Serving Students in Grades 5 - 12

As an arm of the Board, we seek to sustain an educational community where an emphasis on academic excellence is complemented by our concern for each learner's personal growth and intellectual, aesthetic, and psychological development. The curriculum is developmentally responsive – actively engaging students in learning skills in context; integrative – directing students to connect learning to daily lives; and exploratory – enabling students to discover their abilities, interests, learning styles, and ways that they can make contributions to society.

The Academic Excellence Committee's role is strategic oversight of academic outcomes — student proficiency, intervention effectiveness, and goal achievement. We do not exercise operational authority over curriculum, instructional materials, or day-to-day educational decisions. Those responsibilities rest with the Executive Director and the administration, within the framework of state, county, and board-approved guidelines.

Information on procedures for public comment can be found on our Governance Page. ([Click Here](#))

If anyone needs special assistance to participate in the public input session, every effort will be made to provide appropriate accommodation. When requesting accommodations for public input, please allow no less than 1 business day notice prior to the scheduled meeting.

Specific issues about a particular student should only be addressed to the school's Director of Student Services, rather than the Board of Directors.
