analyze meaning, and build deeper comprehension. These practices are especially important in middle school because students are expected to read increasingly complex texts across content areas and use evidence to support their thinking.

***Academic Discourse***

DCA provides regular opportunities for academic discourse. Students engage in structured discussions, partner talk, collaborative learning, and whole-class discourse to explain their thinking, listen to peers, use academic language, and deepen understanding. Teachers may use discussion protocols such as Think-Pair-Share, Jigsaw, Socratic Seminar, or other structured routines to support meaningful student participation and language development.

# Downtown Charter Academy 2027-2032

***Building Academic Vocabulary***

Building academic vocabulary is a core instructional practice. DCA teachers provide explicit vocabulary instruction, repeated exposure to important terms, opportunities for students to use vocabulary in speaking and writing, and supports such as visual models, examples, non-examples, sentence frames, and context-based practice. Academic vocabulary development supports all students and is especially important for ELs and students who need additional language support to access grade-level content.

***Flexible Grouping***

Flexible grouping is used to provide differentiated support within the classroom. Teachers may group students based on assessment data, student work, instructional need, language development, skill readiness, or opportunities for enrichment. Flexible grouping allows teachers to provide targeted small group instruction, reteaching, guided practice, intervention, or extension while maintaining high expectations for all students.

***Instructional Rubric***

Amethod Public Schools and DCA use an instructional rubric for teachers to support coaching, evaluation, and professional growth. The rubric reflects expectations for effective practice in areas such as purposeful planning, effective instruction, data use and assessment, classroom management, and professionalism. These expectations help ensure that teachers have a common understanding of effective instruction and that coaching is focused, consistent, and aligned to student achievement.

## Materials, Including Technology

DCA provides students with instructional materials aligned to its grades 6 through 8 instructional program, State Standards, state curriculum frameworks, English Language Development Standards, and the academic, linguistic, social, and developmental needs of its middle school students. The Charter School's instructional materials support a coherent middle school pathway that strengthens reading comprehension, written expression, mathematical reasoning, science inquiry, history-social science understanding, academic language development, technology skills, project-based learning, and student independence. Through these materials, DCA prepares students for success in high school, college preparatory coursework, college, career, and life.

DCA's instructional materials are selected to ensure that all students, including ELs, SED students, SWD, RFEP students, students performing below grade level, students performing at grade level, and students ready for acceleration, have access to rigorous grade-level content and appropriate supports. The Charter School uses a combination of core instructional materials, supplemental materials, technology tools, teacher-developed resources, intervention materials, and enrichment resources to support standards mastery and differentiated instruction. Materials are reviewed for standards alignment, rigor, accessibility, cultural relevance, language development, technology integration, intervention supports, and usefulness for teachers and students.

DCA provides students with access to technology to support instruction, assessment, intervention, research, writing, collaboration, communication, and digital literacy. Technology is used as an instructional tool to expand access to content, support individualized learning, monitor student progress, administer assessments, provide intervention and enrichment, and help students develop the skills needed for success in high school and beyond. DCA also provides technology support for students and families, as needed, so that students can access instructional platforms, complete assignments, participate in learning activities, and benefit from the Charter School's educational program.

**English Language Arts**

DCA uses Savvas myPerspectives as its core English Language Arts curriculum, aligned to the California Common Core State Standards for English Language Arts and the ELA/ELD Framework for California Public Schools. The curriculum is appropriate for DCA's middle school students because it provides rigorous, standards-aligned instruction in reading, writing, speaking, listening, and language while also supporting students' development as critical thinkers, effective communicators, and independent learners. Through grade-level texts, structured writing tasks, academic discussion, and close reading, students build the literacy skills needed for success in high school, college preparatory coursework, college, career, and life.

Savvas myPerspectives supports DCA's diverse student population by providing students with access to complex texts, essential questions, writing opportunities, discussion routines, and performance-based tasks. The curriculum allows teachers to select texts and instructional activities that are culturally relevant and responsive to students' backgrounds, experiences, and identities. For DCA's Asian and Hispanic students, as well as students from other racial, ethnic, linguistic, and cultural backgrounds, the ELA program creates opportunities for students to see multiple perspectives, examine diverse voices, connect literature and informational text to their own experiences, and engage in meaningful conversations about identity, community, justice, responsibility, and belonging.

The ELA program is also designed to meet the needs of ELs by intentionally supporting academic language development. Students receive instruction in vocabulary, sentence structure, language functions, discussion protocols, text-dependent questions, close reading, and evidence-based writing. Teachers use ELD and academic language supports, sentence frames, graphic organizers, modeling, structured partner talk, academic discourse routines, and writing scaffolds to ensure that ELs can access grade-level texts and express their thinking in speaking and writing. The alignment between the ELA curriculum and the ELA/ELD Framework supports integrated ELD throughout ELA instruction and helps ELs develop both English proficiency and content knowledge.

For SED students, the ELA curriculum provides access to rigorous grade-level instruction, high-interest texts, technology-based learning tools, and supplemental supports that help close opportunity gaps. Students have access to IXL, Lexia, novels and independent reading texts, literature circle materials, assessment-aligned resources, close reading passages, text-dependent questions, vocabulary development resources, writing workshop materials, rubrics, exemplars, annotation tools, reading journals, research resources, and academic discourse protocols. These resources provide students with repeated opportunities to practice essential skills, receive feedback, build confidence, and develop the literacy habits necessary for long-term academic success.

**Downtown Charter Academy** | **2027-2032**

For SWD, DCA's ELA program provides multiple entry points into grade-level content through differentiated instruction, accessible texts, modeling, guided practice, graphic organizers, annotation tools, vocabulary supports, writing frames, rubrics, and opportunities to demonstrate understanding in multiple ways. Teachers use student data, IEP accommodations and supports, formative assessments, and classroom performance to adjust instruction and provide targeted support. Supplemental tools such as Lexia, IXL, teacher-developed materials, and small group instruction may be used to support reading comprehension, fluency, vocabulary, writing, grammar, and language development based on individual student needs.

Technology is integrated throughout the ELA program to support instruction, intervention, assessment, research, writing, collaboration, and student independence. Digital curriculum tools, IXL, Lexia, online research resources, assessment-aligned practice, and writing platforms help students practice skills, receive feedback, access texts, revise writing, and monitor progress. Technology also supports differentiated instruction by allowing teachers to assign targeted practice, provide intervention, extend learning for students ready for additional challenge, and support students who need additional access points into the curriculum.

DCA supplements Savvas myPerspectives with IXL, Lexia, novels and independent reading texts, literature circle materials, close reading passages, text-dependent questions, vocabulary resources, grammar and language practice, writing workshop supports, rubrics, graphic organizers, exemplars, annotation tools, reading journals, debate and discussion protocols, research and citation resources, ELD supports, and academic language resources. Together, these materials help students read closely, write clearly, speak confidently, listen actively, analyze multiple perspectives, use evidence, and develop the literacy skills needed to meet State Standards.

**English Language Development**

English Language Development at DCA is built around the expectation that ELs must have full access to rigorous grade-level content while also receiving explicit instruction in the English language skills needed to succeed. Cengage, Lift, National Geographic Learning provides the foundation for designated ELD instruction and is aligned to the ELA/ELD Framework for California Public Schools and the California ELD Standards. The program supports listening, speaking, reading, writing, vocabulary development, academic discourse, grammar, and language functions in ways that are appropriate for middle school students preparing for high school coursework.

The materials are well suited to DCA's student population because they provide real-world topics, informational texts, visuals, academic vocabulary, and global content connections. These features are particularly important for a school community that includes students from Asian, Hispanic, and other linguistic, cultural, and educational backgrounds. Students are able to build English proficiency while engaging with content connected to culture, identity, geography, history, science, community, and the broader world. This supports culturally relevant instruction and helps students see

language development as connected to their lives, experiences, and future opportunities.

Designated ELD provides protected time for focused language instruction using the ELD Standards as the focal standards. During this time, students receive explicit instruction in academic vocabulary, oral language, grammar, reading comprehension, writing, and language structures. Lessons are designed to help students use English purposefully, interact meaningfully with others, and understand how English works in academic settings.

Integrated ELD occurs throughout the instructional day. Teachers support ELs in core content classes through language objectives, vocabulary development, sentence frames, modeling, graphic organizers, visuals, structured discussion, writing supports, and opportunities to practice academic language with peers. This approach helps ensure that ELs are not separated from rigorous content, but instead learn English through meaningful reading, writing, speaking, listening, collaboration, and content-based learning.

Supplemental ELD materials strengthen both designated and integrated instruction. DCA uses Lift resources, language objectives, vocabulary development materials, sentence frames, academic discourse protocols, speaking and listening practice, newcomer supports, LTEL and reclassification support materials, graphic organizers, visuals and models, close reading supports, writing frames, grammar and language function resources, formative language assessments, ELPAC-aligned practice tasks, teacher-developed integrated and designated ELD materials, and small group intervention materials.

Students who enter DCA with limited English proficiency, interrupted schooling, or limited prior access to academic language benefit from repeated opportunities to practice English in structured and supportive settings. This is especially important for SED students who may need additional access to technology, tutoring, academic vocabulary, and extended learning opportunities. Through small group instruction, teacher modeling, structured partner practice, and targeted supports, students build confidence using English for academic purposes.

Newcomers receive support that extends beyond vocabulary and grammar. They need to feel welcomed, known, and able to participate in the life of the school. DCA supports newcomers through integrated and designated ELD, peer interaction, small group support, tutoring when available, family communication, and access to counseling or community resources when needed. Their home languages and cultures are treated as assets, not barriers.

LTELs and students at risk of becoming LTELs receive targeted support focused on increasing English proficiency and moving toward reclassification. Instruction may include academic vocabulary development, close reading, structured discussion,

evidence-based writing, grammar and language functions, speaking practice, and ELPAC-aligned tasks. Progress toward reclassification is monitored using ELPAC results, classroom performance, teacher input, writing samples, local assessment data, and other relevant evidence.

Students who are both ELs and SWD receive coordinated support that considers both language development and disability-related needs. Instruction may include accommodations, visuals, sentence frames, models, small group instruction, alternate ways to demonstrate understanding, and scaffolds aligned to the student's IEP or Section 504 Plan, as applicable. Staff work to ensure that students have meaningful access to ELD instruction and core academic content.

Technology expands access to language practice and progress monitoring. Digital resources allow students to interact with text, visuals, vocabulary, listening activities, speaking practice, formative language assessments, and ELPAC-aligned tasks. Teachers can use technology to assign targeted practice, monitor progress, differentiate instruction, and provide additional opportunities for students to strengthen academic English.

**Mathematics**

Amplify Desmos Math serves as DCA's core mathematics curriculum for grades 6 through 8. The program is aligned to the California Common Core State Standards for Mathematics and the Mathematics Framework for California Public Schools. Its design is well matched to DCA's middle school program because it builds mathematical understanding through conceptual development, procedural fluency, problem solving, application, and reasoning. Students are expected to make sense of problems, explain their thinking, use multiple representations, and apply mathematics to real-world situations.

Middle school mathematics is a critical bridge between elementary skill development and high school coursework. Through Amplify Desmos Math, students engage with visual models, digital tools, discussion-based tasks, and inquiry-based learning that make abstract concepts more accessible. Instruction moves beyond memorization of procedures by helping students understand how mathematical ideas are connected, why strategies work, and how mathematical reasoning can be used to solve increasingly complex problems.

Many students enter middle school with different levels of preparation, prior access, and confidence in mathematics. DCA's math program responds to those differences through grade-level instruction, targeted intervention, technology-supported practice, and repeated opportunities to build fluency and mastery. IXL, teacher-developed lessons, number sense routines, fluency practice, exit tickets, whiteboard responses, benchmark-aligned practice, and small group intervention materials help teachers identify gaps and provide timely support.

Academic language is intentionally developed within mathematics instruction. ELs receive support through vocabulary development, sentence frames, structured partner talk, visual models, diagrams, manipulatives, and mathematical discourse protocols. These supports allow students to explain strategies, compare approaches, justify answers, ask questions, and participate in mathematical discussions while continuing to build English proficiency.

Students with disabilities access mathematical content through multiple instructional entry points. Guided practice, small group instruction, graphic organizers, structured worksheets, manipulatives, visual models, reteaching materials, differentiated practice, and progress monitoring are used to support individual needs. Teachers consider student data, IEP accommodations, classroom performance, formative assessments, and progress monitoring when determining the level and type of support needed.

Across classrooms, DCA maintains high expectations for Asian, Hispanic, and all other student groups by creating learning environments where students are expected to reason, collaborate, and share multiple solution pathways. Students are encouraged to see mathematics as a subject that values thinking, explanation, and persistence, not simply speed or one correct method. Culturally responsive instruction, collaborative problem solving, and real-world applications help students connect mathematical learning to their experiences and recognize themselves as capable mathematicians.

Technology strengthens the mathematics program by allowing students to model relationships, test ideas, visualize concepts, and engage dynamically with mathematical tasks. Amplify Desmos Math provides interactive tools that support exploration and sense-making, while IXL and other assessment-aligned digital tools provide targeted practice, skill reinforcement, and progress monitoring. These tools help teachers differentiate instruction, assign practice based on need, and provide both intervention and enrichment.

DCA supplements Amplify Desmos Math with IXL, teacher-developed task-based lessons, low-floor/high-ceiling mathematical tasks, warm-up routines, number sense activities, exit tickets, whiteboard response activities, standards-aligned formative assessments, benchmark and interim assessment practice, math fluency practice materials, problem-solving and critical thinking tasks, small group intervention materials, reteaching materials aligned to Amplify Desmos Math, guided and independent practice materials, graphic organizers, structured worksheets, visual models, manipulatives, diagrams, mathematical discourse protocols, written explanation and reasoning prompts, error analysis activities, differentiated practice sets, enrichment and extension tasks for students ready for acceleration, and assessment-aligned digital tools and practice items.

**Science**

| Downtown Charter Academy | 2027-2032 |
|---|---|

Amplify Science provides DCA's core science curriculum and is aligned to the Science Framework for California Public Schools and applicable State Standards. The program is appropriate for DCA's middle school students because it emphasizes inquiry, investigation, scientific reasoning, evidence, and real-world problem solving. Students are not simply asked to memorize science facts. They are expected to ask questions, investigate phenomena, analyze information, construct explanations, and use evidence to support conclusions.

Science instruction at DCA helps students build curiosity about the natural world while developing the academic vocabulary, content knowledge, and inquiry skills needed for success in middle school and high school science. Amplify Science supports this work through phenomena-based lessons, interactive digital resources, models, simulations, reading and writing tasks, and opportunities for students to think and work like scientists. The curriculum also reflects the connection among science, engineering, and technology by asking students to design, test, and refine solutions to problems.

Hands-on investigation is an important part of the science program. Students engage in inquiry-based learning tasks, labs, science investigations, data collection, graphing, measurement, observation, and analysis. Through science notebooks or lab journals, students record questions, procedures, data, observations, claims, evidence, and reasoning. These routines help students understand that science is an iterative process where ideas are tested, revised, and strengthened through evidence.

The program is also well matched to the needs of ELs because science instruction naturally combines language, visuals, models, discussion, and evidence-based writing. Teachers support academic language through scientific vocabulary resources, nonfiction science reading passages, close reading and annotation tools, graphic organizers, sentence supports, visual models, diagrams, simulations, and claim, evidence, and reasoning ("CER") writing structures. These strategies allow ELs to access rigorous science content while developing the language needed to explain observations, describe processes, compare evidence, and defend conclusions.

Students who may have had limited prior access to high-quality science instruction benefit from the structure and accessibility of Amplify Science. The curriculum gives SED students consistent exposure to grade-level science content, technology-supported learning, hands-on materials, science literacy, and real-world applications. Supplemental resources such as performance tasks, small group intervention materials, teacher-developed reteaching materials, digital tools, and videos help students revisit concepts, build background knowledge, and strengthen understanding over time.

Multiple access points are built into the science program for SWD. Teachers may use models, diagrams, visuals, simulations, manipulatives, structured templates, graphic organizers, small group instruction, reteaching, and alternative ways for students to show understanding. Science investigations and engineering challenges also allow students to demonstrate learning through observation, design, discussion, drawing,

data analysis, written explanation, and presentation, depending on the instructional goal and the student's individual needs.

Culturally relevant science instruction helps students connect scientific ideas to their communities, identities, and lived experiences. DCA's Asian, Hispanic, and other student groups are supported through topics, investigations, and discussions that connect science to health, environment, technology, community issues, engineering, natural phenomena, and real-world problem solving. Students are encouraged to ask questions about the world around them and consider how scientific knowledge can be used to improve conditions in their families, communities, and future careers.

Technology expands what students can see, test, model, and explain. Amplify Science digital tools, videos, simulations, and interactive resources help students visualize abstract concepts, examine data, and engage with scientific phenomena that may not be easily observed in a classroom setting. These tools also support differentiated instruction, formative assessment, review, intervention, and extension for students ready for additional challenge.

DCA supplements Amplify Science with inquiry-based learning tasks, hands-on lab materials, science investigation materials, engineering design challenge materials, prototype design and refinement activities, science notebooks or lab journals, CER writing supports, scientific method and investigation templates, data collection and analysis tools, graphing and measurement tools, scientific vocabulary resources, nonfiction science reading passages, close reading and annotation tools for science texts, graphic organizers, models, diagrams, visuals, simulations, digital tools and videos aligned to Amplify Science, NGSS-aligned performance tasks, formative and summative assessment materials, teacher-developed reteaching materials, small group intervention materials, extension activities, and cross-curricular reading and writing resources aligned to literacy in science and technical subjects.

**History-Social Science**

DCA's History-Social Science program uses Teachers' Curriculum Institute ("TCI") as the core curriculum for grades 6 through 8. Grade 6 students study History Alive! The Ancient World, Grade 7 students study History Alive! The Medieval World and Beyond, and Grade 8 students study History Alive! The United States Through Industrialism. Together, these materials provide a middle school sequence aligned to the History-Social Science Framework for California Public Schools and help students move from the study of ancient civilizations, to medieval and early modern societies, to the development of the United States through industrialization.

The purpose of History-Social Science instruction at DCA is not limited to learning names, dates, and events. Students are taught to read, write, and think like historians. They examine primary and secondary sources, ask questions about perspective and reliability, compare accounts, analyze cause and effect, and construct written and oral arguments supported by evidence. Lessons are designed to help students understand that history is interpreted through evidence and that informed citizens must be able to question sources, evaluate claims, and recognize how the past continues to shape the present.

TCI is appropriate for DCA's students because it combines accessible content, visuals, inquiry, discussion, and student-centered activities. These features are important in a middle school setting where students are still developing background knowledge, academic vocabulary, reading stamina, and written argumentation skills. Supplemental resources such as Document-Based Question ("DBQ") materials, historical thinking skills resources, source analysis tools, close reading protocols, and evidence-based writing supports strengthen students' ability to engage deeply with historical content rather than simply recall information.

Culturally relevant instruction is a central part of this work. DCA serves Asian, Hispanic, and other culturally and linguistically diverse students, and History-Social Science provides meaningful opportunities for students to explore identity, migration, belief systems, power, conflict, resistance, geography, civic participation, and community. Through maps, timelines, images, political cartoons, oral discussion, current events, and diverse source materials, students are encouraged to make connections between historical content and their own families, neighborhoods, cultures, and lived experiences.

Language development is embedded throughout the History-Social Science classroom. ELs benefit from structured academic discussion, vocabulary support, sentence frames, graphic organizers, visuals, source analysis routines, and repeated opportunities to explain historical thinking orally and in writing. When students analyze a source, defend a claim, compare perspectives, or participate in a debate, they are also practicing the academic language needed for success across content areas.

The program also supports students who need additional access points into complex texts and abstract historical concepts. Teachers may use chunked readings, guided notes, annotated documents, collaborative source analysis, timelines, maps, images, simulations, and performance tasks to help students engage with grade-level content. These strategies support SED students, SWD, and students who need additional background knowledge, reading support, language scaffolds, or opportunities to demonstrate understanding in ways beyond a traditional test.

Writing is a major part of the History-Social Science program. Students learn to develop claims, select evidence, explain reasoning, and organize historical arguments. DBQ-style tasks, historical argument writing rubrics, essential question prompts, and claim, evidence, and reasoning graphic organizers help students build the analytical writing skills needed for both History-Social Science and English Language Arts. Students may demonstrate learning through essays, projects, presentations, debates, simulations, and other performance tasks that require them to apply content knowledge and historical thinking.

Technology expands students' access to historical materials and supports research, analysis, and presentation. Digital tools allow students to examine images, maps, videos, timelines, current event sources, and other media that make historical study more interactive and concrete. Technology also supports differentiation by allowing students to revisit content, access visuals and supports, organize evidence, and present their learning in multiple formats.

DCA supplements TCI with primary and secondary source documents, Document-Based Question ("DBQ") materials, historical thinking skills resources, source analysis tools, sourcing, corroboration, contextualization, and close reading protocols, historical argument writing rubrics, inquiry and investigation tasks, essential question prompts, current event articles, maps, timelines, charts, images, political cartoons, media analysis resources, structured academic discussion and debate protocols, evidence-based writing supports, graphic organizers for claim, evidence, and reasoning, and performance task materials, including projects, essays, presentations, and simulations.

**World Language**

World Language instruction at DCA is aligned to the World Language Framework for California Public Schools and supports students in developing language awareness, communication skills, and cultural understanding. In a school community that includes many students from multilingual and multicultural backgrounds, world language learning reinforces the value of language as a tool for connection, identity, and opportunity. Students are encouraged to understand that language study is not limited to vocabulary and grammar, but also includes the ability to communicate respectfully, compare cultures, recognize different perspectives, and build readiness for future high school world language coursework.

**Health/Physical Education**

DCA's Health and Physical Education program is aligned to the Health Framework for California Public Schools and the Physical Education Framework for California Public Schools. Middle school students need structured opportunities to build healthy habits, physical confidence, self-awareness, and an understanding of how personal choices affect wellness, relationships, safety, and long-term health. Through physical activity, health instruction, teamwork, and age-appropriate discussions, students develop skills related to movement, fitness, decision-making, stress management, nutrition, personal responsibility, and respectful participation. The program also supports SED students, ELs, SWD, and students from diverse backgrounds by promoting access, inclusion, and positive participation for all students.

**Visual and Performing Arts**

The Visual and Performing Arts program is guided by the California Arts Education Framework for California Public Schools and provides students with opportunities to create, perform, respond, and connect through the arts. For DCA students, the arts offer an important way to express identity, culture, emotion, creativity, and perspective. Students may engage in visual arts, music, performance, media, or other artistic experiences that strengthen imagination, communication, collaboration, and confidence. Arts instruction is particularly valuable in a diverse middle school setting because it gives students multiple ways to demonstrate understanding, build community, and connect learning to their own lives and cultural experiences.

**Career Technical Education**

Although DCA serves grades 6 through 8, the Charter School introduces students to college and career readiness concepts in alignment with the purpose of the Career Technical Education Framework for California Public Schools for Grades 7-12. At the middle school level, this includes helping students build early awareness of future pathways, workplace skills, technology skills, collaboration, problem solving, communication, responsibility, and perseverance. Students begin to understand how academic habits, digital literacy, leadership, and real-world application connect to future high school courses, college pathways, careers, and civic life. These experiences are especially important for students who may have limited prior exposure to career pathways, professional networks, or enrichment opportunities outside of school.

**Social Emotional Learning**

DCA's social emotional learning program is supported by Second Step, developed by Committee for Children and approved by the Collaborative for Academic, Social, Emotional Learning ("CASEL"). At the middle school level, SEL is not treated as separate from academics. It is part of how students learn to manage stress, build relationships, make responsible decisions, resolve conflict, and stay engaged in a rigorous school environment.

Second Step is appropriate for DCA because middle school students are navigating significant academic, social, and emotional transitions. Students are developing

independence, identity, peer relationships, self-advocacy, and the habits that will carry them into high school. The curriculum gives teachers and staff shared language and structured lessons to help students practice self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

The program also supports DCA's diverse student population by helping students build a respectful and inclusive school community. Students from different cultural, linguistic, and socioeconomic backgrounds need opportunities to feel seen, heard, and connected to school. SEL lessons, advisory activities, restorative conversations, and positive behavior supports help students understand themselves and others while strengthening classroom culture.

For ELs, SEL provides meaningful opportunities to practice communication, collaboration, perspective-taking, and problem solving in structured settings. Students learn and use language connected to emotions, relationships, conflict resolution, and decision-making, which supports both social development and academic participation.

Students who need additional behavioral, social, or emotional support may receive more targeted assistance through MTSS, COST, counseling, check-ins, restorative practices, family communication, or SST review when appropriate. SWD may also receive SEL-related supports consistent with their IEPs or Section 504 Plans, as applicable.

Second Step and related SEL supports are reinforced through daily routines, teacher-student relationships, classroom expectations, PBIS, restorative practices, advisory structures, and schoolwide culture. This helps students build the confidence, resilience, empathy, and responsibility needed to participate fully in the Charter School program.

~~***Amethod Public Schools Scope and Sequence***~~

~~*K-8 Common Core State Standards* The California State Board of Education has established "rigorous world-class" content and performance standards through the adoption of the ***Common Core State Standards***. DCA will ensure that students demonstrate mastery of these standards in the core disciplines (English/Language Arts, Mathematics, Social Studies/History, and Science).~~

~~Every DCA student, teacher, and parent associated with the school will be familiar with the standards for his/her grade level. To achieve this, grade-level appropriate standards shall be clearly articulated and integrated into all lesson plans and classroom activities, and shall be referenced in the homework assigned to students.~~

~~***Actions taken to implement the CCSS with fidelity***~~

1. *Unpack the Standards:* Ensure teachers, and instructional staff know and understand the CCSS for mathematics and ELA / literacy.
2. *Supporting aligned instructional practice:* Ensure tools and programs used to guide instructional practice reflect and prioritize the expectations of the CCSS.
3. *Focused professional development:* Ensure PD and resources spent on learning deepen educators' knowledge of and facility with the CCSS.
4. *Aligned materials:* Review existing state aligned materials and ensur instructional resources met the goals and expectations of the CCSS.
5. *Aligned assessments:* Ensure school interim assessments accurately reflect the expectation of the CCSS. Teachers are encouraged to use previously released test questions to help them align their own in class assessments. AMPS also uses IlluminateEd, allowing teachers to build standards based assessments to regularly track student achievement.
6. *Involved the community:* Engage staff, parents and community members with the intent and plan for the school to incorporate the CCSS.

***English/Language Arts - Common Core State Standards (CCSS)***

The CCSS require that students read more challenging texts during instruction than has been general practice in the past. The reason is that this shift could help students reach more advanced literacy achievement levels. But, research also shows this to be a complex instructional issue and one that will not likely be accomplished successfully without a nuanced and thoughtful approach. Merely adding more challenging texts to the curriculum is not a sufficient or effective response to this requirement.

***Common Core - Necessities for English Language Arts/Literacy***

**1. Building knowledge through content rich nonfiction.**

Building knowledge through content rich nonfiction plays an essential role in literacy and in the standards within the CCSS framework. In 6-12, ELA classes place much greater attention to a specific category of informational text literary nonfiction than has been traditional in the previous state standards. Informational reading primarily includes content rich non-fiction in history/social studies, science and the art.

The standards for literacy in the cross curricular CCSS format aim to ensure that students will be able to independently build knowledge in these disciplines through reading and writing. DCA actively infuses nonfiction texts to the existing literature program established for the AMPS middle school sites.

**2. Reading, writing and speaking grounded in evidence from text, both literary and informational**

AMPS adheres to the CCSS standards and places a premium on students writing to sources, using evidence from texts to present careful analyses, well defended claims, and clear information. Rather than simply asking DCA students questions they can

answer solely from their prior knowledge, deducing, or experience, students are expected to answer questions that depend on their approach of having read the text or texts with care and purpose. Thus, considering that reading standards focus on students' ability to read carefully and grasp information, arguments, ideas and details based on text evidence, AMPS incorporates different interpretation strategies for core and analytic reading as a supplement to the core content program.

The standards also require the cultivation of narrative writing throughout the grades, and in later grades a command of sequence and detail is essential for effective argumentative and informational writing.

**3. Regular practice with Complex text and its academic language**

Rather than focusing solely on the skills of reading and writing, the CCSS standards highlight the growing complexity of the text's students must read to be ready for the demands of college and careers. While this has always been an embedded part of the AMPS middle and high school curriculum, we have incorporated many more scientific and nonfiction spiraled reads for all grade levels. The CCSS standards aim to build a staircase of text complexity so that all students are ready for the demands of college and career level reading no later than the end of high school, therefore reading comprehension and a focus on academic vocabulary is addressed as well.

It is the objective of DCA is to prepare students to be ready for the advanced and honors leveled courses in high school and beyond; that is the intent of the Common Core curriculum. Why are the middle grades such a critical time in terms of academic preparation? In many ways the middle grades represent a fork in the road on the path to college. It is the time when students are choosing who they want to be in the world and are solidifying their academic path. Well-developed programs and school programs, because they support students at such a critical time in their lives, have a unique opportunity to shape students' futures, as long as they are intentional and comprehensive in meeting the academic, developmental and social needs of their students.

There is a common agreement about the rigorous high school courses students should take in order to prepare for college *(e.g., 4 years of English; 4 years of math, culminating in pre-calculus or calculus; 2-4 years of science; etc.)*, and additionally, there are the Honors and Advanced Placement courses that are coveted courses by many universities. AMPS Staff have learned from our experiences that the rigorous college-prep classes are heavily dependent on middle school.

A students' chance of enrolling and excelling in advanced high school courses which adequately prepare them for college, are severely jeopardized if training and coursework are not up to par in middle school. Therefore, middle school students need to be prepared to take a college-prep high school curriculum to have a shot at higher learning.

# Downtown Charter Academy 2027-2032

Recent research from ACT found that the level of academic achievement students attain *by eighth grade* has a significant impact on college and career-readiness and that, "…improving high school course rigor may not succeed unless we first increase the number of entering high school students who are prepared to benefit from such rigorous courses."[5]

Data backed effective practices combined together with standard aligned textbooks, added time, support, professional development, and the instructional delivery of well-crafted lessons are the hallmarks of AMPS middle school design components. Included in the AMPS designs are pacing guides, sample lesson plans, instructional standards, teaching strategies and assessments that have been successful at other AMPS campuses.

***AMPS Middle School Literacy Program***

The National Reading Panel Report (2000)[6] and other research summaries emphasized the five essential components of reading—phonemic awareness, phonics, fluency, vocabulary, and comprehension.

In 1995 the California Reading Task Force[7] identified four components that a balanced, comprehensive approach to reading must contain. It states that students need to read varied, challenging grade leveled novels and selections; that every school and district must organize and implement a comprehensive and a balanced reading program that is research-based and combines skills development with literature and language-rich activities. Vocabulary development, exposure to different literary genres, and opportunities to examine interesting and complex issues and challenges embedded in literature are hallmarks of the AMPS's Middle School program.

At DCA, we use the SpringBoard English Language Arts 6-8 Curriculum written by College Board. Over the course of the SpringBoard program, students read and analyze a wide range of texts in genres including poetry, novels, plays, biographies, nonfiction narratives, speeches, and films. Students also learn to write in forms including essays, personal narratives, argumentative texts such as editorials, and research papers.

Downtown Charter Academy offers a standards-aligned, rigorous English Language Arts program. Students read varied and challenging grade leveled literature, including novels, short stories, essays, plays, and poems, as well as informational texts covering a wide range of forms and content areas; they learn to unpack and identify the major elements of texts through text dependent questions, collaboration, discussion, and close reading. DCA students see themselves as writers, continually engaging in the writing process of pre-writing, brainstorming, drafting, revising, and publishing. The

[6] (The National Reading Panel, 2000)
[7] (*The Report of the California Reading Task Force*, 1995- Sacramento, CA)

ELA curriculum develops speaking and listening skills through rigorous academic discussion, literature circles, student presentations, gallery walks, and other means of student discourse. Students feel empowered to express ideas in a supportive environment where the reading and writing process is respected and repeated often, and where they connect the texts they read to their own culture, background, and experience. To support students in these rigorous goals, they have access to on-staff paraprofessional tutors, as well as their teachers.

***Reading***

DCA places an emphasis on reading, both in ELA class and independently. Students are expected to read grade level appropriate novels independently throughout the year, in consultation with their teacher. They learn to read actively, journaling or otherwise responding to their novel each time they read. In class, students read a diverse, engaging, challenging set of grade level appropriate texts, including personal narratives, short stories, myths and fables, expository essays and informational texts, argumentative writing, poems, and plays. These texts are chosen with an eye toward diversity of author, time period, country of origin, and content or subject matter. Students read with active support, and unpack these texts through discussions, graphic organizers, close reading and annotating, and other collaborative and independent approaches. By reading closely and widely, students develop an understanding of literary devices, structures, forms, and meanings. At DCA, students are explicitly encouraged to connect the texts they read to their own culture, background, and experience, as well as to explore essential questions that interrogate whose stories are heard, and why it is important to be empowered to tell one's own story. Reading is experienced as a process of engagement, questioning, and discussing, not simply as a way to acquire facts or knowledge for a test.

Student understanding and reading are assessed through active reading artifacts (journals, annotations), structured literature circle discussions, debates, character mixers, and both formative and summative writing tasks.

***Writing***

Downtown Charter Academy emphasizes writing skills across the academic curriculum. In ELA, this means that students produce a diverse set of written work during middle school. Students see themselves as writers, and are given the opportunity to experience writing in as authentic a framework as possible. Students write both fiction and nonfiction works, including personal narratives, short stories, poems, plays, expository essays, informational articles, argumentative and persuasive letters, research papers, and reflections. Students have the opportunity to read, unpack, and familiarize themselves with both published and student exemplars of their writing task before engaging in the writing process. Students explicitly complete all parts of the writing process - prewriting and planning, brainstorming, drafting, revision, and publication - with an emphasis on the need to repeat parts of the process frequently. All summative writing assignments are written in a workshop environment, students

create drafts which receive feedback from both peers and a teacher or paraprofessional tutor. They are then given the opportunity to revise. When possible, students publish authentically - creating a journal of class poems, submitting a persuasive letter to a local paper, or reading a short story to an audience of younger students, for example. Finally, students track their writing throughout the year in order to reflect on their growth as writers and revisit pieces they'd like to revise.

Student writing is assessed according to the CCSS, and each assignment includes a standards-aligned rubric. Teachers design both formative assessments and summative written performance tasks that allow both the teacher and the student to track their progress in different standards-aligned skill areas. Because writing is a process, students are given multiple opportunities to revise and improve their work.

***Speaking and Listening***

Because ELA is essentially the study of how we communicate, speaking and listening standards are included in the CCSS. At DCA, students have the opportunity to participate in rigorous and structured academic discussion regularly, as well as complete summative performance tasks. This allows students to develop and demonstrate important speaking and listening skills. The summative performance tasks (such as debates, presentations, and panel discussions) are assessed according to CCSS aligned rubrics.

***Language***

At DCA, students are not taught to see grammar and language skills as discrete from the reading, writing, and speaking and listening skills they are developing. Instead, they have the opportunity to learn and demonstrate these skills in authentic contexts. Grammar principals, conventions of English language, and academic, literary, and other vocabulary are taught in context, and students are assessed in authentic practice. Formative and summative assessment rubrics may include language domains in line with CCSS.

***English Language Development for English Learners***

At Downtown Charter Academy students come with a range of cultural and linguistic backgrounds, experiences with formal and informal schooling, levels of native language and English literacy, immigrant experiences, and socioeconomic levels, as well as other experiences in the home, school, and community. We support ELs to achieve school success through the CA ELD Standards in conjunction with Common Core Standards and the academic content standards depending on ELs' cognitive development. Students in middle school are engaging in challenging content learning and are "reading to learn" in Purposes, Development, and Structure various content areas. We have seen that ELs benefit from participation in the same instructional activities in content areas like math, history and science. However, we want to be intentional in our support to their language development, so during English, ELs take English in small group instruction that is differentiated based on student need. All

students draw upon knowledge of oral vocabulary and structures (e.g., recognition of cognates) to inform their English language learning to some extent, depending on their oral proficiency in the native language and how closely their native language is related to English. Students with established literacy in their native language and content knowledge can transfer these skills and knowledge to English with appropriate instructional support.

We have purchased a curriculum called Language Live, aligned to ELD Standards and CCS which includes a teacher direct instruction and a virtual learning component. For a detailed description of this program, see the following section - *Plan for English Learners.*

***AMPS Middle School Mathematics Program***

Every student will receive a focused, coherent progression of mathematics learning, with an emphasis on sense-making, connecting representations and proficiency with middle school mathematics curricular standards. All Amethod math classes will ensure that all students have access to an authentic algebra course and preparation for the rigors and goal that all students enroll in the Algebra course by Grade 8. Thus, it is critical that our students be prepared with the mathematical prerequisites for this course.

We currently use Pearson Digits curriculum for 6th and 7th grade students and Pearson Algebra 1 and Pearson Geometry for students in 8th grade. Both programs offer Digital math tools which allow students to interact with the same types of digital tools they will use on next-generation assessments. This helps students get comfortable using those very same tools well before the high-stakes assessments. A variety of assessment types offers plenty of opportunities for formative assessment practice throughout the year and Question types mirror those found on next-generation assessments and give students ample practice with the higher cognitive demands of the new assessments.

***6 General Overall AMPS Principles of Math:***

1. ***Equity*** - Math is for all students, regardless of personal characteristics, demographics, gender, background, or physical challenges.

2. ***Curriculum*** - Math is viewed as an integrated whole, as opposed to isolated facts to be learned or memorized. Teachers are directed to spend equal time on procedural skills, conceptual understanding, and problem solving. Math students should be expected to explain their reasoning and answer in full sentences.

3. ***Effective Teaching*** - Amethod Teachers should display 4 attributes: deep understanding of math, understanding of individual student development within the scope of the curriculum, effective routines and procedures for teaching

mathematics, and a desire to make math engaging and accessible for all students.

4. ***Problem Solving*** - DCA students will gain an understanding of math through classes that promote problem-solving, thinking, and reasoning. We will view math as the foundational approach to logic and critical thinking.

5. ***Continual Assessment*** - Constant and ongoing assessment of student performance, growth and understanding via varied techniques (interim assessments, data points, exit tickets, white boards, etc.)

6. ***Meaningful Practice*** - Students receive daily opportunities for accessing math learning in a variety of ways. This can include guided explanations through direct instruction, individual practice, group work, and inquiry-based tasks. Students receive homework nightly.

DCA teachers have identified the key strands that are essential to the students' ability to gain strong foundations and solid conceptual understanding. AMPS believes that these strands are taught best through a combination of direct instruction of basic skills, hands-on activities to provide a deeper understanding of math concepts by relating them to real world situations and experiences, and differentiated instruction based on the needs of the students as implemented in the AMPS model. With a target population of students from both economically and educationally underserved backgrounds, DCA will implement a program to ensure a solid math foundation is developed for each child and work to take students to an even higher level of mathematical knowledge and skills plateau to put them on the path to advanced high school courses and through college.

The math program is designed to allow all students access to the material from the start of the lesson. We begin classes with intellectually stimulating warm-up exercises that build interest for students. Our veteran teachers have selected, created and refined task-based lessons that require deep mathematical thinking from students. We emphasize rich mathematical tasks that have real world applications. These tasks are "Low-floor/High-ceiling" so that all students can access the concepts and there are various ways students can extend their learning. We use textbooks as supplemental material to these carefully crafted lessons.

DCA teachers focus deeply on implementing task-based lessons to encourage students to share and explore different solution pathways. When students see that there are multiple ways to think about problems or ideas they move past routine and algorithmic mathematics. This promotes mathematical discourse among the students. Students critique the reasoning of their peers by offering supporting arguments or counterpoints. Students are also explicitly taught how to engage in a respectful and fruitful debate as described in the Common Core State Standards for Mathematics which include standards for mathematical practices in addition to standards in content.

# Downtown Charter Academy 2027-2032

***Common Core - Necessities for Mathematics***

- **Focus:** The new standards call for a greater focus in mathematics. They focus deeply on the major work of each grade so that students can gain strong foundations: solid conceptual understanding, a high degree of procedural skill and fluency, and the ability to apply the math they know to solve problems inside and outside the math classroom. In essence, DCA teachers will take advantage of focus to actually pay attention to sense-making in math that is critical for younger students.

- **Coherence**: CCSS intends for students to think across grades, and link to major topics within grades. In other words, standards speak to the idea that math does not consist of a list of isolated topics. The Standards themselves, and therefore any instruction, should build on major concepts within a given school year as well as major concepts from previous school years. Each standard is not a new event, but an extension of previous learning.

- **Linking to major topics:** Instead of allowing additional or supporting topics to detract from the focus of the grade, these topics can serve the grade level focus. For example, instead of data displays as an end in themselves, they support grade-level word problems.

- **Rigor**: In major topics pursue conceptual understanding, procedural skill and fluency, and application with equal intensity. Rigor is about the depth of what is expected in the standards, and also about what one should expect to see happening in the classroom, in curricular materials, learning, and so on.

- **Conceptual understanding:** The CCSS standards call for conceptual understanding of key concepts. DCA teachers support students' ability to access concepts from a number of perspectives so that students are able to see math as more than a set of mnemonics, discrete, and disconnected procedures.

- **Procedural skill and fluency:** The standards call for speed and accuracy in calculation. Teachers structure homework time for students to practice core functions so that students have access to more complex concepts and procedures in the classroom. The AMPS middle school curricular design will prove pivotal for this concept.

- **Application:** The standards call for students to use math flexibly for applications. Teachers provide opportunities for students to apply math in context. Teachers in content areas outside of math, particularly science, ensure that students are using math to make meaning of and access content.

# Downtown Charter Academy 2027-2032

In order to address the individual needs of students, accelerating those who are ahead and meeting the needs of those who are behind, DCA will supplement math instruction with critical thinking and problem-solving activities, which assist in developing a greater understanding of math concepts and higher order thinking skills.

We offered an Advanced Math path for students who respond positively to challenging material. The selection for these classes is based on numerous data points including, but not limited to: computer-based benchmark assessments, written assessments in which students describe their mathematical reasoning, and work samples from in-class activities and homework. The math department then reviews the data for each student to make an informed decision about the Advanced Math rosters.

As part of our summer training seminar, we address the following points and samples for effective math teaching in preparation for Algebra I at 8th grade.

- ***Before lesson***
  - *Review Predictable problem areas*
  - *Prepare questions for deeper analysis of student responses.*

***AMPS Middle School History/Social Science Program***

The discipline of History/Social Studies (HSS) is crucial for the development of a range of skills and schema, with which our students will question and understand the country, cultures, and world they encounter and inhabit. DCA's HSS program is a rigorous, standards-aligned exploration of the past where students learn history primarily through inquiry, argument, and application. History is taught as an investigative and living discipline, with an emphasis on social justice and culturally responsive curriculum to encourage the full development of our students as agents of positive change in their communities. Throughout their study of history, students learn how to read, write, and think like a historian.

The curriculum used for the Social Science program at Downtown Charter Academy is a comprehensive, standards-aligned, core curricular resource that uses an inquiry-based approach to enhance literacy and critical thinking skills. Courses in this digital social studies textbook include U.S. History, World History, Civics and Government, and World Geography and Cultures. The Tech-book brings historical events, concepts, and phenomena to life for today's students with engaging multimedia resources including interactive text, maps, and timelines, plus videos, photos, audio, and hundreds of primary sources. The streamlined, responsive design provides students with an easy-to-follow, consistent experience, accessible from any device, in any instructional setting. Teachers also have access to exclusive videos, multimedia activities, digital text, more than 3,000 primary sources, model lessons, and assessments. With Social Studies Tech-book, students learn the content and skills needed to question the past, understand the present, and shape the future.

***Reading and Writing in History***

Students are exposed to a variety of text in DCA history classes, from primary sources to current event news articles. Using active and close reading strategies such as annotation and bucketing, students are taught to digest complex texts, evaluate bias, and find evidence or information depending on their task. At DCA, students are taught writing explicitly in the History classroom. Focusing on the construction of argument especially, DCA students write weekly if not daily in the classroom. They are taught to use evidence collected from sources to form and defend historical claims, and their writing is assessed according to CCSS for History/Social Sciences-aligned rubrics.

***Historical Thinking***

DCA history classrooms place an emphasis on the development of historical thinking skills (as guided by work such as the development of the Big 6 Historical Thinking

Skills), through forms such as media analysis, sourcing, and close reading. Students are taught to question texts they are given, and learn to trust only what they can corroborate with evidence. They are guided to take the perspectives of historical figures in order to understand the contexts of their words and actions, track continuity and change, examine cause and effect, and evaluate the ethics of past actions and words. These are especially put into practice and assessed through inquiry and investigation activities.

***Inquiry/investigation***

The DCA history classroom revolves around activities that allow students to delve into focus or essential historical questions through reading or viewing primary and secondary sources and formulating arguments. While not every class will be an investigation, these will serve as the core of each topic and unit. Students will learn how to evaluate sources, look for corroboration, and contextualize their evidence. They will then use this evidence to build historical arguments for prompts such has what really happened, why it happened, or what were the effects of an event.

**6th Grade**

| Downtown Charter Academy | 2027-2032 |
| --- | --- |

Students in sixth-grade world history and geography classrooms learn about the earliest humans, the development of tools, the foraging way of life, agriculture, and the emergence of civilizations in Mesopotamia, Egypt, ancient Israel, the Indus River valley, China, Mesoamerica, and the Mediterranean basin. Although the focus is primarily on ancient events and problems, this course gives students the opportunity to grapple with geography, environmental issues, political systems and power structures, and civic engagement with fundamental ideas about citizenship, freedom, morality, and law, which also exist in the modern world. Students practice history as an interpretive discipline. They read written primary sources and secondary sources, investigate visual primary sources, and learn how to analyze multiple points of view, cite evidence from sources, and make claims in writing and speaking based on that evidence.

Patterns that will be explored are:
The movement of early humans across continents and their adaptations to the geography and climate of new regions
The rise of diverse civilizations, characterized by economies of surplus, centralized states, social hierarchies, cities, networks of trade, art and architecture, and systems of writing
The growth of urban societies and changes in societies (due to social class divisions, slavery, divisions of labor between men and women)
The development of new political institutions (monarchy, empire, democracy) and new ideas (citizenship, freedom, morality, law)
The birth and spread of religious and philosophical systems (Judaism, Greek thought, Hinduism, Buddhism, Confucianism), which responded to human needs and supported social norms and power structures
The development and growth of links between societies through trade, diplomacy, migration, conquest, and the diffusion of goods and ideas

~~The medieval and early modern periods provide students with opportunities to study the rise and fall of empires, the diffusion of religions and languages, and significant movements of people, ideas, and products. During these periods, the regions of the world became more and more interconnected. Although societies were quite distinct from each other, there were more exchanges of people, products, and ideas in each century. For this reason, world history during the medieval and early modern periods can be a bewildering catalog of names, places, and events that impacted individual societies, while the larger patterns that affected the world are lost.~~

~~To avoid this, as well as the classically Eurocentric model of medieval study, teachers focus on questions that get at the larger geographic, historical, economic, and civic patterns of the world. To answer these questions, students study content-rich examples and case studies, rather than superficially survey all places, names, and events. Students approach history not only as a body of content (such as events, people, ideas, or historical accounts) to be encountered or mastered, but also as an investigative discipline. Students may analyze concrete objects, such as a porcelain vase or the image of a saint, exchanged or made at sites of exchange. As students investigate the exchanges that took place and the interactions of merchants, bureaucrats, soldiers, and artisans at the site, they learn to consider not only what was happening in one culture but also how cultures influenced each other. They analyze evidence from written and visual primary sources, supplemented by secondary sources, to form historical interpretations. Both in writing and speaking, they cite evidence from textual sources to support their arguments. Students also gain fluency in world geography through maps.~~
~~Changes and patterns to follow in 7th grade:~~
~~Long-term growth, despite some temporary dips, in the world's population beyond any level reached in ancient times. A great increase in agricultural and~~
~~city-dwelling populations in the world compared with hunters and gatherers, whose numbers steadily declined.~~
~~Technological advances that gave humans power to produce greater amounts of food and manufactured items, allowing the global population to keep rising.~~
~~An increase in the interconnection and encounters between distant regions of the world. Expansion of long-distance seagoing trade, as well as commercial, technological, and cultural exchanges. By the first millennium BCE (Before Common Era), these networks spanned most of Afro Eurasia (the huge interconnected landmass that includes Africa, Europe, and Asia). In the Americas, the largest networks were in Mesoamerica and the Andes region of South America. After 1500 CE (Common Era), a global network of intercommunication emerged.~~

| Downtown Charter Academy | 2027-2032 |
| --- | --- |

~~The rise of more numerous and powerful kingdoms and empires, especially after 1450 CE, when gunpowder weapons became available to rulers.~~
~~Increasing human impact on the natural and physical environment, including the diffusion of plants, animals, and microorganisms to parts of the world where they had previously been unknown.~~

~~8th Grade~~

# Downtown Charter Academy 2027-2032

The eighth-grade course of study begins with an intensive review of the major ideas, issues, and events that shaped the founding of the nation. In their study of this era, students will view American history through the lens of people who were trying—and are still trying—to fulfill the promise of the Declaration of Independence and the Constitution. Throughout their eighth-grade United States history and geography course, students will confront the themes of freedom, equality, and liberty and their changing definitions over time. This course will explore the geography of place, movement, and region, starting with the Atlantic seaboard and then American westward expansion and economic development, the Civil War and Reconstruction, and finally, industrialization.

As students learn American history from the late 1700s through the end of the nineteenth century, they will develop reading, writing, speaking, and listening skills that will enhance their understanding of the content. As in earlier grades, students will be taught that history is an investigative discipline, one that is continually reshaped based on primary-source research and on new perspectives that can be uncovered. Students will be encouraged to read multiple primary and secondary sources; to understand multiple perspectives; and to learn about how some things change over time and others tend not to. They should appreciate that each historical era has its own context, and it is up to the student of history to make sense of the past on these terms by asking questions about it.

***Assessment***

These standards are assessed in a variety of forms. Site-wide, each grade takes History Writing Task (HWTs) assessments (content tailored to be grade-specific) after each semester to assess students' ability to make historical arguments based off of a range of provided primary and secondary sources. These DBQ (Document Based Question)-style assessments are scored on a common rubric so student progress can be tracked across the grades and instruction either that year or in the following grade can be informed.

At DCA, students are not subjected to rote memorization and regurgitation as the way they are assessed in class. Within each class, students' historical thinking and content knowledge is evaluated in a formative and summative methods. Through means such as the Stanford History Education Group's (SHEG) Historical Assessments of Thinking (HATs), teachers formatively assess student thinking and ability to source, corroborate and contextualize sources throughout the year. Units culminate in performance tasks, where students demonstrate both content knowledge and historical thinking through authentic application, whether in the form of a project, essay, presentation or other output. Performance tasks allow students to grapple with essential questions, inhabit the authentic roles of those they study, as well as perform the jobs of historians, politicians, or other occupations that directly correlate with content.

DCA students emerge from their study of History at this school with the tools to be critical thinkers and active, informed citizens. They are prepared for 21st century information and news, armed with a deep understanding of the past and the skills to be successful and positive forces for change in high school, college, and beyond.

***AMPS Middle School Science Program***

We believe that effective standards-based Science programs are lacking among many inner-city elementary schools. It has been our experience that students entering the 6th grade lack the specific science-based vocabulary and understandings that are necessary to address middle school standards as defined by the State Board of Education. Many students leaving the elementary schools do not have the understanding of the scientific process that is at the core of scientific thought.

The DCA science program fosters students' sense of curiosity about the natural world and gives them a strong understanding of content knowledge and scientific vocabulary, as well as the tools needed to carry out the scientific method. Students are taught that science is an iterative process that requires them to ask critical questions about the world around them. They are given opportunities to design and execute investigative procedures that lead them to logical, reasoned, and empirically supported conclusions. Additionally, we recognize the interdependence of science, engineering, and technology. The inclusion of practical engineering and technology skills in the NGSS are reflected in that students are routinely given tasks where they are asked to develop, test, and optimize design solutions.

DCA offers an NGSS-aligned integrated science curriculum called KnowAtom that focuses on building content knowledge across scientific disciplines in addition to performance expectations. In 6th through 8th grade, students learn physical, earth, and life science. We teach the content through a combination of reading, writing and inquiry-based tasks based on the CCSS Reading Standards for Informational Text and the Writing Standards for Literacy in History/Social Studies, Science, and Technical Subjects. The KnowAtom curriculum has NGSS-designed, grade-specific, K-8 learning progressions. It includes Integrated formative and summative assessments, and Nonfiction reading certified at grade level by The Lexile® Framework for Reading, as well as Online access and digital visuals, tools, and videos that support teachers in their instruction.

We promote inquiry-based learning and create hands-on opportunities for students to engage in the process of scientific investigation and exploration in the classroom. Students learn the process of scientific inquiry through performing labs that require them to demonstrate their investigative skills. As part of the lab procedure, students will engage with their reasoning skills by recording and analyzing data and will be able to draw conclusions that are supported by evidence. Additionally, students have the opportunity to engage with the engineering design process by designing, testing, and

refining prototypes to solve real world problems. With a rigorous, interactive, and comprehensive science program, students will learn to be measured and logical in their thinking as well as innovative. The DCA middle school science program will include continual assessment of students' knowledge and understanding as is done with all other content areas.

***Physical Education***

*PE Content Standards*

*The five (5) overarching model content standards for middle school students are as follows:*

- ***Standard 1:*** Students demonstrate the motor skills and movement patterns needed to perform a variety of physical activities.
- ***Standard 2:*** Students demonstrate knowledge of movement concepts, principles, and strategies that apply to the learning and performance of physical activities.
- ***Standard 3:*** Students assess and maintain a level of physical fitness to improve health and performance.
- ***Standard 4:*** Students demonstrate knowledge of physical fitness concepts, principles, and strategies to improve health and performance.
- ***Standard 5:*** Students demonstrate and utilize knowledge of psychological and sociological concepts, principles, and strategies that apply to the learning and performance of physical activity.

Middle school physical education programs will concentrate on all areas of physical activity and mental development. In a period of increasing obesity among American youth, where approximately, less than 20% of adolescents participated in physical activity for at least 60 minutes daily coupled with approximately 17% (or 12.5 million) of children and adolescents aged 2-19 years are obese, a rigorous program that emphasizes a healthy lifestyle will be the focus of the program.

Due to these alarming statistics, physical education classes will stress the importance of student participation, through regular Moderate to Vigorous Physical Activity (MVPA).

- *Moderate physical activity refers to activities equivalent in intensity to bicycling*
- *Vigorous physical activity produces large increases in breathing or heart rate, such as jogging, aerobics or bicycling uphill;*

*Benefits of regular MVPA for a minimum of 70 % of class time:*

- Increasing MVPA in PE has the greatest potential for increasing health benefits

for most students as it generates more energy expenditure; diabetes; contributes to obesity prevention and muscular and bone development; reduces anxiety and stress; improves self-esteem, mood and concentration; and reduces the risk of chronic disease.

- Active and focused PE can contribute to academic performance, improved attendance and positive classroom behavior.
- Reducing risk of childhood disease that afflicts minority children at much higher rates.

***Heath Education***

We will be compliant with the AB 2601, the bill that includes charter schools in the California Healthy Youth Act (CHYA) requiring middle school students in CA to receive comprehensive sexual health education. We are partnering with Planned Parenthood to make sure that they have access to this important education.

At DCA, we will also offer parent education workshops and professional development training for teachers regarding all the topics related in the Curriculum Model Chart.

***Sample Middle School Daily Schedule***

To address and close the achievement gaps, schools need to think outside the box and use time with maximum efficiency. We have no time to waste! The increase in instructional time in core subjects coupled with the short rotations, allow our students to receive a daily program that provides increased instructional time than that mandated by the state of California.

***Direct Instruction***

AMPS values a direct instruction model. Teachers use a variety of lesson types as they deliver new content and material. While lecture-based lessons are a staple of the instructional methods, inquiry-based lessons and facilitation of student-centered activities are used to support student learning.

*The following table highlights the presentation of a new lesson using Direct Instruction.*

| Technique | Implementation |
|---|---|
| ***Daily review, checking previous day's work, and re-teaching*** *(if necessary)* | -Checking homework<br>-Re-teaching areas where there were student errors<br>-Student cross checks and Questions |
| ***Presenting new content/skills*** | -Objective of lesson or Essential Question clearly written on front board<br>-Provide Preview and overview of new material<br>-Activate prior knowledge established<br>-Proceed in small steps (if necessary), but at a rapid pace<br>-Give detailed or redundant instructions and explanations<br>-New skills are phased in while old skills are being mastered |

***AMPS Middle School State Aligned Curriculum***

All of the AMPS middle school textbooks and curriculum correlate to the state standards and frameworks for a specific grade level and/or subject as mentioned in the department program sections above.

In addition, the Literature program that is based on a combination between the California Department of Education, CCSS, National Reading Panel and Johns Hopkins University – Center for Talented Youth program suggestions. Every suggested novel has correlated objectives, lessons, tests, leveled questions, writing prompts, assessments, and projects that accompany the specific text. Some adjustments may be made in certain courses as the administrators and teachers make adjustments to adapt to the specific needs of their students as assessments results are analyzed.

**PLAN FOR STUDENTS WHO ARE ACADEMICALLY LOW-ACHIEVING**

*Student Study Team, SST*

The Student Study Team (SST) process was designed to provide support to the student and teacher through collaborative approach. It is based on the premise that "Two heads are better than one" when developing plans for students who are having difficulty in school.

The process is based on the 1997 -re-authorization of IDEA and Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. SST documentation can meet most Section 504 requirements.

*Student Study Team,* is an interdisciplinary group that uses a systematic process to address learning and/or behavior problems of students

*Process:*

- Referral
- Gathering Information
- Assessment or evaluations data (if necessary)

- ~~Developing and educational plan~~
- ~~Implementation of the educational plan~~
- ~~Evaluation of progress~~
- ~~Ongoing monitoring and evaluation~~

~~Generally speaking, all referrals should go to the SST referral process. The SST intervention can be bypass for students for whom it would be detrimental or for students whose difficulty is so severe or so unusual as to render the SST as no help. This is a decision made with parent input. English Learners can be referred for an appropriate program but the El teacher at DCA participates in as a team member. Students who are served through the Individual Learning program (ILP) may be considered for difficulties that would normally warrant an SST study, but the placement in ILP is not considered the basis for an automatic request for SST.~~

~~Students that are referred for evaluation for special education consideration should meet the following criteria:~~

- ~~That reasonable classroom interventions of sufficient duration have been carefully attempted, without success, and,~~
- ~~That the cause of the problem is suspected to be a disability that cannot be resolved without education services.~~

~~Our goal and expectation are the same for every student in our campuses. We assure that students of every subgroup and demographic be enrolled in a rigorous program with challenging curriculum and be provided an instructional program that holds high expectations for all. Struggling students' who perform below less than site specific average grade for levels in the initial interim assessment score will be provided with the necessary supplemental instructional support to strengthen their academic growth. An ILP may be initiated as needed for struggling students.~~

~~Downtown Charter Academy will establish a series of interventions that will offer a myriad of support services driven by proportional increases in direct instructional time. In addition to daily instruction, programs such as before school, after school, noncore tutoring (small & individual) programs will be offered according to student needs. Students who continue to struggle through specific subjects receive extra assistance will enter intervention programs such as but not limited too; summer sessions, intercession tutoring, and increased noncore one to one sessions.~~
~~*See Appendix F - Multi-Tiered Systems of Support (MTSS) Overview*~~

***~~Individual Learning Plan (ILP)~~***

# Downtown Charter Academy

2027-2032

~~The Amethod Schools Individual Learning Plan (ILP) is a valuable tool for our schools, teachers, and families to use in differentiating and individualizing instruction to help Amethod School sites attain the goal of eliminating difficulties, frustrations, and even excuses and raising student achievement for every individual student. An ILP is intended to offer a simple to understand tool for individualizing instruction, promoting a team approach, and effort in raising the academic achievement of at-risk students.~~

~~An ILP is a student specific program or strategy that takes into consideration the student's strengths, weaknesses, needs, and most commonly- excuses. It is a tool that allows the school staff to plan, monitor, manage, and evaluate student achievement by identifying student needs and applying interventions based on student needs and a surround style of services and resources.~~

~~Teachers and leaders consider an Individual Learning Plan for all students whose achievement in more than two core classes falls below passing levels. ILP's include assessment information, measurable goals that are realistic yet ambitious for an 8 week period, classroom modifications, curriculum focus, and explicit goals and their corresponding practices for tutors to accomplish with each student in the series or after school interventions.~~

~~This tool is used in our attempt to support student needs in essential skills, and abilities. The ILP is also a necessity in demanding school systems such as ours that requires students to work in a demanding academic program. An ILP typically looks at student strengths and weaknesses based on summative and past formative assessment data and sets individual goals, needs, and outlines. The interventions are implemented to attain goals, set a timeline, responsibilities, and finally, evaluate progress attained at a predetermined assessment date.~~

~~*First Phase*~~

~~Teachers attempt small in class modifications such as preferred seating, cloze notes, etc., before implementing the ILP in the general education classroom. Teachers assess student progress with formative assessments and formative based assessments (end of chapter quizzes, etc.) and establish a *Data Point*. Students, who continue to struggle in the classroom through the initial instructional programs, receive additional support in the classroom.~~

~~As DCA moves towards the addition of technology components to the Learning Lab, students will be offered online tutoring programs in class as the leveraged class style. Adjustments that may be established after this initial phase include adjustments in duration, and frequency of direct instruction. Teachers may meet with smaller groups more often for longer periods of time and may adjust instructional strategies and materials as needed for modifications.~~

# Downtown Charter Academy 2027-2032

*Second Phase*

Students goals laid out in the initial ILP for the general education classroom are set. If a student is identified as significantly below grade level in the first round of assessments, they are given a revised ILP directing their work in an additional period each day during Learning Lab time that offers small group tutoring time as an intervention through the usage of an intern, or highly qualified tutor. During this time, they work directly on the specific skills they are lacking or teachers cross refer students to different classes for grade level remediation. As DCA moves towards the addition of technology components to the Learning Lab, students will be offered online tutoring programs in class as the leveraged class style or within the Learning Lab time.

| | |
|---|---|
| *Math Tutorial* | Students struggling in Math receive intervention through small group and personalized attention from an identified teacher and or volunteer tutor assistant. Utilizing a group tutorial structure, students receive a more individualized instructional setting. |
| *Special Needs/ Academic Success* | Designated Special Education students will be provided extra support to reflect the needs outlined in the IEP and in all of their academic courses through one-on-one instruction, group support and guided instruction. The sessions will last 30-55 minutes 4 days a week or as recommended in their IEP. |
| *Computer Tutoring (Individualized Online Programs)* | Amethod Schools will continue to implement a blended model of education, where technology is effectively integrated in every classroom and program, where students rotate on and off workstations throughout the day. Students who are not utilizing online content receive the kind of small-group and individualized instruction that will meet their diverse learning needs. Students will learn in groups of up to 17 in the core subject areas of reading, writing, math, science, and history. The students positioned at the computers will engage in personalized, adaptive programs, which tailor instruction to the appropriate level for each participant. |
| *Homework Club* | Students who are struggling with a particular class or simply want more support in a subject can attend homework club, which is offered for an hour every day after school and run by a credentialed teacher, paraprofessionals, and/or college interns. |

| | |
|---|---|
| *One to Ones* | If a student continues to struggle after the second phase assessments (see below), they are assigned a one to one time to work with an identified tutor during noncore instructional time. Concept mastery is the target goal for these students. |
| *Intersession Groups* | Some students will require much more ongoing support, as such our schools provide an extended school year in the form of interim time off intercessions for students. Teachers and administrators meet with families to discuss the program as needed. |

**INTERVENTION IS PROVIDED WITH A VERY SPECIFIC 6-8 WEEK PLAN COMBINING SUGGESTIONS FROM THE CLASSROOM TEACHER USED TO GET A STUDENT TO MEET THEIR TARGET AT THE END OF 8 WEEKS. INTERIM ASSESSMENTS ARE GIVEN EVERY 8-9 WEEKS AND WILL CAPTURE THE PROGRESS TOWARDS SET GOALS OF EVERY INDIVIDUAL STUDENT AS MEASURED AGAINST THE WORK ASSIGNED. IF THE STUDENT STILL IS NOT MAKING ADEQUATE PROGRESS, THE SITE DIRECTOR MAY FORM A STUDENT STUDY TEAM PROCESS AND REVISE THE INDIVIDUALIZED LEARNING PLAN.**

***THIRD PHASE***

**IF THE STUDENT FAILS TO MAKE PROGRESS IN BOTH PHASE 1 AND PHASE 2 INTERVENTIONS AFTER 2 INTERIM CYCLES (12 WEEKS), THEY ENTER INTO A MORE COMPREHENSIVE ASSESSMENT PROCESS FOR FURTHER DIAGNOSTICS AND RECOMMENDATIONS. A STUDENT STUDY TEAM (SST) MUST BE ESTABLISHED BY THE SITE DIRECTOR TO SEEK A TEAM RESPONSE TO NEEDED INTERVENTIONS. AT THIS PHASE, A HOME VISIT MAY BE IMPLEMENTED BY THE SST MEMBERS AS NEEDED.**

***INTERVENTION OVERVIEW (LEARNING LAB)***

**DCA HAS EXPANDED ON THE CONCEPT OF TUTORING AND SUPPLEMENTAL ASSISTANCE AND DEVELOPED AND IMPLEMENTED THE USAGE OF THE LEARNING LAB AS A PLACE WHERE STUDENTS CAN RECEIVE SMALL GROUP TUTORING, SUPPLEMENTAL AND PREPARATORY INSTRUCTION, COMPUTER ADAPTIVE ASSISTANCE, TECHNOLOGY AND HOMEWORK HELP. THE LAB WILL BE ONGOING THROUGHOUT THE DAY, INCLUDING BEFORE AND AFTER SCHOOL AND WILL BE LED PROVIDED BY THE ONSITE LAB COORDINATOR, INSTRUCTIONAL ASSISTANTS, AND PEER TUTORS. THE FOLLOWING DESCRIBES A FEW OF THE PROGRAMS THAT WILL BE A PART OF THE LEARNING LAB.**

IN DEVELOPING THE 504 PLAN, THE 504 TEAM SHALL CONSIDER ALL RELEVANT INFORMATION UTILIZED DURING THE EVALUATION

OF THE STUDENT, DRAWING UPON A VARIETY OF SOURCES, INCLUDING, BUT NOT LIMITED TO, ASSESSMENTS CONDUCTED BY THE CHARTER SCHOOL'S PROFESSIONAL STAFF.

THE 504 PLAN SHALL DESCRIBE THE SECTION 504 DISABILITY AND ANY PROGRAM ACCOMMODATIONS, MODIFICATIONS OR SERVICES THAT MAY BE NECESSARY.

ALL 504 TEAM PARTICIPANTS, PARENTS, GUARDIANS, TEACHERS AND ANY OTHER PARTICIPANTS IN THE STUDENT'S EDUCATION, INCLUDING SUBSTITUTES AND TUTORS, MUST HAVE A COPY OF EACH STUDENT'S 504 PLAN. THE SITE ADMINISTRATOR WILL ENSURE THAT TEACHERS INCLUDE 504 PLANS WITH LESSON PLANS FOR SHORT-TERM SUBSTITUTES AND THAT HE/SHE REVIEW THE 504 PLAN WITH A LONG-TERM SUBSTITUTE. A COPY OF THE 504 PLAN SHALL BE MAINTAINED IN THE STUDENT'S FILE. EACH STUDENT'S 504 PLAN WILL BE REVIEWED AT LEAST ONCE PER YEAR TO DETERMINE THE APPROPRIATENESS OF THE PLAN, NEEDED MODIFICATIONS TO THE PLAN, AND CONTINUED ELIGIBILITY.

~~PLAN FOR ENGLISH LEARNERS~~**SPECIAL POPULATIONS**~~S~~

**Students who are Academically Low Achieving**

DCA sets high expectations for all students and is committed to identifying and

supporting students who are not yet meeting academic outcomes. The Charter School is designed to respond to students who enter below grade level, are not yet meeting State Standards, or are performing below their demonstrated potential. DCA's school size, structured learning environment, teacher collaboration, family communication, and MTSS process allow staff to identify students early, monitor progress, and provide targeted support.

Academically low-achieving students are identified through multiple measures, which may include classroom assessments, grades, student work, benchmark assessments, MAP Growth assessments, prior year CAASPP results, ELPAC results when applicable, teacher observations, intervention data, and other locally available academic information. A student may be identified for additional academic support when the student is performing significantly below grade level, is not meeting standards on state or local assessments, demonstrates limited mastery on benchmark or classroom assessments, fails to demonstrate expected academic growth, or is otherwise identified by teachers or school staff as needing additional support.

DCA takes a systematic approach to closing academic gaps by embedding intervention and support within the instructional program. The best intervention strategies are accessible during core content instruction and are strengthened through small group instruction, reteaching, targeted skill practice, progress monitoring, and family communication. Teachers use assessment data and student work to determine areas of need and provide in-class individual or small group targeted instruction. Students may also receive additional support through intervention periods, teacher office hours, before- or after-school support, tutoring, and other academic support opportunities based on need.

Students identified as academically low-achieving may receive a mix of intervention services through DCA's MTSS process and COST recommendations. These services may include in-class targeted instruction by classroom teachers, extended learning support, small group guided instruction, individual or small group tutoring, reteaching of specific standards or skills, support with assignments and homework completion, study skills and time management support, and use of supplemental instructional materials or digital platforms such as IXL, Lexia, or other approved programs. Intervention materials may be teacher-designed, curriculum-aligned, or research-based, and are selected based on the student's identified needs.

Classroom teachers are also available during designated office hours or support times for small group and individual review sessions. Students who need additional support are encouraged to attend these sessions regularly. During these sessions, teachers may reteach material, review assignments, provide individualized instruction, support organization and study habits, clarify misconceptions, or provide additional opportunities for students to demonstrate understanding.

DCA's Professional Learning Communities and staff collaboration structures support the monitoring of academically low-achieving students. During meetings and informal collaboration time, teachers and school leaders review student progress, identify areas of need, discuss effective intervention strategies, and adjust supports based on student data. These conversations help ensure that students are not supported in isolation, but through a coordinated schoolwide system.

Progress monitoring is a central part of DCA's intervention process. As part of MTSS and RtI², DCA monitors student progress through teacher observation, classroom assessments, intervention assessments, benchmark assessments, grades, attendance, student work, and other relevant data. If a student responds successfully to intervention, staff may continue supports, adjust the level of support, or develop a gradual fade plan. If a student does not make adequate progress, staff review the intervention data, communicate with the family, and may refer the student to COST or the Student Study Team process for additional review and support.

**Students who are Academically High Achieving**

DCA expects all students to reach high standards of academic success. For students who are academically high-achieving, DCA provides opportunities to extend learning, increase academic challenge, deepen content knowledge, and develop the habits of scholarship, leadership, and independence necessary for success in high school, college, and life.

DCA identifies students who are academically high-achieving through multiple measures, which may include grades, classroom performance, formative and summative assessments, benchmark assessments, CAASPP results, teacher recommendations, student work, participation, and other measures of academic progress. DCA seeks to identify academically high-achieving students from varying linguistic, economic, cultural, and educational backgrounds so that students with strong academic potential have access to appropriate enrichment and challenge.

Teachers support academically high-achieving students through differentiated instruction, flexible grouping, extension activities, advanced questioning, complex texts, independent projects, small group research projects, applied learning opportunities, and opportunities to demonstrate learning in more sophisticated ways. Teachers may use pre-assessments to identify concepts or skills students have already mastered and then provide enrichment, deeper application, or accelerated learning activities that allow students to continue growing rather than simply completing more of the same work.

DCA also encourages academically high-achieving students to develop leadership, collaboration, and communication skills. Students may have opportunities to serve as peer leaders, participate in clubs and competitions, support school events, act as ambassadors for the Charter School, contribute to school culture, or participate in enrichment activities that allow them to explore areas of interest. These opportunities

help students build confidence, responsibility, and a strong connection to the DCA community.

DCA's after-school and enrichment opportunities further support students who are academically high-achieving. DCA offers a variety of activities, including homework help and tutoring, yearbook, sports, visual arts, Mandarin Club, and other activities. These programs provide students with opportunities to extend learning, explore interests, build talents, and remain engaged in a safe and structured school environment.

Amethod Public Schools has also partnered with the Johns Hopkins University Center for Talented Youth ("CTY"), and DCA is identified as a proud partner of CTY. Through this partnership, eligible students may have opportunities to participate in college-level summer programs and online courses. These opportunities support academically high-achieving students by exposing them to advanced academic content, college-like learning experiences, and enrichment beyond the regular school program.

DCA also uses tutoring and academic support as part of its broader commitment to student growth. Tutoring and support opportunities are available to help students strengthen foundational skills, complete coursework, receive additional practice, and continue making progress. For academically high-achieving students, these supports may also help students maintain strong performance, prepare for more advanced academic expectations, and develop the study habits and confidence needed for future high school coursework. When students demonstrate readiness for additional challenge, teachers and staff work to connect students to appropriate enrichment, leadership, and academic extension opportunities within the regular school day, after-school program, or approved external programs.

**Supporting Socioeconomically Disadvantaged Students**

DCA serves a significant percentage of socioeconomically disadvantaged students and designs its educational program to ensure that all students have access to rigorous instruction, instructional materials, technology, enrichment, intervention, and schoolwide opportunities. The Charter School's priority in serving SED students is to provide the support necessary for students to succeed despite socioeconomic barriers and prior lack of access to educational opportunities. The goal is to close opportunity gaps and ensure that all students can fully participate in DCA's educational program.

DCA supports SED students by providing access to instructional materials, technology, academic support, intervention, enrichment, family engagement, social-emotional supports, and schoolwide activities. Students have access to Chromebooks or other appropriate technology, and DCA seeks to support internet access when needed to help close the digital divide. Students receive technology support for equipment and instructional platforms. Students also have opportunities to participate in extracurricular activities, clubs, field trips, study trips, enrichment activities, athletics, arts, after-school programming, and Charter School celebrations that they may not

otherwise be able to access due to cost, transportation, or other barriers. Funds are allocated, as available, to ensure that students have access to educational opportunities and schoolwide programs.

DCA also recognizes that SED students may face challenges related to attendance, transportation, housing instability, health, food insecurity, access to quiet study space, technology access, and family stress. Teachers and staff monitor student progress, communicate with families, and connect students to available supports. DCA's instructional model combines high expectations with practical supports so that SED students are not limited by barriers outside the classroom. Through MTSS, academic intervention, family communication, tutoring, counseling, after-school support, and schoolwide engagement opportunities, DCA works to ensure that SED students are able to access the full Charter School program and make meaningful academic and personal progress.

**Supporting the Social-Emotional Needs of Students**

DCA is dedicated to building a community of students who respect one another, take responsibility for their choices, and develop the social-emotional skills necessary for academic success and personal growth. In addition to a strong commitment to social-emotional learning, DCA implements positive reinforcement, relationship building, restorative practices, and behavior supports to teach important life skills and build a positive Charter School community.

Students are regularly acknowledged for demonstrating Charter School values, making positive choices, showing kindness, persevering through challenges, collaborating with peers, and contributing to the classroom and Charter School community. Positive reinforcement occurs through classroom systems, campuswide recognition, teacher feedback, peer recognition, family communication, and other developmentally appropriate approaches.

DCA uses Positive Behavioral Interventions and Supports ("PBIS"), restorative practices, and MTSS to support students' academic, behavioral, attendance, and social-emotional needs. PBIS provides clear expectations, consistent routines, positive reinforcement, and data-informed behavioral supports. Restorative practices help students understand the impact of their actions, repair harm, restore relationships, and build responsibility. These practices support a safe and respectful learning environment and help reduce exclusionary discipline by addressing the underlying needs of students.

Social-emotional supports are embedded throughout the instructional day. Teachers and staff help students build skills in self-awareness, self-management, responsible decision-making, relationship building, conflict resolution, empathy, perseverance, and positive peer interaction. These supports are particularly important in middle school, where students are developing academic identities, independence, peer relationships, emotional regulation, and lifelong learning habits. Students may also receive counseling, check-ins, small group support, family conferences, and referrals to

additional resources when needed. Teachers receive training and support that reinforce the holistic supports students receive.

**Supporting Foster Youth and Children Experiencing Homelessness**

DCA recognizes the importance of providing homeless and foster youth with a supportive educational environment. Under the McKinney-Vento Homeless Assistance Act and applicable law, homeless and foster youth receive services and support to ensure equal access to the same free, appropriate public education as other students and to remove barriers to enrollment, attendance, participation, and retention. The Charter School works to identify, enroll, monitor, and support homeless and foster youth in accordance with applicable law and Charter School policy.

DCA designates a Homeless Liaison who provides outreach to families and coordinates services between the family, Charter School, and appropriate agencies. The Homeless Liaison supports identification, immediate enrollment, access to school records, immunization records, academic supports, and connection to appropriate resources. The Charter School is committed to providing a high-quality education and appropriate supports to ensure that homeless youth have the opportunity to succeed.

DCA cultivates a respectful Charter School culture in which homeless and foster youth feel safe approaching adults on campus for assistance with resources, counseling, academic support, or guidance. Foster youth and homeless youth have full access to all programs offered by the Charter School, including academic intervention, enrichment, extracurricular activities, field trips, technology, counseling supports, after-school programming, and other opportunities.

The Homeless Liaison assists with referrals to health, dental, mental health, housing, food, transportation, and other appropriate services. The Homeless Liaison also assists parents, guardians, or unaccompanied youth with enrollment, immunization records, school records, and access to educational services. The Homeless Liaison encourages parents and guardians to participate in their child's education and ensures that they are informed of educational and related opportunities to support student success.

To facilitate the education of homeless students, DCA may provide or coordinate access to a device, internet access, transportation assistance, clothing, shoes, laundry supplies, food, toiletries, school supplies, field trip support, social-emotional counseling, academic support, mentoring, tutoring, and a backpack with school supplies, as resources allow. DCA may also provide a quiet space for students to complete work during the school day or during available support times. The Charter School may reserve or allocate funds, as available and allowable, to support homeless and foster youth with clothing, transportation, school materials, medical supports, tutoring, and other appropriate expenses. DCA ensures that homeless and foster youth are able to participate fully in the educational program and related opportunities without barriers caused by housing instability or foster care placement.

The Principal, Homeless Liaison, and appropriate staff receive training and support to ensure appropriate identification, legal compliance, and coordination of services for homeless and foster youth. DCA works with AMPS, the County, community agencies, and other appropriate partners, as needed, to support students and families.

**Supporting Students Who Need Behavioral Support**

DCA supports students who need behavioral support through PBIS, restorative practices, classroom management systems, MTSS, COST, behavior interventions, SST review, family communication, and, when appropriate, behavior support plans. Teachers and staff use proactive strategies to teach expectations, reinforce positive behavior, and respond to behavior concerns in a consistent and supportive manner.

