Chris Brooks notes: The high level, compared last year with this year.
Numbers are pretty close.

Note: Over years 2022 has grown in cash, now have large extra.

Income, the net income changed, our revenues greater than spending.

The revenues are MFP state revenues, July and June were received funding until Nov.
then August. we have receive Federal dollars.

The warm body counts , depends on what we receive from the state.

Revenues from last year was decrease from FY 22-23, large amount of carry forward.

Next year, we will see a deduction.

Another Grant, we could use over the years.

We talked to state, but they did not agree with our plan.

Local Revenues, small amount this year from the bank or Beyond the Bell program this
year.

Expenses , dollar and wages Staff salaries represent large amount of budget. We spend
lots of time in the category for staff.

Stipends, Pay taxes, employee health benefits,
Other, transportations etc.

BY Fund

What were the issues of using the money?

Dr. Bressler: knows what are the issues with the use of the funds. Grant from state: use for Professional Training. Title Two: Is this use for Salaries? Chris: use for Professional Development.
