## EXECUTIVE SUMMARY

The Maine Charter School Commission is the authorizer of nine charter districts. Each charter district holds a contract with the Commission containing a Performance Framework of indicators and targets the district shall meet to continue operating in Maine. The charter districts are evaluated annually as required by state statute. Data are gathered through the Maine Department of Education, Charter Districts, and Site Visits, as applicable.

The Maine Charter School Commission has established a monitoring visit table for visit frequency and intensity. A copy of the Site Visit Manual can be found [HERE](#). Maine Virtual Academy was on cycle to have a Site Visit at the end of the 2023-24 school year.

Key documents and other information reviewed to determine progress on the charter district's performance framework and alignment with its mission are as follows:

Documentation is a major component of the Maine Charter School Commission's monitoring process, which happens throughout the year. Charter districts are required to submit reports and data for review. The table below summarizes the charter districts' report and data submission completion throughout the 2023-24 school year:

## NARRATIVE

SY2023-24 marked Maine Virtual Academy's (MeVA) ninth year as a charter public school in Maine and this past spring they embarked on their second charter renewal process. Performance outcomes in Years 1-3 of the current charter contract, along with preliminary outcomes for Year 4 of the current charter contract can be found in their Year 4 Performance Report which can be found [here](#).

The following has been taken from MeVA's annual self-assessment:

*"During the past four years, MeVA has developed teams and platforms that make our school sustainable and successful in the long term. MeVA realizes that we typically serve a disadvantaged, at-risk, population that enroll with unique needs. We receive students at the earliest as seventh graders, who arrive from a wide variety of Maine public districts and homeschool, at contrasting readiness levels."*

*"Our amazing 'customer' service inspires parents/Learning Coaches to step up for projects, which are exemplified by their participation in our ingenuities, including school-based and state assessments, the Panorama School Climate Survey, and the annual re-registration process. Our students and their families consistently recommend MeVA to their friends and relatives."*

*"The experience of MeVA students and their families is bolstered by faculty teamwork and partnerships that realize successful outcomes, project by project, throughout each school year. In that respect, MeVA is built to last, and adds significant value to the Maine educational landscape, by providing high-quality virtual instruction and alternatives. MeVA is always working to improve our programming, analyzing our data to address the needs of underserved and marginalized students."*

*In summary, "MeVAs performance in all major components of the school's operation, as measured against performance indicators and other goals and objectives expressed in our approved contract, is characterized by maturity and thoroughness. Over the past nine years, MeVA has transformed from a small startup organization to an established institution that highly prioritizes the experience of our stakeholders. Our prevailing trend is enthusiastically serving our students and their families, along with meeting our responsibilities and outcome expectations."*

### **Student Achievement**

MeVA's academic team includes academic and special education administrators, a curriculum coordinator, classroom teachers, and support teachers who focus on students' academic growth and achievement, employing evidence-based practices and progress monitoring. The team participates in thirty-three, data-informed, weekly Process Improvement Meetings during the academic year. These meetings are a chance to share goals, data/results, and to present professional practice topics as needed.

The state of Maine requires that students be assessed for proficiency in both reading and math two times per year - once in the fall and again in the spring. MeVA enrolls students from all over the state of Maine who have chosen a virtual environment for a reason - often for significant anxiety or mobility issues. The MDOE requires that virtual school students take the state assessments in person. Twice a year, MeVA staff travel all over the state to facilitate state testing. This requires a significant amount of coordination from the school and requires parents/families to transport student(s) to a testing site (often libraries and community centers).

Despite the logistical challenges of coordinating in person testing, MeVA had 97% of its students in grades 7, 8 and high school participate. Students are **meeting** expectations in Reading, but **not meeting** expectations in Math. Math results are significantly lower than statewide results, and MeVA has taken concrete steps to improve.

In most cases, subgroups are **meeting** or **exceeding** expectations in Reading. Of particular note, are Economically Disadvantaged students who are not only **exceeding** expectations in grades 7, 8, and high school but are outperforming their peers statewide.

Notwithstanding the school-wide Math proficiency results, all subgroups in grades 7, 8, and high school are **approaching** expectations on the performance framework. MeVA uses the NWEA MAP Assessment to measure growth for students in grades 7-11 and is **exceeding** expectations with 58% of students meeting projected growth in SY2023-24. Subgroups are also **exceeding** expectations.

MeVA outperforms the state average in high school completion. For the 3rd year in a row, MeVA has **exceeded** expectations for 4-Year High School completion with 100% of students graduating in both SY2022-23 and SY2023-24. Schools are evaluated on 5-and-6-year high school completion and MeVA is **exceeding** expectations with a 5-year high school completion rate of 100% and a 6-year high school completion rate of 96.94%.

The school uses the Accuplacer to assess for post-secondary readiness and have shared stories of students' excitement when they realize that they are college ready. 86% of MeVA students have Accuplacer scores that are **exceeding** expectations. If all subgroups were reported separately, all would be **exceeding** expectations except for one who is **meeting** expectations.

MeVA reports that 100% of students have successfully participated in at least one post-secondary activity prior to graduation. They also provide support to families as needed with completing the FAFSA.

Ensuring that students are "doing school" in a virtual environment takes effort and MeVA has a family support team in place consisting of two guidance counselors, an attendance-technology support liaison, and three secretaries. Statewide chronic

absenteeism rates continue to be high across the state of Maine, but MeVA has certified rates under 10% for the past four years – **exceeding** expectations for the last three. When asked how they continuously keep their absenteeism number low, MeVA leadership shares that “Communication with our families is a daily effort, all day long. We typically host fifty to sixty team meetings each week. MeVAs family outreach is a huge strength.”

### **School Climate and Family Engagement**

Maine’s public charter schools are required to administer the Panorama School Climate survey annually to parents/families, students, teachers, and staff. Results from these surveys are compared to like-schools nationally and MeVA consistently **exceeds** expectations in all categories, across all stakeholder groups – this year being no exception. 100% of MeVA staff and teachers participate, and participation rates for families and students meet or exceed the Commission’s requirements.

MeVA shares the survey results with the entire faculty and sets annual goals for continued improvement.

### **Organizational Sustainability**

All required state and Commission reporting is done accurately and on time, without exception.

Per MeVA’s self-assessment, “The MeVA governing board prioritizes well-informed governance through regularly maintained policies and handbooks, and strategic plan. The five member board hosts monthly meetings, consistently posting agendas and minutes in advance of deadlines. MeVA’s governing board minutes exemplify the seriousness of their work. The MeVA governing board conducts a self-evaluation and sets annual goals.”

### **Financial Management and Viability**

MeVAs financial team is “exceptionally qualified” and includes a business manager who is a full-time CP, and an HR Manager/Accounts Payable Clerk who supports the school.

MeVA exceeds financial expectations and earns a clean audit year after year. MeVA excels at grant management, staying up to date with application, performance reports, and invoicing.

### **School Mission and Student Persistence**

MeVA is conducting its mission and vision by focusing on building students’ academic achievement and growth, postsecondary readiness, and twenty-first century thinking skills – such as creativity, flexibility, communication, and collaboration. MeVA uses advanced technology, but consistently prioritizes directly serving people over obtaining products. As a result, MeVA delivers personalized virtual education experiences to their students and their families, building constructive relationships that promote learning within its statewide catchment area.

Student persistence has continually improved over the years, with MeVA reporting that 97% of students persisted through SY2023-24 - **exceeding** performance framework expectations.

Recurrent enrollment also remains strong with 94% of students completing an intent to re-enroll form - **exceeding** performance framework expectations.