Students who require more targeted behavior support may receive check-ins, goal setting, mentoring, small group social skills instruction, counseling support, restorative conversations, behavior contracts, check-in/check-out, conflict mediation, or other interventions. DCA's goal is to help students build replacement skills, understand expectations, repair harm when appropriate, and remain engaged in learning.

If a student's behavior may be related to a disability, DCA follows applicable Section 504 and special education procedures. Behavior supports are designed to keep students engaged in learning, promote responsibility, maintain a safe and respectful Charter School environment, and ensure that students receive appropriate support before concerns escalate.

**Supporting Student Attendance and Engagement**

DCA recognizes that attendance and engagement are essential to student success. The Charter School monitors attendance regularly and communicates with families regarding absences, tardies, and patterns of disengagement. Staff work with families to identify barriers to attendance and connect students to appropriate supports.

Attendance interventions may include parent or guardian communication, attendance meetings, student check-ins, academic support, counseling support, referrals to community resources, transportation assistance when available, COST review, and SST review when attendance concerns are connected to academic, behavioral, social-emotional, health, housing, or family needs.

DCA promotes engagement through meaningful instruction, strong relationships, academic support, family communication, enrichment activities, after-school opportunities, positive behavior supports, and a supportive Charter School culture. DCA's very low chronic absenteeism rates reflect the Charter School's strong attendance culture, student connection to school, and consistent family engagement. Staff continue to monitor attendance data and provide timely support so that students remain present, engaged, and ready to learn.

**Supporting English Learners**

It is vital that schools address the needs of this growing demographic. DCA has high expectations and offers a demanding academic program for all students, regardless of any language or placement classification. Access to high-quality English instruction for ELs is an issue of equity. English proficiency in our society serves as a powerful gatekeeper, opening doors to opportunity for those who reach proficiency and limiting or closing doors to opportunity for those who do not. As such, DCA is committed to effectively serving students who are ELs through a comprehensive approach to language instruction.

The Charter School will meet all applicable legal requirements for ELs, including newcomers, Long-Term English Learners or English Learners At Risk of becoming Long-Term English Learners ("LTELs"), and Reclassified Fluent English Proficient ("RFEP") students, as they pertain to annual notification to parents/guardians, student identification, placement, program options, ELD and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, progress monitoring ELs toward reclassification, progress monitoring students who have been reclassified in the previous four years, and standardized testing requirements. The Charter School will implement policies to ensure proper placement, evaluation, and communication regarding ELs and the rights of students and parents/guardians. In addition, the Charter School will meet all requirements of federal and state law relative to equal access to the curriculum for EL students.

The goal is to utilize high-quality instructional programs and services for ELs that allow them, as quickly as possible, to achieve at the same challenging grade-level standards as native English-speaking students. The Charter School is dedicated to providing these students with an exceptional education, facilitating English proficiency as soon as possible. DCA recognizes multilingualism as an asset and values students' home languages and cultures while supporting English language development. The Charter School's approach focuses on the student's social, emotional, and academic development within and outside of the classroom. Building on the student's existing strengths, DCA focuses on preparing ELs to succeed in middle school, high school, college, and their chosen career.

***Identification of English Learners***

To identify ELs in a timely manner and provide appropriate instructional support and services, all parents and guardians are required to complete a Home Language Survey upon enrollment at Kidinnu Academy, consistent with Education Code Section 52164.1. Students whose home language is identified as a language other than English are assessed using the English Language Proficiency Assessments for California ("ELPAC") if they have not previously been identified as an English Learner by a California public Charter School or public school, or if there is no record of prior ELPAC results. Kidinnu Academy also verifies students new to the Charter School through

CALPADS to access relevant EL data and ensure proper placement in designated ELD and other language supports.

***English Language Proficiency Assessment***

All students identified as ELs are tested with the ELPAC. The ELPAC consists of two separate assessments, which are detailed below:

Initial Assessment ("IA"):
The ELPAC IA is used to identify students as either an English Learner, or as fluent in English. The IA is administered only once during a student's time in the California public school system based upon the results of the Home Language Survey. The locally scored IA will be the official score. The IA is given to students in grades K-12 whose primary language is not English to determine their English proficiency status.

Summative Assessment ("SA"):
Once a student is identified as an English Learner, the student will take the SA every year until the student is RFEP. The ELPAC SA is only given to students who have previously been identified as an EL based upon the IA results, in order to measure how well they are progressing with English development in each of the four domains. The results are used as one of four criteria to determine if the student is ready to be reclassified as fluent English proficient, to help inform proper educational placement, and to report progress for accountability.

The ELPAC has four proficiency levels and is aligned with the 2012 California ELD Standards:

1. Level 1: Minimally Developed
2. Level 2: Somewhat Developed
3. Level 3: Moderately Developed
4. Level 4: Well Developed

Both the ELPAC SA and IA are assessments administered in seven grade spans: K, 1, 2, 3-5, 6-8, 9-10, and 11-12. For ELs within DCA's grade span, the test is administered in groups, exclusive of speaking, which is administered individually. The ELPAC IA and SA will be administered via a computer-based platform.

Testing times will vary depending upon the grade level, domain, and individual student. Both the ELPAC IA and SA are given in separate testing windows throughout the school year.

The IA testing window is year-round, July 1 through June 30. Any student whose primary language is other than English as determined by the Home Language Survey and who has not previously been identified as an English Learner by a California public

school or for whom there is no record of results from an administration of an English language proficiency test, shall be assessed for English language proficiency within thirty calendar days after the date of first enrollment in a California public school, or within sixty calendar days before the date of first enrollment, but not before July 1 of that school year.

The SA testing window is determined by the CDE. The English language proficiency of all currently enrolled ELs shall be assessed by administering the test during the annual assessment window.

The Charter School will notify all parents/guardians of its responsibility for ELPAC testing and of ELPAC results within thirty days of receiving results from the publisher. The ELPAC shall be used to fulfill the requirements under the ESSA for annual English proficiency testing.

The English language proficiency of all currently enrolled ELs, including newcomers and LTELs, will be assessed in accordance with the test contractor's directions and Education Code guidelines. Students with disabilities will be permitted to take the test with the accommodations listed in the Education Code if they are specified in the student's IEP or Section 504 Plan. An alternate assessment for English language proficiency will be administered to students who are unable to participate in the ELPAC, according to the guidelines set forth in the student's IEP. For EL students who have IEPs, DCA will ensure that linguistically appropriate IEPs are developed, including the components required by Education Code Section 56345(b).

***Reclassification Procedures***

Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the ELPAC.
- Teacher evaluations, including, but not limited to, a review of the pupil's curriculum mastery.
- Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents/guardians' opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process.
- Comparison of the pupil's performance in basic skills against an empirically established range of performance in basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English.

- DCA may consider CAASPP scores when available, iReady, or other local assessment data, grades in English Language Arts and other core classes, writing samples, teacher evaluation, classroom performance, and other empirical data when applying the basic skills criterion.

Students who have met the criteria to be reclassified from English Learner to Fluent English Proficient will be monitored for four years. Documentation will be completed by classroom teachers and filed in the students' cumulative folders.

***Specific Reclassification Procedures for Students with Disabilities***

Students with disabilities are afforded the same opportunities for reclassification as their peers without disabilities. To ensure equity, IEP teams are tasked with determining the most appropriate measures of English language proficiency and performance in basic skills for each student. These measures should reflect the proficiency levels expected of a native English-speaking peer with similar disabilities at the same grade level.

In alignment with federal and state laws, the IEP team may use multiple criteria alongside the four reclassification criteria outlined in the California Education Code. This approach allows the IEP team to address the unique needs of ELs with disabilities, ensuring that the reclassification decision is both appropriate and individualized.

Key Points:

1. Customized Measures

The IEP team may identify alternative or supplemental measures of English language proficiency that are tailored to the student's disability. These measures should aim to equate the student's performance with that of a native English-speaking peer with similar disabilities.

2. Multiple Criteria Approach

The IEP team can consider additional criteria beyond the standard reclassification metrics to make a well-rounded decision. This ensures that the student's reclassification is based on a comprehensive evaluation of the student's abilities.

3. Equity in Reclassification

The IEP team's goal is to provide an equitable pathway to reclassification, ensuring that all students, regardless of disability, have the opportunity to demonstrate English proficiency and succeed in a mainstream English program.

***Strategies for English Learner Instruction and Intervention***

At DCA, students are offered designated ELD and provided access to grade-level academic subject matter content with integrated ELD. The integration of ELs with their

non-EL peers improves access and equity for all students to grade-level curriculum, instruction, and assessment. It also emphasizes for teachers the importance of utilizing the ELA/ELD Framework.

Integrated ELD is regular class time where teachers with ELs in their classrooms use the 2012 ELD Standards in tandem with the content State Standards. To better access the core curriculum, all ELs receive Integrated ELD, which is taught by credentialed staff with EL authorizations. Language objectives, vocabulary supports, and formal and informal language practice engage ELs with their non-EL peers through collaboration, interpretation, and production of the English language.

Every teacher at DCA is accountable for teaching the ELs in their classroom. EL instruction is not the responsibility of one teacher or one period alone. Teachers use strategies that support vocabulary and language development, guided interaction, collaborative learning, metacognition, authentic assessment, explicit instruction, meaning-based context, modeling, graphic organizers, visuals, sentence frames, structured academic discourse, and opportunities for speaking, listening, reading, and writing across content areas.

As outlined by the State, key components of Integrated ELD include:

- Effective instructional experiences for ELs throughout the day and across disciplines;
- Interactive and engaging, meaningful and relevant, and intellectually rich and challenging instruction;
- Appropriate scaffolding in order to provide strategic support that moves learners toward independence; and
- Instruction that builds both content knowledge and English, values primary language and culture, and builds on other forms of prior knowledge.

Designated ELD is a protected time during the regular school day when teachers use the 2012 ELD Standards as the focal standards. This allows students to develop critical English language skills, knowledge, and abilities needed for content learning in English.

DCA's goal is to help EL students make rapid progress out of levels 1 and 2 and into levels 3 and 4 so that students leave the Charter School proficient in the English language, properly redesignated, and with pride and support for their home language. DCA believes that the most effective instructional approach is to embed ELD principles in all aspects of the curriculum and to teach explicit ELD during a protected portion of the school day.

Designated ELD is built into the daily schedule and taught by teachers with proper authorization. Students are placed into designated ELD supports based on their English proficiency levels and identified needs. Curriculum and lessons are based on

the ELD Standards and include opportunities to speak informally while also using academic language. Students in designated ELD receive instruction designed to build listening, speaking, reading, writing, and language skills. The overall goal of DCA's EL program is to reclassify students as RFEP.

***ELA/ELD Framework***

DCA's ELA and ELD instruction is aligned to the California ELA/ELD Framework. The framework emphasizes that all students should develop readiness for college, careers, and civic life, attain the capacities of literate individuals, become broadly literate, and acquire 21st Century skills for living and learning. In the middle school context, DCA interprets this goal as preparing students with the literacy, language, content knowledge, critical thinking, collaboration, and communication skills needed for success in high school and beyond.

The ELA/ELD Framework describes effective instruction as integrated, motivating, engaging, respectful, and intellectually challenging for all students at all grade levels. The key cross-cutting themes of ELA/Literacy and ELD include meaning making, language development, effective expression, content knowledge, and foundational skills. These themes connect ELA standards with ELD standards and support language development through rigorous content learning.

California ELD Standards focus on the purpose, process, and resources of English language development. The purpose of ELD instruction is to ensure that students use English purposefully, interact in meaningful ways with others, and learn the structures of the English language. DCA uses this framework to provide both integrated and designated ELD for ELs.

***Newcomers***

The term "newcomer" is used for students who meet the following criteria: (1) born outside of the United States; (2) first enrolled in U.S. schools on or after April 15 of the prior year; and (3) classified as an English Learner based on the Initial ELPAC.

Newcomers are supported by general education teachers, the EL Teacher, tutors, and other support staff through the use of integrated ELD strategies. Students also learn and practice English through formal and informal interactions with peers at different levels of English language proficiency. Newcomers receive both integrated and designated ELD during the school day through core instruction, designated ELD, intervention, and support opportunities.

Creating a welcoming environment is essential for newcomers and their sense of belonging in school. At DCA, newcomers, their families, and their language(s) are valued, respected, and seen as assets. DCA supports newcomers by building relationships, encouraging participation in academic discourse and informal social dialogue, celebrating growth and progress, and connecting families to appropriate school and community supports.

Newcomers are also able to access one-on-one or small group tutoring, after-school academic support, enrichment activities, counseling services, and other appropriate supports as needed. DCA prioritizes community partnerships when available so that students and families can receive additional support beyond what the Charter School can provide directly.

***Monitoring Progress of Reclassified Fluent English Proficient Students***

Reclassified students will be monitored through DCA's MTSS process. Those found to be regressing in their academic performance will be referred to receive academic intervention in the specific area of need. Interventions may include after-school tutoring, one-on-one support, small group support, supplemental programs that target specific skills, academic intervention, SST referral when appropriate, and/or other supports as needed. RFEP students will be monitored for four years after being reclassified.

The Principal, ELL Teacher, classroom teachers, or designee maintains a list of students identified as RFEPs and monitors academic progress using CAASPP data when available, benchmark scores, grades, classroom performance, teacher feedback, assignment completion, participation in class discussions, ability to work independently, attendance, and engagement.

***Monitoring English Learner Progress***

Teachers monitor EL progress through ELD records, assessment results, classroom performance, writing samples, oral language observations, and work samples to measure progress in comprehension, fluency, vocabulary, pronunciation, grammar usage, reading, writing, listening, and speaking. Teachers provide regular progress information to parents and guardians regarding student growth in English proficiency and academic performance.

DCA maintains records for students identified as ELs, including ELPAC results, CAASPP results when applicable, enrollment history, reclassification information, years in U.S. schools when applicable, progress data, and intervention information. The Charter School maintains ELD information that may include the Home Language Survey, ELPAC results, reclassification forms, and RFEP monitoring forms.

DCA provides intervention to ELs who are not making adequate progress in English proficiency or academic achievement. Students who score below standard or near standard in English Language Arts or mathematics on state or local assessments may receive targeted intervention, small group instruction, additional language support, or SST review when appropriate.

***Monitoring and Evaluation of Program Effectiveness***

The Charter School evaluates the effectiveness of its education program for ELs by:

- Adhering to school-adopted academic benchmarks by language proficiency level and years in program to determine annual progress.
- Monitoring teacher qualifications and the use of appropriate instructional strategies based on program design.
- Monitoring student identification and placement.
- Monitoring parent and guardian program information and communication.
- Monitoring availability of adequate resources.
- Reviewing ELPAC results, local assessment data, classroom performance, reclassification rates, RFEP monitoring data, and subgroup performance.
- Using data to adjust designated ELD, integrated ELD, intervention, and professional development.

In addition, the EL program evaluation will take place through the analysis of the most current Summative ELPAC scores. After the release of the Charter School's Summative ELPAC scores, staff will review students' progress on the Summative ELPAC between school years. This information is used to inform programming decisions such as designated ELD scheduling and staffing, a focus for ongoing professional development specific to the needs of ELs, and reclassification prior to the start of a new school year. These decisions are aligned with Charter School and AMPS strategic priorities and reported to educational partners, as appropriate.

The program evaluation includes the degree to which:

1. ELs are attaining English language proficiency within five to seven years.
2. Programs and activities assist ELs to attain proficiency and meet academic achievement and content standards, including review of EL chronic absenteeism.
3. Necessary improvements are made to programs and activities for which Title III funds have been used for ELs.
4. Specific EL activities proven to be ineffective are eliminated or replaced.

~~**THE ENGLISH LANGUAGE LEARNER (EL) STUDENT POPULATION CONTINUES TO GROW MORE RAPIDLY THAN THE STUDENT POPULATION AS A WHOLE, ESPECIALLY IN CALIFORNIA. THEREFORE, IT IS VITAL THAT SCHOOLS ADDRESS THE NEEDS OF THIS GROWING DEMOGRAPHIC AND PROVIDE A PROGRAM THAT IS RESPONSIVE TO THE CULTURE AND NEEDS OF THE ENGLISH LANGUAGE LEARNER POPULATION. DCA WILL MEET ALL LEGAL REQUIREMENTS FOR ENGLISH LEARNERS AS THEY PERTAIN TO ANNUAL NOTIFICATION OF PARENTS, STUDENT IDENTIFICATION, EL AND CORE CONTENT INSTRUCTION, TEACHER QUALIFICATIONS, RECLASSIFICATION, AND MONITORING, TRAINING, AND**~~

~~STANDARDIZED TEST REQUIREMENTS. DCA WILL EXERCISE THE AUTONOMIES AFFORDED BY EDUCATION CODE 47600 (CHARTER SCHOOLS ACT OF 1992), AS IT ESTABLISHES METHODOLOGIES AND PRACTICES, ALL WITHIN THE LAW, THAT MAY BE DIFFERENT THAN THOSE OF THE SCHOOL DISTRICT IN WHICH IT OPERATES.~~

~~DOWNTOWN CHARTER ACADEMY IMPLEMENTS POLICIES TO ASSURE PROPER PLACEMENT, EVALUATION, AND COMMUNICATION REGARDING EL STUDENT PROGRAMS AND FAMILY HOME LANGUAGE TRANSLATIONS. MOST ASSUREDLY, DCA WILL HOLD HIGH EXPECTATIONS FOR ENGLISH LANGUAGE LEARNERS (EL) POPULATION, AND WILL ASSURE THAT A RIGOROUS AND SUPPORTIVE ACADEMIC PROGRAM IS OFFERED TO ALL STUDENTS.~~

~~STRUCTURALLY, AMETHOD SCHOOL CAMPUSES RUN A FULL-INCLUSION PROGRAM FOR OUR EL STUDENTS. EL STUDENTS WILL NOT BE IN BILINGUAL INSTRUCTION CLASSES AT DCA. FROM THE FIRST DAY OF SCHOOL, ENGLISH LEARNER STUDENTS WILL BE IMMERSED IN ENGLISH, WITH THE SUPPORT THEY NEED TO LEARN THE LANGUAGE AND DEVELOP THE GRAMMATICAL FRAMEWORK AND VOCABULARY NEEDED TO BEGIN DEVELOPING AS READERS AND WRITERS.~~

~~ALTHOUGH IT IS DIFFICULT TO CATEGORIZE A STUDENT INTO A SINGLE ENGLISH LANGUAGE DEVELOPMENT (ELD) STAGE, THEY ARE HELPFUL FOR THINKING ABOUT THE DIFFERENT SCAFFOLDING NECESSARY TO PROVIDE FOR STUDENTS ACCORDING TO THEIR PROFICIENCY DESCRIPTORS:~~

- ~~EMERGING: STUDENTS AT THIS LEVEL TYPICALLY PROGRESS VERY QUICKLY, LEARNING TO USE ENGLISH FOR IMMEDIATE NEEDS AS WELL AS BEGINNING TO UNDERSTAND AND USE ACADEMIC VOCABULARY AND OTHER FEATURES OF ACADEMIC LANGUAGE.~~

- ~~EXPANDING: STUDENTS AT THIS LEVEL ARE CHALLENGED TO INCREASE THEIR ENGLISH SKILLS IN MORE CONTEXTS AND LEARN A GREATER VARIETY OF VOCABULARY AND LINGUISTIC STRUCTURES, APPLYING THEIR GROWING LANGUAGE SKILLS IN MORE SOPHISTICATED WAYS THAT ARE APPROPRIATE TO THEIR AGE AND GRADE LEVEL.~~

- ~~BRIDGING: STUDENTS AT THIS LEVEL CONTINUE TO LEARN AND APPLY A RANGE OF HIGH-LEVEL ENGLISH LANGUAGE SKILLS IN A WIDE VARIETY OF CONTEXTS, INCLUDING COMPREHENSION AND PRODUCTION OF HIGHLY TECHNICAL TEXTS. THE "BRIDGE" ALLUDED TO IS THE TRANSITION TO FULL ENGAGEMENT IN GRADE-LEVEL ACADEMIC TASKS AND ACTIVITIES IN A VARIETY OF CONTENT AREAS WITHOUT THE NEED FOR SPECIALIZED ELD INSTRUCTION.~~

~~HOWEVER, AS EXPLAINED BELOW IN *LANGUAGE LIVE* CURRICULUM, ELS AT ALL LEVELS OF ENGLISH LANGUAGE PROFICIENCY FULLY PARTICIPATE IN GRADE-LEVEL TASKS IN ALL CONTENT AREAS WITH VARYING DEGREE. TEACHERS TARGET DISTINCT SKILLS AND STRATEGIES THAT INCLUDE ORAL LANGUAGE COMPREHENSION AND PRODUCTION. THUS, SOME OF THE LANGUAGE LIVE BLOCKS FOCUS ON ORAL LANGUAGE DEVELOPMENT AND COMPREHENSION ACTIVITIES. THIS IS MADE POSSIBLE THROUGH THE OVER 72 DAILY MINUTES IN THE CLASSROOM THAT CAN BE SEGMENTED INTO INDIVIDUALIZED OR SMALL GROUP INSTRUCTION. THROUGH THIS SMALL GROUP, A STUDENT IS ABLE TO RECEIVE SPECIFIC LANGUAGE INSTRUCTION AND THEY ARE ABLE TO FURTHER DEVELOP THEIR LANGUAGE PROFICIENCY THROUGH RE-TELLS, EXPLICIT VOCABULARY LESSONS, AND A SMALL GROUP FOCUS ON LETTERS, WORD PATTERNS, SPELLING, BLENDS, SOUNDS, ETC.~~

~~*HOME LANGUAGE SURVEY*~~

~~FOR ALL STUDENTS, DCA WILL ADMINISTER THE HOME LANGUAGE SURVEY UPON A STUDENT'S INITIAL ENROLLMENT TO THE SCHOOL.~~

~~AT DOWNTOWN CHARTER ACADEMY, WE WILL ADMINISTER ELPAC TO: (1) NEWLY ENROLLED STUDENTS WHOSE PRIMARY LANGUAGE IS NOT ENGLISH, AS AN INITIAL ASSESSMENT; AND (2) STUDENTS WHO ARE ENGLISH LEARNERS (ELS) WHO HAVE NOT BEEN RECLASSIFIED AS FLUENT ENGLISH PROFICIENT (RFEP), AS A SUMMATIVE ASSESSMENT. WE WILL DO IT TO INFORM OUR INSTRUCTIONAL SUPPORT TO ENGLISH LEARNERS AND TO SATISFY THE FEDERAL LAW WHICH REQUIRES ALL LEAS A STATEWIDE ENGLISH LANGUAGE PROFICIENCY (ELP) TEST.~~

~~*LANGUAGE LIVE CURRICULUM FOR ENGLISH LEARNERS*~~

~~ENGLISH LEARNERS AT DCA STUDENTS RECEIVE THEIR ENGLISH CLASS IN A SMALL GROUP SETTING ACCORDING TO THEIR ENGLISH LEVEL OF PROFICIENCY. WE HAVE PURCHASED A CURRICULUM PROGRAM CALLED LANGUAGE LIVE WHICH PROVIDES STUDENTS WITH A FOUNDATION IN THE ENGLISH LANGUAGE AS WELL AS EQUIPS THEM WITH THE NECESSARY SKILLS AND STRATEGIES NEEDED TO SUCCEED IN MATH, HISTORY, AND SCIENCE, WHICH ARE ALL TAUGHT IN ENGLISH. USING A COMBINATION OF DIGITAL AND TEACHER-LED INTERVENTION, THE LANGUAGE LIVE CURRICULUM MEETS STUDENTS WHERE THEY ARE IN THEIR ACADEMIC LEARNING AND TAKES THEM WHERE THEY N NEED TO BE TO EXCEL IN 6TH, 7TH, AND 8TH GRADES. THE BLENDED ONLINE AND TEACHER-LED INSTRUCTION GIVES STUDENTS MANY OPPORTUNITIES TO IMPROVE BOTH THEIR READING COMPREHENSION AND WRITING SKILLS.~~

~~THE CONTENT OF THE PROGRAM IS CULTURALLY INCLUSIVE AND RELEVANT AND STUDENTS SHOW INTEREST IN THE THEMES AND UNITS. THIS INSTRUCTIONAL SUPPORT IS DONE ON DAILY BASIS IN ANOTHER CLASSROOM DURING THE REGULAR ENGLISH LESSONS FOR THE REST OF THE STUDENTS. IN THIS WAY, STUDENTS FEEL SUCCESSFUL AND RECEIVE THE INSTRUCTION AT THEIR LEVEL.~~

~~DCA ENGLISH LANGUAGE STUDENTS WILL WORK TOWARDS BEING RECLASSIFIED AS FLUENT ENGLISH PROFICIENT SPEAKERS AND BE PREPARED WITH THE SKILLS IN ENGLISH LANGUAGE ARTS AND MATHEMATICS TO MEET CALIFORNIA STATE STANDARDS FOR THEIR APPROPRIATE GRADE LEVEL THROUGH THE USAGE OF STRATEGIES SUCH AS SPECIALLY-DESIGNED ACADEMIC-INSTRUCTION IN ENGLISH (SDAIE), AN INSTRUCTIONAL APPROACH DESIGNED TO INCREASE THE LEVEL OF COMPREHENSIBILITY OF THE ENGLISH LANGUAGE IN THE CONTENT AREA OF THE CLASS AND THROUGH THE LEARNING LABS OR INTERVENTION PERIOD.~~

~~*CERTIFICATIONS*~~

~~DCA WILL PROVIDE TEACHERS WHO HAVE RECEIVED THE CLAD (CROSS CULTURAL LANGUAGE AND ACADEMIC DEVELOPMENT), BCLAD, CTEL (CALIFORNIA TEACHERS OF ENGLISH LEARNERS) OR ANY OTHER CALIFORNIA COMMISSION ON TEACHING CREDENTIALING (CCTC) RECOGNIZED ALTERNATIVE CERTIFICATION.~~

**PROFESSIONAL DEVELOPMENT**

To ensure and support our teachers in implementing the aforementioned pedagogical strategies, we have designed a well-developed instructional coaching and professional development plan.

**Instructional Coaching**

Amethod Public Schools believes in the implementation of an effective teacher coaching and feedback plan which involves a structured approach that fosters continuous professional development. We have established a clear framework that includes regular bi-weekly classroom observations, peer feedback sessions, and individualized coaching meetings. Coaches are trained to observe lessons with a focus on specific pedagogical strategies, student engagement, and learning outcomes. After observations, a collaborative feedback session follows and allows teachers to reflect on their practices, discuss strengths and areas for growth, and set actionable goals. This reflective practice encourages a growth mindset, where teachers feel supported in experimenting with new techniques without fear of judgment.

| Downtown Charter Academy | 2027-2032 |
|---|---|

Throughout the year, the Richmond Charter Academy Site Director and Deans conduct formal and informal classroom observations. Each teacher receives coaching on a bi-weekly basis. The Home Office Director of Instruction supports the Deans to ensure consistent practices. The tools that we use to align and improve instructional practices are the CSTP rubrics, Get Better Faster model, and Teach Like a Champion strategies. AMPS has integrated these tools into our instructional coaching framework to increase teacher effectiveness and improve student outcomes.

To ensure the sustainability and effectiveness of the coaching plan, it is essential to create a culture of trust and collaboration among staff. One concrete strategy we have begun is to establish peer observation cycles, where teachers pair up to observe each other's classes and provide feedback using a structured protocol. Additionally, weekly professional development sessions are held, focusing on topics such as classroom management techniques, strengthening content depth of knowledge or integrating technology into lessons. As well as, implementation of a shared digital platform, like Google Drive, Google Classroom or Messenger, for sharing resources and feedback has further enhanced collaboration. Regular check-ins, weekly staff exit tickets/ feedback, brief surveys or one-on-one meetings, have also been included to assess the impact of coaching and allow for adjustments based on teachers' needs. By prioritizing ongoing support and creating a safe space for professional dialogue, Amethod Public Schools coaching plan enhances teaching quality and ultimately improves student outcomes.

**Professional Development Plan**

Amethod Public Schools staff participate in extensive professional development. Our professional development plan is aligned to the annual educational priorities established by Amethod Public Schools and the Charter School. Amethod Public Schools professional development plan focuses on enhancing instructional practices, fostering collaboration, and integrating technology into the classroom. The plan could include a series of workshops and training sessions tailored to different grade levels and subject areas, emphasizing current educational trends, pedagogical strategies, and differentiation techniques. Collaborative learning communities are established, allowing teachers to share best practices, observe each other's classrooms, and engage in constructive feedback.

Before the school year starts, all AMPS' staff participate in week-long professional development sessions. We call this our AMPS Summit. There are various professional development strands based on the roles that staff have. For new teachers, AMPS has a New Teacher Summit where they participate in training specifically tailored to them.

To ensure that the professional development plan is effective and relevant, ongoing assessment and feedback mechanisms are integrated. Regular surveys and reflection sessions allow educators to voice their needs and experiences, allowing for adjustments to the program, as necessary. Furthermore, technology training on all

curricula has been a core component, equipping teachers with the skills to effectively utilize digital tools and resources in their instruction. By prioritizing these elements, the professional development plan fosters a culture of continuous improvement and innovation, ultimately enhancing student learning outcomes across all grade levels.

# Downtown Charter Academy 2027-2032

**Conditions for Adult Learning**

As we walk through classrooms, we expect to see quality lessons that engage students in the academic content through culturally responsive teaching and interesting tasks. We value our teachers and support them to be facilitators in their classrooms by providing a variety of supports. In order to do this, we must create experiences for our staff that encourage them to be collaborative, problem solvers, and hold a growth mindset.

As an organization we provide:

- Coaching and Professional Development - Network and Site-Based
    - Implement coaching programs to support teachers in the delivery of high-quality instruction.
    - Guidance, feedback, and professional development opportunities to enhance teacher effectiveness and student engagement.
    - Collaboration with school leaders to design and facilitate site based professional learning communities focused on instructional best practices.
    - Professional development sessions with school leaders.
    - Bi-weekly instructional walkthroughs between AMPS Home Office staff and RCA instructional Deans to help support their development/growth and to ensure there is alignment across grade levels and content areas.
- Instructional Frameworks and Standards-Aligned Instruction
    - Ensure that instructional practices are aligned with state standards, adopted curriculum, and assessment requirements.
    - Develop and implement instructional frameworks and models to guide teaching practices across all content areas and grade levels.
    - Regularly gather, analyze, and take action on data related to teacher practice, curriculum, and standards that bring about continual and measurable improvement of AMPS's learning environment and student performance.
- Curriculum Development and Adoption

- Collaborate with educational leadership to ensure curriculum alignment with state standards, district goals, and educational research.
- Utilize data analysis tools to assess student learning outcomes and identify areas for improvement.

To make gains with our students we must examine our instructional practices to see how we are increasing the students' skills and independence as they move closer to their grade level demands. We must also become experts in analyzing data to show us where we need to focus and how targeting specific groups can help us tailor instruction without lowering the rigor of grade-level demands.

**Amethod Public Schools Partnerships**

AMPS supports teacher credentialing and professional growth by connecting eligible staff with credentialing programs that offer flexible pathways toward certification. The following institutions and programs provide options for online, in-person, intern, and alternative credential pathways that may support staff seeking to obtain or complete a California teaching credential.

## ANNUAL GOALS

### Charter School Goals and Actions to Achieve the Eight State Priorities

Please see Exhibit 1, the Charter School's Local Control and Accountability Plan ("LCAP"), which is incorporated into this Charter by reference. The LCAP provides a reasonably comprehensive description of DCA's annual goals, actions, services, and measurable outcomes aligned to the Eight State Priorities, schoolwide and for all pupil subgroups, as described in Education Code Section 52060(d). Exhibit 1 satisfies the requirement to describe the specific annual goals and actions DCA will implement to achieve those goals in accordance with Education Code Section 47605(c)(5)(A)(ii).

~~Finding the time and resources for ongoing professional development is an ongoing problem for public schools, especially considering the budgetary climate of California public schools. One innovative solution is to offer teacher training and professional~~

development from within. This approach is especially critical for smaller organization with even smaller budgets. A key aspect of the Amethod Public School system has been the implementation of an in-house professional and Instructional Leadership Team that has enabled Amethod schools to mentor new teachers who may be enrolled in state approved credential program concurrently to also receiving in house assistance and information from seasoned or veteran Amethod Public School faculty and administration. By capitalizing on the expertise of members from within the Amethod School teaching teams, we offer a professional development tailored to a specific school's culture and needs.

With the implementation of features such as grade level meetings, department meetings, Film Sessions, Math Huddles, webinars etc., teachers are encouraged to be more self-reflective in their content delivery and continue to practice and develop their craft.

The Instructional Leadership Team composed of teachers and administrators meet ongoing through the regular year to discuss the topics and resources that will be focused on during the initial summer training sessions. Instructional leaders also discuss other school wide policies that need revisiting prior to the trainings.

***Professional Growth Plan***

Professional Growth Plans (PGP) are critical to growing, training, and keeping the right people within the organization. Through the PGP process individual team members are invited to identify strengths and areas for development through self-evaluation and feedback. This process highlights the key competencies associated with various roles. Once team members have discussed where they are in relationship to the teaching competencies, they commit to action steps that will increase effectiveness and guide our push towards greater student achievement. PGP's maximize the impact through a reflective process and provide a setting for consistent, on-going feedback.

Weekly plans are kept by teachers. The plans are submitted to Site Directors for review and reflection. Through this reflective process, teachers can plan their anticipated plans of action for the subsequent week. Such discourse will also assist in the guide of teacher and grade level meetings.

Measurable targets are the driver of the PGP that it ensures that the teacher, site director, and central staff are able to remain focused on the annual goal and current progress towards these academic goals, thus, making professional development decisions that will have the greatest positive impact on ensuring that the AMPS Core Value of *Students First* is realized.

The first component of the plan is to set immediate personal, class, school and organizational goals to accomplish first within a priority.

At Amethod Public Schools, we believe that deep engagement in the Professional

~~Growth Plan process will increase each school leaders' efficacy and their impact on scholar achievement.~~

~~By completing their own process, they will reflect an identify strengths, growth areas, and concrete, actionable goals with your coach or director. Through the reflective Film Session series, it is our intention to have teachers gain a real time perspective of their teaching style and classes through self-reflected and leader guided analysis of video. The film will offer a clearer sense of where they are and what they must change, work on, or keep continuing to grow and develop. This process is an opportunity for to formally connect with teachers, directors, and coaches.~~

~~Consequently, planning established checkpoint meetings to assure urgent goals are on track, is the first section of the PGP. Within the first weeks of school operations, trends and needs begin to emerge, and longer-term plans are set at every level of the organization. Each of these tasks has a stated completion date, measurable points, and a person responsible to oversee the tasks. For an experienced teacher who has mastered planning, classroom management, and delivery, they are then more able to focus on the leadership skills such as creating in house workshops and seminars for less experienced staff.~~

~~*See Appendix H for Initial Goal Setting and PGP Overview*~~

***~~Summer Sessions~~***

~~Professional development begins after the end of the school year and prior to the start of school, typically in August. The summer session sets the firm foundation for the staff, especially new teachers, with an understanding of the cultural expectations of the school, classroom management techniques, how to properly assess their student achievement and progress. By granting them additional time to familiarize themselves with the curricula and scope and sequence of instructional objectives and standards for the year, teachers will enter the regular school year much more prepared and comfortable with the curriculums.~~

***~~Yearlong Planning~~***

~~Within our curricular model, each Friday is a minimum day, set aside from 1 to 4pm reserved for professional development as needed. The professional development sessions are primarily organized by the Site Directors through collaboration with staff and the organizational Instructional Leadership Team.~~

***~~Lesson Planning~~***

~~Lesson planning is a vital instructional practice within Amethod school sites. AMPS system focuses on instructional practices combined together with objective driven goals in mind to design and deliver well-crafted lessons that explicitly arrange content to meet the needs of all students.~~

# Downtown Charter Academy 2027-2032

Traditional approaches of organizing learning activities and then developing assessments does not support learning for understanding. The Common Core State Standards are based on anchor standards that indicate college and career readiness at the end of 12th grade, and are backward mapped through the grade levels.

Therefore, AMPS faculty focuses on the big ideas of each topic. They ask what is essential for students to learn, and once these big ideas are established, the next step is to design assessments that will provide evidence of student learning and mastery of those objectives.
After that, and only then, will they be in a position to design and sequence learning activities that will lead students to an understanding of the concepts.

This three-stage approach to planning curriculum is referred to as *backward design,* and it follows the process described below.

- Stage 1: Identify Desired Results
  - What should students know, understand, and be able to do?
  - In Stage 1, consider the goals, examine content standards, and review curriculum expectations.

- Stage 2: Determine Acceptable Evidence
  - What assessment evidence will we accept as evidence of student understanding?
  - In Stage 2, consider a variety of evidence, including both formative and summative assessments. Teaching for understanding means assessing for understanding.

- Stage 3: Plan Learning Activities
  - What sequence of learning activities will lead students to an understanding of the big ideas?
  - In Stage 3, consider the knowledge and skills that students will need to know to perform effectively. Identify the materials and resources that will best meet the goals set out in Stage 1.

***Effective Weekly Lesson Plans:***

I. Establish goals that are based on the Common Core Standards.
II. Establish objectives that lead to mastery of CA Common Core Standards.
III. Describe the knowledge a student must acquire to master CA Common Core Standards.
IV. Describe the skills a student must develop to master CA Common Core Standards.
V. Describe the performance tasks a student must complete to master CA Common Core Standards.
VI. Describe learning activities that will lead to success on performance tasks that

show mastery of CA Common Core Standards.

***BTSA - Beginning Teacher Support***

BTSA Induction is a necessary step in fulfilling the requirements for the California Clear Multiple Subjects, Single Subject, and Education Specialist credentials. Most credential programs can cost 10-20k and the BTSA programs can cost upwards of $3,000 - $5,000 per year ($6,000 - $10,000 total).

Amethod Public Schools (AMPS) has partnered with various institutions to help provide pathways to attaining the proper licensing to teach. Because we believe strongly in investing the skills and professional growth of our team members, we also offer a tuition reimbursement program to offset the costs.

**AMPS Partnerships**

| **Institutions/Programs** | **Details** |

| **Reach Institute** | Online and in person formats and enrollments are only for summer start.<br>Receive intern credential in August after summer per-service. |
| **Alliant** | Online format and enrollments every 8 weeks. Financial aid available |
| **CSU East Bay** | Online and in person formats and enrollments are only for summer start. |

| **Cal Teach** | Designed for those who either wish to become a multiple subject teacher but are unable to attend a traditional, classroom-based teacher education program (Student Teaching Option), or for those who are already teaching without a credential. |

***Amethod Shared Networks (Google Drive/ IlluminateEd/Dropbox)***

Amethod School staff, faculty, and administrators use a shared network for secure sharing of research, training summaries, and resources such as lesson plans with one another. The adoption of this feature enables multiple people in different locations to collaborate simultaneously on the same documents, spreadsheets, presentations, and drawings with other staff in real-time. Google Drive also enables staff in different locations to collaborate and sharing of materials, lessons, resources, and trainings between staff from the Richmond and Oakland campuses.

# Downtown Charter Academy 2027-2032

~~IlluminateEd, is the student information system used by Amethod Public Schools. IlluminateEd is a student information system designed specifically for K-12 schools. It has several features including state reporting, scheduling, grade book, attendance, and parental access. Amethod school site families may receive access their child's grades, school announcements, assignments, schedules, and teacher comments once the site is fully rolled into the program.~~

~~Teachers use IlluminateEd to take attendance, enter grades, post assignments, and view assessment information, and communicate with parents and students. Administrators use IlluminateEd to generate reports including transcripts, discipline logs, class population, demographics, grade point averages, assessment reports, and required state and federal reports. The California State Longitudinal Database System (CALPADS) is functionally compatible with the IlluminateEd program.~~

***~~Continuous Instructional Observations and Coaching~~***

~~At AMPS, we believe in deliberate practice: teachers become excellent at their craft through experience and practice. Deliberate practice—a focus on the concrete and specific teaching skills necessary to maximize impact in the classroom.~~

~~Teachers participate in 3 observation-feedback practice cycles a month. They receive expert feedback, apply that feedback, and do it again to build their skills. These observations and feedback are offered by the Site Leader and Dean of Instruction using the AMPS Instructional Effectiveness Domains and Competencies. Teachers discuss what it means to have a growth mindset and appreciate the opportunity to continuous feedback, and dedication.~~

~~Leaders observe, coach, and mentor teachers by analyzing videos of them practicing or videos selected to target their instructional needs. They're pausing, rewinding, and replaying the video to give pinpoint feedback. They're suggesting approaches that come directly from the most successful schools in the United States.~~

~~There are also opportunities during the year for teachers to observe colleagues who have developed skills that they need to improve.~~

## Element 2 (Measurable Pupil Outcomes) and Element 3 (Method of Measuring Pupil Outcomes)

***"The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school." – Ed. Code § 47605(c)(5)(B)***

***"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." – Ed. Code § 47605(c)(5)(C)***

**Increases in Student Academic Achievement, Overall and by Subgroup**

In accordance with Education Code section 47605(c)(5)(B), Charter School's pupil outcomes will be set related to increases in pupil academic achievement both schoolwide and for all numerically significant subgroups of pupils served by the charter school, as that term is defined in paragraph (4) of subdivision (c) of section 47607. The pupil outcomes shall align with state priorities, as described in subdivision (d) of section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school. Charter School's LCAP goals will serve as the goals for this section unless Charter School's LCAP goals do not include increases in student academic achievement by subgroup, in which case such goals should be included below.

Downtown Charter Academy's~~[If Charter School's~~ LCAP goals and actions ~~do not include~~include increases in student academic achievement by significant subgroup~~; insert student academic achievement goals by subgroup~~ in compliance with Education Code section 47605(c)(5)(B).~~]~~

Charter School hereby grants authority to the State of California to provide a copy of aggregated (by school, numerically significant subgroups, etc.) test results directly to the District. Test results for the prior year, if not provided directly to the District by the State in a timely manner, will be provided by the Charter School to the District, upon request, no later than September 1 of each year.

| Downtown Charter Academy | 2027-2032 |
|---|---|

A copy of the Charter School's 2025-28 Local Control and Accountability Plan is attached to this agreement as Exhibit 1 and helps inform the Charter Renewal's description of its measurable pupil outcomes.

**~~[Attach the Charter School's LCAP as Exhibit 1.]~~Local Control and Accountability Plan**

See Downtown Charter Academy 2026-27 LCAP in Exhibit 1.

In accordance with, and using the procedures prescribed by, Education Code Section 47606.5, DCA shall comply with all applicable requirements of the LCAP including any applicable regulations promulgated, and the template adopted, by the State Board of Education. The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter. DCA shall submit the LCAP to the District and the Alameda County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall also present a report on the annual update to the LCAP and the local control funding formula Budget Overview for Parents on or before February 28 of each year at a regularly scheduled Board meeting.

Revisions to the goals, outcomes, metrics, or actions and services stated above that are necessary to implement the LCAP and to maintain alignment with the California School Dashboard as it evolves shall not be considered a material revision to the charter, shall be submitted to the chartering authority on an annual basis in accordance with Education Code Sections 47604.33 and 47606.5, and shall be maintained by the Charter School at the school site.

**Goals, Actions, and Measurable Outcomes Aligned with the Eight State Priorities**

Pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), a reasonably comprehensive description of the Charter School's annual goals, actions, and measurable outcomes both schoolwide and for each subgroup of pupils in and aligned with the Eight State Priorities as described in Education Code Section 52060(d), can be found in the Charter School's LCAP. Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups of ELs, SED students, Asian students, and Hispanic students. The metrics associated with these goals help the Charter School to ensure that these specific subgroups are making satisfactory progress and are provided with the necessary additional support made possible by additional funds from the Local Control Funding Formula.

**Measurement of ~~Pupil~~Student Academic Achievement**

**Mandated State Assessments**

The Charter School shall meet all statewide standards and conduct the student assessments required pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools in accordance with Education Code Section 47605(d)(1). The Charter School will administer all applicable state-mandated assessments including the CAASPP assessment system and other state-mandated assessments such as the Physical Fitness Test and the ELPAC. The Charter School will comply with applicable federal assessment and accountability requirements of the Every Student Succeeds Act. The Charter School affirms that its methods for measuring student outcomes for the Eight State Priorities, as described in its LCAP, shall be consistent with the way information is reported on a School Accountability Report Card, as required by Education Code Section 47605(b)(5)(C).

**Growth Measures: Diagnostic, Formative and Summative Assessments**

Aligned with its firm belief in accountability, the Charter School will implement a rigorous assessment and goal-setting program to measure students' content mastery, adapt academic programs, and ensure that each student is making progress. By having clear and consistent assessments and data analysis sessions with teachers, the Charter School will ensure that each student is making progress toward meeting and exceeding standards.

Students are assessed regularly from the time they enter the Charter School through the end of 8th grade, and all staff monitor their progress closely. Assessments are essential tools for evaluating student progress and knowledge. Our assessment plan includes not only our schoolwide assessments for diagnostic and formative assessments (e.g., NWEA MAP Growth), but also statewide summative assessments (such as SBAC, California Science Test ("CAST"), ELPAC, California Alternate Assessments ("CAA"), and Physical Fitness Test ("PFT"). More informal assessments include quizzes and exit slips. More formal summative assessments include curriculum-based assessments and projects.

The Charter School will continue to make a conscious effort to use student assessment data to inform decisions related to planning and developing instructional strategies at the schoolwide, classroom, and individual student levels. Ongoing assessments of student and school performance are integral in the planning, implementation, and adjustment of instruction in the Amethod Public Schools system.

**Assessment Modifications and Accommodations**

The Charter School will ensure that students with disabilities under the IDEA or Section 504 are included in State standardized assessment programs with appropriate

accommodations and modifications when necessary and appropriate. These assessments include but are not limited to the CAA in accordance with their IEP or Section 504 plan.

**Collecting, Analyzing, and Reporting Data**

DCA teachers and administrators engage in ongoing analysis cycles. After an assessment cycle, a school leader schedules what is known as *a Data Dive*. During a Data Dive, teachers and instructional leaders put assessments into practice and connect assessment results to student learning outcomes. Teachers and leaders review data every six weeks through Data Dive Meetings. Unlike traditional post-observation conferences, analysis meetings offer insight into months of student learning.

Data Dive meetings also increase accountability. The meetings are integral to changing from a culture focused on what students were taught to a culture focused on what students learned.

Teachers will reflect and focus on the following:

- Identify patterns of underperformance
- Identify patterns of high performance
- Identify student cohorts *(tiered interventions)*

The goal of the Data Dive meeting is to improve teacher practice, and student practice, all in the goal of excelling student achievement. Leaders can have individual conversations as needed, but in the meeting with the group adhere to the underlying practice below:

1. *What is the data telling you? (Overall Goal)*
2. *Praise for standard mastered. (By class, subject, grade)*
3. *Surfacing concern areas (Test in hand analysis/side by side)*
4. *Action Planning/Action Plan evaluation*

The Charter School will continue to use data to identify strengths and weaknesses in student, teacher, class, grade-specific, and schoolwide performance. DCA reports individual student level data to parents/guardians and students on a regular basis. Student achievement data is presented to student and parents/guardians through PowerSchool and ParentSquare. Individual student achievement data includes student test scores on standardized testing, class grades including formative and summative assessments, attendance, and discipline. Throughout the school year, parents/guardians and students are able, and encouraged, to attend Parent/Teacher conferences to meet with members of the instructional team to discuss specific skills

and targeted interventions that the student needs. If any student is not making sufficient progress to meet goals and benchmarks, teachers, parents/guardians or administrators begin a Student Success Team. From this meeting an action plan is created to support the student. Individually and by class, students look at their performance data, set goals, examine outcomes, and develop action plans responding to the data. All communications to parents/guardians in a language they understand.

In accordance with Title III, DCA adheres to all mandated reporting guidelines about English Learners. Parents of English Learners receive mandated communications on reclassification per Title III through annual ELPAC testing results. In accordance with IDEA, DCA will comply with all state and federal laws regarding reporting requirements for children with IEPs. Parents of students with IEPs receive reports according to the plan specified in each IEP. All students with disabilities are entitled to the reports and assessment data described in this section, which are provided to all students.

Schoolwide data is presented to educational partners during town halls, parent/guardian meetings, student assemblies, and Board meetings, at regular intervals and at least four times during the school year. Data will be collected, analyzed, and disseminated transparently, promoting accountability and continuous improvement among school community members. The AMPS Board will systematically review the Charter School's data to monitor trends in student learning outcomes and ensure that sufficient and appropriate financial and human resources exist to properly enact the Charter School's program and remain faithful to the charter. The AMPS Board will work in conjunction with AMPS leadership to make necessary changes in response to identified needs as reflected in the Charter School's data streams.

Aligned with a firm belief in student achievement, Amethod Public Schools will offer a rigorous assessment and data review program to measure and increase students' proficiency levels and ensure that each student is making progress toward mastery at Downtown Charter Academy. The instructional leadership team also uses walkthrough data to determine whether high-priority instructional practices are improving. This data supports the leadership team in aligning coaching resources, administrative focus, and professional development as appropriate.

**Accountability Systems**

The Charter School's faculty is committed to this series of analyses to inform instructional decision-making. DCA will continue to use the procedures consistent with all Amethod Public Schools sites and comprehensively examine accountability measures from the start. These include:

Student-level data indicators:

- iReady assessments
- CAASPP scores

- Grade Point Average
- ELPAC results
- Attendance rates (individuals)
- Sample writing with Rubric Scores Sheets

School-level accountability indicators:

- Measurable Pupil Outcomes
- Attendance rate
- Local Control and Accountability Plan

Amethod Public Schools' Benchmark Assessments, NWEA MAP Growth, are scheduled at the start of every year; these include a Fall, Winter, and Spring test administration. After the NWEA MAP Growth tests are administered, students and families are provided with a goals and projection sheet that summarizes the students' progress. The Charter School uses the NWEA MAP Growth tests to measure student progress and growth.

***Assessments***

By implementing Data Dives to analyze assessments--teachers self-reflect on their own practice and pacing guides, based on surveying student work for learning gaps and looking at standards--leading to the development of specific action plans to address identified learning needs. Bi-weekly department meetings also look to address trends in learning and give teachers a space to collaborate to standardize best teaching practices by department.

Data analysis has been a focus of our approach at Richmond Charter Academy since we first opened, but our new partnerships with Uncommon Schools and Relay GSE have provided us with the guidance necessary to reach new heights of best practice in this area. Starting in the summer, teachers are trained on their curriculum, assessment schedule, and our schoolwide data analysis protocols. At week six, we begin meeting in content area departments to run these data analysis protocols on recent assessments with the planned deliverable being an informed reteach plan that can be introduced during the next day's lesson. This practice of frequent data meetings on lower stakes, formative assessments, is intended to identify and correct gaps in student mastery before units reach their completion and it is too late.

Data driven decision making ultimately leads to more effective teaching and student achievement. The assessments outlined below empower educators to make data-informed decisions based on student needs, identify students for targeted interventions, and promote a culture of continuous improvement.

*Table 2/3.2:* Types of Assessments

| Type | Assessment Name | Description |
|---|---|---|
| **Universal Screeners** | Lexia<br>iReady<br>Initial ELPAC | Universal screeners are used to provide data to measure the effectiveness of core instruction to allow teams to consider adjustments across Tier 1 universal supports. These screeners allow educators to identify students who may benefit from Tier 2 and Tier 3 interventions. |
| **Diagnostic Assessments** | NWEA MAP Growth | Diagnostic assessments are used to measure skill strengths and weaknesses, identify skill gaps, and assist in determining why a problem might be occurring. Diagnostic assessments are administered in Fall, Winter, and Spring. |
| **Summative Assessments** | SBAC ELA/Math<br>CAST<br>Summative ELPAC<br>PFT<br>Midterm/Final Exams | Summative assessments are used to benchmark student performance relative to what students need to be successful based on assessed content standards. They provide teachers, administrators, parents/guardians, and students with ongoing data to assess whether they are on track to meet goals. |
| **Formative Assessments** | Quizzes<br>Exit tickets | Formative assessments provide data to guide instructional decisions and identify indicators for scaffolding and differentiated instruction. Teachers use formative assessments on a weekly basis to ensure that instruction is meeting all students. |

~~The school will continue to meet all statewide standards and conduct all required state mandated student assessments as required by the charter school legislation, Education Code § 47605(c)(1). The school will also continue to adhere to Senate Bill No. 1290 that will require those pupil outcomes to include outcomes that address increases in pupil academic achievement both school-wide and for all groups.~~

# Downtown Charter Academy 2027-2032

The School shall also meet all statewide standards and conduct the student assessments required pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments (This includes CAASPP, ELPAC, CAAs and any other state requirements). The school will meet the requirements for renewal if it meets the requirements of Section 47607(b) of the Education Code.

The school's outcomes are aligned with the school's mission, curriculum, vision, and expectations of the school and organization. The academic program is designed to challenge all students to a high level of academic expectation and to best prepare students for entry to high performing high schools of choice. Students will demonstrate the following core academic and social skills, which have been developed to align with the California State Curriculum Standards, and organizational beliefs.

The assessment methods and tools used are those required by state or federal law, those required by external agencies such as (California Department of Education, State Board of Education, and NCLB) and those created/ adopted by the organization. To best serve our communities, we will examine and re-visit the list of student outcomes continuously to provide opportunity to update the mission, objectives, to adapt to any changes at the local or state level.

**MEASURABLE PUPIL OUTCOMES**

Our method for instruction is founded upon a data driven, and objectively based philosophy. Using data-based methodology, our school sites focus on one foundational question; *are the students learning?* The different data reviews and analyses will reveal student, teacher, and class/subject matter success or lack thereof. Our method requires that school leaders focus on fact-based data results and oriented assessments rather than qualitative opinion-based assessments and to address gaps in the educational program needs aggressively. The academic progress of students will be tracked through various assessment types and methods throughout the school year.

The School shall meet all statewide standards and conduct the student assessments required pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to students in non-charter public schools. Downtown Charter Academy staff oversees the administration of all applicable state-mandated assessments such as CAASPP, ELPAC, NWEA, and Physical Fitness Test (PFT).

Downtown Charter Academy will continue to focus on the stated Measurable Pupil Outcomes (MPO) as the guarantees and reassurances to all of the DCA stakeholders. Therefore, as with other Amethod Public School sites, the MPOs are our targets and taken seriously.

The following table details the Measurable Pupil Outcomes for DCA.

***Non-Academic Outcome Goals***

DCA also believes all students, regardless of demographic, socio-economic status, or any other sub grouping, need to become contributing members of our society. Students will need skills that are transferable to areas outside of their day to day life.

# Downtown Charter Academy 2027-2032

As our part in assuring that students are prepared for the larger circles of society, our schools also expect students to achieve success in non-academic areas as well.

During their tenure at Downtown Charter Academy, all students will develop specific social skills necessary to succeed at different levels and within varies aspects including but not limited to:

- *Making and maintaining eye contact;*
- *Shaking hands in a proper manner;*
- *Addressing adults and peers appropriately and respectfully; and*
- *Understanding where and when responses are appropriate.*

All students will develop academic skills needed to be successful in subsequent schools, including but not limited to:

- *Research techniques;*
- *Reading for a variety of reasons;*
- *Note-taking skills;*
- *Organization skills;*
- *Effective written and oral communication; and*
- *Critical thinking skills.*

All students will develop the character traits and skills that will allow and encourage them to become concerned and active citizens of their schools and communities. AMPS values include but are not limited to:

- *Persistence;*
- *Teamwork;*
- *Diligence;*
- *Adaptability;*
- *Responsibility;*
- *Perseverance*

*In addition to Amethod Public Schools inclusive mission, culture and values, students at DCA form their character and learn to build positive relationships through a behavior management support system:*

**Positive Behavioral Interventions and Supports What is PBIS?**
PBIS is an evidence-based system of prevention and intervention practices that was designed to support the emotional, social, and behavioral development of all students through teaching, modeling, and positive reinforcement.

**What does that mean at DCA?**
We believe that student character development is an integral part of the overall

~~educational experience. In short, we want to prepare our students not only for academic success, but for life outside of the classroom as well. We hope to accomplish this by creating a safe and positive environment that fosters respect and strong interpersonal relationships between all members of our learning community.~~

~~What does that look like?~~
~~We have identified 4 core values that we have integrated into our classroom curriculum and are directly tied to our student incentive system. We believe it is better to "proactively" reward students for desired behaviors rather than "reactively" hand out consequences for unacceptable ones.~~

**~~DCA Core Values - BRIC~~**

***~~Social Emotional Learning (SEL) Curriculum~~***

***~~DCA has adopted a new SEL curriculum known as School-Connect. This program contains 3 modules aimed at optimizing the middle school experience and supporting social and emotional growth.~~***

| Downtown Charter Academy | 2027-2032 |
|---|---|

~~Module 1 - Creating a supportive learning community~~

~~Module 2 - Developing self-awareness and self-management~~

~~Module 3 - Building relationships and resolving conflicts~~

~~All students will spend at least 80 minutes per week in SEL classes.~~

~~Community time~~

- ~~Monthly "BRICtuals~~
- ~~School-wide competitions and events~~
- ~~Multicultural fair~~
- ~~Weekly morning announcements~~

~~BRIC system for individual and group incentives~~ ~~Karats~~

- ~~Teachers will give "karats" to students who demonstrate desirable behavior or an improvement in behavior (above baseline) related to the core values. These expectations will be different for each student... meeting them where they are at on the BRIC spectrum.~~
- ~~Karats are not a physical reward but should be verbally acknowledged when given out. They will be tracked by grade level on a Google sheet (found in the DCA PBIS folder)~~
- ~~There is no quota on the number of karats to give out each day but please remember that this is a tool to reward and encourage positive behaviors and should be used whenever possible.~~

~~BRICs - Individual Awards~~

- ~~Every two weeks, teachers will meet with their grade level partners and use the Karat tracker to identify 8 students who best exemplified the 4 core values (2~~

~~*for each Value). These students will be awarded with "BRICs" which will earn them school recognition, an invitation to the bi-weekly reward (pizza lunch, ice cream, etc.), and an invitation to a larger event or field trip at the end of the semester.*~~

~~*Solid Gold (SG) - Class Reward*~~

- ~~*Each month, homeroom classes who collectively reach the minimum number of Karats to achieve "Solid Gold" status, will receive a special class award (free dress, Popsicle party, etc.)*~~
- ~~*Students who received at least one Karat in the month are eligible to participate in the reward. Students who did not, will have the opportunity to do a "Character Reflection Assignment" in order to participate*~~
- ~~*There is no limit to the number of classes who can achieve SG status each month. And there is no limit to the number of times a class may achieve SG status*~~

# Downtown Charter Academy 2027-2032

- ~~***The number of Karats required for SG status will vary each month based on the number of school days and increased expectations for student citizenship***~~
- ~~***The SG threshold for September will be 60 Karats***~~

***Continuous Student Achievement Improvement Template***

Amethod Public Schools believes in a continuous improvement model ~~for all of our stakeholder groups~~. The organization reviews data and programs in an attempt to better the student experience at our campuses.

**Application of Education Code section 47607.3**

Under Education Code section 47607.3, if Charter School meets certain criteria outlined in section 47607.3(a), the following shall apply:

- Depending on circumstances specified in section 47607.3, either the county superintendent of schools or the chartering authority shall provide technical assistance to the charter school using an evaluation rubric adopted by the State Board.

- The entity providing technical assistance may request assistance from the California Collaborative for Educational Excellence, which may, after consulting with the Superintendent and with the approval of the State Board, provide advice and assistance to the charter school.
- The chartering authority shall consider for revocation any charter school to which the California Collaborative for Educational Excellence has provided advice and assistance, and has made findings that: 1) the charter school has failed, or is unable, to implement the recommendations of the California Collaborative for Educational Excellence; or 2) that the inadequate performance of the charter school, based upon the evaluation rubric, is so persistent or so acute so as to require revocation of the charter.

~~It is our organizational belief that data, particularly ongoing data and assessments, are necessary components to the proper judiciousness of schools. At Amethod Public Schools we use objective data as a way to measure the success of the program. Our methods and data analysis have proven to improve our program because we use them to intentionally shape our instructional program, curriculum, and professional development.~~

~~Aligned with a firm belief in accountability, and in order to uphold the promises in our Charters, Amethod Public Schools have rigorous assessment and goal-setting programs to measure students' proficiency levels and ensure that each student is making progress toward becoming a grade proficient student at the least. Students are assessed regularly from the time they enter the school through graduation and all staff monitor their progress closely using State mandated assessments, interim assessments aligned with Standards, and different modalities of informal assessments and evaluations.~~

***~~Student Assessments~~***

~~On January 1, 2014 California Education Code section 60640 established the CAASPP System of Assessments. The CAASPP System replaced the Standardized Testing and Reporting (STAR) Program, which became inoperative on July 1, 2013. The CAASPP System encompasses the following assessments and student participation requirements. Information about the content and format of each test is also provided.~~

~~The CAASPP results give us a key measure of how well students are mastering California's challenging academic standards in English language arts/literacy and mathematics. The skills called for by these standards—the ability to write clearly, think critically, and solve problems are critical to success in college and 21st-century careers.~~

~~The 2017 California Assessment of Student Performance and Progress (CAASPP) System includes online and paper-based summative assessments.~~

***~~Online Summative Assessments~~***

**Smarter Balanced Summative Assessments**

The summative assessments are comprehensive, end-of-year assessments of grade-level learning that measure progress toward college and career readiness. Each test in English language arts/literacy (ELA) and mathematics is comprised of two parts: (1) a computer-adaptive test and (2) a performance task, administered within a selected testing window available at 66 percent of the instructional year for grades three through eight, and grade eleven.

The summative assessments are aligned with the Common Core State Standards (CCSS) for ELA and mathematics. The tests capitalize on the strengths of computer adaptive testing–efficient and precise measurement across the full range of achievement and timely turnaround of results.

***Paper-pencil Tests***

**Standards-based Tests in Spanish (STS) Optional**

The STS for Reading/Language Arts (RLA) consists of multiple-choice tests in Spanish that assess RLA in grades two through eleven. Local educational agencies had the option of administering the STS for RLA to Spanish-speaking English learners (ELs) in grades two through eleven who either were receiving instruction in Spanish or had been enrolled in school in the United States for less than 12 months after April 15, 2016.

***California Alternate Assessments (CAAs)***

The California Alternate Assessments (CAAs) are online tests for students with individualized education programs (IEPs) that designate the use of an alternate assessment to measure student progress on alternate achievement standards, called Core Content Connectors (Connectors).
The Connectors make the test more accessible for students with the most significant cognitive disabilities. The CAAs are administered to each student individually.

CAA items and tasks represent three different levels of complexity. Students' responses to the first set of test questions determine the complexity of the items that follow. At DCA, we make this battery of assessments to students with IEP who need it.

***CAASPP Reporting Subgroups***

To inform policy, curriculum, and programming, at DCA, we use the disaggregated reports available for subgroups of students on the basis of the following criteria:

- All Students
- Disability Status

- ~~Economic Status~~
- ~~English-Language Fluency~~
- ~~Ethnicity~~
- ~~Gender~~
- ~~Parent Education~~
- ~~Migrant~~
- ~~Ethnicity for Economically Disadvantaged~~
- ~~Ethnicity for Not Economically Disadvantaged~~

***~~The English Language Proficiency Assessments for California (ELPAC)~~***

~~ELPAC is the successor to the California English Language Development Test (CELDT). ELPAC Blueprints and task types were adopted by the State Board of Education on September 14, 2017. Beginning in 2017-18, the ELPAC is the required state test for English language proficiency (ELP) that must be given to students whose primary language is a language other than English.~~

~~State and federal law require that local educational agencies administer a state test of ELP to eligible students in kindergarten through grade twelve (ages 3-21). The ELPAC is aligned with California's 2012 English Language Development Standards, ELD, and is comprised of two separate ELP assessments:~~

1. ~~Initial ELPAC—an initial identification of students as English learners~~
2. ~~Summative ELPAC—an annual summative assessment to measure an English learner's progress in learning English and to identify the student's ELP level~~

~~As stated by the California Board of Education, no single assessment can provide teachers with all the feedback they need to tailor instruction to meet the needs of their students. The Summative ELPAC blueprints and task types were approved and adopted by the State Board of Education on September 14, 2017. The measures adopted by Downtown Charter Academy and AMPS are the NWEA, used as interim assessments, they provide an opportunity to measure the skills of all students against the same academic standards, and the results provide information that we use to improve teaching and learning. Given online, the tests are computer-adaptive, allowing a more precise measurement of each student's skills.~~

**~~Student Participation~~**

~~All eligible students in six through eight (6-8), whose primary language is a language other than English, will take the test to determine whether they are ELs, within 30 calendar days after they are first enrolled in our school or 60 calendar days prior to instruction, but not before July 1. We will also administer the Summative ELPAC annually to students identified as ELs until they are RFEP.~~

**Content and Format**

The ELPAC assesses public school students in K-12 in the following four domains in English:

- Listening
- Speaking
- Reading
- Writing

It is aligned with the English language development standards adopted by the State Board of Education (SBE).

In order to promote fluency and literacy in English to students at the Emerging and Developing levels on ELD Standards, students will receive, phonemic awareness, decoding practice, vocabulary development, interactive/direct teaching, and word mini-lessons during tutoring and small group sessions either within the classroom setting in groups, or through before, during and after school through the varies approached and programs of the DCA Learning Lab.

***Reclassification Procedures,*** *Criteria for Student Reclassification from English Learner to Fluent English Proficient (RFEP).*

Given that the summative ELPAC became operational on February 1, 2018. As per the guidelines offered by CDE, Downtown Charter Academy uses the ELPAC results to determine whether or not a student has met the English language proficiency criterion, in addition to existing Reclassification Criteria that includes:

1. Assessment of English language proficiency (ELP), using an objective assessment instrument, including, but not limited to, the state test of English language development; and
2. Teacher evaluation, including, but not limited to, a review of the student's curriculum mastery; and
3. Parent opinion and consultation; and
4. Comparison of student performance in basic skills against an empirically established range of performance in basic skills based on the performance of English proficient students of the same age.

As per California regulations (5 *California Code of Regulations*, sections 11303 Reclassification and 11308 [c][6] Advisory Committee) Downtown Charter Academy reclassification criteria will be reviewed by the Family Staff Team, FST, that serves as the advisory committee on programs and services for English Learner, ELAC.

When an EL student demonstrates adequate oral and academic English skills, a

recommendation for reclassification can be made. Each former LEP student who has been reclassified to FEP has demonstrated English-language proficiency comparable to that of the average native speakers and can participate equally with average native speakers in the school's regular instructional program, in accordance with Education Code Section 52164.6.

The participation of the classroom teacher, parent(s) and site administrator/designee is required in the reclassification process. Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

***STEPS for Reclassification Procedures:*** *Criteria for Student Reclassification from English Learner to Fluent English Proficient (RFEP):*

**1. Assess English Language Proficiency**

The Assessment of language proficiency using an objective assessment instrument including, but not limited to the ELPAC is reviewed.

- *Use most recent ELPAC data.*
- *Student must score Level 4*
- *No more than one subtest (Listening or Speaking or Reading or Writing) is intermediate.*

**2. Compare Student's Performance in Basic Skills**

Comparison of the pupil's performance in the Smart Balanced summative assessments scores from, at minimum, past (3) years on the CAASPP. Students must score level 3 in at least 2 domains in ELPAC and a proficient in the next four years for Reclassification.

- *Use most recent available test data. (If recent test data is not available, wait until later date if within ELPAC test date, or the following year to consider for reclassification*
- *Student's scores Proficient or above on CAASPP-ELA;*

**3. Obtain Teacher Evaluation:**

*Check most Recent English Language Arts Grade* The Participation of the pupil's classroom teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the student is required o evaluate curriculum progress and/or mastery.

- *Grade for most recently completed semester or quarter is C or better.*
- *English teacher is satisfied that student's mastery of English listening, speaking, reading and writing approaches that of native speakers.*
- *English teacher signs the reclassification form.*

**4. DCA Parents Participate in the Reclassification Process**

One of duties of the Family Staff Team is to act as the English Learner Advisory Committee (ELAC) and fulfill all the duties as required by law. Parental opinion and consultation is achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents' opportunity to participate, and encouragement of the participation of parents or guardians in the school's consultation during the reclassification process.

- *Provide notice to parents and guardians of their rights to participate in the reclassification process.*
- *Encourage parents/guardians to participate in the reclassification process and attend a face-to-face meeting.*
- *Conduct face-to-face meeting with interested parents.*
- *DCA will notify all parents of its responsibility for ELPAC testing and of ELPAC results within thirty days of receiving results from publisher. The ELPAC will be used to fulfill the requirements under the No Child Left Behind Act for annual English proficiency testing.*

**5. Reclassify Student Fluent English Proficient**

- *Place dated reclassification form signed by the English teacher in the student's file.*
- *Include all students reclassified after March in the R-30 Language Census of the following March.*
- *Reclassify students throughout the year as new data becomes available. (Repeat Steps 1-5)*
- *August, after CAASPP data is published.*
- *January, after ELPAC data is published.*

**6. Monitor the Academic Progress of RFEP Students for two years**

- *If student's scores Below Basic or Far Below Basic on*
- *CAASPP-ELA, an intervention program is initiated as appropriate*
- *If student's English Language Arts grade falls below C, an intervention is initiated as appropriate*
- *Evidence of monitoring is entered onto the Student Reclassification Form in the student cumulative file.*

About NWEA

**NWEA is a research-based assessment that precisely measure growth and proficiency, and provide insights to help tailor instruction. At DCA, we test all students 4 times per year. The first one as a Benchmark and the other three as a way to measure student progress and needs.**

The RIT Scale

**The RIT scale is a consistent, precise tool that we use to have an accurate measurement of each student's academic growth. It provides valid and reliable data to support students at their levels.**

**The following chart summarizes the assessments currently used at Amethod Public School in general, and Downtown Charter Academy in particular:**

**Analysis Cycles (Data** Dives)

**Amethod Public School teachers and administrators engage in on-going analysis cycles where at the conclusion of an interim assessment cycle, a school leader led meeting known as Data Dives puts assessments into practice and connects to student learning outcomes. Teachers and leaders will review data every six weeks through the Interim assessment Data Dive Meetings. These are conferences between administrators, teachers and instructional leaders in which results gathered from the last interim assessment are analyzed and discussed. Unlike traditional post-observation conferences, analysis meetings offer insight into months of student learning.**

**Data Dive meetings also work to increase accountability by providing school leaders with a concrete record of class achievement. The meetings are integral to changing from a culture focused on what students were taught to a culture focused on what students actually learned.**

**Teachers will reflect on patterns of interim and focus on the following:**

- **Identify patterns of underperformance;**
- **Identify patterns of high performance;**

- Identify "Spotlight Student" cohorts (who are not making adequate progress);

The goal of the Data Dive meeting is to impact teacher practice and student practice, all in the goal of excelling student achievement. Leaders can have individual conversations as needed, but in the meeting with the group adhere to the underlying practice below:

1. What's the data telling you? (Overall Goal)
2. Praise for standard mastered. (By class, subject, grade)
3. Surfacing concern areas (Test in hand analysis/side by side)
4. Action Planning/Action Plan evaluation

See Appendix K for Analysis Cycle -Data Dive Overview

AMPS makes a conscious effort to use student assessment data to inform decisions related to planning and developing of instructional strategies at school wide, classroom, and individual student level. Ongoing assessments of student and school performance are integral in the planning, implementation and adjustment of instruction in the Amethod School system.
The school will continue to use data to identify strengths and weaknesses in student, teacher, class, grade specific and school wide performance.
Aligned with a firm belief in student achievement, offers a rigorous assessment and data review program to measure and increase students' proficiency levels and ensure that each student is making progress toward concert mastery at the Downtown Charter Academy site.
Amethod Public School Interim Assessments are scheduled and calendared at the start of every year. The tests consist of a mixture of multiple choice, and open-ended questions. The assessment questions are shared with the teachers prior to the exam date. This is to inspire a faculty shared objective approach to the assessments, and also to demonstrate by example to all staff that test cramming is unnecessary when the curriculum is appropriate.

See Appendix L for AMPS Assessment Calendar and Overview

**Action** Planning

After implementing effective assessments and engaging in deep, nuanced analysis, schools and leaders face the most daunting task of all: putting their plans into practice. Although it is based on gathering information, data-driven instruction is worthless unless that information is actually employed in the classroom. When action is implemented effectively, students can perceive how their learning has improved.
Immediately following analysis, teachers should draw up action plans that describe how they will apply the insights they have gained. Although they may vary greatly, effective action plans all share a fundamental principle: they are

explicitly tied to conclusions from analysis and are designed to put such conclusions into practice.

**Reporting** ~~Data~~

Downtown Charter Academy Middle School will maintain sufficient staff and systems including technology, required to ensure timely reporting necessary to comply with the law and to meet all reasonable inquiries from District and other authorized reporting agencies.

Administration will decide how they will report student progress to: (1) students and parents, (2) the chartering agency, (3) the broader public, and (4) teachers and school board members. Options for reporting data include progress and report cards, presentations, narratives, student involved conferences, annual reports, informational brochures, the school website and annual stakeholder meetings.

~~IlluminateEd~~

Scores from all student assessments can be uploaded into Amethod Public School's information management system (IlluminateEd) so that students' progress within particular subjects and across all subjects can be monitored at any given time. Every Amethod Faculty member will have access to the IlluminaateEd program.

**Grade Reports** ~~(Sample)~~

Each Amethod Public School site adheres to a grading policy that is uniform for the specific school. In order to assure teacher and student fidelity to high grading standards, Downtown Charter Academy implemented a flat ten (10) point grading scale (no pluses or minuses). The school leader will review the policy and adapt a grading scale to meet the needs of the specific site. Students will receive Progress Reports, Grading Period Reports, and Semester Report Cards showing their earned grades that will be communicated using the following scale:

~~A~~ Students receiving an ~~A~~ have demonstrated ~~mastery~~ of at least 90-100 of the subject standard that has been taught.

~~B~~ Students receiving a ~~B~~ have demonstrated mastery of at least 79-89 of the subject standards that have been taught.

~~C~~ Students receiving a ~~C~~ have demonstrated the minimum mastery requirement of 68-78 of the subject standard.

~~D~~ Students Receiving a ~~D~~, 57-67 have deficits that require additional attention and student effort. Thus, a student receiving a ~~D~~ is not passing the given class.

~~F~~ Students receiving an ~~F~~ 56 & below, have MAJOR grade deficits that require a change in approach, more focus, assistance, and increased effort. The families or parents of students receiving at least (1) ~~F~~ at the end of the first grading period will be contacted to discuss the grade.

**Progress** ~~Reports~~

# Downtown Charter Academy 2027-2032

~~**Students and families will have real-time access to their grades through the Parent and Student Portal on IlluminateEd. In addition to having online access, students will receive a progress reports and reports cards indicating the student's progress in every subject. It is the responsibility of the parent/guardian to review progress reports with their student and to contact the school to make an appointment if there are questions or concerns. If a student is not meeting the minimum mastery requirements for a course (68), the parent/guardian and student may be required to attend a conference with the student's teacher and Site Director to develop a plan to support the student's academic progress. Progress reports require a parent signature and must be returned to the classroom teacher to avoid any consequence.**~~

**School Accountability Report Card**

DCA will compile data each academic year to produce a School Accountability Report Card. Student achievement data will be disaggregated annually to identify students' academic performance by sub-groups (e.g., ethnicity, gender, English Learners, socioeconomically disadvantaged students, and students with disabilities).

# Downtown Charter Academy 2027-2032

## Grading Philosophy

Our grading practices strive to align with our values, mission, and vision. The Charter School has set forth the guiding principles for grading below, adapted from Grading for Equity (Feldman, 2019):

- **Grades should be accurate**: Grade calculations should be mathematically accurate and sound, easy to understand, and made based on clear descriptions of a student's level of academic performance.
- **Grades should be bias-resistant**: There are multiple opportunities to provide feedback to students, and grades are but one of them. Grades should be representations of an individual student's progress toward mastery or how effectively they have met the standards for academic performance. Grades should not be punitive or incorporate potentially biased, situational and/or culturally influenced perceptions of behaviors (such as timeliness of assignment submission, how quickly students master a topic, effort, personality, participation, etc.).
- **Grades should be motivational**: Grading should allow multiple attempts at mastery and, therefore, represent where the student is at the time of grading, using the most recent data as an indicator. Teachers will consider how to balance providing time for mastery with the time constraints of the course.

## Grading and Progress Reports

Students earn grades based on established performance levels as described in the table below. In pursuit of our overall mission to get students prepared for colleges and universities, DCA students do not earn middle school credits for any course in which they receive less than a C-.

When grades are given for any course of instruction, the grade given to each student shall be the grade determined by the teacher of record for the course, in the absence of clerical or mechanical mistake, fraud, bad faith, or incompetence the grade shall be final. Teachers may make changes to grades until the semester cutoff date, which is the date that grades are stored and recorded onto the student's historical grades section of PowerSchool. After grades are stored, teachers are prohibited from changing grades without securing the approval of the Site Director. All grade changes will be documented in PowerSchool and requests for changes will only be accepted for 30 days after the official close of the marking period.

Teachers wishing to change a student's grade after grades have been stored should apply the following criteria:

- The student had extenuating circumstances that prohibited the student from completing the course on time (example: automobile accident, serious illness).
- The teacher made a mistake when recording a grade.

# Downtown Charter Academy 2027-2032

Students and families have access to grades through the Student Information System (PowerSchool). They can view grades and message teachers at any time. Information regarding how to use this portal is given at parent/guardian meetings, through communication sent home, and during parent/guardian-teacher conferences. In addition, every quarter, advisory classes send home informal progress reports to ensure that parents/guardians are aware of student grades. If a student is not meeting the minimum mastery requirements for a course, the parent/guardian and student may be required to attend a conference with the student's teacher, Site Director, and/or COST team to develop a plan to support the student's academic progress.

and schools. The nature of the high stake's certainty of charter schools and the existing achievement gaps among racial and economic subgroups in public education, merit and justify the need for exceeding academic standards and programs. AMPS expects students to progress through each grade within one school year. To accomplish this, instruction will be made to accommodate the varying interests and needs of individual students and include strategies for addressing academic deficiencies when needed. Students shall progress through grade levels by demonstrating growth and mastery in learning and meeting grade-level standards of expected student achievement.

The following criteria will be reviewed in calculating retention of a student:

- Grade Point Average (*Grades below the mark of C-/2 are considered as failing and receive 0 credits*)
- More than 2 semester grades below a C-/2 may constitute retention
- PE and language are included in grade calculations
- IEP, Section 504 Plan and other modifications and plans will be reviewed during the retention decision phase
- Multiple measures assessments (including Standardized Testing and Reporting Program and Interim assessments) * these are not used to retain. May be reviewed in conjunction with other areas
- Attendance record (More than 20 unexcused absences may constitute a retention)
- Social Emotional learning & growth (Is their maturity level ready for the next grade)
- Development of a Comprehensive Intervention Plan by the COST team.

