**A. Report out any action taken in closed session.**

No action was taken.

**V. Oral Presentations**

**A. Excel Academy Charter Schools Board of Directors Manual Review**

The report to the Board of Directors of the Board Manual summarized minor updates to the manual, primarily consisting of grammatical adjustments and semantic clarifications. A notable addition was the mention of compliance with the Brown Act on page nine. No substantial changes to language or policies were made, as indicated in the redlined version attached to the agenda.

**B. Ethics Assembly Bill 2158**

Heidi presented information regarding Assembly Bill 2158, which requires the Board of Directors to complete at least two hours of ethics training by January 1, 2026. The training must include core content and proof of participation. She outlined three options for compliance:

1. **Self-Paced Training:** Board members complete the training independently and submit their certificates.
2. **Legal Counsel Facilitation:** An attorney provides the training during a board study session.
3. **Recognition of Other Trainings:** Board members who complete similar training through another organization can submit a participation certificate to fulfill the requirement.

The board expressed a preference for the self-paced option, noting its flexibility and ease of implementation. Heidi assured them the training would be made accessible soon, likely

as an online module, and certificates could be printed for record-keeping. The discussion concluded with consensus on moving forward with the self-paced approach.

### **C. Performance Evaluation Planners for 2024/25 - Presented by Megan Anderson, Director of Human Resources**

Megan presented updates to Excel Academy's **Performance Planner**, a key resource for administrators and leadership teams to manage staff evaluations and supervision effectively. She explained how the planner integrates school goals with HR resources, offering a streamlined and user-friendly system. This year, Megan and Heidi refined the planner's language and structure to align with the school's current objectives.

One of the key updates included a customizable timeline, allowing departments to adjust evaluation schedules to fit their unique needs. For example, testing periods for assessment teams may differ from timelines for other departments. The planner also includes digital links to resources, observation templates, and evaluation tools, making it accessible and interactive.

A major improvement was the standardization of evaluation tools. Previously, departments used varied methods, but now all staff evaluations fall into three categories: certificated educators, certificated leadership, and classified staff. This consistency ensures clarity, accountability, and legal compliance across the organization.

Megan also introduced **SuperEval**, a digital platform designed to streamline administrator evaluations. This tool enables goal setting, evidence attachment, and collaborative reviews, replacing paper-based processes with a centralized system. Additionally, she highlighted supportive evaluation resources like Inspire and Frisk, which provide a progressive approach to addressing performance concerns.

The board praised Megan's meticulous approach, emphasizing the importance of flexibility, consistency, and the unified tools for scaling the organization effectively. They appreciated the clear organization of the planner and how it supports accountability while fostering collaboration among staff. Megan concluded by reiterating her commitment to continuous improvement and making the tools accessible and user-friendly for all supervisors.

## **VI. Closing Items**

### **A. Adjourn Meeting**

There being no further business to be transacted, and upon motion duly made, seconded and approved, the meeting was adjourned at 11:00 AM.

Respectfully Submitted,  
W. Hall
