Position	Rationale
<p>Upper School Math Interventionist</p>	<p>We are requesting a Math Interventionist who will be responsible for supporting student achievement in the area of Mathematics with special attention to Tier II and III instruction. The Interventionist will provide individual or small group instruction to students who are struggling academically. This position is also responsible for monitoring, reporting, and communicating student progress and performance. The PSSA data from 2015-2019 show an average proficiency rate of 32%. The interventionist would support our program, particularly in 6th and 8th grade, where the scores trend slightly lower. The Linkit benchmark and curricular assessments will be indicators used to determine student need and programming.</p> <p>Our goal is that all students will meet or exceed grade-level standards at or above grade level. Any loss that may have occurred during remote learning will be addressed.</p> <p>Additional support for students with IEPs, 504 plans and struggles with learning. Additional small group and individual focus and feedback. Opportunities for the classroom teacher to implement new and innovative instructional practices.</p> <p>This position is being brought on through ESSER funds as it will support learning deficits that may have occurred as a result of the pandemic. It is being proposed for 2 years and therefore will be brought up again for the 2023 budget.</p>

Position	Rationale
<p>Special Education Teacher Grades 3rd/4th</p>	<p>This project would entail bringing a new staff person on board for the 2021-2022 School Year dedicated specifically to the identification, instruction, progress monitoring and case management of Third and Fourth Grade students. This is necessary based on the student population's needs as the population has increased in size and become increasingly disparate in their need of special education or Tier 3 supports. The reality of this is that this trend will not be reversing course any time in the near future due to the learning loss or stagnation of students currently in Second and Third grades.</p> <p>This role is critical as it is no longer feasible for the Third and Fourth Grade Special Education Teachers to manage and straddle the instruction and assessment for both their caseloads as well as the students in need of Tier 3 interventions. General Education Teachers are consistently reaching out requesting support for students in these grades who are not making the progress expected. This age is particularly key as well because it is the span of time in which students are going from learning the skills to learn (such as basic word reading and computation) to making meaning of what they are reading, learning, or problem solving around. In light of both local trends as well as that of the impacts of the pandemic, the needs in these grades will not be slowing down in the immediate future. By adding this team member, it would allow us to provide more meaningful Tier 3 instruction, research based math and reading interventions, identification of Child Find issues, and monitoring for the At Risk students in a more efficient manner so that a greater number of students can be supported fully.</p> <p>This position is being brought on through ESSER funds as it will support learning deficits that may have occurred as a result of the pandemic. It is being proposed for 2 years and therefore will be brought up again for the 2023 budget.</p>

Position	Rationale
<p>Special Education Teacher Kindergarten</p>	<p>This project would entail bringing a new staff person on board for the 2021-2022 School Year dedicated specifically to the identification, instruction, progress monitoring and case management of Kindergarten students. The incoming Kindergarten students with Early Intervention services and supports is only going to continue to grow, both in light of local trends as well as that of the impacts of the pandemic. Additionally, our prior practice of not identifying Kindergarten students generally, has not served us well and it is creating a backlog in the other elementary school grades. We will be able to have this staff member support in collecting the Early Intervention documentation, reviewing Home Language Survey data, supporting the Speech Language Screening/Monitoring protocols, identifying students who may be At Risk for Special Education and identification based on their diagnostic assessment, as well as providing meaningful Tier 3 instruction and monitoring for the At Risk students.</p> <p>This position is being brought on through ESSER funds as it will support learning deficits that may have occurred as a result of the pandemic. Position	Rationale
<p>STEAM Specialist Teacher</p>	<p>The previous Community Coordinator and Technology Coordinator have both served the school as part-time specialist teachers. In efforts to streamline their positions, we have removed them both from the specialist schedule. We are in need of a specialist teacher to complete the schedule. We have decided to pursue hiring a STEAM Specialist teacher who will be responsible for teaching and planning for middle school STEAM courses. They will be responsible for integrating STEAM (Science, Technology, Engineering, Art, & Math) concepts in collaboration with school staff in order to increase 21st Century Life and Careers skills for all students in grades 5-8. In addition, the STEAM Specialist focuses on integration of critical thinking, creativity, innovation, and high complexity problem solving throughout the curriculum.</p>
