VII. Information Items

A. Government Affairs Update

Jessica Hickernell provided an update on Government Affairs. She noted that the Governor is preparing to present the proposed 2026–2027 state budget on February 3. While the hope is that cyber schools will not face additional funding cuts, the team is preparing for the possibility of further reductions. Jessica also highlighted that this is an election year for the Governor, which could influence both the budget and broader education policy decisions. She emphasized the importance of families staying engaged and continuing to speak out against any additional cuts to cyber education.

B. Truancy and Attendance Update

Kelley McConnell, Chief Academic Officer, provided an update on Reach’s response to the new Truancy and Attendance law in SB315, which prohibits habitually truant students (6+ unexcused absences) from transferring to a cyber charter during the school year. From December 13–January 20, Reach enrolled 152 new students but was required to deny 50 additional applicants—resulting in a 25% denial rate. A significant barrier is that districts have 10 days to provide records while cyber charters must enroll within 5 days, delaying truancy verification and forcing some students to withdraw and return to their home district. Despite these challenges, Reach has improved attendance by 13% over last year, with 82% of students currently on track.

C. IT Updates

Nate Laird, Director of IT, provided an update on IT operations, noting that all systems are functioning well. He also shared that a request has been made for a cybersecurity update to be prepared and presented to the Board at an upcoming meeting.

D. State Testing Update

Mrs. McConnell provided an update on State Testing and announced two changes that will be implemented this year. First, Reach will discontinue the \$50 daily stipend previously offered to staff supporting state testing. In addition, venue-related expenses will be reduced by decreasing the number of testing sites from 39 to 30.
