### A. Expenditures

Computer expenses including IT Technical Support and supplies are both running over budget.

Construction expense that is being spent this year, is not expected to recur next year.

Transportation expenses, which show no expenditures year-to-date will begin to hit the budget beginning in November.

About 60% of the revenues from state and local resources have been received. By the end of the November the majority of the state and local monies should have been received with the balance coming in December.