When a student is recommended for retention or is identified as being at risk for retention, the Principal or designee shall provide opportunities for remedial instruction to assist the student in overcoming academic deficiencies. Such opportunities may include but are not limited to tutorial programs, after-school programs, summer school programs and/or the establishment of an SST.

Students identified as students with IEPs or Section 504 Plans will be evaluated within the stated goals and needs of the specific student by the IEP team and/or Section 504 team. Although standards will remain high for all subgroups, students with IEPs or Section 504 Plans will be evaluated on an individual basis with consideration of the

existing IEP or Section 504 program, goals, and offered accommodations and modifications.

**Commented [AUT3]:** I added this. Remove if necessary

a non-discriminatory basis. If the number of applicants exceeds the number of available spaces, a public random drawing is held in accordance with Education Code Section 47605(e)(2)(B). The application materials will specifically identify the application deadline and the date of the lottery. All applicants are also informed of the date and location of the lottery, as detailed below.

The Charter School's application process is comprised of the following steps:

1. The Charter School participates in Oakland Enrolls. The Charter School also includes a direct manner for parents and guardians to apply directly to DCA from the Charter School's website. Oakland Enrolls manages a single common application and timeline for charter schools in OUSD. Families apply online via SchoolMint for each child who is interested in attending the Charter School. Oakland Enrolls and SchoolMint organize and oversee the lottery process. The Chief Strategy and Compliance Officer, the Principal, and the Registrar are responsible for ensuring that the lottery process is followed fairly, accurately, and in a timely manner from start to finish. Monthly meetings between Oakland Enrolls and charter representatives address lottery procedures in detail starting in September and train the employees who will be helping families through the application and enrollment process. Full accounts of the process, procedures, and updates are reported by the Registrar and Principal to the Chief Strategy and Compliance Officer.

2. Applications will be accepted during a publicly advertised open enrollment period, which occurs from November to mid-February of each year for enrollment in the following school year. The Charter School holds at least one open house and an enrollment information session during the open enrollment period. Additionally, comprehensive information on how to apply and the steps in the application and enrollment cycle are available on DCA's website and in the Charter School's front office.

3. Following the open enrollment period each year, applications shall be counted to determine whether any grade level has received more applications than availability. In the event that this happens, the Charter School will hold a public random lottery to determine admission for the impacted grade level(s), with the exception of existing students, who are guaranteed admission in the following school year.

4. The lottery will select names randomly through a computer-generated process starting with the lowest grade, taking into account admission preferences listed above, under "Admission Preferences." If there are more students in a preference category than there are spaces available, a random drawing will be held within that preference category until all available spaces are filled.

5. Open enrollment and lottery information is communicated through letters sent home, through phone, text, and email messages, and through the AMPS and DCA website. Families do not need to attend the school in-person on the day that the lottery is conducted in order to secure a spot.

6. All names will be drawn randomly to determine the students who are admitted and those who will be placed on the waitlist. The order of names drawn will determine the order of names on the waitlist.

7. At the conclusion of the lottery, students who were admitted will be notified by the Charter School Registrar, Administrative Assistant, and by text messages, phone, email, and/or mail within one week and asked to accept or decline the offer of admission usually within three weeks of notification date; this day is set by Oakland Enrolls (online, in person, by email, fax and any other means that would work for the family and school). All students who were not granted admission due to capacity shall also be contacted and told their number on the waitlist. This waitlist will allow students the option of enrollment in the event of an opening during the current school year. No waitlist shall be carried over from one school year to the next school year.

8. Once a parent/guardian accepts the offer of admission, the Charter School contacts them so that they can submit enrollment registration forms. The Charter School's Registrar and Administrative Assistant will help any parents/guardians who need assistance in accepting the offer of admission and/or completing the registration forms. The Charter School will keep records of the lottery forms, procedures, accepted lists, and waitlists for a period of one year.

9. If a parent/guardian declines the offer of admission, that space will be offered to the next person on the waiting list, based on the order of names that was pulled from the lottery.

10. During the school year, if vacancies should arise, the Charter School will notify a parent/guardian based on the order of names that was pulled from the lottery on the waitlist to see if they would like to enroll their child. Typically, the Charter School makes separate calls on three different days as well as sending an email. If a parent/guardian does not respond after three days, they are removed from the waitlist and the next family is contacted.

~~All lotteries shall take place on the same day in a single location. Lotteries will be conducted in ascending order beginning with the lowest applicable grade level. There is no weighted priority assigned to the preference categories; rather, within each grade level, students will be drawn from pools beginning with all applicants who qualify for the first preference category and shall continue with that preference category until all vacancies within that grade level have been filled. If there are more students in a preference category than there are spaces available, a random drawing will be held from within that preference category until all available spaces are filled. If all students~~

~~from the preference category have been selected and there are remaining spaces available in that grade level, students from the second preference category will be drawn in the lottery, and the drawing shall continue until all spaces are filled and preference categories are exhausted in the order provided above.~~

~~**Waitlist Management**~~
~~**Waitlist ranking will be assigned by the SchoolMint system. The list will be made available as soon as practicable online and posted publicly at the school site. Families on the waitlist will be contacted in the event of vacancies. Typically, three separate outreach attempts are made over seven days; if no response is received, the next family on the waitlist will be contacted.**~~

**Enrollment Process**

~~The Charter School shall require students who wish to attend to complete an application form.~~ After admission, students will be required to submit an enrollment packet, which shall include the following:

1. Student enrollment form
2. Proof of minimum age requirements (e.g., Birth Certificate)
3. Proof of Immunization
4. Home Language Survey
5. Parent Photo ID (e.g., Current CA Driver's License, Current CA State ID Card, Military ID/Orders)
6. Residency Document (e.g., Utility Bill, Lease Agreement)
7. Completion of Emergency Medical Information Form
8. Release of records[9]

~~1.~~

~~Submit a school data card (family or guardian contact information).~~

~~Submit a copy of student immunization records.~~

~~Complete any additional enrollment/registration forms and documents.~~

[9] In accordance with Education Code Section 47605(e)(4)(B), the Charter School shall not request a pupil's records or require a parent, guardian, or pupil to submit the pupil's records to the Charter School before enrollment.

The conference may be omitted if the ~~Site Director~~Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or the Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the ~~pupil~~student shall be informed of the reason for the disciplinary action and the evidence against ~~him or her~~the student and shall be given the opportunity to present ~~his or her~~their version and evidence in ~~his or her~~their defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the ~~pupil~~student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a ~~pupil~~student for failure of the ~~pupil~~student's parent or guardian to attend a conference with the Charter School officials. Reinstatement of the suspended ~~pupil~~student shall not be contingent upon attendance by the ~~pupil~~student's parent or guardian at the conference.

2. ***Notice to Parents/Guardians***

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student. In addition, the notice may also state the date and time when the student may return to school. If the Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. ***Suspension Time Limits/Recommendation for Expulsion***

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the ~~Site Director~~Principal or ~~Site Director~~Principal's designee, the ~~pupil~~student and the ~~pupil~~student's parent/guardian or representative will be invited to a conference to determine if the suspension for the ~~pupil~~student should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the ~~pupil~~student or the ~~pupil~~student's parent/guardian~~s~~, unless

the ~~pupil~~student and the ~~pupil~~student's parent/guardian~~s~~ fail to attend the conference.

This determination will be made by the ~~Site Director~~Principal or designee upon either of the following: 1) the ~~pupil~~student's presence will be disruptive to the education process; or 2) the ~~pupil~~student poses a threat or danger to others. Upon either determination, the ~~pupil~~student's suspension will be extended pending the results of an expulsion hearing.

**D. Authority to Expel**

A student may be expelled either by the Charter School Board of Directors following a hearing before it or by the Charter School Board of Directors upon the recommendation of an Administrative Panel, to be assigned by the Board of Directors as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the ~~pupil~~student or a member of the Charter School Board of Directors. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

**E. Expulsion Procedures**

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the ~~Site Director~~Principal or designee determines that the ~~pupil~~student has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all ~~pupil~~student confidentiality rules under FERPA) unless the ~~pupil~~student makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the ~~pupil~~student. The notice shall include:

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.
9. A statement that the pupil's parent/guardian may request a postponement of the hearing for good cause;
10. A statement that the parent/guardian can request reasonable accommodations or language support if needed during the hearing.

**F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses**

The Hearing Officer or Administrative Panel ~~Charter School~~ may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer.

Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the ~~pupil~~student.

1) The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of ~~his/her~~their right to (a) receive five (5) days~~'~~ notice of ~~his/her~~their scheduled testimony, (b) have up to two (2) adult support persons of ~~his/her~~their choosing present in the hearing at the time the ~~e he/she~~complaining witness testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2) The Charter School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3) At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which ~~he or she~~the complaining witness may leave the hearing room.

4) The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5) The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours ~~he/she~~the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.

6) Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7) If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The ~~entity~~ person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising ~~his or her~~their discretion to remove a person from the hearing whom ~~he or she~~they believe~~s~~ is prompting, swaying, or influencing the witness.

8) The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the

courtroom during that testimony.

~~9)~~ Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the ~~pupil~~student being expelled, the complaining witness shall have the right to have ~~his/her~~their testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of

9) closed-circuit television.

10) Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

**G. Record of Hearing**

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

**H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled ~~pupil~~student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or

committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have ~~his or her~~their testimony heard in a session closed to the public.

**I. Expulsion Decision**

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board of Directors, which will make a final determination regarding the expulsion. The final decision by the Board of Directors shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board of Directors is final.

If the Administrative Panel decides not to recommend expulsion or the Board ultimately decides not to expel, the ~~pupil~~student shall immediately be returned to ~~his/her~~their previous educational program.

**~~I.~~J. Written Notice to Expel**

The ~~Site Director~~Principal or designee, following a decision of the Board of Directors to expel, shall send written notice of the decision to expel, including the Board of Directors' adopted findings of fact, to the student ~~or~~ and the student's parent/guardian. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The ~~Site Director~~Principal or designee shall send a copy of the written notice of the decision to expel to the ~~authorizer~~chartering authority. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

**~~J.~~K. Disciplinary Records**

**~~K.~~L. No Right to Appeal**

**~~L.~~M. Expelled ~~Pupil~~Student~~s~~/Alternative Education**

Parents/guardians of ~~pupil~~students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the

school district of residence to assist with locating alternative placements during expulsion.

**~~M.~~N. Rehabilitation Plans**

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Board of Directors at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the ~~pupil~~student may reapply to the Charter School for readmission.

**~~N.~~O. Readmission or Admission of Previously Expelled Student**

The decision to readmit a ~~pupil~~student after the end of the student's expulsion term or to admit a previously expelled ~~pupil~~student from another school district or charter school who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board of Directors following a meeting with the ~~Site Director~~Principal or designee and the ~~pupil~~student and the student's parent/guardian or representative to determine whether the ~~pupil~~student has successfully completed the rehabilitation plan and to determine whether the ~~pupil~~student poses a threat to others or will be disruptive to the school environment. The ~~Site Director~~Principal or designee shall make a recommendation to the Board of Directors following the meeting regarding the Principal's or designee's ~~his or her~~ determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The ~~pupil~~student's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission or admission to the Charter School.

**P. Notice to Teachers**

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

Upon expelling any student, the Charter School shall notify the student's school district of residence immediately or as soon as practicable. Such notice shall include:

1. Completed expulsion documentation as required from the school district;
2. Documentation of the expulsion proceeding, including statement of specific facts supporting the expulsion and documentation that the Charter School's policies and procedures were followed;

3. Copy of parental notice of expulsion hearing;

6. If the student is eligible for Section 504 accommodations, documentation that the Charter School conducted a manifestation determination meeting to address two questions:

   a) Was the misconduct caused by, or directly and substantially related to the student's disability?

   b) Was the misconduct a direct result of the Charter School's failure to implement Section 504 Plan?

This notice will be sent to the student's district of residence. If the student is a resident of a school district other than the District, the Charter School must notify the Superintendent of the student's district of residence within thirty (30) days of the expulsion. Additionally, upon request of the receiving school district, the Charter School shall forward student records no later than ten (10) school days from the date of the request as stated in Education Code Section 49068(b).

**R. Outcome Data**

The Charter School shall gather and maintain all data related to placement, tracking, and monitoring of student suspensions, expulsions, and reinstatements, and make such outcome data readily available to the County upon request.

**~~O.~~S. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities**

1. Notification of SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue

to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the ~~child's~~ student's ~~IEP/504~~IEP/Section 504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alterative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a ~~child~~student with a disability because of a violation of a code of student conduct, the Charter School, the parent/guardian, and relevant members of the ~~IEP/504~~IEP/Section 504 Team shall review all relevant information in the student's file, including the ~~child~~student's ~~IEP/504~~IEP/Section 504 Plan, any teacher observations, and any relevant information provided by the parents/guardians to determine:

a. If the conduct in question was caused by, or had a direct and substantial relationship to, the ~~child~~student's disability; or

b. If the conduct in question was the direct result of the local educational agency's failure to implement the ~~IEP/504~~IEP/Section 504 Plan.

If the Charter School, the parent/guardian, and relevant members of the ~~IEP/504~~IEP/Section 504 Team determine that either of the above is applicable for the ~~child~~student, the conduct shall be determined to be a manifestation of the ~~child's~~ student's disability.

If the Charter School, the ~~parent~~parent/guardian, and relevant members of the ~~IEP/504~~IEP/Section 504 Team make the determination that the conduct was a manifestation of the ~~child's~~ student's disability, the ~~IEP/504~~IEP/Section 504 Team shall:

a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such ~~child~~student, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the ~~child~~student already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

c. Return the ~~child~~student to the placement from which the ~~child~~student was removed, unless the ~~parent~~parent/guardian and the Charter School agree to a change of placement as part of the modification of the behavioral intervention

plan.

If the Charter School, the ~~parent~~parent/guardian, and relevant members of the ~~IEP/504~~IEP/Section 504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the ~~IEP/504~~IEP/Section 504 Plan, then the Charter School may apply the relevant disciplinary procedures to ~~child~~student~~ren~~ s with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The ~~parent~~parent/guardian of a ~~child~~student with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the ~~child~~student is substantially likely to result in injury to the ~~child~~student or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the ~~parent~~parent/guardian or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the ~~parent~~parent/guardian and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a student with a disability to the placement from which the student was removed; or (2) order a change in placement of a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or to others.

5. Special Circumstances

The Charter School personnel may consider any unique circumstances on a

case-by-case basis when determining whether to order a change in placement for a ~~child~~student with a disability who violates a code of student conduct.

The ~~Site Director~~Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;

b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's ~~IEP/504~~IEP/Section 504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDE~~I~~A and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a. The ~~parent~~parent/guardian~~/guardian~~ has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to the Charter School supervisory or administrative personnel, or to one of the ~~child~~student's teachers, that the student is in need of special education or related services.

b. The ~~parent~~parent/guardian has requested an evaluation of the ~~child~~student.

c. The ~~child~~student's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the ~~child~~student, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any

of the three (3) circumstances described above, the student may assert any of the protections available to IDEIA-eligible ~~child~~student~~ren~~s with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the ~~parents~~parent/guardian; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the ~~parent~~parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

The complaint procedures will include the clear information with respect to the response timeline of the school, whether the school's response will be in writing, the party identified to respond to complaints, the party identified and charged with making final decisions regarding complaints, and whether the final decision will be issued in writing. The procedures will also identify an impartial and neutral ombudsperson for situations in which the school leader is the subject person of the complaint or the ombudsperson has a perceived bias. If the complainant requests an alternate ombudsperson, Charter School shall have a procedure for reviewing the request and responding to the complainant with the findings of the review, and either (a) identifying an alternate ombudsperson, or (b) providing a rationale for why an alternate ombudsperson is not necessary. Each party shall bear its own costs and expenses associated with the mediation. The mediator's fees and the administrative fees of the mediation shall be shared equally among the parties. Mediation proceedings shall commence within 60 calendar days from the date of the Issue Conference. (4) If the mediation is not successful, the parties agree that each party has exhausted its administrative remedies and shall have any such recourse available by law.

~~The staff and governing board members of Amethod Public Schools agree to attempt to resolve all disputes regarding this Charter pursuant to the terms of this section. Both will refrain from public commentary regarding any disputes until the matter has progressed through the dispute resolution process.~~

**Intent**

The goal of this dispute resolution process is to:

(1) Resolve disputes within the school in accordance with the school's adopted policies,
(2) ~~To m~~Minimize the oversight burden on OUSD,

If not resolved, then the matter will be referred to the Executive Director or designee, and/or subsequently to the Amethod Board President or secretary.~~

The District ~~will~~ shall not intervene in any such internal disputes without the consent of the Amethod Governance Board, and OUSD shall refer any complaints or reports regarding such disputes to the Amethod Ggoverning Bboard or Chief Executive Officer for resolution pursuant to the Charter School's policies. ~~In the event of a dispute between the Charter School and the District, Charter School staff, employees and Board members of the Charter School and the District agree to first frame the issue in written format ("dispute statement") and to refer the issue to the District Superintendent and Chief Executive Officer of the Charter School, or their respective designees. In the event that the District Board of Education believes that the dispute relates to an issue that could lead to revocation of the charter in accordance with Education Code Section 47607, the Charter School requests that this shall be noted in the written dispute statement, although it recognizes it cannot legally bind the District to do so. However, participation in the dispute resolution procedures outlined in this section shall not be interpreted to impede or act as a pre-requisite to the District's ability to proceed with revocation in accordance with Education Code Section 47607 and its implementing regulations.~~

~~The Superintendent and Chief Executive Officer, or their respective designees, shall informally meet and confer in a timely fashion to attempt to resolve the dispute, not later than five (5) business days from receipt of the dispute statement. ~~If this joint meeting fails to resolve the dispute, the Superintendent and Chief Executive Officer, or their respective designees, shall meet to jointly identify a neutral third party mediator to engage the parties in a mediation session designed to facilitate resolution of the dispute. The format of the mediation session shall be developed jointly by the Superintendent and Chief Executive Officer, or their respective designees. Mediation shall be held within sixty (60) business days of receipt of the dispute statement. The costs of the mediator shall be split equally between the District and the Charter School. 1. Charter School shall provide the District with original student cumulative files and behavior records, pursuant to District policy and applicable District handbook(s) regarding cumulative records for secondary and elementary schools, for all students, both active and inactive, of Charter School. If the Charter School closure occurs before the end of the school year, the list also shall indicate the name of the school to which each student is transferring, if known. 4. Charter School must update all student records in the California Longitudinal Pupil Achievement Data System (CALPADS) prior to closing.

6. Charter School shall provide to the responsible person(s) designated by the governing board of Charter School to conduct all closure-related activities a list of students in each grade level and, for each student, a list of classes completed and the student's district of residence.

Financial Close-Out

After receiving notification of closure, the CDE may notify Charter School and the authorizing entity of any liabilities Charter School owes the state, which may include overpayment of Local Control Funding Formula and select apportionments, start up grants, or other liabilities. The CDE may ask the County Office of Education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

Charter School shall ensure completion of an independent final "closeout audit" within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.

2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.

This audit may serve as Charter School's annual audit, if so permitted by the California Department of Education, California State Controller, and/or the State Superintendent of Public Instruction.

Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not OUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds or other

special education funding will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budget
2. Local control and accountability plan and annual updates
3. Interim financial reports
4. Second interim financial reports
5. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. If Charter School chooses to submit this information before the forms and software are available for the fiscal year, alternative forms can be used if they are approved in advance by the CDE. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

Disposition of Liabilities and Assets

The closeout audit shall identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the Charter School's governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District's personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.

2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.

3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.

    c. An identification number that corresponds to a tag on that item;

    d. The cost of the item and whom/where/date of the item that was donated/sold.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School's governing board shall adopt a plan for closure of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide OUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:

1. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

3. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including, but not limited to, final tax returns and forms (e.g. Form 990 and related Schedules).

This Element 15 shall survive the revocation, nonrenewal, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School's authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

~~The decision to close the school shall be documented by an official action of the Amethod Public Schools Board of Directors. Amethod Public Schools Governance Board, once closure of DCA would be voted as imminent, would notify the OUSD Charter Coordinator, OUSD Board President, and / or other OUSD assigned person of the decision.~~

~~All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.~~

~~As soon as is reasonably practical, the school shall prepare final financial records. The Charter School shall also have an independent audit completed within six months after closure. The Charter School shall pay for the final audit. The audit shall be prepared by a qualified Certified Public Accountant selected by the Charter School and shall be provided to OUSD promptly upon completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to the Charter School.~~

~~The Charter School will complete and file any annual reports required pursuant to Education Code section 47604.33. On closure of the Charter School, all net assets of the Charter School, including but not limited to all leaseholds, tangible and intangible personal property and all ADA apportionments and other revenues generated by students attending the Charter School, remain the sole property of the Charter School and upon dissolution of the corporation, shall be distributed in accordance with the Articles of Incorporation and applicable law upon dissolution. As specified by the attached~~

~~The school will set aside $15,000 by October 1, of its first year of operation to hold for a final closeout audit. In the event of closure or dissolution of the school, the Governance Board will refer to the Executive Director the management of the process. Pursuant to Education Code Section 47613(f), "revenue of the charter school" is defined as the amount received in the current fiscal year from the Local Control Funding Formula calculated pursuant to Education Code Section 42238.02, as implemented by Education Code Section 42238.03.

## Administrative Services

***Governing Law: "The manner in which administrative services of the school are to be provided." Education Code Section 47605(hg).***

The Chief Executive Officer will assume the lead role and responsibility for administering the Charter School under the policies adopted by the Board and securing any administrative services that AMPS finds advantageous to outsource to third parties.

AMPS will outsource some of these functions to an appropriately, qualified third-party contractor, such as Charter Impact, who specializes in implementing school business practices and has the expertise to carry out these administrative functions. The Chief Executive Officer oversees the work of the business services company, which handles all back-office business functions, including accounts payable/receivable, general accounting, payroll, and insurance and benefits administration. The company works with the Charter School to ensure that all reporting is submitted accurately and in a timely way, including all government financial reporting, attendance reporting, and payroll/benefits reporting. The company also assists AMPS staff and Board on business issues that arise during the year, financial modeling of programs, and others. The company helps the Chief Executive Officer and the Board create and monitor the annual budget and provides monthly financials, cash flow projections and analyses. Charter Impact has worked with the Board and staff to establish appropriate fiscal controls, consistent with industry practice, such as distributed responsibilities related to invoice and check signing approvals and careful cash management policies. AMPS and Charter Impact shall provide timely submissions of calendared items by respective due dates and requests for information.

The cost of these services are shared by DCA and the other LEAs that AMPS operates via a cost sharing mechanism that is approved by the AMPS' Board on an annual basis. Such costs will be reviewed by the Board annually to determine whether the costs are comparable to that which is typical at other charter school operators and reasonable relative to the cost that the Charter School would otherwise incur to secure similar services elsewhere.

At any time, the Charter School may discuss the possibility of purchasing administrative services from the District or County. If the District or County is available and willing to provide such services, the specific terms and cost for these services will be the subject to a Memorandum of Understanding between the Charter School and the District or the County, or other mutually agreeable contract.
~~With the exception of services performed by OUSD in providing oversight to the school as defined by Education Code Section 47604.32, all charter-requested services from OUSD will be on a fee-for-service basis.~~

~~In accordance with Education Code 47613, the chartering authority may charge for the actual costs of oversight of the Charter School not to exceed one percent of the revenue of the Charter School. For purposes of this charter, "revenue of the Charter School" means the general purpose entitlement and categorical block grant, as defined in subdivisions (a) and (b) of Section 47632. It is anticipated that the Charter School will provide or procure most of its own administrative services including, but not limited to, financial management, personnel, and instructional program development either through its own staff or through an appropriately qualified third-party contractor. Budget allocation and vendor selection will be the responsibility of the Governance Board. The Governance Board may delegate authority to the Chief Executive Officer to select vendors below a contract amount to be determined, but will retain overall responsibility for contract approvals. The Governance Board will work with the selected back office provider for payroll services and to ensure compliance with state financial accounting procedures.~~

~~In conjunction with Charter Impact, the organization's back office accounting services providers, the Chief Executive Officer, Chief of Operations, and Director of Finance and Accounting will prepare financial statements such as a balance sheet, income statement, profit and loss sheets, and statement of cash flow for regular administration and board review. ## Executive Summary

Amethod Public Schools ("AMPS"), a California nonprofit public benefit corporation with 501(c)(3) tax-exempt status, is proud to submit the Downtown Charter Academy ("DCA" or "Charter School") charter renewal petition to Oakland Unified School District ("OUSD" or "District"). Amethod Public School was founded in Oakland, CA in 1993 with the intent to create charter schools that produce academic results and reduce the achievement disparity that exists among the different student subgroups. For over three decades, Amethod Public Schools have been serving thousands of Bay Area families with effective programs that produce results.

It is the objective of DCA and organization to continue fostering a positive school environment and culture where being diligent and taking personal responsibility are the norm. DCA demonstrates that public schools can produce successful students if they are operated in small and organized settings. It is the organizational belief that any child has the opportunity to be successful if they receive the proper education they need to be triumphant in college, family, and life.

### CHARTER RENEWAL CRITERIA

The passage of Assembly Bill 1505, effective July 1, 2020, established the renewal criteria by which the chartering authority considers whether to grant a charter renewal. Pursuant to Education Code Section 47607(c)(2), a charter school that meets the criteria for the High Performing renewal category is eligible for a renewal term of five, six, or seven years. DCA meets the criteria to be considered a High Performing Charter School and is therefore eligible for renewal under Education Code Section 47607(c)(2).

DCA is requesting a five-year renewal term. Although DCA qualifies as a High Performing Charter School and may be eligible for a longer renewal term, the Charter School is intentionally requesting the default five-year renewal term as AMPS continues implementing its Operational Sustainability work across the organization. This request reflects both confidence and responsibility. DCA's academic results demonstrate that the Charter School is a successful, high-performing public middle school serving Oakland students well. At the same time, AMPS and DCA recognize the importance of aligning academic excellence with strong operations, sustainable systems, effective governance support, fiscal stability, compliance, enrollment planning, talent development, and long-term organizational capacity. A five-year renewal term allows DCA to continue serving students from a position of academic strength while AMPS deepens the organization-wide systems necessary to support durable, sustainable, and high-quality school operations.

Based on the quality of the educational program implemented at DCA, the demonstrated academic achievement of students, the Charter School's strong record of serving historically underserved students, and the comprehensive program

described in this petition, DCA is entitled to renewal and continued operation consistent with Education Code Sections 47605, 47607, and 47607.2.

During the current charter term, DCA has achieved the following successes:

1. **The Charter School has presented a sound educational program.**

DCA has a clearly defined mission to provide a rigorous college preparatory education and character development program that prepares students from underserved communities to succeed in high school, college, and life.

DCA serves students in grades 6 through 8 and provides a focused middle school environment designed to support academic growth, personal responsibility, character development, and readiness for high school.

DCA provides a structured, safe, and achievement-oriented school culture where students understand the importance of preparation, hard work, attendance, responsibility, and perseverance.

DCA's instructional program is aligned with California State Standards, including the Common Core State Standards, Next Generation Science Standards, History-Social Science Framework, English Language Development Standards, and other applicable State Standards.

DCA provides students with access to standards-aligned instructional materials and academic supports designed to help students master grade-level content and build the skills needed for long-term success.

DCA has demonstrated strong academic outcomes, including high levels of student achievement in English Language Arts and Mathematics.

DCA has earned state recognition for academic achievement, including the California Department of Education Gold Ribbon Award in 2017 and 2018, reflecting the Charter School's strong implementation of state standards and its success as a high-performing middle school in Oakland.

DCA was also named a 2021 California Distinguished School, a recognition reflecting the hard work of the Charter School's students, families, teachers, staff, and school community.

DCA provides academic support and enrichment opportunities that extend beyond the regular instructional program, including tutoring, homework support, after-school activities, clubs, athletics, visual arts, Mandarin Club, and other student engagement opportunities.

DCA benefits Oakland families and the broader community by providing a high-quality public middle school option focused on academic excellence, character development, family partnership, and preparation for high school and college.

**2. The Charter School is demonstrably likely to successfully implement the educational program.**

DCA has been in operation since 2014 and has developed a strong record of implementing a rigorous, structured, and student-centered middle school program.

DCA benefits from the support of AMPS, the Charter Management Organization for DCA, which provides organization-wide leadership, operational support, fiscal services, human resources, enrollment support, data systems, compliance support, communications, and other centralized services that strengthen the Charter School's implementation of its educational program.

AMPS supports DCA in areas that include curriculum implementation, instructional coaching, professional development, special education coordination, student services, data and assessment systems, staff recruitment, fiscal operations, human resources, compliance reporting, technology, facilities, meal program administration, and family communication systems.

DCA provides strong professional development opportunities for teachers and staff. Professional development focuses on standards-based instruction, classroom management, data-driven instruction, student and family engagement, MTSS, ELD, special education, classroom observation, coaching cycles, and continuous improvement in teaching and learning.

DCA implements instructional coaching and feedback systems aligned to the California Standards for the Teaching Profession. Teachers receive support through classroom observations, coaching conversations, peer collaboration, feedback, reflection, and goal-setting.

DCA maintains student support systems designed to identify student needs, provide timely intervention, and monitor progress. These systems include MTSS, COST, SST processes, academic interventions, behavior supports, attendance supports, family communication, counseling supports, and coordination among general education staff, special education staff, student support staff, and school leaders.

DCA uses student information, assessment, attendance, behavior, and intervention data to guide instruction, monitor student progress, and support data-informed decision-making.

DCA maintains communication systems that support family engagement, including schoolwide communication tools, family updates, conferences, and accessible communication with families.

DCA's educational program is supported by a clear school mission, defined instructional expectations, a structured middle school model, experienced AMPS support systems, and a demonstrated record of academic success.

**3. The Charter School is serving all students who wish to attend.**

DCA has a history of serving students from historically underserved communities, including socioeconomically disadvantaged students, English Learners, students with disabilities, and students from diverse racial, ethnic, cultural, and linguistic backgrounds.

DCA's 2025-26 enrollment reflects the diversity and needs of the Oakland community. In 2025-26, DCA serves 318 students. Of those students, 73.0% are socioeconomically disadvantaged, 16.0% are English Learners, and 7.9% are students with disabilities.

DCA's 2025-26 racial and ethnic enrollment includes 74.8% Asian students, 11.9% African American students, 9.4% Hispanic students, 1.6% Filipino students, 1.3% Two or More Races students, 0.6% White students, and 0.3% American Indian or Alaska Native students.

DCA maintains open and inclusive enrollment practices and does not screen, discourage, or limit enrollment based on academic performance, disability, English Learner status, socioeconomic status, behavior history, need for services, or any other protected characteristic.

DCA provides outreach and recruitment to families in English, Cantonese, and other languages as the need arises. DCA also provides interpretation, translation, accessible formats, and individualized assistance to families who need support understanding the program, applying, completing enrollment steps, or participating in registration after admission.

DCA's program is designed to serve students with a range of academic, language development, social-emotional, behavioral, and learning needs through rigorous instruction, intervention, ELD, special education supports, Section 504 supports, counseling, family engagement, and schoolwide student support systems.

**4. The Charter School's petition is reasonably comprehensive.**

This renewal petition contains reasonably comprehensive descriptions of the required charter elements and describes how DCA will continue to implement its educational program, meet student needs, comply with applicable law, and pursue improved student outcomes. The petition reflects DCA's current program, governance and operational structures, student support systems, instructional model, staffing plan, professional development systems, fiscal practices, family engagement strategies, and accountability measures.

DCA will continue to benefit Oakland Unified School District and Alameda County by providing families with a high-quality public middle school option that expands educational opportunity, supports historically underserved students, and prepares students for high school, college, and life.

5. **The Charter School satisfies the academic renewal criteria for a High Performing Charter School.**

Pursuant to Education Code Section 47607(c), the chartering authority shall consider the past performance of the Charter School on the state and local indicators included in the California School Dashboard. Pursuant to Education Code Section 47607(c)(2), a charter school that meets the High Performing renewal criteria is eligible for renewal for a period of five, six, or seven years.

DCA meets the criteria to be considered a High Performing Charter School. DCA's academic results, state recognition, and continued strong implementation of a rigorous middle school program demonstrate that the Charter School has provided a substantial academic benefit to students. DCA has produced strong outcomes while serving a student population that includes high percentages of socioeconomically disadvantaged students, English Learners, and students from historically underserved communities.

**As a High Performing Charter School, DCA is eligible for a five-, six-, or seven-year renewal term under Education Code Section 47607(c)(2). DCA respectfully requests renewal for a five-year term. This request is consistent with the renewal term available to High Performing Charter Schools and reflects AMPS' commitment to implementing Operational Sustainability while preserving DCA's high-quality academic program and strong student outcomes.**

DCA's request for a five-year term is not a reflection of academic weakness. Rather, it is a deliberate and responsible request that allows DCA to continue serving students as a high-performing school while AMPS strengthens organization-wide systems that support long-term sustainability. DCA's academic performance, community reputation, history of state recognition, and commitment to serving all students demonstrate that the Charter School merits renewal and continued operation.

In addition to the shift toward assessing Dashboard data, Assembly Bill 1505 also created a three-tiered system of evaluating charter schools' performance, plus a separate category for Dashboard Alternative School Status schools. Each of the four tiers has unique qualifying criteria.

<u>The three performance categories are as follows:</u>

- ***High Performing*** – Presumptive renewal if the charter school meets the established renewal criteria—Education Code Section 47607(c)(2).

- ***Middle Performing*** – Renewal unless the charter school failed to meet or make sufficient progress toward meeting standards and closure is in the best interest of students, evaluated using the Dashboard and Education Code Section 47607.2(b).

- ***Low Performing*** – Presumptive non-renewal if the charter school meets the non-renewal criteria, unless the chartering authority makes a finding to approve for a two-year term –Education Code Section 47607.2(a).

- ***DASS*** – Presumptive renewal with consideration of performance on the Dashboard and applicable alternative metrics, with nonrenewal only in the event that the chartering authority finds that closure is in the best interest of students – Education Code Section 47607(c)(7).

The state indicators include the following:

- Chronic Absenteeism: kindergarten through grade eight

- Suspension Rate: kindergarten through grade twelve

- English Learner Progress: grades one through twelve

- Graduation Rate: high school only

- College/Career: high school only (Note: The College/Career Indicator will not be reported on the 2022 Dashboard)

- Academic: grades three through eight and grade eleven – English Language Arts/Literacy and Mathematics

Accordingly, DCA fits into the high performing category, as determined by law and the California Department of Education, and as clearly demonstrated by the evidence. DCA has achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school and meets the criterion for charter renewal for a term of five years, as demonstrated below.

## Dashboard Performance Renewal Criteria – High Performing

Education Code Section 47607(c)(2) states:

(A) The chartering authority shall not deny renewal for a charter school pursuant to this subdivision if either of the following apply for two consecutive years immediately preceding the renewal decision:

(i) The charter school has received the two highest performance levels schoolwide on all the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 for which it receives performance levels.

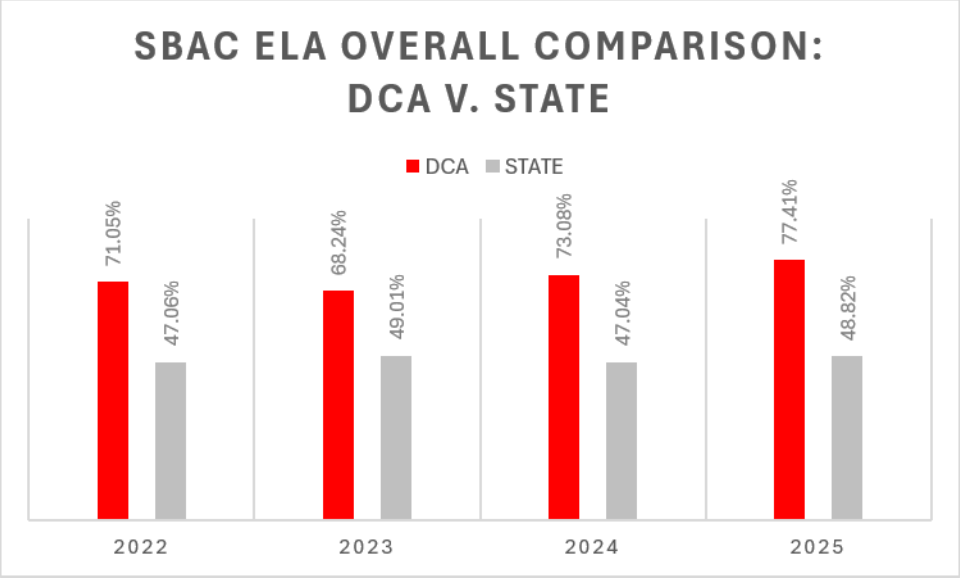
(ii) For all measurements of academic performance, the charter school has received performance levels schoolwide that are the same or higher than the state average and, for a majority of subgroups performing statewide below the state average in each respective year, received performance levels that are higher than the state average.

(B) Notwithstanding subparagraph (A), if the two consecutive years immediately preceding the renewal decision include the 2019-20 or 2020-21 school year, the chartering authority shall not deny renewal for a charter school if either of the criteria in subparagraph (A) apply for two of the most recent years for which state data is available preceding the renewal decision.

"Measurements of academic performance" are defined in statute as "statewide assessments in the California Assessment of Student Performance and Progress system, or any successor system, the English Language Proficiency Assessments for California or any successor system, and the college and career readiness indicator." (Education Code Section 47607(c)(3)).

## Dashboard Performance

### CAASPP System: English Language Arts



A review of DCA students' performance on the Smarter Balanced Assessment Consortium ("SBAC") in English Language Arts ("ELA") over the past four years demonstrates consistently strong achievement and continued improvement over time, as measured by both the percentage of students meeting or exceeding standards and Distance from Standard ("DFS"). In 2021–22, 71.05% of students met or exceeded standards with a DFS of 39.8 points. In 2022–23, performance decreased slightly to 68.24%, with the DFS declining to 35.1 points. However, DCA rebounded in 2023–24, with 73.08% of students meeting or exceeding standards and the DFS increasing to 47.1 points. By 2024–25, DCA reached 77.41% of students meeting or exceeding standards, with the DFS increasing further to 56.4 points. Overall, the data reflect a strong upward trajectory and demonstrate that DCA continues to provide an effective instructional program that supports high levels of student mastery in ELA.

*Table i.1: DCA SBAC ELA Performance from 2022 to 2025 Showing Percent of Students Meeting or Exceeding Standards on CAASPP and Distance from Standard from the Dashboard*

| ELA | 2022 | | 2023 | | 2024 | | 2025 | |
|---|---|---|---|---|---|---|---|---|
| | Met or Exceeded | DFS | Met or Exceeded | DFS | Met or Exceeded | DFS | Met or Exceeded | DFS |
| DCA | 71.05% | 39.8 | 68.24% | 35.1 | 73.08% | 47.1 | 77.41% | 56.4 |

A comparison of SBAC ELA performance between DCA and the State over the past four years demonstrates that DCA has consistently and substantially outperformed statewide results. In 2021–22, 71.05% of DCA students met or exceeded standards compared to 47.06% statewide. In 2022–23, DCA remained well above the State, with 68.24% meeting or exceeding standards compared to 49.01% statewide. In 2023–24, DCA increased to 73.08%, while the State declined slightly to 47.04%. By 2024–25, DCA reached 77.41%, compared to 48.82% statewide. Across all four years, DCA maintained a significant performance advantage over the State, reflecting strong instructional systems, effective academic supports, and sustained student achievement in ELA.

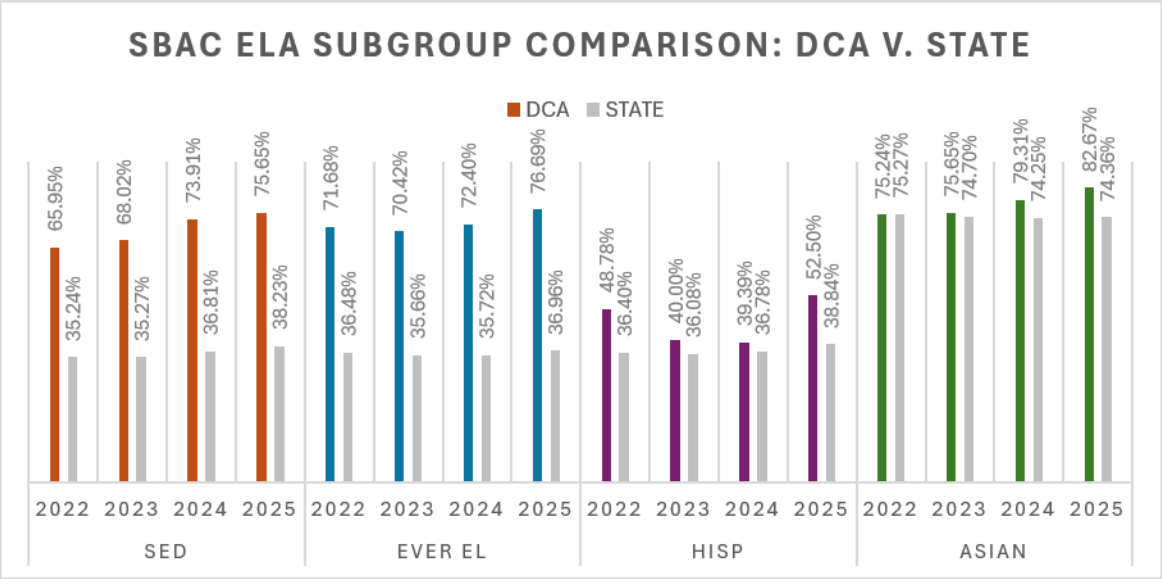


*Chart i.1: SBAC ELA Performance from 2022 to 2025 Showing the Percent of Students Meeting or Exceeding Standards at DCA Compared to the State of California*

A review of SBAC ELA subgroup performance over the past four years shows that DCA has consistently supported strong outcomes for major student groups, including Socioeconomically Disadvantaged ("SED") students, Ever English Learners ("Ever ELs"),

Hispanic/Latino students, and Asian students. Among SED students, 65.95% met or exceeded standards in 2021–22 compared to 35.24% statewide. SED performance increased to 68.02% in 2022–23, 73.91% in 2023–24, and 75.65% in 2024–25, remaining well above the State each year. Ever EL students also demonstrated strong achievement, with 71.68% meeting or exceeding standards in 2021–22, 70.42% in 2022–23, 72.40% in 2023–24, and 76.69% in 2024–25, consistently outperforming State outcomes by a substantial margin. Hispanic/Latino students showed improvement over time, increasing from 48.78% in 2021–22 to 52.50% in 2024–25, and exceeded the State in each reported year. Asian students demonstrated particularly strong outcomes, increasing from 75.24% in 2021–22 to 82.67% in 2024–25, remaining above the State in most years and substantially above the State by 2024–25. Overall, DCA's subgroup data demonstrate that the Charter School is producing strong ELA outcomes for historically underserved student groups and continues to support equitable academic achievement across its student population.

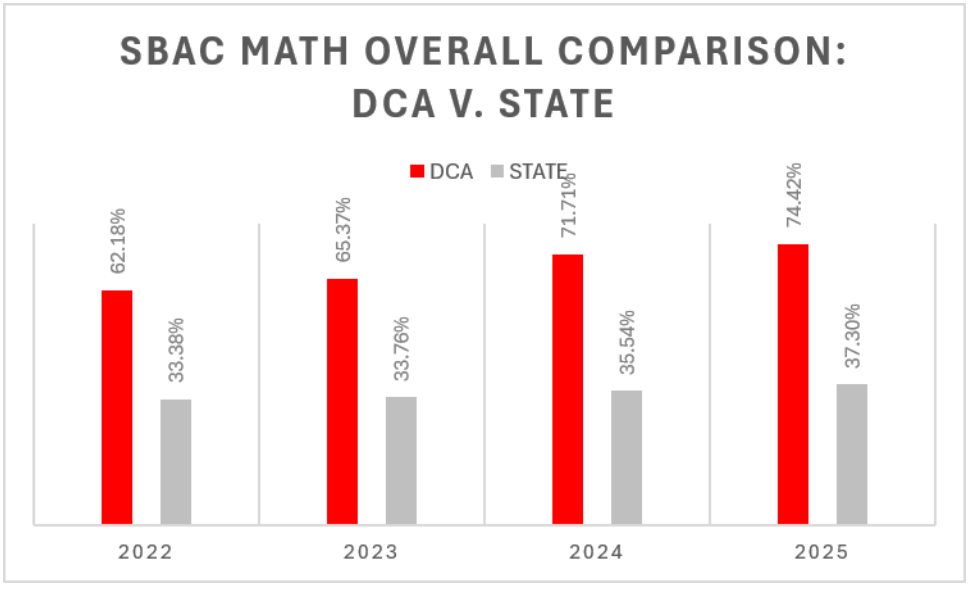
**CAASPP System: Mathematics**

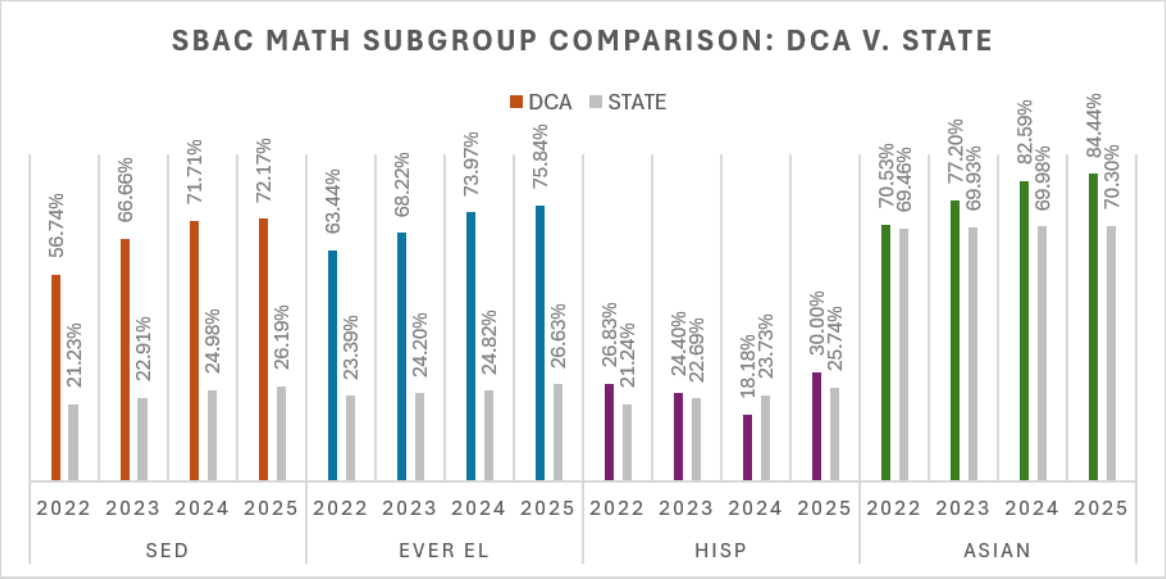
Mathematics performance at DCA demonstrates sustained and significant growth over the past four years, as measured by both the percentage of students meeting or exceeding standards on the SBAC and DFS. In 2021–22, 62.18% of students met or exceeded standards with a DFS of 34.6 points. In 2022–23, performance increased to 65.37%, and the DFS improved to 39.9 points. In 2023–24, DCA continued this upward trajectory, with 71.71% of students meeting or exceeding standards and the DFS increasing substantially to 55.0 points. By 2024–25, 74.42% of students met or exceeded standards, and the DFS rose again to 62.6 points. Overall, the data reflect



steady year over year improvement in Mathematics and demonstrate that DCA students are achieving at high levels while continuing to increase their distance above the standard.

*Table i.2: DCA SBAC Math Performance from 2022 to 2025 Showing Percent of Students Meeting or Exceeding Standards on CAASPP and Distance from Standard from the Dashboard*

| MATH | 2022 | | 2023 | | 2024 | | 2025 | |
|---|---|---|---|---|---|---|---|---|
| | Met or Exceeded | DFS | Met or Exceeded | DFS | Met or Exceeded | DFS | Met or Exceeded | DFS |
| DCA | 62.18% | 34.6 | 65.37% | 39.9 | 71.71% | 55.0 | 74.42% | 62.6 |



A comparison of SBAC Math performance between DCA and the State shows that DCA has consistently and substantially outperformed statewide results. In 2021–22, 62.18% of DCA students met or exceeded standards compared to 33.38% statewide. In 2022–23, DCA increased to 65.37%, while the State remained relatively stable at 33.76%. In 2023–24, DCA rose to 71.71%, compared to 35.54% statewide. By 2024–25, DCA reached 74.42%, while the State increased modestly to 37.30%. Across the four year period, DCA improved by more than 12% while maintaining a performance level nearly double the State average. These results demonstrate strong instructional effectiveness in Mathematics and continued success in helping students meet or exceed grade level standards.

*Chart i.3: SBAC Math Performance from 2022 to 2025 Showing the Percent of Students Meeting or Exceeding Standards at DCA Compared to the State of California*

A review of SBAC Math subgroup performance over the past four years shows strong and improving outcomes across several major student groups. Among SED students, 56.74% met or exceeded standards in 2021–22 compared to 21.23% statewide. This increased to 66.66% in 2022–23, 71.71% in 2023–24, and 72.17% in 2024–25, remaining far above State performance each year. Ever EL students also demonstrated strong growth, increasing from 63.44% in 2021–22 to 68.22% in 2022–23, 73.97% in 2023–24, and 75.84% in 2024–25, consistently exceeding State averages by a wide margin. Hispanic/Latino students performed above the State in each year, though their outcomes remained lower than DCA's overall results, increasing from 26.83% in 2021–22 to 30.00% in 2024–25 after declines in 2022–23 and 2023–24. Asian students demonstrated especially strong Mathematics performance, rising from 70.53% in 2021–22 to 84.44% in 2024–25, exceeding the State each year. Overall, DCA's Math subgroup results demonstrate strong achievement for SED, Ever EL, and Asian students, while also identifying Hispanic/Latino Mathematics performance as an area for continued monitoring and targeted support.

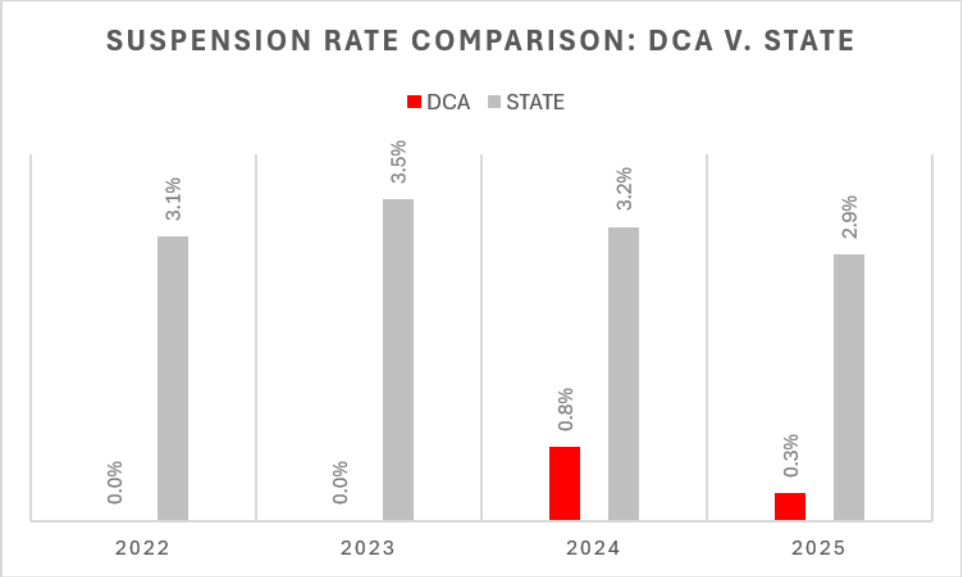
**English Learner Progress**

The English Learner Progress Indicator ("ELPI") measures the percentage of English Learners ("ELs") making progress toward English language proficiency each year. Over the past four years, DCA has consistently exceeded the State average on the ELPI, demonstrating strong support for English Learners. In 2021–22, 86.0% of ELs at DCA made progress toward English proficiency compared to 50.3% statewide. In 2022–23, 78.9% of ELs made progress compared to 48.7% statewide. In 2023–24, DCA achieved particularly strong results, with 90.9% of ELs making progress compared to 45.7%

statewide. In 2024–25, the percentage of ELs making progress declined to 61.2%, but remained above the State rate of 46.4%. While the 2024–25 decline indicates an area for continued attention, DCA's ELPI performance remains strong overall and reflects the Charter School's commitment to targeted language development instruction, academic support, and intervention systems designed to help EL students build English proficiency and succeed academically.

*Chart i.5: English Learner Progress Indicator from 2022 to 2025 Showing Percent of English Learners Making Progress Toward English Proficiency at DCA Compared to the State of California*



**Suspension Rate**

The Suspension Rate Indicator measures the percentage of students suspended at least once during the school year and provides insight into the effectiveness of a school's behavior supports, discipline practices, and overall school climate. DCA has maintained exceptionally low suspension rates over the past four years. In 2021–22, DCA reported a suspension rate of 0.0% compared to 3.1% statewide. In 2022–23, DCA again reported a suspension rate of 0.0% compared to 3.5% statewide. In 2023–24, the rate increased slightly to 0.8%, while the State rate was 3.2%. By 2024–25, DCA's suspension rate declined to 0.3%, compared to 2.9% statewide. Overall, DCA's suspension rates remain substantially below the State average, demonstrating a strong school climate and effective behavior support systems.

A review of subgroup suspension data further demonstrates DCA's generally low use of exclusionary discipline. In 2021–22 and 2022–23, all reported subgroups had suspension rates of 0.0%. In 2023–24, the overall suspension rate increased slightly to 0.8%, with Hispanic/Latino students at 2.9%, SED students at 0.9%, and ELs and Asian students at 0.0%. In 2024–25, the overall rate declined to 0.3%, with Hispanic/Latino students, SED students, and Students with Disabilities ("SWD") at 0.0%, Asian students

at 0.4%, ELs at 1.6%, and Long-Term English Learners ("LTELs") at 2.9%. While these rates remain low overall, DCA continues to monitor subgroup outcomes to ensure discipline practices remain equitable and supportive. The Charter School's low suspension rates reflect its continued emphasis on proactive behavior supports, positive school climate, restorative approaches, and early intervention.

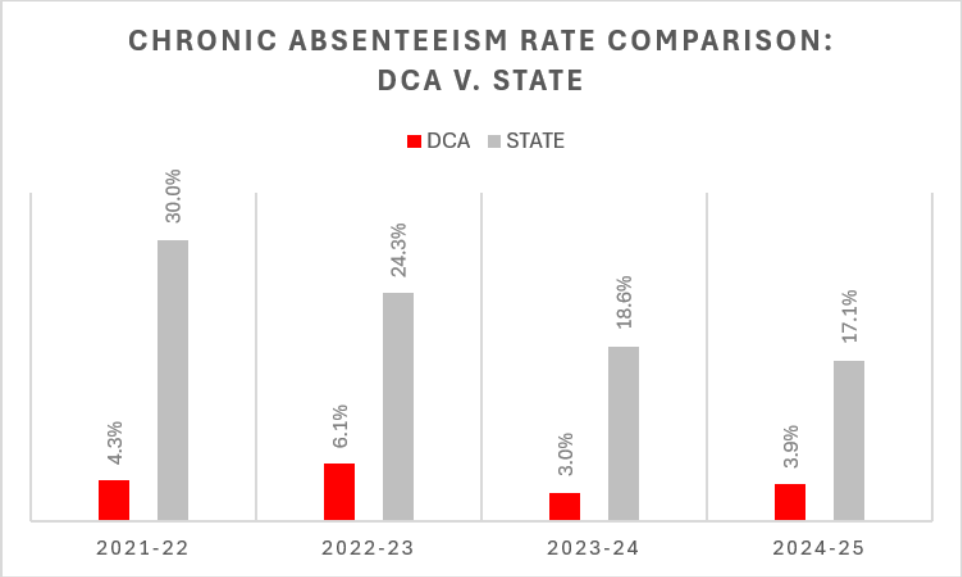


*Chart i.6: Suspension Rate from 2022 to 2025 Showing Overall at DCA Compared to the State of California*

**Chronic Absenteeism Rate**

Downtown Charter Academy has maintained exceptionally low chronic absenteeism rates compared to the State, demonstrating a strong culture of attendance, student engagement, and family partnership. From 2021-22 through 2024-25, DCA's chronic absenteeism rate remained far below the statewide rate each year. In 2021-22, DCA's chronic absenteeism rate was 4.3%, compared to the State rate of 30.0%. In 2022-23, DCA was 6.1%, while the State remained significantly higher at 24.3%. DCA improved further in 2023-24, reducing chronic absenteeism to 3.0%, compared to the State rate of 18.6%. In 2024-25, DCA maintained a very low rate of 3.9%, while the State rate was 17.1%. These results are particularly impressive given that DCA serves a student population with significant needs, including 73.0% SED students, 16.0% ELs, and 7.9% SWD in 2025-26. DCA's consistently low chronic absenteeism reflects the Charter School's ability to create a safe, structured, and connected school environment where students attend regularly, families remain engaged, and staff proactively support students before attendance concerns become barriers to learning.

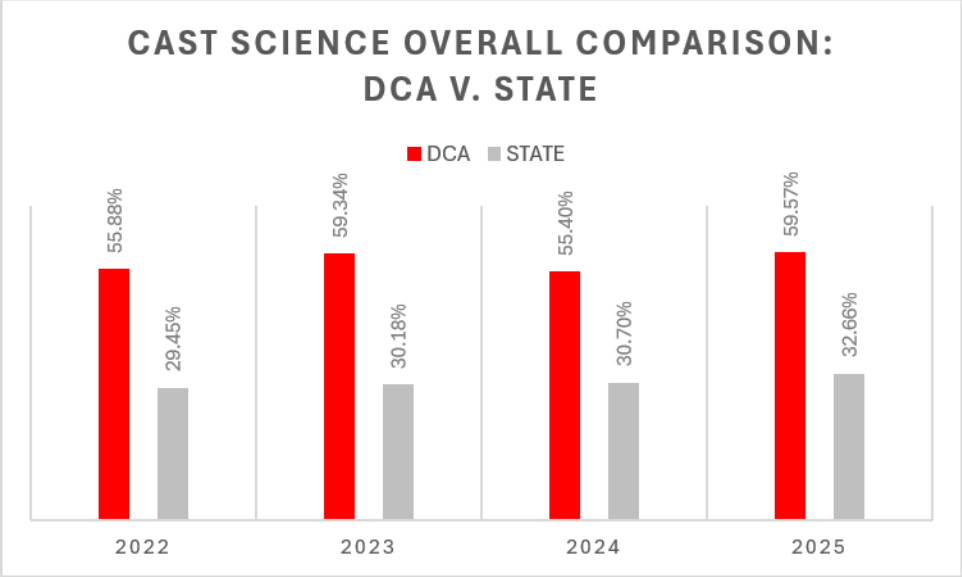
*Chart i.7: Chronic Absenteeism Rate from 2022 to 2025 Showing Overall at DCA Compared to the State of California*

**Local Indicators**

DCA has consistently met all Local Indicators reported on the Dashboard, including Implementation of Academic Standards, Access to a Broad Course of Study, Basics: Teachers, Instructional Materials, and Facilities, Parent and Family Engagement, and Local Climate Survey. These results demonstrate that DCA continues to meet State expectations for the locally reported priorities and maintains systems that support academic access, family engagement, school climate, and basic conditions for learning.

## Additional Data for Consideration at Renewal

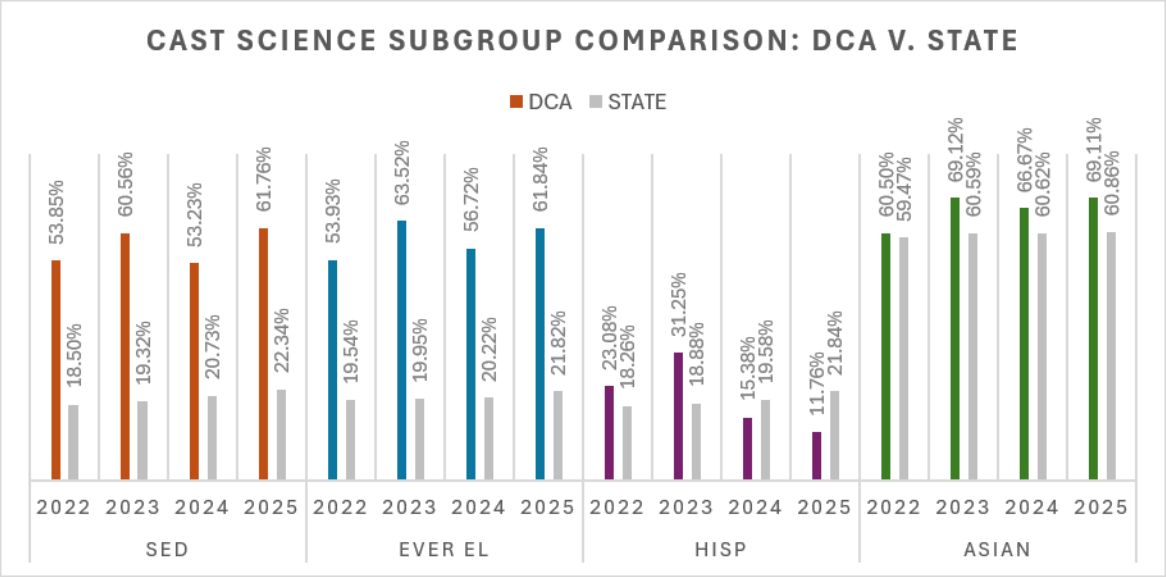
The additional verified data criteria applicable to low- and middle-performing charter schools do not apply to DCA because DCA meets the criteria for the High Performing renewal category. Pursuant to Education Code Section 47607(c)(2), the chartering authority shall not deny renewal for a charter school if the charter school satisfies the statutory High Performing renewal criteria based on the California School Dashboard state indicators and measurements of academic performance.



Accordingly, because DCA meets the High Performing renewal criteria, DCA is not required to provide verified data demonstrating measurable increases in academic achievement or strong postsecondary outcomes as an additional renewal condition. DCA may, however, provide supplemental academic, attendance, enrollment, student support, and other local data to further demonstrate the strength of its educational program and continued benefit to students and families.

## Year Over Year Progress

**CAASPP System: Science**



The California Science Test ("CAST") results show that DCA has consistently outperformed the State in Science over the past four years. In 2021–22, 55.88% of DCA students met or exceeded standards compared to 29.45% statewide. In 2022–23, DCA increased to 59.34%, while the State increased slightly to 30.18%. In 2023–24, DCA declined modestly to 55.40%, but remained well above the State rate of 30.70%. By 2024–25, DCA increased again to 59.57%, compared to 32.66% statewide. Overall, DCA's CAST results demonstrate consistently strong Science achievement, with student outcomes remaining nearly twice the State average across the four year period.

*Chart i.8: CAST Science Performance from 2022 to 2025 Showing the Percent of Students Meeting or Exceeding Standards at DCA Compared to the State of California*

A review of CAST Science subgroup performance demonstrates strong results for several major student groups, particularly SED students, Ever EL students, and Asian students. Among SED students, 53.85% met or exceeded standards in 2021–22 compared to 18.50% statewide. SED performance increased to 60.56% in 2022–23, declined slightly to 53.23% in 2023–24, and increased again to 61.76% in 2024–25, remaining well above the State each year. Ever EL students followed a similar pattern, with 53.93% meeting or exceeding standards in 2021–22, 63.52% in 2022–23, 56.72% in 2023–24, and 61.84% in 2024–25, consistently outperforming statewide results. Asian students also demonstrated strong Science achievement, increasing from 60.50% in 2021–22 to 69.11% in 2024–25 and exceeding State averages throughout the four year period. Hispanic/Latino student performance, however, declined from 23.08% in 2021–22 to 11.76% in 2024–25, falling below State outcomes in 2023–24 and 2024–25. These results show that DCA's overall Science program is producing strong outcomes, while Hispanic/Latino student performance in Science remains an important area for targeted support and continued monitoring.

**English Language Arts Distance from Standard**

DCA significantly outperforms the State in ELA, demonstrating consistently strong achievement and continued academic growth. From 2022 through 2025, DCA's SBAC ELA Distance from Standard remained well above the State each year. In 2022, DCA performed 39.8 points above standard, while the State was 12.2 points below standard. In 2023, DCA remained strong at 35.1 points above standard, compared to the State at 13.6 points below standard. DCA's performance increased to 47.1 points above standard in 2024 and reached 56.4 points above standard in 2025, while the State remained below standard at 13.2 points below standard in 2024 and 7.5 points below standard in 2025. These results show that DCA is not only outperforming the State by a substantial margin, but also improving over time. DCA's upward trajectory reflects the strength of the Charter School's instructional program, high expectations, data-driven teaching practices, and commitment to preparing students for success in high school, college, and beyond.

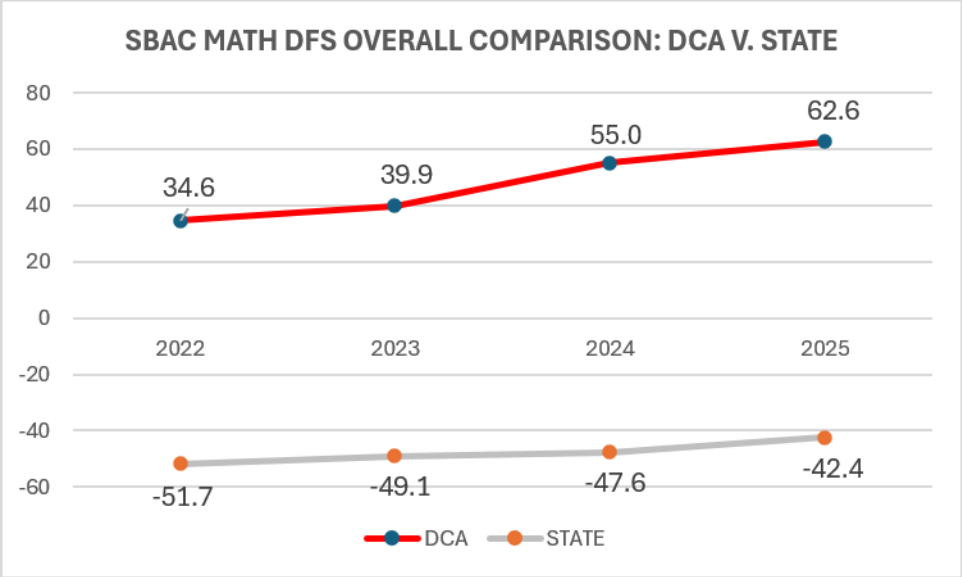

*Chart i.10: SBAC ELA Performance from 2022 to 2025 Showing the Distance from Standard at DCA Compared to the State of California*

**Mathematics Distance from Standard**

DCA's Mathematics results reflect a powerful and sustained pattern of achievement. From 2022 through 2025, DCA remained well above standard every year, while the State continued to perform below standard. In 2022, DCA was 34.6 points above standard, compared to the State at 51.7 points below standard. Rather than leveling off, DCA continued to improve, increasing to 39.9 points above standard in 2023, 55.0 points above standard in 2024, and 62.6 points above standard in 2025. This four-year trend shows both consistency and momentum. DCA not only maintained a significant advantage over the State, but also strengthened its performance each year. By 2025, the gap between DCA and the State was more than 100 points in Distance from Standard, with DCA at 62.6 points above standard and the State at 42.4 points below standard. These results demonstrate the effectiveness of DCA's math instruction, use of data, academic interventions, and high expectations for student learning. DCA's continued growth in Mathematics is especially impressive because the Charter School serves a high percentage of SED students, ELs, and students with diverse learning needs.

*Chart i.10: SBAC MATH Performance from 2022 to 2025 Showing the Distance from Standard at DCA Compared to the State of California*

**Stable Enrollment**

Downtown Charter Academy has maintained stable enrollment while continuing to serve a diverse and high-need student population. In 2025-26, DCA serves 318 students, returning to enrollment levels similar to earlier years in the charter term. The Charter School continues to serve a significant percentage of socioeconomically disadvantaged students, with 73.0% of students identified as SED in 2025-26. This reflects DCA's continued commitment to serving students and families who benefit from a structured, rigorous, and supportive middle school program.

DCA also serves students with varied language development and learning needs. In 2025-26, 16.0% of students are ELs and 7.9% are SWD. These data demonstrate the ongoing need for strong ELD, inclusive instructional practices, special education supports, intervention systems, and differentiated instruction. DCA's program is designed to ensure that students receive access to grade-level instruction while also receiving the academic, language, behavioral, and social-emotional supports necessary for success.

The Charter School's enrollment also reflects the diversity of Oakland. In 2025-26, DCA's student population is 74.8% Asian, 11.9% African American, 9.4% Hispanic, 1.6% Filipino, 1.3% Two or More Races, 0.6% White, and 0.3% American Indian or Alaska Native. These demographics demonstrate that DCA serves students from a wide range of racial, ethnic, cultural, and linguistic backgrounds. The Charter School's instructional program, student support systems, family engagement practices, and outreach efforts are therefore designed to be culturally responsive, inclusive, and accessible to the families it serves.

Overall, DCA's enrollment trends show a stable and mission-aligned middle school program that continues to serve historically underserved students, including SED students, ELs, SWD, and students from diverse racial and ethnic backgrounds. These data reinforce the need for DCA's continued operation as a high-performing public charter middle school option in Oakland.

Beyond the Dashboard and CAASPP measures, DCA demonstrates clear evidence of strong student performance, sustained academic achievement, exceptional student engagement, and meaningful progress in preparing middle school students for success in high school, college, and life. DCA's results show that the Charter School is not only meeting expectations, but significantly exceeding statewide performance in core academic areas while serving a diverse and high-need student population.

DCA has consistently demonstrated strong academic outcomes in both ELA and Mathematics. From 2022 through 2025, DCA performed well above the State in SBAC ELA Distance from Standard, increasing from 39.8 points above standard in 2022 to 56.4 points above standard in 2025. DCA also demonstrated exceptional growth in SBAC Mathematics, increasing from 34.6 points above standard in 2022 to 62.6 points above standard in 2025. These results are particularly significant because DCA serves a student population that includes 73.0% SED students, 16.0% ELs, and 7.9% SWD in 2025-26.

DCA also maintains exceptionally strong student engagement, as reflected in its very low chronic absenteeism rates. From 2021-22 through 2024-25, DCA's chronic absenteeism rate remained far below the State each year. In 2024-25, DCA's chronic absenteeism rate was 3.9%, compared to the State rate of 17.1%. This sustained pattern demonstrates that students are connected to school, families are engaged, and DCA maintains a safe, structured, and supportive school culture where students attend regularly and are positioned to learn.

As a middle school serving students in grades 6 through 8, DCA's postsecondary preparation is appropriately focused on ensuring students are academically, socially, and personally prepared for success in high school and future college pathways. DCA's mission is to provide a rigorous college preparatory education and character

development program that prepares students from underserved communities to succeed in high school, college, and life. The Charter School advances this mission by building strong academic foundations in ELA and Mathematics, developing student responsibility and perseverance, supporting attendance and engagement, and preparing students for the transition to high school.

During the renewal term, DCA will continue to build on these outcomes by sustaining high academic performance, strengthening targeted supports for ELs, SWD, and SED students, maintaining very low chronic absenteeism, and continuing to implement a rigorous middle school program that prepares students for long-term success. DCA will also continue working with AMPS as AMPS implements Operational Sustainability across the organization to further strengthen fiscal systems, compliance practices, staffing structures, enrollment planning, governance support, and long-term operational capacity.

**As demonstrated by the evidence above, DCA meets the renewal criteria for a High Performing Charter School under Education Code Section 47607(c)(2). As a High Performing Charter School, DCA is entitled to presumptive renewal approval and is eligible for a renewal term of five, six, or seven years. DCA respectfully requests presumptive approval of its charter renewal for a five-year term. This request reflects DCA's strong academic performance, continued benefit to Oakland students and families, and AMPS' responsible commitment to strengthening organization-wide operational sustainability while preserving DCA's high-quality educational program.**

## Element 1 – Educational Program

***"The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners." – Ed. Code § 47605(c)(5)(A)(i)***

***"The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals." – Ed. Code § 47605(c)(5)(A)(ii)***

***"If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the "A to G" admissions criteria may be considered to meet college entrance requirements." – Ed. Code § 47605(c)(5)(A)(iii)***

**Local Control Accountability Plan (LCAP)**

Charter School shall annually submit a Local Control and Accountability Plan (LCAP)/annual update to the Office of Charter Schools on or before July 1, in accordance with Education Code section 47604.33. In accordance with Education Code section 47606.5, Charter School shall annually update its goals and annual actions to achieve those goals identified in the charter pursuant to Education Code section 47605(c)(5)(A)(ii), using the Local Control and Accountability Plan template adopted by the State Board of Education, as it may be changed from time to time, including but not limited to the following:

A review of the progress towards the goals included in the charter, an assessment of the effectiveness of specific actions toward achieving those goals, and a description of the changes to the specific actions the charter school will make as a result of the review and assessment.

Listing and description of the expenditures for the fiscal year in implementing the specific actions included in the charter as a result of the reviews and assessments, classified using the California School Accounting Manual.

To the extent practicable, data shall be reported in a manner consistent with how information is reported on the California School Dashboard.

Charter School shall comply with all other requirements of Education Code section 47606.5, including but not limited to the requirement that Charter School 'shall consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the local control and accountability plan and annual update...' (Ed. Code § 47606.5(d))

**Western Association of Schools and Colleges (WASC) Accreditation**

If Charter School serves students in grades 9-12, Charter School shall obtain Western Association of Schools and Colleges (WASC) accreditation before Charter School graduates its first class of students.

**Mathematics Placement Policy**

If Charter School serves ninth grade, Charter School shall comply with the requirements of Education Code section 51224.7 with respect to implementing a fair, objective and transparent mathematics placement policy for pupils entering the ninth grade.

**Independent Study**

Charter School recognizes that a long-term independent study program (greater than 14 days per school year), is a material term of the educational program described in Charter School's petition. Therefore, if offered, Charter School's petition will contain a reasonably comprehensive description of the long-term independent study program, including how the school will comply with the legal requirements in providing such a program.

**Home and Hospital Instruction**

Charter School is responsible for providing both its general education and special education students with individual home instruction during any period of temporary disability when the student is unable to participate in on-campus instruction. In the case of a parent notifying Charter School of a request for home instruction, Charter School shall determine the appropriateness of home instruction services within five days of the request and shall begin home services within five days of determining eligibility. If a student disenrolls from Charter School in order to enroll with their school district of residence for home instruction, Charter School shall re-admit such students if they request re-enrollment within one calendar year from disenrollment from Charter School.

If a student with an IEP is unable to attend school due to a temporary or ongoing medical or psychological disability, Charter School shall continue to be responsible for the provision of special education and related services during that time. Home

instruction for a student with an IEP or Section 504 plan shall only be provided under the following circumstances (5 CCR § 3051.4): the IEP team has recommended home instruction based on a medical report which is from the student's attending physician, surgeon, or psychologist; states the diagnosed condition; certifies that the student's condition prevents attendance in a less restrictive setting; and contains a projected calendar date for the student's return to school.

Home instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. There is no provision in statute that specifically addresses instructional content; however, the goal of home instruction should be maintenance of the pupil's former level of performance.

A student with a temporary disability, who is in a hospital or other residential health facility within the boundaries of OUSD, excluding a state hospital, shall receive educational services by OUSD. A pupil with a temporary disability, who is in a hospital or other residential health facility outside the boundaries of OUSD, excluding a state hospital, shall receive educational services by the school district in which the hospital is located. Pursuant to Education Code § 48207, Charter School shall continue to enroll such students while they are receiving Hospital Instruction. Average daily attendance shall be calculated consistent with the law.

**Student Enrollment and Grade Levels Served**

Charter School will serve a student enrollment at each grade level and at all grade levels combined in each of the years of the term of the Charter as follows:

[Choose one of the following tables according to the length of your requested charter term. Note: Although six-year and seven-year terms can be requested by a charter school in the high renewal tier, the OUSD Board will determine the length of the renewal term, and the inclusion of year 6 and/or year 7 below does not guarantee approval of the request.]

**Overview**

The Charter School shall be its own local educational agency ("LEA") and is a member of the El Dorado County Charter ("EDCOE") SELPA in conformity with Education Code Section 47641(a). Please see Appendix C for Letter of Acceptance.

As an LEA member of the SELPA, the Charter School shall receive state and federal revenues directly, in accordance with the SELPA's allocation plan.

The Charter School shall comply with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms.

The Charter School may seek resources and services (e.g., Speech, Occupational Therapy, Adapted P.E., Nursing, and Transportation) from the SELPA, subject to SELPA approval and availability. The Charter School may also provide related services by hiring credentialed or licensed providers through private agencies or independent contractors.

The Charter School shall be solely responsible for its compliance with Section 504 and the ADA.

**Supporting Section 504 Students**

Kidinnu Academy identifies and supports students who may have a disability under Section 504 of the Rehabilitation Act. Students who qualify for a Section 504 Plan receive accommodations and supports necessary to access the Charter School's educational program. Staff implement Section 504 Plans and monitor student access and progress. Parents or guardians are included in the Section 504 process, and plans are reviewed periodically or when there is a significant change in student need.

Section 504 accommodations may include extended time, preferential seating, health supports, breaks, modified assignments, assistive technology, behavior supports, access supports, or other accommodations based on student need. Kidinnu Academy ensures that students with Section 504 Plans are provided equal access to academic instruction, assessments, activities, programs, and services.

The Charter School recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be

denied the benefits of, or otherwise be subjected to discrimination under any program of the Charter School. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

A Section 504 team will be assembled by the Principal or designee and shall include the parent/guardian, the student (where appropriate) and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The Section 504 team will review the student's existing records; including academic, social, and behavioral records, and is responsible for making a determination as to whether an evaluation for Section 504 services is appropriate.

If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the Section 504 team, which will evaluate the nature of the student's disability and the impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The Section 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.
- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient.
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills.

The final determination of whether the student will or will not be identified as a person with a disability is made by the Section 504 team in writing and notice is given in writing to the parent or guardian of the student in their primary language along with the procedural safeguards available to them. If during the evaluation, the Section 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the Section 504 team.

If the Section 504 team finds the student to have a disability under Section 504, the Section 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives a FAPE. In developing the Section 504 Plan, the Section 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School's professional staff.

