II. Capital Planning Committee

A. Presentation - Carlo Schiattarella - Schoolhouse Project

Facilities Planning Committee Update (presented by Charles Stern & Carlos from Schoolhouse):

The committee is doing exploratory work on construction and financing for potential expansion to grades K-4

- No decisions made yet, in the early planning stages
- Carlos presented his experience with charter school facility projects in the NYC area
- Discussed the process of determining space needs, finding sites, managing design and construction
- Emphasized the need for comprehensive planning, not a piecemeal approach
- Reviewed some past projects as examples
- Community relations are important when constructing new charter school building
- Potential issues with unions, and prevailing wage requirements that can increase costs
- Typically use the same architects/engineers/contractors when possible

III. Finance

A. Financial Update

Finance Report (presented by Kim Johnson):

- Operating cash balance as of Feb 29: \$238,000 (additional \$500,000 in money market account)
- Total revenue YTD: \$4,618,000 (slightly less than budgeted)
- Total expenses YTD: \$4,762,000 (under budget of \$4,797,000)
- Net operating deficit of \$144,000 as of Feb 29 (budgeted surplus was \$27,000)

- Have cash to cover projected deficit, not a cash flow issue
- Discussion of putting aside funds as a "rainy day fund" - no decisions made

B. Finance Department

- State auditor mama du Barry has been auditing the school since August 2022
- Met with Finance Committee members John Kuo and Jim Killoran to discuss preliminary findings
- Issues noted: 1) Policies & procedures not always followed, lack of internal audit function 2) Need for better segregation of duties for expenses/payments 3) Inconsistent awareness of policies & procedures among staff
- Plan to update financial policies & procedures (last updated in 2017)
- Will look at options for checks & balances/internal audit functions through combination of CSBM, external auditors, in-house staff
- Changes in personnel (CFO leaving, etc.) cited as contributing factors, not placing blame

IV. Educational Accountability

A. ELA and Math Mock Data

Academic Accountability:

- ELA mock exam results reviewed - grade level proficiencies range from 51% to 67%
- Math mock exam results concerning - grade-level proficiencies range from 4.8% to 16.1%, much lower than last year especially in 8th grade
- Urgent action plan being put in place with targeted small group instruction leading up to state math exam on May 8-9
- Investigating new math curriculum, the current one is not rigorous enough
- Examining teacher-level data to make staffing decisions for next year

B. NYS Assessment Dates

V. Operations

A. Marketing and Recruitment

Enrollment & Recruitment:

- Current enrollment holding steady at 343 students
- 52 applications for 5th grade so far, below the target of having grade filled by April 1
- Extending outreach efforts - billboards, social media ads, in-person recruitment events
- Priority to fill 5th grade, then can offer additional spots in grades 6-8 which are currently oversubscribed based on waitlists if needed
- Enrollment drives the school's revenue, \$19K per student from the district of residence
- Challenges with enrollment declines seen across the charter sector
- Maria leading enrollment efforts with support from the leadership team

- Discussion of expanding recruitment efforts to neighboring areas like Bronx, New Rochelle, and Yonkers to boost enrollment
- But requires change to charter which currently prioritizes Mount Vernon residents
- Takes time to get material charter revision approved
- Decline in enrollment citywide impacting charter schools' ability to meet targets

VI. Closing Items

A. Adjourn Meeting

Next Steps:

- Continue enrollment push especially for incoming 5th grade
- Implement academic action plan for math
- Update financial policies & procedures, research internal audit options
- Plan Teacher Appreciation Week activities
- Promote upcoming school events
