Student Success Committee Purpose:

The Responsibility of a charter school is to address the academic learning needs of all students particularly those who have historically been underserved. As a charter school, we are given freedom from some of the regulations that non-charter schools must address with the understanding that we will increase student achievement and close the achievement gap. As a charter school, we are obligated to provide a program that delivers academic excellence by meeting the learning needs of all students.

The Board's role is to focus on the academic and social outcomes the school has identified and to support the staff in meeting those outcomes. It is *the staff's responsibility* to set ambitious outcomes and to identify programs and strategies to achieve those outcomes.

The purpose of the Student Success Committee is to provide greater communication and understanding of the various indicators of student success (academic and social-emotional). The *Committee's role* is to support staff in determining what to report to the Board and to build an understanding of possibilities to improve outcomes, including instructional and programmatic decisions and possibilities for communicating that to the Board.