The Section 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All Section 504 team participants, parents, guardians, teachers, and any other participants in the student's education, including substitutes and tutors, must have a copy of each student's Section 504 Plan. The Site Director or designee will ensure that teachers include Section 504 Plans with lesson plans for short-term substitutes and that they review the Section 504 Plan with a long-term substitute. A copy of the Section 504 Plan shall be maintained in the student's file. Each student's Section 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

**Services for Students under the IDEA**

The following description regarding how special education and related services shall be provided and funded by the Charter School for the sole purpose of providing a reasonably comprehensive description of the special education program in the Charter Petition. The specific manner in which special education and related services shall be provided and funded shall be set forth in an agreement, delineating the respective responsibilities of the Charter School and the EDCOE SELPA.

The Charter School shall provide special education instruction and related services in accordance with the IDEA, Education Code requirements, and applicable policies and practices of the SELPA.

The Charter School shall provide services for special education students enrolled in the Charter School regardless of their district of residence. The Charter School shall follow SELPA policies and procedures and shall utilize SELPA forms in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and parent/guardian complaints and maintaining the confidentiality of pupil records.

The Charter School agrees to promptly respond to all SELPA or District inquiries, to comply with reasonable directives from the SELPA or the District, and to allow the SELPA or the District access to the Charter School students, staff, facilities, equipment and records as required or imposed by law.

***Special Education Strategies for Instruction and Services***

The Charter School reserves the right to contract with agencies and vendors outside of the authorizer, when appropriate, to secure special education services, including administrative support services as needed.

The general education program at Kidinnu Academy will provide a wide range of strategic and intensive learning opportunities designed to meet the diverse needs of all students, including SWD. These strategies will be integrated into the Charter School's inclusive instructional model to ensure that all students, regardless of ability, have equitable access to rigorous, standards-based learning. The following general education strategies will be implemented to support SWD at Kidinnu Academy:

- **Collaborative Co-Teaching:** General education and special education teachers will work together in shared classrooms to deliver instruction, provide differentiated supports, and monitor progress toward academic goals.
- **Universal Design for Learning:** Instruction will be planned using UDL principles to provide multiple means of engagement, representation, and expression, ensuring that all students can access the curriculum and demonstrate mastery in ways that align with their strengths.
- **Blended and Technology-Integrated Learning:** Teachers will use adaptive learning tools to personalize instruction and monitor student growth in real time, offering targeted feedback and interventions.
- **Extended Learning Opportunities:** Students will have access to extended learning time through after-school tutoring, enrichment, and intersession programs to close learning gaps and reinforce key skills.
- **Built-In Reteaching and Mastery Cycles:** The mastery-based model will include intentional reteaching opportunities embedded in instructional units to ensure that students demonstrate proficiency before advancing.
- **Differentiated Instruction and Scaffolding:** Lessons will include multiple levels of support, flexible grouping, and modified assignments to meet the unique learning profiles of each student.
- **Targeted Interventions in Reading, Writing, and Mathematics:** Evidence-based intervention programs will provide intensive small-group instruction to address foundational skill gaps, with frequent progress monitoring and data-informed adjustments.
- **Specialized Academic Tutoring:** One-on-one and small group tutoring will focus on individual student goals, with coordination between general education, special education, and paraprofessional staff to ensure continuity of support.

- **Small Group and Push-In Supports:** Instructional aides and special education staff will provide in-class assistance and targeted skill development aligned with IEP goals, including reading, writing, math, fine motor, and executive functioning skills.

- **Social-Emotional and Behavioral Supports:** Through the Charter School's PBIS framework SEL curriculum, students will receive additional supports for self-regulation, motivation, and social-emotional growth.

These strategies will ensure that DCA's SWD are fully included in the general education setting while receiving the specialized supports needed to achieve academic success, personal growth, and secondary readiness.

A pupil shall be referred for special education only after the resources of the general education program have been considered, and where appropriate, utilized.

The Charter School shall follow SELPA child-find procedures to identify all students who may require assessment to consider special education eligibility and special education

and related services in the case that general education interventions do not provide a free appropriate public education to the student in question.

***Assessments***

The Charter School shall also provide all home-school coordination and information exchange. The Charter School shall also be responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.

***Interim and Initial Placements of New Charter School Students***

The Charter School shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. ## TARGETED STUDENT POPULATIONS AND COMMUNITY NEED

Downtown Charter Academy ("DCA") is located in Downtown Oakland and serves students and families seeking a rigorous, structured, college preparatory middle school program. Established in 2014, DCA is part of Amethod Public Schools ("AMPS") and has developed as a neighborhood middle school option for Oakland families. DCA's school profile states that the Charter School serves students in grades 6 through 8 and is grounded in the belief that all students can achieve their academic goals, attend college, and succeed in life.

DCA seeks to educate middle school students from historically underserved communities, including SED students, ELs, SWD, and students from diverse racial, ethnic, linguistic, and cultural backgrounds. DCA serves students in grades 6 through 8. In 2025-26, DCA serves 318 students. The Charter School's student population reflects both the diversity and the needs of the Oakland community. In 2025-26, 73.0% of DCA students are socioeconomically disadvantaged, 16.0% are ELs, 7.9% are SWD, and 0.0% are foster youth. The Charter School's racial and ethnic composition includes 74.8% Asian students, 11.9% African American students, 9.4% Hispanic students, 1.6% Filipino students, 1.3% Two or More Races students, 0.6% White students, and 0.3% American Indian or Alaska Native students. This demonstrates a continuing need for a middle school program that provides strong academic preparation, structured student supports, family engagement, and access to rigorous instruction for students who may face economic and educational barriers.

While Oakland is rich in culture, resilience, and opportunity, many families continue to face significant economic and educational challenges. For DCA families, these challenges are reflected in the Charter School's 2025-26 enrollment data, with nearly three-fourths of students identified as socioeconomically disadvantaged. These students may experience barriers related to access to academic enrichment, technology, transportation, stable housing, health care, and other resources that can affect attendance, academic performance, and family engagement. DCA's educational program is designed to respond to these needs through high expectations, strong instruction, structured academic support, family communication, and a school culture focused on student achievement and preparation for the future.

DCA also serves students with language development and learning needs that require intentional support. With 16.0% of students identified as ELs in 2025-26, the Charter School provides a program that must support access to grade-level instruction while building English language proficiency, academic vocabulary, structured student discourse, and writing skills across content areas. With 7.9% of students identified as SWD, DCA must also ensure access to inclusive practices, accommodations, special education and related services, progress monitoring, and collaboration between general education and special education staff.

DCA, established in 2014, has become a strong middle school option for Oakland families seeking a rigorous academic environment, character development, and personalized support. As part of Amethod Public Schools, DCA is grounded in the belief that all students can achieve their academic goals, attend college, and succeed in life. The Charter School serves students during a critical developmental period when they are building academic independence, study habits, self-advocacy, social-emotional skills, and readiness for high school.

**Mission and Vision Aligned with the Target Population**

At Downtown Charter Academy, our mission is to provide a rigorous college preparatory education and character development program that prepares students from underserved communities to succeed in high school, college, and life. The Charter School's vision is to cultivate a structured, inclusive, and achievement-oriented middle school community where students develop the academic skills, personal responsibility, perseverance, confidence, and character needed to thrive in high school, college, career, and civic life.

**Needs and Challenges of the Student Groups to Be Served**

DCA's student population demonstrates the continued need for a high-quality public middle school program that combines academic rigor with targeted support. The Charter School seeks to ensure that students excel inside and outside of the classroom, develop the habits and skills needed for long-term success, and become prepared to contribute positively to their families, communities, and future educational pathways.

Middle school students also face important developmental transitions as they move from elementary school toward high school readiness. DCA students need support in academic organization, study habits, executive functioning, social-emotional development, peer relationships, attendance, behavior expectations, and preparation for high school coursework. DCA's middle school program is designed to address these needs through clear expectations, strong teacher-student relationships, academic support, character development, college preparatory culture, and a safe and focused learning environment.

Through its educational program, DCA seeks to meet the needs of students who require both rigor and support. The Charter School's student population demonstrates the continued need for a high-quality public middle school option that provides academic preparation, language development, special education support, culturally responsive practices, family partnership, and a schoolwide culture focused on achievement, responsibility, and long-term student success.

## Mission Statement

Amethod Public Schools seeks to provide a rigorous college preparatory education and character development program that will prepare students from underserved communities to succeed in college and beyond.

## Vision Statement

Amethod Public Schools fosters students' motivation and belief in academic achievement and goals. We are a free and public charter school network that believes in the promise of hard-working students from all perspectives, backgrounds, and talents. We challenge every student to strive towards a purpose larger than themselves and challenge all families to expect more from their schools, themselves, and their children for a prospective future for the next generation.

## Amethod Public Schools (AMPS) - Core Values

Our core values represent the pillars that guide the mission of the AMPS organization:

- **Students First:** Focusing on students as the priority ensures that all decisions and actions are geared toward their best interests, well-being, and academic growth. This value fosters a student-centered culture, where the needs and development of learners come before anything else.

- **Adaptability:** In a rapidly changing world, adaptability is key for both students and educators. This value empowers the school community to embrace change, innovate, and stay flexible when faced with new challenges. It also encourages resilience in students, helping them thrive in diverse situations.

- **Responsibility:** Instilling a sense of responsibility in students and staff promotes accountability and integrity. It encourages everyone to take ownership of their actions, decisions, and contributions to the school community, cultivating a culture of trust and dependability.

- **Perseverance:** Perseverance teaches the value of hard work, persistence, and grit. It helps students and staff develop the mindset to overcome obstacles, stay committed to their goals, and keep pushing forward despite difficulties. This value fosters resilience and growth.

- **Commitment to Distinction:** Striving for excellence and standing out in all areas—academically, socially, and professionally—demonstrates the school's dedication to being a top-tier institution. This value drives continuous improvement, motivating both students and staff to aim for high standards and maintain a culture of excellence.

***Successful and Innovative Programs***

Downtown Charter Academy pursues lofty academic goals while infusing methods for instilling a sense of intellectual and studious culture and high expectations among our student body. The Amethod Public Schools culture and procedures are rooted in traditional values such as respect, responsibility, work ethic, academic rigor, and community service. These ideals are explicitly taught to every teacher, and subsequently to every student. AMPS campuses have become known for upholding

these values, and this is a large component of what makes our system effective. Our task is to empower underserved students to be different and stand out from their community peers, many of whom are assigned to underperforming schools.

## Educational Philosophy

DCA's educational philosophy reflects AMPS' belief that all students, including students from historically underserved communities, deserve access to a rigorous, high-quality public education that prepares them for success in high school, college, career, and life. AMPS, the Charter Management Organization for DCA, believes that higher education and strong academic preparation are among the surest pathways to future opportunity and that high expectations for all students are essential to academic progress.

Drawing the best from every student requires a shared commitment from teachers, families, administrators, students, and the broader school community. DCA believes that students succeed when schools uphold high expectations, recruit and retain highly effective teachers, implement systems that ensure academic rigor, provide relevant professional development, use data to guide instruction and support, and maintain a strong partnership with families.

DCA understands the importance of using research-based instructional practices to promote student achievement. Staff are trained to utilize standards-based and research-supported curriculum, incorporate State Standards into instruction, align assessments to State Standards, implement supplemental instructional programs that support student learning, and design instruction that reflects effective teaching practices, differentiation, and the needs of diverse learners.

DCA is committed to fostering an educational environment where equity is central to teaching, learning, school culture, and student support. The Charter School recognizes that students come to school with different strengths, experiences, needs, and opportunities, and DCA continuously works to ensure that all students receive the support, challenge, and resources necessary to thrive. This includes particular attention to SED students, ELs, SWD, and other students who may benefit from targeted academic, social-emotional, language development, or behavioral supports.

The AMPS organizational framework encourages students and families to understand that commitment to a rigorous academic program and the development of a strong work ethic are essential to long-term success. DCA seeks to teach students to move beyond their academic comfort zones, embrace challenging work, build perseverance, and see rigorous coursework as preparation for future opportunity.

DCA strives to create a learning environment where students feel seen, valued, supported, and empowered. Through high expectations, strong relationships,

academic supports, character development, and a structured school culture, DCA helps students build the habits of scholarship, responsibility, self-advocacy, and resilience. DCA's goal is not only to prepare students for high school and future college pathways, but also to help them become confident learners, thoughtful problem solvers, and positive contributors to their families and communities.

***The Five Successful Strategies for an AMPS Middle School***

Parents/Guardians sending their children to DCA can expect:

1) ***Small Campus-*** Schools with large populations of students are built on the premise that theoretically, due to the economies of scale, a large school is more efficient at delivering a comprehensive educational product. The problem is that these large schools are too big and students become numbers, not individuals. Many students can fall through the gaps and end up with their academic needs failing to be addressed in large schools. Moreover, problems such as discipline and violence can escalate, and campus security becomes a serious issue. Our smaller campuses expose students to more information, time, and individual attention therefore making it much easier to figure out how a student learns and what "works" for them academically, and socially. It is far easier to close the gaps in a school system in a small campus setting.

2) ***Departmentalized Classrooms-*** A core part of the AMPS middle school curricular model is the implementation of departmentalized classrooms. By offering the departmentalized classrooms, DCA students are offered highly qualified instructors, best practices for specific content disciplines, more in depth focus on each discipline, and increased opportunities for inquiry based learning. This curricular approach has been proven extremely effective at AMPS middle school sites.

3) ***Structure-*** AMPS considers effective teaching practice, structured classrooms, and orderly schools to be the key measures to prevent negative student behaviors. Teachers must give students a clear understanding of how tasks proceed. For example, if students are to enter the class, teachers will begin by describing how students are to enter the facility and classroom properly. This must be explicitly taught and re-taught early to avoid confusion. We expect every teacher to make lists of student roles and group responsibilities, and explain, and teach these thoroughly to students. In this way, students will know what is expected of them throughout the course of the year. Explicit information detailing what is expected of students is provided, taught, and reinforced through clearly structured daily patterns, rituals, and class activities. We do not ascribe to the spiral of continual suspensions and the constant flow of students to the office as is seen in many schools and view a focus on a structured school as the best remedy to this issue.

4) ***Attendance Matters-*** As basic as the concept may be, many students, particularly those at the middle and high school levels, become careless about regular school attendance. Missing a few classes seems inconsequential to them and at times it may seem insignificant to parents/guardians and families as well. School administrators are sometimes faced with parents/guardians who are unaware of their student's absence from school or, worse, which are aware but quite willing to make excuses for the absence. There are several reasons why regular school attendance is important for every student. Absenteeism hurts the student. Students who are frequently absent fall behind in academics and miss important concepts that enhance their ability to understand and follow directions or, ultimately, plan for the future. Absenteeism hurts other students. Students who are frequently absent require more individual attention from the teacher. Absenteeism hurts the school and organization. State financial support for schools is linked to student attendance. When students are absent the school loses funding. Each lesson presented to students is based upon or related to those that preceded it. Just as we can never regain a moment of time wasted, the student who misses a day of school also misses a day of education which cannot be retrieved. DCA uses an incentive-based program for students and parents/guardians to encourage maximum attendance rates.

5) **Positive Behavior Interventions and Supports and Social Emotional Learning** Part of the AMPS mission statement includes a character development aspect to instill in our scholars the importance of committing to distinction. One of the methods our schools employ is a Positive Behavior Interventions and Support system which reinforces positive behaviors and values rather than punitively punishing bad behaviors. This ensures that students are being focused on the positive qualities that we want them to cultivate at our sites. We also utilize a social emotional learning curriculum to help students learn to manage their stress, time, and relationships with others in a positive and productive way. This is an important aspect of our character development program that supports students' social and emotional growth by offering them the space and language to create a supportive learning community, develop self-awareness and self-management, build positive relationships, and resolve their own conflicts. For middle school students, these skills are especially important as they build independence, navigate peer relationships, manage academic expectations, and prepare for the transition to high school.

6) ***High Expectations for All Students:*** At DCA, there are high expectations for all students. DCA ensures that every student has access to rigorous, standards-aligned coursework so that every student is prepared for high school coursework and has a strong foundation for advanced and/or honors college preparatory high school courses. Considering that DCA is an academically focused school system, students are expected to engage in extensive individual and group work outside of the classroom. As such, our schools offer academic support programs to meet

the needs of the entire student population, and to empower students to reach their full potential. The staff is committed to, and required to, ensure that all students are either performing on grade level or working their way through, regardless of their skill level upon enrolling in the school. DCA also has high standards for student behavior and expect all staff, parents/guardians, student, and administrators to understand and reinforce the adherence to proper student conduct and school policies.

***Character Development***

In addition to focusing on academic skills, teachers at DCA place a strong emphasis on character building. Students learn how to behave in large group settings, listen respectfully to speakers and presenters, participate in student competitions such as spelling or geography bees, and greet school visitors appropriately. Students also have the opportunity to help their community through volunteer programs and activities.

Teachers are expected to use an appropriate mix of instructional techniques, including direct instruction, guided practice, feedback through engagement, and individual practice in lessons that reinforce the character education expectations and keep character goals active and present throughout the instructional program. DCA students acquire life skills that help them build meaningful connections to their school, families, and broader community.

The goal for all students is to develop an understanding that education is essential to their future and necessary for success in adulthood. DCA seeks to establish a school culture where diligence, perseverance, responsibility, and respect are valued, and where students learn to take ownership of their education and future success.

## ATTENDANCE

### Academic Calendar

DCA is committed to ensuring that students have the time and opportunity to learn while also maintaining school breaks that allow students to spend meaningful time with their families and friends. DCA follows the AMPS academic calendar, which is developed organization-wide and implemented across AMPS schools, subject to annual approval and adjustment. In 2027-28, DCA anticipates offering at least 180 instructional days to support student learning, academic achievement, and preparation for high school, college, and life.

In addition to meeting or exceeding required instructional days and minutes, DCA anticipates providing additional learning opportunities that support the implementation of the Charter School's mission. These may include intervention, tutoring, academic support, enrichment, extended learning opportunities, after-school programming, summer school, and other targeted supports for students as needed.

These additional opportunities are designed to help students strengthen foundational skills, accelerate academic growth, receive individualized support, and remain connected to a structured and supportive school community.

Charter School will have at least 175 days of instruction and for each fiscal year, offer, at a minimum, the following number of minutes of instruction:

(A) To pupils in grades 6 to 8, inclusive, 54,000 minutes.

**Bell Schedule**

DCA has developed a bell schedule that exceeds the required number of instructional minutes for all grade levels. DCA's students attend a full-day schedule Monday through Thursday from 8:30 a.m. to 3:32 p.m., totaling 422 minutes per day, and a shortened Friday schedule from 8:30 a.m. to 12:45 p.m., totaling 255 minutes. Monday through Thursday, students receive core instruction in ELA, Math, History, and Science, along with ELA and Math intervention, Physical Education, Music and Film, and ELD for ELs based on the elective schedule. On Fridays, students receive core instruction through a shortened schedule that supports instructional continuity while allowing time for school planning, collaboration, professional development, or operational needs. Bell schedules are subject to change to address the needs of students and to ensure DCA continues to meet or exceed applicable instructional minute requirements.

## WHAT IT MEANS TO BE AN EDUCATED PERSON IN THE 21ST CENTURY

DCA believes that a strong academic foundation in the middle grades is essential to preparing students for success in high school, college, career, and life. In an increasingly competitive, fast-paced, and technology-driven world, students must be prepared to think critically, communicate effectively, collaborate with others, analyze information, solve problems, adapt to change, and continue learning throughout their lives. DCA's educational program is designed to help students develop these skills while also building the academic habits, discipline, confidence, and character necessary for long-term success.

DCA's mission is to provide a rigorous college preparatory education and character development program that prepares students from underserved communities to succeed in college and beyond. This mission reflects AMPS' belief that higher education and strong academic preparation are among the surest pathways to future opportunity. DCA also recognizes that middle school is a critical time for students to develop the foundational academic skills, study habits, perseverance, and self-advocacy needed to succeed in high school and future college pathways.

DCA students are taught to think, not what to think. The Charter School emphasizes analytical reading, mathematical reasoning, reading comprehension, written and oral communication, problem solving, and the ability to apply knowledge in meaningful ways. Students are expected to engage with challenging content, ask questions, explain their reasoning, work collaboratively, and develop the confidence to approach

complex academic tasks. These skills help students build the foundation necessary for success in high school coursework and future college preparatory opportunities.

DCA also believes that academic success requires the development of a strong work ethic. Students are encouraged to persevere through academic and personal challenges, take responsibility for their learning, adapt when faced with difficulty, and strive for distinction in their work and conduct. These expectations align with AMPS' core values of Students First, Be Adaptable, Persevere, Take Responsibility, and Commitment to Distinction. Through these values, DCA helps students understand that success is built through consistent effort, personal responsibility, resilience, and a willingness to grow.

DCA's program is especially important for students from historically underserved communities who may face barriers to academic opportunity, enrichment, and long-term college access. Regardless of background, economic standing, language status, disability, or prior academic preparation, DCA's responsibility is to provide students with rigorous instruction, effective teachers, targeted supports, a safe and structured school culture, and the confidence to pursue ambitious goals. The Charter School seeks to ensure that every student is prepared not only to succeed in school, but also to become a thoughtful, capable, and contributing member of the broader community.

DCA exists to strengthen the pathway to high school, college, and future opportunity by ensuring that students leave middle school with the knowledge, skills, habits, and character necessary to thrive. Through rigorous academics, character development, high expectations, and strong student support systems, DCA prepares students to meet the challenges of the 21st century with persistence, adaptability, curiosity, responsibility, and confidence.

## Goals to Enable Students to Become and Remain Self-Motivated, Competent, and Lifelong Learners

The Charter School has developed goals that will enable students to become and remain self-motivated, competent, and lifelong learners who are able to develop and utilize the above skills in the classroom and apply them insightfully to the world around them. The Charter School believes that an educated person in the 21st century should possess a comprehensive set of academic and nonacademic skills and qualities that are important for an educated person.

<u>Academic Skills and Qualities:</u>

- Core Academic Skills - A solid foundation in core academic areas as defined by state curricular standards.
- Digital Literacy - Mastery of ongoing learning in the effective use of digital

technologies and communication tools.

- Effective Communication - The ability to communicate confidently and effectively, both orally and in writing, with diverse audiences.
- Critical and Creative Thinking - The capacity to think critically and creatively, employing various strategies to solve problems.
- Quantitative Reasoning - Proficiency in quantitative thinking, including data analysis and the application of theories and processes to make informed decisions.

Nonacademic Skills and Qualities:

- Executive Function Skills - The ability to work both independently and cooperatively, demonstrating strong executive function skills.
- Personal Integrity and Motivation - Personal integrity, morality, self-motivation, and self-esteem.
- Lifelong Learning - A commitment to and ability to engage in lifelong learning, encompassing informal learning, on-the-job training, and formal educational achievements.
- Navigational Skills - The ability to navigate institutions, cultures, and systems within their chosen professions.
- Civic Engagement - The skills and willingness to engage in the responsibilities of citizenship.

**The Charter School's Approach to Education**

DCA adopts a student-centered approach to learning that combines rigorous, standards-aligned instruction with meaningful opportunities for students to think critically, communicate effectively, collaborate with peers, and apply their learning. The Charter School's instructional program is designed to ensure that students build strong academic foundations in ELA, Mathematics, Science, and History while also developing the habits, confidence, and character necessary for success in high school, college, and life.

DCA teachers use active learning strategies that encourage students to participate in discussions, explain their reasoning, engage with challenging texts and problems, complete individual and collaborative tasks, and demonstrate understanding in multiple ways. When appropriate, teachers incorporate projects, inquiry, real-world examples, and applied learning opportunities that allow students to make connections across content areas and develop problem-solving skills.

DCA also uses digital platforms and instructional technology to support learning, communication, assessment, intervention, and access to academic resources. Technology is used as a tool to enhance instruction, support differentiated learning, monitor student progress, and prepare students to use digital resources responsibly and effectively.

A well-educated person understands that the world is constantly changing and is prepared to continue learning, adapting, and growing. DCA prepares students to analyze information, consider multiple perspectives, make informed decisions, communicate clearly, and approach challenges with persistence and curiosity. Through rigorous academics, character development, structured supports, and high expectations, DCA prepares students not only for academic success, but also for future opportunity and their roles as informed, engaged, and contributing members of their communities.

**HOW LEARNING BEST OCCURS**

DCA believes that optimal learning occurs when students are provided with a rigorous academic curriculum, highly effective instruction, strong student support systems, clear expectations, and a safe, structured, and inclusive learning environment. The Charter School's instructional program is designed to support high student achievement by ensuring that students have access to standards-aligned instruction, targeted academic supports, consistent classroom routines, and meaningful opportunities to engage in critical thinking, collaboration, communication, and problem solving.

DCA uses data and analysis to guide instructional decision-making and continuous improvement. The Charter School collects and reviews achievement data, grade performance, attendance data, behavior data, suspension data, intervention data, and other relevant student information to evaluate the effectiveness of the educational program and identify areas where students need additional support or challenge. Teachers and school leaders use this information to monitor student progress, adjust instruction, provide intervention, strengthen classroom practice, and support improved outcomes for all students.

A core component of DCA's instructional model is the prioritization of core academic content. Students receive instruction in ELA, Mathematics, Science, and History, with additional academic support and intervention provided as needed. DCA also provides opportunities for students to receive support during the school day and through available extended learning or tutoring opportunities. This structure allows students to strengthen foundational skills, access grade-level content, and receive targeted support in areas of need.

DCA also believes that learning occurs best in classrooms that are safe, orderly, engaging, and focused on academic achievement. Effective teaching requires clear

lesson design, strong classroom routines, active student engagement, frequent checks for understanding, timely feedback, and responsive instruction. Teachers are expected to create classrooms where students know what they are learning, understand expectations, participate actively, and receive the support necessary to make progress toward grade-level standards.

To support instructional quality, DCA and AMPS use an instructional rubric for teachers that defines expectations for effective practice. The rubric supports teacher development and coaching in key areas such as purposeful planning, effective instruction, data use and assessment, classroom management, and professionalism. Through classroom observations, coaching conversations, feedback, professional development, and reflection, teachers are supported in strengthening lesson design, student engagement, assessment practices, differentiation, classroom culture, and professional responsibilities.

DCA's approach to instruction reflects the belief that all students can achieve at high levels when they are provided with rigorous academics, effective teachers, structured support, and a school culture that promotes responsibility, perseverance, and commitment to distinction. Through this combination of high expectations, data-informed instruction, strong relationships, and targeted support, DCA prepares students to succeed in middle school and to enter high school ready for future academic success.

## INSTRUCTIONAL DESIGN

### Instructional Design Framework and Alignment to Student Need

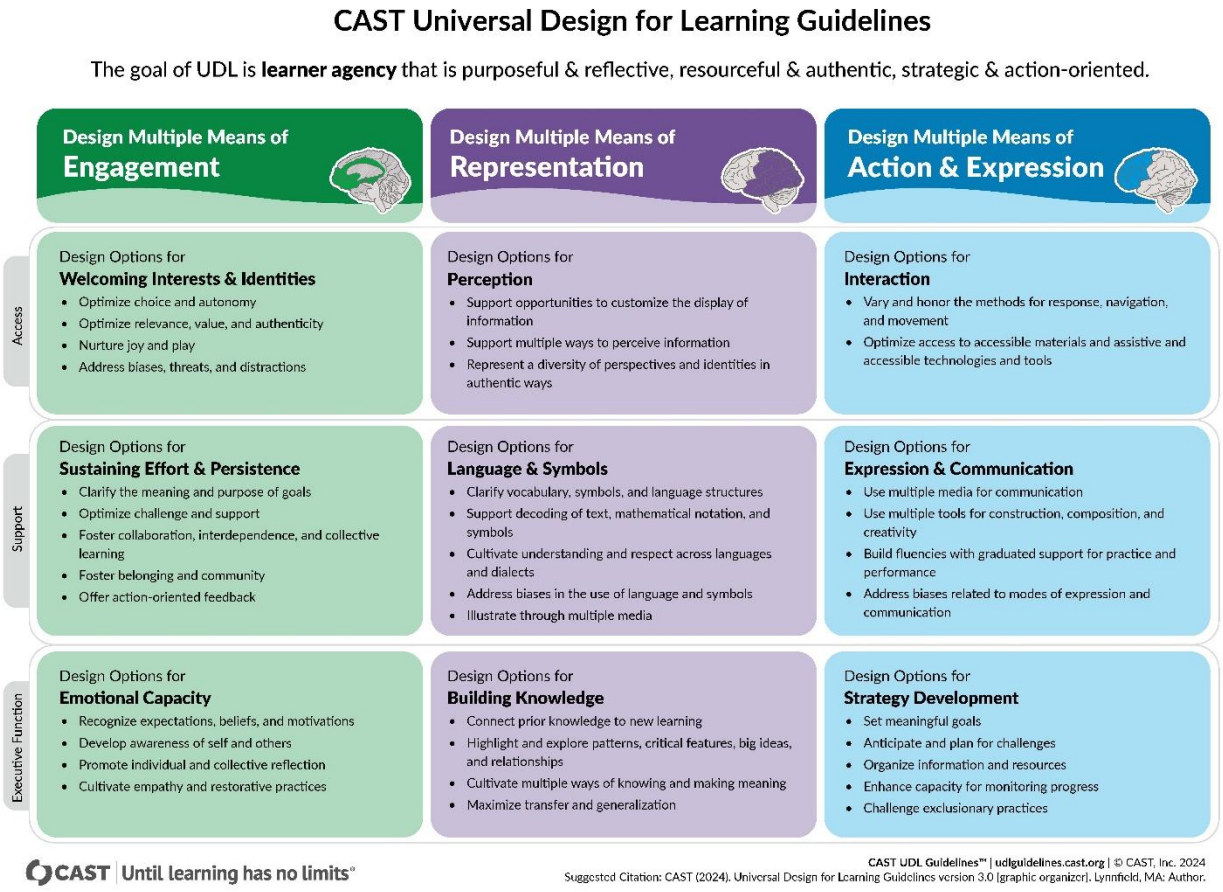
DCA's instructional design is grounded in the belief that all students learn best when they are provided with rigorous State Standards-aligned instruction, clear learning expectations, strong classroom culture, targeted academic supports, and meaningful opportunities to engage in thinking, discussion, practice, and application. DCA implements a site-based, classroom-based middle school program that serves students in grades 6 through 8 and prepares students for success in high school, college, career, and life.

DCA's instructional design is aligned to the needs of its target student population, including SED students, ELs, SWD, RFEP students, academically low-achieving students, academically high-achieving students, and students from diverse racial, ethnic, linguistic, and cultural backgrounds. The Charter School provides a structured learning environment that combines high expectations with academic, behavioral, attendance, language development, and social-emotional supports. DCA's model is designed to ensure that students have access to grade-level instruction while also receiving the scaffolds, interventions, enrichment, and acceleration necessary to support individual growth.

### *Learning Setting*

DCA operates as a site-based instructional program. Students attend school in person and participate in a structured middle school schedule that includes core instruction, intervention, enrichment, student support, and schoolwide culture-building. The learning setting is teacher-led and classroom-based, supported by technology, digital platforms, assessment tools, and student information systems that help teachers monitor student progress and provide targeted support.

Technology is used as a tool to enhance instruction, not to replace the teacher. Teachers use approved digital platforms to support instruction, assessment, intervention, communication, student practice, and access to academic resources. Students use technology to engage with content, demonstrate learning, complete assignments, receive feedback, and build responsible digital learning habits.



### *Universal Design for Learning*

DCA uses Universal Design for Learning as a foundation for instructional planning. Teachers design lessons with attention to multiple means of engagement, representation, and expression so that students can access rigorous learning, participate meaningfully, and demonstrate understanding in different ways.[1] This approach supports all learners, including ELs, SWD, students requiring intervention, students who need additional challenge, and students with varied learning styles, strengths, and experiences.

Through UDL, teachers proactively identify barriers to learning and plan supports before students experience failure. Instruction may include visual supports, modeling, structured academic discourse, sentence frames, graphic organizers, guided notes, manipulatives, vocabulary supports, opportunities for collaboration, flexible grouping, student choice when appropriate, and multiple ways for students to demonstrate mastery. UDL allows DCA to maintain high expectations while providing access points that help students engage with grade-level content.

### *Standards-Aligned Core Instruction*

DCA's instructional program prioritizes mastery of State Standards in the core curriculum areas. Teachers provide instruction in ELA, Mathematics, Science, and History, along with academic intervention, ELD for ELs, and other instructional supports based on student need. Core instruction is designed to build foundational skills, academic vocabulary, content knowledge, reading comprehension, writing ability, mathematical reasoning, analytical thinking, and problem-solving skills.

Teachers use a balanced instructional model that includes explicit instruction, modeling, guided practice, collaborative learning, independent practice, checks for understanding, academic discourse, feedback, and reteaching. Lessons are designed around clear learning objectives and aligned assessments. Teachers activate prior knowledge, introduce new content in manageable steps, provide opportunities for students to practice with support, check for understanding throughout the lesson, and adjust instruction based on student responses and evidence of learning.

### *Instructional Strategies to Support Student Mastery*

DCA teachers use instructional strategies that are responsive to student needs and aligned to effective teaching practices. These strategies include direct instruction, close reading, writing across content areas, mathematical reasoning, academic discussion, inquiry, applied learning, small group instruction, collaborative problem-solving, independent practice, formative assessment, and timely feedback. Teachers provide opportunities for students to explain their reasoning, use academic language, engage with complex texts and tasks, and apply knowledge in meaningful ways.

Instruction is designed to be active and purposeful. Students are expected to participate, ask questions, defend their thinking, work collaboratively, and take ownership of their learning. Teachers use frequent checks for understanding, exit tickets, quizzes, student work analysis, discussion protocols, and classroom assessments to determine whether students are mastering content and where reteaching or extension is needed.

### *Differentiation and Small Group Support*

Differentiation is an essential part of DCA's instructional design. Teachers use assessment data, student work, classroom observations, language proficiency data, IEPs, Section 504 Plans, and intervention data to identify student strengths and needs. Based on this information, teachers adjust instruction through content, process, product, pacing, grouping, scaffolding, intervention, enrichment, and extension activities.

Students who need additional support may receive reteaching, targeted skill practice, small group instruction, tutoring, intervention, and progress monitoring. Students who demonstrate mastery may receive more complex texts, advanced tasks, enrichment activities, independent inquiry, project-based opportunities, leadership roles, and opportunities to deepen or extend their learning. Differentiation ensures that all students are challenged appropriately and supported in making academic progress.

### *Reading and Mathematics Intervention*

DCA uses evidence-based intervention practices to support students who need additional help in reading and Mathematics. For students needing reading support, teachers focus on skill-specific instruction, including decoding when needed, fluency, vocabulary, comprehension, writing, and engagement with grade-level texts. Current research on reading interventions for students in grades 4 through 9 emphasizes the importance of explicit, targeted intervention aligned to student need.[2]

In Mathematics, DCA uses assessment data and classroom performance to identify student misconceptions, unfinished learning, and readiness for extension. Teachers provide targeted instruction, modeling, guided practice, mathematical discourse,

problem-solving opportunities, and progress monitoring. Math intervention focuses on conceptual understanding, procedural fluency, problem solving, academic vocabulary, and application.[3]

***Individual Learning Plan***

DCA uses an Individual Learning Plan ("ILP") as a tool to individualize instruction and support students who need more targeted academic assistance. The ILP helps teachers, school leaders, tutors, students, and families identify a student's strengths, areas of need, current performance data, and specific goals for improvement. An ILP may be considered for students whose achievement in two or more core classes falls below passing levels, or for students who demonstrate significant academic need based on classroom performance, formative assessments, benchmark data, teacher observation, or other available measures.

Before an ILP is implemented, teachers attempt classroom-based supports and modifications through the general education program, such as preferential seating, guided notes, small group instruction, reteaching, targeted practice, teacher check-ins, or other appropriate supports. If the student continues to struggle, the ILP may provide more targeted intervention through small group instruction, tutoring, technology-based practice, intervention materials, after-school support, or focused skill development during available support periods. The plan identifies specific skills, strategies, timelines, staff responsibilities, and progress monitoring measures, and may be continued, revised, intensified, or faded based on student growth and response to intervention.

***Multi-Tiered System of Supports and Response to Instruction and Intervention***

DCA ensures high-quality Conditions for Student Learning for all students through a Multi-Tiered System of Supports ("MTSS") and Response to Instruction and Intervention ("RtI²"). MTSS is an integrated, comprehensive framework that focuses on State Standards, core instruction, differentiated learning, student-centered learning, individualized student needs, and the alignment of systems necessary for students' academic, behavioral, attendance, and social-emotional success. MTSS offers the potential to create needed systemic change through the intentional design and redesign of services and supports that quickly identify and match student needs with appropriate interventions.

California's long-standing history of support systems includes RtI² processes, special education services, Title I and Title III programs, services for ELs, and supports for academically high-achieving students. MTSS builds on these foundations by aligning systems, initiatives, and resources across the Charter School and grade levels. While RtI² focuses primarily on students who are struggling and emphasizes teamwork and data-driven decision-making to improve student outcomes, MTSS is broader and

[3] Institute of Education Sciences, What Works Clearinghouse. (2021). Assisting students struggling with mathematics: Intervention in the elementary grades. U.S. Department of Education.

supports all students, including students performing below grade level, students performing at grade level, ELs, SWD, SED students, students with social-emotional or behavioral needs, and gifted or academically high-achieving students who need enrichment, acceleration, or increased academic challenge.

MTSS does not determine special education placement. Rather, it supports all students in educational contexts through intentional, holistic, and data-informed design. MTSS incorporates many RtI² principles, including high-quality instruction, culturally and linguistically responsive practices, universal screening, diagnostic assessment, progress monitoring, tiered intervention, positive behavioral supports, collaborative problem-solving, and data-driven decision-making. Through this comprehensive approach, DCA supports academic, social-emotional, behavioral, and attendance growth while maintaining high expectations for every student.

MTSS consists of three levels of support. The process through the tiers is dynamic and responsive, ensuring timely and effective support for every student.

Universal Supports: Tier 1

Tier 1 represents high-quality, State Standards-aligned core instruction and universal support for all students in the general education setting. Approximately 80% to 90% of students are expected to meet academic, behavioral, attendance, and social-emotional expectations through Tier 1 instruction and support. Tier 1 includes differentiated instruction, Universal Design for Learning, inclusive language, positive behavioral supports, classroom-based interventions, frequent checks for understanding, and ongoing progress monitoring.

At DCA, teachers and staff identify students who may be struggling with academic, behavioral, attendance, or social-emotional success. Staff review available data, identify the concern, determine what data supports the concern, and consider common thresholds. Staff may review the student's cumulative file and consult with the department team, Professional Learning Community, counselor, coach, or other appropriate staff. Teachers then select a Tier 1 intervention, communicate with the team, implement the intervention with fidelity for six to eight weeks, and document Cycle 1.

Tier 1 supports include, but are not limited to, differentiated instruction, small group instruction, individualized classroom supports, Universal Design for Learning, positive behavior interventions, inclusive classroom practices, strong school culture, positive school climate, clear and consistent expectations, family communication, student check-ins, advisory supports, classroom routines, and positive attendance and behavior supports. Teachers are expected to contact students and families regarding student success and struggles on a regular basis.

As part of the Tier 1 foundation, all students receive support in the classroom. Data

from benchmarks, MAP Growth assessments, previous year ELPAC and SBAC assessments, classroom assessments, grades, student work, attendance, and behavior information may be used to determine students' strengths and needs. During core classes, students receive individualized instruction and activities to strengthen progress toward standards mastery. Differentiated instruction allows students to access the curriculum and core content at varied academic levels while maintaining the rigor of grade-level expectations.

If the student responds successfully to Tier 1 intervention, the student continues with Tier 1 instruction and supports, and a fade plan may be developed when appropriate. If the student does not make adequate progress, staff contact the family with concerns, share strategies implemented, gather additional information, document the concern, and submit a COST referral.

Targeted Supports: Tier 2

Tier 2 provides strategic, targeted intervention for students who require additional support beyond Tier 1. Approximately 10% to 15% of students may receive Tier 2 small group and supplemental supports. Tier 2 introduces an additional layer of intervention within or outside the regular classroom setting, delivered intentionally to address specific instructional, behavioral, attendance, or social-emotional gaps based on data-driven decisions.

At DCA, the Coordination of Services Team ("COST") reviews the referral and monitoring data and assigns a COST member as the point person. The COST member reviews data, strategies, and the student's cumulative file, and may use a root cause worksheet to better understand the concern. The team then matches the intervention to the student's identified need. Tier 2 interventions are skill-specific, identified by data sources, and implemented three to five times per week, considering group size and student need. Staff provide referral follow-up, implement interventions for six weeks, and document the Cycle 2 meeting.

Tier 2 supports may include, but are not limited to, check-in/check-out, counseling groups, attendance support, targeted skill groups, targeted lessons, push-in support, credit or assignment remediation when applicable, teacher office hours, reteaching, conflict mediation, trauma-informed de-escalation, bullying prevention, mentorship, family conferences, and additional academic or behavioral support. Tier 2 interventions may be facilitated by classroom teachers, counselors, administrators, instructional aides, or specialized staff, depending on student need.

Through a small group setting, standards-based and concept-specific lessons are provided. Teachers observe and assess students formally and informally and differentiate as needed. Strategic intervention allows students to practice and develop skills. Ongoing benchmark and progress monitoring data are used to adjust interventions. Tier 2 groupings are flexible and may be changed as necessary. Students

who make progress may move to a fade plan or return to Tier 1 supports, while other students may continue with targeted support if additional needs remain.

If the student responds successfully to Tier 2 intervention, the intervention may be faded and the student continues with appropriate Tier 1 supports. If the student responds but concerns remain, the student may continue with Tier 2 instruction targeted to additional skills while progress is monitored. If the student does not respond adequately, the COST point person reviews all intervention data, progress data, and feedback from educational partners and schedules a Student Study Team meeting.

Intensive Supports: Tier 3

Tier 3 provides the most intensive level of support for students who need individualized or highly specialized intervention due to significant academic, behavioral, attendance, or social-emotional needs. Approximately 1% to 5% of students may require Tier 3 support. Tier 3 increases the frequency, intensity, and individualization of intervention and may include one-on-one or very small group support.

At DCA, Tier 3 begins with a Student Study Team meeting with the school counselor, an administrator or dean, a teacher, parents/guardians, and the student when appropriate. The team documents the Cycle 3 meeting and matches intervention to the student's specific need. Tier 3 intervention is skill-specific, identified by data sources, and includes increased frequency and decreased group size. Staff provide referral follow-up and implement interventions for six weeks, documenting Cycle 3.

Tier 3 supports may include, but are not limited to, crisis intervention, individual counseling, parent/guardian support, school-based counseling, highly individualized academic or behavioral intervention, increased progress monitoring, individualized student support plans, outside agency referrals, consultation with SELPA partners, Behavior Intervention and Coaching Team support, alternative education or opportunity class consideration when appropriate, Section 504 Plan consideration, special education referral when appropriate, SARB consideration, and review of possible exclusionary factors.

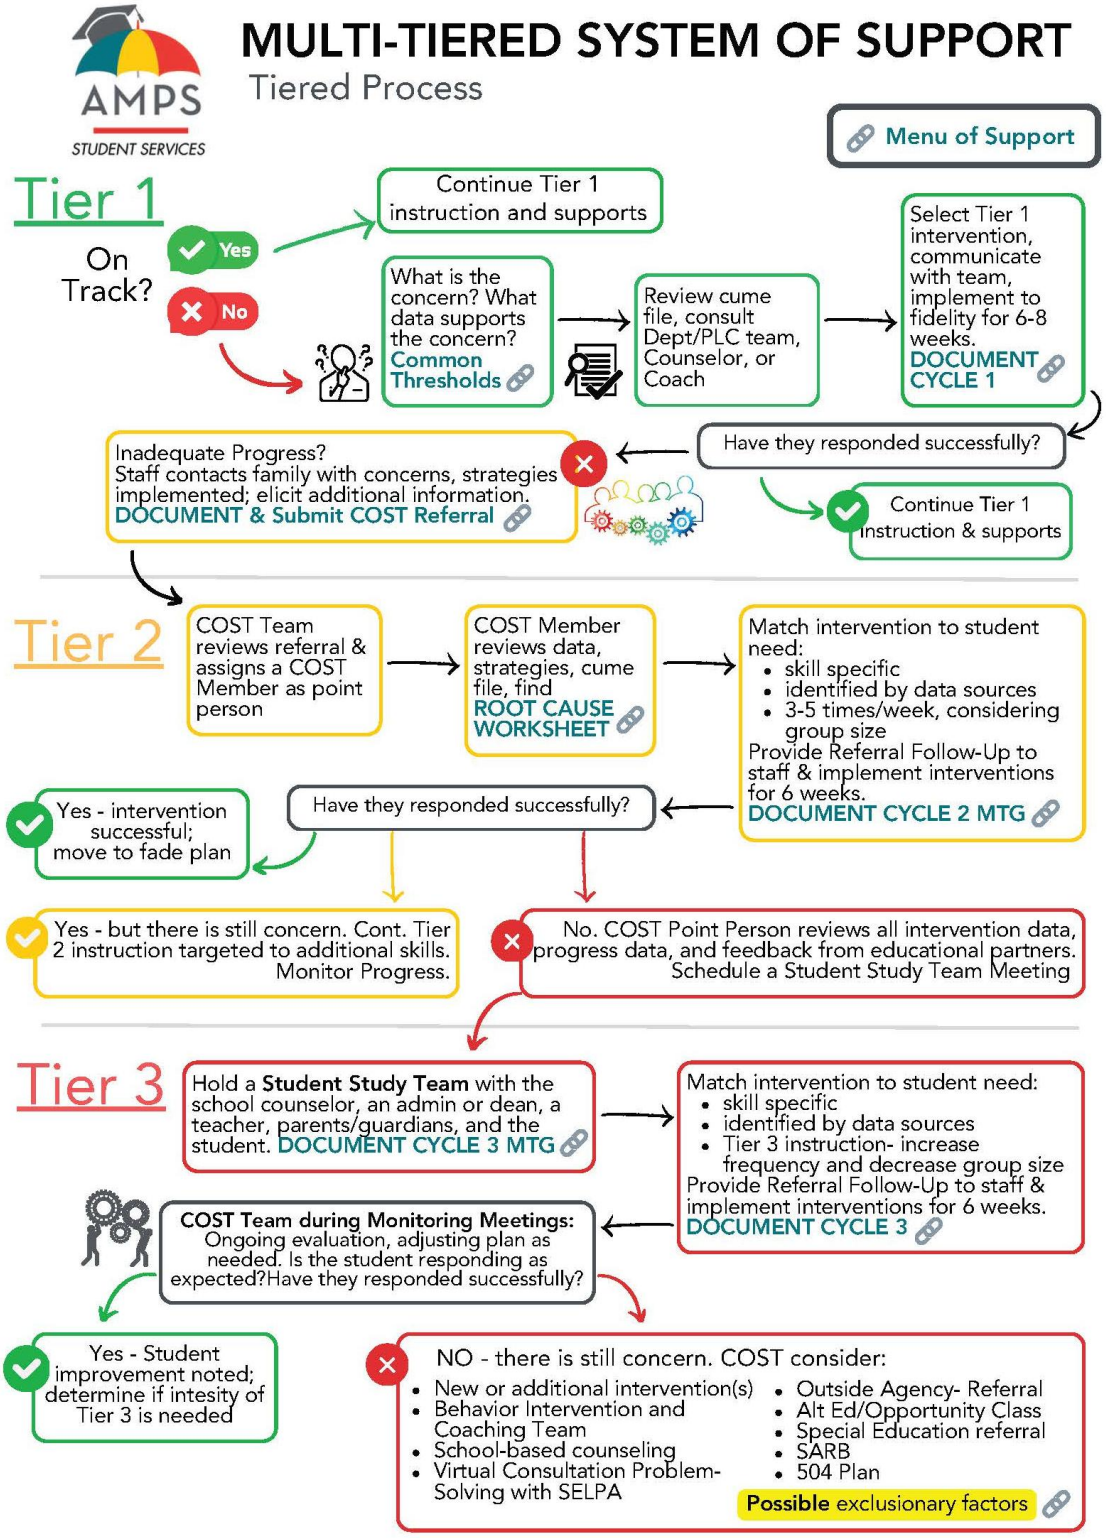
Intensive intervention allows students to receive explicit instruction focused on identified skills until they demonstrate progress or proficiency and are prepared to move forward. Highly flexible grouping allows staff to reorganize supports as needed, including very small groups or individualized support. The COST team conducts ongoing monitoring meetings to evaluate whether the student is responding as expected and adjusts the plan as needed.

If student improvement is noted, the team determines whether the intensity of Tier 3 support is still needed and may develop a gradual fade plan. If concerns continue, COST considers new or additional interventions, school-based counseling, outside

agency support, SELPA consultation, Section 504 consideration, special education referral, SARB, or other appropriate next steps.

***Coordination of Services Team***

The Coordination of Services Team ("COST") is a multidisciplinary team that collaborates to identify and address students' academic, behavioral, attendance, and social-emotional needs. The COST may include administrators, deans, counselors, advisors, the registrar, general education teachers, special education staff as needed, and other appropriate support staff. COST reviews referrals from teachers, parents/guardians, or staff; examines student data; assesses student challenges; identifies root causes; coordinates appropriate interventions; monitors progress; and ensures that students have access to the supports they need to succeed.



COST serves as a central structure for aligning services and ensuring that interventions are not isolated or disconnected. Through COST, DCA coordinates counseling supports, academic intervention, behavior supports, attendance supports, family resources, teacher follow-up, and referrals to additional services when appropriate.

***Progress Monitoring and Family Communication***

Student progress is monitored on an ongoing basis through teacher observation, checklists, classroom assessments, intervention assessments, benchmark assessments, grades, attendance data, behavior data, and other relevant progress monitoring tools. Across all tiers, progress monitoring ensures that instruction and interventions are data-driven and responsive. If an intervention is unsuccessful after the intervention cycle, the intervention is adjusted for the next cycle. If a student continues not to make adequate progress, the student may be referred to COST, SST, Section 504 review, special education consideration, or other appropriate supports based on the student's needs.

DCA communicates student progress to parents/guardians throughout the intervention process. Families are contacted when concerns arise, informed of strategies being implemented, asked to provide additional information, and included in Student Study Team meetings when additional planning is needed. Student progress is communicated to parents/guardians at regular intervals, including approximately every six weeks during intervention cycles or more frequently when needed.

***Student Study Team Process***

The Student Study Team ("SST") is a positive Charter Schoolwide early intervention process designed to support students who are not making satisfactory academic, behavioral, attendance, language development, and/or social-emotional progress. The SST process provides a structured forum for DCA staff, parents or guardians, and other appropriate team members to review student needs, identify strengths, examine data, develop interventions, and monitor progress.

The SST is an interdisciplinary team that may include parents or guardians, teachers, administrators, intervention staff, counseling staff, EL support staff, special education staff when appropriate, and the student when appropriate. The SST process is collaborative, supportive, and solution-oriented. It is intended to identify what the student needs in order to be successful and what supports adults can provide to help the student make progress.

The SST process does not begin from a deficit view of the student. The team considers the student's strengths, interests, cultural and linguistic assets, prior interventions, academic data, classroom performance, attendance patterns, behavioral information, social-emotional needs, and family input. The team uses this information to develop a practical educational plan that can be implemented, monitored, and revised as needed.

The SST process is based on the requirements and protections reflected in the Individuals with Disabilities Education Act ("IDEA"), Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. SST documentation may support Section 504 documentation requirements when the SST process identifies interventions, accommodations, data reviewed, parent or guardian input, and progress monitoring. The SST process may also assist the Charter School in determining whether a student should be referred for a Section 504 evaluation or special education evaluation, as appropriate.

Generally, students experiencing academic, behavioral, attendance, language development, and/or social-emotional difficulties may be referred to the SST process. The SST process may be bypassed for students for whom the process would be detrimental or for students whose difficulty is so severe or unusual that the SST process would not provide appropriate assistance. This decision is made with parent or guardian input and in accordance with applicable law. The SST process is not used to delay a special education evaluation when the Charter School has reason to suspect that a student may have a disability.

English Learners may be referred to the SST process when appropriate, and the EL teacher or appropriate EL support staff at DCA participates as a team member when language development, English proficiency, or access to instruction is part of the concern. Students who are served through an Individual Learning Plan or other individualized support plan may also be considered through the SST process when the

student's needs warrant additional review. However, participation in an individualized support plan is not, by itself, the basis for an automatic SST referral.

Students referred for evaluation for special education consideration should meet the following criteria, unless immediate referral is otherwise required based on suspected disability and applicable law:

- That reasonable classroom interventions of sufficient duration have been carefully attempted, without success; and
- That the cause of the problem is suspected to be a disability that cannot be resolved without special education services.

DCA's goal and expectation are the same for every student. The Charter School ensures that students of every subgroup and demographic are enrolled in a rigorous program with challenging curriculum and are provided an instructional program that holds high expectations for all. Students who are struggling academically, including students who perform below site-specific expectations on interim assessments, benchmark assessments, classroom assessments, or other measures, are provided with supplemental instructional support to strengthen their academic growth.

DCA establishes a series of interventions that provide support services driven by student need and proportional increases in direct instructional time. In addition to daily instruction, DCA may provide before-school support, after-school support, noncore tutoring, small group tutoring, individual tutoring, academic intervention, language support, attendance support, behavioral support, counseling support, and other appropriate interventions. Students who continue to struggle in specific subject areas may receive additional assistance through intervention programs, which may include summer sessions, intersession tutoring, increased noncore one-to-one sessions, targeted skill support, or other appropriate interventions.

***Student Study Team Process***

1. Referral
   Charter School personnel, including a teacher, support staff member, administrator, or the student's parent or guardian, may request a referral to the Student Study Team ("SST") when a student is not making satisfactory academic, behavioral, attendance, language development, and/or social-emotional progress. The referral includes specific concerns, relevant data, and information about prior interventions, accommodations, and supports. The student's parent or guardian is contacted and informed of the referral.

2. Gathering Information
   The SST reviews and collects information relevant to the student's performance. This information may include the student's cumulative file, parent or guardian input, teacher and administrator observations, grade reports, formative assessments, benchmark assessments, intervention data, classroom work,

homework, attendance, behavior information, health history when relevant, state assessment results, ELPAC data for ELs, IEP or Section 504 information when applicable, and a list of prior interventions.

3. Assessment or Evaluation Data
   The SST may review available assessment or evaluation data, request additional school-based information, or identify whether further assessment may be needed to better understand the student's needs. Translation or interpretation is provided as needed to ensure meaningful parent or guardian participation throughout the process.

4. Developing an Educational Plan
   The SST establishes a meeting time when relevant members can participate and be actively involved in the problem-solving process. During the SST meeting, team members summarize the student's strengths, review concerns, examine data, discuss possible contributing factors, and develop an educational plan with academic, behavioral, attendance, language development, and/or social-emotional interventions. The plan identifies specific strategies, responsible staff, timelines, progress monitoring tools, and follow-up dates. The team may review completed forms, relevant work samples, intervention records, assessment results, and the student's cumulative file.

5. Implementation of the Educational Plan
   The educational plan is implemented by the staff members identified in the SST plan. Supports may include classroom interventions, targeted academic support, behavior supports, attendance interventions, counseling support, language development supports, family communication, accommodations, tutoring, small group instruction, or other appropriate interventions based on the student's identified needs.

6. Evaluation of Progress
   A follow-up meeting is held, typically within four to six weeks, to review the student's progress and determine whether the interventions are effective. The SST reviews progress monitoring data, teacher feedback, parent or guardian input, student work, assessment information, attendance, behavior information, and other relevant data. The SST may determine that interventions should continue, be revised, be intensified, or be expanded.

7. Ongoing Monitoring and Evaluation
   If the plan is successful, the SST may continue the supports, gradually fade supports, or return the student to regular monitoring through the classroom and MTSS process. If the plan is not successful, the SST process may be repeated with revised strategies. If the revised plan remains unsuccessful, the team may consider more structured supports, a Section 504 Plan evaluation, or a referral

for special education evaluation, as appropriate. The SST process is not used to delay a special education evaluation when DCA has reason to suspect that a student may have a disability.

8. Communication and Parent/Guardian Partnership
   Throughout the SST process, DCA maintains communication among administration, teachers, support staff, parents or guardians, EL staff, and special education staff when appropriate. Parents and guardians are included as essential partners in identifying student needs, sharing relevant information, developing interventions, reviewing progress, and implementing supports. Translation or interpretation is provided as needed to support meaningful participation.

***Classroom Culture and Conditions for Learning***

DCA believes learning occurs best in classrooms that are safe, orderly, respectful, inclusive, and academically focused. Teachers establish clear routines, communicate learning and behavioral expectations, use positive reinforcement, build strong relationships with students, and maintain classroom environments where students are expected to participate and persevere. Strong classroom culture supports instructional time, student engagement, and academic achievement.

DCA's character development program reinforces responsibility, perseverance, adaptability, respect, and commitment to distinction. Students are taught to take ownership of their learning, interact respectfully with peers and adults, manage academic and social challenges, and contribute positively to the school community. These habits support academic success and prepare students for the transition to high school.

***Professional Learning Communities***

DCA uses Professional Learning Communities ("PLCs") to support teacher collaboration, data-informed instruction, and continuous improvement. Through PLCs, teachers meet to review student work, analyze assessment data, discuss instructional strategies, identify students who need additional support or challenge, and align instruction to State Standards. PLCs provide a structured time for teachers to collaborate around student learning rather than working in isolation.

PLC meetings may focus on curriculum planning, pacing, formative assessment results, intervention needs, EL supports, accommodations for SWD, differentiated instruction, and strategies for academically high-achieving students. Teachers use PLC discussions to adjust instruction, plan reteaching or enrichment, monitor student progress, and strengthen consistency across grade levels and content areas.

***Instructional Rubric, Coaching, and Professional Growth***

To support instructional quality, AMPS and DCA use an instructional rubric for teachers that defines expectations for effective practice. The rubric supports coaching,

feedback, evaluation, and professional growth in key areas such as purposeful planning, effective instruction, data use and assessment, classroom management, and professionalism. Through classroom observations, coaching conversations, feedback, professional development, collaboration, and reflection, teachers are supported in strengthening lesson design, instructional delivery, student engagement, assessment practices, differentiation, classroom culture, and professional responsibilities.

DCA's professional development and coaching systems are aligned to the instructional strategies described in this section. Teachers receive support in standards-aligned instruction, UDL, MTSS, RtI², ELD, data-driven instruction, differentiated instruction, intervention, enrichment, special education, Section 504, classroom culture, and family engagement.

***Curriculum and Teaching Methods***

DCA and AMPS develop or adopt curriculum and teaching methods through a process that considers alignment to State Standards, student need, evidence of effectiveness, accessibility, rigor, coherence, assessment alignment, and feasibility of implementation. Curriculum and instructional materials are reviewed to determine whether they support grade-level learning, academic vocabulary, reading and writing across content areas, mathematical reasoning, language development, intervention, enrichment, and access for diverse learners.

Teaching methods are refined through professional development, instructional coaching, classroom observations, teacher collaboration, data meetings, student outcome data, and feedback from educational partners. DCA uses a continuous improvement cycle in which student data informs instructional planning, instruction is implemented and monitored, student progress is reviewed, and supports are adjusted based on evidence of learning.

Through this instructional design, DCA provides a rigorous, site-based middle school program that is responsive to student needs and grounded in current best practices. The Charter School combines State Standards-aligned instruction, UDL, MTSS, RtI², data-informed decision-making, differentiated instruction, ELD, special education supports, enrichment for high-achieving students, strong classroom culture, and instructional coaching to prepare students to master core academic content and succeed in high school, college, career, and life.

**Instructional Approaches and Strategies**

All educators at DCA use a variety of instructional strategies to ensure that students learn, grow, and master State Standards. Amethod Public Schools supports DCA by providing instructional frameworks, professional development, coaching, curriculum support, and data systems that promote consistent and effective teaching practices across the organization. At DCA, these practices are implemented through standards-aligned instruction, purposeful lesson planning, explicit instruction, academic

discourse, close reading, vocabulary development, flexible grouping, data analysis, and targeted support for students.

***Lesson Planning and Objective-Driven Instruction***

DCA teachers design lessons that are standards-aligned, objective-driven, and responsive to student needs. Lesson planning emphasizes clear learning objectives, intentional sequencing of skills, checks for understanding, opportunities for student practice, formative assessment, and extension or reteaching based on evidence of student learning. Teachers use assessment data, student work, classroom observations, and progress monitoring to adjust instruction and ensure that students receive appropriate support and challenge.

***Explicit Instruction***

A key instructional strategy at DCA is explicit instruction. Teachers introduce new content by clearly stating the learning objective, modeling the skill or concept, explaining the criteria for success, guiding students through structured practice, checking for understanding, and gradually releasing responsibility to students. During instruction, teachers use questioning, prompting, active monitoring, student responses, feedback, and correction to determine whether students are mastering the lesson objective. When students demonstrate misunderstandings, teachers reteach, clarify, or provide additional guided practice.

***Problem-Based and Inquiry-Based Instruction***

DCA also uses inquiry-based and problem-based instructional strategies when appropriate to help students explore questions, analyze information, test ideas, and apply knowledge to meaningful tasks. These strategies support critical thinking, problem solving, collaboration, and student engagement while maintaining alignment to State Standards and grade-level expectations.

***Close Reading with Text-Dependent Questions***

Close reading is used to support students' access to complex texts. Teachers guide students through multiple readings of a text, ask text-dependent questions, support academic vocabulary development, and help students cite evidence, analyze meaning, and build deeper comprehension. These practices are especially important in middle school because students are expected to read increasingly complex texts across content areas and use evidence to support their thinking.

***Academic Discourse***

DCA provides regular opportunities for academic discourse. Students engage in structured discussions, partner talk, collaborative learning, and whole-class discourse to explain their thinking, listen to peers, use academic language, and deepen understanding. Teachers may use discussion protocols such as Think-Pair-Share, Jigsaw, Socratic Seminar, or other structured routines to support meaningful student participation and language development.

***Building Academic Vocabulary***
Building academic vocabulary is a core instructional practice. DCA teachers provide explicit vocabulary instruction, repeated exposure to important terms, opportunities for students to use vocabulary in speaking and writing, and supports such as visual models, examples, non-examples, sentence frames, and context-based practice. Academic vocabulary development supports all students and is especially important for ELs and students who need additional language support to access grade-level content.

***Flexible Grouping***
Flexible grouping is used to provide differentiated support within the classroom. Teachers may group students based on assessment data, student work, instructional need, language development, skill readiness, or opportunities for enrichment. Flexible grouping allows teachers to provide targeted small group instruction, reteaching, guided practice, intervention, or extension while maintaining high expectations for all students.

***Instructional Rubric***
Amethod Public Schools and DCA use an instructional rubric for teachers to support coaching, evaluation, and professional growth. The rubric reflects expectations for effective practice in areas such as purposeful planning, effective instruction, data use and assessment, classroom management, and professionalism. These expectations help ensure that teachers have a common understanding of effective instruction and that coaching is focused, consistent, and aligned to student achievement.

## CURRICULUM AND PROGRAM

### Course Sequence
The following course sequence reflects DCA's grades 6 through 8 instructional program and the core curriculum used to support student mastery of State Standards. The sequence is designed to provide a coherent middle school pathway in English Language Arts, mathematics, History-Social Science, science, and physical education while preparing students for success in high school coursework and long-term college and career readiness.

**Materials, Including Technology**

DCA provides students with instructional materials aligned to its grades 6 through 8 instructional program, State Standards, state curriculum frameworks, English Language Development Standards, and the academic, linguistic, social, and developmental needs of its middle school students. The Charter School's instructional materials support a coherent middle school pathway that strengthens reading comprehension, written expression, mathematical reasoning, science inquiry, history-social science understanding, academic language development, technology skills, project-based learning, and student independence. Through these materials, DCA prepares students for success in high school, college preparatory coursework, college, career, and life.

DCA's instructional materials are selected to ensure that all students, including ELs, SED students, SWD, RFEP students, students performing below grade level, students performing at grade level, and students ready for acceleration, have access to rigorous grade-level content and appropriate supports. The Charter School uses a combination of core instructional materials, supplemental materials, technology tools, teacher-developed resources, intervention materials, and enrichment resources to support standards mastery and differentiated instruction. Materials are reviewed for standards alignment, rigor, accessibility, cultural relevance, language development, technology integration, intervention supports, and usefulness for teachers and students.

DCA provides students with access to technology to support instruction, assessment, intervention, research, writing, collaboration, communication, and digital literacy. Technology is used as an instructional tool to expand access to content, support individualized learning, monitor student progress, administer assessments, provide intervention and enrichment, and help students develop the skills needed for success in high school and beyond. DCA also provides technology support for students and families, as needed, so that students can access instructional platforms, complete assignments, participate in learning activities, and benefit from the Charter School's educational program.

Below is specific information about all content subjects and supplemental core subject curriculum.

**English Language Arts**

DCA uses Savvas myPerspectives as its core English Language Arts curriculum, aligned to the California Common Core State Standards for English Language Arts and the ELA/ELD Framework for California Public Schools. The curriculum is appropriate for DCA's middle school students because it provides rigorous, standards-aligned instruction in reading, writing, speaking, listening, and language while also supporting students' development as critical thinkers, effective communicators, and independent learners. Through grade-level texts, structured writing tasks, academic discussion, and close reading, students build the literacy skills needed for success in high school, college preparatory coursework, college, career, and life.

Savvas myPerspectives supports DCA's diverse student population by providing students with access to complex texts, essential questions, writing opportunities, discussion routines, and performance-based tasks. The curriculum allows teachers to select texts and instructional activities that are culturally relevant and responsive to students' backgrounds, experiences, and identities. For DCA's Asian and Hispanic students, as well as students from other racial, ethnic, linguistic, and cultural backgrounds, the ELA program creates opportunities for students to see multiple perspectives, examine diverse voices, connect literature and informational text to their own experiences, and engage in meaningful conversations about identity, community, justice, responsibility, and belonging.

The ELA program is also designed to meet the needs of ELs by intentionally supporting academic language development. Students receive instruction in vocabulary, sentence structure, language functions, discussion protocols, text-dependent questions, close reading, and evidence-based writing. Teachers use ELD and academic language supports, sentence frames, graphic organizers, modeling, structured partner talk, academic discourse routines, and writing scaffolds to ensure that ELs can access grade-level texts and express their thinking in speaking and writing. The alignment between the ELA curriculum and the ELA/ELD Framework supports integrated ELD throughout

ELA instruction and helps ELs develop both English proficiency and content knowledge.

For SED students, the ELA curriculum provides access to rigorous grade-level instruction, high-interest texts, technology-based learning tools, and supplemental supports that help close opportunity gaps. Students have access to IXL, Lexia, novels and independent reading texts, literature circle materials, assessment-aligned resources, close reading passages, text-dependent questions, vocabulary development resources, writing workshop materials, rubrics, exemplars, annotation tools, reading journals, research resources, and academic discourse protocols. These resources provide students with repeated opportunities to practice essential skills, receive feedback, build confidence, and develop the literacy habits necessary for long-term academic success.

For SWD, DCA's ELA program provides multiple entry points into grade-level content through differentiated instruction, accessible texts, modeling, guided practice, graphic organizers, annotation tools, vocabulary supports, writing frames, rubrics, and opportunities to demonstrate understanding in multiple ways. Teachers use student data, IEP accommodations and supports, formative assessments, and classroom performance to adjust instruction and provide targeted support. Supplemental tools such as Lexia, IXL, teacher-developed materials, and small group instruction may be used to support reading comprehension, fluency, vocabulary, writing, grammar, and language development based on individual student needs.

Technology is integrated throughout the ELA program to support instruction, intervention, assessment, research, writing, collaboration, and student independence. Digital curriculum tools, IXL, Lexia, online research resources, assessment-aligned practice, and writing platforms help students practice skills, receive feedback, access texts, revise writing, and monitor progress. Technology also supports differentiated instruction by allowing teachers to assign targeted practice, provide intervention, extend learning for students ready for additional challenge, and support students who need additional access points into the curriculum.

DCA supplements Savvas myPerspectives with IXL, Lexia, novels and independent reading texts, literature circle materials, close reading passages, text-dependent questions, vocabulary resources, grammar and language practice, writing workshop supports, rubrics, graphic organizers, exemplars, annotation tools, reading journals, debate and discussion protocols, research and citation resources, ELD supports, and academic language resources. Together, these materials help students read closely, write clearly, speak confidently, listen actively, analyze multiple perspectives, use evidence, and develop the literacy skills needed to meet State Standards.

**English Language Development**

English Language Development at DCA is built around the expectation that ELs must have full access to rigorous grade-level content while also receiving explicit instruction

in the English language skills needed to succeed. Cengage, Lift, National Geographic Learning provides the foundation for designated ELD instruction and is aligned to the ELA/ELD Framework for California Public Schools and the California ELD Standards. The program supports listening, speaking, reading, writing, vocabulary development, academic discourse, grammar, and language functions in ways that are appropriate for middle school students preparing for high school coursework.

The materials are well suited to DCA's student population because they provide real-world topics, informational texts, visuals, academic vocabulary, and global content connections. These features are particularly important for a school community that includes students from Asian, Hispanic, and other linguistic, cultural, and educational backgrounds. Students are able to build English proficiency while engaging with content connected to culture, identity, geography, history, science, community, and the broader world. This supports culturally relevant instruction and helps students see language development as connected to their lives, experiences, and future opportunities.

Designated ELD provides protected time for focused language instruction using the ELD Standards as the focal standards. During this time, students receive explicit instruction in academic vocabulary, oral language, grammar, reading comprehension, writing, and language structures. Lessons are designed to help students use English purposefully, interact meaningfully with others, and understand how English works in academic settings.

Integrated ELD occurs throughout the instructional day. Teachers support ELs in core content classes through language objectives, vocabulary development, sentence frames, modeling, graphic organizers, visuals, structured discussion, writing supports, and opportunities to practice academic language with peers. This approach helps ensure that ELs are not separated from rigorous content, but instead learn English through meaningful reading, writing, speaking, listening, collaboration, and content-based learning.

Supplemental ELD materials strengthen both designated and integrated instruction. DCA uses Lift resources, language objectives, vocabulary development materials, sentence frames, academic discourse protocols, speaking and listening practice, newcomer supports, LTEL and reclassification support materials, graphic organizers, visuals and models, close reading supports, writing frames, grammar and language function resources, formative language assessments, ELPAC-aligned practice tasks, teacher-developed integrated and designated ELD materials, and small group intervention materials.

Students who enter DCA with limited English proficiency, interrupted schooling, or limited prior access to academic language benefit from repeated opportunities to practice English in structured and supportive settings. This is especially important for SED students who may need additional access to technology, tutoring, academic

vocabulary, and extended learning opportunities. Through small group instruction, teacher modeling, structured partner practice, and targeted supports, students build confidence using English for academic purposes.

Newcomers receive support that extends beyond vocabulary and grammar. They need to feel welcomed, known, and able to participate in the life of the school. DCA supports newcomers through integrated and designated ELD, peer interaction, small group support, tutoring when available, family communication, and access to counseling or community resources when needed. Their home languages and cultures are treated as assets, not barriers.

LTELs and students at risk of becoming LTELs receive targeted support focused on increasing English proficiency and moving toward reclassification. Instruction may include academic vocabulary development, close reading, structured discussion, evidence-based writing, grammar and language functions, speaking practice, and ELPAC-aligned tasks. Progress toward reclassification is monitored using ELPAC results, classroom performance, teacher input, writing samples, local assessment data, and other relevant evidence.

Students who are both ELs and SWD receive coordinated support that considers both language development and disability-related needs. Instruction may include accommodations, visuals, sentence frames, models, small group instruction, alternate ways to demonstrate understanding, and scaffolds aligned to the student's IEP or Section 504 Plan, as applicable. Staff work to ensure that students have meaningful access to ELD instruction and core academic content.

Technology expands access to language practice and progress monitoring. Digital resources allow students to interact with text, visuals, vocabulary, listening activities, speaking practice, formative language assessments, and ELPAC-aligned tasks. Teachers can use technology to assign targeted practice, monitor progress, differentiate instruction, and provide additional opportunities for students to strengthen academic English.

**Mathematics**

Amplify Desmos Math serves as DCA's core mathematics curriculum for grades 6 through 8. The program is aligned to the California Common Core State Standards for Mathematics and the Mathematics Framework for California Public Schools. Its design is well matched to DCA's middle school program because it builds mathematical understanding through conceptual development, procedural fluency, problem solving, application, and reasoning. Students are expected to make sense of problems, explain their thinking, use multiple representations, and apply mathematics to real-world situations.

Middle school mathematics is a critical bridge between elementary skill development and high school coursework. Through Amplify Desmos Math, students engage with

visual models, digital tools, discussion-based tasks, and inquiry-based learning that make abstract concepts more accessible. Instruction moves beyond memorization of procedures by helping students understand how mathematical ideas are connected, why strategies work, and how mathematical reasoning can be used to solve increasingly complex problems.

Many students enter middle school with different levels of preparation, prior access, and confidence in mathematics. DCA's math program responds to those differences through grade-level instruction, targeted intervention, technology-supported practice, and repeated opportunities to build fluency and mastery. IXL, teacher-developed lessons, number sense routines, fluency practice, exit tickets, whiteboard responses, benchmark-aligned practice, and small group intervention materials help teachers identify gaps and provide timely support.

Academic language is intentionally developed within mathematics instruction. ELs receive support through vocabulary development, sentence frames, structured partner talk, visual models, diagrams, manipulatives, and mathematical discourse protocols. These supports allow students to explain strategies, compare approaches, justify answers, ask questions, and participate in mathematical discussions while continuing to build English proficiency.

Students with disabilities access mathematical content through multiple instructional entry points. Guided practice, small group instruction, graphic organizers, structured worksheets, manipulatives, visual models, reteaching materials, differentiated practice, and progress monitoring are used to support individual needs. Teachers consider student data, IEP accommodations, classroom performance, formative assessments, and progress monitoring when determining the level and type of support needed.

Across classrooms, DCA maintains high expectations for Asian, Hispanic, and all other student groups by creating learning environments where students are expected to reason, collaborate, and share multiple solution pathways. Students are encouraged to see mathematics as a subject that values thinking, explanation, and persistence, not simply speed or one correct method. Culturally responsive instruction, collaborative problem solving, and real-world applications help students connect mathematical learning to their experiences and recognize themselves as capable mathematicians.

Technology strengthens the mathematics program by allowing students to model relationships, test ideas, visualize concepts, and engage dynamically with mathematical tasks. Amplify Desmos Math provides interactive tools that support exploration and sense-making, while IXL and other assessment-aligned digital tools provide targeted practice, skill reinforcement, and progress monitoring. These tools help teachers differentiate instruction, assign practice based on need, and provide both intervention and enrichment.

DCA supplements Amplify Desmos Math with IXL, teacher-developed task-based lessons, low-floor/high-ceiling mathematical tasks, warm-up routines, number sense activities, exit tickets, whiteboard response activities, standards-aligned formative assessments, benchmark and interim assessment practice, math fluency practice materials, problem-solving and critical thinking tasks, small group intervention materials, reteaching materials aligned to Amplify Desmos Math, guided and independent practice materials, graphic organizers, structured worksheets, visual models, manipulatives, diagrams, mathematical discourse protocols, written explanation and reasoning prompts, error analysis activities, differentiated practice sets, enrichment and extension tasks for students ready for acceleration, and assessment-aligned digital tools and practice items.

**Science**

Amplify Science provides DCA's core science curriculum and is aligned to the Science Framework for California Public Schools and applicable State Standards. The program is appropriate for DCA's middle school students because it emphasizes inquiry, investigation, scientific reasoning, evidence, and real-world problem solving. Students are not simply asked to memorize science facts. They are expected to ask questions, investigate phenomena, analyze information, construct explanations, and use evidence to support conclusions.

Science instruction at DCA helps students build curiosity about the natural world while developing the academic vocabulary, content knowledge, and inquiry skills needed for success in middle school and high school science. Amplify Science supports this work through phenomena-based lessons, interactive digital resources, models, simulations, reading and writing tasks, and opportunities for students to think and work like scientists. The curriculum also reflects the connection among science, engineering, and technology by asking students to design, test, and refine solutions to problems.

Hands-on investigation is an important part of the science program. Students engage in inquiry-based learning tasks, labs, science investigations, data collection, graphing, measurement, observation, and analysis. Through science notebooks or lab journals, students record questions, procedures, data, observations, claims, evidence, and reasoning. These routines help students understand that science is an iterative process where ideas are tested, revised, and strengthened through evidence.

The program is also well matched to the needs of ELs because science instruction naturally combines language, visuals, models, discussion, and evidence-based writing. Teachers support academic language through scientific vocabulary resources, nonfiction science reading passages, close reading and annotation tools, graphic organizers, sentence supports, visual models, diagrams, simulations, and claim, evidence, and reasoning ("CER") writing structures. These strategies allow ELs to access rigorous science content while developing the language needed to explain observations, describe processes, compare evidence, and defend conclusions.

Students who may have had limited prior access to high-quality science instruction benefit from the structure and accessibility of Amplify Science. The curriculum gives SED students consistent exposure to grade-level science content, technology-supported learning, hands-on materials, science literacy, and real-world applications. Supplemental resources such as performance tasks, small group intervention materials, teacher-developed reteaching materials, digital tools, and videos help students revisit concepts, build background knowledge, and strengthen understanding over time.

Multiple access points are built into the science program for SWD. Teachers may use models, diagrams, visuals, simulations, manipulatives, structured templates, graphic organizers, small group instruction, reteaching, and alternative ways for students to show understanding. Science investigations and engineering challenges also allow students to demonstrate learning through observation, design, discussion, drawing, data analysis, written explanation, and presentation, depending on the instructional goal and the student's individual needs.

Culturally relevant science instruction helps students connect scientific ideas to their communities, identities, and lived experiences. DCA's Asian, Hispanic, and other student groups are supported through topics, investigations, and discussions that connect science to health, environment, technology, community issues, engineering, natural phenomena, and real-world problem solving. Students are encouraged to ask questions about the world around them and consider how scientific knowledge can be used to improve conditions in their families, communities, and future careers.

Technology expands what students can see, test, model, and explain. Amplify Science digital tools, videos, simulations, and interactive resources help students visualize abstract concepts, examine data, and engage with scientific phenomena that may not be easily observed in a classroom setting. These tools also support differentiated instruction, formative assessment, review, intervention, and extension for students ready for additional challenge.

DCA supplements Amplify Science with inquiry-based learning tasks, hands-on lab materials, science investigation materials, engineering design challenge materials, prototype design and refinement activities, science notebooks or lab journals, CER writing supports, scientific method and investigation templates, data collection and analysis tools, graphing and measurement tools, scientific vocabulary resources, nonfiction science reading passages, close reading and annotation tools for science texts, graphic organizers, models, diagrams, visuals, simulations, digital tools and videos aligned to Amplify Science, NGSS-aligned performance tasks, formative and summative assessment materials, teacher-developed reteaching materials, small group intervention materials, extension activities, and cross-curricular reading and writing resources aligned to literacy in science and technical subjects.

