IV. Middle School Presentation

A. Middle School Presentation

Q: In terms of educational programs, what is the most crucial issue(s) facing the Middle School?

Primary Issue

- Students are entering middle school with significant unfinished learning in foundational mathematics
- Students begin the year one to three grade levels below proficiency making it difficult to access grade-level curriculum without targeted support.

Math Preparedness
How Are We Responding?

Providing students with more time practice Math

- Targeted re-design of Math Intervention

- Content Experts pushing into Math intervention to model instruction practice
- Purchased curriculum
- Focus on unit aligned foundational skills
- Focus on Tier 1 instruction
- Provide Professional Learning
 - Lesson Study
 - Building the Thinking Classroom

Q: What added resources that are not presently provided would assist you in your work?

1. Funding for Saturday Academy -Separate funding to establish a 20 week Saturday Intervention Academy
2. Pipeline to STEM- Educator programs and learning programs to build out STEM department
3. Certified Math Interventionist- Certified Math Specialist to work specifically with Tier 2 and Tier 3 students
4. Technology- An additional Chromebook Cart

2026 - 2027 Middle School Goals

Tier 1 Behavior Structures- Creating classroom cultures that hold students to high expectations

Engagement & Discourse- Provide teacher skills to promote deeper student collaboration and thinking

Math Achievement- Targeted Approach to Intervention Structure

Strengthen Leadership Monitoring & Accountability System - Targeted Action to improve teacher ownership of classroom culture

V. High School Presentation

A. High School Presentation

Q: What added resources that are not presently provided would assist you in your work?

Partnerships- Connection to college and career resources for students

STEM Pipeline- Educator programs and learning programs to build out STEM department

Labs- Supplies for room 118 & 148

Technology- Additional Chromebooks

Q: In terms of educational programs, what is the most crucial issue(s) facing the High School?

1. Depth of dual enrollment partnership
2. Limited scope of STEM programs
 1. STEM electives
 2. STEM pathway

3. Access to resume building opportunities tied to student college and career preparedness
 1. Traditional internships
 2. Networking opportunities
 3. Trade related experiences
 4. Field related certification programs

College, Training Program, STEM Career- 44 of our 2026 graduates are attending either a 2 or 4 year college

Training Program- 23 of our 2026 graduates are enrolled in trade school/training program

STEM Career- 24 of our 2026 graduates are going into STEM careers

2026-2027 Goals: 2026 - 2027 High School Goals

Student Experience:

Class Attendance -Targeted action to increase period attendance for all students

Pathway Expansion- Students driving their own learning experience

Engagement & Discourse- Data driven opportunities connected to student voice

Student Voice- Student voice incorporated into future planning

VI. Math Curriculum Presentation

A. Math Curriculum Presentation

K. Francis-Barnes went over Math Curriculum Overview with the Board of Directors.

We currently use MidSchool Math- Supports the basics and builds fluency to close the gaps in learning

- Uses a scaffolded model to move students from concrete application to abstract reasoning
- Build real world connections
- Aims to counter the national trend of achievement dip that occurs in the middle grades

High School Core Math Program:

- **Problem-Based Learning:** Students build understanding by doing math and solving non-routine problems first.
- **Equitable Access:** Built on the belief that all students can learn grade-level mathematics.

- **Consistent Routines:** Uses predictable structures like "Notice and Wonder" and "Which One Doesn't Belong?".

High School Math intervention

Problem-based, Tier 1 acceleration model that keeps all students engaged in grade-level mathematics.

Eliminates traditional remedial tracking by providing support within core instruction.

Built-in scaffolds help students access rigorous, grade-level tasks.

Diagnostic warm-ups identify unfinished learning before new instruction begins.

Daily formative assessments ("Cool-Downs") monitor student understanding.

Real-time instructional adjustments address learning gaps as they emerge.

Focuses on accelerating learning rather than remediating below-grade-level content.

VII. CEO/COO Report

A. CEO/COO Report

Q: What is a major area of concern facing Great Oaks Charter School?
