President Lapidus responded that it varies and difficult to answer. While the goals are based on the strategic plan, emphasis of time and resources are based on priority and need at different points in time. In talking about the performance goals, the president emphasized that he is lucky to be surrounded by many smart and dedicated people that work at the university and do great things to keep the school moving forward in a positive direction. A question was asked about becoming a member of SARA (State Authorizing Reciprocity Agreement). It was explained that membership has important implications for delivering the university's online programs. The president reported that Fitchburg State University is the first public 4-year institution to receive this designation. The assumption is that others are probably applying for SARA approval as well. There was a discussion. L. Barrieau arrived.

III. Replacement Check Guidelines

A. Replacement Check Fee - VOTE (08-18/19)

The president explained that a significant number of checks are distributed to students and go uncashed. This often results in the need to reissue a replacement check. There are many steps to replacing the check which is time consuming, so the fee is designed to encourage students to take advantage of electronic funds processing. The policy waives the fee if they elect to use the electronic processing option. There was a discussion.

D. Phillips made a motion to institute a \$30 fee to reissue a check per approved guidelines.

C. Stimpson seconded the motion.

The board **VOTED** unanimously to approve the motion.

IV. Student Economic Insecurities

A. Presentation on student economic insecurities

The president stated that the Board had briefly discussed, at a recent retreat, the issue of student economic insecurity. To elaborate on the topic, he invited members of Student Development group to make a presentation on the subject. Dr. Hank Parkinson, Assistant Dean of Student Development and Housing, Mr. Shane Franzen, Associate Director, and Heather Mazzaferro, Housing and Residential Services introduced themselves. They presented and explained a PowerPoint on Basic Needs Security. (Attached)

H. Parkinson stated that economic insecurity is affecting students across the country. A survey was sent out to students and the data matches regional and national data. There was a discussion.

S. Franzen explained the Falcon Bazaar necessity pantry. The pantry includes food items and hygiene products. As part of this program, H. Mazzaferro discussed the green bag program. The Student Development office has distributed green bags to all departments on campus with the hope that staff members will fill these bags with non-perishable food items that they purchase while doing their weekly shopping. Once the bags are full, they will be returned to the pantry and staff will be given an empty bag to refill. It is hoped that the entire campus will get involved and feel like part of the program.

H. Parkinson discussed the swipe it forward program. Students who are on the meal plan can donate a meal once per semester to a meal bank. Students can apply to the program and get meals placed on their One Card. He next explained the CARE Team (Community Assessment & Risk Evaluation). This group considers and, when appropriate, acts upon information or behavior(s) of concern exhibited by a student or group of students. Student Affairs coordinates the group of professional staff that meet weekly during the academic year to address the safety, welfare, and academic success of students. The Fitchburg State CARE Team includes representatives from across the institution, with a focus on reaching out to students whose behavior has in some way come to the attention of others. There was a discussion. The president and the board thanked the presenters for an informative presentation.