**History-Social Science**

DCA's History-Social Science program uses Teachers' Curriculum Institute ("TCI") as the core curriculum for grades 6 through 8. Grade 6 students study History Alive! The Ancient World, Grade 7 students study History Alive! The Medieval World and Beyond, and Grade 8 students study History Alive! The United States Through Industrialism. Together, these materials provide a middle school sequence aligned to the History-Social Science Framework for California Public Schools and help students move from the study of ancient civilizations, to medieval and early modern societies, to the development of the United States through industrialization.

The purpose of History-Social Science instruction at DCA is not limited to learning names, dates, and events. Students are taught to read, write, and think like historians. They examine primary and secondary sources, ask questions about perspective and reliability, compare accounts, analyze cause and effect, and construct written and oral arguments supported by evidence. Lessons are designed to help students understand that history is interpreted through evidence and that informed citizens must be able to question sources, evaluate claims, and recognize how the past continues to shape the present.

TCI is appropriate for DCA's students because it combines accessible content, visuals, inquiry, discussion, and student-centered activities. These features are important in a middle school setting where students are still developing background knowledge, academic vocabulary, reading stamina, and written argumentation skills. Supplemental resources such as Document-Based Question ("DBQ") materials, historical thinking skills resources, source analysis tools, close reading protocols, and evidence-based writing supports strengthen students' ability to engage deeply with historical content rather than simply recall information.

Culturally relevant instruction is a central part of this work. DCA serves Asian, Hispanic, and other culturally and linguistically diverse students, and History-Social Science provides meaningful opportunities for students to explore identity, migration, belief systems, power, conflict, resistance, geography, civic participation, and community. Through maps, timelines, images, political cartoons, oral discussion, current events, and diverse source materials, students are encouraged to make connections between historical content and their own families, neighborhoods, cultures, and lived experiences.

Language development is embedded throughout the History-Social Science classroom. ELs benefit from structured academic discussion, vocabulary support, sentence frames, graphic organizers, visuals, source analysis routines, and repeated opportunities to explain historical thinking orally and in writing. When students analyze a source, defend a claim, compare perspectives, or participate in a debate, they are also practicing the academic language needed for success across content areas.

The program also supports students who need additional access points into complex texts and abstract historical concepts. Teachers may use chunked readings, guided notes, annotated documents, collaborative source analysis, timelines, maps, images, simulations, and performance tasks to help students engage with grade-level content. These strategies support SED students, SWD, and students who need additional background knowledge, reading support, language scaffolds, or opportunities to demonstrate understanding in ways beyond a traditional test.

Writing is a major part of the History-Social Science program. Students learn to develop claims, select evidence, explain reasoning, and organize historical arguments. DBQ-style tasks, historical argument writing rubrics, essential question prompts, and claim, evidence, and reasoning graphic organizers help students build the analytical writing skills needed for both History-Social Science and English Language Arts. Students may demonstrate learning through essays, projects, presentations, debates, simulations, and other performance tasks that require them to apply content knowledge and historical thinking.

Technology expands students' access to historical materials and supports research, analysis, and presentation. Digital tools allow students to examine images, maps, videos, timelines, current event sources, and other media that make historical study more interactive and concrete. Technology also supports differentiation by allowing students to revisit content, access visuals and supports, organize evidence, and present their learning in multiple formats.

DCA supplements TCI with primary and secondary source documents, Document-Based Question ("DBQ") materials, historical thinking skills resources, source analysis tools, sourcing, corroboration, contextualization, and close reading protocols, historical argument writing rubrics, inquiry and investigation tasks, essential question prompts, current event articles, maps, timelines, charts, images, political cartoons, media analysis resources, structured academic discussion and debate protocols, evidence-based writing supports, graphic organizers for claim, evidence, and reasoning, and performance task materials, including projects, essays, presentations, and simulations.

**World Language**

World Language instruction at DCA is aligned to the World Language Framework for California Public Schools and supports students in developing language awareness, communication skills, and cultural understanding. In a school community that includes many students from multilingual and multicultural backgrounds, world language learning reinforces the value of language as a tool for connection, identity, and opportunity. Students are encouraged to understand that language study is not limited to vocabulary and grammar, but also includes the ability to communicate respectfully, compare cultures, recognize different perspectives, and build readiness for future high school world language coursework.

**Health/Physical Education**
DCA's Health and Physical Education program is aligned to the Health Framework for California Public Schools and the Physical Education Framework for California Public Schools. Middle school students need structured opportunities to build healthy habits, physical confidence, self-awareness, and an understanding of how personal choices affect wellness, relationships, safety, and long-term health. Through physical activity, health instruction, teamwork, and age-appropriate discussions, students develop skills related to movement, fitness, decision-making, stress management, nutrition, personal responsibility, and respectful participation. The program also supports SED students, ELs, SWD, and students from diverse backgrounds by promoting access, inclusion, and positive participation for all students.

**Visual and Performing Arts**
The Visual and Performing Arts program is guided by the California Arts Education Framework for California Public Schools and provides students with opportunities to create, perform, respond, and connect through the arts. For DCA students, the arts offer an important way to express identity, culture, emotion, creativity, and perspective. Students may engage in visual arts, music, performance, media, or other artistic experiences that strengthen imagination, communication, collaboration, and confidence. Arts instruction is particularly valuable in a diverse middle school setting because it gives students multiple ways to demonstrate understanding, build community, and connect learning to their own lives and cultural experiences.

**Career Technical Education**
Although DCA serves grades 6 through 8, the Charter School introduces students to college and career readiness concepts in alignment with the purpose of the Career Technical Education Framework for California Public Schools for Grades 7-12. At the middle school level, this includes helping students build early awareness of future pathways, workplace skills, technology skills, collaboration, problem solving, communication, responsibility, and perseverance. Students begin to understand how academic habits, digital literacy, leadership, and real-world application connect to future high school courses, college pathways, careers, and civic life. These experiences are especially important for students who may have limited prior exposure to career pathways, professional networks, or enrichment opportunities outside of school.

**Social Emotional Learning**
DCA's social emotional learning program is supported by Second Step, developed by Committee for Children and approved by the Collaborative for Academic, Social, Emotional Learning ("CASEL"). At the middle school level, SEL is not treated as separate from academics. It is part of how students learn to manage stress, build relationships, make responsible decisions, resolve conflict, and stay engaged in a rigorous school environment.

Second Step is appropriate for DCA because middle school students are navigating significant academic, social, and emotional transitions. Students are developing

independence, identity, peer relationships, self-advocacy, and the habits that will carry them into high school. The curriculum gives teachers and staff shared language and structured lessons to help students practice self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

The program also supports DCA's diverse student population by helping students build a respectful and inclusive school community. Students from different cultural, linguistic, and socioeconomic backgrounds need opportunities to feel seen, heard, and connected to school. SEL lessons, advisory activities, restorative conversations, and positive behavior supports help students understand themselves and others while strengthening classroom culture.

For ELs, SEL provides meaningful opportunities to practice communication, collaboration, perspective-taking, and problem solving in structured settings. Students learn and use language connected to emotions, relationships, conflict resolution, and decision-making, which supports both social development and academic participation.

Students who need additional behavioral, social, or emotional support may receive more targeted assistance through MTSS, COST, counseling, check-ins, restorative practices, family communication, or SST review when appropriate. SWD may also receive SEL-related supports consistent with their IEPs or Section 504 Plans, as applicable.

Second Step and related SEL supports are reinforced through daily routines, teacher-student relationships, classroom expectations, PBIS, restorative practices, advisory structures, and schoolwide culture. This helps students build the confidence, resilience, empathy, and responsibility needed to participate fully in the Charter School program.

## SPECIAL POPULATIONS

### Students who are Academically Low Achieving

DCA sets high expectations for all students and is committed to identifying and supporting students who are not yet meeting academic outcomes. The Charter School is designed to respond to students who enter below grade level, are not yet meeting State Standards, or are performing below their demonstrated potential. DCA's school size, structured learning environment, teacher collaboration, family communication, and MTSS process allow staff to identify students early, monitor progress, and provide targeted support.

Academically low-achieving students are identified through multiple measures, which may include classroom assessments, grades, student work, benchmark assessments, MAP Growth assessments, prior year CAASPP results, ELPAC results when applicable, teacher observations, intervention data, and other locally available academic information. A student may be identified for additional academic support when the student is performing significantly below grade level, is not meeting standards on state

or local assessments, demonstrates limited mastery on benchmark or classroom assessments, fails to demonstrate expected academic growth, or is otherwise identified by teachers or school staff as needing additional support.

DCA takes a systematic approach to closing academic gaps by embedding intervention and support within the instructional program. The best intervention strategies are accessible during core content instruction and are strengthened through small group instruction, reteaching, targeted skill practice, progress monitoring, and family communication. Teachers use assessment data and student work to determine areas of need and provide in-class individual or small group targeted instruction. Students may also receive additional support through intervention periods, teacher office hours, before- or after-school support, tutoring, and other academic support opportunities based on need.

Students identified as academically low-achieving may receive a mix of intervention services through DCA's MTSS process and COST recommendations. These services may include in-class targeted instruction by classroom teachers, extended learning support, small group guided instruction, individual or small group tutoring, reteaching of specific standards or skills, support with assignments and homework completion, study skills and time management support, and use of supplemental instructional materials or digital platforms such as IXL, Lexia, or other approved programs. Intervention materials may be teacher-designed, curriculum-aligned, or research-based, and are selected based on the student's identified needs.

Classroom teachers are also available during designated office hours or support times for small group and individual review sessions. Students who need additional support are encouraged to attend these sessions regularly. During these sessions, teachers may reteach material, review assignments, provide individualized instruction, support organization and study habits, clarify misconceptions, or provide additional opportunities for students to demonstrate understanding.

DCA's Professional Learning Communities and staff collaboration structures support the monitoring of academically low-achieving students. During meetings and informal collaboration time, teachers and school leaders review student progress, identify areas of need, discuss effective intervention strategies, and adjust supports based on student data. These conversations help ensure that students are not supported in isolation, but through a coordinated schoolwide system.

Progress monitoring is a central part of DCA's intervention process. As part of MTSS and RtI², DCA monitors student progress through teacher observation, classroom assessments, intervention assessments, benchmark assessments, grades, attendance, student work, and other relevant data. If a student responds successfully to intervention, staff may continue supports, adjust the level of support, or develop a gradual fade plan. If a student does not make adequate progress, staff review the

intervention data, communicate with the family, and may refer the student to COST or the Student Study Team process for additional review and support.

**Students who are Academically High Achieving**

DCA expects all students to reach high standards of academic success. For students who are academically high-achieving, DCA provides opportunities to extend learning, increase academic challenge, deepen content knowledge, and develop the habits of scholarship, leadership, and independence necessary for success in high school, college, and life.

DCA identifies students who are academically high-achieving through multiple measures, which may include grades, classroom performance, formative and summative assessments, benchmark assessments, CAASPP results, teacher recommendations, student work, participation, and other measures of academic progress. DCA seeks to identify academically high-achieving students from varying linguistic, economic, cultural, and educational backgrounds so that students with strong academic potential have access to appropriate enrichment and challenge.

Teachers support academically high-achieving students through differentiated instruction, flexible grouping, extension activities, advanced questioning, complex texts, independent projects, small group research projects, applied learning opportunities, and opportunities to demonstrate learning in more sophisticated ways. Teachers may use pre-assessments to identify concepts or skills students have already mastered and then provide enrichment, deeper application, or accelerated learning activities that allow students to continue growing rather than simply completing more of the same work.

DCA also encourages academically high-achieving students to develop leadership, collaboration, and communication skills. Students may have opportunities to serve as peer leaders, participate in clubs and competitions, support school events, act as ambassadors for the Charter School, contribute to school culture, or participate in enrichment activities that allow them to explore areas of interest. These opportunities help students build confidence, responsibility, and a strong connection to the DCA community.

DCA's after-school and enrichment opportunities further support students who are academically high-achieving. DCA offers a variety of activities, including homework help and tutoring, yearbook, sports, visual arts, Mandarin Club, and other activities. These programs provide students with opportunities to extend learning, explore interests, build talents, and remain engaged in a safe and structured school environment.

Amethod Public Schools has also partnered with the Johns Hopkins University Center for Talented Youth ("CTY"), and DCA is identified as a proud partner of CTY. Through this partnership, eligible students may have opportunities to participate in college-level

summer programs and online courses. These opportunities support academically high-achieving students by exposing them to advanced academic content, college-like learning experiences, and enrichment beyond the regular school program.

DCA also uses tutoring and academic support as part of its broader commitment to student growth. Tutoring and support opportunities are available to help students strengthen foundational skills, complete coursework, receive additional practice, and continue making progress. For academically high-achieving students, these supports may also help students maintain strong performance, prepare for more advanced academic expectations, and develop the study habits and confidence needed for future high school coursework. When students demonstrate readiness for additional challenge, teachers and staff work to connect students to appropriate enrichment, leadership, and academic extension opportunities within the regular school day, after-school program, or approved external programs.

**Supporting Socioeconomically Disadvantaged Students**

DCA serves a significant percentage of socioeconomically disadvantaged students and designs its educational program to ensure that all students have access to rigorous instruction, instructional materials, technology, enrichment, intervention, and schoolwide opportunities. The Charter School's priority in serving SED students is to provide the support necessary for students to succeed despite socioeconomic barriers and prior lack of access to educational opportunities. The goal is to close opportunity gaps and ensure that all students can fully participate in DCA's educational program.

DCA supports SED students by providing access to instructional materials, technology, academic support, intervention, enrichment, family engagement, social-emotional supports, and schoolwide activities. Students have access to Chromebooks or other appropriate technology, and DCA seeks to support internet access when needed to help close the digital divide. Students receive technology support for equipment and instructional platforms. Students also have opportunities to participate in extracurricular activities, clubs, field trips, study trips, enrichment activities, athletics, arts, after-school programming, and Charter School celebrations that they may not otherwise be able to access due to cost, transportation, or other barriers. Funds are allocated, as available, to ensure that students have access to educational opportunities and schoolwide programs.

DCA also recognizes that SED students may face challenges related to attendance, transportation, housing instability, health, food insecurity, access to quiet study space, technology access, and family stress. Teachers and staff monitor student progress, communicate with families, and connect students to available supports. DCA's instructional model combines high expectations with practical supports so that SED students are not limited by barriers outside the classroom. Through MTSS, academic intervention, family communication, tutoring, counseling, after-school support, and schoolwide engagement opportunities, DCA works to ensure that SED students are

able to access the full Charter School program and make meaningful academic and personal progress.

**Supporting the Social-Emotional Needs of Students**
DCA is dedicated to building a community of students who respect one another, take responsibility for their choices, and develop the social-emotional skills necessary for academic success and personal growth. In addition to a strong commitment to social-emotional learning, DCA implements positive reinforcement, relationship building, restorative practices, and behavior supports to teach important life skills and build a positive Charter School community.

Students are regularly acknowledged for demonstrating Charter School values, making positive choices, showing kindness, persevering through challenges, collaborating with peers, and contributing to the classroom and Charter School community. Positive reinforcement occurs through classroom systems, campuswide recognition, teacher feedback, peer recognition, family communication, and other developmentally appropriate approaches.

DCA uses Positive Behavioral Interventions and Supports ("PBIS"), restorative practices, and MTSS to support students' academic, behavioral, attendance, and social-emotional needs. PBIS provides clear expectations, consistent routines, positive reinforcement, and data-informed behavioral supports. Restorative practices help students understand the impact of their actions, repair harm, restore relationships, and build responsibility. These practices support a safe and respectful learning environment and help reduce exclusionary discipline by addressing the underlying needs of students.

Social-emotional supports are embedded throughout the instructional day. Teachers and staff help students build skills in self-awareness, self-management, responsible decision-making, relationship building, conflict resolution, empathy, perseverance, and positive peer interaction. These supports are particularly important in middle school, where students are developing academic identities, independence, peer relationships, emotional regulation, and lifelong learning habits. Students may also receive counseling, check-ins, small group support, family conferences, and referrals to additional resources when needed. Teachers receive training and support that reinforce the holistic supports students receive.

**Supporting Foster Youth and Children Experiencing Homelessness**
DCA recognizes the importance of providing homeless and foster youth with a supportive educational environment. Under the McKinney-Vento Homeless Assistance Act and applicable law, homeless and foster youth receive services and support to ensure equal access to the same free, appropriate public education as other students and to remove barriers to enrollment, attendance, participation, and retention. The Charter School works to identify, enroll, monitor, and support homeless and foster youth in accordance with applicable law and Charter School policy.

DCA designates a Homeless Liaison who provides outreach to families and coordinates services between the family, Charter School, and appropriate agencies. The Homeless Liaison supports identification, immediate enrollment, access to school records, immunization records, academic supports, and connection to appropriate resources. The Charter School is committed to providing a high-quality education and appropriate supports to ensure that homeless youth have the opportunity to succeed.

DCA cultivates a respectful Charter School culture in which homeless and foster youth feel safe approaching adults on campus for assistance with resources, counseling, academic support, or guidance. Foster youth and homeless youth have full access to all programs offered by the Charter School, including academic intervention, enrichment, extracurricular activities, field trips, technology, counseling supports, after-school programming, and other opportunities.

The Homeless Liaison assists with referrals to health, dental, mental health, housing, food, transportation, and other appropriate services. The Homeless Liaison also assists parents, guardians, or unaccompanied youth with enrollment, immunization records, school records, and access to educational services. The Homeless Liaison encourages parents and guardians to participate in their child's education and ensures that they are informed of educational and related opportunities to support student success.

To facilitate the education of homeless students, DCA may provide or coordinate access to a device, internet access, transportation assistance, clothing, shoes, laundry supplies, food, toiletries, school supplies, field trip support, social-emotional counseling, academic support, mentoring, tutoring, and a backpack with school supplies, as resources allow. DCA may also provide a quiet space for students to complete work during the school day or during available support times. The Charter School may reserve or allocate funds, as available and allowable, to support homeless and foster youth with clothing, transportation, school materials, medical supports, tutoring, and other appropriate expenses. DCA ensures that homeless and foster youth are able to participate fully in the educational program and related opportunities without barriers caused by housing instability or foster care placement.

The Principal, Homeless Liaison, and appropriate staff receive training and support to ensure appropriate identification, legal compliance, and coordination of services for homeless and foster youth. DCA works with AMPS, the County, community agencies, and other appropriate partners, as needed, to support students and families.

**Supporting Students Who Need Behavioral Support**

DCA supports students who need behavioral support through PBIS, restorative practices, classroom management systems, MTSS, COST, behavior interventions, SST review, family communication, and, when appropriate, behavior support plans. Teachers and staff use proactive strategies to teach expectations, reinforce positive behavior, and respond to behavior concerns in a consistent and supportive manner.

Students who require more targeted behavior support may receive check-ins, goal setting, mentoring, small group social skills instruction, counseling support, restorative conversations, behavior contracts, check-in/check-out, conflict mediation, or other interventions. DCA's goal is to help students build replacement skills, understand expectations, repair harm when appropriate, and remain engaged in learning.

If a student's behavior may be related to a disability, DCA follows applicable Section 504 and special education procedures. Behavior supports are designed to keep students engaged in learning, promote responsibility, maintain a safe and respectful Charter School environment, and ensure that students receive appropriate support before concerns escalate.

**Supporting Student Attendance and Engagement**

DCA recognizes that attendance and engagement are essential to student success. The Charter School monitors attendance regularly and communicates with families regarding absences, tardies, and patterns of disengagement. Staff work with families to identify barriers to attendance and connect students to appropriate supports.

Attendance interventions may include parent or guardian communication, attendance meetings, student check-ins, academic support, counseling support, referrals to community resources, transportation assistance when available, COST review, and SST review when attendance concerns are connected to academic, behavioral, social-emotional, health, housing, or family needs.

DCA promotes engagement through meaningful instruction, strong relationships, academic support, family communication, enrichment activities, after-school opportunities, positive behavior supports, and a supportive Charter School culture. DCA's very low chronic absenteeism rates reflect the Charter School's strong attendance culture, student connection to school, and consistent family engagement. Staff continue to monitor attendance data and provide timely support so that students remain present, engaged, and ready to learn.

**Supporting English Learners**

It is vital that schools address the needs of this growing demographic. DCA has high expectations and offers a demanding academic program for all students, regardless of any language or placement classification. Access to high-quality English instruction for ELs is an issue of equity. English proficiency in our society serves as a powerful gatekeeper, opening doors to opportunity for those who reach proficiency and limiting or closing doors to opportunity for those who do not. As such, DCA is committed to effectively serving students who are ELs through a comprehensive approach to language instruction.

The Charter School will meet all applicable legal requirements for ELs, including newcomers, Long-Term English Learners or English Learners At Risk of becoming Long-Term English Learners ("LTELs"), and Reclassified Fluent English Proficient ("RFEP")

students, as they pertain to annual notification to parents/guardians, student identification, placement, program options, ELD and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, progress monitoring ELs toward reclassification, progress monitoring students who have been reclassified in the previous four years, and standardized testing requirements. The Charter School will implement policies to ensure proper placement, evaluation, and communication regarding ELs and the rights of students and parents/guardians. In addition, the Charter School will meet all requirements of federal and state law relative to equal access to the curriculum for EL students.

The goal is to utilize high-quality instructional programs and services for ELs that allow them, as quickly as possible, to achieve at the same challenging grade-level standards as native English-speaking students. The Charter School is dedicated to providing these students with an exceptional education, facilitating English proficiency as soon as possible. DCA recognizes multilingualism as an asset and values students' home languages and cultures while supporting English language development. The Charter School's approach focuses on the student's social, emotional, and academic development within and outside of the classroom. Building on the student's existing strengths, DCA focuses on preparing ELs to succeed in middle school, high school, college, and their chosen career.

***Identification of English Learners***

To identify ELs in a timely manner and provide appropriate instructional support and services, all parents and guardians are required to complete a Home Language Survey upon enrollment at Kidinnu Academy, consistent with Education Code Section 52164.1. Students whose home language is identified as a language other than English are assessed using the English Language Proficiency Assessments for California ("ELPAC") if they have not previously been identified as an English Learner by a California public Charter School or public school, or if there is no record of prior ELPAC results. Kidinnu Academy also verifies students new to the Charter School through CALPADS to access relevant EL data and ensure proper placement in designated ELD and other language supports.

***English Language Proficiency Assessment***

All students identified as ELs are tested with the ELPAC. The ELPAC consists of two separate assessments, which are detailed below:

Initial Assessment ("IA"):

The ELPAC IA is used to identify students as either an English Learner, or as fluent in English. The IA is administered only once during a student's time in the California public school system based upon the results of the Home Language Survey. The locally scored IA will be the official score. The IA is given to students in grades K-12 whose primary language is not English to determine their English proficiency status.

Summative Assessment ("SA"):
Once a student is identified as an English Learner, the student will take the SA every year until the student is RFEP. The ELPAC SA is only given to students who have previously been identified as an EL based upon the IA results, in order to measure how well they are progressing with English development in each of the four domains. The results are used as one of four criteria to determine if the student is ready to be reclassified as fluent English proficient, to help inform proper educational placement, and to report progress for accountability.

The ELPAC has four proficiency levels and is aligned with the 2012 California ELD Standards:

1. Level 1: Minimally Developed
2. Level 2: Somewhat Developed
3. Level 3: Moderately Developed
4. Level 4: Well Developed

Both the ELPAC SA and IA are assessments administered in seven grade spans: K, 1, 2, 3-5, 6-8, 9-10, and 11-12. For ELs within DCA's grade span, the test is administered in groups, exclusive of speaking, which is administered individually. The ELPAC IA and SA will be administered via a computer-based platform.

Testing times will vary depending upon the grade level, domain, and individual student. Both the ELPAC IA and SA are given in separate testing windows throughout the school year.

The IA testing window is year-round, July 1 through June 30. Any student whose primary language is other than English as determined by the Home Language Survey and who has not previously been identified as an English Learner by a California public school or for whom there is no record of results from an administration of an English language proficiency test, shall be assessed for English language proficiency within thirty calendar days after the date of first enrollment in a California public school, or within sixty calendar days before the date of first enrollment, but not before July 1 of that school year.

The SA testing window is determined by the CDE. The English language proficiency of all currently enrolled ELs shall be assessed by administering the test during the annual assessment window.

The Charter School will notify all parents/guardians of its responsibility for ELPAC testing and of ELPAC results within thirty days of receiving results from the publisher. The ELPAC shall be used to fulfill the requirements under the ESSA for annual English proficiency testing.

The English language proficiency of all currently enrolled ELs, including newcomers and LTELs, will be assessed in accordance with the test contractor's directions and Education Code guidelines. Students with disabilities will be permitted to take the test with the accommodations listed in the Education Code if they are specified in the student's IEP or Section 504 Plan. An alternate assessment for English language proficiency will be administered to students who are unable to participate in the ELPAC, according to the guidelines set forth in the student's IEP. For EL students who have IEPs, DCA will ensure that linguistically appropriate IEPs are developed, including the components required by Education Code Section 56345(b).

***Reclassification Procedures***

Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the ELPAC.
- Teacher evaluations, including, but not limited to, a review of the pupil's curriculum mastery.
- Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents/guardians' opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process.
- Comparison of the pupil's performance in basic skills against an empirically established range of performance in basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English.
- DCA may consider CAASPP scores when available, iReady, or other local assessment data, grades in English Language Arts and other core classes, writing samples, teacher evaluation, classroom performance, and other empirical data when applying the basic skills criterion.

Students who have met the criteria to be reclassified from English Learner to Fluent English Proficient will be monitored for four years. Documentation will be completed by classroom teachers and filed in the students' cumulative folders.

***Specific Reclassification Procedures for Students with Disabilities***

Students with disabilities are afforded the same opportunities for reclassification as their peers without disabilities. To ensure equity, IEP teams are tasked with determining the most appropriate measures of English language proficiency and performance in basic skills for each student. These measures should reflect the proficiency levels

expected of a native English-speaking peer with similar disabilities at the same grade level.

In alignment with federal and state laws, the IEP team may use multiple criteria alongside the four reclassification criteria outlined in the California Education Code. This approach allows the IEP team to address the unique needs of ELs with disabilities, ensuring that the reclassification decision is both appropriate and individualized.

Key Points:

1. Customized Measures

The IEP team may identify alternative or supplemental measures of English language proficiency that are tailored to the student's disability. These measures should aim to equate the student's performance with that of a native English-speaking peer with similar disabilities.

2. Multiple Criteria Approach

The IEP team can consider additional criteria beyond the standard reclassification metrics to make a well-rounded decision. This ensures that the student's reclassification is based on a comprehensive evaluation of the student's abilities.

3. Equity in Reclassification

The IEP team's goal is to provide an equitable pathway to reclassification, ensuring that all students, regardless of disability, have the opportunity to demonstrate English proficiency and succeed in a mainstream English program.

***Strategies for English Learner Instruction and Intervention***

At DCA, students are offered designated ELD and provided access to grade-level academic subject matter content with integrated ELD. The integration of ELs with their non-EL peers improves access and equity for all students to grade-level curriculum, instruction, and assessment. It also emphasizes for teachers the importance of utilizing the ELA/ELD Framework.

Integrated ELD is regular class time where teachers with ELs in their classrooms use the 2012 ELD Standards in tandem with the content State Standards. To better access the core curriculum, all ELs receive Integrated ELD, which is taught by credentialed staff with EL authorizations. Language objectives, vocabulary supports, and formal and informal language practice engage ELs with their non-EL peers through collaboration, interpretation, and production of the English language.

Every teacher at DCA is accountable for teaching the ELs in their classroom. EL instruction is not the responsibility of one teacher or one period alone. Teachers use strategies that support vocabulary and language development, guided interaction,

collaborative learning, metacognition, authentic assessment, explicit instruction, meaning-based context, modeling, graphic organizers, visuals, sentence frames, structured academic discourse, and opportunities for speaking, listening, reading, and writing across content areas.

As outlined by the State, key components of Integrated ELD include:

- Effective instructional experiences for ELs throughout the day and across disciplines;
- Interactive and engaging, meaningful and relevant, and intellectually rich and challenging instruction;
- Appropriate scaffolding in order to provide strategic support that moves learners toward independence; and
- Instruction that builds both content knowledge and English, values primary language and culture, and builds on other forms of prior knowledge.

Designated ELD is a protected time during the regular school day when teachers use the 2012 ELD Standards as the focal standards. This allows students to develop critical English language skills, knowledge, and abilities needed for content learning in English.

DCA's goal is to help EL students make rapid progress out of levels 1 and 2 and into levels 3 and 4 so that students leave the Charter School proficient in the English language, properly redesignated, and with pride and support for their home language. DCA believes that the most effective instructional approach is to embed ELD principles in all aspects of the curriculum and to teach explicit ELD during a protected portion of the school day.

Designated ELD is built into the daily schedule and taught by teachers with proper authorization. Students are placed into designated ELD supports based on their English proficiency levels and identified needs. Curriculum and lessons are based on the ELD Standards and include opportunities to speak informally while also using academic language. Students in designated ELD receive instruction designed to build listening, speaking, reading, writing, and language skills. The overall goal of DCA's EL program is to reclassify students as RFEP.

***ELA/ELD Framework***

DCA's ELA and ELD instruction is aligned to the California ELA/ELD Framework. The framework emphasizes that all students should develop readiness for college, careers, and civic life, attain the capacities of literate individuals, become broadly literate, and acquire 21st Century skills for living and learning. In the middle school context, DCA interprets this goal as preparing students with the literacy, language, content knowledge, critical thinking, collaboration, and communication skills needed for success in high school and beyond.

The ELA/ELD Framework describes effective instruction as integrated, motivating, engaging, respectful, and intellectually challenging for all students at all grade levels. The key cross-cutting themes of ELA/Literacy and ELD include meaning making, language development, effective expression, content knowledge, and foundational skills. These themes connect ELA standards with ELD standards and support language development through rigorous content learning.

California ELD Standards focus on the purpose, process, and resources of English language development. The purpose of ELD instruction is to ensure that students use English purposefully, interact in meaningful ways with others, and learn the structures of the English language. DCA uses this framework to provide both integrated and designated ELD for ELs.

***Newcomers***

The term "newcomer" is used for students who meet the following criteria: (1) born outside of the United States; (2) first enrolled in U.S. schools on or after April 15 of the prior year; and (3) classified as an English Learner based on the Initial ELPAC.

Newcomers are supported by general education teachers, the EL Teacher, tutors, and other support staff through the use of integrated ELD strategies. Students also learn and practice English through formal and informal interactions with peers at different levels of English language proficiency. Newcomers receive both integrated and designated ELD during the school day through core instruction, designated ELD, intervention, and support opportunities.

Creating a welcoming environment is essential for newcomers and their sense of belonging in school. At DCA, newcomers, their families, and their language(s) are valued, respected, and seen as assets. DCA supports newcomers by building relationships, encouraging participation in academic discourse and informal social dialogue, celebrating growth and progress, and connecting families to appropriate school and community supports.

Newcomers are also able to access one-on-one or small group tutoring, after-school academic support, enrichment activities, counseling services, and other appropriate supports as needed. DCA prioritizes community partnerships when available so that students and families can receive additional support beyond what the Charter School can provide directly.

***Monitoring Progress of Reclassified Fluent English Proficient Students***

Reclassified students will be monitored through DCA's MTSS process. Those found to be regressing in their academic performance will be referred to receive academic intervention in the specific area of need. Interventions may include after-school tutoring, one-on-one support, small group support, supplemental programs that target specific skills, academic intervention, SST referral when appropriate, and/or other

supports as needed. RFEP students will be monitored for four years after being reclassified.

The Principal, ELL Teacher, classroom teachers, or designee maintains a list of students identified as RFEPs and monitors academic progress using CAASPP data when available, benchmark scores, grades, classroom performance, teacher feedback, assignment completion, participation in class discussions, ability to work independently, attendance, and engagement.

***Monitoring English Learner Progress***

Teachers monitor EL progress through ELD records, assessment results, classroom performance, writing samples, oral language observations, and work samples to measure progress in comprehension, fluency, vocabulary, pronunciation, grammar usage, reading, writing, listening, and speaking. Teachers provide regular progress information to parents and guardians regarding student growth in English proficiency and academic performance.

DCA maintains records for students identified as ELs, including ELPAC results, CAASPP results when applicable, enrollment history, reclassification information, years in U.S. schools when applicable, progress data, and intervention information. The Charter School maintains ELD information that may include the Home Language Survey, ELPAC results, reclassification forms, and RFEP monitoring forms.

DCA provides intervention to ELs who are not making adequate progress in English proficiency or academic achievement. Students who score below standard or near standard in English Language Arts or mathematics on state or local assessments may receive targeted intervention, small group instruction, additional language support, or SST review when appropriate.

***Monitoring and Evaluation of Program Effectiveness***

The Charter School evaluates the effectiveness of its education program for ELs by:

- Adhering to school-adopted academic benchmarks by language proficiency level and years in program to determine annual progress.
- Monitoring teacher qualifications and the use of appropriate instructional strategies based on program design.
- Monitoring student identification and placement.
- Monitoring parent and guardian program information and communication.
- Monitoring availability of adequate resources.
- Reviewing ELPAC results, local assessment data, classroom performance, reclassification rates, RFEP monitoring data, and subgroup performance.
- Using data to adjust designated ELD, integrated ELD, intervention, and professional development.

In addition, the EL program evaluation will take place through the analysis of the most current Summative ELPAC scores. After the release of the Charter School's Summative ELPAC scores, staff will review students' progress on the Summative ELPAC between school years. This information is used to inform programming decisions such as designated ELD scheduling and staffing, a focus for ongoing professional development specific to the needs of ELs, and reclassification prior to the start of a new school year. These decisions are aligned with Charter School and AMPS strategic priorities and reported to educational partners, as appropriate.

The program evaluation includes the degree to which:

1. ELs are attaining English language proficiency within five to seven years.

2. Programs and activities assist ELs to attain proficiency and meet academic achievement and content standards, including review of EL chronic absenteeism.

3. Necessary improvements are made to programs and activities for which Title III funds have been used for ELs.

4. Specific EL activities proven to be ineffective are eliminated or replaced.

## PROFESSIONAL DEVELOPMENT

To ensure and support our teachers in implementing the aforementioned pedagogical strategies, we have designed a well-developed instructional coaching and professional development plan.

### Instructional Coaching

Amethod Public Schools believes in the implementation of an effective teacher coaching and feedback plan which involves a structured approach that fosters continuous professional development. We have established a clear framework that includes regular bi-weekly classroom observations, peer feedback sessions, and individualized coaching meetings. Coaches are trained to observe lessons with a focus on specific pedagogical strategies, student engagement, and learning outcomes. After observations, a collaborative feedback session follows and allows teachers to reflect on their practices, discuss strengths and areas for growth, and set actionable goals. This reflective practice encourages a growth mindset, where teachers feel supported in experimenting with new techniques without fear of judgment.

Throughout the year, the Richmond Charter Academy Site Director and Deans conduct formal and informal classroom observations. Each teacher receives coaching on a bi-weekly basis. The Home Office Director of Instruction supports the Deans to ensure consistent practices. The tools that we use to align and improve instructional practices are the CSTP rubrics, Get Better Faster model, and Teach Like a Champion strategies.

AMPS has integrated these tools into our instructional coaching framework to increase teacher effectiveness and improve student outcomes.

To ensure the sustainability and effectiveness of the coaching plan, it is essential to create a culture of trust and collaboration among staff. One concrete strategy we have begun is to establish peer observation cycles, where teachers pair up to observe each other's classes and provide feedback using a structured protocol. Additionally, weekly professional development sessions are held, focusing on topics such as classroom management techniques, strengthening content depth of knowledge or integrating technology into lessons. As well as, implementation of a shared digital platform, like Google Drive, Google Classroom or Messenger, for sharing resources and feedback has further enhanced collaboration. Regular check-ins, weekly staff exit tickets/ feedback, brief surveys or one-on-one meetings, have also been included to assess the impact of coaching and allow for adjustments based on teachers' needs. By prioritizing ongoing support and creating a safe space for professional dialogue, Amethod Public Schools coaching plan enhances teaching quality and ultimately improves student outcomes.

**Professional Development Plan**

Amethod Public Schools staff participate in extensive professional development. Our professional development plan is aligned to the annual educational priorities established by Amethod Public Schools and the Charter School. Amethod Public Schools professional development plan focuses on enhancing instructional practices, fostering collaboration, and integrating technology into the classroom. The plan could include a series of workshops and training sessions tailored to different grade levels and subject areas, emphasizing current educational trends, pedagogical strategies, and differentiation techniques. Collaborative learning communities are established, allowing teachers to share best practices, observe each other's classrooms, and engage in constructive feedback.

Before the school year starts, all AMPS' staff participate in week-long professional development sessions. We call this our AMPS Summit. There are various professional development strands based on the roles that staff have. For new teachers, AMPS has a New Teacher Summit where they participate in training specifically tailored to them.

To ensure that the professional development plan is effective and relevant, ongoing assessment and feedback mechanisms are integrated. Regular surveys and reflection sessions allow educators to voice their needs and experiences, allowing for adjustments to the program, as necessary. Furthermore, technology training on all curricula has been a core component, equipping teachers with the skills to effectively utilize digital tools and resources in their instruction. By prioritizing these elements, the professional development plan fosters a culture of continuous improvement and innovation, ultimately enhancing student learning outcomes across all grade levels.

**Conditions for Adult Learning**

As we walk through classrooms, we expect to see quality lessons that engage students in the academic content through culturally responsive teaching and interesting tasks. We value our teachers and support them to be facilitators in their classrooms by providing a variety of supports. In order to do this, we must create experiences for our staff that encourage them to be collaborative, problem solvers, and hold a growth mindset.

<u>As an organization we provide:</u>

- Coaching and Professional Development - Network and Site-Based
    - Implement coaching programs to support teachers in the delivery of high-quality instruction.
    - Guidance, feedback, and professional development opportunities to enhance teacher effectiveness and student engagement.
    - Collaboration with school leaders to design and facilitate site based professional learning communities focused on instructional best practices.
    - Professional development sessions with school leaders.
    - Bi-weekly instructional walkthroughs between AMPS Home Office staff and RCA instructional Deans to help support their development/growth and to ensure there is alignment across grade levels and content areas.
- Instructional Frameworks and Standards-Aligned Instruction
    - Ensure that instructional practices are aligned with state standards, adopted curriculum, and assessment requirements.
    - Develop and implement instructional frameworks and models to guide teaching practices across all content areas and grade levels.
    - Regularly gather, analyze, and take action on data related to teacher practice, curriculum, and standards that bring about continual and measurable improvement of AMPS's learning environment and student performance.
- Curriculum Development and Adoption

- Collaborate with educational leadership to ensure curriculum alignment with state standards, district goals, and educational research.

- Utilize data analysis tools to assess student learning outcomes and identify areas for improvement.

To make gains with our students we must examine our instructional practices to see how we are increasing the students' skills and independence as they move closer to their grade level demands. We must also become experts in analyzing data to show us where we need to focus and how targeting specific groups can help us tailor instruction without lowering the rigor of grade-level demands.

**Amethod Public Schools Partnerships**
AMPS supports teacher credentialing and professional growth by connecting eligible staff with credentialing programs that offer flexible pathways toward certification. The following institutions and programs provide options for online, in-person, intern, and alternative credential pathways that may support staff seeking to obtain or complete a California teaching credential.

*Table 1.3: Partnerships with AMPS to Provide Professional Development*

DCA and AMPS provide professional development designed to strengthen instructional practice, support consistent implementation of the educational program, and ensure staff are prepared to meet the academic, behavioral, social-emotional, linguistic, and operational needs of students. Professional development may occur through AMPS Summit, AMPS New Teacher Summit, coaching, PLCs, data meetings, mandated trainings, and ongoing school-based support aligned to DCA's instructional priorities and student needs.

## ANNUAL GOALS

### Charter School Goals and Actions to Achieve the Eight State Priorities

Please see Exhibit 1, the Charter School's Local Control and Accountability Plan ("LCAP"), which is incorporated into this Charter by reference. The LCAP provides a reasonably comprehensive description of DCA's annual goals, actions, services, and measurable outcomes aligned to the Eight State Priorities, schoolwide and for all pupil subgroups, as described in Education Code Section 52060(d). Exhibit 1 satisfies the requirement to describe the specific annual goals and actions DCA will implement to achieve those goals in accordance with Education Code Section 47605(c)(5)(A)(ii).

# Element 2 (Measurable Pupil Outcomes) and Element 3 (Method of Measuring Pupil Outcomes)

***"The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school's educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school." – Ed. Code § 47605(c)(5)(B)***

***"The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card." – Ed. Code § 47605(c)(5)(C)***

## Increases in Student Academic Achievement, Overall and by Subgroup

In accordance with Education Code section 47605(c)(5)(B), Charter School's pupil outcomes will be set related to increases in pupil academic achievement both schoolwide and for all numerically significant subgroups of pupils served by the charter school, as that term is defined in paragraph (4) of subdivision (c) of section 47607. The pupil outcomes shall align with state priorities, as described in subdivision (d) of section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school. Charter School's LCAP goals will serve as the goals for this section unless Charter School's LCAP goals do not include increases in student academic achievement by subgroup, in which case such goals should be included below.

Downtown Charter Academy's LCAP goals and actions include increases in student academic achievement by significant subgroup in compliance with Education Code section 47605(c)(5)(B).

Charter School hereby grants authority to the State of California to provide a copy of aggregated (by school, numerically significant subgroups, etc.) test results directly to the District. Test results for the prior year, if not provided directly to the District by the State in a timely manner, will be provided by the Charter School to the District, upon request, no later than September 1 of each year.

A copy of the Charter School's 2025-28 Local Control and Accountability Plan is attached to this agreement as Exhibit 1 and helps inform the Charter Renewal's description of its measurable pupil outcomes.

**Local Control and Accountability Plan**

See Downtown Charter Academy 2026-27 LCAP in Exhibit 1.

In accordance with, and using the procedures prescribed by, Education Code Section 47606.5, DCA shall comply with all applicable requirements of the LCAP including any applicable regulations promulgated, and the template adopted, by the State Board of Education. The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter. DCA shall submit the LCAP to the District and the Alameda County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall also present a report on the annual update to the LCAP and the local control funding formula Budget Overview for Parents on or before February 28 of each year at a regularly scheduled Board meeting.

Revisions to the goals, outcomes, metrics, or actions and services stated above that are necessary to implement the LCAP and to maintain alignment with the California School Dashboard as it evolves shall not be considered a material revision to the charter, shall be submitted to the chartering authority on an annual basis in accordance with Education Code Sections 47604.33 and 47606.5, and shall be maintained by the Charter School at the school site.

**Goals, Actions, and Measurable Outcomes Aligned with the Eight State Priorities**
Pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), a reasonably comprehensive description of the Charter School's annual goals, actions, and measurable outcomes both schoolwide and for each subgroup of pupils in and aligned with the Eight State Priorities as described in Education Code Section 52060(d), can be found in the Charter School's LCAP. Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups of ELs, SED students, Asian students, and Hispanic students. The metrics associated with these goals help the Charter School to ensure that these specific subgroups are making satisfactory progress and are provided with the necessary additional support made possible by additional funds from the Local Control Funding Formula.

**Measurement of Student Academic Achievement**

**Mandated State Assessments**
The Charter School shall meet all statewide standards and conduct the student assessments required pursuant to Education Code Section 60605, and any other statewide standards authorized in statute, or student assessments applicable to

students in non-charter public schools in accordance with Education Code Section 47605(d)(1). The Charter School will administer all applicable state-mandated assessments including the CAASPP assessment system and other state-mandated assessments such as the Physical Fitness Test and the ELPAC. The Charter School will comply with applicable federal assessment and accountability requirements of the Every Student Succeeds Act. The Charter School affirms that its methods for measuring student outcomes for the Eight State Priorities, as described in its LCAP, shall be consistent with the way information is reported on a School Accountability Report Card, as required by Education Code Section 47605(b)(5)(C).

**Growth Measures: Diagnostic, Formative and Summative Assessments**

Aligned with its firm belief in accountability, the Charter School will implement a rigorous assessment and goal-setting program to measure students' content mastery, adapt academic programs, and ensure that each student is making progress. By having clear and consistent assessments and data analysis sessions with teachers, the Charter School will ensure that each student is making progress toward meeting and exceeding standards.

Students are assessed regularly from the time they enter the Charter School through the end of 8th grade, and all staff monitor their progress closely. Assessments are essential tools for evaluating student progress and knowledge. Our assessment plan includes not only our schoolwide assessments for diagnostic and formative assessments (e.g., NWEA MAP Growth), but also statewide summative assessments (such as SBAC, California Science Test ("CAST"), ELPAC, California Alternate Assessments ("CAA"), and Physical Fitness Test ("PFT"). More informal assessments include quizzes and exit slips. More formal summative assessments include curriculum-based assessments and projects.

***Assessment Matrix***

The following lists some of the current data systems (External and Internal) that will be implemented at the Charter School.

*Table 2/3.1: Assessment Matrix (Subject to Change)*

The Charter School will continue to make a conscious effort to use student assessment data to inform decisions related to planning and developing instructional strategies at the schoolwide, classroom, and individual student levels. Ongoing assessments of student and school performance are integral in the planning, implementation, and adjustment of instruction in the Amethod Public Schools system.

**Assessment Modifications and Accommodations**

The Charter School will ensure that students with disabilities under the IDEA or Section 504 are included in State standardized assessment programs with appropriate

accommodations and modifications when necessary and appropriate. These assessments include but are not limited to the CAA in accordance with their IEP or Section 504 plan.

**Collecting, Analyzing, and Reporting Data**

DCA teachers and administrators engage in ongoing analysis cycles. After an assessment cycle, a school leader schedules what is known as *a Data Dive*. During a Data Dive, teachers and instructional leaders put assessments into practice and connect assessment results to student learning outcomes. Teachers and leaders review data every six weeks through Data Dive Meetings. Unlike traditional post-observation conferences, analysis meetings offer insight into months of student learning.

Data Dive meetings also increase accountability. The meetings are integral to changing from a culture focused on what students were taught to a culture focused on what students learned.

Teachers will reflect and focus on the following:

- Identify patterns of underperformance
- Identify patterns of high performance
- Identify student cohorts *(tiered interventions)*

The goal of the Data Dive meeting is to improve teacher practice, and student practice, all in the goal of excelling student achievement. Leaders can have individual conversations as needed, but in the meeting with the group adhere to the underlying practice below:

1. *What is the data telling you? (Overall Goal)*
2. *Praise for standard mastered. (By class, subject, grade)*
3. *Surfacing concern areas (Test in hand analysis/side by side)*
4. *Action Planning/Action Plan evaluation*

The Charter School will continue to use data to identify strengths and weaknesses in student, teacher, class, grade-specific, and schoolwide performance. DCA reports individual student level data to parents/guardians and students on a regular basis. Student achievement data is presented to student and parents/guardians through PowerSchool and ParentSquare. Individual student achievement data includes student test scores on standardized testing, class grades including formative and summative assessments, attendance, and discipline. Throughout the school year, parents/guardians and students are able, and encouraged, to attend Parent/Teacher conferences to meet with members of the instructional team to discuss specific skills

and targeted interventions that the student needs. If any student is not making sufficient progress to meet goals and benchmarks, teachers, parents/guardians or administrators begin a Student Success Team. From this meeting an action plan is created to support the student. Individually and by class, students look at their performance data, set goals, examine outcomes, and develop action plans responding to the data. All communications to parents/guardians in a language they understand.

In accordance with Title III, DCA adheres to all mandated reporting guidelines about English Learners. Parents of English Learners receive mandated communications on reclassification per Title III through annual ELPAC testing results. In accordance with IDEA, DCA will comply with all state and federal laws regarding reporting requirements for children with IEPs. Parents of students with IEPs receive reports according to the plan specified in each IEP. All students with disabilities are entitled to the reports and assessment data described in this section, which are provided to all students.

Schoolwide data is presented to educational partners during town halls, parent/guardian meetings, student assemblies, and Board meetings, at regular intervals and at least four times during the school year. Data will be collected, analyzed, and disseminated transparently, promoting accountability and continuous improvement among school community members. The AMPS Board will systematically review the Charter School's data to monitor trends in student learning outcomes and ensure that sufficient and appropriate financial and human resources exist to properly enact the Charter School's program and remain faithful to the charter. The AMPS Board will work in conjunction with AMPS leadership to make necessary changes in response to identified needs as reflected in the Charter School's data streams.

Aligned with a firm belief in student achievement, Amethod Public Schools will offer a rigorous assessment and data review program to measure and increase students' proficiency levels and ensure that each student is making progress toward mastery at Downtown Charter Academy. The instructional leadership team also uses walkthrough data to determine whether high-priority instructional practices are improving. This data supports the leadership team in aligning coaching resources, administrative focus, and professional development as appropriate.

**Accountability Systems**

The Charter School's faculty is committed to this series of analyses to inform instructional decision-making. DCA will continue to use the procedures consistent with all Amethod Public Schools sites and comprehensively examine accountability measures from the start. These include:

<u>Student-level data indicators:</u>

- iReady assessments
- CAASPP scores

- Grade Point Average
- ELPAC results
- Attendance rates (individuals)
- Sample writing with Rubric Scores Sheets

School-level accountability indicators:

- Measurable Pupil Outcomes
- Attendance rate
- Local Control and Accountability Plan

Amethod Public Schools' Benchmark Assessments, NWEA MAP Growth, are scheduled at the start of every year; these include a Fall, Winter, and Spring test administration. After the NWEA MAP Growth tests are administered, students and families are provided with a goals and projection sheet that summarizes the students' progress. The Charter School uses the NWEA MAP Growth tests to measure student progress and growth.

***Assessments***

By implementing Data Dives to analyze assessments--teachers self-reflect on their own practice and pacing guides, based on surveying student work for learning gaps and looking at standards--leading to the development of specific action plans to address identified learning needs. Bi-weekly department meetings also look to address trends in learning and give teachers a space to collaborate to standardize best teaching practices by department.

Data analysis has been a focus of our approach at Richmond Charter Academy since we first opened, but our new partnerships with Uncommon Schools and Relay GSE have provided us with the guidance necessary to reach new heights of best practice in this area. Starting in the summer, teachers are trained on their curriculum, assessment schedule, and our schoolwide data analysis protocols. At week six, we begin meeting in content area departments to run these data analysis protocols on recent assessments with the planned deliverable being an informed reteach plan that can be introduced during the next day's lesson. This practice of frequent data meetings on lower stakes, formative assessments, is intended to identify and correct gaps in student mastery before units reach their completion and it is too late.

Data driven decision making ultimately leads to more effective teaching and student achievement. The assessments outlined below empower educators to make data-informed decisions based on student needs, identify students for targeted interventions, and promote a culture of continuous improvement.

*Table 2/3.2:* Types of Assessments

| Type | Assessment Name | Description |
|---|---|---|
| **Universal Screeners** | Lexia<br>iReady<br>Initial ELPAC | Universal screeners are used to provide data to measure the effectiveness of core instruction to allow teams to consider adjustments across Tier 1 universal supports. These screeners allow educators to identify students who may benefit from Tier 2 and Tier 3 interventions. |
| **Diagnostic Assessments** | NWEA MAP Growth | Diagnostic assessments are used to measure skill strengths and weaknesses, identify skill gaps, and assist in determining why a problem might be occurring. Diagnostic assessments are administered in Fall, Winter, and Spring. |
| **Summative Assessments** | SBAC ELA/Math<br>CAST<br>Summative ELPAC<br>PFT<br>Midterm/Final Exams | Summative assessments are used to benchmark student performance relative to what students need to be successful based on assessed content standards. They provide teachers, administrators, parents/guardians, and students with ongoing data to assess whether they are on track to meet goals. |
| **Formative Assessments** | Quizzes<br>Exit tickets | Formative assessments provide data to guide instructional decisions and identify indicators for scaffolding and differentiated instruction. Teachers use formative assessments on a weekly basis to ensure that instruction is meeting all students. |

***Continuous Student Achievement Improvement Template***

Amethod Public Schools believes in a continuous improvement model. The organization reviews data and programs in an attempt to better the student experience at our campuses.

## Application of Education Code section 47607.3

Under Education Code section 47607.3, if Charter School meets certain criteria outlined in section 47607.3(a), the following shall apply:

- Depending on circumstances specified in section 47607.3, either the county superintendent of schools or the chartering authority shall provide technical assistance to the charter school using an evaluation rubric adopted by the State Board.
- The entity providing technical assistance may request assistance from the California Collaborative for Educational Excellence, which may, after consulting with the Superintendent and with the approval of the State Board, provide advice and assistance to the charter school.
- The chartering authority shall consider for revocation any charter school to which the California Collaborative for Educational Excellence has provided advice and assistance, and has made findings that: 1) the charter school has failed, or is unable, to implement the recommendations of the California Collaborative for Educational Excellence; or 2) that the inadequate performance of the charter school, based upon the evaluation rubric, is so persistent or so acute so as to require revocation of the charter.

**School Accountability Report Card**

DCA will compile data each academic year to produce a School Accountability Report Card. Student achievement data will be disaggregated annually to identify students' academic performance by sub-groups (e.g., ethnicity, gender, English Learners, socioeconomically disadvantaged students, and students with disabilities).

## Grading Philosophy

Our grading practices strive to align with our values, mission, and vision. The Charter School has set forth the guiding principles for grading below, adapted from Grading for Equity (Feldman, 2019):

- **Grades should be accurate**: Grade calculations should be mathematically accurate and sound, easy to understand, and made based on clear descriptions of a student's level of academic performance.
- **Grades should be bias-resistant**: There are multiple opportunities to provide feedback to students, and grades are but one of them. Grades should be representations of an individual student's progress toward mastery or how effectively they have met the standards for academic performance. Grades should not be punitive or incorporate potentially biased, situational and/or culturally influenced perceptions of behaviors (such as timeliness of assignment submission, how quickly students master a topic, effort, personality, participation, etc.).
- **Grades should be motivational**: Grading should allow multiple attempts at mastery and, therefore, represent where the student is at the time of grading, using the most recent data as an indicator. Teachers will consider how to balance providing time for mastery with the time constraints of the course.

### Grading and Progress Reports

Students earn grades based on established performance levels as described in the table below. In pursuit of our overall mission to get students prepared for colleges and universities, DCA students do not earn middle school credits for any course in which they receive less than a C-.

When grades are given for any course of instruction, the grade given to each student shall be the grade determined by the teacher of record for the course, in the absence of clerical or mechanical mistake, fraud, bad faith, or incompetence the grade shall be final. Teachers may make changes to grades until the semester cutoff date, which is the date that grades are stored and recorded onto the student's historical grades section of PowerSchool. After grades are stored, teachers are prohibited from changing grades without securing the approval of the Site Director. All grade changes will be documented in PowerSchool and requests for changes will only be accepted for 30 days after the official close of the marking period.

Teachers wishing to change a student's grade after grades have been stored should apply the following criteria:

- The student had extenuating circumstances that prohibited the student from completing the course on time (example: automobile accident, serious illness).
- The teacher made a mistake when recording a grade.

Students and families have access to grades through the Student Information System (PowerSchool). They can view grades and message teachers at any time. Information regarding how to use this portal is given at parent/guardian meetings, through communication sent home, and during parent/guardian-teacher conferences. In addition, every quarter, advisory classes send home informal progress reports to ensure that parents/guardians are aware of student grades. If a student is not meeting the minimum mastery requirements for a course, the parent/guardian and student may be required to attend a conference with the student's teacher, Site Director, and/or COST team to develop a plan to support the student's academic progress.

and schools. The nature of the high stake's certainty of charter schools and the existing achievement gaps among racial and economic subgroups in public education, merit and justify the need for exceeding academic standards and programs. AMPS expects students to progress through each grade within one school year. To accomplish this, instruction will be made to accommodate the varying interests and needs of individual students and include strategies for addressing academic deficiencies when needed. Students shall progress through grade levels by demonstrating growth and mastery in learning and meeting grade-level standards of expected student achievement.

The following criteria will be reviewed in calculating retention of a student:

- Grade Point Average (*Grades below the mark of C-/2 are considered as failing and receive 0 credits*)
- More than 2 semester grades below a C-/2 may constitute retention
- PE and language are included in grade calculations
- IEP, Section 504 Plan and other modifications and plans will be reviewed during the retention decision phase
- Multiple measures assessments (including Standardized Testing and Reporting Program and Interim assessments) * these are not used to retain. May be reviewed in conjunction with other areas
- Attendance record (More than 20 unexcused absences may constitute a retention)
- Social Emotional learning & growth (Is their maturity level ready for the next grade)
- Development of a Comprehensive Intervention Plan by the COST team.

When a student is recommended for retention or is identified as being at risk for retention, the Principal or designee shall provide opportunities for remedial instruction to assist the student in overcoming academic deficiencies. Such opportunities may include but are not limited to tutorial programs, after-school programs, summer school programs and/or the establishment of an SST.

Students identified as students with IEPs or Section 504 Plans will be evaluated within the stated goals and needs of the specific student by the IEP team and/or Section 504 team. Although standards will remain high for all subgroups, students with IEPs or Section 504 Plans will be evaluated on an individual basis with consideration of the existing IEP or Section 504 program, goals, and offered accommodations and modifications.

**Student Involvement in Governance**
DCA has an active Student Body Government ("SBG") where elected students serve as advisors and student leaders at the school. SBG works closely with the Site Leadership team and the AMPS Board of Directors to make suggestions on school programming, policies, procedures, and matters that involve the student body. The SBG also puts together school programming such as school dances, events, fundraisers, community service projects, and other school-wide activities as requested by the student body.

The SBG meets at least once per month. The meetings are open to all students and any student or staff can make comments on topics or matters that impact the student body. Each grade level elects three representatives to serve on the SBG, a President, Vice President, and Secretary/Treasurer. These members have voting rights when decisions are made at SBG meetings.

## Complaint and Uniform Complaint Procedures ("UCP") Procedures

AMPS uses a formal complaint policy and process to address community concerns that are not resolved through informal processes. The Charter School will establish complaint procedures that address both complaints alleging discrimination or violations of law and complaints regarding other areas. The Charter School will not, at any time, refer complaints to the District, and will address matters at the Charter School

and organizational level consistent with the nature of charter legislation. However, parents/guardians and families may approach the local authorizer or school district to file a complaint should they wish to do so.

Amethod Public Schools has an Internal Resolution Service Complaint Process for internal complaints related to a school employee and/or school programing. AMPS also has a Uniform Complaint Procedure Policy and Complaint Form which address complaints related to discrimination and/or harassment. In addition, AMPS has established a Title IX Discrimination/Harassment Policy and Complaint Procedure to help achieve a safe, discrimination-free, and harassment-free environment for all. The complaint procedures and forms will be clearly articulated in the Charter School's website, student and family handbook, and employee handbook.

Code § 47605(c)(5)(G)***

DCA is committed to creating a school community that reflects the diversity of the general population residing within the territorial jurisdiction of the District. DCA will strive to recruit middle school students from a range of racial, ethnic, linguistic, ability, and socioeconomic backgrounds preparing to excel in high school, college and career.

The Charter School will maintain an accurate accounting of the balance of racial and ethnic students, students with disabilities, ELs and RFEPs, and SED students enrolled in the Charter School and will use this information to determine where additional outreach efforts are needed. DCA is committed to being racially, ethnically, linguistically (including ELs and RFEPs), ability, and socioeconomically diverse. Recruitment materials will include information about the admission process

DCA intends to employ the following recruitment and outreach strategies in support of its commitment to ensuring a diverse student population reflective of the general population residing in the District:[5]

**Outreach and Recruitment Strategies**
DCA uses multiple outreach methods to ensure families receive clear and accessible information about the Charter School. DCA's outreach efforts include informational meetings, open houses, school tours, community presentations, resource fairs, community canvassing, direct mailers, digital advertising, social media, the school website, newsletters, flyers, local media, and participation in community events. Outreach materials explain DCA's mission, instructional program, grade levels served, application process, enrollment deadlines, lottery process, student supports, family engagement opportunities, and nondiscrimination commitments.

AMPS supports DCA's outreach and recruitment efforts through organization-wide systems, staffing, communications, and marketing resources. AMPS supports multilingual communications, digital marketing, social media, family engagement strategies, community outreach, and enrollment-related messaging across AMPS'

[5] These strategies are subject to modification or suspension where they are infeasible or impractical due to public health restrictions, e.g., a pandemic, or disaster event.

schools. When outreach is specific to DCA, school leaders and staff provide information regarding DCA's program, culture, services, supports, and enrollment process.

DCA and AMPS make reasonable efforts to provide outreach materials and key enrollment information in English, Cantonese, and other languages as the need arises. DCA also provides translation, accessible formats, and individualized assistance for families who need support understanding the program, completing interest forms, submitting applications, attending information sessions, or participating in registration after admission. These efforts reduce barriers related to language, disability, technology access, transportation, work schedules, or unfamiliarity with the Charter School enrollment process.

DCA partners with educational partners and community organizations to strengthen outreach and build trust with families. Outreach includes collaboration with community leaders, neighborhood associations, youth organizations, libraries, recreation centers, community centers, family-serving agencies, local businesses, faith-based organizations, markets, restaurants, athletic teams and leagues, and other local organizations that serve families in Oakland. DCA also attends school option fairs, community fairs, city events, neighborhood events, and other public gatherings where families can learn about available public school options. AMPS may support these efforts by helping coordinate organization-wide outreach strategies, materials, staffing, and communications.

DCA conducts outreach to families of elementary students preparing to transition to middle school, including students attending other AMPS schools and schools in the surrounding community. Presentations and information sessions are provided to 5th grade students and families to explain DCA's academic program, school culture, enrichment opportunities, intervention supports, student support services, and enrollment process. These activities are informational only and do not restrict, screen, or condition eligibility for admission.

**Outreach and Recruitment Strategies to Ensure Diverse School Community**

DCA makes specific efforts to ensure that families of SWD understand that the Charter School is open to SWD and provides access to special education and related services consistent with applicable law. Outreach materials and information sessions describe DCA's inclusive instructional practices, Section 504 supports, special education responsibilities, related services, accommodations, and coordination with the appropriate SELPA, chartering authority, or service providers, as applicable. These efforts ensure families of SWD receive accurate information and are not discouraged from applying or enrolling.

For ELs and RFEP students, DCA provides information regarding language development supports, integrated and designated ELD, access to grade-level instruction, reclassification criteria, RFEP monitoring, and intervention supports. Families are informed that ELs receive meaningful access to DCA's educational

program while developing English proficiency and that RFEP students are monitored after reclassification and supported if academic concerns arise.

For SED students and families, DCA provides information regarding academic intervention, instructional materials, technology access, meals, school supplies, enrichment opportunities, extracurricular activities, family communication, counseling, social-emotional supports, and other student resources. DCA supports families in completing required forms for admission and enrollment, and works to reduce barriers related to cost, transportation, technology, and communication.

DCA seeks to employ and retain a diverse staff that reflects and respects the community served by the Charter School. Staff involved in outreach and recruitment are trained to communicate clearly with families, provide accurate information, avoid discouraging language, and refer families to appropriate staff when questions arise regarding enrollment, language access, special education, Section 504, or student supports. AMPS may also provide organization-wide support through staff such as an External Affairs Manager, Community Coordinator, school leaders, teachers, family volunteers, and community partners to support outreach and recruitment.

DCA maintains documentation of outreach and recruitment activities, including copies of materials, dates of events, locations of outreach, languages used, partner organizations, and participation information when available. AMPS may assist DCA with organization-wide systems for tracking outreach, communications, marketing activities, and enrollment-related data. DCA also reviews enrollment and outreach data to evaluate whether its efforts are reaching families across the community. This review includes application trends, enrollment trends, open house attendance, website traffic, social media engagement, family survey feedback, and participation in community events.

As part of its continuous improvement process, DCA periodically reviews the effectiveness of its outreach and recruitment strategies and makes adjustments as needed. AMPS may support this process by reviewing organization-wide outreach data, marketing trends, family engagement feedback, and recruitment strategies across AMPS schools. Adjustments may include revising messaging, expanding language access, identifying new community partners, increasing outreach in underrepresented neighborhoods, improving digital communication, adding family information sessions, and strengthening direct support for families completing enrollment materials.

Through these outreach and recruitment strategies, DCA provides broad, inclusive, and legally compliant access to its public charter school program. DCA's outreach efforts focus on building trust with families, communicating clearly, reducing barriers, welcoming all students, and ensuring that students from diverse racial, ethnic, linguistic, socioeconomic, and ability backgrounds are encouraged to consider DCA as a public school option.

Charter School shall comply with all applicable provisions of Education Code sections 48850 – 48859 with respect to foster children and homeless youth.

**Non-Discrimination**

Charter School shall not require a parent/legal guardian/student to provide information regarding a student's disability, gender, gender identity, gender expression, nationality, legal or economic status, primary language or English Learner status, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, or any other information that would violate federal or state law, prior to admission, participation in any admissions or attendance lottery, or pre-enrollment event or process, or as a condition of admission or enrollment. Charter School may request, at the time of, and as part of, conducting its lottery process, the provision of information necessary to apply specific admissions preferences set forth in this Charter.

Charter School shall not request or require submission of a student's IEP, 504 Plan, or any other record or related information prior to admission, participation in any admissions or attendance lottery, or pre-enrollment event or process, or as a condition of admission or enrollment.

As indicated in the affirmations included at the beginning of this petition, pursuant to Education Code section 47605(e)(4)(A), Charter School shall not discourage a pupil from enrolling or seeking to enroll in the charter school for any reason.

**Parent Engagement**

Charter School shall not require a parent or legal guardian of a prospective or enrolled student to perform volunteer service hours or attend an orientation event, or make payment of fees or other monies, goods, or services in lieu of performing volunteer service, as a condition of their child's admission, continued enrollment, attendance, or participation in the school's educational activities, or otherwise discriminate against a student in any manner because their parent cannot, has not, or will not provide volunteer service to Charter School.

**Admission Process**

Formal recruitment of incoming students begins each Fall semester for the following school year. The Charter School shall require students who wish to attend the Charter School to complete an application form. The Charter School will have a publicly advertised open application period each year for enrollment in the following school year. During this time, the Charter School will advertise, attend outreach events, and host open houses to inform families in the community about the opportunities and expectations for prospective students and parents/guardians. The Charter School uses a lottery application form through the Oakland Enrolls consortium website which allows parents and guardians to apply to DCA and to a number of other Oakland Charter Schools. Parents and guardians only need to complete one form and apply to multiple Charter Schools. Parents/guardians can receive direct assistance with the application process either over the phone or in person. The Charter School also includes a direct manner for parents and guardians to apply directly to DCA. The application includes the following:

- Student Name
- Parent or Guardian Name
- Email Address
- Telephone Number
- Grade Level
- Preferred Campus

**Public Random Drawing "Lottery" Description**

Applications will be accepted during a publicly advertised open enrollment period each year for enrollment in the following school year. In the event that the number of students seeking admission to any grade or class exceeds capacity, the Charter School will hold a public random drawing (or "lottery") in accordance with Education Code Section 47605(e)(2)(B), with the exception of currently enrolled students, who are guaranteed admission in the following year.

In addition to the general lottery preferences, DCA will provide a one-time admissions

preference in 2026-27 for students displaced from Oakland Charter Academy as a result of the school's closure. This preference reflects Amethod's commitment to continuity of education and ensures that families directly impacted by the closure are offered the opportunity to enroll at DCA without disruption. After the initial enrollment cycle, this temporary preference will expire, and all future lotteries will follow the standard preference order described herein.

**Admission Preferences**

Admission preferences shall be given to the following students in the following order:

1. Students experiencing homelessness, as defined under the McKinney-Vento Homeless Assistance Act
2. Year 1 (2026-27) only: Students displaced from Oakland Charter Academy due to the school's closure
3. Siblings of students admitted to or attending the Charter School
4. Students who are enrolled in the immediate prior grade level of another Amethod Public Schools charter school
5. Children of the Charter School's teachers and staff (not to exceed 10% of total enrollment)
6. Students who are currently enrolled in or who reside in the elementary school attendance area of the local public elementary school where the Charter School is located (for purposes of the SB740 Charter School Facility Grant Program)
7. Residents of the District
8. All other students

The Charter School and the District agree to adhere to the requirements related to admission preferences as set forth in Education Code Section 47605(e)(2)(B)(i)-(iv).

**Public Random Drawing "Lottery" Process**

Applications are accepted during a publicly advertised open enrollment period each year for enrollment in the following school year. Admission criteria are developed on a non-discriminatory basis. If the number of applicants exceeds the number of available spaces, a public random drawing is held in accordance with Education Code Section 47605(e)(2)(B). The application materials will specifically identify the application deadline and the date of the lottery. All applicants are also informed of the date and location of the lottery, as detailed below.

The Charter School's application process is comprised of the following steps:

1. The Charter School participates in Oakland Enrolls. The Charter School also includes a direct manner for parents and guardians to apply directly to DCA from the Charter School's website. Oakland Enrolls manages a single common application and timeline for charter schools in OUSD. Families apply online via SchoolMint for each child who is interested in attending the Charter School. Oakland Enrolls and SchoolMint organize and oversee the lottery process. The

Chief Strategy and Compliance Officer, the Principal, and the Registrar are responsible for ensuring that the lottery process is followed fairly, accurately, and in a timely manner from start to finish. Monthly meetings between Oakland Enrolls and charter representatives address lottery procedures in detail starting in September and train the employees who will be helping families through the application and enrollment process. Full accounts of the process, procedures, and updates are reported by the Registrar and Principal to the Chief Strategy and Compliance Officer.

2. Applications will be accepted during a publicly advertised open enrollment period, which occurs from November to mid-February of each year for enrollment in the following school year. The Charter School holds at least one open house and an enrollment information session during the open enrollment period. Additionally, comprehensive information on how to apply and the steps in the application and enrollment cycle are available on DCA's website and in the Charter School's front office.

3. Following the open enrollment period each year, applications shall be counted to determine whether any grade level has received more applications than availability. In the event that this happens, the Charter School will hold a public random lottery to determine admission for the impacted grade level(s), with the exception of existing students, who are guaranteed admission in the following school year.

4. The lottery will select names randomly through a computer-generated process starting with the lowest grade, taking into account admission preferences listed above, under "Admission Preferences." If there are more students in a preference category than there are spaces available, a random drawing will be held within that preference category until all available spaces are filled.

5. Open enrollment and lottery information is communicated through letters sent home, through phone, text, and email messages, and through the AMPS and DCA website. Families do not need to attend the school in-person on the day that the lottery is conducted in order to secure a spot.

6. All names will be drawn randomly to determine the students who are admitted and those who will be placed on the waitlist. The order of names drawn will determine the order of names on the waitlist.

7. At the conclusion of the lottery, students who were admitted will be notified by the Charter School Registrar, Administrative Assistant, and by text messages, phone, email, and/or mail within one week and asked to accept or decline the offer of admission usually within three weeks of notification date; this day is set by Oakland Enrolls (online, in person, by email, fax and any other means that would work for the family and school). All students who were not granted

admission due to capacity shall also be contacted and told their number on the waitlist. This waitlist will allow students the option of enrollment in the event of an opening during the current school year. No waitlist shall be carried over from one school year to the next school year.

8. Once a parent/guardian accepts the offer of admission, the Charter School contacts them so that they can submit enrollment registration forms. The Charter School's Registrar and Administrative Assistant will help any parents/guardians who need assistance in accepting the offer of admission and/or completing the registration forms. The Charter School will keep records of the lottery forms, procedures, accepted lists, and waitlists for a period of one year.

9. If a parent/guardian declines the offer of admission, that space will be offered to the next person on the waiting list, based on the order of names that was pulled from the lottery.

10. During the school year, if vacancies should arise, the Charter School will notify a parent/guardian based on the order of names that was pulled from the lottery on the waitlist to see if they would like to enroll their child. Typically, the Charter School makes separate calls on three different days as well as sending an email. If a parent/guardian does not respond after three days, they are removed from the waitlist and the next family is contacted.

**Enrollment Process**

After admission, students will be required to submit an enrollment packet, which shall include the following:

1. Student enrollment form
2. Proof of minimum age requirements (e.g., Birth Certificate)
3. Proof of Immunization
4. Home Language Survey
5. Parent Photo ID (e.g., Current CA Driver's License, Current CA State ID Card, Military ID/Orders)
6. Residency Document (e.g., Utility Bill, Lease Agreement)
7. Completion of Emergency Medical Information Form
8. Release of records[6]

[6] In accordance with Education Code Section 47605(e)(4)(B), the Charter School shall not request a pupil's records or require a parent, guardian, or pupil to submit the pupil's records to the Charter School before enrollment.

## Element 9 (Independent Financial Audits)

***"The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority." – Ed. Code § 47605(c)(5)(I)***

An annual independent financial audit of the books and records of the Charter School will be conducted as required by Education Code Sections 47605(c)(5)(I) and 47605(m). The books and records of the Charter School will be kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit will employ generally accepted accounting procedures. The audit shall be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller's K-12 Audit Guide.

The Board of Directors will select an independent auditor through a request for proposal format. The auditor will have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required under applicable federal law, the audit scope will be expanded to include items and processes specified in applicable Office of Management and Budget Circulars.

The annual audit will be completed and forwarded to the District, the County Superintendent of Schools, the State Controller, and to the CDE by the 15th of December of each year. The Chief Executive Officer, along with the audit committee, if any, will review any audit exceptions or deficiencies and report to the Charter School Board of Directors with recommendations on how to resolve them. The Board will submit a report to the District describing how the exceptions and deficiencies have been or will be resolved to the satisfaction of the District along with an anticipated timeline for the same. Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel ("EAAP") in accordance with applicable law.

The independent financial audit of the Charter School is a public record to be provided to the public upon request.

## Element 10 (Procedures by which Pupils Can Be Suspended or Expelled)

***"The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:***

***(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.***

***(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:***

***(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.***

***(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.***

***(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform the pupil, the pupil's parent or guardian, or the pupil's educational rights holder of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii)." – Ed. Code § 47605(c)(5)(J)***

**Student Due Process Protections**

Charter School's student discipline procedures, at a minimum, shall comply with federal and state constitutional procedural and substantive due process requirements as follows:

(i) For suspensions of fewer than 10 days, Charter School shall provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, Charter School shall provide both of the following:

(I) Timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

(II) A hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) No pupil shall be involuntarily removed by Charter School for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until Charter School issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).

As indicated in the affirmations included at the beginning of this petition, pursuant to Education Code section 47605(e)(4)(C), Charter School shall not encourage a pupil currently attending the charter school to disenroll from the charter school or transfer to another school for any reason. (Note: This shall not apply to actions taken by Charter School pursuant to legally permissible expulsion procedures.)

In addition to the procedures described herein, DCA shall implement its suspension and expulsion procedures in a manner that complies with applicable federal and state constitutional procedural and substantive due process requirements. DCA shall provide students and parents/guardians with notice of the alleged violation, an explanation of the evidence supporting the proposed disciplinary action, and a meaningful opportunity to be heard before a suspension or expulsion decision is imposed, except in emergency circumstances where immediate removal is necessary to protect the health or safety of students or staff.

DCA shall ensure that disciplinary decisions are based on evidence, are not arbitrary or capricious, and are proportionate to the nature of the conduct, the student's age and grade level, the surrounding circumstances, and any applicable legal protections. The Charter School shall maintain records of disciplinary incidents, provide translation or interpretation as needed, protect student confidentiality, and apply discipline policies consistently and without discrimination.

For students with disabilities or students suspected of having a disability, DCA shall comply with all applicable requirements of the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, and applicable state law, including manifestation determination requirements, consideration of behavioral supports, provision of services during removals when required, and protections related to changes in placement. DCA shall also consider whether additional supports through MTSS, COST, SST, Section 504, special education, counseling, restorative practices, or other interventions are appropriate before, during, or after disciplinary action.

**Required Notifications**

As indicated in the affirmations included at the beginning of this petition, Charter School shall comply with notification requirements included in Education Code section 47605(e)(3) for any pupil who is expelled or leaves Charter School without graduating or completing the school year for any reason, and, upon request, will provide the District with the student's last known contact information.

**Compliance with OCS Student Discipline Guidelines**

Charter School shall comply with the District's "Disciplinary and Expulsion Documentation Requirements Policy," posted on the Student Discipline page of the OUSD Office of Charter Schools website, whose terms are incorporated by reference as if set forth expressly in this Charter. The purpose of this policy is to outline the notification requirements to families and to the Office of Charter Schools.

This Student Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and wellbeing of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.* which describes the non-charter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

Consistent with this Policy, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School's policy and

procedures for student suspension and expulsion, and it may be amended from time to time without the need to seek a material revision of the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary policies and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed annually as part of the Family Handbook and will clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians[7] are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this Policy and Procedures are available on request at the Principal's office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the applicable provisions of the Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

**Compliance with AB 1360**

No student shall be involuntarily removed by the Charter School for any reason unless the parent/guardian of the student has been provided written notice of intent to remove the student no less than five (5) school days before the effective date of the

[7] The Charter School shall ensure that a homeless student or youth's educational rights holder; a foster student or youth's educational rights holder, attorney, and county social worker; and an Indian student's tribal social worker and, if applicable county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and Procedures, the term "parent/guardian" shall include these parties.

action. The written notice shall be in the native language of the student or the student's parent/guardian or, if the student is a foster student or youth or a homeless student or youth, the student's educational rights holder, and shall inform the student, the student's parent/guardian, or educational rights holder of the basis for which the student is being involuntarily removed and the student's parent/guardian, or educational rights holder's right to request a hearing to challenge the involuntary removal. If a student's parent/guardian, or educational rights holder requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions, before the effective date of the action to involuntarily remove the student. If the student's parent/guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below. Students may be involuntarily removed for reasons including, but not limited to, failure to comply with the terms of the student's independent study Master Agreement pursuant to Education Code Section 51747(c)(4).

o) Engaged in, or attempted to engage in hazing. For the purposes of this policy, "hazing" means a method of initiation or preinitiation into a student organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective student. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.

p) Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for their own safety or for their immediate family's safety, or for the protection of school property, or the personal property of the person threatened or their immediate family.

q) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to students in any of grades 6 to 8, inclusive.

r) Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in Education Code Section 233(e). This provision shall apply to students in any of grades 6 to 8, inclusive.

s) Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) rights by creating an intimidating or hostile educational environment. This provision shall apply to students in any of grades

6 to 8, inclusive.

t) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:

i. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of their age, or for a person of their age with exceptional needs) or students in fear of harm to that student's or those students' person or property.

ii. A post on a social network Internet Web site including, but not limited to:
(a) Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (1) above.
(b) Creating a credible impersonation of another actual student for the purpose of having one or more of the effects listed in subparagraph (1) above. "Credible impersonation" means to knowingly and without consent impersonate a student for the purpose of bullying the student

and such that another student would reasonably believe, or has reasonably believed, that the student was or is the student who was impersonated.

