

Reach Cyber Charter Partnership 2023

Keeper for a Day Experience at Elmwood Park Zoo

Experience Overview:

Students will have the opportunity to experience what it is like to be a zookeeper! The experience will be one 3 hour day for the middle school age group, and two 3 hour days for the high school age group. The time will be 9:00am to 12:00pm. The ratio will be two students for one Elmwood staff or three students for two Elmwood staff. We can run one 3 hour experience per day, and we would not have the middle schoolers and high schoolers on the same day.

During their keeper for a day experience, students will be working behind the scenes with our Education Ambassador Animals. These animals' job is to teach about their species. During this time, students will get to learn the ins and outs of taking care of these animal friends from an education zookeeper. Topics such as husbandry, enrichment, training, etc. will be discussed and taught. Students will have the chance for hands-on experiences, as well as ask any questions about career opportunities in the zoo field.

Pricing:

\$325.00 for the middle school students, and \$500.00 for the high school students, since they will be doing two experiences.
