Efforts are being made to get changes to House Bill 10. At this time, excused absences still have to be reported as absences. All notes from parents need to be saved and scanned in to the computerized attendance system.

There were no items of concern with the monthly financial conference call.

The monthly site visit was conducted early in December; everything was compliant. A Special Education compliance visit was conducted the same day. The reviewer was impressed at MPA Staff's preparedness.

Let it be noted that the Board appreciates all the Staff's hard work with the Special Education paperwork.

Stacy ensures that the requirements for the stipends are completed before authorizing the stipends to be paid.

A lunch program specialist will come out and walk us through the steps to implement the program. Additional staff may be required to handle the paperwork required with a lunch program.

It was requested that these full reports be uploaded for the full board's information.

B. Development Plan Execution Report

The board extends their appreciation to all those who helped with the Winter Concert. The final revenue number has not been determined as checks are still coming in for donations. Plans are being made to ensure multiple people are aware of what is involved in planning and running this event. Lessons learned this year have been written down for future reference. MPA should be implementing a plan to encourage end-of-year giving.

C. Capital Campaign Report

Leadership and next steps for the Capital Campaign Committee have been discussed by the DCRC. The budget numbers need to be reconciled. There needs to be a focus on the Capital Campaign to fulfill our obligations to funders. A \$25,000 donation to the Capital Campaign was made this week. X. Facility Committee

A. Admin Building Update / Site Plan

The lenders are concerned about the condition of the old Administration building. The Landmarks Commission has given approval to demolish it as long as significant work is done to preserve its history. This may impact the plans for a field house. There is an option of moving the land and building into a separate parcel and selling it, but this would put restrictions on us in the future. The general feeling of the board is to retain the land for the school's use.

B. Building Usage/Design Parameters

Policies and procedures regarding how the school space is used for student education need to be developed. A staff committee will be established to engage in conversation about how we meld the original vision for the space with the practical application of teaching in the school.
