VI. Operations Report

A. Operations Report

We have taken care of facility items and computers have been assigned with the help of our tech team. We do not see a huge need for new devices at this time but we have received funds to do so. Currently assessing if and when certain devices need to be replaced. We also have a possible food service proposal to complete. Lock down training with Cleveland PD came in to train staff and was very thorough. CPR/AED training occurred during PD week. PikMyKid training occurred during PD week also. We will do another drill on Friday to solidify staff knowledge on training. Parents received car line signs for middle school. K-5 will receive theirs on Friday. All other students will get car line signs on the 1st day of school. We need more feedback from the teachers about their time spent so far in the building. We also had CPI training.

B. NSLP Update

This program has very specific guidelines that can be difficult to follow. The Daily does not want to go into a contract with us at this time. Public notices have been sent out to places like The Plain Dealer seeking food service programs. Proposing no NSLP programs and working with SNAP for \$3.79 per meal. We would have to cover the cost of the food outside of the NSLP program. Currently proposing a campaign for "Fund A Friend" meals. We would like to use refrigerators in house so as not to increase refrigeration costs. Starch and leafy greens components are not being met as a requirement for Menlo.