(c) Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (1) above. "False profile" means a profile of a fictitious student or a profile using the likeness or attributes of an actual student other than the student who created the false profile.

iii. An act of cyber sexual bullying.

(a) For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

u) A student who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a student who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (3)(a)-(b).

v) Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

*4.* Non-Discretionary Expellable Offenses: Students must be recommended for expulsion for any of the following acts when it is determined pursuant to the procedures below that the student:

a) Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence.

b) Brandished a knife at another person.

c) Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053, et seq.

If it is determined by the Administrative Panel and/or Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the student shall be provided due process rights of notice and a hearing as required in this policy.

The Charter School will use the following definitions:

- The term "knife" means (A) any dirk, dagger, or other weapon with a fixed, sharpened blade fitted primarily for stabbing; (B) a weapon with a blade fitted primarily for stabbing; (C) a weapon with a blade longer than 3½ inches; (D) a folding knife with a blade that locks into place; or (E) a razor with an unguarded blade.
- The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.
- The term "destructive device" means (A) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.

**C. Suspension Procedure**

Suspensions shall be initiated according to the following procedures:

*1.* ***Conference***

Suspension shall be preceded, if possible, by a conference conducted by the Principal

or the Principal's designee with the student and their parent/guardian and, whenever practical, the teacher, supervisor or the Charter School employee who referred the student to the Principal or designee.

The conference may be omitted if the Principal or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or the Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against the student and shall be given the opportunity to present their version and evidence in their defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the student waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student for failure of the student's parent or guardian to attend a conference with the Charter School officials. Reinstatement of the suspended student shall not be contingent upon attendance by the student's parent or guardian at the conference.

2. ***Notice to Parents/Guardians***

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student. In addition, the notice may also state the date and time when the student may return to school. If the Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. ***Suspension Time Limits/Recommendation for Expulsion***

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the Principal or Principal's designee, the student and the student's parent/guardian or representative will be invited to a conference to determine if the suspension for the student should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the student or the student's parent/guardian, unless the student and the student's parent/guardian fail to attend the conference.

This determination will be made by the Principal or designee upon either of the following: 1) the student's presence will be disruptive to the education process; or 2)

the student poses a threat or danger to others. Upon either determination, the student's suspension will be extended pending the results of an expulsion hearing.

4. ***Homework Assignments During Suspension***

In accordance with Education Code Section 47606.2(a), upon the request of a parent/guardian, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 8, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

**D. Authority to Expel**

A student may be expelled either by the Charter School Board of Directors following a hearing before it or by the Charter School Board of Directors upon the recommendation of an Administrative Panel, to be assigned by the Board of Directors as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the student or a member of the Charter School Board of Directors. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

**E. Expulsion Procedures**

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Principal or designee determines that the student has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all student confidentiality rules under FERPA) unless the student makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of the Charter School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at the hearing;
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.
9. A statement that the pupil's parent/guardian may request a postponement of the hearing for good cause;
10. A statement that the parent/guardian can request reasonable accommodations or language support if needed during the hearing.

**F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses**

The Hearing Officer or Administrative Panel may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer.

Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1) The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of their right to (a) receive five (5) days notice of their scheduled testimony, (b) have up to two (2) adult support persons of their choosing present in the hearing at the time the complaining witness testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2) The Charter School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.

3) At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.

4) The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5) The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.

6) Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7) If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising their discretion to remove a person from the hearing whom they believe is prompting, swaying, or influencing the witness.

8) The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.

9) Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have their testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the

threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10) Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

**G. Record of Hearing**

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

**H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have their testimony heard in a session closed to the public.

**I. Expulsion Decision**

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board of Directors, which will make a final determination regarding the expulsion. The final decision by the Board of Directors shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board of Directors is final.

If the Administrative Panel decides not to recommend expulsion or the Board ultimately decides not to expel, the student shall immediately be returned to their previous educational program.

**J. Written Notice to Expel**

The Principal or designee, following a decision of the Board of Directors to expel, shall send written notice of the decision to expel, including the Board of Directors' adopted findings of fact, to the student and the student's parent/guardian. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The Principal or designee shall send a copy of the written notice of the decision to expel to the chartering authority. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

**K. Disciplinary Records**

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the chartering authority upon request.

**L. No Right to Appeal**

The student shall have no right of appeal from expulsion from the Charter School as the Charter School Board of Directors' decision to expel shall be final.

**M. Expelled Students/Alternative Education**

Parents/guardians of students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

**N. Rehabilitation Plans**

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Board of Directors at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the student may reapply to the Charter School for readmission.

**O. Readmission or Admission of Previously Expelled Student**

The decision to readmit a student after the end of the student's expulsion term or to admit a previously expelled student from another school district or charter school who

has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board of Directors following a meeting with the Principal or designee and the student and the student's parent/guardian or representative to determine whether the student has successfully completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Principal or designee shall make a recommendation to the Board of Directors following the meeting regarding the Principal's or designee's determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The student's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission or admission to the Charter School.

**P. Notice to Teachers**

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

**Q. Notification of the School District of Residence**

Upon expelling any student, the Charter School shall notify the student's school district of residence immediately or as soon as practicable. Such notice shall include:

1. Completed expulsion documentation as required from the school district;

2. Documentation of the expulsion proceeding, including statement of specific facts supporting the expulsion and documentation that the Charter School's policies and procedures were followed;

3. Copy of parental notice of expulsion hearing;

4. Copy of expulsion notice provided to parent/guardian stating reason for expulsion, term of expulsion, rehabilitation plan, reinstatement notice with eligibility date and instructions for providing proof of student's compliance for reinstatement, appeal process, and options for enrollment.

5. If the student is eligible for special education, documentation related to expulsion in compliance with IDEA.

6. If the student is eligible for Section 504 accommodations, documentation that the Charter School conducted a manifestation determination meeting to address two questions:

    a) Was the misconduct caused by, or directly and substantially related to the student's disability?

b) Was the misconduct a direct result of the Charter School's failure to implement Section 504 Plan?

This notice will be sent to the student's district of residence. If the student is a resident of a school district other than the District, the Charter School must notify the Superintendent of the student's district of residence within thirty (30) days of the expulsion. Additionally, upon request of the receiving school district, the Charter School shall forward student records no later than ten (10) school days from the date of the request as stated in Education Code Section 49068(b).

**R. Outcome Data**

The Charter School shall gather and maintain all data related to placement, tracking, and monitoring of student suspensions, expulsions, and reinstatements, and make such outcome data readily available to the County upon request.

**S. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities**

1. Notification of SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the student's IEP/Section 504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alterative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a student with a disability because of a violation of a code of student conduct, the Charter School, the parent/guardian, and relevant members of the IEP/Section 504 Team shall review all relevant information in the student's file, including the student's IEP/Section 504 Plan, any teacher observations, and any relevant information provided by the parents/guardians to determine:

a. If the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; or

b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/Section 504 Plan.

If the Charter School, the parent/guardian, and relevant members of the IEP/Section 504 Team determine that either of the above is applicable for the student, the conduct shall be determined to be a manifestation of the student's disability.

If the Charter School, the parent/guardian, and relevant members of the IEP/Section 504 Team make the determination that the conduct was a manifestation of the student's disability, the IEP/Section 504 Team shall:

a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such student, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the student already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

c. Return the student to the placement from which the student was removed, unless the parent/guardian and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent/guardian, and relevant members of the IEP/Section 504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/Section 504 Plan, then the Charter School may apply the relevant disciplinary procedures to students with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent/guardian of a student with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or the Charter School, the student shall remain in the interim alternative educational setting pending

the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent/guardian and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the student is substantially likely to result in injury to the student or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a student with a disability to the placement from which the student was removed; or (2) order a change in placement of a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or to others.

5. Special Circumstances

The Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;

b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/Section 504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to

IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to the Charter School supervisory or administrative personnel, or to one of the student's teachers, that the student is in need of special education or related services.

b. The parent/guardian has requested an evaluation of the student.

c. The student's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEIA-eligible students with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

## Element 11 (Employee Retirement Systems)

***"The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security." – Ed. Code § 47605(c)(5)(K)***

**Benefits**

Mandatory benefits, such as workers compensation, unemployment insurance, Medicare, and social security will be provided by Amethod Public Schools. Health, dental, vision, and related benefits will also be provided to all full-time employees at the cost of the school. Amethod Public Schools will purchase health, dental, and vision insurance for employees.

The AMPS organization believes in investing in and retaining staff and as such has an established 401(k) retirement program with a matching commitment and vesting schedule for every participating employee. Additionally, Amethod Public Schools also provides employees with access to a Flexible Benefit Plan that allows all employees access to a Flexible Spending Account (FSA), Dependent Care Flexible Spending Account, Studentcare benefits, and Commuter benefit Plans on a tax-free basis.

All Amethod Public School employees are covered by the Federal Social Security. The Payroll and Human Resources departments at AMPS shall be responsible for ensuring that appropriate arrangements for retirement coverage are made for all employees.

## Element 12 (Student Attendance Alternatives)

***"The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools." – Ed. Code § 47605(c)(5)(L)***

Pupils who choose not to attend the Charter School may choose to attend other public schools in their district of residence or pursue inter-district transfers in accordance with existing enrollment and transfer policies of the District. Parents or guardians of each pupil enrolled in the Charter School shall be informed that the pupil has no right to admission in a particular school of any local educational agency (LEA) (or program of any LEA) as a consequence of enrollment in the Charter School, except to the extent that such a right is extended by the District.

Students of all Amethod Public School campuses are free to attend the existing local district schools rather than our schools. No student may be required to attend the Charter School. Students may wish to seek inter-district attendance alternatives in accordance with OUSD policy; however, DCA does not have any jurisdiction of any OUSD school policies or programs. All students have the same right to apply for admission to DCA.

The parent or guardian of each student enrolled in the charter school shall be informed on admission forms that the student has no right to admission in a particular school of any local educational agency (or program of any local educational agency) as a consequence of enrolling in the Charter School, except to the extent that such a right is extended by the local educational agency.

Students who choose not to attend our schools or who leave the school have the option to attend OUSD public schools in accordance with District enrollment and transfer policies. The Charter School will transfer student records to and from appropriate schools as necessary.

## Element 13 (Employee Rights of Return)

***"The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school." – Ed. Code § 47605(c)(5)(M)***

Employees of the District who choose to leave the employment of the District to work at Charter School shall have no automatic rights of return to the District after employment at Charter School unless specifically and explicitly granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District. Leave and return rights for District union-represented employees and former employees who accept employment with Charter School, if any, will be administered in accordance with applicable collective bargaining agreements and any applicable judicial rulings.

No public school district employee shall be required to work at the Charter School. The Charter School employees shall have any right upon leaving the District to work in the Charter School that the District may specify, any rights of return to employment in a school district after employment in the Charter School that the District may specify, and any other rights upon leaving employment to work in the Charter School that the District determines to be reasonable and not in conflict with any law.

All employees of the Charter School will be considered the exclusive employees of the Amethod Public Schools and not of the District, unless otherwise mutually agreed in writing. Sick or vacation leave or years of service credit at the District or any other school district will not be transferred to the Charter School. Employment by the Charter School provides no rights of employment at any other entity, including any rights in the case of closure of the Charter School.

## Element 14 (Dispute Resolution)

***"The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter." – Ed. Code § 47605(c)(5)(N)***

**Procedures for Complaints against Charter School**

Charter School will establish complaint procedures as required by 5 CCR §4600 *et seq*. The complaint procedures shall address both complaints against the Charter School alleging discrimination or violations of law and complaints regarding other areas. Charter School will ensure that its complaint processes are fair and accessible for families. Charter School will not, at any time, refer such complaints to the District for handling.

The complaint procedures will include the clear information with respect to the response timeline of the school, whether the school's response will be in writing, the party identified to respond to complaints, the party identified and charged with making final decisions regarding complaints, and whether the final decision will be issued in writing. The procedures will also identify an impartial and neutral ombudsperson for situations in which the school leader is the subject person of the complaint or the ombudsperson has a perceived bias. If the complainant requests an alternate ombudsperson, Charter School shall have a procedure for reviewing the request and responding to the complainant with the findings of the review, and either (a) identifying an alternate ombudsperson, or (b) providing a rationale for why an alternate ombudsperson is not necessary. The complaint procedures will be clearly articulated in the school's student and family handbook or distributed widely.

Charter School will designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under Title IX of the Education Amendments of 1972 (Title IX) and Section 504 of the Rehabilitation Act of 1973 (Section 504) including any investigation of any complaint filed with Charter School alleging its noncompliance with these laws or alleging any actions which would be prohibited by these laws. Charter School will notify all its students and employees of the name, office address, and telephone number of the designated employee or employees.

Charter School shall comply with the requirements of Education Code section 221.61 with respect to posting information regarding the filing complaints under Title IX, including but not limited to the following: 1) the name and contact information of the Title IX coordinator; 2) the rights of the pupil and the public and the responsibilities of the Charter School under Title IX; 3) a description of how to file a complaint under Title IX, including an explanation of the statute of limitations, how the complaint will be investigated and how the complainant may further pursue the complaint; and a link to the United States Department of Education Office for Civil rights complaint form.

Charter School will implement specific and continuing steps to notify applicants for admission and employment, students and parents of elementary and secondary school students, employees, sources of referral of applicants for admission and employment, and all unions or professional organizations holding collective bargaining or professional agreements with the recipient, that it does not discriminate on the basis of sex or mental or physical disability in the educational program or activity which it operates, and that it is required by Title IX and Section 504 not to discriminate in such a manner.

**Complaints by Students and Employees**

Charter School will adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any action, which would be prohibited by Title IX, or Section 504.

**Disputes between the District and the Charter School**

The staff and Governing Board members of Charter School agree to attempt to resolve all disputes between the District and Charter School regarding this Charter pursuant to the terms of this section. Both will refrain from public commentary regarding any disputes until the matter has progressed through the dispute resolution process.

Any controversy or claim arising out of or relating to the Charter between the District and Charter School, except any controversy or claim that in any way related to revocation of this Charter, shall be handled first through an informal process in accordance with the procedures set forth below.

(1) Any controversy or claim arising out of or relating to the Charter, except any controversy or claim that in any way related to revocation of the Charter, must be put in writing ("Written Notification") by the party asserting the existence of such dispute. If the substance of a dispute is a matter that could result in the taking of appropriate action, including, but not limited to, revocation of the charter in accordance with Education Code section 47607(f), the matter will be addressed at the District's discretion in accordance with that provision of law and any regulations pertaining thereto. The Written Notification must identify the nature of the dispute and all supporting facts known to the party giving the Written Notification. The Written Notification may be tendered by personal delivery, mail, or electronic mail. The Written Notification, and all subsequent notifications under this procedure, shall be deemed received (a) if personally delivered, or sent by electronic mail, upon date of delivery to the address of the person to receive such notice if received by the District by 5:00 PM; (b) if by mail, two (2) business days after deposit in the U.S. Mail. All written notices shall be addressed as follows:

To Downtown Charter Academy
c/o Jillianne Whitefield, Principal

2000 Dennison Street
Oakland, CA 94606

To Director, Office of Charter Schools:
1011 Union Street #947
Oakland, CA 94607

(2) A written response ("Written Response") shall be tendered to the party providing the Written Notification within twenty (20) business days from the date of receipt of the Written Notification. The Written Response shall state the responding party's position on all issues stated in the Written Notification and set forth all facts which the responding party believes supports its position. The Written Response may be tendered by personal delivery, mail, or electronic mail.

The parties agree to schedule a conference to discuss the claim or controversy ("Issue Conference"). The Issue Conference shall take place within fifteen (15) business days from the date the Written Response is received by the other party.

(3) If the controversy, claim, or dispute is not resolved by mutual agreement at the Issue Conference, then either party may request that the matter be resolved by mediation. Each party shall bear its own costs and expenses associated with the mediation. The mediator's fees and the administrative fees of the mediation shall be shared equally among the parties. Mediation proceedings shall commence within 60 calendar days from the date of the Issue Conference. The parties shall mutually agree upon the selection of a mediator to resolve the controversy or claim at dispute. If no agreement on a mediator is reached within 30 days after a request to mediate, the parties will use the processes and procedures of the American Arbitration Association ("AAA") to have an arbitrator appointed.

(4) If the mediation is not successful, the parties agree that each party has exhausted its administrative remedies and shall have any such recourse available by law.

**Intent**

The goal of this dispute resolution process is to:

(1) Resolve disputes within the school in accordance with the school's adopted policies,
(2) Minimize the oversight burden on OUSD,
(3) Ensure a fair and timely resolution to disputes and
(4) Frame a charter oversight and renewal process and timeline as to avoid disputes regarding oversight and renewal matters.

Should any section of this Element pertaining to resolving disputes, be in conflict with District policies or desired protocols, then the Charter School is amenable to altering

said areas through the Memorandum of Understanding process to be mutually agreed upon.

**Public Comments**

The Charter School's staff, Governance Board members, and the District agree to attempt to resolve all disputes regarding this charter pursuant to the terms of this section. All parties shall refrain from public commentary regarding any disputes until the matter has progressed through the stated dispute resolution process.

**Disputes Arising From Within the School**

Disputes arising from within the school, including all disputes within and among students, staff, parents, guardians, volunteers, advisors, partner organizations, and AMPS Board of Directors shall be resolved by policies and processes developed by the Charter School.

The District shall not intervene in any such internal disputes without the consent of the Amethod Governance Board, and OUSD shall refer any complaints or reports regarding such disputes to the Amethod Governing Board or Chief Executive Officer for resolution pursuant to the Charter School's policies. OUSD agrees not to intervene or become involved in dispute unless evidence has been presented that some violation of this charter or related laws or agreements exists, or unless the Amethod Governing Board requests that OUSD intervene. In such cases, OUSD will provide written notification of such matters to the Chief Executive Officer and Amethod Public Schools Board President.

AMPS maintains a general complaint policy, as well as Uniform Complaint Policy and Procedures and Title IX complaint procedures, as required by state and federal law, respectively. AMPS will not, at any time, refer complaints regarding the Charter School to the District.

The Charter School's complaint procedures will include clear information with respect to the response timeline of the Charter School, whether the Charter School's response will be in writing, the party identified to respond to complaints, the party identified and charged with making final decisions regarding complaints, and whether the final decision will be issued in writing. The procedures will also identify an ombudsperson for situations in which the Chief Executive Officer is the subject of the complaint. The complaint procedures will be clearly articulated in the Charter School's Student and Family Handbook and Personnel Handbook. Parents/Guardian, students, Board members, volunteers, and staff at the Charter School shall be provided with a copy of the Charter School's policies and internal dispute resolution process.

4. Charter School must update all student records in the California Longitudinal Pupil Achievement Data System (CALPADS) prior to closing.

6. Charter School shall provide to the responsible person(s) designated by the governing board of Charter School to conduct all closure-related activities a list of students in each grade level and, for each student, a list of classes completed and the student's district of residence.

Financial Close-Out

After receiving notification of closure, the CDE may notify Charter School and the authorizing entity of any liabilities Charter School owes the state, which may include overpayment of Local Control Funding Formula and select apportionments, start up grants, or other liabilities. The CDE may ask the County Office of Education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

Charter School shall ensure completion of an independent final "closeout audit" within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.

2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.

This audit may serve as Charter School's annual audit, if so permitted by the California Department of Education, California State Controller, and/or the State Superintendent of Public Instruction.

Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not OUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds or other special education funding will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budget
2. Local control and accountability plan and annual updates
3. Interim financial reports
4. Second interim financial reports
5. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. If Charter School chooses to submit this information before the forms and software are available for the fiscal year, alternative forms can be used if they are approved in advance by the CDE. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

Disposition of Liabilities and Assets

The closeout audit shall identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the Charter School's governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District's personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.
2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.

3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.

4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.

5. The submission of an inventory of equipment log in coordination with the charter school's independent auditor about the proper procedures for liquidating the assets, consistent with federal regulations. The inventory log shall include:

    a. Name and contact of person(s) handling the liquidation;

    b. Each item in excess of $500 (computers, laptops, printers, and other equipment);

    c. An identification number that corresponds to a tag on that item;

    d. The cost of the item and whom/where/date of the item that was donated/sold.

If Charter School is operated by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School's governing board shall adopt a plan for closure of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide OUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:

1. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

2. Make final federal tax payments (employee taxes, etc.)

3. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including, but not limited to, final tax returns and forms (e.g. Form 990 and related Schedules).

This Element 15 shall survive the revocation, nonrenewal, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School's authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

## Additional Provisions

The policy shall protect Charter School and OUSD in the same manner as though each were separately issued. Nothing in said policy shall operate to increase the Insurer's liability as set forth in the policy beyond the amount or amounts shown or to which the Insurer would have been liable if only one interest were named as an insured.

Charter School shall notify all parties with whom it enters into a contract that the District is a separately legal entity and is not responsible for performing any of the Charter School's obligations under the contract, including payment for services.

Special Education Revenue Adjustment/Payment for Services

In the event that Charter School owes funds to the District for the provision of agreed upon or fee for service or special education services or as a result of the State's adjustment to allocation of special education revenues from Charter School, Charter School authorizes the District to deduct any and all of the in lieu property taxes that Charter School otherwise would be eligible to receive under section 47635 of the Education Code to cover such owed amounts. Charter School further understands and agrees that the District shall make appropriate deductions from the in lieu property tax amounts otherwise owed to Charter School. Should this revenue stream be insufficient in any fiscal year to cover any such costs, Charter School agrees that it will reimburse the District for the additional costs within forty-five (45) business days of being notified of the amounts owed.

The Charter School's financial statements, proposed budgets, projections, expenditures, and cashflow shall include the Charter School's anticipated expenditures for special education services, including any projected funding received for special education services, the average cost per pupil of providing special education services, and the extent to which the Charter School projects that it will have to incur special education expenditures from its unrestricted general fund revenues. If the Charter School does not belong to a SELPA as an LEA, it must also provide its projected equitable contribution to Districtwide special education costs.

Audit and Inspection of Records

The District hereby reserves the right, pursuant to its oversight responsibility, and Education Code section 47604.3, to audit Charter School's books, records, data, processes and procedures through the Office of Charter Schools, or in coordination with FCMAT, or in coordination with a mutually agreed upon third party. The audit may include, but is not limited to, the following areas:

- Governance policies, procedures and history,
- The recording and reporting of attendance data,

Charter School shall cooperate fully with such audits and shall make available any and all records necessary for the performance of the audit upon 30 business days' notice to Charter School. In extreme circumstances when 30 business days' notice may defeat the purpose of the audit, the District may conduct the audit upon 24 hours' notice.

In addition, if an allegation of waste, fraud, or abuse of power related to Charter School operations is received by the District, Charter School shall be expected to cooperate with any investigation undertaken by the Office of Charter Schools.

The District Board of Education, the District, its officers and employees shall be named an additional insured on the general liability insurance that AMPS maintains for the operation of DCA. AMPS will provide evidence of the above insurance coverage to the District. The District shall be notified in writing 10 days prior to cancellation of insurance.

AMPS will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

Pursuant to Education Code Section 47613(f), "revenue of the charter school" is defined as the amount received in the current fiscal year from the Local Control Funding Formula calculated pursuant to Education Code Section 42238.02, as implemented by Education Code Section 42238.03.

## Administrative Services

***Governing Law: "The manner in which administrative services of the school are to be provided." Education Code Section 47605(h).***

The Chief Executive Officer will assume the lead role and responsibility for administering the Charter School under the policies adopted by the Board and securing any administrative services that AMPS finds advantageous to outsource to third parties.

AMPS will outsource some of these functions to an appropriately, qualified third-party contractor, such as Charter Impact, who specializes in implementing school business practices and has the expertise to carry out these administrative functions. The Chief Executive Officer oversees the work of the business services company, which handles all back-office business functions, including accounts payable/receivable, general accounting, payroll, and insurance and benefits administration. The company works with the Charter School to ensure that all reporting is submitted accurately and in a timely way, including all government financial reporting, attendance reporting, and payroll/benefits reporting. The company also assists AMPS staff and Board on business issues that arise during the year, financial modeling of programs, and others. The company helps the Chief Executive Officer and the Board create and monitor the annual budget and provides monthly financials, cash flow projections and analyses. Charter Impact has worked with the Board and staff to establish appropriate fiscal controls, consistent with industry practice, such as distributed responsibilities related to invoice and check signing approvals and careful cash management policies. AMPS and Charter Impact shall provide timely submissions of calendared items by respective due dates and requests for information.

The cost of these services are shared by DCA and the other LEAs that AMPS operates via a cost sharing mechanism that is approved by the AMPS' Board on an annual basis. Such costs will be reviewed by the Board annually to determine whether the costs are comparable to that which is typical at other charter school operators and reasonable relative to the cost that the Charter School would otherwise incur to secure similar services elsewhere.

At any time, the Charter School may discuss the possibility of purchasing administrative services from the District or County. If the District or County is available and willing to provide such services, the specific terms and cost for these services will be the subject to a Memorandum of Understanding between the Charter School and the District or the County, or other mutually agreeable contract.

The facility leased by the Charter School is the size and suitability to support a student enrollment of 330 students and the staff. Any school facilities leased by AMPS shall comply with federal, state, and local building and zoning regulations as applicable to Charter Schools.

Nothing in this Section shall be interpreted to be a waiver of the Charter School's right to request facilities pursuant to Education Code Section 47614 ("Prop 39"). At this time, there is no intent to request facilities from the District.

## Potential Civil Liability Effects

***Potential civil liability effects, if any, upon the charter school and upon the school district. Education Code Section 47605(h)***

The Charter School shall be operated by a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

Pursuant to Education Code Section 47604(d), an authority that grants a charter to a charter school operated by or as a non-profit public benefit corporation shall not be liable for the debts or obligations of the Charter School or for claims arising from the performance of acts, errors or omissions by the Charter School if the authority has complied with all oversight responsibilities required by law. The Charter School shall work diligently to assist the District in meeting any and all oversight obligations under the law, including monthly meetings, reporting, or other District-requested protocol to ensure the District shall not be liable for the operation of the Charter School.

Further, the Charter School and the District shall enter into a memorandum of understanding, wherein the Charter School shall indemnify the District for the actions of the Charter School under this charter.

## Conclusion

By approving this charter renewal petition, Oakland Unified School District will be fulfilling the intent of the Charter Schools Act to improve student learning; increase learning opportunities for all students with special emphasis on expanded learning opportunities for all students who are identified as academically low performing; create new professional opportunities for teachers; and provide parents/guardians and students with expanded choices in education and following the directive of law to encourage the creation of viable school models for residents and families of Oakland Unified School District. By approving this charter renewal petition, the District will be considering DCA's schoolwide and student subgroup performance on the state and local indicators on the California School Dashboard including academic achievement in ELA, academic achievement in math, and EL progress. In regard to the community impact, DCA is a well-established Charter School that has been serving students in Richmond since 2017 so it will not substantially undermine existing District services, academic or program offerings. The Petitioner looks forward to DCA's continued

autonomous operation, pursuant to rigorous standards of accountability, while also working cooperatively with the District. To this end, DCA pledges to work collaboratively with the District to address any concerns regarding this document, or any aspect of AMPS's program, in furtherance of its petition to renewal of DCA's charter for another five (5) year term from July 1, 2027 through and including June 30, 2032.

Campus Search and Seizure

The Charter School recognizes and has determined that the occurrence of incidents which may include the possession of firearms, weapons, alcohol, controlled substances, or other items of contraband prohibited by law or Charter School rules and regulations, jeopardizes the health, safety and welfare of students and Charter School employees.

The California Constitution requires that all students and staff of public schools have the inalienable right to attend campuses which are safe, secure, and peaceful. As such, Charter School has adopted a Policy outlining the reasonable search of students and their property, student use areas, and/or student lockers and the seizure of illegal, unsafe, unauthorized or contraband items and materials through a search based upon reasonable suspicion.

Student lockers, including P.E. lockers are school property and remain at all times under the control of the Charter School. Students shall assume full responsibility for the security of their lockers. Student lockers may not be used to store illegal, unauthorized, or contraband materials. The acceptance and use of locker facilities on school campus by any student shall constitute consent by the student to the search of such locker facilities by authorized school personnel and/or law enforcement. Inspections of lockers may be conducted by school personnel and/or law enforcement through the use of trained dogs.

A student's personal cell phone, smartphone, or other personal electronic device shall not be searched by school officials without a warrant, the student's consent, or a legitimate emergency, unless the device is lost or abandoned. An emergency is any *situation involving danger of death or serious physical injury to any person, that requires access to the information located or reasonably believed to be located on the electronic device.* If the Charter School has a good faith belief that the device is lost, stolen, or abandoned, the Charter School may only access electronic device

information in order to attempt to identify, verify, or contact the owner of the device.

The Charter School is not prohibited from seizing/confiscating a student's personal electronic device, without searching its contents, if the student's use or possession of the private electronic device is in violation of Charter School rules or regulations.

    - The name of the organization or affiliation of each guest speaker
- Request a copy of Education Code sections 51930 through 51939.

Anonymous, voluntary, and confidential research and evaluation tools to measure students' health behaviors and risks (including tests, questionnaires, and surveys containing age-appropriate questions about the student's attitudes concerning or practices relating to sex) may be administered to students in grades 7-12. A parent or guardian has the right to excuse their child from the test, questionnaire, or survey through a passive consent ("opt-out") process. Parents or guardians shall be notified in writing that this test, questionnaire, or survey is to be administered, given the opportunity to review the test, questionnaire, or survey if they wish, notified of their right to excuse their child from the test, questionnaire, or survey, and informed that in order to excuse their child they must state their request in writing to the Charter School.

A student may not attend any class in comprehensive sexual health education or HIV prevention education, or participate in any anonymous, voluntary, and confidential test, questionnaire, or survey on student health behaviors and risks, if the Charter School has received a written request from the student's parent or guardian excusing the student from participation. The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder. The Involuntary Removal Notice shall include the charges against the student and an explanation of the student's basic rights including the right to request a hearing before the effective date of the action. The hearing shall be consistent with the Charter School's expulsion procedures. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the Charter School's suspension and expulsion policy.

If as a result of the hearing the student is disenrolled, notice will be sent to the student's last known school district of residence within thirty (30) days.

A hearing decision not to disenroll the student does not prevent the Charter School from making a similar recommendation in the future should student truancy continue or reoccur.

Nondiscrimination Statement

The Charter School does not discriminate against any person on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, immigration status, religion, religious affiliation, sexual orientation, pregnancy, or any other characteristic that is contained in the definition of hate crimes in the California Penal Code.

Discriminatory bias in instruction and school-sponsored activities does not require a showing of direct harm to members of a protected group. Members of a protected group do not need to be present while the discriminatory bias is occurring for the act to be considered discriminatory bias. The Board shall take corrective action if it finds that instruction or school-sponsored activities are discriminatory.
The Board shall not adopt or approve the use of any textbook, instructional material, supplemental instructional material, professional development materials, or curriculum for classroom instruction if the use of such would subject a student to unlawful discrimination pursuant to Education Code section 220, or if the professional development materials or services promote, endorse, or

otherwise support actions or the use of any textbook, instructional material, supplemental instructional material, or curriculum which would subject a pupil to unlawful discrimination pursuant to Section 220.

If the Board knows or has reason to know that materials were used in a classroom, that professional development materials or services were used, or that an action occurred that violated Education Code section 220, the Board shall investigate and remediate the action, which may include, but is not limited to, the implementation of restorative justice practices.

Notice Of Policy Regarding Immigration Enforcement Activity

Important: This notice summarizes our Policy Regarding Immigration Enforcement Activity. The complete policy is available in the main office and on the AMPS website: https://www.amethodschools.org/apps/pages/index.jsp?uREC_ID=376642&type=d&termREC_ID=&pREC_ID=1201064

Our COMMITMENT TO ALL STUDENTS
We provide a safe, welcoming environment for all students regardless of immigration status or religious beliefs. We limit immigration enforcement activities at our facilities consistent with California law.

YOUR RIGHTS AND PROTECTIONS
Non-Discrimination: We prohibit discrimination, harassment, intimidation, and bullying based on immigration status, nationality, race, ethnicity, citizenship status, religion, national origin, or ancestry. We promptly investigate all complaints and take appropriate action.

Enrollment: We do not request citizenship or immigration documentation for enrollment, other than documents we might review but not retain to establish a child's birthdate. We accept various documents to establish residence (utility bills, rental agreements, pay stubs, declarations of residency) and age (birth certificates, baptism certificates, passports, or affidavits). Students experiencing homelessness may enroll even without typical documentation if otherwise eligible.

Privacy of Information: We do not collect or maintain information about students' or families' citizenship or immigration status except when required by law for specific education programs. If we do, we collect such information separately from enrollment and do not use it to discriminate or prevent school attendance.

Social Security Numbers: We do not require Social Security numbers for enrollment. We may request the last four digits of an adult household member's number only to establish eligibility for free or reduced-price meals. Students can still qualify without providing this information if they meet income requirements.

INFORMATION SHARING LIMITS

We do not share student information that might indicate immigration or citizenship status unless authorized by the Family Educational Rights and Privacy Act (FERPA) or required by valid court orders, warrants, or subpoenas. We provide parents notice before responding to such requests (except in child abuse cases or when prohibited).

Immigration Enforcement Officers: Without written parental consent, we do not provide student information to immigration enforcement officers unless they present a valid judicial warrant, judicial subpoena, or court order signed by a judge. ICE administrative warrants do not authorize access to nonpublic school areas or student information.

CAMPUS ACCESS PROCEDURES

Immigration enforcement officers carrying out immigration enforcement activities may not enter nonpublic school areas without a valid judicial warrant or court order. In the event of an enforcement activity authorized by a judicial order, our staff will:

- Request credentials and documentation from any officer
- Contact the school site administrator before granting access
- Request that officers not interrupt instruction
- Document all interactions and notify parents, staff, and students pursuant to the procedures outlined in our Comprehensive School Safety Plan
- Report attempts to access campus or students to the California Department of Justice and to the Charter School Board of Directors

ANTI-BULLYING AND HATE CRIMES

We educate students about respecting all peers and the harmful effects of bullying based on protected characteristics. We train staff to eliminate hostile environments and respond to harassment. Students who experience hate crimes have the right to report them. Review our complete Harassment, Discrimination, Intimidation, & Bullying Policy and Uniform Complaint Procedures in the main office.

SUPPORT FOR FAMILIES

Emergency Contacts: You may update your student's emergency contact information anytime. We encourage you to include a trusted adult or multiple adults who can care for your child if you become unavailable. We use this information only for emergencies.

Caregivers Authorization Affidavit: We encourage families to support relative caregivers in completing a Caregivers Authorization Affidavit. We will rely on a signed, completed Affidavit to allow an authorized caregiver to enroll a student in school and to consent to school-related medical care. A parent's signature is not required on the Caregiver Authorization Affidavit. This form is available HERE.

If Parents Are Detained: We release students to emergency contacts or anyone with a Caregiver's Authorization Affidavit. We contact child protective services only if we cannot arrange care through provided contacts.

Family Safety Plans: We encourage families to develop safety plans identifying trusted adults who can care for students and locations of important documents (birth certificates, passports, medical information).

Telephone: (510) 436-0172

Only complaints regarding pupil fees, LCAP , or noncompliance with Education Code section 243 or 244 may be filed anonymously and only if the anonymous complainant provides evidence or information leading to evidence to support an allegation of noncompliance with the respective applicable laws.

Complaints alleging unlawful discrimination, harassment, intimidation, or bullying, must be filed

within six (6) months from the date the alleged discrimination, harassment, intimidation, or bullying, occurred or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation, or bullying. All other complaints under the UCP shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which the Charter School's Board of Directors approved the LCAP or the annual update was adopted by the Charter School.

The Compliance Officer responsible for investigating the complaint shall conduct and complete the investigation in accordance with California regulations and the Charter School's UCP Policy. The Compliance Officer shall provide the complainant with a final written investigation report ("Decision") within sixty (60) calendar days from the Charter School's receipt of the complaint. This sixty (60) calendar day time period may be extended by written agreement of the complainant.

The complainant has a right to appeal the Charter School's Decision to the California Department of Education ("CDE") by filing a written appeal within thirty (30) calendar days of the date of the Charter School's written Decision, except if the Charter School has used its UCP to address a complaint that is not subject to the UCP requirements. The appeal must include a copy of the complaint filed with the Charter School, a copy of the Charter School's Decision, and the complainant must specify and explain the basis for the appeal of the Decision, including at least one of the following:

1. The Charter School failed to follow its complaint procedures.
2. Relative to the allegations of the complaint, the Charter School's Decision lacks material findings of fact necessary to reach a conclusion of law.
3. The material findings of fact in the Charter School's Decision are not supported by substantial evidence.
4. The legal conclusion in the Charter School's Decision is inconsistent with the law.
5. In a case in which the Charter School's Decision found noncompliance, the corrective actions fail to provide a proper remedy.

A complainant who appeals the Charter School's Decision on a UCP complaint to the CDE shall receive a written appeal decision within sixty (60) calendar days of the CDE's receipt of the appeal, unless extended by written agreement with the complainant or the CDE documents exceptional circumstances and informs the complainant.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision.

If Charter School fails to issue an investigation report within the required sixty (60) calendar day timeline, a party to a written complaint of prohibited discrimination may appeal directly to the SSPI. The complaint must provide evidence supporting the basis for direct filing and explain why immediate action is necessary.

Complaints alleging noncompliance with Education Code section 243 or 244 may be filed with the SSPI directly, and the SSPI may directly intervene without waiting for an investigation by the Charter School. The complainant shall present the SSPI with evidence that supports the basis for

the direct filing and why immediate action is necessary.

If a UCP complaint is filed directly with the CDE and the CDE determines that it merits direct intervention, the CDE shall complete an investigation and provide a written decision to the complainant within sixty (60) calendar days of receipt of the complaint, unless the parties have agreed to extend the timeline or the CDE documents exceptional circumstances and informs the complainant.

If the Charter School finds merit in a UCP complaint, or the CDE finds merit in an appeal, the Charter School shall take corrective actions consistent with the requirements of existing law that will provide a remedy to the affected student and/or parent/guardian as applicable.

A complainant may pursue available civil law remedies outside of the Charter School's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. Complainants alleging a violation of Education Code section 220, 243, 244, 51500, 51501, may seek civil remedies after sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the Charter School has appropriately, and in a timely manner, apprised the complainant of the complainant's right to file a complaint in accordance with 5 C.C.R. § 4622.

A copy of the UCP shall be available upon request free of charge in the main office. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the Chief Executive Officer.

Lost or Damaged School Property

If a student willfully damages the Charter School's property or the personal property of a Charter School employee, or fails to return a textbook, library book, computer/tablet or other Charter School property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct not to exceed ten thousand dollars ($10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, the Charter School may withhold the student's grades, transcripts, and high school diploma, until the damages have been paid. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades, transcripts, and high school diploma will be released.

Student Records, including Records Challenges and Directory Information, and CCGI Notice

The Family Educational Rights and Privacy Act ("FERPA") affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within five (5) business days after the day the Charter School receives a request for access. Parents or eligible students should submit to the Charter School Chief Executive Officer or designee a written request

that identifies the records they wish to inspect. The Charter School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the Charter School to amend a record should write the Charter School's Chief Executive Officer or designee, clearly identify the part of the record they want changed and specify why it should be changed. If the Charter School decides not to amend the record as requested by the parent or eligible student, the Charter School will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. If the Charter School decides to amend the record as requested by the parent or eligible student, the Chief Executive Officer must order the correction or the removal and destruction of the information and inform the parent or eligible student of the amendment in writing.

3. The right to provide written consent before the Charter School discloses personally identifiable information ("PII") from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to Charter School officials with legitimate educational interests. A Charter School official is a person employed by the Charter School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the Charter School's Board of Directors. A Charter School official also may include a volunteer, consultant, vendor, or contractor outside of the Charter School who performs an institutional service or function for which the Charter School would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist, or contracted provider of digital educational platforms and/or services; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another Charter School official in performing their tasks. A Charter School official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

Upon request, the Charter School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled, if the disclosure is for purposes of the student's enrollment or transfer.

Note that Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Charter School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Student Privacy Policy Office
U.S. Department of Education
400 Maryland Avenue, SW Washington, DC 20202

5. The right to request that the Charter School not release student names, addresses and telephone listings to military recruiters or institutions of higher education without prior written parental consent.

FERPA permits the disclosure of PII from student's education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to Charter School officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the Charter School to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A Charter School may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student to the following parties:

1. Charter School officials who have a legitimate educational interest as defined by 34 C.F.R. Part 99;
2. Other schools to which a student seeks or intends to enroll so long as the disclosure is for purposes related to the student's enrollment or transfer. When a student transfers schools, the Charter School will mail the original or a copy of a student's cumulative file to the receiving district or private school within ten (10) school days following the date the request is received from the public school or private school where the student intends to enroll. The Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at the parent's or eligible student's last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, the Charter School will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for hearing;
3. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;
4. Appropriate parties in connection with a student's application for, or receipt of, financial aid if it is necessary to determine eligibility, amount of aid, conditions for aid or enforcing the terms and conditions of the aid;

6. Accrediting organizations in order to carry out their accrediting functions;
7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1986;
8. Individuals or entities, in compliance with a judicial order or lawfully issued subpoena. Subject to the exceptions found in 34 C.F.R. § 99.31(a)(9)(i), reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance, so that the parent or eligible student may seek a protective order;
9. Persons who need to know in cases of health and safety emergencies;
10. State and local authorities, within a juvenile justice system, pursuant to specific State

The disclosure may only include the final results of the disciplinary proceedings conducted by the Charter School with respect to that alleged crime or offense. The Charter School discloses the final results of the disciplinary proceeding regardless of whether the Charter School concluded a violation was committed.

"Directory Information" is information that is generally not considered harmful or an invasion of privacy if released. The Foster and Mobile Youth Liaison's responsibilities include but are not limited to the following:

1. Ensuring and facilitating the proper educational placement, enrollment in school, and checkout from school of foster children.
2. Assisting foster children when transferring from one school to another school in ensuring proper transfer of credits, records and grades.

School Stability: The Charter School will work with foster youth and their parent/guardian to ensure that each student is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not necessarily limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children and children of military families have the right to remain in their school of origin if it is in their best interest. The Charter School will immediately enroll a foster youth, currently migratory child or child of a military family seeking re enrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). If a dispute arises regarding a foster youth's request to remain in the Charter School as the school of origin, the foster youth has the right to remain in the Charter School pending the resolution of the dispute. The Charter School will also immediately enroll any foster youth, currently migratory child or child of a military family seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g. producing medical records or academic records from a previous school).

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the child's status as a foster youth, currently migratory child or child of a military family, as follows:

1. For students in Kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the Charter School operates an intersession program, Charter School shall grant priority access to foster youths. Notwithstanding any other law, if the foster youth will be moving during an intersession period, the pupil's educational rights holder, or Indian custodian in the case of an Indian child, shall determine which school the pupil attends for the intersession period, if applicable. "Intersession program" means an expanded learning program offered by the Charter School on non school days, including, but not limited to, summer school. "Indian custodian" is as the term is defined in Section 1903 of Title 25 of the United States Code.

High School Graduation Requirements: Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and newcomer pupils who are in their third or fourth year of high school, shall be exempt from any of the Charter

School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, the length of the student's school enrollment, or, for students with significant gaps in school attendance, the student's age as compared to the average age of students in the third or fourth year of high school, may be used, whichever will qualify the student for the exemption. For a newcomer pupil, enrollment in grade 11 or 12, based on the average age of students in the third or fourth year of high school may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the parent/guardian, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify and consult with students who are exempted from the Charter School's additional graduation requirements and the student's ERH. The consultation shall include all of the following:

1. Discussion regarding how any of the requirements that are waived may affect the student's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.
2. Discussion and information about other options available to the student, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
3. Consideration of the student's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption.

If a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student within thirty (30) days of the exemption request, if an exemption is requested by the student or the student's ERH student at one time qualified for the exemption, even if the student is no longer a Foster and Mobile Youth or the court's jurisdiction of the student has terminated.

An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the court's jurisdiction terminates or the student no longer meets the

definition of Foster and Mobile Youth.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's additional graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Consult with the student and the student's ERH regarding the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. Consult with the student, and the ERH for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Consult with and provide information to the student and the student's ERH about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the student's ERH.
5. For a student identified as a foster youth, consult with the student, and the student's ERH, regarding the student's option to remain in the school of origin.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the student from Charter School's graduation requirements and provide student the option of remaining in school for a fifth ($5^{th}$) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and their ERH regarding all of the following:

1. The student's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the student's postsecondary education or vocation plans, including the ability to gain admission to an institution of higher education.
3. Whether any other options are available to the student, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.

4. The student's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the student transfers between schools, or for a newcomer pupil, is not eligible for an exemption in the student's third year of high school, because Charter School makes a finding that the student is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the student's fourth year of high school, then Charter School shall do the following:

1. Within the first 30 calendar days of the *following* academic year, Charter School shall reevaluate eligibility;
2. Provide written notice to the student, the student's ERH, and the student's social worker or probation officer, if applicable, whether the student qualifies for an exemption upon reevaluation, based on the course completion status of the student at the time of reevaluation, to determine if the student continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the student's fourth year of high school.
3. If, given their course completion status at that time the reevaluation is conducted, the student is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the student's fourth year of high school, the Charter School shall provide written notice to the pupil and the pupil's ERH of the pupil's options to:
    a. Receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
    b. Upon agreement with the student's ERH stay in school for a fifth year to complete the Charter School's additional graduation requirements.

The student (if not a minor) or the student's ERH shall have sole discretion whether to accept the exemption, based on the student's best educational interests.

Reporting Requirements: Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this notice, "pupil category" means the categories of pupils identified in the "Definitions" section of this Policy, above.

Acceptance of Course Work: The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a Foster and Mobile Youth.

The Charter School will provide Foster and Mobile Youth credit for the partial completion of

courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the Foster and Mobile Youth shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

Student Records: When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new local educational agency ("LEA"), the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the student, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization and other records, and, if applicable, a copy of the student's special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record-keeping needs of Foster and Mobile Youth.

The Charter School shall not lower a foster youth's grades as a result of the student's absence due to a verified court appearance, related court ordered activity, or a change the placement of the student made by a county or placing agency. If a foster youth is absent from school due to a decision to change the placement of the student made by a county or placing agency, the grades and credits of the student will be calculated as of the date the student left the Charter School.

In accordance with the Charter School's Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parent/guardian consent. Students who are 16 years of age or older or have finished 10th grade may access their own school records.

Discipline Determinations: If the Charter School intends to extend the suspension of any foster/youth pending a recommendation for expulsion, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the meeting at which the extension of the suspension will be discussed.

If the Charter School intends to suspend for more than ten (10) consecutive school days or expel a student with a disability who is also a foster youth due to an act for which the recommendation for expulsion is discretionary, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the Manifestation Determination Review meeting.

Complaints of Noncompliance: A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request at the main office.

Availability of Complete Policy: For any Foster and Mobile Youth who enrolls at the Charter School, a copy of the Charter School's complete foster youth policy shall be provided at the time of enrollment. A copy of the complete Policy is available upon request at the main office.

The Charter School Liaison shall ensure that (42 U.S.C. § 11432(g)(6)):

1. Homeless students are identified by Charter School personnel through outreach and coordination activities with other entities and agencies, and through the annual housing questionnaire administered by the Charter School.
2. Homeless students enroll in and have a full and equal opportunity to succeed at the Charter School.
3. Homeless students and families receive educational services for which they are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act, early intervention services under part C of the Individuals with Disabilities Education Act, any other preschool programs administered by the Charter School, if any, and referrals to health care services, dental services, mental health services and substance abuse services, housing services, and other appropriate services.

5. Enrollment/admissions disputes are mediated in accordance with law, the Charter School's charter, and Board policy.
6. Parents/guardians and any unaccompanied youth are fully informed of all transportation services, as applicable.
7. Charter School personnel providing services receive professional development and other support.
8. The Charter School Liaison collaborates with State coordinators and community and school personnel responsible for the provision of education and related services to homeless children and youths.
9. Unaccompanied youth are enrolled in school; have opportunities to meet the same challenging State academic standards as the State establishes for other children and youth; and are informed of their status as independent students under section 480 of the Higher Education Act of 1965 and that the youths may obtain assistance from the Charter School Liaison to receive verification of such status for the purposes of the Free Application for Federal Student Aid described in section 483 of the Act.

The California Department of Education publishes a list of the contact information for the Homeless Education Liaisons in the state, which is available at: https://www.cde.ca.gov/sp/hs/

Housing Questionnaire: Charter School shall administer a housing questionnaire for purposes of identifying homeless children and youth. Charter School shall ensure that the housing questionnaire is based on the best practices developed by the CDE. Charter School shall annually provide the housing questionnaire to all parents/guardians of students and to all unaccompanied youths at Charter School. The housing questionnaire shall include an explanation of the rights and protections a student has as a homeless child or youth or as an unaccompanied youth. The housing questionnaire shall be available in paper form. The housing questionnaire shall be available in English, and if fifteen (15) percent or more of the students enrolled at Charter School speak a single primary language other than English, it shall also be written in the primary language. The questionnaire shall be translated into other languages upon request of a student's parent/guardian or an unaccompanied youth. Charter School shall collect the completed housing questionnaires and annually report to the CDE the number of homeless children and youths and unaccompanied youths enrolled. (Education Code Section 48851.)

School Stability: The Charter School will work with homeless students and their parent/guardian to ensure that each student is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not necessarily limited to, interscholastic sports. All decisions regarding a homeless student's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Homeless students have the right to remain in their school of origin if it is in their best interest. The Charter School will immediately enroll a homeless student seeking reenrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). The Charter School will also immediately enroll any homeless student seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g., producing medical records or academic records from a previous school).

Homeless students have the right to remain in their school of origin following the termination of the child's status as a homeless student as follows:

1. For students in Kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the Charter School operates an intersession program, Charter School shall grant priority access to homeless students. Notwithstanding any other law, if the homeless student will be moving during an intersession period, the pupil's parent, guardian, educational rights holder, Indian custodian[4] in the case of an Indian child, or, if none of the preceding are applicable, an accompanied homeless student themselves shall determine which school the pupil attends for the intersession period, if applicable. "Intersession program" means an expanded learning program offered by the Charter School on non school days, including, but not limited to, summer school. "Indian custodian" is as the term is defined in Section 1903 of Title 25 of the United States Code.

High School Graduation Requirements: Homeless students who transfer to the Charter School any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the

[4] [4] "Indian custodian" means any Indian person who has legal custody of an Indian child under tribal law or custom or under State law or to whom temporary physical care, custody, and control has been transferred by the parent of such child. *Section 1903 of Title 25 of the United States Code*

number of credits the student has earned to the date of transfer, the length of the student's school enrollment, or, for pupils with significant gaps in school attendance, the pupil's age as compared to the average age of pupils in the third or fourth year of high school may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder ("ERH"), and the School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify and consult with students who are exempted from the Charter School's additional graduation requirements and the student's ERH. The consultation shall include all of the following:

1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.
2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption.

If a homeless student who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student within thirty (30) days of the exemption request, if an exemption is requested by the student or the student's ERH and the student at one time qualified for the exemption, even if the student is no longer homeless.

An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that

the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's additional graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Consult with the student and the student's ERH regarding the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. Consult with the student and the student's ERH, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Consult with and provide information to the student and the student's ERH about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the student's ERH .
5. Consult with the student, and the student's ERH, regarding the student's option to remain in the school of origin.

Through January 1, 2028, upon making a finding that a homeless student is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth ($5^{th}$) year to complete the statewide coursework requirements. Charter School shall consult with the homeless student and the student's ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to an institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a homeless student is not eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

1. Within the first 30 calendar days of the *following* academic year, Charter School shall reevaluate eligibility;

2. Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption upon reevaluation, based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
3. If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall provide written notice to the pupil and the ERH of the pupil's options to:
    i. Receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
    ii. Upon agreement with the ERH, stay in school for a fifth year to complete the Charter School's additional graduation requirements.

The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

Reporting Requirements: Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data.

Acceptance of Course Work: The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

Complaints of Noncompliance: A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request at the main office.

Availability of Complete Policy: For any homeless student who enrolls at the Charter School, a copy of the Charter School's complete policy shall be provided at the time of enrollment. A copy of the complete Policy is available upon request at the main office.

National School Lunch Program: Universal Free Meals

*School Meals and Student Wellness*
Pursuant to California law, the Charter School shall make available a nutritionally adequate breakfast and a nutritionally adequate lunch free of charge and with adequate time to eat, during each school day to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one (1) free breakfast meal and one (1) free lunch meal during each school day. This shall apply to all pupils in TK through grade twelve (12).

Applications for school meals are included in the first day packets to all families and can also be obtained on the Charter School website and in the main office. All families are encouraged to complete the application form. Completed application forms can be returned to the main office. . Income eligibility guidelines for federally funded free and reduced-price meals are available at: https://www.cde.ca.gov/ls/nu/rs/

Based on a parent/guardian's annual earnings, a parent/guardian may be eligible to receive the Earned Income Tax Credit from the Federal Government (Federal EITC). The Federal EITC is a refundable federal income tax credit for low-income working individuals and families. The Federal EITC has no effect on certain welfare benefits. In most cases, Federal EITC payments will not be used to determine eligibility for Medicaid, Supplemental Security Income, food stamps, low-income housing, or most Temporary Assistance For Needy Families payments. Even if you a parent/guardian does not owe federal taxes, they must file a federal tax return to receive the Federal EITC. Be sure to fill out the Federal EITC form in the Federal Income Tax Return Booklet. For information regarding your eligibility to receive the Federal EITC, including information on how to obtain the Internal Revenue Service (IRS) Notice 797 or any other necessary forms and instructions, contact the IRS by calling 1-800-829-3676 or through its website at www.irs.gov.

A parent/guardian may also be eligible to receive the California Earned Income Tax Credit (California EITC) starting with the calendar year 2015 tax year. The California EITC is a refundable state income tax credit for low-income working individuals and families. The California EITC is treated in the same manner as the Federal EITC and generally will

not be used to determine eligibility for welfare benefits under California law. To claim the California EITC, even if you do not owe California taxes, you must file a California income tax return and complete and attach the California EITC Form (FTB 3514). For information on the availability of the credit eligibility requirements and how to obtain the necessary California forms and get help filing, contact the Franchise Tax Board at 1-800-852-5711 or through its website at www.ftb.ca.gov.

Charter School shall allow students, teachers, and staff to bring and carry water bottles. Water bottles may be excluded from libraries, computer labs, science labs, and other places where it is deemed dangerous to have drinking water. Charter School may develop additional policies regarding the types of water bottles that may be carried.

Charter School adheres to all applicable requirements regarding placement and maintenance of water bottle refilling stations on campus.

Charter School shall encourage water consumption through promotional and educational activities

and signage that focus on the benefits of drinking water and highlight any water bottle filling stations that are located on campus.

A copy of the complete Policy is available upon request at the main office. The Charter School also maintains a School Wellness Policy pursuant to state and federal requirements and is available upon request in the main office.

All families are also encouraged to complete an "Income Survey" to qualify for other services available to the students and to the school (i.e. discounted internet and bus fares, SAT fee waivers, etc.). Income Surveys are included in the first day packets to all families and can also be obtained on the Charter School website and in the main office. All families are encouraged to complete the survey form in order to include as many eligible students as possible. Completed application forms can be returned to the main office.

The Charter School is an equal opportunity provider.

Parent and Family Engagement Policy

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success. A copy of the Charter School's complete Policy is available upon request in the main office.

Workplace Readiness Week and Work Permits

The week of each year that includes April 28 shall be known as "Workplace Readiness Week." All public high schools, including charter schools, shall annually observe that week by providing information to students on their rights as workers.

Beginning August 1, 2024, any minor seeking the signature of a Charter School verifying authority on a Statement of Intent to Employ a Minor and Request for a Work Permit-Certificate of Age will be issued, before or at the time of receiving the signature of the verifying authority, a document clearly explaining basic labor rights extended to workers. An infographic explaining these rights is available at: https://laborcenter.berkeley.edu/wp-content/uploads/2024/05/Know-Your-Rights-FINAL.pdf

Student Health & Safety

## Physical Examinations and Right to Refuse

A parent/guardian having control or charge of any child enrolled in the Charter School may file annually with the Principal of the school in which the child is enrolled a written and signed statement stating that the parent/guardian will not consent to a physical examination of the child. Thereupon the child shall be exempt from any physical examination, but whenever there is a good reason to believe that the child is suffering from a recognized contagious or infectious disease, the child shall be sent home and shall not be permitted to return until the school authorities are satisfied that any contagious or infectious disease does not exist.

## Cancer Prevention Act

Students in the state are advised to adhere to current immunization guidelines, as recommended by the Advisory Committee on Immunization Practices (ACIP) of the federal Centers for Disease Control and Prevention (CDC), the American Academy of Pediatrics, and the American Academy of Family Physicians, regarding full human papillomavirus (HPV) immunization before admission or advancement to the eighth grade level of any private or public elementary or secondary school.

Because the vaccine is more effective when given at younger ages, two doses of HPV vaccine are recommended for all kids between the ages of 9 to 12 years, and the second dose should be given before the start of 8th grade. Kids who wait until later to get their first dose of HPV vaccine may need three doses.

HPV vaccination can prevent over 90 percent of cancers caused by HPV. HPV vaccines are very safe, and scientific research shows that the benefits of HPV vaccination far outweigh the potential risks.

## Diabetes

The Charter School will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of type 2 diabetes.
2. A description of the risk factors and warning signs associated with type 2 Diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes.

4. A description of treatments and prevention of methods of type 2 diabetes.
5. A description of the different types of diabetes screening tests available.

A copy of the information sheet regarding type 2 diabetes is available at: https://www.cde.ca.gov/ls/he/hn/type2diabetes.asp.

Please contact the office if you need a copy of this information sheet or if you have any questions about this information sheet.

The Charter School will provide an information sheet regarding type 1 diabetes to the parent or guardian of a student when the student is first enrolled in elementary school, pursuant to Education Code Section 49452.6. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of type 1 diabetes.
2. A description of the risk factors and warning signs associated with type 1 diabetes.
3. A recommendation that parents or guardians of students displaying warning signs associated with type 1 diabetes should immediately consult with the student's primary care provider to determine if immediate screening for type 1 diabetes is appropriate.
4. A description of the screening process for type 1 diabetes and the implications of test results.
5. A recommendation that, following a type 1 diagnosis, parents or guardians should consult with the student's primary care provider to develop an appropriate treatment plan, which may include consultation with and examination by a specialty care provider, including, but not limited to, a properly qualified endocrinologist.

A copy of the information sheet regarding type 1 diabetes is available at: https://www.cde.ca.gov/ls/he/hn/type1diabetes.asp. Please contact the office if you need a copy of this information sheet or if you have any questions about this information sheet.

Dangers of Synthetic Drugs

The illicit use and abuse of synthetic drugs represents an emerging and ongoing public health threat in California. The fentanyl crisis specifically has impacted communities across the state, leading to a sharp increase in fentanyl poisonings and deaths in recent years.

This notice aims to address the crisis with a preventative approach ensuring students and families are educated on the deadly consequences of recreational drug use.

A synthetic drug is a drug with properties and effects similar to a known hallucinogen or narcotic but having a slightly altered chemical structure, especially such a drug created in order to evade existing restrictions against illegal substances.

Synthetic drugs include but are not limited to synthetic cannabinoids ("synthetic marijuana," "Spice," "K2"), methamphetamines, bath salts, and fentanyl.

The California Department of Public Health ("CDPH,") has expounded on the extreme danger of drugs laced with fentanyl. Illicit fentanyl can be added to other drugs to make them cheaper, more powerful, and more addictive. Illicit fentanyl has been found in many drugs, including heroin, methamphetamine, counterfeit pills, and cocaine. Fentanyl mixed with any drug increases the likelihood of a fatal overdose. Furthermore, it is nearly impossible to tell if drugs have been laced with fentanyl without additional testing, because fentanyl cannot be seen, smelled, or tasted when used as a lacing agent. Social media platforms may be used as a way to market and sell synthetic drugs, such as fentanyl.

Additional information regarding fentanyl from the CDPH's Substance and Addiction Prevention Branch can be found here.

Human Trafficking Prevention

California has the highest number of incidents of human trafficking in the U.S., and all students may be vulnerable. The Charter School believes it is a priority to inform our students about (1) the prevalence, nature of and strategies to reduce the risk of human trafficking, techniques to set healthy boundaries, and how to safely seek assistance, and (2) how social media and mobile device applications are used for human trafficking.

In accordance with the California Healthy Youth Act, Charter School will provide age-appropriate instruction on the prevention of human trafficking, including sexual abuse, assault, and harassment. You have the right to excuse your child from all or part of the instruction on the prevention of human trafficking. An opt-out form is available at the main office for your convenience. Your consent for this instruction is NOT required. If we do not receive a written request to excuse your child, your child will be included in the instruction.

Information and materials for parents/guardians about the curriculum and resources on prevention of human trafficking and abuse, including sexual abuse, assault, and harassment are available on Charter School's website for your review.

Immunizations

Pursuant to the California Health and Safety Code and the California Code of Regulations, children must provide proof of having received required immunizations (shots) before they can attend school unless they meet the requirements for an exemption. Immunization records will be required for all incoming students. Verification of immunizations will be completed with written medical records from the child's doctor or immunization clinic. To ensure a safe learning environment for all students, the

Charter School follows and abides by the health standards set forth by the state of California. The immunization status of all students will be reviewed periodically. Those students who are not in compliance with the State requirements must be excluded from attendance until the requirements are met. Students who have been exposed to a communicable disease for which they have not been immunized may be excluded from school at the discretion of the Charter School.

These required immunizations include:

Mental Health Services

The Charter School recognizes that when unidentified and unaddressed, mental health challenges can lead to poor academic performance, increased likelihood of suspension and expulsion, chronic absenteeism, student attrition, homelessness, incarceration, and/or violence. Access to mental health services at the Charter School and in our community is not only critical to improving the physical and emotional safety of students, but it also helps address barriers to learning and provides support so that all students can learn problem-solving skills and achieve in school and, ultimately, in life. The following resources are available to your child:

Oral Health Assessment

Students enrolled in transitional kindergarten or kindergarten in a public school or while enrolled in first grade if the student was not previously enrolled in kindergarten in a public school are required to present proof of having received an oral health assessment completed by a dental professional that was performed within 12 months before the student's initial enrollment in a public school. Please contact the main office if you have questions about this requirement.

Pregnant and Parenting Students

The Charter School recognizes that pregnant and parenting students are entitled to accommodations that provide them with the opportunity to succeed academically while protecting their health and the health of their children. A pregnant or parenting student is entitled to eight (8) weeks of parental leave, or more if deemed medically necessary by the student's physician, which the student may take before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction, in order to protect the health of the student who gives or expects to give birth and the infant, and to allow the pregnant or parenting student to care for and bond with the infant. The Charter School will ensure that absences from the student's regular school program are excused until the student is able to return to the regular school program.

Upon return to school after taking parental leave, a pregnant or parenting student will be able to make up work missed during the pregnant or parenting student's leave, including, but not limited to, makeup work plans and re enrollment in courses. Notwithstanding any other law, a pregnant or parenting student may remain enrolled for a fifth year of instruction in the Charter School if it is necessary in order for the student to be able to complete any graduation requirements, unless the Charter School determines that the student is reasonably able to complete the graduation

requirements in time to graduate from high school by the end of the student's fourth year of high school.

Complaints of noncompliance with laws relating to pregnant or parenting students may be filed under the Uniform Complaint Procedures ("UCP") of the Charter School. The complaint may be filed in writing with the compliance officer:

Maria Arechiga
Chief of Staff
Amethod Public Schools
1450 Marina Way South Suite 300
Richmond, CA 94804 marechiga@amethodschools.org
Telephone: (510) 436-0172

A copy of the UCP is available upon request at the main office. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the complaint procedures, please contact the Chief Executive Officer.

Opioid Information Sheet

The Charter School annually provides each athlete with an Opioid Factsheet for Patients published by the Centers for Disease Control and Prevention. The athlete and, if the athlete is 17 years of age or younger, the athlete's parent or guardian shall sign a document acknowledging receipt of the Opioid Factsheet for Patients and return that document to the Charter School before the athlete initiates practice or competition. The fact sheet is available at:
https://stacks.cdc.gov/view/cdc/49530

Sudden Cardiac Arrest Prevention and Automated External Defibrillators

The Charter School is invested in the health of its athletes, especially their heart health. Sudden cardiac arrest ("SCA") is when the heart stops beating, suddenly and unexpectedly. Those wishing to participate in athletics at the Charter School, must review the information sheet on sudden cardiac arrest via the following link
https://www.cde.ca.gov/ci/pl/documents/pescaform.pdf

Concussion/Head Injuries

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Because the Charter School has elected to offer an athletic program, we must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity.

The athlete may not return to that activity until the athlete is evaluated by, and receives written clearance from, a licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play

protocol of no less than 7 days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete's parent or guardian before the athlete initiates practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

Safe Storage of Firearms

The purpose of this notice is to inform and to remind parents and legal guardians of all students at the Charter School of their responsibilities for keeping firearms out of the hands of children as required by California law. There have been many news reports of children bringing firearms to school. In many instances, the child obtained the firearm(s) from his or her home. These incidents can be easily prevented by storing firearms in a safe and secure manner, including keeping them locked up when not in use and storing them separately from ammunition.

To help everyone understand their legal responsibilities, this notice spells out California law regarding the storage of firearms. Please take some time to review this notice and evaluate your own personal practices to assure that you and your family are in compliance with California law:

- With very limited exceptions, California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby
  (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through twelfth grade, or to any school-sponsored event, activity, or performance; or (3) unlawfully brandishes the firearm to others.
    - The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.
- With very limited exceptions, California also makes it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person knows or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor never actually accesses the firearm.
- In addition to potential fines and terms of imprisonment, as of January 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years.
- Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward.

The county or city may have additional restrictions regarding the safe storage of firearms. Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

School Bus and Passenger Safety

All students who are transported in a school bus or school student activity bus shall

receive instruction in school bus emergency procedures and passenger safety. A copy of the complete Policy is available upon request at the main office.

Information Regarding Financial Aid

The Charter School shall ensure that each of its students receives information on how to properly complete and submit the 1) Free Application for Federal Student Aid (FAFSA) or
2) the California Dream Act Application as appropriate, at least once before the student enters 12th grade. The Charter School will provide a paper copy of the FAFSA or the California Dream Act Application upon request.

- The FAFSA form and information regarding the FAFSA are available at: o https://studentaid.gov/h/apply-for-aid/fafsa
- The California Dream Act Application and information regarding the California Dream Act is available at:

- https://www.csac.ca.gov/post/resources-california-dream-act-application

Students who are exempt or whose parent/guardian (if the student is a minor) have opted-out will not be required to comply.

YouthTruth Survey

The Charter School will administer the YouthTruth Survey to students. The YouthTruth Survey is an anonymous, confidential survey of school climate and safety, student wellness, and youth resiliency that enables the Charter School to collect and analyze data regarding local youth health risks and behaviors, school connectedness, school climate, protective factors, and school violence.

Surveys About Personal Beliefs

Unless the student's parent/guardian gives written permission, a student will not be given any test, questionnaire, survey, or examination containing any questions about the student's, or the student's parents' or guardians' personal beliefs or practices in sex, family life, morality, or religion.

Campus Search and Seizure

The Charter School recognizes and has determined that the occurrence of incidents which may include the possession of firearms, weapons, alcohol, controlled substances, or other items of contraband prohibited by law or Charter School rules and regulations, jeopardizes the health, safety and welfare of students and Charter School employees.

The California Constitution requires that all students and staff of public schools have the inalienable right to attend campuses which are safe, secure, and peaceful. As such, Charter School has adopted a Policy outlining the reasonable search of students and their property, student use areas, and/or student lockers and the seizure of illegal, unsafe, unauthorized or contraband items and materials through a search based upon reasonable suspicion.

Student lockers, including P.E. lockers are school property and remain at all times under the control of the Charter School. Students shall assume full responsibility for the security of their lockers. Student lockers may not be used to store illegal, unauthorized, or contraband materials. The acceptance and use of locker facilities on school campus by any student shall constitute consent by the student to the search of such locker facilities by authorized school personnel and/or law enforcement. Inspections of lockers may be conducted by school personnel and/or law enforcement through the use of trained dogs.

A student's personal cell phone, smartphone, or other personal electronic device shall not be searched by school officials without a warrant, the student's consent, or a legitimate emergency, unless the device is lost or abandoned. An emergency is any *situation involving danger of death or serious physical injury to any person, that requires access to the information located or reasonably believed to be located on the electronic device.* If the Charter School has a good faith belief that the device is lost, stolen, or abandoned, the Charter School may only access electronic device

information in order to attempt to identify, verify, or contact the owner of the device.

The Charter School is not prohibited from seizing/confiscating a student's personal electronic device, without searching its contents, if the student's use or possession of the private electronic device is in violation of Charter School rules or regulations.

    - The date of the instruction
    - The name of the organization or affiliation of each guest speaker
- Request a copy of Education Code sections 51930 through 51939.

Anonymous, voluntary, and confidential research and evaluation tools to measure students' health behaviors and risks (including tests, questionnaires, and surveys containing age-appropriate questions about the student's attitudes concerning or practices relating to sex) may be administered to students in grades 7-12. A parent or guardian has the right to excuse their child from the test, questionnaire, or survey through a passive consent ("opt-out") process. Parents or guardians shall be notified in writing that this test, questionnaire, or survey is to be administered, given the opportunity to review the test, questionnaire, or survey if they wish, notified of their right to excuse their child from the test, questionnaire, or survey, and informed that in order to excuse their child they must state their request in writing to the Charter School.

A student may not attend any class in comprehensive sexual health education or HIV prevention education, or participate in any anonymous, voluntary, and confidential test, questionnaire, or survey on student health behaviors and risks, if the Charter School has received a written request from the student's parent or guardian excusing the student from participation. An alternative educational activity shall be made available to students whose parents or guardians have requested that they not receive the instruction or participate in the test, questionnaire, or survey.

Student Policies and Procedures

Involuntary Removal Process

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five (5) schooldays before the effective date of the action ("Involuntary Removal Notice"). The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder. The Involuntary Removal Notice shall include the charges against the student and an explanation of the student's basic rights including the right to request a hearing before the effective date of the action. The hearing shall be consistent with the Charter School's expulsion procedures. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the Charter School's suspension and expulsion policy.

Upon parent/guardian request for a hearing, the Charter School will provide notice of hearing consistent with its expulsion hearing process, through which the student has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses,

and at which the student has the right to bring legal counsel or an advocate. The notice of hearing shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder and shall include a copy of the Charter School's expulsion hearing process.

If the parent/guardian is nonresponsive to the Involuntary Removal Notice, the Student will be disenrolled as of the effective date set forth in the Involuntary Removal Notice. If the parent/guardian requests a hearing and does not attend on the date scheduled for the hearing the student will be disenrolled effective the date of the hearing.

If as a result of the hearing the student is disenrolled, notice will be sent to the student's last known school district of residence within thirty (30) days.

A hearing decision not to disenroll the student does not prevent the Charter School from making a similar recommendation in the future should student truancy continue or reoccur.

Nondiscrimination Statement

The Charter School does not discriminate against any person on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, immigration status, religion, religious affiliation, sexual orientation, pregnancy, or any other characteristic that is contained in the definition of hate crimes in the California Penal Code.

Discriminatory bias in instruction and school-sponsored activities does not require a showing of direct harm to members of a protected group. Members of a protected group do not need to be present while the discriminatory bias is occurring for the act to be considered discriminatory bias. The Board shall take corrective action if it finds that instruction or school-sponsored activities are discriminatory.

¶

The ~~Charter School~~ Board ~~of Directors~~ shall not adopt or approve the use of any textbook, instructional material, supplemental instructional material, professional development materials, or

curriculum for classroom instruction if the use of such would subject a student to unlawful discrimination pursuant to Education Code section 220, or if the professional development materials or services promote, endorse, or otherwise support actions or the use of any textbook, instructional material, supplemental instructional material, or curriculum which would subject a pupil to unlawful discrimination pursuant to Section 220.

If the Board knows or has reason to know that materials were used in a classroom, that professional development materials or services were used, or that an action occurred that violated Education Code section 220, the Board shall investigate and remediate the action, which may include, but is not limited to, the implementation of restorative justice practices.¶

For complaints relating to the LCAP, the date of the alleged violation is the date on which the Charter School's Board of Directors approved the LCAP or the annual update was adopted by the Charter School.

The Compliance Officer responsible for investigating the complaint shall conduct and complete the investigation in accordance with California regulations and the Charter School's UCP Policy. The Compliance Officer shall provide the complainant with a final written investigation report ("Decision") within sixty (60) calendar days from the Charter School's receipt of the complaint. This sixty (60) calendar day time period may be extended by written agreement of the complainant.

The complainant has a right to appeal the Charter School's Decision to the California Department of Education ("CDE") by filing a written appeal within thirty (30) calendar days of the date of the Charter School's written Decision, except if the Charter School has used its UCP to address a complaint that is not subject to the UCP requirements. The appeal must include a copy of the complaint filed with the Charter School, a copy of the Charter School's Decision, and the complainant must specify and explain the basis for the appeal of the Decision, including at least one of the following:

1. The Charter School failed to follow its complaint procedures.

The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision.

If Charter School fails to issue an investigation report within the required sixty (60) calendar day timeline, a party to a written complaint of prohibited discrimination may appeal directly to the SSPI. The complaint must provide evidence supporting the basis for direct filing and explain why immediate action is necessary.

Complaints alleging noncompliance with Education Code section 243 or 244 may be filed with the SSPI directly, and the SSPI may directly intervene without waiting for an investigation by the Charter School. The complainant shall present the SSPI with evidence that supports the basis for the direct filing and why immediate action is necessary.

If a UCP complaint is filed directly with the CDE and the CDE determines that it merits direct intervention, the CDE shall complete an investigation and provide a written decision to the complainant within sixty (60) calendar days of receipt of the complaint, unless the parties have agreed to extend the timeline or the CDE documents exceptional circumstances and informs the complainant.

If the Charter School finds merit in a UCP complaint, or the CDE finds merit in an appeal, the Charter School shall take corrective actions consistent with the requirements of existing law that will provide a remedy to the affected student and/or parent/guardian as applicable.

A complainant may pursue available civil law remedies outside of the Charter School's complaint procedures. Lost or Damaged School Property

If a student willfully damages the Charter School's property or the personal property of a Charter School employee, or fails to return a textbook, library book, computer/tablet or other Charter School property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct not to exceed ten thousand dollars ($10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, the Charter School may withhold the student's grades, transcripts, and high school diploma, until the damages have been paid. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades, transcripts, and high school diploma will be released.

Student Records, including Records Challenges and Directory Information, and CCGI Notice

The Family Educational Rights and Privacy Act ("FERPA") affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education

records. These rights are:

1. The right to inspect and review the student's education records within five (5) business days after the day the Charter School receives a request for access. Parents or eligible students should submit to the Charter School Chief Executive Officer or designee a written request that identifies the records they wish to inspect. The Charter School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the Charter School to amend a record should write the Charter School's Chief Executive Officer or designee, clearly identify the part of the record they want changed and specify why it should be changed. If the Charter School decides not to amend the record as requested by the parent or eligible student, the Charter School will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. If the Charter School decides to amend the record as requested by the parent or eligible student, the Chief Executive Officer must order the correction or the removal and destruction of the information and inform the parent or eligible student of the amendment in writing.

3. The right to provide written consent before the Charter School discloses personally identifiable information ("PII") from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to Charter School officials with legitimate educational interests. A Charter School official is a person employed by the Charter School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the Charter School's Board of Directors. A Charter School official also may include a volunteer, consultant, vendor, or contractor outside of the Charter School who performs an institutional service or function for which the Charter School would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist, or contracted provider of digital educational platforms and/or services; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another Charter School official in performing their tasks. A Charter School official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

Upon request, the Charter School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled, if the disclosure is for purposes of the student's enrollment or transfer.

Note that Charter School will not release information to third parties for immigration-enforcement

purposes, except as required by law or court order.

   400 Maryland Avenue, SW Washington, DC 20202

5. The right to request that the Charter School not release student names, addresses and telephone listings to military recruiters or institutions of higher education without prior written parental consent.

FERPA permits the disclosure of PII from student's education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in
§99.31 of the FERPA regulations. Except for disclosures to Charter School officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the Charter School to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A Charter School may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student to the following parties:

1. Charter School officials who have a legitimate educational interest as defined by 34 C.F.R. Part 99;

When a student transfers schools, the Charter School will mail the original or a copy of a student's cumulative file to the receiving district or private school within ten (10) school days following the date the request is received from the public school or private school where the student intends to enroll. The Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at the parent's or eligible student's last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, the Charter School will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for hearing;
3. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;
4. Appropriate parties in connection with a student's application for, or receipt of, financial aid if it is necessary to determine eligibility, amount of aid, conditions for aid or enforcing the terms and conditions of the aid;

7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1986;
8. Individuals or entities, in compliance with a judicial order or lawfully issued subpoena.

Subject to the exceptions found in 34 C.F.R. § 99.31(a)(9)(i), reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance, so that the parent or eligible student may seek a protective order;

9. Persons who need to know in cases of health and safety emergencies;
10. State and local authorities, within a juvenile justice system, pursuant to specific State law;
11. A foster family agency with jurisdiction over a currently enrolled or former student, a short-term residential treatment program staff responsible for the education or case management of a student, and a caregiver (regardless of whether the caregiver has been appointed as the student's educational rights holder) who has direct responsibility for the care of the student, including a certified or licensed foster parent, an approved relative or nonrelated extended family member, or a resource family, may access the current or most recent records of grades, transcripts, attendance, discipline, and online communication on platforms established by the Charter School for students and parents, and any individualized education program ("IEP") or Section 504 plan that may have been developed or maintained by the Charter School; and/or
12. A victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense. The disclosure may only include the final results of the disciplinary proceedings conducted by the Charter School with respect to that alleged crime or offense. The Charter School discloses the final results of the disciplinary proceeding regardless of whether the Charter School concluded a violation was committed.

Charter School shall not release directory information regarding a student identified as a homeless child or youth under the McKinney Vento Homeless Assistance Act in the absence of parent, guardian, or eligible student's written consent, except as follows:

a. When the directory information is released for the purposes of facilitating the student's access to an oral assessment or eye examination required by Charter School, unless the parent/guardian opts out of the examination.

A copy of the complete Policy is available upon request at the main office.

Please note that data collected and reported by the Charter School to the California Longitudinal Pupil Achievement Data System (CalPADS[1]) pursuant to state law, will be shared with the California College Guidance Initiative ("CCGI"[2]), Pursuant to CA Ed Code section 60900.5, and will:

attending one or more schools in any one or more of the 50 United States, the District of Columbia, or the Commonwealth of Puerto Rico, for more than three (3) full academic years. This also includes a "pupil participating in a newcomer program," as defined in Education Code section 51225.2, as that section read on January 1, 2023, who was enrolled in the Charter School before January 1, 2024. The Charter School may, in its discretion, also extend the rights in Education Code sections 51225.1 and 51225.2 to a "pupil participating in a newcomer program," as defined in Education Code section 51225.2, as that section read on January 1, 2023.

