

Camino Nuevo Charter Academy  
2020-21 Winter CARS Data Collection Summary

Fiscal Year 2018-19	Details	Applicable Schools
Title I, Part A Closeout Report	If you reported a carryover in the 19-20 Winter ConApp, you would need to report whether or not you fully expended the 18-19 Title I funds in this Data Collection (DC). Due to COVID-19 related waivers, any unspent funds must be returned to the state after 09/30/21.	none
Title III English Learner YTD Expenditure Report, Closeout 27 Months	This DC is the final expenditure report for 18-19 Title III funds.	All except CNHS#2 as it is Consortia member

Fiscal Year 2019-20	Details	Applicable Schools
Title I, Part A LEA Carryover	This DC calculates the amount of FY 19-20 Title I funds to be carried forward to FY 20-21. Since your Title I funds were fully spent in FY 18-19 there is nothing to carry over.	All
Title III English Learner YTD Expenditure Report, 18 Months	This DC reports how FY 19-20 Title III funds were spent. Based on the Unaudited Actual reporting from 19-20 all funds were spent and are being reported in the respective line items.	All except CNHS#2 as it is Consortia member

Fiscal Year 2020-21	Details	Applicable Schools
Federal Transferability	This DC allows you to transfer up to 100% of Title II or Title IV funds to Title I, II and Title III (if you receive these funds). <b>Per our prior communications, we will not be transferring any funds between programs.</b>	All
Title I, Part A LEA Allocation and Reservations	This DC determines how much Title I is available to the LEA after accounting for nonprofit private school participation in Title I, which does not apply to charter schools. This DC also calculates the total Title I allocation after accounting for transfers in (if any funds were transferred via the Federal Transferability DC) and carryovers from the prior year (if applicable). In addition, this DC reports required and authorized reservations the LEA is making before distributing funds to schools. Parent and Family Engagement Reservations: If your Title I allocation was \$500K or more, you would have to reserve 1% of your Title I funds for parental involvement activities. Direct or indirect services to homeless children, regardless of their school of attendance: Educationally-related services not typically allowable for ALL Title I students may be allowable for homeless students to ensure that they can participate in required academic activities. <b>We have reserved \$100, which may be spent on items included in this CDE overview.</b> We will need to report on the amount actually spent or encumbered in the spring ConApp. Public School Choice Transportation: only applies to students previously transferred under No Child Left Behind. Other authorized activities: LEAs are authorized to reserve Title I, Part A funds to implement districtwide Title I initiatives. These initiatives are designed to improve the achievement of Title I students and are managed at the central level rather than at the school level with the purpose to benefit all, or a group, of Title I schools in the district. Finally, this DC requests LEAs indirect cost or administrative reservation. These sorts of reservations are less relevant for single school districts, which charter schools are. As a result I haven't reserved anything except as noted above as it relates to the homeless reservation.	All
Title II, Part A LEA Allocations	This DC calculates the total Title II allocation after accounting for transfers in and out (if any funds were transferred via the Federal Transferability DC) and any administrative and indirect cost reservations. <b>We have not made any transfers into Title II, nor made any reservations.</b>	All
Title III English Learner LEA Allocations and Reservations	This DC shows your FY20-21 Title III allocation and reports how the funds will be spent. The amount shown is the consortium total. <b>We are reflecting all funds being spent on English proficiency and academic achievement.</b>	All except CNHS#2 as it is Consortia member
Title III English Learner YTD Expenditure Report, 6 Months	This DC reports how current year Title III funds have been spent through December 31. Currently, I'm only showing some books/supply expenses. I'm using Dreambox and Reading to A-Z as many schools use these for ELs. I'm not sure if Equitas does. I could also report Instructional Aides but need some guidance to calculate how much to charge.	All except CNHS#2 as it is Consortia member
Title IV, Part A LEA Allocations	This DC calculates the total Title IV allocation after accounting for transfers in and out (if any funds were transferred via the Federal Transferability DC) and any administrative and indirect cost reservations. <b>We have not made any transfers, nor made any reservations here.</b>	All
Consolidation of Administrative Funds	Since we don't reserve anything for administration, there's nothing to consolidate. (If we did reserve anything for administration, then we could consolidate those funds and account for the administration costs as a whole rather than by program - this would make federal time accounting potentially easier.)	All
Title I, Part A School Student Counts	This report is not relevant for charter schools. It is meant to allow districts to select allowable ranking and funding options and to enter school level student data for the purposes of calculating eligibility and ranking of schools for Title I Part A school allocations.	All

Title I, Part A Notification of Authorization of Schoolwide Program	<p>This DC indicates when a school converted to Title I Schoolwide. (All schools begin as Targeted Assistance (TA) Title I schools meaning they must identify at-risk students based on local measures and use Title I funds for services to these students. After completing a planning process and getting board approval, the school may operate a schoolwide Title I program (SWP) which allows the school to use Title I funds to upgrade the entire educational program to serve all students). For EQ, EQ2 and EQ3, I've used the date the board approved the SSD plan although I'm not sure this is entirely compliant. EQ4 has not gone through the SSD process (in anticipation of planned changes to the LCAP), nor has it prepared a schoolwide plan so it remains a Targeted Assistance Title I school. <b>All Camino schools are Title I Schoolwide.</b></p>	All
Title I, Part A School Allocations	<p>As noted above this DC is not relevant for charter schools. It's meant to indicate the amount of funds allocated to each school in a school district based on the district's ranking system. Note that the counts reported don't have any impact on your funding allocation. The state bases the funding on CALPADS data and not what's reported in the ConApp. <b>The counts we've reported here are from your certified Fall 1 CALPADS data.</b></p>	All
