

Explanation of Updates to CNCA's Reclassification Criteria

CNCA's reclassification criteria has been updated to align with the current data sources that CNCA collects to determine student progress toward meeting ELD and ELA standards. Specifically, CNCA has made updates under the criterion: Basic Skills Assessment. The updates are summarized in the table below:

Data Sources No Longer Used for Reclassification	
Data Source	Rationale
Teacher's College Reading and Writing Project's (TCRWP) reading assessments	Assessment no longer used in CNCA
On Demand Writing Assessment	Misaligned with LAUSD's criteria
Data Sources Recently Added	to CNCA's Reclassification Criteria
Data Source	Rationale
IRLA Reading Level	CNCA's updated formative reading assessment aligned to ARC Core
i-Ready Diagnostic Level	CNCA's verified data source for ELA
Lexile Reading Level (K-2)	Reported as part of the i-Ready Reading Diagnostic
SBAC	Aligns to LAUSD's Reclassification criteria

In addition, the "Teacher Evaluation" section has been updated to reflect CNCA's current grading system in grades K-5. Students no longer receive separate grades for reading, writing and listening and speaking. Instead, students receive one English Language Arts grade that integrates all three domains of the ELA standards, and better reflects how teachers instruct language arts.

Lastly, the titles of the first two criteria have been updated to better align with language from the state and LAUSD.

¹ Reclassification criteria determined by CNCA based on the California Department of Education's Updated Letter to LocalEducational Agencies Regarding Reclassification Guidance for 2018-2019 dated January 2019.

² Students in grades 1-2 must meet grade-level goals to increase the likelihood that they are well prepared for the rigor of academic language in subsequent grades. Students in grades 3-12 can reclassify if they are approaching grade-level reading because the academic language demands in these grades are already high.
