Considering adding 7Cs for staff as one example of addressing the trends identified. Evaluating the meeting schedule for the upcoming year as well.

Further discussion on necessity to offer additional survey to staff. Goal to assess experience. Suggestion to map previous survey to new survey for an evaluation of trajectory of response to change.

Discussion of clarity on governance and operational responsibilities in looking at new survey questions from the perspective of the Board.

Further discussion of opportunity to gather data during a climate of change and transition, specifically data coming from a Likert scale.

Question on the goal of the survey related to staff retention.

Explanation goal is to gather data points of overall experience during a time of transition and change.

Discussion to merge the previous staff survey with new survey questions to connect data points that Administration can use and Board can use.
