The schedule could be changed at any time. We could review at each Board meeting.

Tyler questioned how the online students are doing. Kasey has been monitoring elementary grades, but is looking forward for the MOY assessments in iReady and DIBELS to get a standard assessment.

Stephanie has audited grades and has seen online students having a higher passing rate. There are many variables involved with that.

We will build a team to create a plan for continuing an online learning option. Bill would like to participate on the planning team.

C. Development

Survey

- The administration may need leadership training. The administrative team is working on participating in leadership training together and separately.
- There were some concerns about CANVAS. There are some great resources on CANVAS. The learning curve was steep and seems to be getting better. Stephanie and Drew can reach out to teachers to offer live support. Jeremy Coleman helps teachers build out their CANVAS courses. A different system would not solve the issues.
- Concern on following distancing protocols. There was a concern with a small group. We have encouraged staff to follow protocols.
- Behavior concerns at the Elementary. Kasey and Teryl will look into it.

Tyler inquired regarding staff morale and attitude. Seems to be good. The soft closure went well.
