## **B. Executive Director Report**

## **III. Academic Excellence**

### **A. Scholar Spotlight: 8th Grade Video**

### **B. Q3 Academic Update**

T. DeLoach presented the Q3 Academic Update

We continue to see progress towards academic recovery in ELA across the board.

We are seeing recovery in math as well, but more in the elementary grades than in the middle school. This is consistent with what we are seeing from our peer schools in the aftermath of the pandemic, and further complicated by our significant growth in the middle school at Douglass with the larger 6th grade cohort.

Reading levels in K-1 are back on track from before the pandemic. However, reading levels in upper elementary school continue to be an area of concern as their formative years of reading instruction were significantly impacted by remote learning.

L. Hicks asked what Alma has planned for summer programming.

T. DeLoach responded that Alma runs an extended school year program each summer for scholars who need additional support.

J. Baptist asked about data from last year's ESY program.

L. Hicks asked how this opportunity has been received by families. T. DeLoach responded that families have been very grateful for this opportunity.

L. Hicks asked how many scholars we anticipate having at ESY this year. T. DeLoach responded that this process is currently ongoing but has not been finalized yet.

Y. Dennis asked if we provide transportation. T. DeLoach responded that yes, we do provide transportation as we do not want that to be a barrier to having scholars participate.

J. Baptist asked about enrichment activities during the summer. T. DeLoach responded that M. Marko has worked to have Alma scholars participate in a summer camp program.
