3. Visited City of Spokane parks to get information on mowers.
4. Still waiting to demo a mower, just nothing available at this time.

**Safety:**

1. Nothing to report at this time.

**D. Todd Reed, Technology Director**

**Areas of Focus**

- Testing and assessments are currently being conducted district-wide and are progressing smoothly with no major technology issues impacting the process.
- Engaging in comprehensive collaboration with principals to strategically plan and coordinate the scheduling of the student Chromebook check-in process for both FMS and FHS, ensuring a seamless and efficient execution.
- Currently working on the setup and preparations for the Class of 2025 graduation ceremony.

**VII. Superintendent's Report**

**A. Superintendent Remarks**

- Dr. Russell asked the Board to please keep the Northport School District in their thoughts and prayers following a school tragedy over the weekend that resulted in the loss of life of their Superintendent and a 15-year-old student. We have offered our support to their district during this challenging time.
- Dr. Russell invited Middle School Principal Jim Straw to lead the Board through the review and discussion of the proposed 2026-27 School Calendar. In February/March, a survey went out to the staff regarding school calendar feedback which led to further discussion about a possible mid-winter break. The Calendar Committee then met and discussed calendar options of taking a full week off in February (week of President's Day) or instead adding two longer weekend options in February and March. All but one of the committee members voted to move forward with the two longer weekends option, which was shown to the board. The

first long weekend would add February 16th as a day off, and the second long weekend would push March 4th to be the first snow makeup day, and March 5th as a day off. This addition of two days would push the final day of the school year to Friday, 6/11. The Board asked questions surrounding attendance for the shorter school weeks and how it impacts teacher instruction. Further evaluation of those items will continue. The board agreed for Mr. Straw to communicate the proposed schedule to the staff and let them know the Board will vote on it during the 6/10 board meeting.

## **B. Curriculum, Instruction and Assessment**

Heidi Youseph (CTE Counselor) and Matt Smith (Certificated Teacher) presented a summary about the Freeman ConnectEd program that we are rolling out for the 2025-26 school year as a Pilot Program.

- ConnectEd is an additional ALE model to our current SOARS program and is being introduced to better serve our community.
- ConnectEd will implement the curriculum Edmentum for online resources to replace paper and pencil assessment tools.
- Initial conversations began in September 2024 regarding this option. A team was created in January 2025 to site visit similar programs at Newport and Deer Park. In April, dialogue began with Edmentum regarding possible curriculum and new partnerships/conversations with East Valley and Central Valley, followed by a site visit to East Valley.
- This program is designed for students with unique circumstances who may be returning to our program from another ALE program, or for students who are committed to significant extracurricular commitments and often have difficulty balancing their schedules with traditional school hours.
- Our traditional format for the current SOARS program with the surrounding consortium will remain in effect. The only difference will be the vehicle to complete their credits.

## **C. School Safety, Culture and Environment**

### **Community Solar Project Update**

- The Board previously expressed concerns regarding the solar panels on our building roofs. After discussing details with Inland Power, David Funk reworked the project proposal.
- The new proposal moves the solar panels to the ground, which would be located behind the PRTC. This is one proposal with two parts. The first set of panels would feed the PRTC building, and the other set of panels would feed the Elementary building. This would be a smaller project with 1/3 less savings.
- The Board expressed concerns regarding the responsibility if there is damage with solar panels on a ground mount, and what the impact would be like to the

neighbors. The option of a fence surrounding the panels was discussed but would come at cost and reduce our overall savings.

- Considering the 10-year coverage for any potential damage, maintenance and repair, the Board agreed to move forward to get the ball rolling so they can formally submit their proposal for grant funding. Dr. Russell will proceed to ask Mr. Funk the additional questions from the Board.

#### **D. Partnering with Parents and School/Community**

#### **E. Fiscal and Legal Accountability**

##### **Cash Flow**

- Dr. Russell did a thorough review with the board of the Capital Projects Fund cash flow with a 3-year outlook taking us through the final repayments of the LGO Bond.
- It showed the levy/investment proceeds, in addition to donations, as well as anticipated expenses outlined for safety/tech and maintenance/grounds.
- Mr. Reed will be working on a tech plan for the board for review in early 2026 that they anticipate being around \$500,000.
- A primary focus will be on our communication to our community regarding how we are making good on all of the promises made in our levy funding discussions.
- The goal has been to try and get our cash position to reasonable numbers. We don't have much room for emergencies through April 2026.
