B. FEM response to IAF request to change curriculum & program

Information only

- Summary of the request for curriculum & program changes

J. Sopczynski made a motion to terminate IAF agreement with FEM and license with SABIS pursuant to Section 11.8 of the EP Agreement effective June 30. The board had identified the following: 1. Continued poor student performance after many years of promises of improvement FEM and lack of progress 2. Annual reports issued by CMU demonstrating the lack of improvement; 3. CMU felt concerned enough to hire a monitor; 4. Reasons set forth in the boards initial letter provided in March to FEM setting forth the deficiencies; 5. The board's Supplemental letter setting forth additional deficiencies; 6. Actions taken unilaterally by Amy Wesley seeking to control and direct the flow of communication to the Board by requiring all communication be routed to her first and her continued refusal to apologize for her behavior and the resulting impact that her actions have caused, namely complaints of harassment and retaliation and creating a hostile environment for our education team 7. Teacher surveys because we care about our educators and value their input, teamwork and honesty 8. The over 65 teachers, administrators, and parents that spoke at board meetings regarding the FEM SABIS educational program and actions which reflect FEM's inability to be flexible and accommodate IAF students and create a culture of learning 9. Our several educators have terminated their employment due to having to teach the SABIS system and the environment created by FEM 10. Section 4.4 of the EP Agreement makes FEM is accountable to the Academy Board for student performance; 11. SABIS/FEM has failed to create an educational environment that is designed to attract and maintain teachers. Instead we see a complete loss of confidence in FEM's role and SABIS educational program; 12. The failures set forth in the SchoolWorks report; 13. Failure of FEM to act in a prompt manner to address a pending FOIA request, thereby putting the Academy at risk 14. The report we received today from CS Partners regarding the teachers and their comments related to SABIS's ; 15. FEM has failed to accept all of the requested changes in program and curriculum proposed by the Board 16. IAF is concerned that we will not be able to hire/retain sufficient educators if changes are not made to the SABIS system as proposed, We do not believe that those deficiencies are capable of being cured within the time frame by FEM under Sections 11.3.2 and 11.8,.