For a foster youth who is an individual with exceptional needs as defined in Education Code section 56026, "school" as used in the definition of "school of origin" includes a placement in a nonpublic, nonsectarian school as defined in Education Code section 56034, subject to the requirements of Education Code section 56325.

- *"Best interests"* means that, in making educational and school placement decisions for a foster youth, consideration is given to, among other factors, the opportunity to be educated in the least restrictive educational program and the foster youth's access to academic resources, services, and extracurricular and enrichment activities that are available to all Charter School students.

- *"Partial coursework satisfactorily completed"* includes any portion of an individual course, even if the student did not complete the entire course.

Within this notice, foster youth, former juvenile court school students, a child of a military family, a currently migratory child, and newcomer pupil will be collectively referred to as "Foster and Mobile Youth." Within this notice, a parent, guardian, or other person holding the educational rights for a Foster and Mobile Youth will be referred to as a "parent/guardian" or "ERH."

The Foster and Mobile Youth Liaison's responsibilities include but are not limited to the following:

1. Ensuring and facilitating the proper educational placement, enrollment in school, and checkout from school of foster children.
2. Assisting foster children when transferring from one school to another school in ensuring proper transfer of credits, records and grades.

School Stability: The Charter School will work with foster youth and their parent/guardian to ensure that each student is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not necessarily limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children and children of military families have the right to remain in their school of origin if it is in their best interest. The Charter School will immediately enroll a foster youth, currently migratory child or child of a military family seeking re enrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). If a dispute arises regarding a foster youth's request to remain in the Charter School as the school of origin, the foster youth has the right to remain in the Charter School pending the resolution of the dispute. The Charter School will also immediately enroll any foster youth, currently migratory child or child of a military family seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g. producing medical records or academic records from a previous school).

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the child's status as a foster youth, currently migratory child or child of a military family, as follows:

1. For students in Kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the Charter School operates an intersession program, Charter School shall grant priority access to foster youths. Notwithstanding any other law, if the foster youth will be moving during an intersession period, the pupil's educational rights holder, or Indian custodian in the case of an Indian child, shall determine which school the pupil attends for the intersession period, if applicable. "Intersession program" means an expanded learning program offered by the Charter School on non school days, including, but not limited to, summer school. "Indian custodian" is as the term is defined in Section 1903 of Title 25 of the United States Code.

High School Graduation Requirements: Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and newcomer pupils who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, the length of the student's school enrollment, or, for students with significant gaps in school attendance, the student's age as compared to the average age of students in the third or fourth year of high school, may be used, whichever will qualify the student for the exemption. For a newcomer pupil, enrollment in grade 11 or 12, based on the average age of students in the third or fourth year of high school may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the parent/guardian, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify and consult with students who are exempted from the Charter School's additional graduation requirements and the student's ERH. The consultation shall include all of the following:

1. Discussion regarding how any of the requirements that are waived may affect the student's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.
2. Discussion and information about other options available to the student, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
3. Consideration of the student's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless

of whether the student previously declined the exemption.

If a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student within thirty (30) days of the exemption request, if an exemption is requested by the student or the student's ERH student at one time qualified for the exemption, even if the student is no longer a Foster and Mobile Youth or the court's jurisdiction of the student has terminated.

An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the court's jurisdiction terminates or the student no longer meets the definition of Foster and Mobile Youth.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's additional graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Consult with the student and the student's ERH regarding the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. Consult with the student, and the ERH for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Consult with and provide information to the student and the student's ERH about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the student's ERH.
5. For a student identified as a foster youth, consult with the student, and the student's ERH, regarding the student's option to remain in the school of origin.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the student

from Charter School's graduation requirements and provide student the option of remaining in school for a fifth (5th) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and their ERH regarding all of the following:

1. The student's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the student's postsecondary education or vocation plans, including the ability to gain admission to an institution of higher education.
3. Whether any other options are available to the student, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The student's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the student transfers between schools, or for a newcomer pupil, is not eligible for an exemption in the student's third year of high school, because Charter School makes a finding that the student is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the student's fourth year of high school, then Charter School shall do the following:

1. Within the first 30 calendar days of the *following* academic year, Charter School shall reevaluate eligibility;
2. Provide written notice to the student, the student's ERH, and the student's social worker or probation officer, if applicable, whether the student qualifies for an exemption upon reevaluation, based on the course completion status of the student at the time of reevaluation, to determine if the student continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the student's fourth year of high school.
3. If, given their course completion status at that time the reevaluation is conducted, the student is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the student's fourth year of high school, the Charter School shall provide written notice to the pupil and the pupil's ERH of the pupil's options to:
    a. Receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
    b. Upon agreement with the student's ERH ~~to~~ stay in school for a fifth year to complete the Charter School's additional graduation requirements.

The student (if not a minor) or the student's ERH shall have sole discretion whether to accept the exemption, based on the student's best educational interests.

Reporting Requirements: Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and

fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this notice, "pupil category" means the categories of pupils identified in the "Definitions" section of this Policy, above.

Acceptance of Course Work: The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a Foster and Mobile Youth.

The Charter School will provide Foster and Mobile Youth credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the Foster and Mobile Youth shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

Student Records: When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new local educational agency ("LEA"), the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the student, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization and other records, and, if applicable, a copy of the student's special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record-keeping needs of Foster and Mobile Youth.

The Charter School shall not lower a foster youth's grades as a result of the student's absence due to a verified court appearance, related court ordered activity, or a change the placement of the student made by a county or placing agency. If a foster youth is absent from school due to a decision to change the placement of the student made by a county or placing agency, the grades and credits of the student will be calculated as of the date the student left the Charter School.

In accordance with the Charter School's Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parent/guardian consent. Students who are 16 years of age or older or have finished 10th grade may access their own school records.

Discipline Determinations: If the Charter School intends to extend the suspension of any foster/ youth pending a recommendation for expulsion, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the

meeting at which the extension of the suspension will be discussed.
If the Charter School intends to suspend for more than ten (10) consecutive school days or expel a student with a disability who is also a foster youth due to an act for which the recommendation for expulsion is discretionary, the Charter School will invite the student's attorney and an appropriate representative from the relevant county agency to participate in the Manifestation Determination Review meeting.

Complaints of Noncompliance: A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request at the main office.

Availability of Complete Policy: For any Foster and Mobile Youth who enrolls at the Charter School, a copy of the Charter School's complete foster youth policy shall be provided at the time of enrollment. A copy of the complete Policy is available upon request at the main office.

The Charter School Liaison shall ensure that (42 U.S.C. § 11432(g)(6)):

1. Homeless students are identified by Charter School personnel through outreach and coordination activities with other entities and agencies, and through the annual housing questionnaire administered by the Charter School.
2. Homeless students enroll in and have a full and equal opportunity to succeed at the Charter School.
3. Homeless students and families receive educational services for which they are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act, early intervention services under part C of the Individuals with Disabilities Education Act, any other preschool programs administered by the Charter School, if any, and referrals to health care services, dental services, mental health services and substance abuse services, housing services, and other appropriate services.
4. Parents/guardians are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children. Public notice of the educational rights of homeless children is disseminated at places frequented by parents or guardians of such youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, and in a manner and form understandable to the parents and guardians of homeless youth and unaccompanied youth.
5. Enrollment/admissions disputes are mediated in accordance with law, the Charter School's charter, and Board policy.
6. Parents/guardians and any unaccompanied youth are fully informed of all transportation services, as applicable.
7. Charter School personnel providing services receive professional development and other support.
8. The Charter School Liaison collaborates with State coordinators and community and school personnel responsible for the provision of education and related services to homeless children and youths.
9. Unaccompanied youth are enrolled in school; have opportunities to meet the same challenging State academic standards as the State establishes for other children and youth; and are informed of their status as independent students under section 480 of the Higher Education Act of 1965 and that the youths mayobtain assistance from the Charter School Liaison to receive verification of such status for the purposes of the Free Application for Federal Student Aid described in section 483 of the Act.

The California Department of Education publishes a list of the contact information for the Homeless Education Liaisons in the state, which is available at: https://www.cde.ca.gov/sp/hs/

Housing Questionnaire: Charter School shall administer a housing questionnaire for purposes of

identifying homeless children and youth. Charter School shall ensure that the housing questionnaire is based on the best practices developed by the CDE. Charter School shall annually provide the housing questionnaire to all parents/guardians of students and to all unaccompanied youths at Charter School. The housing questionnaire shall include an explanation of the rights and protections a student has as a homeless child or youth or as an unaccompanied youth. The housing questionnaire shall be available in paper form. The housing questionnaire shall be available in English, and if fifteen (15) percent or more of the students enrolled at Charter School speak a single primary language other than English, it shall also be written in the primary language. The questionnaire shall be translated into other languages upon request of a student's parent/guardian or an unaccompanied youth. Charter School shall collect the completed housing questionnaires and annually report to the CDE the number of homeless children and youths and unaccompanied youths enrolled. (Education Code Section 48851.)

School Stability: The Charter School will work with homeless students and their parent/guardian to ensure that each student is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not necessarily limited to, interscholastic sports. All decisions regarding a homeless student's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Homeless students have the right to remain in their school of origin if it is in their best interest. The Charter School will immediately enroll a homeless student seeking reenrollment in the Charter School as the student's school of origin (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy). The Charter School will also immediately enroll any homeless student seeking to transfer to the Charter School (subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School's charter and Board policy) regardless of the student's ability to meet normal enrollment documentation or uniform requirements (e.g., producing medical records or academic records from a previous school).

Homeless students have the right to remain in their school of origin following the termination of the child's status as a homeless student as follows:

1. For students in Kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the Charter School operates an intersession program, Charter School shall grant priority access to homeless students. Notwithstanding any other law, if the homeless student will be moving during an intersession period, the pupil's parent, guardian, educational rights holder, Indian custodian[4] in the case of an Indian child, or, if none of the preceding are applicable, an accompanied homeless student themselves shall determine which school the pupil attends for the intersession period, if

[4] [4] "Indian custodian" means any Indian person who has legal custody of an Indian child under tribal law or custom or under State law or to whom temporary physical care, custody, and control has been transferred by the parent of such child. *Section 1903 of Title 25 of the United States Code*

applicable. "Intersession program" means an expanded learning program offered by the Charter School on non school days, including, but not limited to, summer school. "Indian custodian" is as the term is defined in Section 1903 of Title 25 of the United States Code.

High School Graduation Requirements: Homeless students who transfer to the Charter School any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, the length of the student's school enrollment, or, for pupils with significant gaps in school attendance, the pupil's age as compared to the average age of pupils in the third or fourth year of high school may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder ("ERH"), and the School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify and consult with students who are exempted from the Charter School's additional graduation requirements and the student's ERH. The consultation shall include all of the following:

1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.
2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption.

If a homeless student who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student within thirty (30) days of the exemption request, if an exemption is requested by the student or the student's ERH and the student at one time qualified for the exemption, even if the student is no longer homeless.

An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's additional graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Consult with the student and the student's ERH regarding the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. Consult with the student and the student's ERH, ~~and the educational rights holder for the student,~~ about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Consult with and provide information to the student and the student's ERH about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the student's ERH ~~for the student.~~.
5. Consult with the student, and the student's ERH, regarding the student's option to remain in the school of origin.

Through January 1, 2028, upon making a finding that a homeless student is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5th) year to complete the statewide coursework requirements. Charter School shall consult with the homeless student and the student's ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to an institution of higher education.

3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a homeless student is not eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

1. Within the first 30 calendar days of the *following* academic year, Charter School shall reevaluate eligibility;
2. Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption upon reevaluation, based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
3. If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall provide written notice to the pupil and the ERH of the pupil's options to:
    i. Receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
    ii. Upon agreement with the ERH, stay in school for a fifth year to complete the Charter School's additional graduation requirements.

The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

Reporting Requirements: Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data.

Acceptance of Course Work: The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete

the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

Complaints of Noncompliance: A complaint of noncompliance with any of the requirements outlined above may be filed through the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request at the main office.

Availability of Complete Policy: For any homeless student who enrolls at the Charter School, a copy of the Charter School's complete policy shall be provided at the time of enrollment. A copy of the complete Policy is available upon request at the main office.

National School Lunch Program: Universal Free Meals

*School Meals and Student Wellness*

Pursuant to California law, the Charter School shall make available a nutritionally adequate breakfast and a nutritionally adequate lunch free of charge and with adequate time to eat, during each school day to any student who requests a meal without consideration of the student's eligibility for a federally funded free or reduced-price meal, with a maximum of one (1) free breakfast meal and one (1) free lunch meal during each school day. This shall apply to all pupils in TK~~kindergarten~~ through grade twelve (12). T~~his shall apply to all students in kindergarten through grade twelve (12).¶~~

Applications for school meals are included in the first day packets to all families and can also be obtained on the Charter School website and in the main office. All families are encouraged to complete the application form. Completed application forms can be returned to the main office. . Income eligibility guidelines for federally funded free and reduced-price meals are available at: https://www.cde.ca.gov/ls/nu/rs/

Based on a parent/guardian's annual earnings, a parent/guardian may be eligible to receive the Earned Income Tax Credit from the Federal Government (Federal EITC). The Federal EITC is a refundable federal income tax credit for low-income working individuals and families. The Federal EITC has no effect on certain welfare benefits. In most cases, Federal EITC payments will not be used to determine eligibility for Medicaid, Supplemental Security Income, food stamps, low-income housing, or most Temporary Assistance For Needy Families payments. Even if you a parent/guardian does not owe federal taxes, they must file a federal tax return to receive the Federal EITC. Be sure to fill out the Federal EITC form in the Federal Income Tax Return Booklet. For information regarding your eligibility to receive the Federal EITC, including information on how to obtain the Internal Revenue Service (IRS) Notice 797 or any other necessary forms and instructions, contact the IRS by calling 1-800-829-3676 or through its website at www.irs.gov.

A parent/guardian may also be eligible to receive the California Earned Income Tax Credit (California EITC) starting with the calendar year 2015 tax year. The California EITC is a refundable state income tax credit for low-income working individuals and families. The California EITC is treated in the same manner as the Federal EITC and generally will

not be used to determine eligibility for welfare benefits under California law. To claim the California EITC, even if you do not owe California taxes, you must file a California income tax return and complete and attach the California EITC Form (FTB 3514). For information on the availability of the credit eligibility requirements and how to obtain the necessary California forms and get help filing, contact the Franchise Tax Board at 1-800-852-5711 or through its website at www.ftb.ca.gov.

Charter School shall allow students, teachers, and staff to bring and carry water bottles. Water bottles may be excluded from libraries, computer labs, science labs, and other places where it is deemed dangerous to have drinking water. Charter School may develop additional policies regarding the types of water bottles that may be carried.

Charter School adheres to all applicable requirements regarding placement and maintenance of water bottle refilling stations on campus.

Charter School shall encourage water consumption through promotional and educational activities and signage that focus on the benefits of drinking water and highlight any water bottle filling stations that are located on campus.

A copy of the complete Policy is available upon request at the main office. The Charter School also maintains a School Wellness Policy pursuant to state and federal requirements and is available upon request in the main office.

All families are also encouraged to complete an "Income Survey" to qualify for other services available to the students and to the school (i.e. discounted internet and bus fares, SAT fee waivers, etc.). Income Surveys are included in the first day packets to all families and can also be obtained on the Charter School website and in the main office. All families are encouraged to complete the survey form in order to include as many eligible students as possible. Completed application forms can be returned to the main office.

Parent and Family Engagement Policy

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success. A copy of the Charter School's complete Policy is available upon request in the main office.

Workplace Readiness Week and Work Permits

The week of each year that includes April 28 shall be known as "Workplace Readiness Week." All public high schools, including charter schools, shall annually observe that week by providing information to students on their rights as workers.

Beginning August 1, 2024, any minor seeking the signature of a Charter School verifying authority on a Statement of Intent to Employ a Minor and Request for a Work Permit-Certificate of Age will be issued, before or at the time of receiving the signature of the verifying authority, a document clearly explaining basic labor rights extended to workers. An infographic explaining these rights is available at: https://laborcenter.berkeley.edu/wp-content/uploads/2024/05/Know-Your-Rights-FINAL.pdf

Student Health & Safety

## Physical Examinations and Right to Refuse

A parent/guardian having control or charge of any child enrolled in the Charter School may file annually with the Principal~~Site Director~~ of the school in which the child is enrolled a written and signed statement stating that the parent/guardian will not consent to a physical examination of the child. Thereupon the child shall be exempt from any physical examination, but whenever there is a good reason to believe that the child is suffering from a recognized contagious or infectious disease, the child shall be sent home and shall not be permitted to return until the school authorities are satisfied that any contagious or infectious disease does not exist.

## Cancer Prevention Act

Students in the state are advised to adhere to current immunization guidelines, as recommended by the Advisory Committee on Immunization Practices (ACIP) of the federal Centers for Disease Control and Prevention (CDC), the American Academy of Pediatrics, and the American Academy of Family Physicians, regarding full human papillomavirus (HPV) immunization before admission or advancement to the eighth grade level of any private or public elementary or secondary school.

Because the vaccine is more effective when given at younger ages, two doses of HPV vaccine are recommended for all kids between the ages of 9 to 12 years, and the second dose should be given before the start of 8th grade. Kids who wait until later to get their first dose of HPV vaccine may need three doses.

HPV vaccination can prevent over 90 percent of cancers caused by HPV. HPV vaccines are very safe, and scientific research shows that the benefits of HPV vaccination far outweigh the potential risks.

## Diabetes

The Charter School will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of type 2 diabetes.
2. A description of the risk factors and warning signs associated with type 2 Diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes.

4. A description of treatments and prevention of methods of type 2 diabetes.
5. A description of the different types of diabetes screening tests available.

A copy of the information sheet regarding type 2 diabetes is available at: https://www.cde.ca.gov/ls/he/hn/type2diabetes.asp.

Please contact the office if you need a copy of this information sheet or if you have any questions about this information sheet.

The Charter School will provide an information sheet regarding type 1 diabetes to the parent or guardian of a student when the student is first enrolled in elementary school, pursuant to Education Code Section 49452.6. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of type 1 diabetes.
2. A description of the risk factors and warning signs associated with type 1 diabetes.
3. A recommendation that parents or guardians of students displaying warning signs associated with type 1 diabetes should immediately consult with the student's primary care provider to determine if immediate screening for type 1 diabetes is appropriate.
4. A description of the screening process for type 1 diabetes and the implications of test results.
5. A recommendation that, following a type 1 diagnosis, parents or guardians should consult with the student's primary care provider to develop an appropriate treatment plan, which may include consultation with and examination by a specialty care provider, including, but not limited to, a properly qualified endocrinologist.

A copy of the information sheet regarding type 1 diabetes is available at: https://www.cde.ca.gov/ls/he/hn/type1diabetes.asp. Please contact the office if you need a copy of this information sheet or if you have any questions about this information sheet.

Dangers of Synthetic Drugs

The illicit use and abuse of synthetic drugs represents an emerging and ongoing public health threat in California. The fentanyl crisis specifically has impacted communities across the state, leading to a sharp increase in fentanyl poisonings and deaths in recent years.

This notice aims to address the crisis with a preventative approach ensuring students and families are educated on the deadly consequences of recreational drug use.

A synthetic drug is a drug with properties and effects similar to a known hallucinogen or narcotic but having a slightly altered chemical structure, especially such a drug created in order to evade existing restrictions against illegal substances.

Synthetic drugs include but are not limited to synthetic cannabinoids ("synthetic marijuana," "Spice," "K2"), methamphetamines, bath salts, and fentanyl.

The California Department of Public Health ("CDPH,") has expounded on the extreme danger of drugs laced with fentanyl. Illicit fentanyl can be added to other drugs to make them cheaper, more powerful, and more addictive. Illicit fentanyl has been found in many drugs, including heroin, methamphetamine, counterfeit pills, and cocaine. Fentanyl mixed with any drug increases the likelihood of a fatal overdose. Furthermore, it is nearly impossible to tell if drugs have been laced with fentanyl without additional testing, because fentanyl cannot be seen, smelled, or tasted when used as a lacing agent. Social media platforms may be used as a way to market and sell synthetic drugs, such as fentanyl.

Additional information regarding fentanyl from the CDPH's Substance and Addiction Prevention Branch can be found here.

Human Trafficking Prevention

California has the highest number of incidents of human trafficking in the U.S., and all students may be vulnerable. The Charter School believes it is a priority to inform our students about (1) the prevalence, nature of and strategies to reduce the risk of human trafficking, techniques to set healthy boundaries, and how to safely seek assistance, and (2) how social media and mobile device applications are used for human trafficking.

In accordance with the California Healthy Youth Act, Charter School will provide age-appropriate instruction on the prevention of human trafficking, including sexual abuse, assault, and harassment. You have the right to excuse your child from all or part of the instruction on the prevention of human trafficking. An opt-out form is available at the main office for your convenience. Your consent for this instruction is NOT required. If we do not receive a written request to excuse your child, your child will be included in the instruction.

Information and materials for parents/guardians about the curriculum and resources on prevention of human trafficking and abuse, including sexual abuse, assault, and harassment are available on Charter School's website for your review.

Immunizations

Pursuant to the California Health and Safety Code and the California Code of Regulations, children must provide proof of having received required immunizations (shots) before they can attend school unless they meet the requirements for an exemption. Immunization records will be required for all incoming students. Verification of immunizations will be completed with written medical records from the child's doctor or immunization clinic. To ensure a safe learning environment for all students, the

Charter School follows and abides by the health standards set forth by the state of California. The immunization status of all students will be reviewed periodically. Those students who are not in compliance with the State requirements must be excluded from attendance until the requirements are met. Students who have been exposed to a communicable disease for which they have not been immunized may be excluded from school at the discretion of the Charter School.

These required immunizations include:

Mental Health Services

The Charter School recognizes that when unidentified and unaddressed, mental health challenges can lead to poor academic performance, increased likelihood of suspension and expulsion, chronic absenteeism, student attrition, homelessness, incarceration, and/or violence. Access to mental health services at the Charter School and in our community is not only critical to improving the physical and emotional safety of students, but it also helps address barriers to learning and provides support so that all students can learn problem-solving skills and achieve in school and, ultimately, in life. The following resources are available to your child:

Available on Campus:

- School-based counseling services – your child is encouraged to directly contact a Charter School counselor by coming into the counseling office during school hours and making an appointment to speak with a counselor. Our Charter School counselors support students by providing individual sessions, group or parent consultations whenever a student is having a difficult time due to academic stress, transition to changes in their environment, or social concerns, including isolation. Oral Health Assessment

Students enrolled in transitional kindergarten or kindergarten in a public school or while enrolled in first grade if the student was not previously enrolled in kindergarten in a public school are required to present proof of having received an oral health assessment completed by a dental professional that was performed within 12 months before the student's initial enrollment in a public school. Please contact the main office if you have questions about this requirement.

Pregnant and Parenting Students

The Charter School recognizes that pregnant and parenting students are entitled to accommodations that provide them with the opportunity to succeed academically while protecting their health and the health of their children. A pregnant or parenting student is entitled to eight (8) weeks of parental leave, or more if deemed medically necessary by the student's physician, which the student may take before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction, in order to protect the health of the student who gives or expects to give birth and the infant, and to allow the pregnant or parenting student to care for and bond with the infant. The Charter School will ensure that absences from the student's regular school program are excused until the student is able to return to the regular school program.

Upon return to school after taking parental leave, a pregnant or parenting student will be able to

make up work missed during the pregnant or parenting student's leave, including, but not limited to, makeup work plans and re enrollment in courses. Notwithstanding any other law, a pregnant or parenting student may remain enrolled for a fifth year of instruction in the Charter School if it is necessary in order for the student to be able to complete any graduation requirements, unless the Charter School determines that the student is reasonably able to complete the graduation requirements in time to graduate from high school by the end of the student's fourth year of high school.

Complaints of noncompliance with laws relating to pregnant or parenting students may be filed under the Uniform Complaint Procedures ("UCP") of the Charter School. The complaint may be filed in writing with the compliance officer:

Maria Arechiga
Chief of Staff~~Strategy and Compliance Officer~~
Amethod Public Schools
1450 Marina Way South Suite 300
Richmond, CA 94804 marechiga@amethodschools.org
Telephone: (510) 436-0172

A copy of the UCP is available upon request at the main office. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the complaint procedures, please contact the Chief Executive Officer.

Opioid Information Sheet

The Charter School annually provides each athlete with an Opioid Factsheet for Patients published by the Centers for Disease Control and Prevention. The athlete and, if the athlete is 17 years of age or younger, the athlete's parent or guardian shall sign a document acknowledging receipt of the Opioid Factsheet for Patients and return that document to the Charter School before the athlete initiates practice or competition. The fact sheet is available at:
~~https://www.cdc.gov/drugoverdose/pdf/AHA-Patient-Opioid-Factsheet-a.pdf~~¶
https://stacks.cdc.gov/view/cdc/49530

Sudden Cardiac Arrest Prevention and Automated External Defibrillators

The Charter School is invested in the health of its athletes, especially their heart health. Sudden cardiac arrest ("SCA") is when the heart stops beating, suddenly and unexpectedly. Those wishing to participate in athletics at the Charter School, must review the information sheet on sudden cardiac arrest via the following link ~~https://www.cde.ca.gov/pd/ca/pe/documents/pescaform.pdf~~
https://www.cde.ca.gov/ci/pl/documents/pescaform.pdf

Concussion/Head Injuries

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Because the Charter School has elected to offer an athletic program, we must immediately remove from a

school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity.

The athlete may not return to that activity until the athlete is evaluated by, and receives written clearance from, a licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than 7 days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete's parent or guardian before the athlete initiates practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

Safe Storage of Firearms

The purpose of this notice is to inform and to remind parents and legal guardians of all students at the Charter School of their responsibilities for keeping firearms out of the hands of children as required by California law. There have been many news reports of children bringing firearms to school. In many instances, the child obtained the firearm(s) from his or her home. These incidents can be easily prevented by storing firearms in a safe and secure manner, including keeping them locked up when not in use and storing them separately from ammunition.

To help everyone understand their legal responsibilities, this notice spells out California law regarding the storage of firearms. Please take some time to review this notice and evaluate your own personal practices to assure that you and your family are in compliance with California law:

- With very limited exceptions, California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby
  (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through twelfth grade, or to any school-sponsored event, activity, or performance; or (3) unlawfully brandishes the firearm to others.
    - The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.
- With very limited exceptions, California also makes it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person knows or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor never actually accesses the firearm.
- In addition to potential fines and terms of imprisonment, as of January 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years.
- Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward.

The county or city may have additional restrictions regarding the safe storage of firearms. Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to

comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

School Bus and Passenger Safety

All students who are transported in a school bus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety. A copy of the complete Policy is available upon request at the main office.

School Safety Plan and Asbestos Management Plan

The Charter School has established a ~~Comprehensive~~ School Safety Plan. The Plan is available upon request at the main office.

## Review and Consideration of Approval of Student Mobile Device Policy

**Section:** V. Business II
**Item:** AV. Review and Consideration of Approval of Student Mobile Device Policy
**Purpose:** Vote
**Submitted by:**
**Related Material:** Student Mobile Device Policy (4932-5870-3791.v1).docx.pdf

BACKGROUND:

California has enacted legislation requiring local educational agencies, including charter schools, to adopt policies governing student use of smartphones and other personal communication devices during the school day. The legislation is intended to support student learning, improve engagement, reduce distractions, promote positive school climate, and support student well-being.

To comply with the new requirements, staff has developed a Student Mobile Device Policy that establishes clear expectations for student possession and use of personal communication devices while on campus and during school-sponsored activities.

The proposed policy has been reviewed by legal.

RECOMMENDATION:

Staff recommends that the Board of Directors approve the Student Mobile Device Policy for implementation beginning July 1, 2026, in accordance with California's new requirements regarding student use of smartphones and other personal communication devices during the school day.

AMPS

HONOR HARD WORK

Board Policy Number: 5404
Adopted:

# Student Mobile Device Policy

The Amethod Public Schools ("AMPS" or the "Charter School") Board of Directors recognizes the potential for cell phones, smartphones, smart watches, and electronic communication devices (hereinafter collectively referred to as "private devices") to disrupt the learning environment of the Charter School, and adopts this Policy to permit students to possess, but not use private devices while on school grounds, or school-sponsored activities, except as otherwise provided in this Policy. Students who possess any private devices must always keep them turned off, powered down, and stored in backpacks and out of view while on school grounds or at school-sponsored activities and functions. To promote this requirement, AMPS may provide approved storage where all private devices may be stored securely during the school day. Charter School teachers, administrators, and staff will confiscate any private devices used by a student in violation of this Policy.

AMPS is committed to creating a focused learning environment free from the distractions of social media and non-educational technology. This policy aims to improve student mental health, reduce cyberbullying, and foster meaningful in-person social connections.

## DEFINITIONS

- Personal devices: Includes smartphones, basic cell phones, smartwatches, and Bluetooth earbuds (e.g., AirPods).
- School Day/School-sponsored events: Defined as the period from the moment a student enters the school campus until the final dismissal bell, including lunch and passing periods, and any activity off campus sponsored by AMPS

## USAGE RESTRICTIONS

1. Storage: All mobile devices must be turned completely off (not on vibrate or silent) upon arrival and stored in backpacks or lockers so they are out of plain sight.
2. Smartwatches: Must be kept in a "Schooltime" or airplane mode if worn, or stored in a backpack if they are used for non-educational communication.
3. Optional Secure Check-In: Students may voluntarily leave their devices with a designated teacher or office staff member each morning for secure storage.

## EXPLICIT PROHIBITIONS & RESTRICTED SITUATIONS (EMERGENCY PROTOCOLS)

Student use of personal devices is strictly prohibited during the following emergency protocols to ensure student attention remains focused on staff life-safety instructions and to prevent network saturation for first responders:

- Lockdown / Active Threat: Devices must be silenced and stowed immediately. Students are prohibited from using devices until an "All Clear" is issued by the School Leader or Law Enforcement. This minimizes the risk of drawing attention to students (via ringtones or screen light) in "Run, Hide, Fight" scenarios.

AMPS

HONOR HARD WORK

- Secure Campus / Shelter-in-Place: Students may not use devices to record, stream, or post images of the incident, as this may compromise safety, privacy, or spread misinformation.
- Evacuation: Devices must remain stowed while in transit to the assembly point to ensure students can hear verbal directions and navigate hazards.

Exceptions to these prohibitions are granted only under the following circumstances:

- Direct Instruction: A staff member explicitly authorizes use for a specific safety or educational purpose.
- Medical Necessity: When the possession or use is necessary for a student's health or well-being of a student (e.g., monitoring blood glucose levels), as documented in the student's Individualized Education Program (IEP) or 504 Plan
- When a licensed physician determines that the possession or use of a private device is necessary for the health or well-being of the student.
- In the case of a public safety emergency, or in response to a reasonable, perceived threat of danger Once students reach a designated "Safe Zone" and are cleared by the Incident Commander, a supervised "Family Reconnection Communication Window" will be established.

Possession of private devices is a privilege, which may be forfeited by any student who fails to abide by the terms of this Policy. Charter School employees shall remove any private device from a student's possession who is found to be violating this Policy.

If a private device is heard ringing, beeping, or buzzing from inside a jacket, purse, backpack, or other similar article, whether within the immediate presence of the student or not, a Charter School employee may confiscate the private device. Parents/guardians will be contacted to pick up any confiscated private devices at the end of the regular school day or at the conclusion of a Charter School sponsored activity.

VIOLATIONS AND DISCIPLINARY ACTIONS

- Confiscation: Devices seen or heard will be confiscated immediately.
- Parent Retrieval: Confiscated devices will only be returned to a parent or guardian after school.
- Defiance: Refusal to relinquish a device to a staff member will be treated as administrator defiance based upon the school's code of conduct.

EMERGENCY COMMUNICATION

Families must not call or text students during the school day. Urgent messages must be relayed through the Main Office to ensure students are reached without violating policy or compromising safety protocols.

REDLINE_Professional Boundaries Adult Student Interaction Policy (4896-5896-1071.v2) (1).pdf

BACKGROUND:

California Senate Bill 848 requires local educational agencies, including charter schools, to adopt policies and procedures regarding professional boundaries between employees, contractors, volunteers, and students. The legislation is intended to help prevent misconduct by establishing clear expectations for professional conduct and appropriate interactions with students. This updated policy had been reviewed by legal.

RECOMMENDATION:

Board Policy #2001
Adopted: September 20, 2023

## Professional Boundaries: Adult/Student Interaction Policy

This policy applies to all Amethod Public Schools ("AMPS" or "School") School employees, volunteers, contractors, and governing board ("Board") members[1] (collectively referred to as "adults" herein).

The School recognizes its responsibility to make and enforce all rules and regulations governing student and adult behavior to bring about the safest and most learning-conducive environment possible. This policy is available on AMPS's website at: amethodschools.org

Corporal Punishment

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the individuals, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of School employees, volunteers, contractors, and Board members:

A. Examples of permitted actions (i.e., not corporal punishment)

1. Stopping a student from fighting with another student;
2. Preventing a pupil from committing an act of vandalism;
3. Defending yourself from physical injury or assault by a student;
4. Forcing a pupil to give up a weapon or dangerous object;
5. Requiring a student on an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
6. Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

B. Examples of prohibited actions (i.e., corporal punishment)

1. Hitting, shoving, pushing, or physically restraining a student as a means of control;

[1] This policy does not apply to student board members under Education Code 47604.2, or otherwise.

AMPS

HONOR HARD WORK

2. Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;
3. Paddling, swatting, slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

Acceptable and Unacceptable Adult/Student Behavior

This policy is intended to guide adults in conducting themselves in a way that reflects the high standards of behavior and professionalism required of them and to specify the boundaries between adults and students.

Although this policy gives specific, clear direction, it is each adult's obligation to avoid situations that could prompt suspicion by parents/guardians, students, colleagues, or School leaders. One viable standard that can be quickly applied, when you are unsure if certain conduct is acceptable, is to ask yourself, "Would I be engaged in this conduct if my family or colleagues were standing next to me?"

For the purposes of this policy, the term "boundaries" is defined as acceptable professional behavior by an adult while interacting with a student, whether during school hours or outside of school hours, including through social media platforms, text messaging, and other forms of communication that do not otherwise include a student's parent/guardian. Trespassing the boundaries of a student/adult relationship is deemed an abuse of power and a betrayal of public trust.

Professional boundaries apply not only between students and staff, volunteers, and contractors, and Board members, but also among and between students, and among and between adults employed, volunteering, or under contract with the School. All members of the School community are expected to maintain professional conduct that models appropriate behavior and fosters a safe and respectful learning environment. Additionally, all facilities/areas under School control shall be effectively supervised to promote a safe environment for students and individuals performing services on behalf of the School.

Some activities may seem innocent from an adult's perspective, but can be perceived as flirtation or sexual insinuation from a student or parent/guardian point of view. The objective of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between adults and students, but to prevent relationships that could lead to, or may be perceived as, sexual misconduct.

Adults must understand their own responsibility for ensuring that they do not cross the boundaries as written in this policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for disciplinary purposes. Thus, it is crucial that all adults learn this policy thoroughly and apply the lists of acceptable and unacceptable behaviors to their daily activities. Although sincere, competent interaction with students certainly fosters learning, student/adult interactions must have boundaries surrounding potential activities, locations, and intentions.

Duty to Report Suspected Misconduct

When any employee reasonably suspects or believes that another staff member may have crossed the boundaries specified in this policy, they must immediately report the matter to a School administrator. All

AMPS

HONOR HARD WORK

reports shall be as confidential as possible under the circumstances. It is the duty of the administrator to investigate and thoroughly report the situation. Employees must also report to the administration any awareness or concern of student behavior that crosses boundaries or where a student appears to be at risk for sexual abuse, child abuse, or neglect.

When any employee reasonably suspects or believes that another staff member may have crossed the boundaries specified in this policy, ~~he or she~~they must immediately report the matter to a ~~school~~School administrator. All reports shall be as confidential as possible under the circumstances. It is the duty of the administrator to investigate and thoroughly report the situation. Employees must also report to the administration any awareness or concern of student behavior that crosses boundaries or where a student appears to be at risk for sexual abuse~~.~~, child abuse, or neglect.

Board Policy Number: 5405
Adopted:

# Extreme Weather Policy and Procedures
*(Education Code § 33355 Compliance)*

## 1. Purpose
The purpose of this policy is to protect the health and safety of students and staff during extreme weather conditions by establishing clear, objective criteria and procedures for modifying or canceling outdoor physical activity.

This policy is adopted pursuant to California Education Code § 33355 and incorporates guidance issued by the California Department of Education ("CDE") and California Department of Public Health ("CDPH").

## 2. Scope
This policy applies to outdoor pupil physical activities covered by Education Code section 33355, including physical education classes, school-sponsored sports, and athletic practices and games, except for interscholastic athletic programs administered by the California Interscholastic Federation ("CIF"), which must comply with CIF guidelines pursuant to Education Code sections 33355(d) and 35179.8.

Nothing in this policy supersedes CIF heat illness, acclimatization, or other applicable athletic safety requirements for CIF-administered interscholastic athletic programs. For non-CIF school-sponsored sports, practices, games, clubs, or other outdoor physical activities, this policy applies unless a more protective activity-specific protocol is adopted.

As a best practice, the School will also apply this policy, as appropriate, to the following school-supervised outdoor activities:

- Recess and lunch periods involving outdoor physical activity
- Outdoor assemblies and events
- Field trips involving outdoor exposure
- Other outdoor activities involving student exertion or extended outdoor exposure

## 3. Definitions

"Extreme Weather Conditions" means occurrences of unusually severe weather conditions, including, but not limited to, periods of extreme heat, excessive precipitation, and floods, that may pose significant harm to pupils. For purposes of this policy, the term also includes but is not limited to hazardous air quality, wildfire smoke, lightning, high winds, extreme cold, or other hazardous environmental conditions

identified by the National Weather Service, local public health authorities, local emergency management agencies, or other reliable public safety sources.

"Physical Activity" means physical education classes, school-sponsored sports, and athletic practices and games conducted outdoors, except for CIF-administered interscholastic athletic programs. As a best practice, this policy may also be applied to other school-supervised outdoor activities involving student exertion or extended outdoor exposure.

4. Individual and Activity-Specific Risk Factors

In applying this policy, the School shall consider student age and developmental level, the duration and intensity of outdoor activity, access to shade, water, rest breaks, cooling or heated indoor spaces, the availability of indoor alternatives, and known student health needs or accommodations.

Staff shall take additional precautions for students who may be more vulnerable to weather-related distress, including younger students, students with disabilities, students with asthma or other respiratory conditions, students taking medications that may affect heat tolerance, and students who are not acclimatized to heat.

5. Weather and Air Quality Monitoring Procedures

5.1 Responsible Personnel

The following position(s) are responsible for monitoring weather conditions:

- Facilities coordinator

5.2 Decision Authority

The Principal or designee is authorized to modify, postpone, relocate, or cancel outdoor pupil physical activities under this policy. Teachers, coaches, supervisors, and other staff may immediately stop or modify an outdoor activity when they observe conditions or student symptoms that create an immediate safety concern and shall promptly notify the site administrator.

5.3 Monitoring Tools

Designated personnel shall monitor conditions using:

- NWS HeatRisk
- CalHeatScore or other CDPH or state heat resources, as applicable
- AirNow
- Local air district/AQMD
- County public health
- County OES/emergency alerts
- NWS alerts/watches/warnings
- Local fire agency alerts where wildfire smoke/fire conditions are relevant

AMPS

HONOR HARD WORK

5.4 Monitoring Frequency

Designated personnel shall check applicable weather and air quality sources:

- At least once each school day before outdoor physical activities begin;
- Before scheduled PE, recess, outdoor athletic practices, outdoor events, or field trips when the forecast shows elevated risk;
- At midday or before afternoon outdoor activities during periods of elevated heat, poor air quality, storms, high winds, or other hazardous conditions; and
- More frequently, including hourly or as conditions change, when an alert, advisory, warning, or elevated risk level is in effect.

If the designated responsible person is unavailable, the Senior Operations Director or designee shall conduct the review.

6. Weather Thresholds and Required Responses

The School adopts the following thresholds, consistent with CDE/CDPH guidance.

6.1 Heat (NWS HeatRisk Levels)

| HeatRisk Level | Risk Level | School Response |
|---|---|---|
| Level 0 (Green) | Little to no risk | Normal activities may proceed. Encourage routine hydration and monitor students. |
| Level 1 (Yellow) | Minor | Outdoor activity may proceed with increased access to water, shade, and rest. Monitor students who are heat-sensitive or medically vulnerable. |
| Level 2 (Orange) | Moderate | Modify outdoor physical activity. Reduce intensity and duration, increase rest and hydration breaks, use shade/cooling areas, and schedule activity during cooler parts of the day when possible. Consider indoor alternatives for younger or vulnerable students. |
| Level 3 (Red) | Major | Avoid or cancel outdoor physical activity during the heat of the day, generally 10:00 a.m. to 5:00 p.m., unless adequate mitigation measures make the activity safe. Move activities indoors, postpone, shorten, or substantially modify activity. |
| Level 4 (Magenta) | Extreme | Cancel outdoor physical activity or move it indoors. Outdoor physical activity shall not proceed unless necessary for student safety and is approved by the site administrator or designee based on emergency circumstances. |

AMPS

HONOR HARD WORK

During HeatRisk Level 3 or higher, staff responsible for scheduling outdoor physical activities should plan in advance to avoid the heat of the day, generally between 10:00 a.m. and 5:00 p.m., when feasible.

6.2 Air Quality (AQI Levels)

| AQI | Required Response |
|---|---|
| 0–50 Good | Normal activities. |
| 51–100 Moderate | Normal activities for most students; monitor unusually sensitive students. |
| 101–150 Unhealthy for Sensitive Groups | Reduce prolonged or heavy exertion for sensitive students; provide indoor alternatives or modified activity as needed. |
| 151–200 Unhealthy | Modify outdoor physical activity for all students; reduce duration and intensity; move prolonged or strenuous activity indoors where feasible. |
| 201–300 Very Unhealthy | Cancel or move outdoor physical activity indoors. |
| 301+ Hazardous | Cancel outdoor physical activity and follow public health/emergency guidance. |

Staff shall follow any student-specific health plans, asthma action plans, Section 504 plans, IEP accommodations, or parent/medical instructions applicable to poor air quality or respiratory conditions.

6.3 Other Weather Conditions

For weather conditions not specifically addressed by the HeatRisk or AQI thresholds above, the School may modify, postpone, relocate, or cancel outdoor activities when site conditions, official alerts, or staff observations indicate that the activity may pose an unreasonable risk to student health or safety.

Relevant conditions may include, but are not limited to, lightning or thunder, heavy rain, flooding or standing water, high winds, extreme cold, poor visibility, unsafe walking or play surfaces, falling-object hazards, or other hazardous conditions identified by public health, emergency management, weather, fire, or other public safety authorities.

In determining the appropriate response, administrators may consider the severity and expected duration of the condition, the age and needs of affected students, the nature and intensity of the activity, available shelter or indoor alternatives, transportation or dismissal impacts, and whether reasonable mitigation measures are available. Staff supervising students outdoors may take immediate action to address an unsafe condition and shall promptly notify the site administrator.

AMPS

HONOR HARD WORK

### 6.4 Conflicting Information

If reliable weather or air-quality sources report materially different conditions, the School shall use the more protective applicable threshold or response unless the site administrator or designee documents a reasonable basis for using a different source, such as a more localized official reading or a site-specific condition.

## 7. Modifying or Canceling Activities

When a weather or air-quality threshold is met, the School shall modify, postpone, relocate, or cancel outdoor physical activities as necessary to protect student health and safety. The appropriate response shall be determined based on the applicable threshold, the age and needs of affected students, the intensity and duration of the activity, available mitigation measures, and current site conditions.

Modifications may include shortening the activity period, reducing running or other high-exertion activities, replacing vigorous activity with low-intensity skill work or walking, increasing water and rest breaks, using shaded or covered areas, rotating groups indoors, moving the activity to a cooler part of the day, postponing the activity, or canceling the activity.

Staff supervising outdoor activities may immediately reduce, stop, or move an activity indoors if conditions become unsafe or if a student shows signs of weather-related distress. Staff shall promptly notify the site administrator of any significant modification, cancellation, or health concern.

For field trips or off-campus activities involving outdoor exposure, the trip leader shall review forecasted weather and air quality conditions before departure and, when elevated risk is forecasted, shall consult with the site administrator or designee regarding modification, postponement, cancellation, additional water/rest/shade measures, or indoor alternatives at the destination.

## 8. Indoor Alternative Activities

The School shall identify available indoor or sheltered locations that may be used when outdoor physical activities are modified, relocated, or canceled due to extreme weather conditions. Available locations may include classrooms, multipurpose room , cafeteria, covered outdoor area, or other designated spaces.

When outdoor activity is moved indoors, staff shall select activities appropriate to the students' age, available space, supervision, and current conditions. Indoor alternatives may include modified physical education lessons, health or nutrition instruction, stretching, yoga, low-intensity movement, classroom movement breaks, skill instruction, rules or safety instruction, or other supervised activities that can be conducted safely indoors.

AMPS

HONOR HARD WORK

Staff shall ensure that indoor alternatives are adequately supervised and do not create unsafe crowding, blocked exits, excessive noise, or other conditions that would create a separate safety concern.

9. Communication Protocols

The School shall communicate weather-related decisions to staff and students through email/ParentSquare/staff briefing/radio/PA/other site communication method], as appropriate based on the timing and nature of the condition. Communications should identify the affected activity, the required modification or cancellation, and any immediate supervision or safety instructions.

The School shall notify families when weather conditions result in cancellation that will affect families, such as cancellation of an activity, significant modification of the school day, or changes to transportation, dismissal, or pickup. Notice may be provided by email, SMS or alert system, website update, or other regular school communication method.

When feasible, notice should be provided in advance. Same-day updates may be provided as conditions change.

10. Staff Training

Staff members who supervise, schedule, or make decisions regarding outdoor student activities shall receive annual training on this policy, applicable monitoring tools, activity modification procedures, recognition of heat-related illness and other weather-related health risks, and appropriate response protocols. Training should also address when to seek health office assistance, contact a parent/guardian, or call 911.

The School shall maintain records of staff training completion.

11. Weather-Related Illness and Emergency Response

11.1 Signs of Heat-Related Illness

Staff shall be trained to recognize symptoms including:

- Dizziness, fatigue, or confusion
- Nausea or vomiting
- Rapid pulse
- Loss of consciousness

11.2 Response to Heat-Related Illness Symptoms

- Stop activity immediately
- Move student to a cool/shaded area
- Provide water

AMPS

HONOR HARD WORK

- Contact School principal or designee
- Call 911 immediately if a student has loss of consciousness, confusion, seizure, difficulty breathing, chest pain, signs of heat stroke, symptoms that rapidly worsen, or any condition that appears life-threatening.
- Parents/guardians shall be notified as soon as practicable when a student experiences a weather-related health incident requiring removal from activity, emergency care, or other significant intervention.

11.3 Incident Reporting
All weather-related health incidents shall be documented in accordance with School procedures.

12. Coordination with External Agencies
The School shall coordinate, as appropriate, with local public health departments, emergency management agencies, local air districts, fire agencies, weather services, and athletic governing bodies regarding extreme weather conditions that may affect student safety. Coordination may include monitoring official alerts, following applicable public health or emergency guidance, consulting with local agencies when conditions warrant, and incorporating relevant local information into site-level decisions.

If the School participates in CIF-administered interscholastic athletics, the School shall ensure that applicable athletic personnel are aware of and follow CIF requirements and any other applicable sport-specific safety rules.

13. Facilities and Mitigation Measures
To the extent feasible, the School shall maintain or identify mitigation measures that reduce student exposure to extreme weather conditions during outdoor activities. These measures may include access to drinking water, shaded or covered areas, rest areas, cooling or heated indoor spaces, and procedures for moving students indoors when conditions require.

During wildfire smoke or poor air-quality events, the School shall consider available measures to reduce indoor exposure, including use of appropriate indoor spaces, keeping windows and doors closed when appropriate, monitoring indoor air quality where feasible, and following applicable public health or local air district guidance.

The School's ability to implement specific mitigation measures may vary based on the campus, facilities, staffing, and the nature of the activity. However, lack of a particular mitigation measure shall be considered when determining whether an outdoor activity should be modified, postponed, relocated, or canceled.

14. Recordkeeping and Compliance

AMPS

HONOR HARD WORK

The School shall maintain records reasonably documenting implementation of this policy, including staff training completion, significant weather-related activity modifications or cancellations, and significant weather-related health incidents. Records may include weather decision logs, staff notifications, calendar notes, incident reports, training rosters, or other records reasonably documenting implementation. Records shall be retained in accordance with applicable School policies.

15. Annual Review and Update

This policy shall be reviewed and updated at least annually to:

- Reflect updated CDE/CDPH guidance
- Incorporate lessons learned from prior implementation
- Address emerging concerns or challenges
- Reflect changes in weather patterns and advances in safety practices,
- Incorporate stakeholder feedback, and
- Ensure continued compliance with applicable law

The annual review should occur before the start of the school year or before the season when extreme weather is reasonably anticipated.

16. Authority and Implementation

The Principal is responsible for implementation and enforcement of this policy.

BACKGROUND:

Amethod Public Schools (AMPS) recognizes that student wellness is directly tied to academic excellence. Extensive research demonstrates that good nutrition and regular physical activity are strongly correlated with higher test scores, increased classroom focus, and lower absenteeism. Originally adopted on May 16, 2021, and revised on June 11, 2026, this policy establishes a standardized framework across all AMPS campuses to cultivate
health-promoting learning environments. Mandatory Regulatory Requirement: To maintain eligibility and compliance with the National School Lunch Program (NSLP) and the School Breakfast Program (SBP), the network is required to maintain and formally adopt an updated, board-approved Wellness Policy.

# Amethod Public Schools Wellness Policy

## Preamble

Amethod Public Schools (hereto referred to as the Network) is committed to the optimal development of every student. The Network believes that for students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during, and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism, and better performance on cognitive tasks.[1,2,3,4,5,6,7] Conversely, less-than-adequate consumption of specific foods including fruits, vegetables, and dairy products, is associated with lower grades among students.[8,9,10] In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education, and extracurricular activities – do better academically.[11,12,13,14]

This policy outlines the Network's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the Network have access to healthy foods throughout the school day—both through reimbursable school meals and other foods available throughout the school campus—in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during, and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the Network in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The Network establishes and maintains an infrastructure for management, oversight, implementation, communication about, and monitoring of the policy and its established goals and objectives.

# I. School Wellness Committee

***Committee Role and Membership***

The Network will convene a Network wellness committee (hereto referred to as the NWC) that meets at least four times per year to establish goals for and oversee school health and wellness policies and programs, including development, implementation, and periodic review and update of this Network-level wellness policy (heretofore referred as “wellness policy”).

NWC membership will include (to the extent possible): parents/guardians, students, Network and school administrators, physical education teachers, classroom teachers, school health professionals, school support personnel, Child Nutrition Services staff members, school board members, and community health professionals. To the extent possible, the NWC will include representatives from each school building and reflect the diversity of the community.

Each school within the Network will designate a School Wellness Committee (SWC) that convenes to review school-level issues, in coordination with the NWC. Each school will specify a school wellness policy coordinator, who will ensure compliance with the policy. Refer to Appendix A for a list of school level wellness policy coordinators.

## II. Wellness Policy Implementation, Monitoring, Accountability, and Community Engagement

***Implementation Plan***

The Network will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions, and timelines specific to each school, and includes information about who will be responsible to make what change, by how much, where, and when, as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education, and other school-based activities that promote student wellness. It is recommended that the school use the Healthy Schools Program online tools to complete a school level assessment based on the Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation, and generate an annual progress report.

This wellness policy and the progress reports can be found at: https://amethodschools.org/apps/pages/index.jsp?uREC_ID=376642&type=d&termREC_ID=&pREC_ID=699457

***Recordkeeping***

The Network will retain records to document compliance with the requirements of the wellness policy at insert physical location and/or on insert electronic location. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating compliance with community involvement requirements, including (1) Efforts to actively solicit NWC membership from the required stakeholder groups; and (2) These groups' participation in the development, implementation, and periodic review and update of the wellness policy;
- Documentation of annual policy progress reports for each school under its jurisdiction; and
- Documentation of the triennial assessment* of the policy for each school under its jurisdiction;
- Documentation demonstrating compliance with public notification requirements, including: (1) Methods by which the wellness policy, annual progress reports, and triennial assessments are made available to the public; and (2) Efforts to actively notify families about the availability of wellness policy.

***Annual Progress Reports***

The Network will compile and publish an annual report to share basic information about the wellness policy and report on the progress of the schools within the Network in meeting wellness goals. This annual report will be published around the same time each year in May and will include information from each school within the Network. This report will include, but is not limited to:

- The website address for the wellness policy and/or how the public can receive/access a copy of the wellness policy;
- A description of each school's progress in meeting the wellness policy goals;
- A summary of each school's events or activities related to wellness policy implementation;
- The name, position title, and contact information of the designated Network policy leader(s) identified in Section I; and
- Information on how individuals and the public can get involved with the NWC or

SWC. The annual report will be available in English and Spanish.

The Network and individual schools will actively notify households/families of the availability of the annual report.

The NWC, in collaboration with individual schools/SWCs will establish and monitor goals and objectives for the Network's schools, specific and appropriate for each instructional unit (elementary or secondary OR elementary, middle, and high school, as appropriate), for each of the content-specific components listed in Sections III-V of this policy.

The Network will track, analyze, and report on any correlations between improvements in health- promoting environments with education outcomes, such as absenteeism, disciplinary referrals, test scores, average grades, or health measures such as consumption of whole grains, fruits, or vegetables through the school meal programs or BMI, or psycho-social measures such as self- reported "connectedness," or other school climate measures. The Network is encouraged to collaborate with local research institutions and universities.
The Network will also track and annually report other related information, such as findings from food safety inspections, aggregate participation in school meals programs, income reported from competitive food sales, fundraising revenues, and other such information, as feasible.

***Triennial Progress Assessments***

At least once every three years, the Network will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the Network are in compliance with the wellness policy;
- The extent to which the Network's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the Network's wellness policy.

The person responsible for managing the triennial assessment and contact information is the Supervisor of Child Nutrition Services.

The NWC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The Network will actively notify households/families of the availability of the triennial progress report.

***Revisions and Updating the Policy***

The NWC will update or modify the wellness policy based on the results of the annual progress reports and triennial assessments, and/or as Network priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.**

***Community Involvement, Outreach, and Communications***

The Network is committed to being responsive to community input, which begins with awareness of the wellness policy. The Network will actively communicate ways in which representatives of NWC and others can participate in the development, implementation, and periodic review and update of the wellness policy through a variety of means appropriate for that Network. The

Network will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The Network will use electronic mechanisms, such as email or displaying notices on the Network's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The Network will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the Network and individual schools are communicating other important school information with parents.

The Network will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The Network will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

## III. Nutrition

***School Meals***

Our school Network is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; moderate in sodium, low in saturated fat, and zero grams *trans* fat per serving (nutrition label or manufacturer's specification); and to meet the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns, and support healthy choices while accommodating cultural food preferences and special dietary needs.

All schools within the Network participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), the Afterschool Snack Program (ASP), the At-Risk Afterschool Meal Program (ASMP), the Fresh Fruit & Vegetable Program (FFVP), and the Summer Food Service Program (SFSP). The Network also operates and/or supports additional nutrition-related programs and activities including Farm to School Programs, school gardens, and Breakfast in the Classroom. All schools within the Network are committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The Network offers reimbursable school meals that meet USDA nutrition standards.)
- Promote healthy food and beverage choices

In addition,

- Menus will be posted on the Network website or individual school websites and will include nutrient content and ingredients.
- Menus will be created/reviewed by a Registered Dietitian or other certified nutrition professional.
- School meals will be administered by a team of child nutrition professionals.

- The Network child nutrition program will accommodate students with special dietary needs.
- Students will be allowed at least 10 minutes to eat breakfast and at least 15 minutes to eat lunch, counting from the time they have received their meal and are seated.
- Students will be served lunch at a reasonable and appropriate time of day.
- Schools will be encouraged to schedule the recess period before lunch to better support learning and healthy eating.
- Participation in Federal child nutrition programs will be promoted among students and families to help ensure that families know what programs are available in their children's school.

***Staff Qualifications and Professional Development***

All school nutrition program directors, managers, and staff will meet or exceed hiring and annual continuing education/training requirements in the USDA professional standards for child nutrition professionals. These school nutrition personnel will refer to USDA's Professional Standards for School Nutrition Standards website to search for training that meets their learning needs.

***Water***

To promote hydration, free unflavored drinking water will be available to all students throughout the school day. The Network will make drinking water available where school meals are served during mealtimes. All water sources, including drinking fountains, will be maintained on a regular basis to ensure good hygiene standards. In addition, students will be allowed to bring and carry (approved) water bottles filled with only water with them throughout the day.

***Competitive Foods and Beverages***

The Network is committed to ensuring that all foods and beverages available to students on the school campus during the school day support healthy eating.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards as well as the Arizona Nutrition Standards (ANS). These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, a la carte options in cafeterias, vending machines, school stores, and snack or food carts. A summary of the standards and information are available at: http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks and http://www.azed.gov/health-nutrition/the-arizona-nutrition-standards-and-competitive-foods/. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.healthiergeneration.org/smartsnacks.

***Celebrations and Rewards***

It is recommended that all foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards and the ANS including:

1. Celebrations and parties. A list of healthy party ideas for parents and teachers, including non- food celebration ideas is available from the Alliance for a Healthier Generation and from the USDA.
2. Classroom snacks brought by parents. The Network will provide to parents a list of foods and beverages that meet Smart Snacks nutrition standards; and
3. Rewards and incentives. The Network will provide teachers and other relevant school staff a list of alternative ways to reward children. Foods and beverages will not be used as a

reward, or withheld as punishment for any reason, such as for performance or behavior.

***Fundraising***

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards and ANS may be served or sold through fundraisers on the school campus. However, schools will use non-food fundraisers and encourage those promoting physical activity (such as walk-a-thons, jump rope for heart, fun runs, etc.) when possible. The Network will make available to parents and teachers a list of healthy fundraising ideas.

***Nutrition Promotion***

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. The Network will promote healthy food and beverage choices for all by:

- Implementing evidence-based healthy food promotion techniques throughout the school
- Promoting foods and beverages that meet the USDA Smart Snacks in School and ANS nutrition standards.

***Nutrition Education***

The Network aims to teach, model, encourage, and support healthy eating by students. Schools will strive to provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences, and elective subjects;
- Include enjoyable, developmentally-appropriate, culturally-relevant, and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits, and school gardens;
- Promote fruits, vegetables, whole-grain products, low-fat and fat-free dairy products, and healthy food preparation methods;
- Emphasize caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Link with school meal programs, cafeteria nutrition promotion activities, school gardens, Farm to School programs, other school foods, and nutrition-related community services;
- Include nutrition education training for teachers and other staff.

***Essential Healthy Eating Topics in Wellness Education***

The following essential topics on healthy eating will be included in wellness education.

- Eating a variety of foods every day
- Eating more fruits, vegetables, and whole grain products
- Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain *trans* fat
- Choosing foods and beverages with little added sugars
- Eating more calcium-rich foods

- Reducing sodium intake
- Importance of water consumption
- Importance of eating breakfast
- Reading and using USDA's food labels
- Balancing food intake and physical activity
- The relationship between healthy eating and personal health and disease prevention
- Social influences on healthy eating, including media, family, peers, and culture

## IV. Physical Activity

Children and adolescents should participate in 60 minutes of physical activity every day. The Network is committed to providing: physical education, recess, classroom-based physical activity, and out-of-school time activities.

Physical activity during the school day (including but not limited to recess, physical activity breaks, or physical education) **will not be withheld** as punishment for any reason. (This does not include participation on sports teams that have specific academic requirements.) The Network will provide teachers and other school staff with a list of ideas for alternative ways to discipline students.

To the extent practicable, the Network will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The Network will conduct necessary inspections and repairs.

Through formal joint or shared use agreements, indoor and outdoor physical activity facilities will be open to students, their families, and the community outside of school hours. Inventories of physical activity supplies and equipment will be maintained.

**Physical Education**

The Network will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the “Essential Physical Activity Topics in Health Education” subsection).

All Network students in each grade will receive physical education for at least 45 minutes per week throughout the school year. The Network will strive to increase this amount to the national recommendation of 150 minutes for grades K-6 and 225 minutes for grades 7-8. Students will be moderately to vigorously active for at least 50% of class time during most physical education class sessions. The Network will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

The Network physical education program will promote student physical fitness through individualized fitness and activity assessments (via the Presidential Youth Fitness Program or other appropriate assessment tool) and will use criterion-based reporting for each student.

All physical education classes will be taught by licensed teachers who are certified or endorsed to teach physical education. Waivers, exemptions, or substitutions for physical education classes will not be permitted. Students will be excused from class only for extenuating circumstances (i.e. an IEP, 504 plan, doctor’s note). All physical education teachers will be required to participate in

at least one professional development in physical education session a year.

***Essential Physical Activity Topics in Wellness Education***

The following essential topics on physical activity will be included in wellness education.

- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Decreasing sedentary activities
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia, and sunburn while being physically active
- Phases of an exercise session, that is, warm up, workout, and cool down
- How much physical activity is enough
- Overcoming barriers to physical activity
- How to resist peer pressure that discourages physical activity
- How to find valid information or services related to physical activity and fitness
- Opportunities for physical activity in the community

***Recess (Elementary)***

All schools will provide at least **15 minutes of recess** for all grade levels on all or most days during the school year. Recess **will not be withheld** as punishment for any reason. If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing time will be built in to the recess transition period/timeframe before students enter the cafeteria.

**Outdoor recess** will be offered when weather is feasible for outdoor play. In the event that the school or Network must conduct **indoor recess,** teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

***Physical Activity Breaks (Elementary and Secondary)***

The Network recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be provided **periodic opportunities** to be active or to stretch throughout the day on all or most days during a typical school week. The Network recommends teachers provide short (3-5 minute) physical activity breaks to students during and between classroom time. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The Network will provide resources and links to resources, tools, and technology with ideas for physical activity breaks. Resources and ideas are available through USDA and the Alliance for a Healthier Generation.

***Active Academics***

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies, and others) and do their part to limit sedentary behavior during the school day.

The Network will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

***Before and After School Activities***

The Network offers opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods.

***Active Transport***

The Network will support active transport to and from school, such as walking or biking. The Network will encourage this behavior through activities such as:

- Designation of safe or preferred routes to school
- Promotional activities such as participation in International Walk to School Week, National Walk and Bike to School Week
- Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area)
- Instruction on walking/bicycling safety provided to students
- Promotion of safe routes program to students, staff, and parents via newsletters, websites, local newspaper
- Crosswalks on streets leading to schools

## V. Other Activities that Promote Student Wellness

The Network will strive to integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues, and physical activity facilities. The Network will endeavor to coordinate and integrate other initiatives related to physical activity, physical education, nutrition, and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development, and strong educational outcomes.

All school-sponsored events will adhere to the wellness policy. All school-sponsored wellness events will include physical activity opportunities.

***Community Partnerships***

The Network will develop, enhance, and continue relationships with community partners in support of this wellness policy's implementation. Existing and new community partnerships and sponsorships will be reviewed to ensure that they are consistent with the wellness policy and its goals.

***Community Health Promotion and Engagement***

The Network will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

As described in the “Community Involvement, Outreach, and Communications” subsection, the Network will use electronic mechanisms (such as email, the Network website, and social media), as well as non-electronic mechanisms, (such as newsletters, presentations to parents, or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

***Staff Wellness and Health Promotion***

The Network will strive to implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. The Network encourages staff member participation in health promotion programs and will provide information for staff members on healthy eating/weight management programs.

***Professional Learning***

When feasible, the Network will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help Network staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing Network reform or academic improvement plans/efforts.

Preamble

Amethod Public Schools (hereto referred to as the [ADDED: Network] ~~[DELETED: "AMPS" or "Charter School"]~~) is committed to the optimal development of every student. The [ADDED: Network] ~~[DELETED: Charter School]~~ believes that for students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during, and after the school day, are strongly correlated with positive student outcomes. [ADDED: For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism, and better performance on cognitive tasks. 1,2,3,4,5,6,7] Conversely, less-than-adequate consumption of specific foods including fruits, vegetables, and dairy products, is associated with lower grades among students [ADDED: 8,9,10]. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality

physical education, and extracurricular activities - do better academically [ADDED: 11,12,13,14]. ~~[DELETED: Finally, there is evidence that adequate hydration is associated with better cognitive performance.]~~

This policy outlines the [ADDED: Network's] ~~[DELETED: Charter School's]~~ approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day ~~[DELETED: while minimizing commercial distractions]~~. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the [ADDED: Network] ~~[DELETED: Charter School]~~ have access to healthy foods throughout the school day—both through reimbursable school meals and other foods available throughout the school campus—in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during, and after school;
- [ADDED: Schools engage] ~~[DELETED: Charter School engages]~~ in nutrition and physical activity promotion and other activities that promote student wellness;
- [ADDED: School] ~~[DELETED: Charter School]~~ staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the [ADDED: Network] ~~[DELETED: Charter School]~~ in creating continuity between [ADDED: school] ~~[DELETED: Charter School]~~ and other settings for students and staff to practice lifelong healthy habits; and
- The [ADDED: Network] ~~[DELETED: Charter School]~~ establishes and maintains an infrastructure for management, oversight, implementation, communication about, and monitoring of the policy and its established goals and objectives.

~~[DELETED: The Wellness Policy in its entirety may be viewed in the School's Main Office and on the school website. Specific measurable goals and outcomes are identified within each section below.]~~

## I. School Wellness Committee

### Committee Role and Membership

Outdoor recess will be offered when weather is feasible for outdoor play. In the event that the school or Network must conduct indoor recess, teachers and staff will follow

the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.]

Physical Activity Breaks (Elementary and Secondary)

The [ADDED: Network] ~~[DELETED: Charter School]~~ recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be [ADDED: provided] ~~[DELETED: offered]~~ periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. The [ADDED: Network] ~~[DELETED: Charter School]~~ recommends teachers provide short (3-5 minute) physical activity breaks to students during and between classroom time. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The [ADDED: Network] ~~[DELETED: Charter School]~~ will provide resources and links to resources, tools, and technology with ideas for physical activity breaks. Resources and ideas are available through USDA and the Alliance for a Healthier Generation.

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into "core" subject instruction when possible (e.g., science, math, language arts, social studies, and others) and do their part to limit sedentary behavior during the school day.

The [ADDED: Network] ~~[DELETED: Charter School]~~ will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement. Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The [ADDED: Network] ~~[DELETED: Charter School]~~ offers opportunities for students to

participate in physical activity either before and/or after the school day (or both) through a variety of methods. ~~[DELETED: The Charter School will encourage students to be physically active before and after school by:]~~

Active Transport

The [ADDED: Network] ~~[DELETED: Charter School]~~ will support active transport to and from school, such as walking or biking. The [ADDED: Network] ~~[DELETED: Charter School]~~ will encourage this behavior [ADDED: through activities such as:] ~~[DELETED: by engaging in six or more of the activities below; including but not limited to:]~~

- Designation of safe or preferred routes to school;
- Promotional activities such as participation in International Walk to School Week, National Walk and Bike to School Week;
- Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area);
- Instruction on walking/bicycling safety provided to students;
- Promotion of safe routes program to students, staff, and parents via newsletters, websites [ADDED: , local newspaper];
- Crosswalks on streets leading to schools;
- ~~[DELETED: Crossing guards are used]~~
- ~~[DELETED: Documentation of number of children walking and or biking to and from school]~~
- ~~[DELETED: Creation and distribution of maps of school environment (e.g., sidewalks, crosswalks, roads, pathways, bike racks, etc.)]~~

V. Other Activities that Promote Student Wellness

The [ADDED: Network] ~~[DELETED: Charter School]~~ will [ADDED: strive to] integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues, and physical activity facilities. The [ADDED: Network] ~~[DELETED: Charter School]~~ will [ADDED: endeavor to] coordinate and integrate other initiatives related to physical activity, physical education, nutrition, and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development, and strong educational outcomes.

~~[DELETED: All efforts related to obtaining federal, state, or association recognition for efforts, or grants/funding opportunities for healthy school environments will be~~

~~coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the CSWC and/or parents and the community.]~~ All school-sponsored events will adhere to the wellness policy. All school-sponsored wellness events will include physical activity opportunities [ADDED: .] ~~[DELETED: and healthy eating opportunities when appropriate.]~~

### Community Partnerships

The [ADDED: Network] ~~[DELETED: Charter School]~~ will develop [ADDED: , enhance, and continue] relationships with community partners [ADDED: in support of this wellness policy's implementation.] ~~[DELETED: (i.e. hospitals, universities/colleges, local businesses, etc.) in support of this wellness policy's implementation.]~~ Existing and new community partnerships and sponsorships will be [ADDED: reviewed] ~~[DELETED: evaluated]~~ to ensure that they are consistent with the wellness policy and its goals.

### Community Health Promotion and Engagement

The [ADDED: Network] ~~[DELETED: Charter School]~~ will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities [ADDED: and will receive information about health promotion efforts.]

As described in the "Community Involvement, Outreach, and Communications" subsection, the [ADDED: Network] ~~[DELETED: Charter School]~~ will use electronic mechanisms (such as email, [ADDED: the Network website, and social media),] ~~[DELETED: or displaying notices on the Charter School's website),]~~ as well as non-electronic mechanisms, (such as newsletters, presentations to parents, or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

### Staff Wellness and Health Promotion

The [ADDED: Network] ~~[DELETED: AMPS]~~ will [ADDED: strive to] implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. The [ADDED: Network encourages] ~~[DELETED: Charter School promotes]~~ staff member participation in health promotion programs and will [ADDED: provide information for] ~~[DELETED: support programs for]~~ staff members on healthy

eating/weight management [ADDED: programs.] ~~[DELETED: that are accessible and free or low-cost.]~~

Professional Learning

When feasible, the [ADDED: Network] ~~[DELETED: Charter School]~~ will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help [ADDED: Network] ~~[DELETED: Charter School]~~ staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing [ADDED: Network] ~~[DELETED: Charter School]~~ reform or academic improvement plans/efforts.

# PURPOSE AND INTENT

The purpose of these fiscal policies and procedures is to document the policies and internal controls that support the successful operation of Amethod Public Schools ("AMPS" or "Network") and its schools. The intent is to align with and follow legal and official regulations that apply to charter schools and non-profit corporations in the State of California as well as the additional best practices and sound internal controls that are recommended or required by AMPS' authorizers, lenders, funders, and other experts such as the California Charter School Association (CCSA), Charter School Development Center (CSDC), the California Department of Education (CDE), and California's Fiscal Crisis and Management Assistance Team (FCMAT).

The policies and procedures are reviewed at least annually by AMPS staff and advisors for compliance with new requirements and evolving guidance from the sources above, and changes are brought to the AMPS Board for approval as needed.

# EXPENDITURE APPROVAL

## Avoiding Conflicts of Interest

It is essential to avoid any conflicts of interest when making expenditure recommendations or decisions. A conflict of interest exists when an individual involved in a recommendation or decision has a personal financial interest in the outcome of the decision and does either of the following:

- Participates in decision-making related to that item.
- Influences, or attempts to influence, others making a contract or decision related to that item whether the attempt occurs inside or outside a board meeting.

AMPS has adopted and published a Conflict of Interest Code that has been approved by the AMPS Board and complies with the Fair Political Practices Commission (FPPC). Any potential conflicts of interest that might come into play with any expenditure recommendations or decisions must be disclosed by the employee or Board member and addressed pursuant to AMPS's Conflict of Interest Code.

## Authorization of Expenditures

**Authorizing AMPS School and Network Expenditures:**

- All contracts, purchases, or other expenditures (collectively referred to hereafter as "Expenditures") made on behalf of any of the schools must be approved by the Principal or equivalent. The Chief Executive Officer (CEO), Chief of Staff (CS), Chief Operations Officer (COO), and Chief Academic Officer (CAO), collectively the "C-Suite", and Home Office Directors may also approve Expenditures on behalf of schools, up to their relative approval limits.
- Expenditures limits shall be measured on a fiscal year basis (July 1 - June 30).
- All Expenditures in excess of $5,000 made on behalf of a single school site or the network as a whole (across multiple schools) must be approved by a Senior Director.

- All Expenditures in excess of $10,000 must be approved by a member of the C-Suite.
- All Expenditures in excess of $25,000, must be approved by the CEO.
- All Expenditures in excess of $50,000, must be approved by the Board of Directors unless explicitly delegated otherwise on a case-by-case basis by the Board either (i) to staff, or (ii) to one or more Board Members who are designated to act on behalf of the Board as a whole.
- In the case of Expenditures being reimbursed or paid to an approver listed above, the approver's supervisor must approve the reimbursement.
- In the case of Expenditures being reimbursed or paid to the CEO, the Board Chair must approve the reimbursement. The Board Chair may elect to delegate the approval of reimbursements of routine business Expenditures below $500 to a staff member other than the CEO (typically the COO).

When approving Expenditures for any School or the Network as a whole, the designated approver must:

- confirm that the Expenditure falls within the currently approved budget;
- contact the Finance Department, COO or designee if needed to confirm that funds are currently available for Expenditure;
- confirm that the Expenditure is allowable under the appropriate revenue source;
- confirm that the Expenditure is appropriate and consistent with the vision, approved charter, school and network policies and procedures, and any laws or applicable regulations;
- confirm that the price is competitive and prudent (and when the Expenditure is greater than $25,000, document a good faith effort to secure the lowest possible cost for comparable goods or services); and
- work with the COO or designee to conduct a full bid process in accordance with law when required by law.

**Federal Spending Thresholds:**

The following thresholds and procedures apply when using Federal funding for the intended purchase. Procurement methods shall be selected based on the total aggregate cost of the purchase and in accordance with federal regulations, including 2 CFR 200.320(a) and 2 CFR 200.320(b), as follows:

1. Informal Purchase Methods – Micro-Purchase Threshold
    - Up to $10,000
    - Purchases at or below this amount may be awarded without soliciting competitive price or rate quotations, provided the price is reasonable.
    - To the extent practicable, micro-purchases should be distributed equitably among qualified suppliers.

2. Small Purchase Procedures

    - Over $10,000 and up to $119,100 (for 2026; $114,500 for 2024)
    - Price or rate quotations must be obtained from an adequate number of qualified sources.
    - Documentation must be maintained showing the vendors contacted and the basis for

selection.

3. Formal Procurement Requirements

- Expenditures over $119,100 (for 2026; $114,500 for 2024)
- Formal procurement procedures must be used, including sealed bids or competitive proposals.
- Public solicitation is required.
- Cost or price analysis must be performed and documented.
- Contracts must be awarded to the responsible bidder whose proposal is most advantageous to the organization, considering price and other relevant factors.

Thresholds shall automatically adjust if federal regulations revise them. The organization will follow the most current federally established thresholds.

## No Gifts of Public Funds

Article 16, Section 6 of the California Constitution prohibits any gift of public funds to an individual or corporation. Per FCMAT guidance, the constitutional prohibition against a gift of public funds is generally not an issue when the direct and primary public purpose of an expenditure results in the public receiving a benefit from the expenditure. Additionally, expenditures of public funds that involve a benefit to private persons are not gifts within the meaning of the California Constitution if those funds are expended for a public purpose.

As such, any expenditure of public funds must primarily benefit the education of students in AMPS's schools in order to not be considered a prohibited gift of public funds. Expenditures driven by personal motives are not justified even if they are well intentioned or based on benevolent feelings (e.g., gifts expressing gratitude to staff or volunteers or sympathy to community members).

## No Political Contributions or Involvement

AMPS will not contribute to or otherwise make expenditures in support of any political campaign or candidate for public office. AMPS will not use (or allow management, staff, or other representatives to use) its assets or resources for support or opposition to any political campaign or candidate for public office. Individual employees, on their own time and with their own money, may contribute to candidates and campaigns of their choosing.

## Signing of Contracts

Consideration will be made of in-house capabilities to accomplish services before contracting with outside parties.

**Schools:**

- All contacts must be reviewed and approved by the CEO, regardless of fiscal commitment. CEO may designate an alternative signer. If an alternative signer is designated:

    - Principals are the only school-based staff authorized to sign contracts on behalf of their school.
    - Members of the C-Suite may also sign contracts on behalf of schools.
- Principals are responsible for ensuring that school-based contracts are performed to completion.

**Network:**
- **All** contracts must be reviewed and approved by the CEO, or Designee.
- The Board Chair or CEO may sign contracts over $50,000 upon Board approval.
- The appropriate C-Suite member or designee and the Finance Department are responsible for ensuring that network-based contracts are performed to completion.

**Contract Documentation**
All contracts above $25,000 must document a good faith effort to secure the lowest possible cost for comparable goods or services that meet all user requirements. Competitive bids will be obtained where required by law or otherwise deemed appropriate and in the best interests of the Network.

Written contracts clearly defining work to be performed will be maintained for all contract service provider relationships involving an Expenditure of $2,500 or more (i.e. consultants, independent contractors, subcontractors).

Contract service providers must show proof of being licensed and bonded, if applicable, and of having adequate liability insurance and worker's compensation insurance currently in effect. The COO or CS may also require that contract service providers list AMPS as an additional insured on service providers' insurance policies.

If the contract service provider is a sole proprietor or a partnership (including LLC, and LLP), the contractor will provide a W-9 prior to submitting any requests for payments.

Contract service providers will be paid in accordance with approved contracts as work is performed.

## Authorizing Payments to Vendor

**A. ACH Payments**
The Board Chair, CEO and COO will have the authority to approve ACH payments.

**B. Online Bill Pay**
The Board Chair, CEO and COO will have the authority to approve online bill payments.

**C. Checks**
The Board will designate the authorized check signers on all bank accounts and the COO will maintain a list of such authorized signers. Bank checks will be kept under lock and key, at both the Home Office and with the Back Office Provider. When there is a need to generate a bank check, the check will be entered into a ledger at the same time that the check is written. Checks may not be

written to cash, bearer, or petty cash. Under no circumstance will any individual sign a blank check or a check made out to themselves. The COO or designee will put in place appropriate procedures to ensure that all checks are accounted for at all times (e.g., by monitoring check registers for any missing checks, and by ensuring that voided checks are stored in the organization's accounting files).

# BANK ACCOUNTS, CREDIT CARDS & CASH

The Board of Directors authorizes the Board Chair, CEO, and COO to open and close bank and credit card accounts. The Board Chair, CEO, and COO may be authorized as co-administrators on all bank and credit card accounts, in accordance with the list of authorized account signers.

