

# Bringing the Future of Education Technology to Students Today

Prepared for:

**El Camino Real Charter High School**

**Chromebook 1-1 Initiative**

**Proposal & Statement Of Work**

**February 2017**

## COMPANY OVERVIEW

STS (School Tech Supply) is a technology solutions company located in Southern California with distribution facilities throughout the US and UK. For more than 15 years STS has been providing the right technology for less money to K-12 schools and has been recognized by Inc. Magazine as one of the fastest growing privately-held companies since 2012. From Second-Life Hardware™ with a lifetime parts warranty to complete IT and Network Management solutions, STS is an upcoming industry leader with a foundation built on legendary customer service..

The roots of STS started in 2001 when then EduTech began providing schools with reconditioned computers in response to a California state initiative that granted technology funding to high schools. In 2010 EduTech merged with Pacific OneSource, under a unified goal to provide cost-effective technology solutions to classrooms nationwide. Today, STS reaches schools throughout North America and Europe with its Second-Life Hardware™ and education technology.

## Lodi Unified School District

June 2015 – Current
