We currently have 3,640 students in the computer; of this number, we may lose 40-50 students by the start of school. We have a wait list of about 50 students.

It is recommended that we move on the tree trimming, as the trees have not been trimmed in decades and even today some branches fell. We should go through the district as they have been fully vetted and they know what they are doing.

The Board reviewed a redlined version of the Fiscal Policies and Procedures (FPP), showing the difference between it and the prior version. The draft FPP was sent to CSD. The revisions were based on FCMAT recommendations, as well as concerns and questions of the Board. Ms. Crosthwait asked if there was ever a hard copy of a purchase request created? Yes, a paper Expense Request Form is filled out by the staff; this paper form is also processed and is kept as a paper backup for purposes of an audit. The request and approval process is automated through Netsuite, the form is one additional requirement.

**IV. School Business**

**A. Discuss and Possible Approval of Landscape Contract**

The request for a 6 month contract was requested from LAUSD but has not yet been received. The Executive Director requested that we move on this for safety reasons, and that we use LAUSD's approved vendor. Mr. Silverstein asks if we could start with a contract that would allow for an immediate start for those trees that constitute the biggest safety concerns. Mr. Kofahl asks why we could not go with the lesser priced vendor, even if they are not LAUSD vetted.

The motion is tabled for the larger contract, but the staff should be allowed to take care of the more immediate safety concerns now.

Brian Archibald made a motion to have the CBO enter into a contract for up to \$10,000 to take care of immediate concerns.

Bruce Takeguma seconded the motion.

**B. Discuss and Possible Approval of 2018-19 Parent-Student Handbook**

The changes to the Parent-Student Handbook were minor, primarily to change the calendar, and to include the Immigration and Citizenship Status Policy. Mr. Hussey also noted that the "double-fail" option (which allowed a student who was cheating to be given a zero for the project as well as removing additional points) was removed. Mr. Silverstein asks if there is something that could be included for parents and students who drive recklessly or park improperly. This could be added later as a further amendment to the Handbook.

Darin Ryburn made a motion to approve the 2018-19 Parent-Student Handbook.

Steven Kofahl seconded the motion.

The board **VOTED** unanimously to approve the motion.

**C. Tech Update**

Messages were sent out to parents, students and staff regarding the 1 to 1 rollout. Each grade level will have their own days to come and get their device. Parents with students in different grades cannot register both students at the same time, because of the staggered receipt of the devices. There will be 2 make-up dates where students can pick up a device if they weren't able to do so on their schedule days. At this time, the sign up is not automated, as automating the forms has to be developed with the assistance of an outside vendor, Biztech.

Regarding Canvas integration, the vendors did promise us that Canvas would integrate with Aeries, but now the vendor has indicated this will not be possible at this time. As a result, we will not be able to roll out this functionality in the Fall. Mr. Delgado is asked to look into getting a refund or discount as a result. Mr. Ryburn stated that there should be open communication, and that teachers should be apprised that this is a vendor issue. Ms. Clark stated that Canvas may have oversold their capability, as Canvas advised that the Aeries integration was in the Beta phase but that they were certain that the integration

would be done. Ms. Clark is asked to look into what the cancellation provision is in the contract, given that they cannot deliver on their integration assurance.

**D. Discuss and Possible Vote on Tech Refresh for Teachers**

Three quotes were obtained; the best quote was from CDW for \$144,778.50 and services from STS for \$3,250.00. The Board expressed concern about spending this amount, when all staff should have laptops. Mr. Delgado notes that 40% of teachers use laptops and 60% of teachers still use desktops. However, we do have extra laptops here that are being unused. And some clerical staff will need upgrades on desktops since they do not have laptops. Also, we will need docking stations, about 150 of them at a cost of \$60,000.

Matter is tabled until the next meeting. Mr. Delgado is asked to look into more specific information as to the true cost of the docking stations, and the number of extra laptops we have.
