B. February 2018 Financial Update

The 2nd Interim Financials report is one of the major financial reports provided to LAUSD.

This was already presented to the Board at the last Board meeting, and was already provided to LAUSD, but it has to be reviewed and voted on by the Board.

The current Forecast shows a net income of negative \$139,000, which is an improvement from the prior month's forecast.

The governor's budget will be announced shortly, and the final LCFF rate will be updated accordingly.

As of February, 43% of the Shoup expenses have been budgeted.

The ending Cash Flow Balance is due to the significant one-time charges this past year.

Beatriz Chen seconded the motion.

The board **VOTED** unanimously to approve the motion.

IV. School Business

A. Update on Closing the Achievement Gap

Mr. Hussey presented on this. During SBAC testing, community and career speakers spoke regarding career goals for students. There is a field trip that will take about 100 students to look at solar energy jobs. On May 5th, there is a RISE meeting and a bilingual parent meeting, and Board members are invited to the Latino parent summit. Student tutors are hired to work in the 7th period intervention program, and it may be beneficial to look into continuing this over summer school. We are looking to find the program that is most beneficial to students.

B. Discuss SafeSchools Plan and Other Safety Programs

We have foam tubing which we are testing out in a few classes to determine how they work for keeping doors open while being easy to close in the event of an emergency.

Mr. Dhillon spoke on the lockdown drill, which will be taking place shortly. Mr. Ryburn asked if we are keeping communicating to the parents regarding the drills. Mr. Dhillon replied that we post on social media to let parents know that the drills will be taking place, and then a phone call will be made to let parents know that the drills have been conducted.

noted that of the goals listed on the first page of the handout, we have accomplished many of the goals. In fact, the only ones remaining are: the Smartboards, which we have a 2 to 3 year plan on; and the 1:1 initiative, which is being presented tonight. Mr. Takeguma asks if the staff has bought into the new technology being introduced in the class. Ms. Chen noted that the teachers are being trained, and that training will continue through professional development. Moreover, many teachers and the students are driving the push for new technology.

F. Vote on 1-to-1 Laptops

The "Characteristics of a 21st Century Classroom" includes the DaaS Subscription description (page 8), which is a hybrid buy/lease program. The numbers are without the accidental insurance, but it includes the warranty, the hard cover case, and the white glove service. This also includes tech support. Insurance will cost \$25.00 per unit, which the students will pay. If LCAP students are unable to pay, we have a budget that would allow us to pay for those with financial hardship. This self-insurance model is being used by Granada, and is working. The numbers are based on 950 students per class, which is over our cap. \$415,000 in the first year, and \$525,000 in the second year, for the 64GB and cost of insurance.

Tech obtained approximately 5 quotes, and the 3 best are in the handout. Tech recommends the 64GB model, but the Board questioned whether it would be more prudent to approve the 128GB version, which is only \$30,000 more for twice the capacity.

Beatriz Chen made a motion to approve the 1 to 1 laptops for the 128GB models, including the purchase of accidental insurance of \$25.00 per unit for the 2018-19 school year.

Lisa Crosthwait seconded the motion.

The board **VOTED** unanimously to approve the motion.
