## III. Financial

### A. Review and Vote on March 2018 Check Registers

Steven Kofahl made a motion to approve the March 2018 check registers.

Beatriz Chen seconded the motion.

The board **VOTED** unanimously to approve the motion.

### B.

### **March 2018 Financial Update**

Forecast Update - ADA was lower than projected, so ADA-dependent revenue was reduced by \$556K. This was offset somewhat by reconciling stipends and depreciation, and revising budget on Shoup. Current LCFF rate is \$9,600 per student; next year LCFF will be fully funded but this year is still a transition year. ADA as of P2 was 3,316, a reduction of 54. This attrition is about the same, but it feels like it is more because we had less students this year to start with.

Mr. Ryburn is requesting a presentation next month from marketing regarding what steps are being taken to prevent this loss in ADA from continuing. Mr. Takeguma also wanted a discussion regarding the occupancy of Shoup. Mr. Silverstein asked if we could start marketing for an increased independent study now and house them on the main campus, until Shoup is ready for occupancy - Ms. Ring noted that our current main campus is filled to capacity, and we could not bring in more students here. Opening the Shoup campus would be a great benefit to the program.

Mr. Kofahl asked what happens if we end the year with a negative forecast number - Ms. Frantz stated that this would come out of our fund balance, but that it doesn't reflect a cash balance.

### **C. Discuss Proposed Changes to Fiscal Policies and Procedures**

The Fiscal Policies and Procedures document is being updated, to reflect recommendations from FCMAT as well as changes in systems and procedures. For example, check signers have been revised, reimbursement policy has been updated, work flow and hiring practices are being revised. We will send the revised FPP to LAUSD first for review, and then it will be presented to the Board for voting.

## **IV. School Business**

### **A. Update on Closing the Achievement Gap**

This is combined with item IV.B.

### **B. Discuss LCAP Yearly Update and Adjustments**

The intervention team will develop a plan to create a School Attendance Review Team (SART) and School Attendance Review Board (SARB), which will focus on students with continued chronic absences.

The Latino Parent Summit took place this last month, which was extremely well received.

LCAP focuses on academic support for certain populations for college and career goals. This is a 3 year plan. The proposed changes reflected are not major changes, but reflect modifications to reflect the data.

### **C. Tech Update**

The information regarding the tech upgrades is on the intranet, accessible through the school website.

The 1-to-1 program approved by the Board included a \$25 per student cost for insurance; for FRPM students, Friends of ECR is looking into paying this cost or using the funds for the Special Day Program. The first year cost will be \$465K; the second will be \$595K; then it will normalize out at about \$520K a year recurring cost.

Smartboards are being considered, and is in pilot now in several classrooms. This would be rolled out over time, about 2 years.

Mr. Ryburn asked how long professional development will be; it will be an ongoing thing as technology changes and more tech is adopted. Teacher Jason Kinsella was asked if the teachers had been advised regarding the 1-to-1 program; Mr. Kinsella stated that most teachers had heard very little about the 1-to-1, and that he himself had heard about it only this past week.

Mr. Ryburn asked if there were additional costs that have not yet been budgeted; Mr. Delgado stated that some additional software may be needed, and there will be the cost of e-books, though that may be offset by a reduction in hard cover textbooks.

Mr. Silverstein asked how long the Canvas rollout will be; Mr. Hussey stated that we are planning a 3 year rollout, in order to provide teachers enough time to get integrated into the program.

#### **D. Discuss and Possible Vote on Proposal for Clean Up**

Mr. Silverstein requested that the Board form a committee to come up with a letter to send to the Department of Toxic Substance Control (DTSC), a State organization that is in charge of the cleanup of the Santa Susana Field Lab on top of hills in Simi Valley. There has been a plan under review for the last decade on how to clean it. One potential way is to dig up the approximately 2.2 million cubic yards of toxic materials and ship it out; there are 10 potential shipping routes in the plan, one of which would include driving the toxic materials down Valley Circle Boulevard. Mr. Silverstein requested a letter to DTSC, asking them not to select the option of shipping it down Valley Circle Boulevard. Mr. Silverstein is willing to draft the letter and then present it to the Board for approval and to be signed by those Board members who support the letter.

#### **E. Discuss and Possible Approval of CharterLIFE Renewal for Health Care Benefits**

The benefits renewal package will be at an increase of 2.08% as compared to 2017-18. There are some changes to some of the plans that will result in changes in out of pocket expenses, but the overall change is reasonable. ECR is looking into different scenarios regarding different plans to be provided.

Darin Ryburn made a motion to approve the CharterLIFE Benefits Renewal.

Bruce Takeguma seconded the motion.

The board **VOTED** to approve the motion.