## Bank Accounts

The organization is expected to maintain two types of bank accounts:

- **Operating Account** - The Network's revenue will be deposited into an operating account that only the Board Chair, CEO and COO are authorized to manage. Only these individuals will have signing authority over these accounts or access to the funds in the accounts.
- **Savings Account(s)** - The COO shall manage Network's cash to maximize savings in accounts with either FDIC-insured banks or NCUA-insured credit unions, ensuring that cash is spread to sweep accounts or across banks or credit unions to minimize risk.
- **School-level Accounts** -School sites will not have individual accounts, and will abide by the Network-level accounts and processes.

## Cash Management

This section covers the management of cash on hand at the schools.

- All cash held at schools (e.g., for school events, fundraising, etc.) will be the responsibility of the Principals. Teachers, office personnel, and other staff shall not hold cash separately. All cash will be delivered to a Principal on the same day it is received.
- At no times will cash held at schools overnight exceed $5,000. Excess cash will be delivered to the Home Office at minimum weekly, or sooner if the balance nears $5,000.
- No Loans will be made from the cash held at schools.

Procedures for handling cash received by the Network:

## Credit Cards

**Credit Cards**
The COO may authorize individuals to carry and use an AMPS credit card to make purchases on behalf of the school or network, consistent with the Expenditure approval policies above. The cardholder must sign a cardholder agreement in order to receive a physical credit card.

Credit cards will be kept under supervision of the approved individual, and all related documentation of purchases will be turned in to the Finance Department monthly for reconciliation. If itemized receipts are not available or are missing, the individual making the charge will be held responsible for payment and credit card privileges may be revoked.

The COO or designee may issue one-time virtual cards to employees needing to make a single online purchase under $1,000, with approval of the employee's supervisor.

Credit card statements of employees shall be reviewed and approved monthly by employee's supervisor and the COO or designee.

Please note: orders are not currently exempt from sales tax.

## Payments Using an AMPS Credit Card

AMPS's preferred payment method is to receive an invoice from vendors and pay by check.

However, an AMPS credit card may be used when a vendor will not accept another form of payment. Credit Cards are to be used for business purposes only. Personal purchases of any type are not allowed. Each staff member who is authorized to use a credit card will be required to sign a credit card use certification statement acknowledging that the card shall only be used for legitimate charter school-related business purposes and that the cardholder agrees to take responsible precautions to protect the card from loss or theft.

Credit card purchases are subject to the same expenditure authorization limits and processes as all other purchases. Credit card purchases must be approved in advance by an AMPS employee with sufficient signing and budget approval authority for the planned expenditure.

If payment is made using an AMPS credit card account, follow the process below.

| Step | Person Responsible | Task | Deadline |
|---|---|---|---|
| 1 | Cardholder | Secure approval for the purchase by any required authorizers based on the amount of the expenditure and which budget it will be applied to. | Prior to purchase |

## Independent Contractors (1099 Vendors)

This section refers to independent contractors, known as 1099 vendors. These are defined as outside individuals or companies who are contracted by AMPS to provide services and are not paid through AMPS' payroll processes for employees. Such individuals must meet all of the following criteria:

A. the individual must be free from the control and direction of the AMPS in connection with the performance of the work, both under the contract for the performance of such work

and in fact;

B. the individual must perform work that is outside the usual course of AMPS's business; and
C. the individual must be customarily engaged in an independently established trade, occupation, or business of the same nature as the work performed for AMPS.

Such individuals are typically self-employed, have no set hours, and have the freedom to render services which are not controlled by AMPS. Independent contractors also typically work for a pre-determined period of time on a specifically defined project. Prior to hiring an independent contractor, consideration will be made of in-house capabilities to accomplish services.

| Step | Person Responsible | Task | Deadline |
|---|---|---|---|
| 1 | AMPS Staff Member that is requesting the Contractor | Identifies a need that cannot be met in-house, identifies an independent contractor who can provide the services, and makes a request to the Director or C-Suite supervisor to hire an independent contractor to provide the services | As needed |
| 2 | Director, CEO, COO, CS or CAO | Consults with the Finance Department as necessary in order to evaluate the criteria for independent contractor status. If valid, approves the request. | As needed |
| 3 | Contractor | Provides a contract outlining services to be completed.<br><br>Provides a completed W-9 to AMPS.<br><br>(At times, AMPS will use our own contract template rather than using the Contractor's template. | 4 | Finance Department/COO or designee | Reviews W-9 and draft contract for compliance. If acceptable, forwards to appropriate signer within AMPS. | In advance of beginning work |
| 5 | CEO or Designee | Signs contract with independent contractor, after which work can begin | In advance of beginning work |
| 6 | Contractor | Completes work and submits invoice(s) to appropriate staff member/Finance Department.<br>Submits work product updates as needed. | Monthly or at completion of project |
| 7 | Staff Member | Follows guidelines for invoice payments, ensuring appropriate approvals. | As invoices are received |

| | | | |
|---|---|---|---|
| 8 | Finance Department/Back Office Provider | Provides 1099 to contractor and files 1099 forms with the IRS. | Annually as required by law |

# RECEIPTS / ACCOUNTS RECEIVABLE

Documentation will be maintained for all receipts of funds or accounts receivable and forwarded to the Finance Department. All receipts and accounts receivable will be recorded by the Finance Department/Back Office Provider in the general ledger and accounts receivable will be collected on a timely basis.

## Voluntary Donations / Contributions

Because charter schools are tuition-free public schools, neither parents nor students are required to donate their time or money as a condition of enrollment in any AMPS school. No student will be denied enrollment because a parent does not make a financial contribution to the charter school. While parent engagement and support of AMPS' schools is encouraged, any such activities are optional. In cases where a recommended donation or fee is stated for participation in an AMPS activity, provision will be made for the student to participate in the activity without making such donation or paying such fee. In cases where AMPS sells merchandise (e.g., food at fundraising events, etc.) student's participation in AMPS' educational programs will not be conditioned on purchasing such merchandise. AMPS will take no adverse actions against a student or parent that does not or cannot volunteer or contribute.

**Returned Check Policy**

A returned-check processing fee may be charged for checks returned as non-sufficient funds (NSF). Unless otherwise pre-approved by the COO, payment of the NSF check and processing fee must be made by cash, money order or certified check.

In the event that a second NSF check is received for any individual, in addition to any processing fee, the individual will lose check-writing privileges. Payment of the NSF check, the processing fee and any subsequent payment(s) by that individual must be made by cash, money order or certified check.

If unsuccessful in collecting funds owed, AMPS may initiate appropriate collection and/or legal action at the discretion of the COO, CEO and/or Governing Board.

# POSITION CONTROL & PAYROLL

**Personnel Budget Approvals**
AMPS's Board approves each school's annual budget and revisions to that budget on a periodic basis. Each budget will include the portion of each school's approved expenditures that are related to employee compensation and benefits. The Board delegates individual personnel decisions (e.g., hiring, firing, compensation) to AMPS staff (subject to adherence with the Board approved budget and any relevant AMPS policies) as follows:

**School Positions:**
- Recommendations regarding creating or filling all School positions will be made by the Principal(s) of the School.
- The AMPS human resources team will determine the appropriate compensation for any position based on AMPS's compensation philosophy, salary bands, and other reasonable factors.
- The COO will review all School positions.
- The COO will review the budgetary impact of all School positions.

The CEO will give final approval on all positions and compensation.

**Home Office Positions:**
- Recommendations regarding creating or filling all Home Office positions will be made by the relevant Home Office department head.
- The AMPS human resources team will determine the appropriate compensation for any position based on AMPS's compensation philosophy, salary bands, and other reasonable factors.
    - The COO will review all Home Office positions.
    - The COO will review the budgetary impact of all Home Office positions.
    - The CEO will give final approval on all positions and compensation.

As with any other Expenditures, the appropriate approver must:
- confirm that the proposed position falls within the currently approved budget;
- confirm that the position is allowable under the appropriate revenue source; and
- confirm that the position is appropriate and consistent with the vision, approved charter, school and network policies and procedures, and any laws or applicable regulations.

Retention and/or Recruitment Bonuses
- The CEO shall have the ability to offer signing/recruitment bonuses or retention bonuses up to $5,000 per employee annually, for positions that are deemed "difficult to staff". A "difficult to staff" position is considered a role that faces challenges in attracting qualified candidates due to factors like specialized skills, demanding work conditions, geographic location, or limited applicant pool. No bonuses may be awarded if total compensation for the position would be excessive under IRS standards for non-profit employees. The CEO will consider past, present, and future compensation trends in deciding whether payment of a bonus could be considered "excessive" or "inequitable" and therefore should be avoided.

**Position Control**

Position control refers to a system of tracking personnel budgets based on positions that are approved and expressed as full-time equivalents (FTE), rather than based on specific employees. It is used to budget and forecast expenses and to ensure that only authorized positions are filled and only appropriate personnel receive a payroll check. AMPS's Human Resources and Finance Departments will maintain a position control system to track which positions are approved per the approval policies above. It will also track which specific employee is in each role and what their compensation is for that position.

Information from the position control system will be incorporated into budget monitoring and reporting processes. It will also be integrated into AMPS's payroll and HR systems to ensure personnel costs are accurately recorded on a monthly basis and to identify and correct any material differences that arise from time to time.

**Employee Qualifications**
All AMPS staff on payroll must comply with state law requirements before being hired or assigned to AMPS's payroll system. Principals are responsible for working with Human Resources to manage the formal hiring process at their schools. Please refer to the AMPS Employee Handbook for information on employee requirements, and managing vacation and sick leave.

**Payroll Submission Procedure**
AMPS uses Paylocity for payroll and submits payroll online. Payroll is processed in-house by the Payroll and Benefits Manager, and is approved by the COO or designee.

**Payroll Distribution**
It is the preferred method of AMPS to disburse payroll via direct deposit. Direct deposit statements and W-2 forms are available to all staff online through Paylocity. Should an employee request paper paychecks, they will be delivered to the Home Office.

**Payroll Taxes and Filings**
Paylocity and the Back Office Provider (if applicable) will prepare payroll check summaries, tax and withholding summaries, and other payroll tracking summaries, and will file all state and federal quarterly and annual payroll tax forms and W-2 forms on a timely and accurate basis. The COO or designee will review the forms before the vendor submits them to the respective employees or agencies.

**Record Keeping**
All payroll records will be maintained by AMPS or the payroll vendor for seven years or longer if otherwise required by law.

# EXPENSE REIMBURSEMENTS

**Employee Business and Travel Reimbursements**

At times, AMPS staff are asked to travel or have to purchase work related items using their own cash or credit cards. Business and travel expenses will be reimbursed for pre-approved expenses consulted and approved by the supervisor in accordance with their budget authorization and signing authority.

Expense reports will be processed on a weekly basis. For travel reimbursements policies and limits, refer to the travel reimbursement policy in the appendix.

This section covers the process for submitting an expense or travel reimbursement

| Step | Person Responsible | Task | Timing |
|---|---|---|---|
| 1 | Staff Member | Keep track of all itemized receipts (including refund receipts). Non-itemized receipts or expenses without receipts may not be reimbursed. | As purchased |
| 2 | Staff Member | Complete expense reimbursement form and attach itemized receipts for all charges. | Not less than monthly, as necessary |
| 3 | Supervisor/ Approver | Review reimbursement form and approve it. | Within 3 business days |
| 4 | Finance Department | Review reimbursement requests and prepare a summary for payment by Back Office Provider, or review expense in expense management system. | Weekly |
| 5 | Finance Department/Back Office Provider | Enter into accounting software and reconcile monthly as per above | Monthly |
| 6 | COO or designee | Review the reconciliation and notify the CEO immediately if any discrepancies are found. | Monthly |

**Volunteer Expenses**

All volunteers will submit a purchase request to the Principal, Home Office Director, or C-Suite member for all potential expenses. Only items with prior authorization from such authorizer will be paid/reimbursed. Itemized receipts must be included to be eligible for reimbursement. Reimbursements for volunteers will be processed by the Finance Department.

**Governing Board Expenses**

The individual incurring authorized expenses while carrying out the duties of AMPS will complete and sign an expense reimbursement form, and include all itemized receipts. The COO or designee

will approve and sign the reimbursement form, and submit it to the Finance Department for payment.

**All Expenses**
All expenses submitted for reimbursement must have an itemized receipt. The receipt should not contain personal items on it, and under no circumstances may the receipt contain alcohol or any other expense that violates AMPS's expense rules.

Requests for mileage reimbursement must include Google Maps printout, or similar, with the mileage requested being the lesser of the travel from home or school site to the destination. Mileage will be reimbursed at the IRS Standard Mileage Rate in place at the time of travel.

Requests for reimbursement must be made within 30 days of incurring the expense.

Credit card users shall use the same guidance in the Travel Reimbursement Policy when making purchases and Expenditures during business travel for AMPS.

## FINANCIAL REPORTING BUDGETING & RECORDS RETENTION

**Financial Budgeting**

The Back Office Provider, in consultation with the COO or designee, will prepare an annual financial budget for each school. The budget will include input from Principals, Home Office Directors, and members of the C-Suite. The annual budget will be submitted to the Board of Directors for approval prior to the July 1 start of each fiscal year. It will be accompanied by a description of the assumptions that guided the creation of the budget. The approved budget for each School will be incorporated in the Local Control and Accountability Plan (LCAP) for that School, which will be prepared, reviewed, and adopted in accordance with California law. The LCAP and Budget for each School will be submitted to such School's authorizer on a timeline and in such format as is required by law.

The Back Office Provider will prepare budget revisions on an as-needed basis throughout the year, subject to Board approval. At a minimum, such revisions will include a First Interim and Second Interim budget revision for each School that will be prepared, approved, and submitted to such School's authorizer on a timeline and in such format as is required by law.

Budgets will be developed using reasonable and timely assumptions regarding all areas of the network's operations, including, but not limited to enrollment and attendance projections, student demographics that impact funding, public funding rates, non-public revenue sources, position control and staffing levels, employee benefit costs, and other cost projections. They will factor in reasonable and timely assumptions related to COLAs and inflation expectations. Budgets will include a multi-year financial projection that (at a minimum) includes the current year plus two following years.

**Financial Monitoring and Reporting**

The Back Office Provider and COO and/or designee will periodically monitor adherence to the then-current budget and share a financial update and reports with the Board of Directors at each meeting of the Board. Such monitoring, updates and reports will include a budget-to-actual variance analysis for each major category of the then-current budget for each school, and a narrative description of noteworthy variances. If necessary, action will be taken to adjust the budget based on these reports.

The Finance Department, Back Office Provider, and COO will provide the CEO and/or Board of Directors with additional financial reports, as needed.

AMPS will provide financial reports (e.g., Unaudited Actuals) for each School to such School's authorizer on a timeline and in such format as is required by law. AMPS will work with its auditor to file all information and tax returns required by the Internal Revenue Service (IRS) and California's Franchise Tax Board (FTB) on a timely and accurate basis.

AMPS' Finance Department and/or Back Office Provider will maintain a financial reporting calendar of relevant financial reporting deadlines to ensure that required reporting deadlines are met on a timely basis.

**Accounting Dimensions**

AMPS will adhere to all elements of California's Standardized Account Code Structure (SACS) that are required to meet the needs of State financial reporting requirements. This currently includes tracking all revenues and expenditures by "object" and "resource" as those terms are defined in the California School Accounting Manual (CSAM). AMPS may implement additional accounting dimensions as needed for its own internal reporting or to provide improved visibility into program operations and efficiency.

**Restricted Fund Accounting and Reporting**

AMPS and the Back Office Provider will maintain sufficiently detailed fund accounting procedures and records to identify the sources and uses of all restricted funding sources at each school so as to be able to separately identify the revenues, expenses, receivables, payables and cash and fund balance for that funding source at that school. Over time, the expectation is that all restricted funding sources will eventually reach a $0 fund balance as expenditures match the revenues received. Accurate and timely reports will be filed for each such funding source and school as required by that funding source.

**Retention of Records**

Financial records, such as transaction ledgers, canceled/duplicate checks, attendance and entitlement records, payroll records, and any other necessary fiscal documentation will be retained for a minimum of seven (7) years. At the discretion of the COO, certain documentation may be maintained for a longer period of time.

# FINANCIAL RESERVES, LIQUIDITY, AND INVESTMENTS

## Funds Balances / Reserves

AMPS recognizes the need to maintain an adequate fund balance that will ensure the financial viability of our network and each school. The following policies related to the maintenance of adequate fund balances, reserves, and cash liquidity reflect recommendations made by the California Department of Education, our County Offices of Education and authorizers, our financial auditor, and researched best practices among California CMO peers and non-profits more broadly.

AMPS will maintain a positive fund balance each year on a consolidated basis, and at each school. The fund balance will be measured annually as the sum of the network's or the school's assets, minus its liabilities, in both cases as recorded in AMPS' or the Back Office Provider's accounting system.

**Building / maintaining reserves under normal circumstances:** Each AMPS school, and the AMPS Home Office is expected to develop an annual budget that has a neutral or positive impact on its fund balance (i.e., with revenues equaling or exceeding expenses) and with a concrete multi-year plan to ensure at minimum breakeven operations for a 3-year rolling period, and a minimum 5% reserve for economic uncertainty. The COO or designee will work with each school to develop an individualized plan to reach each school's goals. An annual contribution to the school's reserve will be built into each school budget as needed.

## Financial Assets/Cash Management Strategy

This policy regarding the cash management strategy and savings instruments of AMPS' financial assets is set forth to:

- define and assign the responsibilities of all parties involved in managing AMPS' cash,
- establish a clear understanding of the savings policy and objectives, and
- provide guidance and limitations to any internal or outside portfolio manager regarding the investment of AMPS assets.

**Savings Objectives**

The objective of AMPS' cash management strategy is (a) to preserve capital required for day-to-day operations of our schools and (b) to maximize funds held in interest-bearing accounts.

The investment horizon of the funds should endeavor to match the duration of the associated funding needs. Funds required for day-to-day operations will be maintained in a standard checking account. Funds for savings will be maintained by direction of the COO in Certificates of Deposit, High-yield savings, or other investments that are not subject to market fluctuations.

**Delegation of Authority**

The Board of Directors is responsible for approving the savings policy and has authorized the CEO and COO to oversee the placement of assets on an ongoing basis. The CEO and COO are authorized

to delegate certain responsibilities to professional agents such as portfolio managers, custodians, attorneys, auditors, consultants and other specialists who are experts in their field, as needed.

**General Cash Management Principles**

- Investments shall be made solely in the interest of AMPS Public Schools.
- Assets shall be invested with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the investment of a fund of like character and with like aims.
- Savings shall be reasonably diversified in multiple banks and/or credit unions.
- Cash is to be employed productively to provide safety, liquidity, and return.

**Allowable Assets**

Cash Equivalents

- Checking Accounts
- Savings Accounts
- Treasury Bills
- Time Deposits, including Certificates of Deposit

# FIXED ASSETS / DEPRECIATION / LEASES / INSURANCE

## Asset Inventory

A depreciable asset is defined as all items, purchased or donated, with a value of $5,000 or more and with a useful life of more than one year.

The Finance Department will maintain records of all receipts for purchased assets, including depreciable assets, as well as non-capitalized assets.

The Finance Department, in consultation with the Technology and Facilities Departments, will also maintain an inventory or log of all depreciable assets. The log will include the original purchase price and date, a brief description, serial numbers, and other information appropriate for documenting assets. The log will also include the useful life of any depreciable assets in order to facilitate depreciation accounting noted below. The COO will immediately be notified of all cases of theft, loss, damage or destruction of assets.

## Asset Sales and Disposal

The COO or designee will approve any plans for disposing of any fixed assets with a clear and complete description of the asset and the date of disposal. Any asset disposal will be managed in a manner that ensures that AMPS receives a fair market value for such asset, and that avoids any conflicts of interest.

Capital assets may be sold or traded for new equipment; when this occurs, an asset sale and disposition form should be completed. Upon approval, the school may advertise the property for sale or submit a list to the Facilities Department for sale and disposition. After completion of the sale, a completed original bill of sale form with authorized signatures should be submitted to the Finance Department. The Finance Department and Back Office Provider should delete the item from the asset records and record any gain or loss on the disposition.

**Worn Out or Obsolete Assets**
Worn out or obsolete assets with no cash value should be reported to the Finance and Facilities Departments on the asset disposition form, which includes a description, serial number and condition of the asset. The Facilities Department should inspect all worn out or obsolete property before it is discarded. The asset can then be removed from the asset records.

**Missing or Stolen Assets**
Any missing or stolen asset should be reported in writing to the Principal and Facilities and Finance Departments as soon as its absence is discovered . The report should include the description, serial number, and other information about the lost item. The Finance Department should determine the proper course of action and should notify the COO or CS, as the charter school's insurance carrier and any outside authorities may need to be notified . If the asset is not recovered, it can be removed from the asset records.

The Finance Department and Back Office Provider will record any such disposal in AMPS' accounting software on a timely and accurate basis.

## Capitalization and Depreciation

AMPS has determined a capitalization threshold of $5,000 as appropriate. AMPS' Finance Department and/or Back Office Provider will record depreciation expense with all capitalized assets in order to track those assets' decline in value because of wear and tear, age, deterioration, or obsolescence.  AMPS uses the straight-line depreciation method that reports the same amount of decline in value each year.

## Insurance

The CS and/or COO will ensure that appropriate insurance is maintained at all times with a high-quality insurance agency.

The CS and/or COO will maintain the files of insurance policies, including an up-to-date copy of all, insurance policies, certificates of insurance (including the designation of required additional insured as required under AMPS's charters, MOUs, lending agreements, and other contracts as appropriate), and related claim forms.

The CS and COO will carefully review insurance policies on an annual basis, prior to renewal.

Insurance will include at minimum, property, general liability, worker's compensation, student accident, professional liability, and directors' and officers' coverage.

# LOANS AND BORROWING

## Loans

The Board will approve all loans made or taken out by AMPS. In the case of a long-term loan, approval may also be required from the chartering authority (in accordance with the terms of the charter petition or an MOU with such authority) and/or other lenders (in accordance with the loan documents). Once the loan is approved by the Board, a promissory note will be prepared and signed by the Board Chair or CEO before funds are borrowed.

## Loans to/from Employees

Loans to or from employees are not permitted.

## Lines of Credit/Credit Card Account

AMPS will endeavor to maintain a line of credit to provide short-term cash liquidity as needed pursuant to the policies above. The CEO and COO have been authorized by the Board of Directors to borrow funds against the line of credit or to establish Network credit card accounts on behalf of AMPS, as needed to ensure that the network meets its financial obligations.

# ANNUAL FINANCIAL AUDIT

The Board will annually select an auditor by April 1 prior to the fiscal year-end (June 30th).

The Board will annually contract for the services of an independent certified public accountant on the State of California's approved list to perform an annual fiscal audit. The audit shall include, but not be limited to:

- An audit of the accuracy of the financial statements;
- An audit of the attendance accounting and revenue accuracy practices;
- An audit of the internal control practices;
- Because AMPS's schools are considered local government entities the independent audit will be conducted based on governmental auditing standards and the provisions listed in the Guide for Annual Audits of TK-12 Local Educational Agencies and State Compliance Reporting, published by the Education Audit Appeals Panel (EAAP) and available at www.eaap.ca.gov.

The annual audit will be presented to the AMPS Board for review and approval each year and will be filed with the CDE and State Controller's Office (SCO) on a timely basis each year. Any audit exceptions and/or deficiencies will be resolved to the satisfaction of the AMPS Board and the Board of Directors of the charter-granting agency.

# APPENDIX A – TRAVEL AND REIMBURSEMENT POLICY

Employees who travel on behalf of AMPS in order to fulfill their work duties or to attend workshops, conferences, or other employment-related activities, or who purchase work-related items with personal funds, will be reimbursed for qualified expenses incurred.

The following policy is intended to address the vast majority of expenses incurred by AMPS staff. In the event that exceptions are required due to the unique nature of the work-related purpose of the trip or the specific location to which the staff member is traveling, the staff member must get prior approval from their supervisor prior to incurring expenses outside this policy. Supervisors are responsible for exercising prudent judgment in evaluating such requests and encouraged to discuss them with the COO if they have any doubt about the appropriateness of the request.

All reimbursement claims must be pre-approved by the employee's supervisor, and must be supported by the original, itemized receipts, or in the case of mileage, tolls, and public transportation, by print outs of maps and fare schedules. If for some reason, obtaining a receipt is not possible, contact the COO for guidance on how to proceed.

**General Travel Requirements**
The employee requesting to travel on behalf of AMPS must work with his/her supervisor to determine whether the benefit from the travel to both the employee and to AMPS will outweigh anticipated costs of the travel, including how the employee's absence will affect teammates, students and upcoming deadlines. All efforts should be made to explore alternatives such as participation by phone or videoconference, and availability of local programs or training opportunities.

Employees with job duties that require regular travel between school sites are not required to request approval in advance of travel. Again, efforts should be made to explore alternative participation methods as often as possible to minimize expense to AMPS.

**Long-Distance or Multi-Day Travel:** When an employee travels for professional development opportunities, conferences or workshops that will require an absence from his/her worksite for more than one day, the following expenses may be eligible for reimbursement:

- meals and non-alcoholic drinks;
- transportation to and from the airport and/or hotel or other business-related locations;
- overnight hotel fees and taxes;
- mileage to and from the airport or hotel, if driving yourself;
- parking; and
- internet access if needed for business purposes.

**Non-reimbursable expenses:** The following expenses are not eligible for reimbursement:

- alcoholic beverages;
- entertainment (movie, purchases/rental, plays, concerts, etc.);
- additional expenses incurred in the accommodation of an employee's non-AMPS related travel plans (e.g. extra hotel nights, additional stopovers, meals, increased fares to accommodate a different flight schedule, etc.);

- expenses associated with travel of an individual's spouse, family or friends;
- reimbursements for gifts of any kind; and
- expenses lacking receipts or sufficient supporting evidence to justify the expense.

**Air Travel Reimbursement**
Air travel reservations should be made as far in advance as possible in order to take advantage of reduced fares. Flights must be reviewed by the employee's supervisor or the Finance Department before booking to ensure costs are reasonable, appropriate, and within budget. Employees should use price comparison sites to find the best/reasonable rate and should book travel in coach/economy class instead of business/first class.

**Lodging Reimbursement:**
Employees are not required to share a room while traveling for AMPS business. Employees should use price comparison sites to find the best/reasonable rate. Maximum allocation for lodging is $250.00 per night unless using a conference rate, or otherwise approved by a C-Suite member. When requesting rates at hotels, always ask for discounts and rates available for public school employees.

**Parking Reimbursement**
In cases where an employee is required to drive, parking will be reimbursed at a reasonable rate based on the location to which the employee is traveling. Employees should use the airport parking in the appropriate lot based on the length of your trip (e.g., long-term vs daily) and utilize economy lots where available to save money.

**Car Rentals Reimbursement**
Should an employee's travel require a car rental and refueling cost, the employee must receive prior approval from a member of the C-Suite. AMPS will not reimburse employees for rental car insurance fees, upgrades, and/or navigation features, and employees are expected to carry their own insurance. Reimbursement for gas is allowable on car rentals only, with the proper receipts. Employees should book compact or standard-size cars unless there's a reason for a different vehicle or free upgrade and should use price comparison sites to find the best or most reasonable rate.

**Mileage Reimbursement**
Reimbursement for work-related travel using an employee's personal automobile will be made according to the IRS-published mileage reimbursement rate in effect at the time of travel. In calculating mileage, employees should use the lesser of the distance from their home or their work site to the destination.

**Meals Reimbursement**
When an employee is required to travel for more than one day (i.e., overnight travel), meals will be reimbursed up to $100 per person per day unless otherwise approved by a member of the C-Suite. To qualify for meal costs, the following leave and return time limits apply:

- Breakfast: Must leave before 6:30am and/or return after 9:00am
- Lunch: Must leave before 11:00am and/or return after 1:30pm
- Dinner: Must leave before 4:00pm and/or return after 6:30pm

Itemized receipts are required for all meals. AMPS employees are permitted to pay for meals for reasonable business associates (e.g., other AMPS staff, potential donors, etc.), but meals for personal companions will not be reimbursed. Alcoholic beverages will not be reimbursed.

**Travel Expense Report**

All reimbursement forms and receipts should be submitted as soon as possible after travel. All forms must be received within 30 days of the event or travel and no later than July 15th of the following fiscal year. Please contact the Finance Department for instructions on how to complete the necessary forms.

# PURPOSE AND INTENT

The purpose of these fiscal policies and procedures is to document the policies and internal controls that support the successful operation of Amethod Public Schools ("AMPS" or "Network") and its schools. The intent is to align with and follow legal and official regulations that apply to charter schools and non-profit corporations in the State of California as well as the additional best practices and sound internal controls that are recommended or required by AMPS' authorizers, lenders, funders, and other experts such as the California Charter School Association (CCSA), Charter School Development Center (CSDC), the California Department of Education (CDE), and California's Fiscal Crisis and Management Assistance Team (FCMAT).

The policies and procedures are reviewed at least annually by AMPS staff and advisors for compliance with new requirements and evolving guidance from the sources above, and changes are brought to the AMPS Board for approval as needed.

# EXPENDITURE APPROVAL

## Avoiding Conflicts of Interest

It is essential to avoid any conflicts of interest when making expenditure recommendations or decisions. A conflict of interest exists when an individual involved in a recommendation or decision has a personal financial interest in the outcome of the decision and does either of the following:

- Participates in decision-making related to that item.
- Influences, or attempts to influence, others making a contract or decision related to that item whether the attempt occurs inside or outside a board meeting.

AMPS has adopted and published a Conflict of Interest Code that has been approved by the AMPS Board and complies with the Fair Political Practices Commission (FPPC). Any potential conflicts of interest that might come into play with any expenditure recommendations or decisions must be disclosed by the employee or Board member and addressed pursuant to AMPS's Conflict of Interest Code.

## Authorization of Expenditures

**Authorizing AMPS School and Network Expenditures:**

- All contracts, purchases, or other expenditures (collectively referred to hereafter as "Expenditures") made on behalf of any of the schools must be approved by the Principal or equivalent. The Chief Executive Officer (CEO), Chief of Staff (CS), Chief Operations Officer (COO), and Chief Academic Officer (CAO), collectively the "C-Suite", and Home Office Directors may also approve Expenditures on behalf of schools, up to their relative approval limits.
- Expenditures limits shall be measured on a fiscal year basis (July 1 - June 30).
- All Expenditures in excess of $5,000 made on behalf of a single school site or the network as a whole (across multiple schools) must be approved by a Senior Director.

- All Expenditures in excess of $10,000 must be approved by a member of the C-Suite ~~the COO, CAO, or CS~~.
- All Expenditures in excess of $25,000, must be approved by the CEO.
- All Expenditures in excess of $50,000, must be approved by the Board of Directors unless explicitly delegated otherwise on a case-by-case basis by the Board either (i) to staff, or (ii) to one or more Board Members who are designated to act on behalf of the Board as a whole.
- In the case of Expenditures being reimbursed or paid to an approver listed above, the approver's supervisor must approve the reimbursement.
- In the case of Expenditures being reimbursed or paid to the CEO, the Board Chair must approve the reimbursement. The Board Chair may elect to delegate the approval of reimbursements of routine business Expenditures below $~~51,0~~00 to a staff member other than the CEO (typically the COO).

When approving Expenditures for any School or the Network as a whole, the designated approver must:

- confirm that the Expenditure falls within the currently approved budget;
- contact the Finance Department, COO or designee if needed to confirm that funds are currently available for Expenditure;
- confirm that the Expenditure is allowable under the appropriate revenue source;
- confirm that the Expenditure is appropriate and consistent with the vision, approved charter, school and network policies and procedures, and any laws or applicable regulations;
- confirm that the price is competitive and prudent (and when the Expenditure is greater than $25,000, document a good faith effort to secure the lowest possible cost for comparable goods or services); and
- work with the COO or designee to conduct a full bid process in accordance with law when required by law.

**Federal Spending Thresholds:**

The following thresholds and procedures apply when using Federal funding for the intended purchase. Procurement methods shall be selected based on the total aggregate cost of the purchase and in accordance with federal regulations, including 2 CFR 200.320(a) and 2 CFR 200.320(b), as follows:

1. Informal Purchase Methods – Micro-Purchase Threshold
    - Up to $10,000
    - Purchases at or below this amount may be awarded without soliciting competitive price or rate quotations, provided the price is reasonable.
    - To the extent practicable, micro-purchases should be distributed equitably among qualified suppliers.

2. Small Purchase Procedures

    - Over $10,000 and up to $119,100 (for 2026; $114,500 for 2024)
    - Price or rate quotations must be obtained from an adequate number of qualified sources.

- Documentation must be maintained showing the vendors contacted and the basis for selection.

3. Formal Procurement Requirements

- Expenditures over $119,100 (for 2026; $114,500 for 2024)
- Formal procurement procedures must be used, including sealed bids or competitive proposals.
- Public solicitation is required.
- Cost or price analysis must be performed and documented.
- Contracts must be awarded to the responsible bidder whose proposal is most advantageous to the organization, considering price and other relevant factors.

Thresholds shall automatically adjust if federal regulations revise them. The organization will follow the most current federally established thresholds.

## No Gifts of Public Funds

Article 16, Section 6 of the California Constitution prohibits any gift of public funds to an individual or corporation. Per FCMAT guidance, the constitutional prohibition against a gift of public funds is generally not an issue when the direct and primary public purpose of an expenditure results in the public receiving a benefit from the expenditure. Additionally, expenditures of public funds that involve a benefit to private persons are not gifts within the meaning of the California Constitution if those funds are expended for a public purpose.

As such, any expenditure of public funds must primarily benefit the education of students in AMPS's schools in order to not be considered a prohibited gift of public funds. Expenditures driven by personal motives are not justified even if they are well intentioned or based on benevolent feelings (e.g., gifts expressing gratitude to staff or volunteers or sympathy to community members).

## No Political Contributions or Involvement

AMPS will not contribute to or otherwise make expenditures in support of any political campaign or candidate for public office. AMPS will not use (or allow management, staff, or other representatives to use) its assets or resources for support or opposition to any political campaign or candidate for public office. Individual employees, on their own time and with their own money, may contribute to candidates and campaigns of their choosing.

## Signing of Contracts

Consideration will be made of in-house capabilities to accomplish services before contracting with outside parties.

**Schools:**

- All contacts must be reviewed and approved by the CEO, regardless of fiscal commitment. CEO may designate an alternative signer. If an alternative signer is designated:

  - Principals are the only school-based staff authorized to sign contracts on behalf of their school.
  - Members of the C-Suite may also sign contracts on behalf of schools.
- ¶
- Principals are responsible for ensuring that school-based contracts are performed to completion.

**Network:**
- **All** contracts must be reviewed and approved by the CEO, or Designee.
- The Board Chair or CEO may sign contracts over $50,000 upon Board approval.
- The appropriate C-Suite member or designee and the Finance Department are responsible for ensuring that network-based contracts are performed to completion.

**Contract Documentation**
All contracts above $25,000 must document a good faith effort to secure the lowest possible cost for comparable goods or services that meet all user requirements. Competitive bids will be obtained where required by law or otherwise deemed appropriate and in the best interests of the Network.

Written contracts clearly defining work to be performed will be maintained for all contract service provider relationships involving an Expenditure of $2,500 or more (i.e. consultants, independent contractors, subcontractors).

Contract service providers must show proof of being licensed and bonded, if applicable, and of having adequate liability insurance and worker's compensation insurance currently in effect. The COO or CS may also require that contract service providers list AMPS as an additional insured on service providers' insurance policies.

If the contract service provider is a sole proprietor or a partnership (including LLC, and LLP), the contractor will provide a W-9 prior to submitting any requests for payments.

Contract service providers will be paid in accordance with approved contracts as work is performed.

## Authorizing Payments to Vendor

**A. ACH Payments**
The Board Chair, CEO and COO will have the authority to approve ACH payments.

**B. Online Bill Pay**
The Board Chair, CEO and COO will have the authority to approve online bill payments.

**C. Checks**
The Board will designate the authorized check signers on all bank accounts and the COO will maintain a list of such authorized signers.  Bank checks will be kept under lock and key, at both the

Home Office and with the Back Office Provider. When there is a need to generate a bank check, the check will be entered into a ledger at the same time that the check is written. Checks may not be written to cash, bearer, or petty cash. Under no circumstance will any individual sign a blank check or a check made out to themselves. The COO or designee will put in place appropriate procedures to ensure that all checks are accounted for at all times (e.g., by monitoring check registers for any missing checks, and by ensuring that voided checks are stored in the organization's accounting files).

# BANK ACCOUNTS, CREDIT CARDS & CASH

The Board of Directors authorizes the Board Chair, CEO, and COO to open and close bank and credit card accounts. The Board Chair, CEO, and COO may be authorized as co-administrators on all bank and credit card accounts, in accordance with the list of authorized account signers.

## Bank Accounts

The organization is expected to maintain two types of bank accounts:

- **Operating Account** - The Network's revenue will be deposited into an operating account that only the Board Chair, CEO and COO are authorized to manage. Only these individuals will have signing authority over these accounts or access to the funds in the accounts.
- **Savings Account(s)** - The COO shall manage Network's cash to maximize savings in accounts with either FDIC-insured banks or NCUA-insured credit unions, ensuring that cash is spread to sweep accounts or across banks or credit unions to minimize risk.
- **School-level Accounts** -School sites will not have individual accounts, and will abide by the Network-level accounts and processes.

## Cash Management

This section covers the management of cash on hand at the schools.

- All cash held at schools (e.g., for school events, fundraising, etc.) will be the responsibility of the Principals. Teachers, office personnel, and other staff shall not hold cash separately. All cash will be delivered to a Principal on the same day it is received.
- At no times will cash held at schools overnight exceed $5,000. Excess cash will be delivered to the Home Office at minimum weekly, or sooner if the balance nears $5,000.
- No Loans will be made from the ~~petty~~ cash held at schools~~funds~~.

## Credit Cards

**Credit Cards**
The COO may authorize individuals to carry and use an AMPS credit card to make purchases on behalf of the school or network, consistent with the Expenditure approval policies above. The cardholder must sign a cardholder agreement in order to receive a physical credit card.

Credit cards will be kept under supervision of the approved individual, and all related documentation of purchases will be turned in to the Finance Department monthly for reconciliation. If itemized receipts are not available or are missing, the individual making the charge will be held responsible for payment and credit card privileges may be revoked.

The COO or designee may issue one-time virtual cards to employees needing to make a single online purchase under $1,000, with approval of the employee's supervisor.

Credit card statements of employees shall be reviewed and approved monthly by employee's supervisor and the COO or designee.

# PURCHASING PROCEDURES

## Establishing a New Vendor

AMPS is a non-profit organization and at times will be eligible for discounted products and services. When establishing new vendor accounts, inform vendors of the non-profit status and use the AMPS Internal Revenue Service Code Section 501(c)(3), number: 94-3185735. Please note: orders are not currently exempt from sales tax.

## Purchase Orders

AMPS requires the use of formal purchase orders for all Expenditures at or above $5,000. This section covers the process for purchase orders that are required by AMPS or vendors prior to ordering or delivering a product or service.

## Payments Using an AMPS Credit Card

AMPS's preferred payment method is to receive an invoice from vendors and pay by check.

However, an AMPS credit card may be used when a vendor will not accept another form of payment. Credit Cards are to be used for business purposes only. Personal purchases of any type are not allowed. Each staff member who is authorized to use a credit card will be required to sign a credit card use certification statement acknowledging that the card shall only be used for legitimate charter school-related business purposes and that the cardholder agrees to take responsible precautions to protect the card from loss or theft.

Credit card purchases are subject to the same expenditure authorization limits and processes as all other purchases. Credit card purchases must be approved in advance by an AMPS employee with sufficient signing and budget approval authority for the planned expenditure.

If payment is made using an AMPS credit card account, follow the process below.

| Step | Person Responsible | Task | Deadline |
|---|---|---|---|
| 1 | Cardholder | Secure approval for the purchase by any required authorizers based on the amount of the expenditure and which budget it will be applied to. | Prior to purchase |

## Independent Contractors (1099 Vendors)

This section refers to independent contractors, known as 1099 vendors. These are defined as outside individuals or companies who are contracted by AMPS to provide services and are not paid through AMPS' payroll processes for employees. Such individuals must meet all of the following criteria:

A. the individual must be free from the control and direction of the AMPS in connection with

the performance of the work, both under the contract for the performance of such work and in fact;

B. the individual must perform work that is outside the usual course of AMPS's business; and
C. the individual must be customarily engaged in an independently established trade, occupation, or business of the same nature as the work performed for AMPS.

Such individuals are typically self-employed, have no set hours, and have the freedom to render services which are not controlled by AMPS. Independent contractors also typically work for a pre-determined period of time on a specifically defined project. Prior to hiring an independent contractor, consideration will be made of in-house capabilities to accomplish services.

| Step | Person Responsible | Task | Deadline |
|---|---|---|---|
| 1 | AMPS Staff Member that is requesting the Contractor | Identifies a need that cannot be met in-house, identifies an independent contractor who can provide the services, and makes a request to the Director or C-Suite supervisor to hire an independent contractor to provide the services | As needed |
| 2 | Director, CEO, COO, CS or CAO | Consults with the Finance Department as necessary in order to evaluate the criteria for independent contractor status. If valid, approves the request. | As needed |
| 3 | Contractor | Provides a contract outlining services to be completed.<br><br>Provides a completed W-9 to AMPS.<br><br>(At times, AMPS will use our own contract template rather than using the Contractor's template. In such cases, the COO or designee and the Finance Department will create the contract and provide it to the appropriate staff member.) | In advance of beginning work |
| 4 | Finance Department/COO or designee | Reviews W-9 and draft contract for compliance. If acceptable, forwards to appropriate signer within AMPS. | In advance of beginning work |
| 5 | CEO or Designee | Signs contract with independent contractor, after which work can begin | In advance of beginning work |
| 6 | Contractor | Completes work and submits invoice(s) to appropriate staff member/Finance Department.<br>Submits work product updates as needed. | Monthly or at completion of project |
| 7 | Staff Member | Follows guidelines for invoice payments, | As invoices are |

| 8 | Finance Department/Back Office Provider | Provides 1099 to contractor and files 1099 forms with the IRS. | Annually as required by law |

# RECEIPTS / ACCOUNTS RECEIVABLE

Documentation will be maintained for all receipts of funds or accounts receivable and forwarded to the Finance Department. All receipts and accounts receivable will be recorded by the Finance Department/Back Office Provider in the general ledger and accounts receivable will be collected on a timely basis.

## Voluntary Donations / Contributions

Because charter schools are tuition-free public schools, neither parents nor students are required to donate their time or money as a condition of enrollment in any AMPS school. No student will be denied enrollment because a parent does not make a financial contribution to the charter school. While parent engagement and support of AMPS' schools is encouraged, any such activities are optional. In cases where a recommended donation or fee is stated for participation in an AMPS activity, provision will be made for the student to participate in the activity without making such donation or paying such fee. In cases where AMPS sells merchandise (e.g., food at fundraising events, etc.) student's participation in AMPS' educational programs will not be conditioned on purchasing such merchandise. AMPS will take no adverse actions against a student or parent that does not or cannot volunteer or contribute.

## Cash Receipts (Cash and Checks)

This section covers how to handle cash and checks received in the mail or at an event/activity where donations are received or items (i.e. prom tickets) are sold.

**Returned Check Policy**

A returned-check processing fee may be charged for checks returned as non-sufficient funds (NSF). Unless otherwise pre-approved by the COO, payment of the NSF check and processing fee must be made by cash, money order or certified check.

In the event that a second NSF check is received for any individual, in addition to any processing fee, the individual will lose check-writing privileges. Payment of the NSF check, the processing fee and any subsequent payment(s) by that individual must be made by cash, money order or certified check.

~~In the case of NSF checks written by parents of students, failure to pay may result in the withholding of report cards/transcripts at the end of the semester and/or school year until payment is received, unless other mutually agreeable arrangements are approved by the COO, CEO, and/or Governing Board.¶~~

¶

If unsuccessful in collecting funds owed, AMPS may initiate appropriate collection and/or legal action at the discretion of the COO, CEO and/or Governing Board.

# POSITION CONTROL & PAYROLL

**Personnel Budget Approvals**
AMPS's Board approves each school's annual budget and revisions to that budget on a periodic basis. Each budget will include the portion of each school's approved expenditures that are related to employee compensation and benefits. The Board delegates individual personnel decisions (e.g., hiring, firing, compensation) to AMPS staff (subject to adherence with the Board approved budget and any relevant AMPS policies) as follows:

**School Positions:**
- Recommendations regarding creating or filling all School positions will be made by the Principal(s) of the School.
- The AMPS human resources team will determine the appropriate compensation for any position based on AMPS's compensation philosophy, salary bands, and other reasonable factors.
- The COO will review all School positions.
- The COO will review the budgetary impact of all School positions.
- The CEO will give final approval on all positions and compensation.¶
- ~~Employment Agreements with a salary over $100,000 require board approval.~~¶

**Home Office Positions:**
- Recommendations regarding creating or filling all Home Office positions will be made by the relevant Home Office department head.
- The AMPS human resources team will determine the appropriate compensation for any position based on AMPS's compensation philosophy, salary bands, and other reasonable factors.
  - The COO will review all Home Office positions.
  - The COO will review the budgetary impact of all Home Office positions.
  - The CEO will give final approval on all positions and compensation.¶
  - ~~Employment Agreements with a salary over $100,000 require board approval.~~

As with any other Expenditures, the appropriate approver must:
- confirm that the proposed position falls within the currently approved budget;
- confirm that the position is allowable under the appropriate revenue source; and
- confirm that the position is appropriate and consistent with the vision, approved charter, school and network policies and procedures, and any laws or applicable regulations.

Retention and/or Recruitment Bonuses
- The CEO shall have the ability to offer signing/recruitment bonuses or retention bonuses up to $5,000 per employee annually, for positions that are deemed "difficult to staff". A "difficult to staff" position is considered a role that faces challenges in attracting qualified candidates due to factors like specialized skills, demanding work conditions, geographic location, or limited applicant pool. No bonuses may be awarded if total compensation for the position would be excessive under IRS standards for non-profit employees. The CEO will consider past, present, and future compensation trends in deciding whether payment of a bonus could be considered "excessive" or "inequitable" and therefore should be avoided.

**Position Control**
Position control refers to a system of tracking personnel budgets based on positions that are approved and expressed as full-time equivalents (FTE), rather than based on specific employees. It is used to budget and forecast expenses and to ensure that only authorized positions are filled and only appropriate personnel receive a payroll check. AMPS's Human Resources and Finance Departments will maintain a position control system to track which positions are approved per the approval policies above. It will also track which specific employee is in each role and what their compensation is for that position.

Information from the position control system will be incorporated into budget monitoring and reporting processes. It will also be integrated into AMPS's payroll and HR systems to ensure personnel costs are accurately recorded on a monthly basis and to identify and correct any material differences that arise from time to time.

**Employee Qualifications**
All AMPS staff on payroll must comply with state law requirements before being hired or assigned to AMPS's payroll system. Principals are responsible for working with Human Resources to manage the formal hiring process at their schools. Please refer to the AMPS Employee Handbook for information on employee requirements, and managing vacation and sick leave.

**Payroll Submission Procedure**
AMPS uses Paylocity for payroll and submits payroll online. Payroll is processed in-house by the Payroll and Benefits Manager, and is approved by the COO or designee.

**Payroll Distribution**
It is the preferred method of AMPS to disburse payroll via direct deposit. Direct deposit statements and W-2 forms are available to all staff online through Paylocity. Should an employee request paper paychecks, they will be delivered to the Home Office.

**Payroll Taxes and Filings**
Paylocity and the Back Office Provider (if applicable) will prepare payroll check summaries, tax and withholding summaries, and other payroll tracking summaries, and will file all state and federal quarterly and annual payroll tax forms and W-2 forms on a timely and accurate basis. The COO or designee will review the forms before the vendor submits them to the respective employees or agencies.

**Record Keeping**
All payroll records will be maintained by AMPS or the payroll vendor for seven years or longer if otherwise required by law.

# EXPENSE REIMBURSEMENTS

**Employee Business and Travel Reimbursements**

At times, AMPS staff are asked to travel or have to purchase work related items using their own cash or credit cards. Business and travel expenses will be reimbursed for pre-approved expenses consulted and approved by the supervisor in accordance with their budget authorization and signing authority.

Expense reports will be processed on a weekly basis. For travel reimbursements policies and limits, refer to the travel reimbursement policy in the appendix.

This section covers the process for submitting an expense or travel reimbursement

| Step | Person Responsible | Task | Timing |
|---|---|---|---|
| 1 | Staff Member | Keep track of all itemized receipts (including refund receipts). Non-itemized receipts or expenses without receipts may not be reimbursed. | As purchased |
| 2 | Staff Member | Complete expense reimbursement form ~~through~~ and attach itemized receipts for all charges. | Not less than m~~M~~onthly, as necessary |
| 3 | Supervisor/ Approver | Review reimbursement form and approve it. | Within 3 business days |
| 4 | Finance Department | Review reimbursement requests and prepare a summary for payment by Back Office Provider, or review expense in expense management system. | Weekly |
| 5 | Finance Department/Back Office Provider | Enter into accounting software and reconcile monthly as per above | Monthly |
| 6 | COO or designee | Review the reconciliation and notify the CEO immediately if any discrepancies are found. | Monthly |

**Volunteer Expenses**

All volunteers will submit a purchase request to the Principal, Home Office Director, or C-Suite member for all potential expenses. Only items with prior authorization from such authorizer will be paid/reimbursed. Itemized receipts must be included to be eligible for reimbursement. Reimbursements for volunteers will be processed by the Finance Department.

**Governing Board Expenses**

The individual incurring authorized expenses while carrying out the duties of AMPS will complete

and sign an expense reimbursement form~~report~~, and include all itemized receipts. The COO or designee will approve and sign the reimbursement form~~expense report~~, and submit it to the Finance Department for payment.

**All Expenses**
All expenses submitted for reimbursement must have an itemized receipt. The receipt should not contain personal items on it, and under no circumstances may the receipt contain alcohol or any other expense that violates AMPS's expense rules.

Requests for mileage reimbursement must include Google Maps printout, or similar, with the mileage requested being the lesser of the travel from home or school site to the destination. Mileage will be reimbursed at the IRS Standard Mileage Rate in place at the time of travel.

Requests for reimbursement must be made within 30 days of incurring the expense.

Credit card users shall use the same guidance in the Travel Reimbursement Policy when making purchases and Expenditures during business travel for AMPS.

## FINANCIAL REPORTING BUDGETING & RECORDS RETENTION

**Financial Budgeting**

The Back Office Provider, in consultation with the COO or designee, will prepare an annual financial budget for each school. The budget will include input from Principals, Home Office Directors, and members of the C-Suite. The annual budget will be submitted to the Board of Directors for approval prior to the July 1 start of each fiscal year. It will be accompanied by a description of the assumptions that guided the creation of the budget. The approved budget for each School will be incorporated in the Local Control and Accountability Plan (LCAP) for that School, which will be prepared, reviewed, and adopted in accordance with California law. The LCAP and Budget for each School will be submitted to such School's authorizer on a timeline and in such format as is required by law.

The Back Office Provider will prepare budget revisions on an as-needed basis throughout the year, ~~which revisions are~~ subject to Board approval. At a minimum, such revisions will include a First Interim and Second Interim budget revision for each School that will be prepared, approved, and submitted to such School's authorizer on a timeline and in such format ~~and timeline~~ as is required by law.

Budgets will be developed using reasonable and timely assumptions regarding all areas of the network's operations, including, but not limited to enrollment and attendance projections, student demographics that impact funding, public funding rates, non-public revenue sources, position control and staffing levels, employee benefit costs, and other cost projections. They will factor in reasonable and timely assumptions related to COLAs and inflation expectations. Budgets will include a multi-year financial projection that (at a minimum) includes the current year plus two following years.
¶

**Financial Monitoring and Reporting**

The Back Office Provider and COO and/or designee will periodically monitor adherence to the then-current budget and share a financial update and reports with the Board of Directors at each meeting of the Board. Such monitoring, updates and reports will include a budget-to-actual variance analysis for each major category of the then-current budget for each school, and a narrative description of noteworthy variances. If necessary, action will be taken to adjust the budget based on these reports.

The Finance Department, Back Office Provider, and COO will provide the CEO and/or Board of Directors with additional financial reports, as needed.

AMPS will provide financial reports (e.g., Unaudited Actuals) for each School to such School's authorizer on a timeline and in such format as is required by law. AMPS will work with its auditor to file all information and tax returns required by the Internal Revenue Service (IRS) and California's Franchise Tax Board (FTB) on a timely and accurate basis.

AMPS' Finance Department and/or Back Office Provider will maintain a financial reporting calendar of relevant financial reporting deadlines to ensure that required reporting deadlines are met on a timely basis.

**Accounting Dimensions**

AMPS will adhere to all elements of California's Standardized Account Code Structure (SACS) that are required to meet the needs of State financial reporting requirements. This currently includes tracking all revenues and expenditures by "object" and "resource" as those terms are defined in the California School Accounting Manual (CSAM). AMPS may implement additional accounting dimensions as needed for its own internal reporting or to provide improved visibility into program operations and efficiency.

**Restricted Fund Accounting and Reporting**

AMPS and the Back Office Provider will maintain sufficiently detailed fund accounting procedures and records to identify the sources and uses of all restricted funding sources at each school so as to be able to separately identify the revenues, expenses, receivables, payables and cash and fund balance for that funding source at that school. Over time, the expectation is that all restricted funding sources will eventually reach a $0 fund balance as expenditures match the revenues received. Accurate and timely reports will be filed for each such funding source and school as required by that funding source.

**Retention of Records**

Financial records, such as transaction ledgers, canceled/duplicate checks, attendance and entitlement records, payroll records, and any other necessary fiscal documentation will be retained for a minimum of seven (7) years. At the discretion of the COO, certain documentation may be maintained for a longer period of time.

# FINANCIAL RESERVES, LIQUIDITY, AND INVESTMENTS

## Funds Balances / Reserves

AMPS recognizes the need to maintain an adequate fund balance that will ensure the financial viability of our network and each school. The following policies related to the maintenance of adequate fund balances, reserves, and cash liquidity reflect recommendations made by the California Department of Education, our County Offices of Education and authorizers, our financial auditor, and researched best practices among California CMO peers and non-profits more broadly.

AMPS will maintain a positive fund balance each year on a consolidated basis, and at each school. The fund balance will be measured annually as the sum of the network's or the school's assets, minus its liabilities, in both cases as recorded in AMPS' or the Back Office Provider's accounting system.

**Building / maintaining reserves under normal circumstances:** Each AMPS school, and the AMPS Home Office is expected to develop an annual budget that has a neutral or positive impact on its fund balance (i.e., with revenues equaling or exceeding expenses) and with a concrete multi-year plan to ensure at minimum breakeven operations for a 3-year rolling period, and a minimum 5% reserve for economic uncertainty. The COO or designee will work with each school to develop an individualized plan to reach each school's goals. An annual contribution to the school's reserve will be built into each school budget as needed.

## Financial Assets/Cash Management Strategy

This policy regarding the cash management strategy and savings instruments of AMPS' financial assets is set forth to:

- define and assign the responsibilities of all parties involved in managing AMPS' cash,
- establish a clear understanding of the savings policy and objectives, and
- provide guidance and limitations to any internal or outside portfolio manager regarding the investment of AMPS assets.

**Savings Objectives**

The objective of AMPS' cash management strategy is (a) to preserve capital required for day-to-day operations of our schools and (b) to maximize funds held in interest-bearing accounts.

The investment horizon of the funds should endeavor to match the duration of the associated funding needs. Funds required for day-to-day operations will be maintained in a standard checking account. Funds for savings will be maintained by direction of the COO in Certificates of Deposit, High-yield savings, or other investments that are not subject to market fluctuations.

**Delegation of Authority**

The Board of Directors is responsible for approving the savings policy and has authorized the CEO and COO to oversee the placement of assets on an ongoing basis. The CEO and COO are authorized

to delegate certain responsibilities to professional agents such as portfolio managers, custodians, attorneys, auditors, consultants and other specialists who are experts in their field, as needed.

**General Cash Management Principles**

- Investments shall be made solely in the interest of AMPS Public Schools.
- Assets shall be invested with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the investment of a fund of like character and with like aims.
- Savings shall be reasonably diversified in multiple banks and/or credit unions.
- Cash is to be employed productively to provide safety, liquidity, and return.

**Allowable Assets**

Cash Equivalents

- Checking Accounts
- Savings Accounts
- Treasury Bills
- Time Deposits, including Certificates of Deposit

# FIXED ASSETS / DEPRECIATION / LEASES / INSURANCE

## Asset Inventory

A depreciable asset is defined as all items, purchased or donated, with a value of $5,000 or more and with a useful life of more than one year.

The Finance Department will maintain records of all receipts for purchased assets, including depreciable assets, as well as non-capitalized assets.

The Finance Department, in consultation with the Technology and Facilities Departments, will also maintain an inventory or log of all depreciable assets. The log will include the original purchase price and date, a brief description, serial numbers, and other information appropriate for documenting assets. The log will also include the useful life of any depreciable assets in order to facilitate depreciation accounting noted below. The COO will immediately be notified of all cases of theft, loss, damage or destruction of assets.

## Asset Sales and Disposal

The COO or designee will approve any plans for disposing of any fixed assets with a clear and complete description of the asset and the date of disposal. Any asset disposal will be managed in a manner that ensures that AMPS receives a fair market value for such asset, and that avoids any conflicts of interest.

Capital assets may be sold or traded for new equipment; when this occurs, an asset sale and disposition form should be completed. Upon approval, the school may advertise the property for sale or submit a list to the Facilities Department for sale and disposition. After completion of the sale, a completed original bill of sale form with authorized signatures should be submitted to the Finance Department. The Finance Department and Back Office Provider should delete the item from the asset records and record any gain or loss on the disposition.

**Worn Out or Obsolete Assets**
Worn out or obsolete assets with no cash value should be reported to the Finance and Facilities Departments on the asset disposition form, which includes a description, serial number and condition of the asset. The Facilities Department should inspect all worn out or obsolete property before it is discarded. The asset can then be removed from the asset records.

**Missing or Stolen Assets**
Any missing or stolen asset should be reported in writing to the Principal and Facilities and Finance Departments as soon as its absence is discovered . The report should include the description, serial number, and other information about the lost item. The Finance Department should determine the proper course of action and should notify the COO or CS, as the charter school's insurance carrier and any outside authorities may need to be notified . If the asset is not recovered, it can be removed from the asset records.

The Finance Department and Back Office Provider will record any such disposal in AMPS' accounting software on a timely and accurate basis.

## Capitalization and Depreciation

AMPS has determined a capitalization threshold of $5,000 as appropriate. AMPS' Finance Department and/or Back Office Provider will record depreciation expense with all capitalized assets in order to track those assets' decline in value because of wear and tear, age, deterioration, or obsolescence.  AMPS uses the straight-line depreciation method that reports the same amount of decline in value each year.

## Insurance

The CS and/or COO will ensure that appropriate insurance is maintained at all times with a high-quality insurance agency.

The CS and/or COO will maintain the files of insurance policies, including an up-to-date copy of all, insurance policies, certificates of insurance (including the designation of required additional insured as required under AMPS's charters, MOUs, lending agreements, and other contracts as appropriate), and related claim forms.

The CS and COO will carefully review insurance policies on an annual basis, prior to renewal.

Insurance will include at minimum, property, general liability, worker's compensation, student accident, professional liability, and directors' and officers' coverage.

# LOANS AND BORROWING

## Loans

The Board will approve all loans made or taken out by AMPS. In the case of a long-term loan, approval may also be required from the chartering authority (in accordance with the terms of the charter petition or an MOU with such authority) and/or other lenders (in accordance with the loan documents). Once the loan is approved by the Board, a promissory note will be prepared and signed by the Board Chair or CEO before funds are borrowed.

## Loans to/from Employees

Loans to or from employees are not permitted.

## Lines of Credit/Credit Card Account

AMPS will endeavor to maintain a line of credit to provide short-term cash liquidity as needed pursuant to the policies above. The CEO and COO have been authorized by the Board of Directors to borrow funds against the line of credit or to establish Network credit card accounts on behalf of AMPS, as needed to ensure that the network meets its financial obligations.

# ANNUAL FINANCIAL AUDIT

The Board will annually select an auditor by April 1 prior to the fiscal year-end (June 30th).

The Board will annually contract for the services of an independent certified public accountant on the State of California's approved list to perform an annual fiscal audit. The audit shall include, but not be limited to:

- An audit of the accuracy of the financial statements;
- An audit of the attendance accounting and revenue accuracy practices;
- An audit of the internal control practices;
- Because AMPS's schools are considered local government entities the independent audit will be conducted based on governmental auditing standards and the provisions listed in the Guide for Annual Audits of TK-12 Local Educational Agencies and State Compliance Reporting, published by the Education Audit Appeals Panel (EAAP) and available at www.eaap.ca.gov.

The annual audit will be presented to the AMPS Board for review and approval each year and will be filed with the CDE and State Controller's Office (SCO) on a timely basis each year. Any audit exceptions and/or deficiencies will be resolved to the satisfaction of the AMPS Board and the Board of Directors of~~and~~ the charter-granting agency.

# APPENDIX A – TRAVEL AND REIMBURSEMENT POLICY

Employees who travel on behalf of AMPS in order to fulfill their work duties or to attend workshops, conferences, or other employment-related activities, or who purchase work-related items with personal funds, will be reimbursed for qualified expenses incurred.

The following policy is intended to address the vast majority of expenses incurred by AMPS staff. In the event that exceptions are required due to the unique nature of the work-related purpose of the trip or the specific location to which the staff member is traveling, the staff member must get prior approval from their supervisor prior to incurring expenses outside this policy. Supervisors are responsible for exercising prudent judgment in evaluating such requests and encouraged to discuss them with the COO if they have any doubt about the appropriateness of the request.

All reimbursement claims must be pre-approved by the employee's supervisor, and must be supported by the original, itemized receipts, or in the case of mileage, tolls, and public transportation, by print outs of maps and fare schedules. If for some reason, obtaining a receipt is not possible, contact the COO for guidance on how to proceed.

**General Travel Requirements**
The employee requesting to travel on behalf of AMPS must work with his/her supervisor to determine whether the benefit from the travel to both the employee and to AMPS will outweigh anticipated costs of the travel, including how the employee's absence will affect teammates, students and upcoming deadlines. All efforts should be made to explore alternatives such as participation by phone or videoconference, and availability of local programs or training opportunities.

Employees with job duties that require regular travel between school sites are not required to request approval in advance of travel. Again, efforts should be made to explore alternative participation methods as often as possible to minimize expense to AMPS.

**Long-Distance or Multi-Day Travel:** When an employee travels for professional development opportunities, conferences or workshops that will require an absence from his/her worksite for more than one day, the following expenses may be eligible for reimbursement:

- meals and non-alcoholic drinks;
- transportation to and from the airport and/or hotel or other business-related locations;
- overnight hotel fees and taxes;
- mileage to and from the airport or hotel, if driving yourself;
- parking; and
- internet access if needed for business purposes.

**Non-reimbursable expenses:** The following expenses are not eligible for reimbursement:

- alcoholic beverages;
- entertainment (movie, purchases/rental, plays, concerts, etc.);
- additional expenses incurred in the accommodation of an employee's non-AMPS related travel plans (e.g. extra hotel nights, additional stopovers, meals, increased fares to accommodate a different flight schedule, etc.);

- expenses associated with travel of an individual's spouse, family or friends;
- reimbursements for gifts of any kind; and
- expenses lacking receipts or sufficient supporting evidence to justify the expense.

**Air Travel Reimbursement**
Air travel reservations should be made as far in advance as possible in order to take advantage of reduced fares. Flights must be reviewed by the employee's supervisor or the Finance Department before booking to ensure costs are reasonable, appropriate, and within budget. Employees should use price comparison sites to find the best/reasonable rate and should book travel in coach/economy class instead of business/first class.

**Lodging Reimbursement:**
Employees are not required to share a room while traveling for AMPS business. Employees should use price comparison sites to find the best/reasonable rate. Maximum allocation for lodging is $250.00 per night unless using a conference rate, or otherwise approved by a C-Suite member. When requesting rates at hotels, always ask for discounts and rates available for public school employees.

**Parking Reimbursement**
In cases where an employee is required to drive, parking will be reimbursed at a reasonable rate based on the location to which the employee is traveling. Employees should use the airport parking in the appropriate lot based on the length of your trip (e.g., long-term vs daily) and utilize economy lots where available to save money.

**Car Rentals Reimbursement**
Should an employee's travel require a car rental and refueling cost, the employee must receive prior approval from a member of the C-Suite. AMPS will not reimburse employees for rental car insurance fees, upgrades, and/or navigation features, and employees are expected to carry their own insurance. Reimbursement for gas is allowable on car rentals only, with the proper receipts. Employees should book compact or standard-size cars unless there's a reason for a different vehicle or free upgrade and should use price comparison sites to find the best or most reasonable rate.

**Mileage Reimbursement**
Reimbursement for work-related travel using an employee's personal automobile will be made according to the IRS-published mileage reimbursement rate in effect at the time of travel. In calculating mileage, employees should use the lesser of the distance from their home or their work site to the destination.

**Meals Reimbursement**
When an employee is required to travel for more than one day (i.e., overnight travel), meals will be reimbursed up to $100 per person per day unless otherwise approved by a member of the C-Suite. To qualify for meal costs, the following leave and return time limits apply:

- Breakfast: Must leave before 6:30am and/or return after 9:00am
- Lunch: Must leave before 11:00am and/or return after 1:30pm
- Dinner: Must leave before 4:00pm and/or return after 6:30pm

Itemized receipts are required for all meals. AMPS employees are permitted to pay for meals for reasonable business associates (e.g., other AMPS staff, potential donors, etc.), but meals for personal companions will not be reimbursed. Alcoholic beverages will not be reimbursed.

**Travel Expense Report**

All reimbursement forms and receipts should be submitted as soon as possible after travel. All forms must be received within 30 days of the event or travel and no later than July 15th of the following fiscal year. Please contact the Finance Department for instructions on how to complete the necessary forms.

Unless otherwise directed by the Board, Committees are empowered only to consider and make recommendations upon matters referred to them by the Board. By majority vote of the Committee members, each committee shall elect one of its members to act as chair of the committee. Any Committee, to the extent provided in the resolution of the Board and allowed by law, may be given the authority of the Board except that no Committee may:

(a) fill vacancies on the Board or in any Committee which has the authority of the Board;

(b) amend or repeal any resolution of the board which by its express terms is not so amendable or repealable;

MEETINGS AND ACTION OF COMMITTEES.** Meetings and action of committees shall be governed by, and held and taken in accordance with, the provisions of Article VIII concerning meetings of Directors, with such changes in the context of Article VIII as are necessary to substitute the committee and its members for the Board and its members, except that the time for regular meetings of committees may be determined by resolution of the Board, and special meetings of committees may also be called by resolution of the Board. Minutes shall be kept of each meeting of any committee and shall be filed with the corporate records. The committee shall report to the Board from time to time as the Board may require. The Board may adopt rules for the governance of any committee not inconsistent with the provisions of these Bylaws. In the absence of rules adopted by the Board, the committee may adopt such rules.

All actions and recommendations of an advisory committee shall require ratification by the Board before being given effect. ## ARTICLE X

## INDEMNIFICATION

**Section 1.** INDEMNIFICATION. To the fullest extent permitted by law, the Corporation shall indemnify its Directors, officers, employees, and other persons described in Corporations Code Section 5238(a), including persons formerly occupying any such positions, against all expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred by them in connection with any "proceeding," as that term is used in that section, and including an action by or in the right of the Corporation by reason of the fact that the person is or was a person described in that section. "Expenses," as used in this bylaw, shall have the same meaning as in that section of the Corporations Code.

On written request to the Board of Directors by any person seeking indemnification under Corporations Code Section 5238 (b) or Section 5238 (c) the Board of Directors shall promptly decide under Corporations Code Section 5238 (e) whether the applicable standard of conduct set forth in Corporations Code Section 5238 (b) or Section 5238 (c) has been met and, if so, the Board of Directors shall authorize indemnification.~~DEFINITIONS. For the purpose of this Article XII,¶~~

~~**1.1. Agent.** "Agent" means any person who is or was a Director, officer, employee, or other agent of the Corporation, or is or was serving at the request of the Corporation as a Director, officer, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust, or other enterprise, or was a director, officer, employee, or agent of a foreign or domestic corporation which was a predecessor corporation of the Corporation or of another enterprise at the request of such predecessor corporation.¶~~

~~**1.2. Proceeding.** "Proceeding" means any threatened, pending or completed action or proceeding, whether civil, criminal, administrative, or investigative.¶~~

~~**1.3. Expenses.** "Expenses" includes, without limitation, all reasonable attorneys' fees, costs and any other expenses reasonably incurred in the defense of any claims or proceedings against an Agent by reason of his or her position or relationship as Agent and all attorneys' fees, costs and other expenses reasonably incurred in establishing a right to indemnification under this Article XII.¶~~

~~**Section 2. APPLICABILITY OF INDEMNIFICATION PROVISIONS.¶**~~

**2.1. Successful Defense by Agent.** To the extent that an Agent has been successful on the merits in the defense of any proceeding referred to in this Article XII, or in the defense of any claim, issue, or matter therein, the Agent shall be indemnified against expenses actually and reasonably incurred by the Agent in connection with the claim.¶

**2.2. Settlement or Unsuccessful Defense by Agent.** If an Agent either settles any proceeding referred to in this Article XII, or any claim, issue, or matter therein, or sustains a judgment rendered against him, then the provisions of Section 3 through Section 7 shall determine whether the Agent is entitled to indemnification.¶

**Section 3. ACTIONS BROUGHT BY PERSONS OTHER THAN THE CORPORATION.** This Section 3 applies to any proceeding other than an action "by or on behalf of the Corporation" as defined in Section 4 below. Such proceedings that are not brought by or on behalf of the Corporation are referred to in this Section 3 as "Third Party proceedings."¶

**3.1. Scope of Indemnification in Third Party Proceedings.** Subject to the required findings to be made pursuant to Section 3.2 the Corporation may indemnify any person who was or is a party, or is threatened to be made a party, to any Third Party proceeding, by reason of the fact that such person is or was an Agent, for all expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with the proceeding.¶

**3.2. Required Standard Of Conduct For Indemnification in Third Party Proceedings.** Any indemnification granted to an Agent in Section 3.1 above is conditioned on the following: the Board must determine, in the manner provided hereof, that the Agent seeking reimbursement acted in good faith, in a manner he or she reasonably believed to be in the best interest of the Corporation, and, in the case of a criminal proceeding, he or she must have had no reasonable cause to believe that his or her conduct was unlawful. The termination of any proceeding by judgment, order, settlement, conviction, or on a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith or in a manner he or she reasonably believed to be in the best interest of the Corporation or that he or she had reasonable cause to believe that his or her conduct was unlawful.¶

**Section 4. ACTION BROUGHT BY OR ON BEHALF OF THE CORPORATION.** This Section 4 applies to any proceeding brought (i) by or in the right of the Corporation, or (ii) by an Officer, Director or person granted relator status by the Attorney General, or by the Attorney General, on the ground that the defendant Director was or is engaging in self-dealing within the meaning of section 5233 of the California Nonprofit Corporation Law, or (iii) by the Attorney General or person granted relator status by the Attorney General for any breach of duty relating to assets held in charitable trust (any such proceeding is referred to in these Bylaws as a proceeding "by or on behalf of the Corporation").¶

**4.1. Scope Of Indemnification In Proceeding By Or On Behalf Of The Corporation.** Subject to the required findings to be made pursuant to Section 4.2 and except as provided in Sections 4.3 and 4.4, the Corporation may indemnify any person who was or is a party, or is threatened to be made a party, to any proceeding by or on behalf of the Corporation, by reason of the fact that such person is or was an Agent, for all expenses actually and reasonably incurred in connection with the defense or settlement of such action.¶

**4.2. Required Standard Of Conduct For Indemnification In Proceeding By Or On Behalf Of The Corporation.** Any indemnification granted to an Agent in Section 4.1 is conditioned on the following:

The Board must determine, in the manner provided in Section 5 hereof, that the Agent seeking reimbursement acted in good faith, in a manner he or she believed to be in the best interest of the Corporation and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.¶

**4.3. Claims Settled Out Of Court.** If any Agent settles or otherwise disposes of a threatened or pending action brought by or on behalf of the Corporation, with or without court approval, the Agent shall receive no indemnification for amounts paid pursuant to the terms of the settlement or other disposition. Also, in cases settled or otherwise disposed of without court approval, the Agent shall receive no indemnification for expenses reasonably incurred in defending against the proceeding, unless the proceeding is settled with the approval of the Attorney General.¶

**4.4. Claims And Suits Awarded Against Agent.** If any Agent is adjudged to be liable to the Corporation in the performance of the Agent's duty to the Corporation, the Agent shall receive no indemnification for amounts paid pursuant to the judgment, and any indemnification of such Agent under Section 4.1 for expenses actually and reasonably incurred in connection with the defense of that action shall be made only if both of the following conditions are met:¶

(a) the determination of good faith conduct required by Section 4.2 must be made in the manner provided for in Section 5 hereof; and¶

(b) upon application, the court in which the action was brought must determine that, in view of all of the circumstances of the case, the Agent is fairly and reasonably entitled to indemnity for the expenses incurred. If the Agent is found to be so entitled, the court shall determine the appropriate amount of expenses to be reimbursed.¶

**Section 5. DETERMINATION OF AGENT'S GOOD FAITH CONDUCT.** The indemnification granted to an Agent in Section 3 and Section 4, hereof, is conditioned on the findings required by those Sections being made by:¶

(a) the Board by a majority vote of the Directors then in office, not counting any vote of parties to the proceeding; or¶

(b) the court in which the proceeding is or was pending. Such determination may be made on application brought by the Corporation or the Agent or the attorney or other person rendering a defense to the Agent, whether or not the application by the Agent, attorney, or other person is opposed by the Corporation.¶

**Section 6. LIMITATIONS.** No indemnification or advance shall be made under this Article XII, except as provided in Section 2 or Section 7(b), in any circumstances when it appears:¶

(a) that the indemnification or advance would be inconsistent with a provision of the Articles of Incorporation, as amended, or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid, which prohibits or otherwise limits indemnification; or¶

(b) that the indemnification would be inconsistent with any condition expressly imposed by a court in approving a settlement.¶

¶

~~**Section 7. ADVANCE OF EXPENSES.** Expenses incurred in defending any proceeding may be advanced by the Corporation before the final disposition of the proceeding on receipt of an undertaking by or on behalf of the Agent to repay the amount of the advance unless it is determined ultimately that the Agent is entitled to be indemnified as authorized in this Article XII.¶~~

**Section 28. CONTRACTUAL RIGHTS OF NON-DIRECTORS AND NON-OFFICERS.** Nothing contained in this Article XII shall affect any right to indemnification to which persons ~~other than Directors and Officers of the Corporation, or any of its subsidiaries,~~ may be entitled by contract or otherwise.

**Section 39. INSURANCE.** The Board may adopt a resolution authorizing the purchase and maintenance of insurance on behalf of any Agent, as defined in this Article XII, against any liability asserted against or incurred by any Agent in such capacity or arising out of the Agent's status as such, whether or not the Corporation would have the power to indemnify the Agent against the liability under the provisions of this Article XII.

~~Pursuant to the purchase and maintenance of such insurance, any indemnification under this Article shall be made by the Corporation only if authorized in the specific case, upon a determination that indemnification of the Agent is proper in the circumstances because the Agent has met the applicable standard of conduct set forth in Section 7 of this Article XII, by:¶~~

~~a majority vote of the Directors then in office, not counting any vote of parties to such proceeding; or¶~~

~~the court in which such proceeding is or was pending upon application made by the Corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney, or other person is opposed by the Corporation.¶~~

## ARTICLE XI

## MAINTENANCE OF CORPORATE RECORDS

**Section 1. MAINTENANCE OF CORPORATE RECORDS.** The Corporation shall keep:

a. Adequate and correct books and records of account;

b. Written minutes of the proceedings of its members, Board, and committees of the Board; and

c. Such reports and records as required by law.

**Section 2. INSPECTION BY DIRECTORS.** Every Director shall have the absolute right at any reasonable time to inspect the Corporation's books, records, documents of every kind, physical properties, and the records of each subsidiary, if any, as permitted by California and federal law. The inspection may be made in person or by the Director's agent or attorney. The right of inspection includes the right to copy and make extracts of documents as permitted by California and federal law. This right to inspect may be circumscribed in instances where the right to inspect conflicts with California or federal law (e.g., restrictions on the release of educational records under FERPA) pertaining to access to books, records, and documents.

~~**Section 3. ACCOUNTING RECORDS AND MINUTES.** On written demand on the Corporation, any Director may inspect, copy, and make extracts of the accounting books and records and the minutes of the proceedings of the Board and committees of the Board at any reasonable time for a purpose reasonably related to the Director's interest as a Director. Any such inspection and copying may be made in person or by the Director's agent or attorney. This right of inspection extends to the records of any subsidiary of the Corporation.¶~~

**Section 3~~4~~. MAINTENANCE AND INSPECTION OF ARTICLES AND BYLAWS.** This C~~c~~orporation shall keep at its principal California office the original or a copy of the A~~a~~rticles of I~~i~~ncorporation and B~~b~~ylaws, as amended to the current date, which shall be open to inspection by the Directors at all reasonable times during office hours. ~~If the corporation has no business office in California, the Secretary shall, on the written request of any Director, furnish to that Director a copy of the articles of incorporation and bylaws, as amended to the current date.~~

## ARTICLE XII

## ENDORSEMENT OF DOCUMENTS; CONTRACTS

**Section 1. ENDORSEMENT OF DOCUMENTS; CONTRACTS.** Any contract or conveyance made in the name of the Corporation which is authorized or ratified by the Board or done within the scope of authority conferred by the Board or within the agency power of the Officer executing it, except as the Board's authority is limited by law, binds the Corporation and the Corporation acquires rights thereunder whether the contract is executed wholly or in part.

## ARTICLE XIII

**Section 2. ANNUAL STATEMENT OF CERTAIN TRANSACTIONS AND INDEMNIFICATIONS.** The Corporation will comply with Corporations Code section 6322.~~As part of the annual report to the Board, or as a separate document if no annual report is issued, the Corporation shall, within 120 days after the end of the Corporation's fiscal year, annually prepare and mail or deliver to each Director and furnish to each Director a statement of any transaction or indemnification of the following kind:¶~~

For this purpose, an "interested person" is either:¶~~

~~1) Any Director or officer of the Corporation, its parent, or subsidiary (but mere common directorship shall not be considered such an interest); or¶~~
