At the end of FY 2024, CSS remains in a positive financial position.

Revenue increased by \$192.5K, primarily due to increases in IPS funding outside of SBA formula (i.e. Textbook Reimbursement) and grants (Marian University and State STEM)

Expenditures decreased by \$104K which, combined with revenue increases, led to a large surplus.

Personnel expenditures decreased due to large one-time payments in FY23 and Additional Costs decreased largely due to a large technology purchase that was not capitalized in FY23 while there was a large non-technology purchase in FY24 that was capitalized.

We increased our non-operating revenue for the fiscal year due to the ERC credits that were applied.
